-

## Section 8 - Other Events

### Items 8.01 - Other Events.

On April 9, 2010, Aetna Inc. ("Aetna") issued a press release announcing that the Centers for Medicare & Medicaid Services notified Aetna of its intent to impose intermediate sanctions suspending the enrollment of and marketing to new members of all Aetna Medicare Advantage and Standalone Prescription Drug Plan Contracts, effective April 21, 2010. A copy of that press release is furnished as Exhibit 99.1 to this report and incorporated herein by reference.

**CAUTIONARY STATEMENT; ADDITIONAL INFORMATION** -- -- Certain information in this Current Report, including the timing of resolution of issues raised by the Centers for Medicare & Medicaid Services ("CMS"), is forward-looking. Forward-looking information is based on management's estimates, assumptions and projections, and is subject to significant uncertainties and other factors, many of which are beyond Aetna's control. Important risk factors could cause actual future results and other future events to differ materially from those currently estimated by management, including the implementation of health care reform legislation; adverse and less predictable economic conditions in the U.S. and abroad (including unanticipated levels of or rate of increase in the unemployment rate); adverse changes in federal or state government policies or regulations as a result of health care reform or otherwise (including legislative measures that would affect our business model and/or limit our ability to price for the risk we assume and/or reflect reasonable costs or profits in our pricing and other proposals, such as mandated minimum medical benefit ratios or eliminate or reduce ERISA pre-emption of state laws, that would increase potential litigation exposure or mandate coverage of certain health benefits); our ability to differentiate our products and solutions from those offered by our competitors, and demonstrate that our products lead to access to better quality of care by our members; unanticipated increases in medical costs (including increased intensity or medical utilization as a result of the H1N1 flu, increased COBRA participation rates or otherwise; changes in membership mix to higher cost or lower-premium products or membership-adverse selection; changes in medical cost estimates due to the necessary extensive judgment that is used in the medical cost estimation process, the considerable variability inherent in such estimates, and the sensitivity of such estimates to changes in medical claims payment patterns and changes in medical cost trends; increases resulting from unfavorable changes in contracting or re-contracting with providers, and increased pharmacy costs); failure to achieve desired rate increases and/or profitable membership growth due to the slowing economy, regulatory restrictions and/or significant competition, especially in key geographic markets where membership is concentrated; adverse changes in size, product mix or medical cost experience of membership; adverse pricing or funding actions by federal or state government payors; our ability to integrate, simplify, and enhance our existing information technology systems and platforms to keep pace with changing customer and regulatory needs; the ability to successfully integrate our businesses (including acquired businesses) and implement multiple strategic and operational initiatives simultaneously; managing CEO succession and retention of key executive talent; the ability to reduce administrative expenses while maintaining targeted levels of service and operating performance; the outcome of various litigation and regulatory matters, including the CMS review and sanctions, litigation concerning, and ongoing reviews by various regulatory authorities of, certain of our payment practices with respect to out-of-network providers; reputational issues arising from data security breaches or other means; the ability to improve relations with providers while taking actions to reduce medical costs and/or expand the services we offer; increases in medical costs or Group Insurance claims resulting from any epidemics, acts of terrorism or other extreme events; and a downgrade in our financial ratings. For more discussion of important risk factors that may materially affect Aetna, please see the risk factors contained in Aetna's 2009 Annual Report on Form 10-K (the "2009 Annual Report") on file with the Securities and Exchange Commission ("SEC"). You also should read the 2009 Annual Report for a discussion of Aetna's historical results of operations and financial condition.
