-

Item 2.02. Results of Operations and Financial Condition.

On April 14, 2016, Fluor Corporation (the **Company**) announced that it will change the reporting of its financial results to better reflect the diverse end markets the Company serves. Starting with first quarter results that will be released on May 5, 2016, the Company will report its financial results based on the following business segments:

- **Energy, Chemicals & Mining:** This commodity-related segment will focus on opportunities in the upstream, downstream, chemical, petrochemical, offshore, LNG, pipeline and mining markets.
- **Industrial, Infrastructure & Power:** This segment includes the markets of infrastructure, power and life sciences & advanced manufacturing, which predominately contract on a fixed-price basis.
- **Maintenance, Modification & Asset Integrity:** This services-related segment, which is heavily focused on operating expense (OpEx) related spending, includes the activities associated with the recent acquisition of Stork Holding B.V. combined with the Company's existing operations and maintenance activities, its equipment rental-related company (AMECO), its temporary staffing organization (TRS), and Power Services.
- **Government:** The Government segment remains unchanged.

Unaudited segment information by quarter and year for 2014 and 2015 under the new reporting structure is included in exhibits to this Form 8-K. Segment profit is calculated as revenue less cost of revenue and earnings attributable to noncontrolling interests excluding: corporate general and administrative expense; interest expense; interest income; domestic and foreign income taxes; other non-operating income and expense items; and loss from discontinued operations.

The Company includes backlog and new awards data in the exhibits. Backlog is a measure of the total dollar value of work to be performed on contracts awarded and in progress. Although backlog reflects business that is considered to be firm, cancellations, deferrals or scope adjustments may occur. Backlog is adjusted to reflect any known project cancellations, revisions to project scope and cost, and deferrals, as appropriate. New awards is a measure of the total dollar value of work to be performed on contracts awarded in the period. Backlog and new awards measures are regularly reported in the construction industry.

The information in this Current Report on Form 8-K, including the exhibits, shall not be deemed filed for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to liabilities of that section. Furthermore, this Current Report on Form 8-K, including the exhibits, shall not be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934.

Item 9.01. Financial Statements and Exhibits.

(d) Exhibits.
