ORDINARY AND EXTRAORDINARY

SHAREHOLDERS MEETINGS

CALL NOTICE

Shareholders of Vale S.A. (Vale) are hereby invited to convene for the Ordinary and Extraordinary General Shareholders Meetings to be cumulatively held on April 25, 2016, at 11am at Avenida das Américas, 700, 2nd floor, room 218 (auditorium), Città America, Barra da Tijuca, in the city of Rio de Janeiro/RJ, Brazil, for the purpose of discussing and deciding upon the matters set forth in the Agenda below:

1. Ordinary Shareholders Meeting

1.1. Appreciation of management report and analysis, discussion and vote of the financial statements for the fiscal year ending on December 31, 2015;

1.2. Proposal for the destination of profits of the fiscal year of 2015, if any;

1.3. Ratification of the appointment of an effective and an alternate members of the Board of Directors, on the meetings of the Board of Directors held on 06/25/2015 and 07/29/2015, respectively, in accordance with the Article 11, §5 of Vale s By-Laws;

1.4 Appointment of the members of the Fiscal Council; and

1.5 Establishment of the remuneration of the Management and members of the Fiscal Council for 2016.

Table of Contents

2. Extraordinary Shareholders Meeting

2.1 Proposal for amendment of the Shareholders Remuneration Policy.

According to CVM Rule No. 165/91, as amended by CVM Rule No. 282/98, a shareholder must hold at least 5% (five percent) of the Vale's voting capital in order to request the cumulative voting system.

All documentation pertaining to the matters to be discussed in the Ordinary and Extraordinary Shareholders Meetings is available to shareholders at Vale's headquarters, on its website (<http://www.vale.com>) and on the websites of the Brazilian Securities and Exchange Commission (<http://www.cvm.gov.br>), of BM&FBovespa S.A. - Bolsa de Valores, Mercadorias e Futuros, the São Paulo Stock Exchange (www.bmfbovespa.com.br), of the Securities and Exchange Commission of the United States (www.sec.gov) and of The Stock Exchange of Hong Kong Limited (www.hkex.com.hk).

Shareholders who wish to attend the Meetings may do so in person or appoint a duly-registered proxy, pursuant to Paragraph 1 of Article 126 of the Brazilian Corporate Law (Law No. 6,404/76). The proxy shall have been granted less than 1 (one) year before the Meetings, and be duly qualified as a shareholder, manager, attorney registered with the Brazilian Bar Association or a financial institution.

Note that shareholders must attend the Shareholders Meetings with proof of ownership of shares issued by Vale, such proof issued no more than 4 (four) business days prior to the date of the Meetings by the financial institution who serves as the bookrunner or custodian, as well as the following:

(a) in case the shareholder is a physical person, they must carry a valid photo identification document, or, where applicable, the identification document of their proxy and the respective power-of-attorney;

(b) in case the shareholder is a legal person, they must carry a valid photo identification document of the legal representative and the documents which prove his or her representation powers, including the power-of-attorney, and a

Table of Contents

copy of the articles of incorporation and of the minutes in which the management was appointed; and

(c) in case the shareholder is an investment fund, they must carry a valid photo identification document of the legal representative and the documents which prove his or her representation powers, including the power-of-attorney, and a copy of the valid regulation of the investment fund, the bylaws or articles of incorporation of its administrator, and the minutes in which the management was appointed. If any such documents are in a foreign language, they must be translated to Portuguese by a sworn translator, notarized, and legalized by consular officials.

The regularity of representation documents will be verified prior to the Meetings.

In order to expedite the process of holding the Meetings, we ask that the shareholders who will be represented by proxy kindly deposit the aforementioned documents proving representation at least 72 (seventy-two) hours prior to the Meetings.

Rio de Janeiro, March 23rd, 2016.

Gueitiro Matsuo Genso

Chairman of the Board of Directors

I. Notice of Meeting

The Shareholders of Vale S.A. (Vale) are hereby called to the Shareholders Annual and Special Meetings which will be held, cumulatively, on April 25, 2016, at 11:00 AM, at Avenida das Américas # 700, 2º andar, Sala 218 (auditorium), Città America, Barra da Tijuca, in this City, Rio de Janeiro, in order to deliberate on the following Agenda:

1. Shareholders Annual Meeting

- 1.1 Evaluation of management s annual report and, analysis, discussion, and vote on the financial statements for the fiscal year ending on December 31, 2015;
- 1.2 Proposal for the destination of profits for the 2014 fiscal year, if any;
- 1.3 Ratify the appointment of effective and alternate members of the Board of Directors occurred on the Meetings held on June 25, 2015 and on July 29, 2015, pursuant to Article 11, §10 of Vale s By-Laws;
- 1.4 Election of the members of the Fiscal Council; and
- 1.5 Establishment of the remuneration of the senior management and members of the Fiscal Council for the year 2016.

2. Shareholders Special Meeting

- 2.1 Proposal to amend Vale s Compensation Policy.

Table of Contents

II. Procedures for participation in the Meetings

2.1. Shareholder participation in general meetings

Vale shareholders may attend General Meetings **personally** or **be represented by a duly constituted attorney**.

The following documents will be required for shareholders to participate in General Meetings:

Individual person

- valid identity document with photo (original or certified copy) of the shareholder or, if applicable, of their attorney and respective proxy document. The following documents may be submitted: (i) General Record ID (RG); (ii) Foreigner s identity card (RNE); (iii) passport; (iv) Class Association card used as civil identity for legal purposes (ex. OAB, CRM, CRC, CREA); or (v) National Professional Card (CNH).
- proof of ownership of shares issued by Vale issued by the depositary financial institution or custodial agent up to 4 (four) working days before the date of the Meetings.

Corporate entity

- valid identity document with photo of the legal representative (original or certified copy). The following documents may be submitted: (i) General Record ID (RG); (ii) Foreigner s identity card (RNE); (iii) passport; (iv) Class Association card used as civil identity for legal purposes (ex. OAB, CRM, CRC, CREA); or (v) National Professional Card (CNH).
- evidentiary documents of representation, including power of Attorney and copy of the constitutive acts and of the minutes of the

Table of Contents

election of Directors, and, in the case of investment fund, copy of fund rules in force, of the bylaws or social contract of its director, and of the election of Directors. If such documents are in a foreign language they must be translated to Portuguese by a sworn translator, notarized and consularized.

- proof of ownership of shares issued by Vale issued by depositary financial institution or custodial agent up to 4 (four) working days before the date of the Meetings.

We remind you that the regularity of the representation documents will be checked before the beginning of Meetings. For this reason, Shareholders are requested to kindly arrive in advance of Meetings so that the documents necessary for their participation can be duly checked in timely manner for its participation.

2.2. Proxy Representation

Shareholder participation in Meetings can be in person or through a duly constituted Attorney, observing the terms of §1 of Art. 126 of law # 6,404/76. It is also necessary that the attorney should have been nominated less than 1 (one) year previously, and qualify as a shareholder, a Vale executive, a lawyer registered with the Brazilian Bar Association, or be a financial institution, and the partnerships of investment funds must be represented by its fund management company.

Pursuant to the provisions set forth in the Circular-Letter/CVM/SEP/# 02/2016, legal corporate entities may be represented in Meetings by their legal representatives or by a duly constituted attorney in accordance with the provisions of their respective constitutive acts and the Brazilian Civil Code. In this case, it is not required that the attorney of the corporate entity shareholder be qualified as a shareholder, a Vale executive or a lawyer.

In the case of proxy in a foreign language, it should be accompanied by the corporate documents, in the case of a corporate entity, and the proxy instrument adequately prepared in Portuguese, notarized and consularized.

Table of Contents

In item V of this manual there is a proxy template for reference purposes for shareholders. Shareholders will also be able to use proxies other than that suggested in this guide, as long as they are in accordance with the provisions of law # 6,404/76 and the Brazilian Civil Code.

For the purpose of expediting the process of conducting the Meetings, those shareholders represented through a power of attorney (proxy) may, at their sole and exclusive discretion, send the representative documents at least seventy-two hours (72) prior to the Meetings, to the following address:

Attn.: Investor Relations Officer

Avenida das Américas 700, 2º andar, sala 218

Barra Rio de Janeiro RJ

Regarding the above-mentioned deadline, we point out that the shareholder who appears by the start of the Meetings with the required documents will be entitled to participate and vote, even if he or she have not submitted them in advance.

We remind you that the regularity of the representation documents will be checked before the beginning of Meetings. For this reason, Shareholders are requested to kindly arrive in advance of Meetings so that the documents necessary for their participation can be duly checked in timely manner for its participation.

Table of Contents

III. The Vote

3.1. Voting Rights

Pursuant to Article 5 of Vale's By-Laws, each common share, each class A preferred share, and each special class preferred share allows for one vote in the deliberations of the General Meeting, and it is certain that class A and special preferred shares have the same political rights as the common shares, except for voting to elect members of the Board of Directors, excluding the provisions of §2° and §3° of Article 11 of the By-Laws, as well as the right to elect and dismiss a member of the Fiscal Council and his respective substitute.

We emphasize that under the terms of CVM Instruction # 165/91, as amended by the CVM Instruction # 282/98, the minimum percentage of participation in the Vale's voting capital required to request multiple voting is 5% (five percent).

Table of Contents

IV. Agenda Items of the Shareholders General and Special Meetings

All documents regarding the agenda of Vale Shareholders General and Special Meetings are available to the shareholders at the main offices of Vale, on the Company's web site (www.vale.com) and on the web sites of the Brazilian Securities and Exchange Commission (www.cvm.gov.br), the BM&FBovespa S.A. - São Paulo Stock Exchange (www.bmfbovespa.com.br), the Securities and Exchange Commission (www.sec.gov), and The Stock Exchange of Hong Kong Limited (www.hkex.com.hk).

4.1 Annual General Meeting

4.1.1 Evaluation of the management's annual report and analysis, discussion, and vote on the financial statements for the fiscal year ending on December 31, 2015.

In order to deliberate on this issue, the following documents will be available to the shareholders:

- (a) the Annual Management Report, the Financial Statements, the Financial Statements for the fiscal year ending on December 31, 2015 and the Opinion of the Independent Auditors (KPMG Auditores Independentes), which will be published as required by current legislation;
- (b) the Opinions of the Board of Directors and the Fiscal Council, dated 02/24/2016;
- (c) DFP Form 2015 (Standard Financial Statements);
- (d) Managers' comments on Vale's financial situation, as per item 10 of Vale's Reference Form, pursuant to the provisions set forth in Article 9, III, of CVM Instruction # 481/2009 as amended, attached hereto as Annex I.

4.1.2 Proposal for the destination of profits for the 2015 fiscal year, if any.

Vale ascertained a net loss in the amount of R\$44,212,186,731.00 related to the fiscal year ended on December 31, 2015, being the aforesaid net loss absorbed pursuant to

Table of Contents

Article 189, sole paragraph, of Law # 6.404/1976. Therefore, Vale will not distribute dividends related to the fiscal year ended on December 31, 2015.

In view of the resolutions above, Vale is exempt from presenting the Annex 9-1-II in accordance with Article 9, paragraph 1, II, of CVM Instruction # 481/2009, due to the instruction set out in Circular Letter/CVM/SEP/# 02/2016.

It should be emphasized that, based on the retained earnings reserves approved on the balance sheet related to the fiscal year of 2014, the Board of Directors has approved on the meeting held on (a) April 14, 2015, the payment, as of April 30, 2015, of the first installment of the minimum dividend for 2015, in the total gross amount of R\$3,101,100,000.00, in the form of interest on capital, corresponding to the total gross amount of R\$0.601760991 per outstanding common or preferred share issued by Vale, being such amount subject to Withholding Income Tax at rate in force; (b) October 15, 2015, the payment, as of October 30, 2015, of the second installment of dividend for 2015, in the total gross amount of R\$1,925,350,000.00, corresponding to R\$0.373609533 per outstanding common or preferred share issued by Vale.

4.1.3 Ratify the appointment of the effective and alternate members of the Board of Directors.

Pursuant to Article 11 of Vale's By-Laws, the Board of Directors is composed of eleven members and their respective substitutes, who are shareholders of the company. The mandate term for members of the Board of Directors is two years, and re-election is allowed. The election of the members of the Board of Directors shall comply with the provisions established under current legislation and those under Vale's By-Laws.

In view of the vacancy of the Board of Directors positions, and pursuant to Article 11, §10 of Vale's By-Laws, Mr. Alberto Ribeiro Guth (as effective) and Mr. Arthur Prado Silva (as alternate for Mr. Dan Conrado) were elected as members of the Board of Directors on the Meetings held on June 25 and on July 29, 2015, respectively, who will remain in the position until the first Annual Shareholders Meeting after their election.

Therefore, Valepar S.A. proposes to ratify on the Shareholders Meeting, which will be held on April 14, 2016, the appointment of such members to remain in their positions until the 2017 Annual Shareholders Meeting.

Pursuant to the provisions set forth in Article 10 of CVM Instruction N. 481/2009 and, as set forth in Annex A of CVM Instruction # 552/2014, below please find information

Table of Contents

with respect to Mr. Alberto Ribeiro Guth and Mr. Arthur Prado Silva pursuant to items 12.5 through 12.10 of the Reference Form.

**EXCERPT OF THE MINUTES OF THE
ORDINARY BOARD OF DIRECTORS MEETING OF VALE S.A.**

On February 24, 2016, at 9:30 am, met, ordinarily, at Rua Almirante Guilhem, 378, 7^o floor, Rio de Janeiro, RJ, Messrs. Dan Conrado Chairman, Sérgio Alexandre Figueiredo Clemente Vice Chairman, Marcel Juviniانو Barros, Gueitiro Matsuo Genso, Tarcísio José Massote de Godoy, Oscar Augusto de Camargo Filho, Alberto Ribeiro Guth, Lucio Azevedo, and the alternates Messrs. Yoshitomo Nishimitsu and Luiz Maurício Leuzinger, and also Mr. Clovis Torres as secretary, having unanimously resolved upon the following: **FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR 2015 AND RELATED ACTS** Messrs. Luciano Siani, Executive Officer of Finance and Investor Relations, Marcelo Botelho, Controller Officer, and Murilo Muller, Executive Manager of Controller and Accounting, performed presentation on the subject. With a favorable report of the Financial Committee and of the Fiscal Council, as reported by Marcelo Amaral Moraes and Aníbal Moreira dos Santos present at the meeting under the provisions of Article 163, §3, of Law No. 6404/76, and in the presence of Messrs. Bernardo Moreira and Daniel Ricica, representatives of KPMG Auditores Independentes, external auditor according to Brazilian and North American accounting standards, which issued a favorable opinion the Company's Financial Statements for the financial year 2015, the Board of Directors approved the Annual Report, the balance sheet and further financial statements of Vale for the year ended 12/31/2015. **BOARD OF DIRECTORS** The members of the Board were informed by Mr. Dan Conrado that, after a natural transition, he decided to leave the functions of Chairman of the Board of Directors as of this date, remaining as member of the Board of Directors. Therefore, they approved the designation of Mr. Gueitiro Matsuo Genso, as Chairman of the Board of Directors of Vale. I hereby attest that the deliberations above were excerpted from the Minutes taken from the Registry of the Minutes of the Board of Directors Meetings of the Company.

Rio de Janeiro, February 24, 2016.

**OPINION OF FISCAL COUNCIL ON RECOGNITION OF VALE S.A. S FISCAL ASSET AS
OF DECEMBER 31, 2015**

The Fiscal Council of Vale S.A. (Vale), in performing its legal and statutory duties, and under the terms of article 4 of CVM Instruction 371 of June 27, 2002, has examined the proposal to recognize the accounting entry for Vale s deferred fiscal asset as of December 31, 2015.

Based on the study produced by Vale, containing the company s record of profitability and expected future profitability, it is our opinion that this fiscal asset has the prospect of being realized in the short to medium term, and consequently it may be recognized in the financial statements of December 31, 2015.

**OPINION OF THE FISCAL COUNCIL ON THE ANNUAL REPORT AND FINANCIAL
STATEMENTS OF VALE S.A. FOR THE FISCAL YEAR ENDED DECEMBER 31, 2015**

The Fiscal Council of Vale S.A. (Vale), in carrying out its legal and statutory duties, after examining the Company's Annual Report, Balance Sheet, Statement of Income, Statement of Comprehensive Income, Statement of Cash Flows, Statement of Changes in Stockholders' Equity, Statement of Added Value and the respective Notes of the Financial Statements relative to the fiscal year ended December 31, 2015 and based on the opinion of the independent auditors, is of the opinion that the mentioned information, examined in accordance with applicable corporate legislation should be approved by the Annual Stockholders' General Meeting of the Company.

10. Director Comments

10.1. General Financial and Equity Conditions

Financial information included in this Reference Form, except expressly otherwise noted, refers to consolidated financial statements of years ending on December 31, 2013, 2014, and 2015.

Information in this item 10 in the Reference Form should be read and analyzed jointly with our consolidated financial statements, available at our website (www.vale.com.br) and the website of Comissão de Valores Mobiliários (www.cvm.gov.br).

a. General Financial and Equity Conditions

On December 31, 2015, Vale net operational revenue was R\$ 85.5 billion and the operational margin (prior to the recoverable values of noncurrent assets and loss in the measuring of the sale of noncurrent assets) was 10.6%. The operational loss was R\$ 25.4 billion, mainly due to a drop in the prices of its products. This year, that Company has sought after several opportunities to reduce costs. Vale has presented an 18.2% reduction in net operational revenues (including SG&A, research and development, pre-operational and stoppage, and other expenses), corresponding to R\$ 1,724 billion, compared to the same period in 2014, especially marked by the revenue arising out of the *gold stream* operation in the amount of R\$ 722 million and provision reversion to fixed assets retirement, in the amount of R\$ 1,281 billion, due to rate change due to risk change. Additionally, Vale has had an increase in impairment of assets, to R\$ 34,553 billion compared to R\$ 2,713 billion in 2014. Cash generation, measured by Adjusted EBITDA(1), was R\$ 23.7 billion in 2015.

On December 31, 2014, Vale net operational revenue was R\$ 88.3 billion, and the operational margin (prior to the recoverable values of noncurrent assets and loss in the measuring of the sale of noncurrent assets) was 22.3%. The operational profit was R\$ 16.6 billion in 2014, an approximate 50% reduction compared to the operational profit in 2013, mainly due to a drop in ore prices. Continuous Company efforts to cut costs, investment discipline and focus on core business were seen this year. Vale had a 11.9% reduction in net operational costs (including SG&A, research and development, pre-operational and stoppage, as well as other costs), corresponding to R\$ 1,277 billion, relative to 2013. This drop was due mainly to the reduction of costs related to operation stoppage and optimization in the Company's cost structure, after adjustments made in 2013. Additionally, in 2014, Vale had a reduction of 49.7% in the impairment of assets, R\$ 5,390 billion in 2013 to R\$ 2,713 billion in 2014, due to return on the Onça Puma operation. Cash generation, measured in Adjusted EBITDA(1), was R\$ 31.1 billion in 2014.

In 2013, Vale net operational revenue was R\$ 101,490 billion and the operational margin (prior to the recoverable values of noncurrent assets and loss in the measuring of the sale of noncurrent assets) was 37.7%. The operational profit was R\$ 32,340 billion in 2013. In 2013, as a result of the Company's focus on investments in world-class assets, several adjustments were made, among the non-realization of the potash project (PRC) in Argentina, and the sale of the company Tres Valles, as described in Explanatory Note no. 7 of the Company's 2013 consolidated accounting statements. Besides, Vale also reported an operation in the Tax Recovery Program REFIS, which substantially involved all of the claims related to income tax collection and social contributions on capital gains of subsidiary and associated companies abroad, whose loss expectations were classified as possible. Such factors negatively affected the Company financial performance in 2013, resulting in financial indicators reduction relative to what was obtained in 2012. In this scenario, the Company had a net loss of R\$ 258 million in 2013; relative to

2012 s net profit of R\$ 9.4 billion.

(1) Adjusted EBITDA is the operational profit or loss added with dividends received from affiliates and *joint ventures* and excluding depreciation, depletion, and amortization, impairment, contracts and resulting in the measurement or sale of noncurrent assets.

Table of Contents

The sale of ferrous minerals - iron ore, pellets, manganese ore and ferroalloy represented 64.8% of total net operating revenues in the year ended on December 31, 2015, relative to 68.4% in the year ended on December 31, 2014. In 2013, the total net operational revenue of ferrous minerals was 74.6%.

Base metals participation in the total net revenue was 24.0% in 2015 compared to 20.6% in 2014. In 2013, the base metals participation in net revenue was 15.5%.

Fertilizer revenue was 8.7% in 2015, compared to 5.9% in the same period in 2014. In 2014 and 2013, the fertilizer revenue in total net revenue was 6.4% and 6.0%, respectively.

Other products represented 2.5% of the 2014 total operating net revenue in 2015, relative to 4.6% in 2014. In 2013, the contribution of other products to the total net operational revenue was 3.9%.

Fiscal year ending on December 31,

Business segments	2013	2014	2015
Ferrous minerals	74.6%	68.4%	64.8%
Base metals	15.5%	20.6%	24.0%
Fertilizers	6.0%	6.4%	8.7%
Others	3.9%	4.6%	2.5%
Total	100.0%	100.0%	100.0%

On December 31, 2015, the gross debt of the Company (understood as the sum of loans and financing of our current liabilities and non-current liabilities) summed R\$ 112,666 billion, compared to R\$ 76,517 billion, on December 31, 2014, representing a 47.2% increase, mainly due to depreciation of real compared to the US dollar. Despite the increase in gross debt in reais for that period, the gross debt in US dollars had an increase lower than the increase of the gross debt in Reais, namely, 0.2%, from US\$ 28,807 billion on December 31, 2014 to US\$ 28,853 billion on December 31, 2015. On December 31, 2014 and 2013, the gross debt summed R\$ 76,517 billion and R\$ 68,977 billion, respectively, and the 10.9% increase perceived between those fiscal years was due to depreciation of real compared to the US dollar. Despite the increase in gross debt in the period between December 31, 2013 and December 31, 2014, the absolute debt in dollars decreased a little, from US\$ 29.655 billion on December 31, 2013 to US\$ 28.807 billion on December 31, 2014.

On December 31, 2015, the current liquidity index of the Company (which is the index found by dividing the current asset by the current liability) was 1.09, compared to 1.56 on December 31, 2014 and 2.25 on December 31, 2013. The decrease in the liquidity index in 2015 compared to the previous fiscal year was mainly due to increase in Company debt due to depreciation of real compared to the US dollar, with impact on the debt expressed in dollars. In turn, the drop in liquidity on December 31, 2014, compared to December 31, 2013 resulted mainly from lower cash generation from operational activities due to the lower price of most *commodities* sold by the Company.

Edgar Filing: Vale S.A. - Form 6-K

On December 31, 2015 the Company had controlling shareholders' equity of R\$ 131,160 billion, compared to 146,414 billion on December 31, 2014. Shareholders' equity suffered 10.4% reduction, mainly due to absorption of loss in 2015 with reserves. On December 31, 2013, the controlling shareholders' equity was R\$ 148,346 billion, that is, 1.3% lower than the net equity on December 31, 2014, , mainly justified by the use of the net profit of the year to pay the shareholders' compensation and set forth provisions.

Table of Contents

In 2015, 2014, and 2013, Vale delivered to its shareholders dividends in the amount of US\$ 1.5 billion (R\$ 5.0 billion), US\$ 4.2 billion (R\$ 9.7 billion), and US\$ 4.5 billion (R\$ 9.3 billion), respectively.

b. Capital Structure

The table below presents the funding standard adopted for Company activities, considering equity and third party capital:

R\$ billion	Fiscal year ended on December 31,		
	2015	2014	2013
Third party capital (liabilities + noncurrent liabilities)	206,128	159,814	139,760
Equity (shareholders' equity)	139,419	149,601	152,121
Total Capital (third party + equity)	345,547	309,415	291,881

c. Payment Capacity in Relation to the Financial Commitments Assumed

The leverage, measured by the gross debt/adjusted(2) EBITDA, showed decrease in the fiscal year ending on December 31, 2015 compared to the fiscal year ended on December 31, 2014, especially due to drop in the price of *commodities*, as the following table illustrates:

(in R\$ million, except %)	Fiscal year ended on December 31		
	2015	2014	2013
Net profit (loss) for the year	(45,997)	219	(258)
(+) Income tax and social contribution	(18,879)	2,600	15,249
(+) finance results	36,538	14,753	18,442
EBIT	(28,338)	17,572	33,433
(+) Depreciation, amortization and depletion	13,489	10,108	8,953
EBITDA	(14,849)	27,680	42,386
Equity held on <i>joint ventures</i> and affiliates	1,507	(1,141)	999
Impairment of noncurrent assets and investments	34,553	2,713	5,390
Impairment of equity on joint ventures and affiliates	1,727	71	0
Gains from the sale of equity on joint ventures and affiliates	(296)	68	(98)
(Gain) loss in the realization of noncurrent assets held for sale	(52)	441	508
Dividends received	1,064	1,302	1,836
Discontinued operations			4
Adjusted EBITDA	23,654	31,134	49,027
Dividends received	(1,064)	(1,302)	(932)
Depreciation, amortization and depletion	(13,489)	(10,108)	(8,953)
Adjusted EBIT	9,101	19,724	38,238
in R\$ billion	2015	2014	2013
Gross debt	112,666	76,517	68,977

Edgar Filing: Vale S.A. - Form 6-K

Leverage, measured by gross debt/Adjusted EBITDA ratio	4.8	2.5	1.4
--	-----	-----	-----

The gross debt/ Adjusted EBITDA (4.8 on December 31, 2015 compared to 2.5 on December 31, 2014 and 1.4 on December 31, 2013). The increase of this index in the period between December 31, 2013 and 2015, is due to decrease on the price of commodities and depreciation of real compared to the US dollar.

(2) Adjusted EBITDA is used by the Company management to help in the decision-making process of segments. The definition of Adjusted EBITDA is operational loss or profit added with dividends received from affiliates or joint ventures, excluding depreciation, depletion, and amortization, impairment, agreements, and result of measurement or sale of noncurrent assets

Table of Contents

The index of interest coverage, measured by the indicator EBITDA adjusted/payment of interest, was 4.3x on December 31, 2015, 7.6x on December 31, 2014, 14.4x on December 31, 2013. The decrease of this index in the period between December 31, 2013 and 2015, is due to decrease in EBITDA, with impact from the drop on the price of commodities in the international market and the impact of foreign exchange depreciation of real compared to the US dollar, with negative impact on the portion of costs and expenses expressed in other currencies (mainly US dollar and Canadian dollar).

in R\$ billion	On December 31,		
	2013	2014	2015
Gross debt	68,977	76,517	112,666
Cash position*	12,465	10,555	14,022
Financial investments	0,008	0,392	0,109
Net debt	56,504	65,570	98,535

d. Source of financing for working capital and investments in non-current assets

The sources of funds utilized by Vale in the last three years were generation of operating cash, loans and financing, and issue of bonds and securities, convertible or not, launched in the capitals market and sale of investments.

Operating activities from continuing operations generated cash flows of R\$ 15,719 billion in 2015, compared to R\$ 27.792 billion in 2014 and R\$ 31.876 billion in 2013. Comparing 2013 and 2014, the operating cash flow suffered a reduction in 2012 determined mainly by price drops in our products. In 2013, operating cash flow suffered variation mainly due to the gold stream operation outsourced in February 2013 with Silver Wheaton Corp. (SLW) to sell 70% of the payable gold flows produced as a byproduct in the nickel mines in Sudbury Coleman, Cooper Cliff, Creighton, Garson, Stobie, Totten and Victor for a 20 year term, and with Silver Wheaton (Caymans) Ltd. to sell 25% of the payable gold flows produced as a by-product in the copper mine in Salobo for the longevity of the mine. In 2015, the operating cash flow suffered variation compared to the previous fiscal year mainly due to the drop of the price of ore and pellets

Among other more relevant operations in the three-year period, the following are highlighted:

- In November 2015, Vale issued R\$ 1.5 billion in credit notes to export with due date in 2022 before Banco do Brasil.
- In August 2015, Vale issued infrastructure debentures to be placed by means of a public offer, in the total amount of R\$ 1,350 billion. Infrastructure debentures are to be monetarily adjusted and will pay annual interest, priced at IPCA + 6.6232% a year and IPCA + 6.6252% a year, depending on the series.
- In May 2015, Vale acquired a new revolving credit facility in the amount of US\$ 3.0 billion (equivalent to R\$ 9.5 billion), for five years. This revolving credit facility replaces the revolving credit facility of the

same amount acquired in 2011, being acquired from a syndicate comprised by 24 global banks.

- In March 2015, Vale signed a bank credit note with Bradesco for R\$ 700 million. This agreement has been used as grounds for the CRI, to fund projects under the S11D Logística, in Complexo Portuário de Ponta Madeira. The agreement term is for seven years, and funds have been fully disbursed by June 30, 2015.
- From March to July 2015, Vale has acquired and disbursed exporting pre-payments with due dates in five or six years, linked to future sales, summing US\$ 1.20 billion (equivalent to R\$ 54.7 billion).

Table of Contents

- In December 2014, Vale acquired exporting prepayment with the Bank of China, due in six years, in the amount of US\$ 300 million (equivalent to R\$ 797 million), which has been fully disbursed. The total term of this operation is 6 years and by December 31, 2014 there was no disbursement related to this operation.
- In May 2014, Vale signed two new funding agreements with the BNDES in the total amount of R\$ 6.2 billion. These agreements refer to the deployment of S11D and CLN S11D projects. The financing shall be in effect for ten years and funds will be disbursed in up to three years, according to the projects schedule. By December 31, 2015, R\$ 3.3 billion were disbursed under these agreements.
- In January 2014, Vale issued infrastructure debentures in the amount of US\$ 376.5 million (equivalent to R\$ 913.5 million). Infrastructure debentures are to be adjusted and will pay annual interest, according to IPCA + 6.46% per year (equivalent to NTN-B 2020 0.15%), IPCA + 6.57% per year (equivalent to NTN-B 2022 0.10%), IPCA + 6.71% per year (equivalent to NTN-B 2024 + 0%) and IPCA + 6.78% per year (equivalent to NTN-B 2030 + 0%), and mature in 2021, 2024, 2026, and 2029, depending on the series.
- In January 2014, Vale acquired a financing in the amount of US\$ 775 million with the Canadian agency EDC. The financing was divided into two tranches that are in effect for 5 and 7 years. The amount was fully disbursed by December 31, 2014.
- In December 2013, Vale issued R\$ 650 million in export credit notes from Brazilian commercial banks with maturity in 2023.
- In October, November and December 2013, Vale acquired export pre-payments with maturity in five and seven years, linked to future sales, totaling US\$ 1.4 billion (equivalent to R\$ 3.2 billion), which have been fully disbursed at the time.
- In July 2013, Vale signed a financing contract with Banco Safra, a BNDES financing agent, in the amount of R\$ 109.3 million. This contract is for the purchase of domestic equipment and was fully disbursed by December 31, 2014.
- In July 2013, Vale acquired a new revolving credit facility in the amount of US\$ 2.0 billion (equivalent to R\$ 4.7 billion), with a five-year maturity in a best effort transaction.

e. Potential sources of financing used for working capital and for investments in non-current assets for coverage of liquidity deficiency

In the regular course of business, the principal need for funds of Vale refers to capital investments, payments of dividends and debt service. The sources of funds frequently used are operating cash flow and financing.

The main sources of financing to cover liquidity deficiency are the facilities related to the export transactions offered by local banks (Advance on Foreign Exchange Contract - ACCs, and Advance on Delivered Exchange Instruments - ACEs).

Vale has, moreover, revolving lines of credit available that may be used at the option of the debtor. In 2013, Vale obtained a revolving credit facility in the amount of US\$ 2.0 billion (equivalent to R\$ 4.7 billion), for five years, while in fiscal year ending on December 31, 2014, Vale has not acquired revolving credit facilities.

In May 2015, the Company acquired another revolving line of credit in the amount of US\$ 3.0 billion (equivalent to R\$ 9.5 billion), with maturity period of 5 years, totaling, in lines of this

Table of Contents

type, available on December 31, 2015, \$US\$ 5 billion, that may be used by Vale, Vale Canada Ltd. (Vale Canada), and Vale International S.A. (Vale International).

IN January 2016, Vale has disbursed US\$ 3 billion in revolving credit facilities, for purposes of increasing liquidity and covering potential cash flow needs until conclusion of the divestment program.

f. Indebtedness levels and composition of such debts

On December 31, 2015, the total debt was R\$ 112.666 billion, with a tranche of R\$ 1.937 billion guaranteed by Vale's assets, with an average maturity period amortization of 8.13 years and an average cost of 4.47% per year in US dollars.

DEBT STRUCTURE In R\$ billion	ON DECEMBER 31,		
	2013	2014	2015
Gross debt	68,977	76,517	112,667
Tranche guaranteed by assets of Vale	5%	5%	1.7%
Average term of amortization (in years)	9.89	9.10	8.13
Average cost (in US dollars)	4.6%	4.6%	4.5%

Since July 2005, Vale has been considered investment grade by some of the main rating agencies. On the date of this Reference Form, Vale currently has the following credit risk ratings: BBB- (Standard & Poor's), Ba3 (Moody's), BBB (Dominion Bond Ratings) and BBB (Fitch).

i. Relevant loan and financing contracts

The most important categories of the total debt of the Company are presented below. The values presented exclude the accumulated costs.

- *Loans and financing contracted in US dollars (R\$ 27.5 billion, R\$ 18.7 billion, and R\$ 15.5 billion on December 31, 2015, 2014, and 2013, respectively).* These loans include credit facilities for exports, financing imports from the export credit agencies and loans from commercial banks and multilateral organizations.
- *Fixed income instruments issued in US dollars (R\$ 55.1 billion, R\$ 35.3 billion, and R\$ 32.4 billion on December 31, 2015, 2014, and 2013, respectively).* Vale issued several debt securities in the capital market, inclusive through its wholly owned subsidiary Vale Overseas in the total amount of US\$ 13 billion (equivalent to R\$ 50.8 billion). The subsidiary Vale Canada issued debt securities in the amount of US\$ 400 million (equivalent to R\$ 1.6 billion).

- *Fixed income instruments issued in euros (R\$ 4.8 billion, R\$ 4.8 billion and R\$ 4.0 billion on December 31, 2014, 2013, and 2012, respectively).* Vale issued debt securities in the capital market in the total amount of 1.5 Billion (equivalent to R\$ 4.8 billion).

- *Other debts (R\$ 21.2 billion, R\$ 16.5 billion, and R\$ 15.2 billion on December 31, 2015, 2014, and 2013, respectively).* The Company has several loans acquired in Brazil, mainly with the BNDES and some private Brazilian banks, as well as loans and financing in other currencies.

For information on most relevant financing operations in last three fiscal years, see item 10.1(d) above.

Table of Contents

ii. **Other long-term relationships with financial institutions**

Vale and its associated and subsidiary companies have a commercial relationship in the normal course of their business with some of the main financial institutions in the country, according to regular financial market practices.

iii. **Degree of subordination among debts**

There is no degree of contractual subordination among the Company's unsecured financial debts. Financial debts that are secured through collateral have the privileges and prerogatives granted by the law.

Additionally, considering the total of current and non-current liabilities of the Company, the R\$ 206,128 billion or 99.1%, corresponded to unsecured debts on December 31, 2015 (compared to R\$ 156,329 million or 97.8% on December 31, 2014; and R\$ 136.350 billion or 97.6% on December 31, 2013). Such amounts are subject to the preference of Company obligations that appear as collateral, including mortgage of assets totaling, on December 31, 2015, R\$ 1,937 billion or 1.7% of the total current and non-current liabilities of the Company, compared to R\$ 3.485 or 2.2 % on December 31, 2014; and R\$ 3.410 billion or 2.4% on December 31, 2013.

iv. **Any restrictions that might be imposed on the issuer in particular, in relation to limits of indebtedness and contracting the company's debts, the distribution of dividends, the disposal of assets, the issue of new securities and the transfer of corporate control, and if the issuer has been compliant with these restrictions**

Some long-term financial instruments contain obligations related compliance with financial indicators. The main indicators are: (i) leveraging (which is the index found with the division of debt by Earnings Before Interest Tax, Depreciation and Amortization (EBITDA), and (ii) interest coverage (which is the index found by dividing EBITDA with interest expenses). Vale is in conformity with the levels required for the indicators.

Preventively, Vale has executed agreements in the last quarter to increase the upper limit of the financial covenant of the gross debt for adjusted EBITDA from 4.5x to 5.5x by the end of 2016. This type of measure ensures greater flexibility during the period when Vale closes its investment cycle. In addition, no clause is directly limiting the ability to distribute dividends or interest on equity.

g. **Limits of financing contracted and percentage of use**

The following is a description of limits set forth by the relevant infrastructure debentures and financing contracts in the last three fiscal years:

Edgar Filing: Vale S.A. - Form 6-K

Date	Counterparty	Allocation	Value	Percentage Used	Disbursement of funds
8/15/2015	N/A	Use or reimbursement with expenses and/or debts related to the project for Expansion of Carajás Railway	R\$ 1.35 billion	100%	All infrastructure debentures issued by the Company have been fully subscribed and paid up.
3/24/2015	Banco Bradesco S.A.	Funding of CLN S11D project	R\$ 700 million	100%	Funds were disbursed entirely.
5/19/2014	BNDES	Funding of S11D and CLN S11D projects	R\$ 6.2 billion	54%	The credit is available in tranches, according to the projects

Table of Contents

					schedule
01/15/2014	N/A	Used in the reimbursement of spending, expenses and/or debt related to the Southeastern Railroad Branch of the Pará Project (RFSP)	R\$ 1.0 billion	100%	The entire infrastructure debentures issued by the Company have already been subscribed and paid
12/27/2013	BNDES	Financing for the Tecored Investment Plan	R\$ 136.7 million	100%	Credit is provided in tranches according to the project schedule
06/15/2013	Banco J. Safra	Financing for equipment	R\$ 109.31 million	100%	Credit is provided in tranches according to the project schedule
10/19/2012	BNDES	Financing for Vale Fertilizantes Project	R\$ 88.63 million	100%	Credit is provided in tranches according to the project schedule
09/24/2012	BNDES	Financing for CLN150 Project	R\$ 3.88 million	94%	Credit is provided in tranches according to the project schedule
8/04/2011	Banco Bilbao Viscaya, Banco Santander, BNP Paribas, Citibank Europe, Credit Agricole, HSBC, Natixis, and Societé Generale	Financing for the acquisition of ships with the Korean shipbuilders Daewoo and Sungdong	R\$ 2,062 billion	82%	The credit was provided in tranches according to the ship delivery schedule, and the remaining unused balanced was cancelled
4/01/2008	BNDES	investments made in Brazil	R\$ 7.3 billion	76%	The credit is provided in tranches according to the project schedule

h. Significant alterations in each item of the financial statements

Fiscal year ending on December 31, 2014 compared to fiscal year ending on December 31, 2015

Analysis of Operating Results 2014 x 2015

The table below presents the values for the consolidated income statements for the fiscal years ended December 31, 2015 and 2014:

(in R\$ billion) Income statement	Fiscal Year ending on December 31,				Variation (%) (2014 x 2015)
	2014	AV (%)	2015	AV (%)	
Net Operating Revenues	88,275	100.0	85,499	100.0	(3.1)
Cost of products and services	(59,087)	(66.9)	(68,658)	(80.3)	16.2
Administrative and sales expenses	(2,603)	(2.9)	(2,143)	(2.5)	(17.7)
Research and development	(1,738)	(2.0)	(1,603)	(1.9)	(7.8)
Pre-operational and shutdown operation	(2,563)	(2.9)	(3,408)	(4.0)	33.0

Table of Contents

Fiscal Year ending on December 31,

(in R\$ billion)	Fiscal Year ending on December 31,				Variation (%) (2014 x 2015)
Income statement	2014	AV (%)	2015	AV (%)	
Other net operating expenses	(2,560)	(2.9)	(0,586)	(0.7)	(77.1)
Impairment of noncurrent assets	(2,713)	(3.1)	(34,553)	(40.4)	1,173.6
Gain (loss) in the measurement or noncurrent assets sale	(0,441)	(0.5)	0,052	0.1	NA

Taxation on profits	(2,600)	(2.9)	18,879	22.1	NA
Net income (loss) in the year	0,219	0.2	(45,997)	(53.8)	NA

Revenues

The net operating revenue reached R\$ 85,499 billion in 2015, compared to R\$ 88,275 billion in 2014, corresponding to a 3.1% decrease. The revenue decrease was mainly due to the drop in commodities prices, partially offset by the depreciation of real, because company income is mainly expressed in dollars.

Iron ore

The revenue from the sales of ore decreased by 8.6%, from R\$ 45,341 billion in 2014 to R\$ 41,427 billion in 2015, especially due to the drop in ore price in the international market, led by drop in consumption in China, partially offset by the increase in the volume of sales of iron ore, due to improvement in distribution channel.

Pellets

Edgar Filing: Vale S.A. - Form 6-K

The revenue from the sale of pellets decreased by 4.0%, from R\$ 12,397 billion in 2014 to R\$ 11,916 billion in 2015, due to the drop in pellets price in the international market, partially offset by the depreciation of real, as company revenue is mainly expressed in dollars.

Manganese ore and ferroalloys

The revenue from the sale of manganese and ferroalloys decreased by 44.5%, from R\$ 0,933 billion in 2014 to R\$ 0,518 billion in 2015, due to the drop in prices.

Table of Contents

Coal

The revenue from the sale of coal was maintained in line, from R\$ 1,740 billion in 2014 to R\$ 1,739 billion in 2015, despite the drop of prices in the international market, considering the depreciation of real.

Base Metals

Nickel and other products

There was a 5.7% increase in the revenue from these products, from R\$ 14,703 billion in 2014 to R\$ 15,534 billion in 2015, especially due to the increase in the volume of sales of nickel, resulting from annual production records, in the operations of New Caledonia, Indonesia and Onça Puma.

Copper

The revenue from the sale of copper increased by 44.4%, from R\$ 3,434 billion in 2014 to R\$ 4,957 billion in 2015, due to the ramp-up in Salobo.

Fertilizers

Potash

The revenue from the sale of potash increased by 22.0%, from R\$ 363 million in 2014 to R\$ 443 million in 2015, due to variation in the US dollar.

Phosphate

The revenue from the sale of phosphate increased by 36.3%, from R\$ 4,259 billion in 2014 to R\$ 5,806 billion in 2015, due to variation in the US dollar.

Nitrogen

The revenue from the sale of nitrogen increased by 21.8%, from R\$ 820 million in 2014 to R\$ 999 million in 2015, due to variation in the US dollar.

Other products and services

The revenue from other products and services decreased by 82.3%, from R\$ 2,347 billion in 2014 to R\$ 414 million in 2015, due to the drop in the sale of power to third parties.

Costs of Business Areas

Comments on the Cost of Business Areas

The cost of product sold (excluding depreciation) was R\$ 56,855 billion in 2015, a R\$ 6,852 billion increase (13.7%) compared to R\$ 50,003 billion in 2014, especially due to the impact of exchange variation (R\$ 8,372 billion) on costs expressed in dollars, for instance, costs with maritime freight of iron ore and costs of base metals outside Brazil.

Costs related to each business area are detailed below:

Table of Contents**CPV BY BUSINESS AREA**

In R\$ million	2014	2015
Ferrous Minerals	30,840	34,211
Base metals	10,835	14,427
Coal	2,514	2,857
Fertilizers	4,406	4,896
Others	1,408	464
Cost with no depreciation	50,003	56,855

It is important to note that all amounts mentioned were considered after discounting depreciation.

Sales and administrative expenses

Sales and administrative expenses decreased by 17.7%, from R\$ 2,603 billion in 2014 to R\$ 2,143 billion in 2015, especially due to the continuous streamlining of our corporate structure.

Research and development expenses

Research and development expenses remained stable, from R\$ 1,738 billion in 2014 to R\$ 1,603 billion in 2015.

Pre-operational and operation stoppage expenses

In 2015, pre-operational and operation stoppage expenses were R\$ 3,408 billion, representing a R\$ 845 million increase compared to 2014, especially due to higher expenses with Long Harbour and Nacala projects.

Other operational expense/income, net

Other operational expenses decreased by 77.1%, from R\$ 2,560 billion in 2014 to R\$ 0,586 billion in 2015, especially due to nonrecurring positive effect from the R\$ 722 million transaction of gold stream registered in the first quarter in 2015 and R\$ 1,281 billion, registered in the fourth quarter of 2015, related to the annual revision of mine closure provisions and other assets, generating a positive impact, resulting from the increase in the use life of some mines and revision of the work scope required for closure of the assets.

Noncurrent asset impairment

In 2015, asset impairment totaled R\$ 34,553 billion mainly due to the significant reduction in price assumptions used in impairment tests (see table below). The reduction registered in 2014, in the amount of R\$ 2.713 billion refers mainly to Vale Fertilizantes and Vale BSGR Limited, in the amount of R\$ 5,593 billion, and reversion of part of the impairment of Onça Puma in the amount of R\$ 4,295 billion, which initial value was recorded in 2012.

Table of Contents

Impairment R\$ million	Total impairment of assets in 2015	Impairment in agreements 2015	Recoverable value Dec 31, 2015

Impairment in investments on affiliates and joint ventures

R\$ million	Total impairment in 2015
Iron ore	
Samarco	510
Base metals	
Teal Minerals	1,217
Total	1,727

On November 5, 2015, Samarco Mineração S.A. (Samarco) experienced the failure of iron ore tailings dam (Fundão) in state of Minas Gerais - Brazil. Following the dam failure, the competent authorities ordered the suspension of Samarco's operations.

a) Accounting impacts on the investment resulting from the dam failure

Samarco is a closed capital company, in which each shareholder, Vale and BHP Billiton Brasil Ltda. (BHP), has a 50% ownership interest.

As a consequence of the dam failure, Samarco has incurred in expenses, wrote off assets, and recognized provisions for remediation, which affected its balance sheet and income statement. Because Samarco is a *joint venture*, the effects of the dam failure are accounted for under equity method by Vale, in which the balance sheet and income statement impact is limited to the Vale's interest in Samarco's capital as per the Brazilian Corporate Law. The dam failure had no effects on Vale's cash flow for the year ended on December 31, 2015.

The accounting impact of the investment in Samarco in Vale's financial statements, including effects of the dam failure, are as follows:

Edgar Filing: Vale S.A. - Form 6-K

In Million	Consolidated			
	Investments in associated and joint ventures	Accounts receivable	Related parties	Total
Balance on December 31, 2014	533	63	822	1,418
Equity results on income statement				(533)
Dividends received			(459)	(459)
Royalties declared		-120		120
Royalties received		(36)		(36)
Transfers	510	(147)	(363)	
Impairment of assets	(510)			(510)
Balance on December 31, 2015				

Due to the preliminary stage of the legal proceedings related to the dam failure involving Samarco and its shareholders, it is not possible to provide a range of possible outcomes or a reliable estimate of the potential future exposure for Vale related to the lawsuits. Therefore, no provision was recognized in the financial statements of Vale and no contingent liability was quantified.

On March 2, 2016, Samarco and its shareholders, Vale and BHP have entered into an agreement with the States of Espírito Santo and Minas Gerais and certain other public authorities for the restoration of the environment and communities affected by the Samarco's dam failure. The agreement provides a long-term remedial and compensation framework for responding to the impact of the event (Agreement).

Table of Contents

Under the terms in the Agreement, Samarco, Vale and BHP will establish a Foundation that will develop and execute environmental and social-economic programs to remediate and provide compensation for damages caused by the Samarco's dam failure.

The term of the Agreement is 15 years, renewable for periods of one year successively until all obligations under the Agreement have been performed.

Samarco will fund the Foundation with contributions as follows (calendar year):

- R\$ 2 billion in 2016, less the amount of funds already spent on or allocated to, remediation and compensation activities;
- R\$ 1.2 billion in 2017; and
- R\$ 1.2 billion in 2018.

From 2019 to 2021, annual contributions to the Foundation will be set based on an amount sufficient to undertake remaining remediation and compensation projects. Annual reference amounts for these contributions will range from R\$ 800 million to R\$ 1,600 billion.

From signature of the agreement, the Foundation will allocate an annual amount of R\$ 240 million, for a period of 15 years, to the execution of compensation projects. These annual amounts are already included in the first six years contributions. There is also a one time contribution of R\$ 500 million for basic sanitation in the affected areas.

Samarco management is working on a plan that would permit it to resume operations, but the feasibility, timing and scope of restarting remain uncertain. Samarco and its shareholders are hopeful that Samarco will be able to resume operations and to generate all or a substantial part of the funding required under the agreement.

Samarco will continue to conduct and fund the humanitarian and environmental recovery and remediation work until the Foundation is operational, which is likely to be in the next few months.

To the extent Samarco does not meet its funding obligations in the Foundation, each of Vale and BHP is liable, under the terms of the Agreement, for providing funds to the Foundation in proportion to its 50 per cent shareholding in Samarco. The Samarco's cash flow projections included in its business plan, which considers the resumption of its operations, predict that Samarco will be able to satisfy its obligations without the capital contributions or cash disbursements by its shareholders. Therefore, Vale does not expect, at this time, any material impact on its financial statements arising from the Agreement. However, this position will be constantly reevaluated by Vale, in order to reassess any changes in the key assumptions used in Samarco cash flow projections. Any evidence on the need of future cash disbursement by shareholders under the Agreement will be immediately reflected in Vale's financial statements, in proportion to its percentage of interest, as a provision of remediation

and compensation related to the of the dam failure.

Result in the measurement or sale of noncurrent assets

The result of the sale of assets increased from an expense of R\$ 441 million in 2014 to income of R\$ 52 million in 2015. In 2015, the result of the measurement or sale of noncurrent assets referred to the navigation and power assets, in 2014 the result referred to the assignment of the area of Vale Canada Limited under the CoW agreement of Vale Canada Limited.

Result from equity

The result from equity decreased R\$ 2,648 billion, from income of R\$ 1,141 billion in 2014 to expense of R\$ 1,507 billion in 2015, especially due to Teal Minerals (copper operation in

Table of Contents

Lubambe, Africa), which had the negative impact of the impairment of assets and Samarco results.

Net Financial Results

Net income decreased by 147.7%, from R\$ 14,753 billion expense in 2014 to R\$ 36,538 billion expense in 2015, basically due to exchange variation.

Taxation on profits

In 2015, the net income tax income was R\$ 18,879 billion, compared to R\$ 2,600 billion expense in 2014, basically due to fiscal losses calculated in companies abroad and foreign exchange results.

Net gains/loss in the fiscal year

Net profit from R\$ 219 million in 2014 to net loss of R\$ 45,997 billion in 2015, mainly due to factors explained above.

(1) Relative to total liabilities

Position on December 31, 2013 compared to the position on December 31, 2014

Vale has assets and debts referenced to different currencies, the main ones being the *real*, the US dollar and the Canadian dollar. On December 31, 2015, the Company had 54% of assets related to Brazilian *reais*, 11% to US dollars, 17% to Canadian dollars and 8% to other currencies, while the majority of our debt was expressed in US dollars. Consequently, the effects of changes in exchange rates had an impact on the financial statements, especially the depreciation of the *real* by 47% against the US dollar between December 31, 2014 and 2015.

Current Assets***Cash and cash equivalents***

The 32.8% increase, from R\$ 10,555 billion on December 31, 2014 to R\$ 14,022 billion on December 31, 2015, occurred as a function of divestment transactions: (i) R\$ 4.8 billion from the sale of twelve VLOCs (*very large ore carriers*) for Chinese shipyards; (ii) R\$ 4 billion from the sale of 36.4% of preferred shares of MBR; (iii) R\$ 2.8 billion from the *gold stream* transaction as byproduct of the Salobo copper mine; and (iv) R\$ 306 million, from the sale of power assets. Part of the amounts above were used for Company general purposes.

Inventories

The 15.2% increase, from R\$ 11,956 billion on December 31, 2014 to R\$ 13,775 billion on December 31, 2015, was mainly due to exchange variation, considering that some inventory is evaluated in US dollars.

Taxes on estimated profit

Taxes on estimated profit decreased by 16.4%, from R\$ 4,200 billion on December 31, 2014 to R\$ 3,513 billion on December 31, 2015, due to offset values in the period.

Non-current assets held for sale and discontinued operations

The sale of assets totaled R\$ 15,792 billion on December 31, 2015, related to Nacala, comparing to R\$ 9,669 billion on December 31, 2014 related to the sale of power generation assets and general load.

Noncurrent assets

Deferred taxes on profit

The amount of deferred taxes on profits increased by 192.3%, from R\$ 10,560 billion on December 31, 2014 to R\$ 30,867 billion on December 31, 2015, basically due to fiscal loss of the controller and its affiliate abroad and previous years related to the inventory in losses due to Law 12,973.

Table of Contents

Investments

Investments increased by 4.6%, from R\$ 10.978 billion on December 31, 2014 to R\$ 11.481 billion on December 31, 2015, reflecting the investment made on Aliança Geração de Energia S.A.

Fixed Assets

Fixed assets increased by 1.8%, from R\$ 207,507 billion on December 31, 2014 to R\$ 211,259 billion on December 31, 2015, due to exchange variation of some assets abroad, partially offset by depreciation expenses and asset offsetting, mainly Nacala.

Current Liabilities

Derivatives

Derivatives increased by 115.6%, from R\$ 3,760 billion on December 31, 2014 to R\$ 8,107 billion on December 31, 2015, basically due to (i) maturity of fuel operations, with the effect of the drop of price in the fuel market and appreciation of US dollar compared to real, affecting fuel operations and exchange swaps.

Loans and financing

The increase in long-term loans by 159.8%, from R\$ 3,768 billion on December 31, 2014 to R\$ 9,788 billion on December 31, 2015, was basically due to exchange variation and especially reclassification of part of the long-term debt to mature in 2016.

Liabilities related to non-current assets held for sale and discontinued operations

Liabilities related to non-current assets held for sale increased by 41.5%, from R\$ 0,294 billion on December 31, 2014 to R\$ 0,416 billion on December 31, 2015, due to the availability of Nacala for sale.

Noncurrent liabilities

Derivatives

Derivatives increased by 30.5%, from R\$ 4,276 billion on December 31, 2014 to R\$ 5,581 billion on December 31, 2015, basically due to appreciation of US dollar against real, with a loss in swap mark-to-market, which goal is to reduce the volatility of cash flow, net of transfer of fuel positions to current liabilities.

Loans and financing

Loans and financing increased by 41.4%, from R\$ 72,749 billion on December 31, 2014 to R\$ 102,878 billion on December 31, 2015, reflecting exchange variation, as considerable portion of loans were acquired in foreign currency.

Provisions for contingencies

Provisions for contingencies decreased by 5.7%, from R\$ 3,405 billion on December 31, 2014 to R\$ 3,210 billion on December 31, 2015, reflecting the changes to the prognosis of part of the lawsuits where Vale appears as party.

Obligations for asset retirement

Obligations for asset retirement increased by 8.4%, from R\$ 8,588 billion on December 31, 2014 to R\$ 9,313 billion on December 31, 2015, mainly due to exchange reduction applicable to

Table of Contents

part of the balance of companies abroad, partially offset by the adjustment of the present value of the obligation due to reduction in the discount rate.

Debentures

Debentures decreased by 70.9%, from R\$ 4,584 billion on December 31, 2014 to R\$ 1,336 billion on December 31, 2015, due to decrease in the mark-to-market due to commodities prices.

Shareholders Equity held by Controlling Shareholders

Shareholders equity held by controlling shareholders decreased by 11.2%, from R\$ 146,414 billion on December 31, 2014 to R\$ 129,958 billion on December 31, 2015, due to losses in the period.

Fiscal year ended on December 31, 2013 compared to fiscal year ended on December 31, 2014**Analysis of Operating Results, 2014 vs. 2013**

The table below presents the values for the consolidated income statements for the fiscal years ended December 31, 2013 and December 31, 2014:

(in R\$ billion)	Fiscal year ended on December 31,				Variation (%) (2013 x 2014)
	2013	AV (%) ⁽¹⁾	2014	AV (%) ⁽¹⁾	
Income statement					
Net Operating Revenues	101,490	100.0	88,275	100.0	(13.0)
Cost of products and services	(52,511)	(51.7)	(59,087)	(66.9)	12.5

Income statement operations					
Net income (loss) in the year	(0.258)	(0.2)	0.219	0.2	(184.9)

(1) Relative to the net operating revenue.

Revenues

The net operating revenue reached R\$ 88.275 billion in 2014, compared to R\$ 101.490 billion in 2013, corresponding to a 13% decrease. The revenue decrease was mainly due to the drop in commodities prices, partially offset by the increase in the volume of iron ore sales resulting from the *ramp-up* of ore projects.

Iron Ore

The revenue from the sales of ore decreased by 26.0%, from R\$ 61.271 billion in 2013 to R\$ 45.341 billion in 2014, especially due to the drop in ore price. This drop was mainly offset by the increase in sales volume, with the ramp up of some ore projects.

Pellets

The revenue from the sale of pellets decreased by 4.4%, from R\$ 12.972 billion in 2013 to R\$ 12.397 billion in 2014, due to the drop in the price reference index of ore IODEX partially offset by the increase in the quality premium attributed to pellets.

Manganese ore and ferroalloys

The revenue from the sale of manganese and ferroalloys decreased by 18.2%, from R\$ 1.140 billion in 2013 to R\$ 0.933 billion in 2014, due to the drop in volume and prices.

Coal

The revenue from the sale of coal decreased by 20.5%, from R\$ 2.188 billion in 2013 to R\$ 1.740 billion in 2014, due to the drop in prices and suspension of operations of Integra and Isaac Plains, partially offset by the increased volume in Moatize. Suspension of operations of Integra and Isaac Plains was due to the economic unviability of the current market conditions.

Base Metals

Nickel and other products

There was a 17.0% increase in the revenue from these products, from R\$ 12.566 billion in 2013 to R\$ 14.703 billion in 2014, especially due to the increase in nickel price, responding to the demand cycle, and the increase volume of sales of nickel, due to the return of production at Onça Puma, after recovery of the furnace.

Copper

The revenue from the sale of copper increased by 8.0%, from R\$ 3.180 billion in 2013 to R\$ 3.434 billion in 2014, due to the increased sales volume driven by the *ramp-up* of Salobo II, copper operation in Brazil.

Table of Contents

Fertilizers

Potash

The revenue from the sale of potash decreased by 16.4%, from R\$ 434 million in 2013 to R\$ 363 million in 2014, due to the decrease in sales volume and prices due to the lower demand resulting from weak conditions in the global market of fertilizers.

Phosphate

The revenue from the sale of phosphate decreased by 4.1%, from R\$ 4.443 billion in 2013 to R\$ 4.259 billion in 2014, due to the decrease prices due to the lower demand resulting from weak conditions in the global market of fertilizers.

Nitrogen

The revenue from the sale of nitrogen decreased by 17.2%, from R\$ 990 million in 2013 to R\$ 820 million in 2014, partially due to the sale of the company Araucária in 2013.

Other products and services

The revenue from other products and services increased by 26.9%, from R\$ 1.850 billion in 2013 to R\$ 2.347 billion in 2014, due to the drop in the sale of steel.

Costs of Business Areas

Comments on the Cost of Business Areas

The cost of products and services sold (excluding depreciation) was R\$ 50.003 billion in 2014, a R\$ 5.523 billion increase compared to R\$ 44.480 billion in 2013, especially due to exchange variation and greater volume sold. The cost of ferrous minerals increased by R\$ 5.082 billion (19.7%) and the cost of base metals increased by R\$ 747 million (7.4%), both increases especially due to the greater volume sold. Moreover, costs with coal and fertilizers increased by R\$ 29 million and reduced by R\$ 293 million, respectively.

Costs related to each business area are detailed below:

CPV BY BUSINESS AREA in R\$ million	2013	2014
Ferrous	25,758	30,840
Base metals	10,088	10,835
Coal	2,485	2,514
Fertilizers	4,699	4,406
Others	1,450	1,408
Cost with no depreciation	44,480	50,003

It is important to note that all amounts mentioned were considered after discounting depreciation.

Sales and administrative expenses

Sales and administrative expenses decreased by 7.2%, from R\$ 2.804 billion in 2013 to R\$ 2.603 billion in 2014, especially due to the continuous simplification of our corporate structure.

Research and development expenses

Research and development expenses remained stable, from R\$ 1.745 billion in 2013 to R\$ 1.738 billion in 2014.

Table of Contents

Noncurrent asset impairment

In 2014, asset impairment totaled R\$ 2.713 billion mainly due to Vale Fertilizantes and Vale BSGR Limited, in the amount of R\$ 5.593 billion, and the review of part of the impairment of Onça Puma, in the amount of R\$ 4,295 billion, which initial value was registered in 2012. Impairment in 2013 registered in the amount of R\$ 5.390 billion refers mainly to the suspension of the Rio Colorado Project (PRC) in the amount of R\$ 4.963 billion and pelleting plants in the amount of R\$ 427 million.

Pre-operational and operation stoppage expenses

In 2014, pre-operational and operation stoppage expenses were R\$ 2.563 billion, representing a R\$ 1.472 billion decrease compared to 2013, especially due to lower expenses with the Rio Colorado and Long Harbor Projects.

Other net operational expense/income

Other operational expenses increased by 18.7%, from R\$ 2.157 billion in 2013 to R\$ 2.560 billion in 2014. If excluding the transaction nonrecurring positive effect of the sale of 25% of payable gold flow produced as byproduct of the copper mine of Salobo during the mine life, and 70% of payable gold flow produced as byproduct of the nickel mines in Sudbury Coleman, Copper Cliff, Creighton, Garson, Stobie, Totten, and Victor paid in the first quarter in 2013, net operational expenses would decrease by 3.4% from 2013 to 2014.

Loss in the measurement or sale of noncurrent assets

The result of the sale of assets decreased by 13.2%, from R\$ 508 million in 2013 to R\$ 441 million in 2014. In 2013, the result referred to the loss in the sale of Tres Valles, while in 2014 the loss referred to the termination of the area of Vale Canada Limited. For more information, see explanatory note 30 in the Company financial statement.

Result from shareholding

The result from shareholding increased by 14.2%, from R\$ 999 million in 2013 to R\$ 1.141 billion in 2014, especially due to discontinued consolidation of VLI into Vale results.

Net Financial Results

Net income decreased by 20.0%, from R\$ 18.442 billion expense in 2013 to R\$ 14.753 billion expense in 2014, due to the impact of the Fiscal Recovery Program REFIS (REFIS), registered in 2013.

Taxation on profits

In 2014, the net income tax expense was R\$ 2.600 billion, compared to R\$ 15.249 billion in 2013, basically due to company results abroad taxed at rates other than the ones applicable to the controlling company and the inability to reduce the impairment of certain assets.

Net profit/loss of the fiscal year

Net loss in the amount of R\$ 258 million in 2013 turned into net profit of R\$ 219 million in 2014, especially due to factors mentioned above.

Table of Contents

(1) Relative to total liabilities and shareholders' equity.

Position on December 31, 2013 compared to the position on December 31, 2014

Vale has assets and debts referenced to different currencies, the main ones being the *real*, the US dollar and the Canadian dollar. On December 31, 2014, the Company had 55% of assets related to Brazilian *reais*, 12% to US dollars, 19% to Canadian dollars and 14% to other currencies, while the majority of our debt was expressed in US dollars. Consequently, the effects of changes in exchange rates had an impact on the financial statements, especially the depreciation of the *real* by 13 % against the US dollar between December 31, 2013 and 2014.

Current Assets

Cash and cash equivalents

The 15.3% decrease, from R\$ 12.465 billion on December 31, 2013 to R\$ 10.555 billion on December 31, 2014, occurred as a function of the non-recurring transaction related to the sale of 25% of payable gold flow in 2013 and the negative impact from the drop of commodities prices in the generation of operational cash flow in 2014, partially offset by the increase of volume and reduction of expenses.

Inventories

The 23.7% increase, from R\$ 9.662 billion on December 31, 2013 to R\$ 11.956 billion on December 31, 2014, was mainly due to the ramp up of the distribution center in Malaysia, as well as exchange variation.

Taxes on estimated profit

Taxes on estimated profit decreased by 24.5%, from R\$ 5.563 billion on December 31, 2013 to R\$ 4.200 billion on December 31, 2014, due to offset values of income tax and social contribution.

Non-current assets held for sale

Edgar Filing: Vale S.A. - Form 6-K

The sale of assets totaled R\$ 9.669 billion on December 31, 2014, refers mainly to the divestment in power generation assets and share held in the assets in Nacala, comparing to R\$ 8.822 billion on December 31, 2013 refers to the sale of power generation assets and general load.

Noncurrent Assets

Deferred taxes on profit

The amount of deferred taxes on profits decreased by 0.3%, from R\$ 10.596 billion on December 31, 2013 to R\$ 10.560 billion on December 31, 2014, due to fiscal loss.

Investments

Investments increased by 30.7%, from R\$ 8.397 billion on December 31, 2013 to R\$ 10.978 billion on December 31, 2014, reflecting the investment increase on affiliates due to the

Table of Contents

consolidation of Vale Logística da Argentina S.A. which investment was partially sold and the remaining portion is no longer consolidated.

Fixed Assets

Fixed assets increased by 8.5%, from R\$ 191.308 billion on December 31, 2013 to R\$ 207.507 billion on December 31, 2014, due to Capex execution, mainly the S11D project, including the Integrated Logistic Corridor of Nacala - CLN and partial impairment of assets related to Onça Puma in 2012.

Current liabilities

Accounts payable to suppliers and contractors

Accounts payable to suppliers and contractors increased by 30.9%, from R\$ 8.837 billion on December 31, 2013 to R\$ 11.566 billion on December 31, 2014, was basically due to the extension on the average due date of payments.

Derivatives

Derivatives increased by 576.3%, from R\$ 0.556 billion on December 31, 2013 to R\$ 3.760 billion on December 31, 2014, basically due to appreciation of US dollar against real, with a loss in swap mark-to-market, which goal is to reduce the volatility of cash flow.

Loans and financing

The 9.4% reduction in the long-term loan current debt, from R\$ 4.158 billion on December 31, 2013 to R\$ 3.768 billion on December 31, 2014, was due to the due date of long term debts, acquired in reais.

Liabilities related to non-current assets held for sale and discontinued operations

Liabilities related to non-current assets held for sale decreased by 72.0%, from R\$ 1.050 billion on December 31, 2013 to R\$ 0.294 billion on December 31, 2014, due to the conclusion of the general load sale and negotiation at the Nacala corridor with Mitsui.

Noncurrent Liabilities

in R\$ billion

Derivatives increased by 22.3%, from R\$ 3.496 billion on December 31, 2013 to R\$ 4.276 billion on December 31, 2014, basically due to appreciation of US dollar against real, with a loss in swap mark-to-market, which goal is to reduce the volatility of cash flow.

Loans and financing

Loans and financing increased by 12.2%, from R\$ 64.819 billion on December 31, 2013 to R\$ 72.749 billion on December 31, 2014, reflecting exchange variation, as considerable portion of loans were acquired in foreign currency.

Provisions for contingencies

Provisions for contingencies increased by 13.9%, from R\$ 2.989 billion on December 31, 2013 to R\$ 3.405 billion on December 31, 2014, reflecting the changes to the prognosis of part of the lawsuits where Vale appears as party.

Table of Contents***Obligations for asset retirement***

Obligations for asset retirement increased by 43.9%, from R\$ 5.969 billion on December 31, 2013 to R\$ 8.588 billion on December 31, 2014, was due to the reduction in the discount rate and annual revision of realized estimates.

Debentures

Debentures increased by 10.2%, from R\$ 4.159 billion on December 31, 2013 to R\$ 4.584 billion on December 31, 2014, due to mark-to-market.

Shareholders Equity held by Controlling Shareholders

Shareholders equity held by controlling shareholders decreased by 1.3%, from R\$ 148.346 billion on December 31, 2013 to R\$ 146.414 billion on December 31, 2014, due to realization of provisions for shareholders compensation.

Analysis of Cash Flows 2015 vs. 2014

The table below presents the values for the cash flow statements for the fiscal years ended December 31, 2015 and December 31, 2014:

(in R\$ million)	2015	%	2014
Cash flow from operational activities:			
Net gain (loss) in the period	(45,997)	n/a	219
Adjustments to consolidate net profit with revenues from operational activities	61,716	173.4	22,573
Net revenue from operational activities	15,719	(31.0)	22,792
Net revenue used in investment	(20,116)	(10.0)	(22,360)
Net revenue from (used in) financing	5,250	n/a	(8,634)
Increase (reduction) in cash and cash equivalents	853	n/a	(3,202)
Beginning of the year cash and cash equivalents	10,555	(15.3)	12,465

Effect of exchange variations in cash and cash equivalents	2,614	102.3	1,292
End of the year cash and cash equivalents	14,022	32.8	10,555

Year ending on December 31, 2014 compared to the year ended on December 21, 2015

Net operating revenues

Net operating revenues totaled R\$ 15,719 billion in 2015, compared to R\$ 27,792 billion in 2014, representing a 31.0% decrease, basically due to the drop in the iron ore price.

Net Operating revenues from (used in) investments

Net revenues used in investments totaled R\$ 20,116 billion in 2015, compared to R\$ 22,360 billion in 2014, representing a 10.0% decrease, due to Company adjustment to projects, as some of them are entering the deployment phase, as is the case of S11D project, one of the largest of the Company, expected to end in the second half in 2016.

Table of Contents*Net revenue from (used in) financing*

Net revenue from (used in) financing totaled R\$ 5,250 billion in 2015, compared to R\$ 8,634 billion in 2014, due to decrease in the payment of dividends to shareholders and the MBR transaction, comprised by the sale of class-A preferred shares of MBR, representing 36.4% of its capital.

Analysis of Cash Flow 2014 vs. 2013

The following table shows the values related to the consolidated cash flow statements for the years ended December 31, 2013 and December 31, 2014:

(in R\$ million)	2014	%	2013
Operating cash flow:			
Net gains (loss)	219	n/a	(258)
Adjustments to consolidate net profit with revenues from operational activities	27,573	(15.1)	32,491
Net revenue from operational activities	27,792	(13.8)	32,233
Net revenue used in investment	(22,360)	(3.4)	(23,150)
Net revenue from (used in) financing	(8,634)	(8.1)	(9,396)
Increase (reduction) in cash and cash equivalents	(3,202)	n/a	(313)
Beginning of the year cash and cash equivalents	12,465	4.6	11,918
Effect of exchange variations in cash and cash equivalents	1,292	50.2	860
End of the year cash and cash equivalents	10,555	(15.3)	12,465

Year ended on December 31, 2013 compared to year ended on December 31, 2014*Net operating revenues*

Net operating revenues totaled R\$ 27.792 billion in 2014, compared to R\$ 32.233 billion in 2013, representing a 13.8% decrease, basically due to the drop in the iron ore price.

Net Operating revenues from (used in) investments

Net revenues used in investments totaled R\$ 22.360 billion in 2014, compared to R\$ 23.150 billion in 2013, representing a 3.4% decrease, due to the reduction in investment sale.

Net revenue from (used in) financing

Net revenue from (used in) financing totaled R\$ 8.634 billion in 2014, compared to R\$ 9.396 billion in 2013, representing an 8.1% decrease, due to the funding levels in 2014.

Table of Contents

10.2 Operating and Financial Results

a. Results of Vale Operations, in particular:

i. Description of key components of revenue

In 2015, net operating revenues totaled R\$ 85.5 billion with operational margin (prior to gains from the measurement of the sale of noncurrent assets) of 10.6%. Operating loss was R\$ 25.4 billion, a R\$ 42.0 billion variation compared to the operating profit in 2014, mainly due to reduction in the prices of its products.

This year, that Company has sought after several opportunities to improve its margin. Vale has presented an 18.2% reduction in net operational revenues (including SG&A, research and development, pre-operational and stoppage, and other expenses), corresponding to R\$ 1.7 billion, compared to the same period in 2014, especially marked by the revenue arising out of the *gold stream* operation and reduction in the provision for fixed asset retirement, due to risk change.

In addition, Vale had a R\$ 31.8 billion variation in impairment of assets, from R\$ 2.7 billion in 2014 to R\$ 34.5 billion in 2015, due to drop in the price of our commodities, with impact in the adjustment of the performance assumption and return of our activities. Cash generation measured by Adjusted EBITDA, was R\$ 23.7 billion in the fiscal year ending on December 31, 2015.

On December 31, 2014, Vale net operational revenue was R\$ 88.3 billion, and the operational margin (prior to the recoverable values of noncurrent assets and loss in the measuring of the sale of noncurrent assets) was 22.3%. The operational profit was R\$ 16.6 billion in 2014, an approximate 50% reduction compared to the operational profit in 2013, mainly due to a drop in ore prices. Continuous Company efforts to cut costs, investment discipline and focus on core business were seen this year. Vale had a 11.9% reduction in net operational costs (including SG&A, research and development, pre-operational and stoppage, as well as other costs), corresponding to R\$ 1,277 billion, relative to 2013. This drop was due mainly to the reduction of costs related to operation stoppage and optimization in the Company's cost structure, after adjustments made in 2013. Additionally, in 2014, Vale had a reduction of 49.7% in the impairment of assets, R\$ 5,390 billion in 2013 to R\$ 2,713 billion in 2014, due to return on the Onça Puma operation. Cash generation, measured in Adjusted EBITDA(1), was R\$ 31.1 billion in 2014.

In addition, in 2014, Vale had a 49.7% reduction in impairment of assets from R\$ 5,390 billion in 2013 to R\$ 2,713 billion in 2014, due to resuming operations at Onça Puma. Cash generation, measured by Adjusted EBITDA, was R\$ 31.1 billion in 2014.

In 2013, Vale net operational revenue was R\$ 101,490 billion and the operational margin (prior to the recoverable values of noncurrent assets and loss in the measuring of the sale of noncurrent assets) was 37.7%. The operational profit was R\$ 32,340 billion in 2013.

Edgar Filing: Vale S.A. - Form 6-K

In the fiscal year ending on December 31, 2015, operating loss measured by EBIT was R\$ 28.3 billion, compared to the EBIT operating profit of R\$ 17.6 billion in the same period in 2014. In 2015 operating loss was R\$ 25,4 billion while in 2014 and 2013, operating profit was R\$ 16.6 billion and R\$ 32.3 billion, respectively.

Table of Contents**Adjusted EBITDA**

in R\$ billion	Fiscal year ending on December 31		
	2013	2014	2015
Net operating revenue	101,490	88,275	85,499

Net Income	101,490	100.0	88,275	100.00	85,499	100.0
-------------------	---------	-------	--------	--------	--------	-------

The sale of ferrous minerals - iron ore, pellets, manganese ore and ferroalloy represented 64.8% of total net operating revenues in the year ended on December 31, 2015, relative to 68.4% in the year ended on December 31, 2014. In 2013, the total net operational revenue of ferrous minerals was 74.6%.

In 2015, 2014, and 2013, the base metals participation in the total net revenue was 24.0%, 20.6%, and 15.5%, respectively.

In 2015, 2014, and 2013, fertilizer revenue was 8.7%, 6.4%, and 6.0%, respectively.

Table of Contents

In 2015, 2014, and 2013, the contribution by other products in net revenue represented 2.5%, 4.6%, and 3.9%, respectively.

In the fiscal year ending on December 31, 2015, sales to Asia represented 52.6% of total revenues, in line with 52.2% in 2014 and lower than 57.1% in 2013. Sales to the Americas amounted to 24.1%, lower than 25% in 2014 and higher than 19.7% in 2013. Revenues from Europe represented 18.2% in this period, 17.8% in 2014, and 18.6% in 2013, while the remainder contributed with 5.2% of the revenues for the fiscal year ending on December 31, 2015.

Considering sales per country, China was responsible for 36.0% of our revenue in the fiscal year ending on December 31, 2015, followed by Brazil with 15.3%, Japan with 7.6%, Germany with 5.6%, Canada with 4.3%, and the USA with 3.3%. In 2014, China was responsible for 33.7% of our revenues, followed by Brazil with 15.8%, Japan with 9.7%, Germany with 6.1%, South Korea with 4.1% and the United States and Canada with 3.7%. In 2013, China was responsible for 40.7% of our revenue, followed by Brazil with 13.1%, Japan with 8.7%, Germany with 7.0%, South Korea with 3.9%, and the United States with 2.8%.

Iron ore and pellets

The demand for iron ore and pellets is a result of the global demand for carbon steel, which in turn is highly influenced by global industrial production. The pricing of iron ore and pellets is done according to several levels of quality and physical characteristics. Several factors affect the prices of different types of iron ore, such as the iron content in deposits, the size of particles, humidity and the type and concentration of contaminants (such as phosphorus, alumina and manganese) in the ore. Generally, the classification of ore into thin ore, lump ore and pellet feed determines price differences.

Table of Contents

Demand from China has been one of the main drivers of worldwide demand and prices.

Chinese imports of iron ore reached 953 million metric tons in 2015, 2% above the level of 933 million metric tons in 2014, which in turn was 15% above the level of 810 million metric tons in 2013. The higher ore import in 2015 was despite a 2.3% decrease in domestic steel production, reinforcing the hypothesis of mines closure in China.

Our iron ore prices are grounded in a variety of price option that are usually based on spot indices for the specification of prices charged to clients. Final prices may be based on spot rates for months prior to the shipping date or the shipping quarter, or according to the spot rate at delivery to customer.

Fine iron ore prices command premiums as a function of the content of iron. The lump ore and pellet prices contain premiums in relation to fine iron ore prices and are determined based on client negotiations. The average prices for iron ore in fiscal year ending on December 31, 2015 were 40.9% and 60.2% lower than the average prices in 2014 and 2013, respectively. The average price for pellets on December 31, 2015, was 35.3% and 46.5% lower compared to average prices in 2014 and 2013, respectively.

Manganese and ferroalloys

The prices of manganese ore and ferroalloys are mainly influenced by trends in the carbon steel market. The prices of ferroalloys are also influenced by the prices of its main inputs, such as manganese ore, energy and coke. Manganese ore sales are based on the spot market or calculated on a quarterly basis. Ferroalloys prices are determined on a quarterly basis.

Coal

The demand for metallurgical coal is driven by the demand for steel, especially in Asia. The demand for thermal coal is directly related to electricity consumption, which will continue to be driven by worldwide economic growth, especially in emerging economies. Since April 2010, the prices for metallurgical coal have been established on a quarterly basis for most volumes sold in the transoceanic market, while some players are selling it on a quarterly basis, and a minority continues to use annual pricing. The prices of thermal coal are set in spot negotiations and/or through annual contracts.

Nickel

Nickel is traded on the London Metal Exchange (LME), and it is mainly used to produce stainless steel. Most nickel products are priced using a discount or a premium to the LME price, depending on the technical and physical characteristics of the product. Nickel demand is heavily affected by production of stainless steel, which represented 66% of consumption in 2015 and 68% in 2014.

Vale has short-term fixed-volume contracts with customers for the majority of our expected annual nickel sales. These contracts, together with its sales of nickel products to be used for other purposes (high nickel alloys, steel alloys, forging, plating, batteries and special applications), provide stable demand for a significant portion of its annual production. In 2015, 52% of the refined nickel sales were destined to applications outside the stainless steel industry. This, when compared to the industry average of 34% among nickel producers, results in its sales volume being more stable. As a result of its focus on such higher-value segments, the average realized nickel prices have typically exceeded LME prices.

Copper

Copper prices are determined on the basis of: (a) copper prices in final markets, such as the LME and the NYMEX; and (b) for intermediate products, such as copper concentrate (which represents the majority of the company's sales) and copper anode, treatment and refining rates

Table of Contents

are negotiated with each client. According to a pricing system known as MAMA (month after month of arrival), sale prices of copper concentrate and anode are provisionally set at the time of shipment, and the final prices are based on the LME at a future time, typically three months after shipment of product.

Fertilizers

The demand for fertilizers depends on the same market fundamentals as those for global demand for minerals, metals and energy. The rapid *per capita* growth of emerging economies causes changes in food, marked by an increase in the consumption of proteins, which contributes to higher demand for fertilizers. Demand is also driven by biofuels that are emerging as an alternative source of energy to reduce global dependency on greenhouse gases [sic], and essential raw materials for the production of biofuels – sugar cane, corn and palm – which are intensively used in fertilizers.

Fertilizers are sold in the market mainly on a cash basis using international reference prices, although certain large importers, such as China and India, often sign annual contracts. Seasonality is an important factor for determining price throughout the year, given that agricultural production in each region depends on the climactic conditions of the harvest.

Exchange Rates

The impact of exchange rate variations on Vale's operational results are described in item 10.2 (b) of this Reference Form.

b. Variations in revenues attributable to changes in prices, exchange rates, inflation, changes in volumes and the introduction of new products and services

Exchange rate variations

Most of the Company's revenues are expressed in US dollars, whereas most of our costs of goods sold are expressed in other currencies, mainly the Brazilian *real* (49% on December 31, 2015), the US dollar (34% on December 31, 2015), Canadian dollars (13% on December, 31, 2015), Indonesian rupees, Australian dollars, the euro, and others. As a result, changes in exchange rates affect the Company's operating margin.

Most of our long-term debt is expressed currencies other than the Brazilian *real*, mainly in American dollars (approximately 81% on December 31, 2015). Due to the fact that Vale's functional currency is the Brazilian *real*, changes in the value of the US dollar against the Brazilian *real* result in exchange gains or losses on our net liabilities, which, in turn, affect our financial results.

Edgar Filing: Vale S.A. - Form 6-K

On December 31, 2015 our debt expressed in *reais* was R\$ 20.508 billion. Since most of our revenue is in US dollars, Vale uses derivatives to convert our debt from Brazilian *reais* to US dollars. As a consequence of the depreciation of the Brazilian *real* against the US dollar in the fiscal year ending on December 31, 2015 and inflation, the net exchange rate and monetary variation caused a negative impact on net profits of R\$ 25.5 billion. The net result of the currency and interest rate swaps, structured mainly to convert the debt expressed in Brazilian *reais* into US dollars to protect our cash flow from currency price volatility, produced a negative accounting effect of R\$ 4.6 billion in the fiscal year ending on December 31, 2015, of which R\$ 1.0 billion generated a negative impact on the cash flow.

Regarding years 2013 and 2014, most part of the company revenue was in US dollars, while most part of the costs of assets sold was in other currencies, especially real (54% in 2013 and 54% in 2014, respectively), additional to US dollar (27% in 2013 and 30% in 2014, respectively), Canadian dollar (14% in 2013 and 13% in 2014 respectively), Indonesian Rupiah,

Table of Contents

Australian dollars, Euro, and others. Exchange rates, thus, affected the Company's operating margin.

Most of the long term debt in years 2013 and 2014 was in currencies other than real, especially US dollar (70% in 2013 and 70% in 2014). As Vale's functional currency is real, changes to the US dollar against the real, caused variations to net liabilities, resulting in exchange gains or losses in the financial income.

On December 31, 2013 and December 31, 2014, the debt in reais was R\$ 18,807 billion and R\$ 20.952, respectively. As most of the revenue was in US dollars, Vale used derivatives to translate the debt in real into US dollars. As consequence of real depreciation against the US dollar in 2013 and in 2014 (additional to inflation, this year), net exchange and monetary variation caused negative impact on net profit of R\$ 6,484 billion in 2013 and R\$ 5,445 billion in 2014.

The net result of the currency and interest rate swaps, structured mainly to convert the debt expressed in Brazilian *reais* into US dollars to protect our cash flow from currency price volatility, produced a negative accounting effect of R\$ 1,872 billion in 2013, where R\$ 362 million generated positive cash effect, and (ii) negative accounting effect of R\$ 1.8 billion in 2014, where R\$ 11 million generated negative cash effect.

Variations in the inflation rates

The company's revenues are not significantly affected by inflation rates, and main variations in operational income is attributable to price changes, volume changes and the introduction of new products and services

For more information on changes to its products' prices and services, as well as changes to the volumes sold, see item 10.2(a)(ii) of this Reference Form.

c. Impact of inflation, price variations of main inputs and products, exchange rate and interest rates on operating results and the issuer's financial result, when relevant

For comments on the inflationary impact, price variations in the main products and exchange rates, see item 10.2 (b) of this Reference Form.

Interest Rate

Edgar Filing: Vale S.A. - Form 6-K

Vale exposed to the risk of interest rates for loans and financings. Debt tied to interest rates in US\$ consists mainly of loans, including export prepayment operations, loans from commercial banks and multilateral organizations. In general, these debts are indexed to the LIBOR (London Interbank Offered Rate). The floating rate of its debt expressed in Brazilian *reais* includes debentures, loans obtained from the BNDES, fixed assets and financing for the purchase of services in the Brazilian market. The interest on these obligations is tied primarily to the CDI (Interbank Deposit Certificate), the reference interest rate on the Brazilian interbank market and the TJLP (long-term interest rate). We use swap operations to convert most part of this debt into fixed rates in US dollars. On December 31, 2015, before swap operations, 18% of the debt was in reais and the remaining 82% was in other currencies. On December 31, 2014, 22% of the debt was on reais and the remaining 78% was in other currencies. On December 31, 2013, 22% of the debt was in reais and the remaining 78% was in other currencies.

On December 31, 2015, around 42.4% of the debt was tied to the floating interest rate, compared to approximately 45.2% on December 31, 2014 and 45.3% on December 31, 2013.

Fuel and gas costs are an important component of our production cost and represented 6.3% of our total cost of products sold in the fiscal year ending on December 31, 2015; 7.33% in

Table of Contents

2014; and 7.4% in 2013. Decreases in the price of oil and gas impact positively all the Company businesses according to local prices used by each unit. Electricity costs were 2.8% the fiscal year ending on December 31, 2015; 2.4% in 2014, and 2.7% in 2013.

The non-current assets impairment registered in 2015 resulted in a loss of about R\$ 34,553 billion. This amount refers to the Company's assets recoverable value, based on the premise that includes the discounted cash flow and the commodities price.

Vale does not provide guidance regarding its future financial performance. Vale seeks to disclose as much information as possible about its views on the different markets where it operates, its strategic guidelines and implementation in order to give the capital markets a sound basis for their expectations regarding the Company's performance in the medium and long term.

Table of Contents

10.3 Events with relevant effects, occurred and expected, in the financial statements

a. Introduction or disposal of operating segment

In September 2013, the Company made public its intention to give away the control over its subsidiary VLI S.A. (VLI), responsible for operations in the General Load sector. Consequently, the General Load sector in 2013 was treated as under a phasing out process and assets and liabilities were reclassified as non-current assets/liabilities held for sale.

As part of the closure process, Vale signed share transfer agreements of (a) 20% of the VLI 's capital to Mitsui & Co. Ltd. (Mitsui) for the amount of R\$ 1.5 billion, (b) 15.9% to Accrued Severance Pay - FGTS (Portuguese acronym) (FGTS) in the amount of R\$ 1.2 billion, which equity is managed by Caixa Econômica Federal. This transaction was concluded on April 14, 2014. Revenue from the sale to FI-FGTS and R\$ 800 million of proceedings of the sale to Mitsui will be comprised by capital investment on VLI, who issued new shares to Mitsui and FI-FGTS. Amount invested in VLI will be used to fund part of the VLI 's investment plan. The remaining revenue of the transaction, R\$ 709 million, was paid directly to Vale by Mitsui.

Additionally, on December 23, 2013, Vale entered into an agreement with a fund managed by Brookfield Asset Management (Brookfield) to sell 26.5% of its share in VLI, for R\$ 2 billion. This transaction was concluded on August 19, 2014, and now Vale holds 37.6% of the capital of VLI. Vale, Mitsui, FI-FGTS and Brookfield jointly control VLI, under a shareholders' agreement.

b. Incorporation, acquisition or divestiture of stakeholder positions Main Acquisitions

2015

There were no shareholding acquisitions in fiscal year 2015 that have caused or may cause relevant effects on the financial statements.

2014

There were no shareholding acquisitions in fiscal year 2014 that have caused or may cause relevant effects on the financial statements.

2013

Share increase in the Belvedere coal project.

On January 31, 2013, Vale Belvedere Pty Ltd. signed agreements to complete a purchase option exercised in June 2010 by means of which it purchased 24.5% additional share in the Belvedere da Aquila Resources Limited (Aquila) coal project. The purchase price of A\$ 150 million (equivalent to US\$ 156 million using the AUD/USD tax rate of 1.04) is equivalent to the market price, using as base date the date when the option is exercised (June 2010), as determined by an independent assessor hired by Vale and Aquila at the time. The outcome of this transaction is that Vale Belvedere Pty Ltd. increased its Belvedere share to 100%. Additionally, Vale Belvedere Pty Ltd. agrees to pay the amount of A\$ 20 million (equivalent to US\$ 21 million) to settle lawsuits and disputes associated with Belvedere and Aquila.

Overall, Vale paid US\$ 338 million for 100% of Belvedere. Belvedere is a future growth option.

Table of Contents

It is a project for an underground coal mine located in the southern Bowen Basin, near the city of Moura, in the state of Queensland, Australia. The project was approved by Vale's Administrative Council. According to preliminary estimates, Belvedere can potentially reach a production capacity of 7.0 million metric tons per year of mainly metallurgic coal.

Increased share in the Capim Branco I and II hydroelectric power plants

On March 12, 2013, Vale, together with Cemig Capim Branco Energia S.A., purchased for R\$ 223 million, exercising its preemptive right set forth in the consortium agreement of Consórcio Capim Branco, 12.47% interest held by Suzano Papel e Celulose S.A. and Suzano Holding S.A. in the Capim Branco I and II in Minas Gerais. Consequently, Vale now holds 60.89% interest in Capim Branco I and II, being able to generate 1,524 giga watts hour per year by the end of the concession in 2036. The purchase of the additional shares of Capim Branco I and II hydroelectric power plants adds value to the extent that there is immediate reduction in the cost of energy for our operations; and it is a low risk investment with a clearly higher return to Vale capital expenditure.

Main investment disposals and asset sales

In accordance with the strategy, the Company continues to reduce our stakes in non-core assets.

The following is a summary of the main disposals and sales of assets during the three-year period under discussion.

2015

Sale of part of the gold stream produced as byproduct

On March 2, 2015, Vale has entered into an agreement with Silver Wheaton for the sale of other 25% of the gold stream payable produced as byproduct in Salobo copper mine during the mine use life. In this transaction, Vale and Silver Wheaton have signed an amendment to the original agreement for gold purchase, dated February 2013, to include the purchase of this additional gold stream with 25% of payable gold.

Vale has received an initial payment in cash in the amount of US\$ 900 million and will receive future cash payments for each ounce (oz) of gold delivered to Silver Wheaton based on the smaller amount between US\$ 400 per ounce and market price. This amount will be updated annually at 1% starting in 2017.

Edgar Filing: Vale S.A. - Form 6-K

Vale may also receive an additional payment in cash, depending on its decision to expand the copper processing capacity at Salobo for additional 28 Mtpa before 2036. Salobo I and Salobo II, that are in ramp-up process, will have total processing capacity of 24 Mtpa run-of-mine (ROM). This additional amount may vary between US\$ 88 million and US\$ 720 million, depending on the time and size of the expansion.

Restructuring power generation assets

On February 27, 2015, Vale has concluded the transaction that began in 2013 with Cemig GT to create the *joint venture* Aliança Geração de Energia S.A., and on March 31, 2015, Vale concluded the transaction with CEMIG GT for the sale of 49% of Vale's share in Norte Energia. As these transactions are related to the agreement with Cemig GT announced in December 2013, see item "Sale of power generation assets" below related to fiscal year 2013, for additional information.

Table of Contents

Sale of Share at MBR

On July 29, 2015, Vale has executed the Purchase and Sale Agreement of Shares and other issues, with the Fundo de Investimento em Participações Multisetorial Plus II (FIP Plus II), which shares are held on this date by Banco Bradesco BBI S.A. (BBI), under which it promised to sell the class A preferred shares representing 36.4% of the capital stock of Minerações Brasileiras Reunidas S.A. MBR (MBR), for R\$ 4 billion, subject to suspension conditions usually applicable, including prior approval of the operation by CADE. On September 1, 2015, the sale was concluded for the agreed price, which was transferred in one single payment on that date, and Vale now holds directly and indirectly 61.9% of the capital stock and 98.3% of the common capital of MBR. Vale also holds a purchase option of shares issued by MBR currently held by BBI, successor of FIP Plus II.

Sale of maritime transportation assets and cooperation agreement

On December 8, 2015, Vale and a consortium led by ICBC Financial Leasing, a wholly-owned subsidiary controlled by Industrial and Commercial Bank of China, concluded a purchase and sale transaction of four VLOCs with 400,000 tons. The transaction totaled US\$ 423 million.

2014

Sale of share in Vale Moçambique and the Logistic Corridor of Nacala

On December 9, 2014, Vale announced the execution of an investment agreement with Mitsui, under which Mitsui will hold 15% of Vale's 95% share in Vale Moçambique (VM) (concessionaire of the Moatize mine) and 50% of Vale's share in the Logistic Corridor of Nacala (CLN).

The transaction is comprised by the capital increase and partial assignment of the debt held by VM and CLN with Vale, and Vale now indirectly holds 81% of the Moatize mine and approximately 35% of the Nacala Logistics Corridor, under joint control with Mitsui.

The amount attributed to Mitsui's 15% share in VM is US\$ 450 million. Moreover, Mitsui may pay US\$ 30 million more related to an *earn out* clause. On the other hand, *claw-back* clause of up to US\$ 120 million is included in these US\$ 450 million. The earn outs amounts as well as the claw-back amounts are conditioned to mass recovery goals of the refining plant and production goals agreed upon between Vale and Matsui. As result of these clauses, the final amount attributed to the 15% share in VM may vary between US\$ 330 million and US\$ 480 million. Additionally, Mitsui will be responsible for funding, *pro-rata* to its 15% share, its portion in the investment needed to complete the expansion of the Moatize mine, which amount is estimated at US\$ 188 million.

Edgar Filing: Vale S.A. - Form 6-K

Upon concluding the transaction, Mitsui will contribute with US\$ 313 million to fund the CLN and, therefore, will hold 50% of some financial instruments, having joint control with Vale over the CLN. Until conclusion of this transaction and delivery by Mitsui, Vale will continue to fund the CLN with loans by Vale itself.

The conclusion of this transaction is subject to some precedent conditions and is expected to occur in 2016.

The transaction supports Vale's strategy to operate world-class assets, improves its balance sheet and reduces its need of future investment, while minimizing the exposure to project risk.

Sale of shares in Vale Florestar

On June 4, 2014, Vale announced the execution with a subsidiary of Suzano Papel e Celulose S.A. (Suzano Subsidiary), company that produces eucalyptus cellulose, an agreement to sell its entire share in Vale Florestar Fundo de Investimento em Participações (FIP Vale Florestar),

Table of Contents

in the amount of R\$ 205 million. The usual precedent conditions and approvals, including by Conselho Administrativo de Defesa Econômica CADE were complied with and, thus, the transaction was effective on August 8, 2014.

BNDESPar, Petros and FUNCEF, other shareholders of FIP Vale Florestar also sold their respective shares to the Suzano Subsidiary that now holds 100% of the FIP Florestar.

Sale of maritime transport assets and cooperation agreement

In September 2014, Vale Internacional and China Ocean Shipping Company (Cosco) entered into a strategic cooperation agreement for maritime iron ore transportation. Under this agreement, four 400 thousand tons VLOCs (Very Large Ore Carriers), currently owned and operated by Vale Internacional, would be sold to Cosco. The sale was concluded on May 19, 2015, and the transaction summed US\$ 445 million.

In September 2014, Vale Internacional and China Merchants Group entered into an agreement that covers a strategic cooperation between both maritime iron ore transportation companies. Under this agreement, the companies agreed upon a long term freight agreement to carry iron ore from Brazil to China, using VLOCs to be built and operated by China Merchants Group (Cooperation Agreement).

On May 19, 2015, Vale International and China Merchants Energy Shipping Co., Ltd. (CMES), subsidiary of China Merchants Group, entered into an amendment to the Cooperation Agreement, under which Vale would sell 4 VLOCs, with 400 thousand tons, to CMES, which are currently owned and operated by Vale for CMES. This sale was concluded on July 30, 2015, and the transaction totaled US\$ 448 million.

2013

Sales of part of the gold flow produced as a by product

On February 28, 2013, Vale Switzerland, after approval by the Administrative Council, finalized the contract with Silver Wheaton Corp. (SLW), a Canadian company with share traded in the Toronto Stock Exchange and in the New York Stock Exchange, for the sale of 70% of payable gold flow produced as a byproduct in certain nickel mines in Sudbury, for a period of 20 years, and with Silver Wheaton (Caymans) Ltd. for the sale of 25% of the payable gold flow produced as byproduct in the Salobo copper mine, for the extent of the mine's longevity.

In addition to the initial payment of US\$ 1.9 billion in cash, Vale Switzerland received 10 million in SLW warrants with a strike price of US\$ 65 and a 10-year term. Additionally, Vale will receive cash payments in the future for each ounce (oz.) of gold delivered to SLW as per the agreement, at the lowest amount between US\$ 400 per ounce (plus a 1% annual adjustments starting in 2017 in the case of Salobo) and the market price.

This transaction frees a considerable amount contained in Vale's world class basic metals assets, to the extent that it attributes to the payable gold produced in Salobo de amount of US\$ 5.32 billion, in addition to the payments of US\$ 400 per ounce delivered, given that there will be no additional cost to extract the gold contained in the condensed copper produced at Salobo. The execution of Vale's strategic plan reinforces the Company's confidence in the high potential of its world-class basic metals and the belief that they will generate significant value to shareholders across the cycles.

Sale of shareholding position in VLI

For information on this operation, see item 10.3 (a) above.

Table of Contents

Norsk Hydro total share sale

On November 14, 2013, Vale announced that it would sell all of its 22% Norsk Hydro ASA (Hydro) shares, held by its subsidiary Vale Austria Holding GmbH (currently named Vale International Holdings GmbH) (Vale Austria), for the price of NOK 25.00 per share, resulting in the amount of NOK 11.196 billion, equivalent to US\$ 1.822 billion (equivalent to R\$ 4.243 billion). Vale Austria held these shares since 2011, when it restructured its aluminum assets portfolio. After this transaction is concluded, Vale Austria will no longer hold Hydro shares.

Under the same operation, on November 9, 2014, Vale Áustria sold to Norsk Hydro ASA (Hydro) shares issued by Mineração Paragominas S.A. representing 20% of the total capital, resulting from the exercise of a *put option*. The remaining 20% of shares held by Vale Áustria in the capital stock of Mineração Paragominas S.A. is also subject to a *put option* of Vale, which may be exercised starting on February 28, 2016.

Tres Valles share sales

On December 12, 2013, Vale concluded the Sociedade Contractual Mineradora Tres Valles (Tres Valles) sale for US\$ 25 million (equivalent to R\$ 54 million) to Inversiones Porto San Giorgio S.A. (ISG), a company controlled by the Chilean group Vecchiola S.A.

Tres Valles is a company that produces cathode copper in the Coquimbo region in Chile. The transaction included Vale total share of 90% in Tres Valles equity and also certain mining right held by Vale in the Coquimbo region. Tres Valles has underground and open-pit mines and it has the production capacity of 18,500 metric tons of cathode copper.

Energy production assets sale

On December 19, 2013, Vale signed agreements with CEMIG Geração e Transmissão S.A. (CEMIG GT) for the sale of 49% of its shares of 9% of Norte Energia S.A. (Norte Energia) s equity, a company in charge of the construction, operation, and exploration of the Belo Monte hydroelectric power plant (Belo Monte), for R\$ 310 million, and for the creation of a joint venture of energy generation assets.

For this goal, two distinct vehicles were created to host energy generation projects and assets. In the first, Aliança Norte Energia Participações S.A., (Aliança Norte), comprised by Vale and CEMIG GT, respectively with 51% and 49% of the total capital. The incorporation of this company was done in two steps: initially, Vale transferred its 9% share in Norte Energia to its subsidiary Aliança Norte and, after that, CEMIG GT acquired 49% of the shares of this company for approximately R\$ 310 million. This transaction was concluded on March 31, 2015, and Vale reduced its share in Norte Energia to 4.59%, although remaining entitled to acquire 9% of the power produced by the plant, under the terms in the power purchase long-term agreement executed in 2012.

Edgar Filing: Vale S.A. - Form 6-K

The second vehicle, Aliança Geração de Energia S.A. (Aliança Geração de Energia), formed by Vale and CEMIG GT, respectively with 55% and 45% of the total equity, by means of contribution of its share in the following energy generation assets: Porto Estrela, Igarapava, Funil, Capim Branco I and II, Aimorés and Cadonga. These power plants hold 1.158 MW of attributed installed capacity and an average of 652 MW of secured energy. Electric energy supply to Vale operations will be secured by long-term contracts with Aliança Geração de Energia S.A., in order to maintain the same amount of energy currently supplied to our operations.

The transaction related to Aliança Geração de Energia was concluded on February 27, 2015, and such conclusion had no impact on financial disbursements or financial investment and was executed by delivering the above-mentioned assets.

Table of Contents**Purified phosphoric acid sales**

On December 20, 2013, Vale signed a contract with Israel Chemicals Ltd. (ICL) for the sale of all of its shares, corresponding to 44.25%, of Fosbrasil's equity, a company that produces purified phosphoric acid, located in Cajati, in the state of São Paulo, for US\$ 52 million. On December 18, 2014, upon compliance with preconditions, including approval by the Conselho Administrativo de Defesa Econômica (CADE), this transaction was concluded by Vale that no longer holds any shares in Fosbrasil.

Log-in share sale

On December 26, 2013, Vale, according to the rules in CVM's Instruction No. 168, from December 23, 1991, as edited, held an auction to dispose of 28,737,367 of common shares it owned from Log-in Logística Intermodal S.A. (Log-in), a company listed in the BM&FBOVESPA (ticker symbol: LOGN3), corresponding to all of the ordinary shares issued by Log-in and held by Vale, for the price of R\$ 8.11 per share, totaling R\$ 233 million. The completion of this transaction took place on January 2, 2014.

c. Unusual events or operations

2015

Impairment of assets

According to the accounting policy described in note 31(l) in the 2015 Financial Statement of the Company, the Company identified evidence of impairment in some intangible and fixed investments. *Impairment* adjustments and reversions are presented below:

Segments by asset class	Assets or cash generating units	Impairment	Impairment (reversion)		
			2015	2014	2013
Fixed asset					
Iron ore	Center-Western System		2,023		
Iron ore	Simandou Project			2,794	
Iron ore	Others		133		
Pellets	North System (stopped operations)		213		
Pellets	Pelleting assets				427

REFIS

On November 2013, Vale decided to join the Tax Recovery Program REFIS for the payment of amounts relative to taxation on the profit from its subsidiaries and affiliated companies abroad from 2003 to 2012. By joining the REFIS, Vale generated a substantial reduction in the amounts under dispute and is in consonance with the Company's goals to eliminate uncertainties to focus on its business, in order to keep potential benefits from legal appeals under the tax regime for its foreign subsidiaries.

Among the options offered by REFIS legislation, Vale chose to make early payment of debts relative to 2003, 2004, and 2006, and to pay principal tranches, fines and interest for the remaining years of 2005, and 2007 through 2012.

Table of Contents

The payments' face value resulting from Vale's decision reached the amount of R\$ 22.2 billion. Considering early payments and payment of the first tranche, in 2013 R\$ 6.0 billion were paid; in 2014, R\$ 1.2 billion were paid; and in 2015, R\$ 1.3 billion were paid. The remaining amount in 2015, that is, R\$ 17.3 billion, will be paid in 154 monthly tranches. For further details, see Explanatory Note No. 19 of the accounting statements relative to the fiscal year ended on December 31, 2013.

Table of Contents

10.4 Significant changes in Accounting Practices - Corrections and Remarks in auditor's opinion.

a. Significant changes in accounting practices

2015

There were no significant changes in the accounting practices in the fiscal year that ended on December 31, 2015.

2014

In 2014 there was no significant change in any pronouncement. All pronouncements issued in 2014 aim adoption of new accounting guidelines starting in 2016, and among which IFRS 15 - *Revenue from Contracts with Customers* is the most significant one. IFRS 15 covers recognition of revenue from contracts with clients (except contracts within the scope of leasing agreements, insurance agreements, and financial instruments), and replaces the current pronouncements IAS 18 - *Revenue*, IAS 11 - *Construction contracts*, being adopted when effective, provided that there is deployment in Brazil CPC and approval by CVM and CFC.

(I) Pronouncements, interpretations, or updates issued by the IASB to be adopted after December 31, 2014

- *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*
- *Equity Method in Separate Financial Statements*
- *Accounting for Acquisitions of Interests in Joint Operations*
- *Clarification of Acceptable Methods of Depreciation and Amortization*
- *IFRS 15 Revenue from Contracts with Customers.*

(II) Pronouncements, interpretation, guidelines and revision approved by the CVM to be adopted after December 31, 2014

- CVM Deliberation 733, dated December 23, 2014 Approves the Technical Pronouncements Revision Document no. 07 related to Pronouncements CPC 18, CPC 35 and CPC 37 issued by the Accounting Pronouncements

Committee

(III) Pronouncements, interpretations and guidelines issued and/or updated by CPC, adopted during year 2014

- ICPC 09 (R2) Individual Financial Statements, Separate Statements, Consolidated Statements and Application of the Equity Method
- ICPC 19 - Taxes
- ICPC 20 Defined Limit of Benefit Asset, Minimum Funding Requirements and Interaction
- OCPC 07 Evidence in the Disclosure of Financial-Accounting Reports for General Purpose
- OCPC 8 - TECHNICAL GUIDELINES OCPC 08

2013

Starting on January 1st, 2013, Vale adopted the revised pronouncement IAS 19 - Benefits to employees. The Company applied the pronouncement retroactively according to the transition provided in the pronouncement, which (i) eliminated the "hallway" method, (ii) rationalized the changes between assets and liabilities in the plans, acknowledging in the results of the fiscal year the cost of services, interest rate expenses on obligations, interest rate of revenues on the plan's assets, and (iii) acknowledged in the comprehensive results new measurements of actuarial gains and losses, return of plan's assets (net revenue of interest rates on assets) and

Table of Contents

changes in the ceiling effect of onerous assets and liabilities.

For further details, see explanatory note no. 6 of the accounting statements relative to the fiscal year ended on December 31, 2013.

(I) Pronouncements, interpretations issued by the IASB or updates to subsequently adopt the December 31, 2013

- *Annual Improvements to IFRSs: 2010-2012 Cycle*
- *Defined Benefit Plans: Employee Contributions*
- *Hedge Accounting and amendments to IFRS 9, IFRS 7 and IAS 39*
- *Novation of Derivatives and Continuation of Hedge Accounting*
- *IFRIC 21 Levies*
- *Recoverable Amount Disclosures for Non-Financial Assets*

All of the above pronouncements, interpretations, and updates have correlated CPCs that were issued and approved, or that are in the process of being issued and approved by the CVM, with the same adoption dates.

(II) Pronouncements, interpretation, guidelines and revision approved by the CVM to be adopted after December 31, 2012

There are new pronouncements, interpretations and changes to the IFRS adopted in 2013, as follows. The retrospective impact of the new rules is limited to effects on the revision of CPC 33 (R1) Benefits to employees. For further details, see explanatory note no. 6 of the accounting statements relative to the fiscal year ended on December 31, 2013.

b. Significant effects of changes in accounting practices

There were no significant changes in the accounting practices adopted by the Company between fiscal years that ended on December 31, 2013, 2014, and 2015.

c. Corrections and remarks in the auditor's opinion

There were no corrections on the opinions drafted by our independent auditors relating to the financial statements for 2013, 2014, and 2015.

There are no paragraphs to emphasize in the financial statements for fiscal years ending on December 31, 2014 and 2015.

As result of a difference between practices adopted in Brazil and those defined through the International Financial Reporting Standards (IFRS), the opinion by independent auditors on the accounting statements ending on December 31, 2013 present the emphasis paragraph as follows:

As described in Note 2, individual financial statements were prepared in accordance with accounting practices adopted in Brazil. In the case of Vale S.A., these practices differ from IFRS, applicable to separate accounting statements, only related to the evaluation of investments in subsidiaries, affiliates, and joint ventures, by the equity method, as in accordance to IFRS, the fair value method should be adopted.

As discussed on Note 6 of the 2013 accounting statements, the Company changed how it pays employee benefits in 2013. Our opinion is not an exception in regards to this topic.

In 2014, KPMG Auditores Independentes assumed as responsible for the independent audit of Company Financial Statements, and issued the report of the financial statements for 2014. Amounts corresponding to the year ended on December 31, 2013, presented for purposes of

Table of Contents

comparison were previously audited by PricewaterhouseCoopers Auditores Independentes, who issued the report dated February 26, 2014, that present no changes.

Table of Contents

10.5 Critical Accounting Policies

Preparation of financial statements requires the use of certain critical accounting estimates and also the exercise of judgment by the Company's Management in the process of applying the Group's accounting policies.

These estimates are based on the best information available in each fiscal year. Changes in facts and circumstances may lead to revision of estimates, therefore the actual future results may differ from estimates.

Significant estimates and assumptions used by the Company's Management in preparing these financial statements are thus presented:

a) Mineral reserves and useful life of the mines

The estimates of proven and probable reserves are regularly evaluated and updated. These reserves are determined using generally accepted geological estimates. The calculation of reserves requires that the Company assume positions of future conditions that are uncertain, including future ore prices, exchange and inflation rates, mining technology, availability of permits and production costs. Changes in some of these assumptions could have a significant impact on proven reserves and probable reserves recorded.

The estimated volume of mineral reserves is based on calculation of the portion of the mines that is depleted, and the estimated useful life of the mine is a major factor in quantifying the provision of environmental rehabilitation of mines during the write-down of fixed assets. Any change in the estimates of the volume of mine reserves and the useful life of the assets linked to them may have a significant impact on charges for depreciation, depletion and amortization, which are recognized in the financial statements as cost of goods sold. Changes in the estimated useful life of the mines could cause a significant impact on estimates of the provision for environmental costs of recovery after write-down of fixed assets and impairment analysis.

b) *Disposal of Assets*

The Company recognizes an obligation according to the fair value for disposal of assets during the period in which they occur, pursuant to the Accounting Statement's Explanatory Note 3(b). The Company believes the accounting estimates related to recovery of degraded areas and closure costs of a mine are a critical accounting policy because they involve significant values for the provision and it is expected to involve several assumptions, such as interest rates, inflation, the useful life of the asset considering the current stage of depletion and the projected dates of depletion of each mine. These estimates are reviewed each year.

c) *Taxation on profit*

The Company recognizes the effect of the deferred tax from the tax loss and/or temporary differences in its consolidated financial statements and the financial statements of the controlling company.

Determination of the provision for income taxes or deferred income tax, assets and liabilities, and any provision for losses on tax credits requires estimates from Management. For each future tax credit, the Company assesses the likelihood of part or the entire asset not being recovered. The provision for devaluation depends on the assessment by the Company, the probability of generating taxable income in the future, on production and sales planning, commodity prices, operating costs, restructuring plans, the costs of recovering degraded areas, and planned capital costs.

Table of Contents

d) Provision for legal suits

Provisions for legal suits are only recorded when the possibility of loss is considered to be probable by the legal director and their legal advisers.

Legal suit provisions are recorded when the value of losses can be reasonably estimated. By their nature, legal suits will be resolved when one or more future events occur or fail to occur. The occurrence of such events does not typically depend on the Company's activities, which makes it difficult to give precise estimates about the date on which such events are recorded. Assessing such liabilities, particularly in the uncertain legal environment in Brazil, and well as in other jurisdictions, involves exercising significant estimates and judgments from management regarding the results of future events.

e) Employee Retirement Benefits

The amounts reported in this section depend on a number of factors that are determined based on actuarial calculations that use several assumptions to determine costs and liabilities, among other things. One of the assumptions used in determining the amounts to be recorded in the financial statements is the discount and corrective interest rate. Any changes in these assumptions will affect the accounting records.

At the end of each year, the Company, together with external actuaries, reviews which assumptions should be used for the following year. These assumptions are used to update and discount the fair value of assets and liabilities, costs and expenses, and to determine future values of estimated cash outflows that are necessary to pay pension plan obligations.

f) Reduction in Recoverable Value of Assets

Every year the Company tests the recoverability of its tangible and intangible assets separated by cash-generation unity, usually employing discounted cash flow criteria, which depends on several estimates that are influenced by market conditions prevailing at the time that such recoverability is tested.

g) Fair Value of Derivatives and Other Financial Instruments

The fair value of financial instruments not traded in an active market is determined by using valuation techniques. The Company uses its judgment to choose the various methods and to define assumptions, which are mainly based on market conditions existing at balance sheet date

Edgar Filing: Vale S.A. - Form 6-K

The analysis of the impact if actual results vary from Management's estimates is presented in 2015 accounting statement's explanatory note 24 on the topic of Sensitivity Analysis.

Table of Contents

10.6 Significant items Not Included in the Financial Statements

a. Assets and liabilities held by the Company, directly or indirectly, that do not appear on its balance sheet (*off-balance sheet items*)

i. Operational leases, assets and liabilities

Pelleting operations

Vale maintains an operational lease with its entities under common control, Companhia Coreano-Brasileira de Pelotização, Companhia Hispano-Brasileira de Pelotização, Companhia Ítalo-Brasileira de Pelotização, and Companhia Nipo-Brasileira de Pelotização, under which Vale leases its pelleting plants. These operational leases are in effect for 3 and 10 years, and are renewable.

Future minimum payment obligations for operational leases and procurement are as follows, on December 31, 2015:

in R\$ million	
2016	187
2017	196
2018	206
2019	177
2020 forward	186
All minimum payments required	952

ii. offset portfolio of receivables where the entity maintains risks and responsibilities, including respective liabilities

There is no offset portfolio of receivables where Vale maintains risks and responsibilities, that are not included in the Company balance sheet.

iii. Agreement for future sale and purchase of products or services

There are no agreements for future sale and purchase of products or services that are not included in the Company balance sheet.

iv. Unfinished construction agreements

There are no unfinished construction agreements that are not included in the Company balance sheet.

v. agreements for futures from financing

(I) Base Metal

Nickel Operations Project New Caledonia

Regarding the construction and installment of our nickel processing plant in New Caledonia, the subsidiary Vale Canada Limited (Vale Canada) offered guarantees for the financing agreements, structured under the terms of the French tax law to BNP Paribas (agent acting on behalf of the tax benefit of certain investors). The guarantees refer to payments related to financing due by the subsidiary Vale Nouvelle-Calédonie SAS (VNC) to an entity controlled by

Table of Contents

French investors on some assets of the operation. Consistent with the commitments assumed by VNC on the financing, the assets were substantially concluded on December 31, 2012. Vale Canada has also agreed that the assets will be operated for five years. Vale Canada believes that the probability of the guarantees being claimed is remote.

(II) Participating Debentures

Due to the 1997 privatization, the Company issued debentures for existing shareholder, including the Brazilian Government. The terms of the debentures were established to make sure that the pre-privatization shareholders had a share in potential future benefits, which were to be obtained by means of the exploration of certain mineral resources.

A total 388,559,056 debentures were issued in the nominal amount of R\$ 0.01 (one cent of a real), whose value will be adjusted based on the Market Price General Index (IGP-M), as defined in the Debenture Deed. On December 31, 2015, December 31, 2014, and December 31, 2013, the debentures fair value was R\$ 1,336 billion, R\$ 4,584 billion, and R\$ 4,159 billion, respectively

The owners of these debentures have the right to receive premiums payable every six months, equivalent to a percentage of the net revenues from certain mineral resources, as per the Debenture Deed. In 2015 and 2014, the Company paid to debenture holders compensation in the total amount of R\$ 207 million and R\$ 285 million, respectively.

(III) Guarantee granted to affiliates

On December 31, 2015, the total of guarantees granted by Vale (limited to its indirect or direct share) for Norte Energia S.A. and Companhia Siderúrgica do Pecém S.A. summed R\$ 1.1 billion and R\$ 4.6 billion, respectively. With the conclusion of the operation of power generation assets (explanation note 5 in the Financial Statement), the guarantee of Norte Energia S.A. was shared with Cemig GT.

b. other items not evident in the financial statements

(II). Concessions and Sub-Concession Agreements

Railway transportation companies

The Company entered into concession contracts with the Federal Government, through the Ministry of Transport, for exploration and development of public railway transport of cargo and passengers, under supervision of the National Agency of Ground Transportation (ANTT).

Edgar Filing: Vale S.A. - Form 6-K

The accounting records of concessions are classified as intangible assets.

Termination of the concession for the railways Vitória-Minas and Carajás are June 2027. The contractual bases and expiration dates of the railway transport did not change during the period.

The concession will be terminated in case of end of the contractual period, expropriation, forfeiture, termination of period, cancellation, bankruptcy or closure of the Concessionary.

Port Terminals

Vale owns specialized port terminals, as follows:

Terminal de Tubarão	Vale S.A.	Vitória - ES	2039
Terminal de Praia Mole	Vale S.A.	Vitória - ES	2039
Terminal Marítimo de Ponta da	Vale S.A.	São Luis - MA	2039

Table of Contents

Madeira			
Terminal da Ilha Guaíba	Vale S.A.	Mangaratiba RJ	2039
Terminal de Exportação de Minério	CPBS - Companhia Portuária Baía de Sepetiba MCR - Mineração	Itaguaí/RJ	2021
Terminal de Gregório Curvo	Corumbaense Reunida S.A.	Corumbá/MS	2039

Except for Terminal de Exportação de Minério granted to CPBS - Companhia Portuária Baía de Sepetiba, the Adherence Agreements applicable to other port terminals were adapted to the new port law, Law 12.815/2013, and new Agreements were executed in September 2014, for 25 years, renewable for equal periods.

There are no other items not shown in Vale's financial statements other than those previously reported.

Table of Contents

10.7 - Comments on items not shown in the Financial Statements

(a) how these items alter or may alter revenue, expenses, operating income, financial expenses or other items in the issuer financial statements

Vale's Directors do not expect relevant effects on the operations described in item 10.8 of this Reference Form and not recorded in the financial statements that would change the revenues, expenses, operating result, financial expenses or other items in Vale's financial information.

(b) nature and purpose of the operation

For a description of the nature and purpose of each operation, see item 10.8 in this Reference Form.

(c) nature and amount of obligations and rights in favor of the issuer arising out of the operation

For a description of the amount of the obligations assumed and rights generated on behalf of Vale as a result of operations not shown in our financial statements, please refer to item 10.6 of this Reference Form.

Table of Contents

10.10 Company Business Plan

a. Investments, including: (i) quantitative and qualitative description of ongoing and planned investments; (ii) sources of investment financing; and (iii) relevant ongoing and planned divestments.

b. Already-disclosed acquisition of plant, equipment, patents or other assets that should materially affect Vale's production capacity

c. New products and services, including: (i) description of ongoing research already published; (ii) the total amounts spent by the issuer on research to develop new products or services; (iii) ongoing projects already announced; and (iv) the total amounts spent by the issuer to develop new products or services

NOTE: To convert the amounts of investments made, the average exchange rates in the periods were used for conversion.

In 2015, Vale investments (execution of projects and maintenance of operations) totaled R\$ 28,047 billion. The investment for project execution was R\$ 18,524 billion while for maintenance of existing operations was R\$ 9,524 billion. Investments on corporate social responsibility totaled R\$ 2,673 million, comprised by R\$ 1,764 million in environmental protection and R\$ 909 million in social projects.

In 2014, Vale investments (projects execution and operation maintenance) were R\$ 28.207 billion. A total of R\$ 18.649 billion were invested on project executions and R\$ 9.558 billion on the maintenance of existing operations. Investments on corporate social responsibility summed R\$ 2.693 billion, where R\$ 2.050 billion are destined to environmental protection, and R\$ 0.643 billion to social projects. Investments on acquisitions totaled R\$ 162 million in 2014.

Starting in 2013, expenses with Research and Development (R&D) were not included in the investments amount, which, in turn, include project execution and maintenance of existing operations, and are based in disbursements.

In 2013, Vale's investments (project execution and maintenance of existing operations) cost R\$ 30.750 billion. R\$ 20.845 billion were invested in project execution and R\$ 9.906 billion in the maintenance of existing operations. Investments in corporate social responsibility reached R\$ 2.776 billion, R\$ 2.194 billion of which were dedicated to environmental protection and R\$ 572 million to social projects.

Acquisition investments summed up to R\$ 579 million in 2013. The main acquisitions are discussed in item 10.3 of this Reference Form.

Edgar Filing: Vale S.A. - Form 6-K

In 2015, Vale started operation in three projects: Conceição Itabiritos II, Cauê Itabiritos and Nacala Port.

In 2014, Vale started operations in eight projects: the 5th line in Brucutu, Tubarão VIII, Teluk Rubiah, Salobo II, Serra Leste, Vargem Grande, Long Harbour, and Nacala.

In 2013, Vale started operations in five projects: (i) Conceição Itabiritos, an iron ore processing plant in Minas Gerais; (ii) Planta 2, a dry processing plant previously known as *Adicional* 40 Mtpa, in Pará; (iii) CLN 150, a logistic corridor in Brazil's Northern System (including Pier IV with its first cradle in Ponta Madeira), (iv) Long Harbour, a nickel and copper hydrometallurgical refinery in Canada, and (v) Totten, nickel and copper mine in Canada.

Table of Contents

In 2012, Vale started operations in two projects (a) Salobo I, a copper and gold operation in Pará, and (b) Lubambe, a copper operation located in Africa's copper belt, in Zambia.

2016 Capital Budget

In December 2015, the Board of Directors approved the budget for investments in 2016, totaling US\$ 6,167 billion (equivalent to R\$ 23,434 billion) including disbursements of US\$ 3,172 billion (equivalent to R\$ 12,053 billion) for projects and US\$ 2,995 billion (equivalent to R\$ 11,381 billion) dedicated to maintenance of existing operations and replacement projects.

In February 2016, the Board of Directors approved a contingency plan for 2016 in order to reduce, among others, investments to US\$ 5,561 billion (equivalent to R\$ 21,132 billion), comprised by US\$ 3,130 billion (equivalent to R\$ 11,894 billion) for project execution and US\$ 2,431 billion (equivalent to R\$ 9,238 billion) to support existing operations and replacement projects.

Our main iron ore growth initiatives respond for 72% of the US\$ 3,172 billion budget for project development in 2015. These programs include: (i) expansion of our integrated iron ore operations in Carajás (US\$ 2,293 billion) through S11D and CLN S11D projects.

The following table shows the estimated allocation of investments for the maintenance of existing operations:

INVESTMENTS TO MAINTAIN OPERATIONS 2016 ALLOCATION BY BUSINESS AREA

US\$ million	Operations	Piles and Rejection Barriers	Health and Safety	Corporate Social Responsibility	Administrative and Others	Total
Ferrous materials	677	137	179	41	75	1,110
Base metals	747	36	112	404	13	1,313

10.11 - Other factors with relevant influence on the operating performance that have not been identified or commented on other items in this section.

There are no facts occurred in the last three fiscal years with relevant influence on the operational performance other than those identified and commented in other items in this section.

Table of Contents

13.1 Description of the compensation policy, including Non-Statutory Boards

a. objectives of the compensation policy or practices

According to the provisions of Article 10, Paragraph 4 of the Bylaws of the Company, the overall and annual compensation for Company Managers is set at the Annual General Meeting, and takes into account their responsibilities, the time they dedicate to their functions, competence and professional reputation, and the market value of their services.

Vale is one of the largest diversified mining companies in the world, and one of the largest private companies in Latin America. It has operations in over 25 countries having shareholders on every continent, and employing around 74,098 employees and 34,410 subcontracted workers active in its operations, as of December 31, 2015.

Clearly, Vale is a global company of great complexity and magnitude, whose administration requires an in-depth understanding of its area of business and market, combined with total commitment.

As global company, Vale is aware that retaining and engaging the right professionals in strategic roles, especially Executive Directors, is critical for its success today, in the mid and long terms. As such, the market is always the benchmark, from the perspective of global competition, thus Vale takes into consideration, to determine managers' compensation, compensation policies used by top mining companies, as well as from large global corporations from other industries.

Thus, the goal of Vale's compensation policy is to attract, motivate, and retain its talents, and considers market practices at locations where the company operates, its alignment with company strategy in the short and long terms, its shareholder value, and business sustainability.

b. composition of compensation packages, indicating:

i. Description of the elements of the compensation packages and the objectives of each of them.

Board of Directors

Fixed Compensation

Pro-labore. The compensation for the members of the Board of Directors is made up exclusively of the payment of a fixed monthly fee; this fixed compensation is designed to remunerate the services of each board member, within their scope of responsibility as members of Vale's Board of Directors. The overall annual compensation for the Managers, including the members of the Board of Directors, the Statutory Board, the Fiscal Council and the advisory committees is set at the Annual General Meeting and distributed by the Board of Directors.

Direct and indirect benefits. The members of the Board of Directors do not have the right to direct or indirect benefits.

Participation on Committees. The members of the Board of Directors do not have the right to remuneration for participation on committees.

Table of Contents

Variable Remuneration

The members of the Board of Directors do not have the right to variable remuneration, including bonuses, profit sharing, participation in meetings, and commissions.

Post-employment Benefits

The members of the Board of Directors do not have the right to post-employment benefits.

Benefits Resulting from the Termination of Holding a Position

The members of the Board of Directors do not have the right to benefits resulting from the termination of holding a position.

Remuneration Based on Shares

The members of the Board of Directors do not have the right to remuneration based on shares.

Fiscal Board

Fixed Compensation

Pro-labore. The compensation for the members of the Fiscal Board is made up of a fixed monthly fee (honorarium), excluding benefits, representation monies, and profit shares. Members of the Fiscal Board are also entitled to refund for their costs with travelling and accommodation expenses incurred while performing their duties. Deputies are compensated when they undertake the function when a seat is vacant, or when the member of the board in question is absent or unable to exercise the function. The aim of the fixed compensation is to remunerate the services of each board member, within their scope of responsibility as members of the Company's Fiscal Board. The fees for Fiscal Board members are determined as a percentage of the average compensation to the Executive Directors.

Direct and Indirect Benefits. Members of the Fiscal Board do not have the right to direct or indirect benefits.

Participation on Committees. The members of the Fiscal Board do not have the right to remuneration for participation on committees.

Variable Remuneration

The members of the Fiscal Board do not have the right to variable remuneration, including bonuses, profit sharing, participation in meetings, and commissions.

Post-employment Benefits

The members of the Fiscal Board do not have the right to post-employment benefits.

Benefits Resulting from the Termination of Holding a Position

The members of the Fiscal Board do not have the right to benefits resulting from the termination of holding a position.

Remuneration Based on Shares

The members of the Fiscal Board do not have the right to remuneration based on shares.

Table of Contents

Advisory Committees

Fixed Compensation

Pro-labore. The compensation for the members of the Board of Directors Advisory Committees (Strategy Committee, Finance Committee, Executive Development Committee, Financial Control Committee, and Governance and Sustainability Committee) considers exclusively the payment of a fixed monthly fee (fees), except for committee members who are Vale Managers, who will not be eligible for compensation for sitting on the committees, as set forth in Paragraph 2 of Article 15 of Vale's Bylaws. The aim of the compensation is to remunerate each member's services within the scope of their responsibility as members of the Company's respective Advisory Committees. The compensation for Advisory Committee members is defined by the Board of Directors.

Direct and Indirect Benefits. Advisory committee members are not entitled to direct or indirect benefits.

Variable Remuneration

The members of the Advisory Committees do not have the right to bonuses, profit sharing, or commissions.

Post-employment Benefits

The members of the Advisory Committees do not have the right to post-employment benefits.

Benefits Resulting from the Termination of Holding a Position

The members of the Advisory Committees do not have the right to benefits resulting from the termination of holding a position.

Remuneration Based on Shares

The members of the Advisory Committees do not have the right to remuneration based on shares.

Statutory Directors (Board of Directors)

Fixed Compensation

Pro-labore. Statutory Directors are entitled to receive a fixed monthly compensation aiming to remunerate the services rendered by them within the scope of the individual responsibility attributed to each one managing the Company.

Direct and indirect benefits. Statutory Directors are entitled to a package of benefits that is also compatible with market practices, including private healthcare, hospital and dental care, private pension scheme and life insurance. Not only are the benefits in line with market practices, but they are also aimed at assuring the executives and their dependents peace of mind when it comes to fundamental issues such as healthcare.

Participation on Committees. Statutory Directors do not have the right to remuneration for participation on committees.

Variable compensation

Bonus. Statutory Directors are entitled to variable annual payment (bonus) based on the Company's

Table of Contents

earnings and defined by indicators and objectives, targets derived from the strategic plan, and the annual budget approved by the Board of Directors. While assuring market competitiveness, the main aim of the bonus is to acknowledge an executive's contribution to the Company's performance and earnings.

Others. Statutory Directors do not have the right to variable compensation, profit sharing, participation in meetings, or commissions.

Post-employment benefits

Statutory Directors may have medical healthcare, hospital and dental care paid by the Company up to 24 months after their termination, in order to allow them to look for alternatives outside the corporate plan.

Benefits Resulting from the Termination of Holding a Position

The members of the Statutory Board do not have the right to benefits resulting from the termination of holding a position, except, however, as described in item 13.12 of this Reference Form, for eventual indemnity due to termination or no renewal of the employment agreement entered by and between these directors and the Company, provided that these events are a Company initiative. For more information, see item 13.12 in this Reference Form.

Compensation based on shares

Long-term Incentives – ILP (Portuguese acronym) (by 2013, including) and Virtual Share Program – PAV (starting in 2014)

The Long-term Incentives (ILP) represents a variable payment based on the Company's expected future performance aimed at retaining and engaging the Executives and aligning them with the future vision of the Company. The program was introduced in 2007 and the first payment was made in January 2010. Starting in 2014, the ILP was replaced by the Virtual Shares Program (PAV), whose basis of calculation is the basis of compensation received by Statutory Directors, and the parameters of this calculation will be pre-established for each hierarchical level in each of the countries where the Company operates. The program lasts for 4 years and not for 3 years, as described in the above paragraph. The program allows early gradual payments, starting in 2014. Thus, payment can be made in accrued tranches of 20% (at the end of the second year), 30% (at the end of the third year) and 50% (at the end of the fourth year), for as long as performance conditions for each year are reached, as set forth in PAV, that is, placement of Vale within a group comprised by other 12 companies of similar size (peer group). The payment metrics is the Total Shareholder Return (TSR) relative to the peer group, taking into consideration the businesses and region in which Vale operates and the influence of the Brazilian market's fluctuation. If Vale is at the top of this ranking, the calculated value is increased by 50%. This percentage is decreasing, and on the third place, the value is unchanged, and starting on the tenth position, and lower, there is no payment whatsoever.

Edgar Filing: Vale S.A. - Form 6-K

For further details, see items 13.1 (b)(iii), (c), and (d) and 13.4 in this Reference Form.

Matching

Like the PAV (and the ILP replaced by PAV in 2014), *Matching* is a variable, long-term form of compensation based on the Company's expected performance. The plan's purpose is to encourage an owner's feeling, while also helping to retain executives and reinforce the sustainable performance culture. The plan was established in 2008, and was altered in 2014 for purposes of changing the calculation methodology to enter the plan, now considering for such calculation (i) the portion of the

Table of Contents

fixed compensation received by beneficiaries of this plan, and (ii) parameters predetermined for each hierarchic level and country where the Company operates.

There have been some adjustments to the Matching program for fiscal year 2016 for purposes of allowing the engagement of the executive to this program in years when the net bonus is not sufficient for investment in the program. In those years, the executive may (i) acquire Company shares during 12 months to use the program, in pre-established purchase windows, as well as (ii) engage in the program using previously held shares (provided that these shares are not bound to the current open cycles in the program), according to criteria and conditions that are set forth in the manual of the *Matching* 2016 program. Additionally, it is important to note that adherence to the program is currently voluntary for all Vale executives, except for the President and the Board of Executive Officers, whose adherence and maintenance to the program is mandatory whenever the net bonus is sufficient for investment.

For more information, including the methodology for calculation used to determine the value of the compensation of beneficiaries under this Plan, see items 13.1(b)(iii), (c), and (d) and 13.4 in this Reference Form.

Non-Statutory Board

The non-statutory directors are Company employees with a labor contract. These directors may hold global Corporate or business unit functions or regional or local corporate functions, or are responsible for operational systems or areas in the Company's different businesses.

Fixed Compensation

Pro-Labore. Non-Statutory Directors are entitled to a fixed monthly compensation based on the Company's organizational chart, which is aligned to market practices. The aim of the fixed salary is, as set out in the labor contract signed by each executive, to remunerate the services rendered within the scope of responsibility attributed to each one undertaking their respective duties within the company.

Direct and indirect benefits. Non-Statutory Directors are entitled to benefits compatible with market practices, including medical healthcare, hospital and dental care, private pension scheme (Valia) and life insurance. Not only are the benefits in line with market practices, but they are also aimed at assuring the executives and their dependents peace of mind when it comes to fundamental issues such as healthcare.

For more information about the Complementary Benefits plan (Valia), see item 13.10 of the Reference Form.

Participation on Committees. The non-statutory directors do not have the right to remuneration for participation on committees.

Variable compensation

Profit Sharing (PLR). Variable annual payment based on the Company's earnings, and team performance, defined by indicators and objective, measurable targets derived from the strategic plan, and the annual budget approved by the Board of Directors. While assuring market competitiveness, the main aim of this program is to acknowledge the contribution by an executive, and other employees, to the Company's performance and earnings. Item 13.1 (d) below, describes in detail the methodology for calculation used to determine the value of the compensation of the Non-Board of Directors, pursuant to what is stated below.

Other. Non-Statutory Board members are not entitled to bonus, remuneration for participation in meetings, or commissions.

Table of Contents

Post-employment benefits

Non-Statutory Directors may enjoy the Medical, Dental, Hospital Assistance paid by the Company after termination of their employment, in order to be able to look for alternatives outside the corporate plan.

Benefits Resulting from the Termination of Holding a Position

Non-Statutory Directors may receive customized service of orientation for outplacement to be performed by the specialist company appointed by Vale.

Compensation based on shares

Long-Term Incentive ILP (by 2013, including) and Virtual Share Program PAV (starting in 2014)

The ILP represents a variable payment based on the Company expected future performance and aimed at retaining and engaging the Executives and aligning them with the vision of the Company. The program was introduced in 2007 and the first payment was made in January 2010. Starting in 2014, the ILP was replaced by the PAV, whose basis of calculation is the basis of compensation received by Statutory Directors, and the parameters of this calculation will be pre-established for each hierarchical level in each of the countries where the Company operates. The program lasts for 4 years and not for 3 years. Additionally, PAV allows early gradual payments, starting in 2014. Thus, payment can be made in accrued tranches of 20% (at the end of the second year), 30% (at the end of the third year) and 50% (at the end of the fourth year), for as long as performance conditions for each year are reached, as set forth in PAV, that is, placement of Vale within a group comprised by other 12 companies of similar size (peer group). The payment metrics is the Total Shareholder Return (TSR) relative to the peer group, taking into consideration the businesses and region in which Vale operates and the influence of the Brazilian market's fluctuation. If Vale is at the top of this ranking, the calculated value is increased by 50%. This percentage is decreasing, and on the third place, the value is unchanged, and starting on the tenth position, and lower, there is no payment whatsoever.

For further details, see items 13.1 (b)(iii), (c) and (d) and 13.4 in this Reference Form.

Matching

Like PAV (and the ILP, replaced by PAV in 2014) *Matching* is a variable, long-term form of compensation based on the Company's expected performance. The plan's purpose is to encourage a feeling of ownership, while also helping to retain executives and reinforce the sustainable performance culture. The plan was established in 2008, and was altered in 2014 for purposes of changing the calculation methodology to enter the plan, now considering for such calculation (i) the monthly portion of the fixed compensation received by beneficiaries of this plan, and

(ii) parameters predetermined for each hierarchic level and country where the Company operates.

There have been some adjustments to the Matching program for fiscal year 2016 for purposes of allowing the engagement of the executive to this program in years when the net bonus is not sufficient for investment in the program. In those years, the executive may (i) acquire Company shares during 12 months to use the program, in pre-established purchase windows, as well as (ii) engage in the program using previously held shares (provided that these shares are not bound to the current open cycles in the program), according to criteria and conditions that are set forth in the manual of the *Matching* 2016 program. Additionally, it is important to note that adherence to the program is currently voluntary for all Vale executives, except for the President and the Board of Executive Officers, whose adherence and maintenance to the program is mandatory whenever the net bonus is sufficient for investment.

Table of Contents

For more information, including the methodology for calculation used to determine the value of the compensation of beneficiaries under this Plan, see items 13.1(b)(iii), (c), and (d) and 13.4 in this Reference Form.

Non-Statutory Committees

The Company also has two non-statutory committees: the Risk Committee and the Communication Committee. All the seats on the non-statutory committees are held by the Company's statutory and non-statutory directors, who do not receive any extra compensation for this function, whether fixed or variable.

ii. Regarding the last 3 fiscal years, proportion of each element to make up the total compensation package

The approximate proportions of each element in the total compensation for fiscal years 2013, 2014, and 2015 were as shown in the tables below:

Fiscal Year 2013

Compensation Composition	Board of Directors	Fiscal Board	Statutory Board	Non-Statutory Board	Committees(1)

Table of Contents

iii. Methodology for the calculation and readjustment of each compensation element

The global annual compensation to managers, including members of the Board of Directors, the Statutory Board, the Fiscal Board and Advisory Committees, is determined at the Annual General Meeting and distributed by the Board of Directors.

Board of Directors

The fixed compensation of the principal members of the Board of Directors is represented by the fixed monthly payments (fees), while the fixed monthly compensation for deputies is 50% of the value received by the principal members of the Board of Directors. Values are annually defined according to the market practice, checked through referential researches conducted by specialized companies, where the effect of the compensation for similar companies can be observed. There is no variable compensation for the members of the Board of Directors.

Fiscal Board

The fixed compensation of the members of the Fiscal Board is represented by the fixed monthly payments (fees), having as reference the value of 10% of the compensation that, in average, is granted to the Statutory Directors, not computing the benefits, representation monies, and profits participation. The members of the Fiscal Board also have the right to a refund for transport and lodging expenses that are necessary in performing their duties, and deputies will be paid only when they act as members due to vacancy, impediment or absence of the respective member. There is no variable compensation for the members of the Fiscal Board.

Advisory Committees

For members of the Advisory Committees of the Board of Directors - Strategic Committee, Financial Committee, Executive Performance Committee, Controlling Committee, and Governance and Sustainability Committee - compensation considers solely the payment of a fixed monthly compensation (fees), except for committee members that are Vale managers, who will not receive compensation for sitting in the committees, as per the terms of §2 of Article 15 of Vale's Bylaws. The members of the Advisory committee also do not receive any other type of fixed compensation. Contractual compensation has the purpose of compensating the services of each advisor within the scope of the responsibility attributed to each of the Company's Advisory Committees, defined by the Board of Directors. Determination and adjustment of the compensation for the member of the Advisory Committee are based on the fixed compensation determined for the Board of Directors.

Executive (Statutory) Directors

The fixed compensation of the Statutory Directors is represented by the fixed monthly payment, defined according to the market practice, checked through referential researches conducted by specialized companies where the effect of the compensation for similar companies can be

Edgar Filing: Vale S.A. - Form 6-K

observed, and annually readjusted by the National Broad Consumer Price Index (IPCA), and assessed by the Executive Development Committee and approved by the Board of Directors.

Direct and indirect benefits (medical healthcare, hospital care, dental care, private pension plan, and life insurance) to which they have the right, are calculated according to the market practice checked through referential research conducted by specialized companies where the effect of the concession of benefits for the participating companies of similar size can be observed and assessed by the Executive Development Committee and approved by the Board of Directors.

Table of Contents

The bonus of the Statutory Directors is calculated based on the earnings of the Company, and may vary between 0% and 200% of the target established considering the market; this depends on the goals set forth and the cash generation of the Company for each fiscal year. Adjustment of fees arising out of IPCA or other merits reflect directly on other elements of the compensation, since they use the fees as basis.

Until 2013 (including), the methodology for the calculation of the compensation based on shares of the Statutory Directors (under the ILP) considered the 75% percentage of the bonus for Executive Directors, and 125% of the bonus for the President, out of the value effectively paid as such, and transformed, as reference, into a number of common shares issued by Vale (virtual shares), considered the average quotation of the common shares issued by the Company during the last 60 trading days of the last fiscal. If the executive member remains in the Company, by the end of three years the number of virtual shares is transformed into a monetary value by the average quotation of the common shares issued by the Company of the last 60 trading days of the third year. Additionally, the program also took into consideration the performance of the Company (Total Shareholder Return (TSR)) regarding a group of 20 similar companies (peer group). If Vale is first in this ranking, the value settled will be increased in 50%. This is a decreasing percentage, so in the 5th position the value remains unchanged, and as of the 15th position, there is no payment. Terms and conditions above are applicable to the beneficiaries of cycles starting in 2011, 2012, and 2013 under the respective program, considering that these cycles have ended, and the cycle beginning in 2013 has ended in December 2015.

Starting in 2014, the ILP was replaced by PAV, whose basis of calculation is the basis of compensation received by Statutory Directors, and the parameters of this calculation will be pre-established for each hierarchical level in each of the countries where the Company operates. The program lasts for 4 years and not for 3 years, as described in the above paragraph. The program allows early gradual payments, starting in 2014. Thus, payment can be made in accrued tranches of 20% (at the end of the second year), 30% (at the end of the third year) and 50% (at the end of the fourth year), for as long as performance conditions for each year are reached, as set forth in PAV, that is, placement of Vale within a group comprised by other 12 companies of similar size (peer group). The payment metrics is the Total Shareholder Return (TSR) relative to the peer group, taking into consideration the businesses and region in which Vale operates and the influence of the Brazilian market's fluctuation. If Vale is at the top of this ranking, the calculated value is increased by 50%. This percentage is decreasing, and on the third place, the value is unchanged, and starting on the tenth position and lower, there is no payment whatsoever.

Until 2013 (including), the calculation of the Matching determined that the executive member could allocate 30% or 50% of his short-term variable payment (bonus) to the purchase of class A preferred shares issued by Vale, through a pre-defined financial institution, under market conditions and without any benefit offered by Vale, on the days set forth in the plan. The bonus percentage that could be allocated by each executive member for participating in the Matching Plan is defined as of the valuation of his performance and potential. This is to be granted to those executive members who acquire shares as per the terms and conditions set forth in the Matching Plan and who three years after the acquisition, still remain linked to Vale and have kept the ownership of all the shares acquired. At the end of the three year period, the administrators end the cycle, and shall give a calculation of effective compliance of the conditions set forth in the manual of the above referred plan. If the terms of the plan have been adhered to, the Company shall pay the executive member a liquid value, as a prize, equal to the amount he bought in shares at the beginning of the program. After the payment of the incentive, the executive members can freely negotiate the preferred shares issued by Vale to be acquired in order to become eligible for the Matching Plan and in agreement with the law in force. Terms and conditions above are applicable to the beneficiaries of cycles starting in 2011, 2012, and 2013 under the respective program.

Starting in 2014, the calculation methodology to the Matching program was determined as the fixed compensation received by beneficiaries of this plan, and parameters predetermined for each hierarchic level and country where the Company operates.

Table of Contents

There have been some adjustments to the Matching program for fiscal year 2016 for purposes of allowing the engagement of the executive to this program in years when the net bonus is not sufficient for investment in the program. In those years, the executive may (i) acquire Company shares during 12 months to use the program, in pre-established purchase windows, as well as (ii) engage in the program using previously held shares (provided that these shares are not bound to the current open cycles in the program), according to criteria and conditions that are set forth in the manual of the *Matching* 2016 program. Additionally, it is important to note that adherence to the program is currently voluntary for all Vale executives, except for the President and the Board of Executive Officers, whose adherence and maintenance to the program is mandatory whenever the net bonus is sufficient for investment.

Non-Statutory Board

The fixed compensation for the Non-Statutory Directors with a labor contract is represented by a fixed monthly payment. Every year, the Department of Human Resources of Vale hire specialized companies to perform analysis of compensations; the analysis is made pursuant to the complexity of each position compared in the market. The comparison is made with national and multinational companies of similar sizes of several sectors, and the equalization of the comparison is through a scoring system. This system of valuation is known as *Hay System*, a system of points created by The Hay Group that evaluates the weight of the positions based on their complexity, allowing their global ranking. This system is one of the most used worldwide for this purpose. There is no predetermined index or periodicity for the readjustment of the fixed compensation and when there are readjustments, they are based on the market evolution and the merit of the executive member.

There is no predefined percentage or frequency to adjust the fixed wage and, when there are salary adjustments, they are based on market changes and the performance of the Non-Statutory Director (merit-based).

Direct and indirect benefits (medical healthcare, hospital care, dental care, private pension plan, and life insurance) to which they have right, are calculated according to the market practice checked through referential research conducted by specialized companies where the effect of the concession of benefits for similar companies in the same segment can be observed.

The component of profit sharing of the Non-Statutory Directors is calculated based on the earnings of the Company, and it ranges from 0% to 200% of the target established according to market reference, depending on the goals set forth and the company cash generation for each fiscal year. The adjustment of the fees arising out of the IPCA or other merit forms reflects directly on other compensation elements, as they use the fees as basis.

Until 2013 (including), the methodology for the calculation of the compensation based on shares of the Non-Statutory Directors, under the ILP, took into account 75% out of the bonus granted for directors responsible for global corporate duties or business units and the 50% out of the bonus granted for directors responsible for regional or local corporate duties of the value actually paid for this purpose. This amount is transformed, as reference, into a number of common shares issued by Vale (virtual shares), and considered the average quotation of the common shares issued by the Company during the last 60 trading days of the last fiscal year. If the executive member remains in the Company, by the end of three years the number of virtual shares is transformed into a monetary value by the average quotation of the common shares issued by the Company of the last 60 trading days of the third year. Additionally, the program also takes into consideration the performance of the Company (Total Shareholding Return (TSR)) regarding a group of 20 similar companies (peer group). If Vale is first in this ranking, the value settled will be increased in 50%. This is a decreasing percentage, so in the 5th position the value remains unchanged, and as of the 15th position, there is no payment. Terms and conditions above are applicable

Table of Contents

to the beneficiaries of cycles starting in 2011, 2012, and 2013 under the respective program, noting that these cycles have ended, and that the cycle beginning in 2013 has ended in December 2015.

Starting in 2014, the ILP was replaced by PAV, whose basis of calculation is the basis of compensation received by Statutory Directors, and the parameters of this calculation will be pre-established for each hierarchical level in each of the countries where the Company operates. The program lasts for 4 years and not for 3 years, as described in the above paragraph. The program allows early gradual payments, starting in 2014. Thus, payment can be made in accrued tranches of 20% (at the end of the second year), 30% (at the end of the third year) and 50% (at the end of the fourth year), for as long as performance conditions for each year are reached, as set forth in PAV, that is, placement of Vale within a group comprised by 12 other companies of similar size (peer group). The payment metrics is the Total Shareholder Return (TSR) relative to the peer group, taking into consideration the businesses and region in which Vale operates and the influence of the Brazilian market's fluctuation. If Vale is at the top of this ranking, the calculated value is increased by 50%. This percentage is decreasing, and on the third place, the value is unchanged, and starting on the tenth position and lower, there is no payment whatsoever.

Until 2013 (including), the calculation of the Matching determined that the executive member could allocate 30% or 50% of his short-term variable payment (bonus) to the purchase of class A preferred shares issued by Vale, through a pre-defined financial institution, under market conditions and without any benefit offered by Vale, on the days set forth in the plan. The bonus percentage that could be allocated by each executive member for participating in the Matching Plan is defined as of the valuation of his performance and potential. This is to be granted to those executive members who acquire shares as per the terms and conditions set forth in the Matching Plan and who three years after the acquisition, still remain linked to Vale and have kept the ownership of all the shares acquired. At the end of the three-year period, the administrators end the cycle, and shall give a calculation of effective compliance of the conditions set forth in the manual of the above referred plan. If the terms of the plan have been adhered to, the Company shall pay the executive member a liquid value, as a prize, equal to the amount he bought in shares at the beginning of the program. After the payment of the incentive, the executive members can freely negotiate the preferred shares issued by Vale to be acquired in order to become eligible for the Matching Plan and in agreement with the law in force. Terms and conditions above are applicable to the beneficiaries of cycles starting in 2011, 2012, and 2013 under the respective program.

Starting in 2014, the calculation methodology to the Matching program was determined as the fixed compensation received by beneficiaries of this plan, and parameters predetermined for each hierarchic level and country where the Company operates.

Some adjustments have been made to Matching for fiscal year 2016 for purposes of enabling the executive engagement in such program in years where net PLR was not sufficient to invest in the program. In those years, the executive may (i) acquire Company shares during 12 months to use the program, in pre-established purchase windows, as well as (ii) engage in the program using previously held shares (provided that these shares are not bound to the current open cycles in the program), according to criteria and conditions that are set forth in the manual of the *Matching* 2016 program. Additionally, it is important to note that adherence to the program is currently voluntary for all Vale executives, except for the President and the Board of Executive Officers, whose adherence and maintenance to the program is mandatory whenever the net bonus is sufficient for investment.

iv. Reasons that justify the composition of the compensation

Reasons that justify the composition of the compensation are incentive to management improvement, better performance, and retention of executives with the Company, aiming to achieve gains due to the commitment to long-term results and short-term performance of the Company. For directors, Vale adopts a composition model of the compensation that concentrates a significant payment of the total compensation in the variable components (both of short- and long-term), being a part of the policy of risk and earnings sharing with the main executive members of

the Company.

Table of Contents

v. Existence of members that are not paid by the issuer and the reason for that

On the date of this Form, the Company does not have members that are not paid, except (i) for two (2) members of the Board of Directors that fully waive the receipt of remuneration, (ii) the members of the Advisory Committees of the Company who are also managers of Vale, who are not entitled to receive remuneration for participation in the committees, and (iii) members of Non-Statutory Committees, who are not paid for this position, as they are paid as executives or employees of the Company.

For purposes of calculating the global value of the annual remuneration in the current fiscal year amounts due to all members of the Board of Directors are taken into consideration, because, in the future, there might be no possibility to waive the remuneration.

c. Main performance indicators that are taken into consideration when determining each element of the compensation package

All the definitions concerning the compensation are sustained by market research, supported by one or more specialized consultancies. Regarding Statutory Directors, these definitions are also assessed by the Executive Development Committee and approved by the Board of Directors.

The main performance indicators taken into account while defining compensation are those related to Company's performance, for instance EBITDA and Free Cash Flow, as well as general productivity and sustainability indicators.

The performance indicators taken into account while determining compensation of the ILP (replaced by PAV in 2014), PAV and Matching are the value of the Company's shares in the market, and in the case of the ILP (replaced by PAV) and PAV, the Company position in relation to a group of companies of similar size (peer group).

d. How the compensation package is structured to reflect the development of the performance indicators

The definition of the executives' performance targets, which are used to structure the payment of their profit share and bonus, derive from the strategic plan and the budget, both approved by the Board of Directors, which are reviewed each year to sustain the targets and expected results for the Company.

The performance indicators taken into account while determining compensation of the long term incentive plans, namely the ILP (in force until 2013), PAV (in force since 2014) and Matching are the value of the Company's shares in the market, and in the case of the PAV, its position in

relation to a group of other 12 companies of similar size (peer group). The peer group applicable to the ILP, replaced in 2014 by PAV, was comprised by 20 companies of similar size.

e. How the compensation policy is aligned with the issuer's short-, medium- and long-term interests

The Company compensation policy is based on its performance and financial sustainability in the short, medium, and long term, in line with its strategic plan, while also assuring shareholder value.

As such, the ILP (replaced by PAV in 2014) and Matching were structured with three-year grace period for the payment of compensation, and PAV, with a four-year grace period. These terms were established to align these programs with the evolution of the Company's performance indicators.

Table of Contents**f. Existence of compensation supported by subsidiaries, and direct or indirect affiliates or holding companies**

One of the Company's executive directors was also the President and Chief Executive Officer of Vale Canada Limited, a Vale subsidiary. As such, part of this executive's fixed and variable compensation and benefits are paid by Vale Canada Limited. For more information, see item 13.15 in this Reference Form.

g. Existence of any compensation or benefits connected to the occurrence of a given corporate event, such as the sale of the issuer's controlling interest

There is no compensation or benefit for the members of the Fiscal or Board of Directors, Statutory or Non-Statutory Committees, or the Executive or Non-Board of Directors that is in any way connected to the occurrence of any corporate event.

- (2) Corresponds to the estimate number of Board of Executive Officers and board members, as applicable, to whom variable compensation is expected to be attributed as recognized in the income of the issuer at the close of the fiscal year, in accordance with the provision of Circular Letter CVM/SEP 02/2016.
- (3) Amount corresponding to 200% of the target set forth as market reference.
- (4) Amount corresponding to 100% of the target set forth as market reference
- (5) The amount presented in the field **Bonus** refers to the effective value paid in the 2015 fiscal year relative to the goals of the 2014 fiscal year

13.4 Stock-based compensation plan for the Board of Directors and the Statutory Board:

The Company has two stock-based compensation plans for the Statutory Board, which do not extend to the Board of Directors. Neither plan grants permission for Company stock purchasing option, but only the payment of a bonus as per the market quotation for the Company stock.

a. General Terms and Conditions

Long-Term Program (ILP) (until 2013) and the Virtual Shares Program (PAV) (starting in 2014)

ILP is a long-term incentive program introduced in 2007 based on the Company's expected performance. The amount to be paid to the Statutory Directors in the ILP was defined based on the percentage of the short-term (bonus) variable tranche, of 125% for the President and 75% for the other members of the board, from the amount to be effectively paid for this purpose. This amount was transformed, as a reference, in a number of common shares issued by Vale (virtual shares), during the last 60 trading days of the last fiscal. If the executive member remains in the Company, by the end of three years the number of virtual shares is transformed into a monetary value [by the average quotation of the common shares issued by the Company of the last 60 trading days of the third year. The program also takes into consideration the performance of the Company regarding a group of 20 similar companies (peer group). If Vale is first in this ranking, the value settled will be increased in 50%. This is a decreasing percentage, so in the 5th position the value remains unchanged, and as of the 15th position, there is no payment. The terms and conditions described above are applicable to beneficiaries from the 2011, 2012 and 2013 cycle within the scope of said program, considering that these cycles have ended, and the cycle beginning in 2013 has ended in December 2015.

Starting in 2014, the ILP was replaced by PAV, whose basis of calculation is the basis of compensation received by Statutory Directors, and the parameters of this calculation will be pre-established for each hierarchical level in each of the countries where the Company operates. The program lasts for 4 years and not for 3 years, as described in the above paragraph. The program allows early gradual payments, starting in 2014. Thus, payment can be made in accrued tranches of 20% (at the end of the second year), 30% (at the end of the third year) and 50% (at the end of the fourth year), for as long as performance conditions for each year are reached, as set forth in PAV, that is, placement of Vale within a group comprised by other 12 companies of similar size (peer group). The payment metrics is the Total Shareholder Return (TSR) relative to the peer group, taking into consideration the businesses and region in which Vale operates and the influence of the Brazilian market's fluctuation. If Vale is at the top of this ranking, the calculated value is increased by 50%. This percentage is decreasing, and on the third place, the value is

unchanged, and starting on the tenth position and lower, there is no payment whatsoever.

Matching

This is a variable, long-term form of compensation created in 2008, based on the Company's expected performance. The main purpose of this program is to encourage an ownership feeling as well as to leverage executive retention and reinforce a sustainable performance culture. To become eligible for the

Table of Contents

Matching program, an executive may allocate 30.0% to 50.0% of his/her bonus (short-term variable compensation) for the purchase of Class A preferred stock issued by Vale, through the mediation of a pre-defined financial institution, under market conditions, on the days set in the scheme, without any benefit being offered by Vale.

Those executives who acquire shares under the terms and conditions of the Matching scheme on the stipulated dates and who are still in the employment of Vale three years after they were acquired and who have kept the ownership of all the shares purchased are eligible for a cash prize. At the end of the three-year period, when the cycle reaches its conclusion, the Managers check that the terms of the scheme, as set forth in the manual, have been followed. Assuming that the terms of the plan have been observed, the Company pays the executive a net value, as a prize, based in the market value of the Company's shares held by the executive during the program. After the incentive has been paid, the executives are free to sell the preferred stock issued by Vale that they had acquired to be eligible to the Matching scheme, in compliance with existing legislation. Until 2013 (including), the bonus percentage to be allocated to each executive to be part of the Matching Plan was defined based on the analysis of its performance and potential. The terms and conditions above described are applicable to the beneficiaries of the 2011, 2012 and 2013 cycles in the scope of said program.

Starting in 2014, the basis of calculation for the Matching program is the fixed remuneration received by the Company Statutory Directors, and the parameters for this calculation will be pre-established for each of the hierarchical levels for each of the countries in which the Company operates.

There have been some adjustments to the Matching program for fiscal year 2016 for purposes of allowing the engagement of the executive to this program in years when the net bonus is not sufficient for investment in the program. In those years, the executive may (i) acquire Company shares during 12 months to use the program, in pre-established purchase windows, as well as (ii) engage in the program using previously held shares (provided that these shares are not bound to the current open cycles in the program), according to criteria and conditions that are set forth in the manual of the *Matching* 2016 program.

Additionally, it is important to note that currently, adherence to the program is voluntary for all Vale executives, except for the President and Board of Executive Officers, for whom adherence and maintenance in the program is mandatory whenever there is net bonus payment sufficient for investment.

b. Major Plan Objectives

The major objectives of the compensation programs based on shares aforementioned are retention of the Company's major executives, keep them engaged to the Company and encourage the ownership feeling, so that they become committed to mid and long terms results.

c. How the plans contribute for the achievement of these objectives

The compensation plans based on shares aforementioned promote the alignment of the stockholders and the Statutory Directors interests, as they ensure that there are only gains for the executives as long as there are gains for the Company as well.

d. Where the plans fit into the issuer s compensation policy

The compensation plans based on shares aforementioned fit into Vale s compensation policy once they respond for the long-term alignment of executives with the interests of the Company and the shareholders, contributing for sustainability, and fostering a competitiveness level that complies with the Company business and retention of qualified professionals. They have been designed upon the support provided by specialized consulting services and upon the consideration of domestic and international market trends and moves.

Table of Contents

e. How the plans promote the alignment between management and the issuer interests at short, mid and long term

The design of compensation plans based on shares aforementioned incorporates the Company performance rate factors upon company stocks fluctuated value in three (for ILP and Matching) or four years (for PAV) and, in case of ILP or the replacing PAV starting in the 2014 cycle, Company performance relative to other companies of similar size within the same industry and the same reference period. This peer group is comprised by 20 companies, in the case of the ILP, and 12 companies, for PAV, currently in force for cycles starting in 2014. Thus, the plans align the medium- and long-term interests of both the managers and the Company. For further information on the changes made to the aforementioned programs, see item (a) above).

f. Maximum number of comprised stocks

Not applicable. No stock purchasing option is granted within the scope of either the ILP or PAV (replacing the ILP) or the Matching programs.

The number of virtual ordinary stocks granted as reference within the scope of the ILP varied with the short-term variable remuneration of each executive and with the average market price of the common shares issued by Vale at a set number of trading days before the approval. In case of PAV, replacing the ILP, the number of virtual shares granted as reference under this plan varies according to the base compensation of each executive and the average quotation of common shares issued by Vale in a specific number of trade days prior to the granting.

In the Matching Program, until 2013 (including), the executive had the option to allocate 30 or 50% of his bonus to purchase Company's class A preferred stocks and become eligible to participate in the program, after their potential and performance assessment. Starting in 2014, the calculation base for the Matching program was the fixed compensation received by Statutory Directors of the Company, and parameters for this calculation are pre-determined for each hierarchic level and each country where the Company operates. There have been some adjustments to the Matching program for fiscal year 2016 for purposes of allowing the engagement of the executive to this program in years when the net bonus is not sufficient for investment in the program. In those years, the executive may (i) acquire Company shares during 12 months to use the program, in pre-established purchase windows, as well as (ii) engage in the program using previously held shares (provided that these shares are not bound to the current open cycles in the program), according to criteria and conditions that are set forth in the manual of the *Matching 2016* program.

Additionally, it is important to note that adherence to the program is currently voluntary for all Vale executives, except for the President and the Board of Executive Officers, whose adherence and maintenance to the program is mandatory whenever the net bonus is sufficient for investment.

g. Maximum number of options to be granted

Not applicable. No stock purchasing option is granted within the scope of the compensation plans based on shares aforementioned.

h. Stock purchasing conditions

Not applicable. The ILP and Matching programs do not grant stock purchasing options to executives. Once assessed, the amount owed to executives within the scope of these plans is paid in cash.

Table of Contents

i. Criteria for stock pricing or option reference period

Not applicable. As no stock purchasing option is granted within the scope of either Plan, it makes no sense setting criteria for stock pricing or option reference period.

In the ILP, replaced by PAV, the amount owed to executives was calculated as per the valuation of a given number of Vale's virtual stocks within the period of the past three years, and is based upon the average quotation of Vale's ordinary stocks in the last 60 stock market floor sessions prior to the incentive grant, and the average quotation of Vale's ordinary stocks at the closing of the last 60 stock market floor sessions of the third year. This amount is then multiplied by a factor of Company performance relative to a peer group of 20 global companies of a similar size. Based on the Company's position relative to this group of global companies, the ILP may be increase in 50% or it may drop to zero.

Under PAV, starting in 2014, the calculation base is the base compensation received by Statutory Directors, and the parameters of this calculation will be pre-established for each hierarchical level in each of the countries where the Company operates. The program lasts for 4 years and not for 3 years, as described in the above paragraph. The program allows early gradual payments, starting in 2014. Therefore, payment may be done in accrued tranches of 20% (by the end of the second year), 30% (by the end of the third year), and 50% (by the end of the fourth year), provided that the performance condition at each is met, as set forth in PAV, namely, placement of Vale within the group comprised by 12 companies of similar size (peer group). The payment metric is the Total Shareholder Return (TSR) related to the peer group, considering the businesses and areas where Vale operates and the influence of variations in the Brazilian market. This percentage is decreasing, and on the third place, the value is unchanged, and starting on the tenth position and lower, there is no payment whatsoever.

However, for the Matching Plan, the net amount to be paid to executives as incentives is calculated upon the number of Company class A preferred stocks purchased by the executive to become eligible for the Plan.

j. Criteria for establishing the reference period

Not applicable. As mentioned above, compensation plans based on shares aforementioned do not grant stock purchasing option. Therefore, there is no reference period. However, both Programs pre-establish that the payment of incentives be made after a grace period of three years (for ILP and Matching) or four years (for PAV, replacing the ILP since 2014). In case of PAV, payment may be done in cumulative installments equal to 20% (by the end of the second year), 30% (by the end of the third year), and 50% (by the end of the fourth year), provided that the performance condition at each is met, as set forth in PAV, namely, placement of Vale within the group comprised by other 12 companies of similar size (peer group). The payment metric is the Total Shareholder Return (TSR) related to the peer group.

k. Liquidation conditions

Both compensation plans based on shares aforementioned pre-establish that premiums be paid in cash.

I. Restrictions to stock transfer

With respect to the Matching Plan, the executive will lose his/her right to the premium if he/she transfers, within the three-year period, any Company preferred stock that is plan-bonded.

Also under the Plan, operations with derivatives are void, when involving the sale of securities of Vale, as well as the lease to third parties of shares held by the member of the program, considering that one of the goals of the Matching program is the exposure and alignment of the executive to the Company traded shares in the period of the Plan. Operations described above are void as well (involving the sale of derivatives and share lease) related to any of Vale shares held by the executive, even when acquired out of the Plan, while the executive is an active member of the Plan.

Table of Contents

Not applicable to the ILP or PAV (replacing the ILP), though, once this Plan's participants are not required to retain their stockholding position in the company nor are they granted any stocks within the scope of the Plan.

m. Criteria and events that, upon occurrence, shall result in the plan suspension, change or extinction

With respect to the Matching Plan, any transference of Vale's issued preferred stocks that are plan-bonded before the three-year grace period or the executive's severance generate the extinction of any rights whatsoever that they would otherwise be entitled to within the scope of the Plan.

However, with respect to the ILP or the PAV (replacing the ILP), the executive's severance generates the extinction of any rights whatsoever that they would otherwise be entitled to within the scope of the Plan.

n. Effects generated by the issuer's Board and Committee Manager's departure upon his/her rights as provided by the stock-based compensation plan

As the Plan works as a retention mechanism, if the Manager resigns, he/she shall lose all his/her rights to share-based compensation. In case the Manager's contract is rescinded or not renewed by the Company, the participant shall receive the values he had purchased prior to the contract rescission or termination date.

13.5 Stock-based compensation for Board of Directors and the statutory board.

The Long Term Incentive (ILP), the Virtual Shares Program (PAV) (replaced the ILP) and Matching described in detail in 13.4, as they do not include or grant stock purchasing option, because they are based on the quotations of the Company's common and preferred shares, as applicable, in order to define the value in kind to be paid as incentive to the executive directors.

Thus, most information, as for instance, information related to the average weighted price in the fiscal year for (a) outstanding options at the beginning of the fiscal year, (b) options that are not redeemed during the fiscal year, (c) options redeemed during the fiscal year, (d) options expired during the fiscal year, and potential dilution in case all granted options were redeemed, is not applicable to the Company. Considering the above, tables below present, for reference purposes, information related to the incentive, including amounts paid each period.

Share-based compensation for the current fiscal year (2016)

	Board of Directors	Statutory Board	Total
Number of members(1)	22.00	8.00	8.00
Number of paid members (2)	0.00	8.00	8.00
Weighted average price:			
(a) Outstanding options at the beginning of the fiscal year	n/a	n/a	n/a
(b) Options that are not redeemed during the fiscal year	n/a	n/a	n/a
(c) Options redeemed during the fiscal year	n/a	n/a	n/a
(d) Options expired during the fiscal year	n/a	n/a	n/a
Potential dilution in case all granted options were redeemed	n/a	n/a	n/a

(1) The total number of members corresponds to the average over the year of the number of members of the administrative entity as determined monthly, under the terms in item 13.2

(2) Corresponds to the number of directors and board members, as applicable, assigned with the share based compensation acknowledged in the results of the fiscal year, as set forth in Resolution CVM/SEP 02/2016.

Table of Contents**Share-based compensation for the current fiscal year (2015)**

13.11 Maximum, minimum, and average individual compensation of the Board of Directors, statutory board, and the fiscal board

Justification for not filling out this table.

Information not disclosed due to legal decision, which is that, the award granted in the case of ordinary proceedings No. 0002888-21.2010.4.02.5101 processed by the 5th Circuit Court of Federal Justice of Rio de Janeiro made final the injunction previously granted to IBEF/RJ, (to which Vale and the company executives are linked), determining that CVM shall be absent from (a) deploying the requirement in sub-item 13.11 in exhibit 24 to CVM Instruction 480, (b) applying any penalty related to failure to comply with this requirement by IBEF associates. CVM appealed the decision. On February 6, 2014, the case was sent to the Federal Regional Court of the 2nd Region to be tried as an appeal with no suspension effects. Thus, at least until CVM's appeal is tried, the decision continues to have the aforementioned effects.

13.12 Compensation or indemnity mechanisms applicable to managers in the occurrence of dismissal or retirement

The contracts signed by members of the Company's Statutory Board have a provision for indemnity for contract rescission, non-renewal or retirement, provided that such events are generated by the Company. In the latter case, the following amounts and conditions are provided for: (i) a compensatory indemnity for each and every amount due, corresponding to 6 times the amount of the last fixed monthly compensation paid to Executive Directors and 12 times for the President, as well as the payment of the indemnity corresponding to 2 fixed annual salaries, to be paid in 8 quarterly equal payments conditioned to a non-compete agreement to be in force for the following 24 months.

No other type of contract agreement is drawn with members of the Board of Directors or the Fiscal Board. The same applies to any other types of contract agreements, life insurance policies or any other instruments that might underlie compensation or indemnity mechanisms in case an executive is dismissed.

For details related to insurance policies related to the payment or reimbursement of expenses incurred by Company managers, see item 12.11 in this Reference Form.

Proposal for global compensation

The proposal for global compensation of the managers for the fiscal year 2016 will be submitted to the General Annual Meeting intended to fix as a global sum the amount of up to **R\$ 90,372,853.00 (ninety million, three hundred and seventy two thousand, eight hundred and fifty-three reais)**, to be distributed by the Board of Directors, taking into account the provisions in current law and in the Articles of Incorporation of Vale. It should be emphasized that the amount proposed considers the responsibilities of the administrators, the time devoted to their positions, the competence, the professional reputation, and the value of their services in the market. It is important to note that the proposal for overall compensation shown above considers the remuneration of the members of the Advisory Committees and charges related to that remuneration, an amount that is not shown in item 13.2.

The above amount comprises: (I) the proposal of remuneration of members of the Board of Directors, the Statutory Board and members of the Fiscal Council of up to R\$89,768,052.98 (eighty nine million seven hundred and sixty eight thousand and fifty-to reais and ninety-eight cents), which is comprised by (a) R\$6,966,663.12 (six million nine hundred and sixty-six thousand and six hundred and sixty-three reais and twelve cents) corresponding to the fixed compensation of the members of the Board of Directors, and of the members of the Fiscal Board, under the terms of Act No. 6404/76, Art. 163, net of social fees under Vale's responsibility; (b) up to R\$ 27,620,355.32 (twenty seven million six hundred and twenty thousand three hundred and fifty-five reais and thirty-two cents) corresponding to the fixed and variable compensation of the Executive Directors, which takes into account an Board of Directors comprised by 8 Executive Directors, net of social fees under Vale's responsibility, and excluding direct and indirect benefits. The individual and fixed compensation is compatible with the values paid to the executive members of similar companies, while the payment of the variable compensation, corresponding to the bonus and the long-term incentive, is linked to the fulfillment of predetermined goals, based on the performance of the Company. Thus, the payment of the variable compensation is equivalent to the partial or total fulfillment of the predetermined goals, and they may also be not owed in the event of not reaching such goals; (c) up to R\$55,191,034.54 (fifty five million one hundred and ninety one thousand and thirty-four reais and fifty-four cents) corresponding to taxes and charges that have an incidence over the compensation and the responsibility of Vale, and also, benefits of any nature; and realized amounts related to the termination of the position and (II) the proposal corresponding to the remuneration of the members of the Advisory Committees and charges related to that remuneration, up to R\$ 604,800.02 (six hundred and four thousand and eight hundred reais and two cents).

Find below additional information relative to the proposal of global remuneration of the Company, as mentioned above:

a) **Period applicable to the remuneration proposal:** The Management proposal refers to the period between January 1 and December 31, 2016, which is the fiscal year.

b) **Comments on the values approved in the Management Proposal in 2015 and the values related to the remuneration of Managers, effectively paid:** in Ordinary and Extraordinary Shareholders' Meetings held on April 17, 2015 the amount of R\$ 107,110,935.81 (one hundred and seven million, one hundred and ten thousand, and nine hundred and thirty-five reais, eighty-one cents) which included remuneration to be paid to members of the Board of Directors, the Fiscal Council, the Executive Office, as well as members of the Advisory Committees. Vale clarifies that regarding fiscal year 2015, the amount related to remuneration of members of the

Board of Directors, the Fiscal Council, the Board, as well as members of the Advisory Committees, the amount of R\$99,867,490.16 (ninety-nine million eight hundred sixty-seven thousand four hundred and ninety reais and sixteen cents) was effectively paid. The

Table of Contents

difference between the initially proposed amount and the effectively paid amount is mainly due to the smaller payment of bonus and the non-payment related to 3 positions in the Board of Directors and, consequently, the social fees related to such amounts.

c) **Comments on eventual differences between the amounts in the current proposal and the previous proposal and those in item 13 in Vale's Reference Form:** The global remuneration of members of the Board of Directors, the Fiscal Council, the Executive Office, as well as members of the Advisory Committees for the fiscal year ending in 2016 corresponds to R\$90,372,853.00 (ninety million three hundred and seventy-two thousand and eight hundred and fifty-three reais). This amount is 15.63% lower than the amount proposed for fiscal year 2015 equal to R\$ 107,110,935.81 (one hundred and seven million, one hundred and ten thousand, and nine hundred and thirty-five reais, eighty-one cents) due to the failure to meet goals set forth for fiscal year 2013, thus resulting in the non-payment of bonus to the Executive Office, and consequent social fees in 2016.

Clarification

Both amounts included in the Management Proposal included in this item 13.16 and the 2015 Management Proposal (included in item 13.16 in the previous Reference Form) are higher than the amounts included in item 13.2 in the respective Reference Forms because (i) the value in the Management Proposals contemplate additional remuneration to be paid to members of the Board of Directors, the Fiscal Council, the Executive Office, as well as members of the Advisory Committees, while (i) amounts in item 13.2 in the Reference Form contemplate only the remuneration amounts of members of the Board of Directors, the Fiscal Council, and the Executive Office.

Table of Contents

VALE S.A. SHAREHOLDER REMUNERATION POLICY

1. The remuneration to shareholders will be at the discretion of the Board of Directors which will decide on the amount to be distributed based on the Company's balance sheet and business outlook, taking into consideration, among other factors, the Company's debt levels and cash flow projections.

2. The proposed remuneration to shareholders will be reviewed and paid (if applicable), in two moments in separate instalments. The first instalment will be analysed and, if applicable, paid in October of each year, and the second (complementary) instalment will be analysed and, if applicable, paid by the end of April of the following year. The amount of the first instalment will be defined based on the Company's accumulated results for the period and the estimated free cash flow for the remainder of the year. The amount of the second instalment will be determined after the results for the fiscal year are known.

3. The proposal for the first instalment of the remuneration to shareholders shall be submitted by the Executive Board to the Board of Directors for consideration in October of each year and shall be announced to the market as soon as approved. The second instalment of the remuneration will be reflected in the allocation of net income proposed for the preceding fiscal year, to be submitted by the Executive Board to the Board of Directors within the first three months of the subsequent year. The amount for the second instalment will be announced to the market after its approval by the Board of Directors, and its payment will be subject to approval at the Annual General Meeting.

4. The value of the first instalment of the remuneration to shareholders will be expressed in US dollars and payment will be made in the form of dividends and / or interest on shareholders equity. The payment will be in Brazilian Reais and the conversion of the proposed amount in US dollars to Reais will be based on the exchange rate of the US dollar (Ptax-Option 5) published by the Central Bank of Brazil (BCB) on the business day prior to the meeting of Vale's Board of Directors which deliberated on the payment of the remuneration to shareholders. The amount of the second instalment will be expressed and paid in Reais, with payment being made in the form of dividends and / or interest on shareholders equity. The equivalent amount in US dollars will be calculated based on the exchange rate for the US dollar (Ptax-Option 5) published by the Central Bank of Brazil (BCB), the day prior to payment.

5. During the year, the Executive Board may propose to the Board of Directors, based on analysis of the Company's cash flows and the availability of profits or reserves of profits, distribution to shareholders of remuneration that is additional to the amounts paid in October or April.

Table of Contents

Proposal of New Remuneration Policy Comparison with current policy

Purpose of change The main purpose of the change is to maintain shareholder s compensation more aligned with Vale s cash generation, especially in a period with greater volatility and uncertainty on mineral commodities price, without the need of anticipating to the market the minimum compensation for each year in January.

Impacts The change has no financial impact for the shareholder.

The proposal does not change any right that is ensured to the shareholders under Vale s Bylaws or in Law No. 6,404/76, and it especially does not alter the minimum dividends established in Article 44 in Vale s Bylaws.

	Current Policy	New Policy
Compensation	The Executive Board will disclose by January 31 of the current year a proposal for the payment of minimum compensation to shareholders for the current year, in US dollars and based on the expected Company performance throughout the year.	Compensation will be at discretion of the Board of Directors, who is responsible for deliberating the amount to be distributed during the current year based on the Company business context, considering, without limitation, the leveraging level and future cash commitments of the Company.
Payment of first installment	April in the current year	October in the current year
Payment of second installment	October in the current year	April in the following year
Payment terms	Dividends and/or interest on equity.	Dividends and/or interest on equity.
Criterion for minimum value	The minimum value disclosed will be published based on the expected performance of the Company in that fiscal year.	There is no minimum value previously disclosed to shareholders. The value of the first installment is to be defined based on accrued result of the period (of the fiscal year) by the Company and estimated free cash flow generation for the fiscal year. The value of the second installment will be defined after calculation of results in the fiscal year.

Table of Contents

Payment Proposal	The proposal of the first and second installments in dollars, with conversion on the exchange rate of the US dollar (PTAX-option 5), published by the Central Bank of Brazil, on the working day prior to the meeting of the Board of Directors to discuss the disclosure and payment of compensation to the shareholders.	The proposal of the first installment is to be in dollars, with conversion on the exchange rate of the US dollar (PTAX-option 5), published by the Central Bank of Brazil, on the working day prior to the meeting of the Board of Directors to discuss the disclosure and payment of compensation to the shareholders. The second installment is in reais.
Payment currency	National Currency (Reais)	National Currency (Reais)
Additional compensation	During the fiscal year, the Executive Board may propose the payment of additional compensation to the minimum value disclosed on January 31.	During the fiscal year, the Executive Board may propose, based on analysis of the development of company cash flow and availability of profits or reserves of existing profits, the distribution of additional compensation for shareholders over payments made in October or April.
Payment of additional compensation	Payment may be made on any of the dates set forth for payment of minimum compensation installments.	There is no estimate regarding the dates when there could be eventual payment of additional compensation.
