KIMCO REALTY CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED

CONSOLIDATED FINANCIAL STATEMENTS

1. Interim Financial Statements

Principles of Consolidation -

The accompanying Condensed Consolidated Financial Statements include the accounts of Kimco Realty Corporation (the Company), its subsidiaries, all of which are wholly-owned, and all entities in which the Company has a controlling interest, including where the Company has been determined to be a primary beneficiary of a variable interest entity in accordance with the provisions and guidance of Financial Accounting Standards Board (FASB) Interpretation No. 46(R), Consolidation of Variable Interest Entities (FIN 46(R)) or meets certain criteria of a sole general partner or managing member as identified, in accordance with Emerging Issues Task Force (EITF) Issue 04-5, Investors Accounting for an Investment in a Limited Partnership when the Investor is the Sole General Partner and the Limited Partners have Certain Rights (EITF 04-5). All inter-company balances and transactions have been eliminated in consolidation. The information furnished is unaudited and reflects all adjustments which are, in the opinion of management, necessary to reflect a fair statement of the results for the interim periods presented, and all such adjustments are of a normal recurring nature. These Condensed Consolidated Financial Statements should be read in conjunction with the Company's 2005 Annual Report on Form 10-K and Current Report on Form 8-K dated July 28, 2006.

Income Taxes -

The Company has made an election to qualify, and believes it is operating so as to qualify, as a Real Estate Investment Trust (a REIT) for federal income tax purposes. Accordingly, the Company generally will not be subject to federal income tax, provided that distributions to its stockholders equal at least the amount of its REIT taxable income as defined under Sections 856 through 860 of the Internal Revenue Code, as amended (the Code). However, in connection with the Tax Relief Extension Act of 1999, which became effective January 1, 2001, the Company is now permitted to participate in certain activities which it was previously precluded from in order to maintain its qualification as a REIT, so long as these activities are conducted in entities which elect to be treated as taxable REIT subsidiaries under the Code. As such, the Company will be subject to federal and state income taxes on the income from these activities. During the nine months ended September 30, 2006 and 2005, the Company's provision for federal and state income taxes was approximately \$12.9 million and \$13.6 million, respectively, relating to activities conducted in its taxable REIT subsidiaries.

[Back to Contents](#)*Earnings Per Share -*

On July 21, 2005, the Company's Board of Directors declared a two-for-one split (the "Stock Split") of the Company's common stock which was effected in the form of a stock dividend paid on August 23, 2005 to stockholders of record on August 8, 2005. All share and per share data included in the accompanying Condensed Consolidated Financial Statements and Notes thereto have been adjusted to reflect this split.

The following table sets forth the reconciliation of earnings and the weighted average number of shares used in the calculation of basic and diluted earnings per share (amounts presented in thousands, except per share data):

(a) For the three and nine months ended September 30, 2006 and 2005, the effect of certain convertible units would have an anti-dilutive effect upon the calculation of Income from continuing operations per share. Accordingly, the impact of such conversion has not been included in the determination of diluted earnings per share calculations.

The Company maintains an equity participation plan (the Plan) pursuant to which a maximum of 42,000,000 shares of the Company s common stock may be issued for qualified and non-qualified options and restricted stock grants. Options granted under the Plan generally vest ratably over a three or five year term, expire ten years from the date of grant and are exercisable at the market price on the date of grant, unless otherwise determined by the Board of Directors at its sole discretion. Restricted stock grants vest 100% on the fifth anniversary of the grant. In addition, the Plan provides for the granting of certain options to each of the Company s non-employee directors (the Independent Directors) and permits such Independent Directors to elect to receive deferred stock awards in lieu of directors fees.

[Back to Contents](#)

Prior to January 1, 2003, the Company accounted for the Plan under the intrinsic value-based method of accounting prescribed by Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations including FASB Interpretation No. 44, Accounting for Certain Transactions involving Stock Compensation (an interpretation of APB Opinion No. 25). Effective January 1, 2003, the Company adopted the prospective method provisions of Statement of Financial Accounting Standards (SFAS) No. 148, Accounting for Stock-Based Compensation Transition and Disclosure, an Amendment of FASB Statement No. 123 (SFAS No. 148), which applies the recognition provisions of SFAS No. 123, Accounting for Stock-Based Compensation (SFAS No. 123) to all employee awards granted, modified or settled after January 1, 2003.

During December 2004, the FASB issued SFAS No. 123 (revised 2004), Share-Based Payment (SFAS No. 123(R)), which is a revision of Statement 123. SFAS No. 123(R) supersedes Opinion 25. Generally, the approach in SFAS No. 123(R) is similar to the approach described in Statement 123. However, SFAS No. 123(R) requires all share-based payments to employees, including grants of employee stock options, to be recognized in the statement of operations based on their fair values. Pro-forma disclosure is no longer an alternative under SFAS No. 123(R). SFAS No. 123(R) is effective for fiscal years beginning after December 31, 2005. The Company began expensing stock based employee compensation with its adoption of the prospective method provisions of SFAS No. 148, effective January 1, 2003, as a result, the adoption of SFAS No. 123(R) did not have a material impact on the Company's financial position or results of operations.

[Back to Contents](#)

The non-cash expense related to stock-based employee compensation included in the determination of net income for the three and nine months ended September 30, 2005 is less than that which would have been recognized if the fair value based method had been applied to all awards since the original effective date of SFAS No. 123. There was no difference in amounts for the three and nine months ended September 30, 2006. The following table illustrates the effect on net income and earnings per share if the fair value based method had been applied to all outstanding stock awards for the three and nine months ended September 30, 2005 (amounts presented in thousands except for per share data):

	Three Months Ended September 30,	Nine Months Ended September 30,

In addition, there were approximately 2,455,900 and 990,000 stock options that were anti-dilutive as of September 30, 2006 and 2005, respectively.

The fair value of each option award is estimated on the date of grant using the Black-Scholes option pricing formula. The more significant assumptions underlying the determination of such fair values for options granted during the three

and nine months ended September 30, 2006 and 2005 were as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,

New Accounting Pronouncements -

In September 2005, the EITF issued Issue 04-5, Investor's Accounting for an Investment in a Limited Partnership When the Investor is the Sole General Partner and the Limited Partners Have Certain Rights, (EITF 04-5). At issue is what rights held by the limited partner(s) preclude consolidation in circumstances in which the sole general partner would consolidate the limited partnership in accordance with U.S. generally accepted accounting principles. The assessment of limited partners' rights and their impact on the presumption of control of the limited partnership by the sole general partner should be made when an investor becomes the sole general partner and should be reassessed if (i) there is a change to the terms or in the exercisability of the rights of the limited partners, (ii) the sole general partner increases or decreases its ownership of limited partnership interests, or (iii) there is an increase or decrease in the number of outstanding limited partnership interests. This issue was effective no later than for fiscal years beginning after December 15, 2005 and as of September 29, 2005 for new or modified arrangements. The impact of adopting EITF 04-5 did not have a material impact on the Company's financial position or results of operations.

In July 2006, the FASB issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement No. 109, Accounting for Income Taxes (FIN 48), regarding accounting for and disclosure of uncertain tax positions. This guidance seeks to reduce the diversity in practice associated with certain aspects of the recognition and measurement related to accounting for income taxes. This interpretation is effective for fiscal years beginning after December 15, 2006. The Company is currently assessing the provisions of FIN 48, but does not expect its adoption to have a material impact on the Company's financial position or results of operations.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurement (SFAS No. 157), which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurement. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007. The impact of adopting SFAS No. 157 is not expected to have a material impact on the Company's financial position or results of operations.

Additionally in September 2006, the United States Securities and Exchange Commission staff issued Staff Accounting Bulletin No. 108, Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements (SAB 108), which provides interpretive guidance on how registrants should quantify financial statement misstatements. SAB 108 requires registrants to quantify misstatements using both balance sheet and income statement approaches and to evaluate whether either approach results in quantifying an error that is material in light of relative quantitative and qualitative factors. For transition purposes, the registrants will be permitted to restate prior period financial statements or recognize the cumulative effect of initially applying SAB 108 through an adjustment to beginning retained earnings in the year of adoption. SAB 108 is effective for annual financial statements covering the first fiscal year ending after November 15, 2006. The impact of adopting SAB 108 is not expected to have a material impact on the Company's financial position or results of operations.

Additionally, the same amended covenants were adopted within the Canadian supplemental indenture, which governs the 4.45% Canadian Debentures due in 2010. In connection with the consent solicitation, the Company incurred costs aggregating approximately \$5.8 million, of which \$1.8 million was related to costs paid to third parties, which were expensed. The remaining \$4.0 million was related to fees paid to note holders, which were capitalized and are being amortized over the remaining term of the notes.

Results of Operations

Revenues from rental property increased \$25.5 million or 19.9% to \$153.8 million for the three months ended September 30, 2006, as compared with \$128.3 million for the corresponding quarter ended September 30, 2005. Similarly, revenues from rental property increased \$64.6 million or 16.9% to \$446.1 million for the nine months ended September 30, 2006, as compared with \$381.5 million for the corresponding nine month period ended September 30, 2005. These net increases resulted primarily from the combined effect of (i) the acquisition of operating properties during 2005 and the nine months ended September 30, 2006, providing incremental revenues for the three and nine months ended September 30, 2006 of approximately \$21.3 million and \$49.0 million, respectively, (ii) an overall increase in shopping center portfolio occupancy to 95.0% at September 30, 2006, as compared to 94.2% at September 30, 2005 and the completion of certain redevelopment and development projects providing incremental revenues of approximately \$8.6 million and \$22.2 million, respectively, for the three and nine months ended September 30, 2006 as compared to the corresponding period in 2005, offset by (iii) a decrease in revenues of approximately \$4.4 million and \$6.6 million for the three and nine months ended September 30, 2006, respectively, as compared to the corresponding periods last year, resulting from the transfer of operating properties to various unconsolidated joint venture entities, and the sale of certain properties during 2005 and the nine months ended September 30, 2006.

Rental property expenses, including depreciation and amortization, increased approximately \$19.8 million or 33.8% to \$78.3 million for the three months ended September 30, 2006, as compared with \$58.5 million for the corresponding quarter ended September 30, 2005. Similarly, for the nine months ended September 30, 2006, rental property expenses, including depreciation and amortization, increased \$43.7 million or 24.6% to \$221.6 million as compared with \$177.9 million for the corresponding period in the preceding year. These increases are primarily due to operating property acquisitions during 2006 and 2005 which were partially offset by operating property dispositions including those transferred to various joint venture entities.

Mortgage financing income increased \$5.9 million to \$15.8 million for the nine months ended September 30, 2006, as compared to \$9.9 million for the corresponding period in 2005. This increase is primarily due to the recognition of accretion income of approximately \$6.2 million, resulting from an early pre-payment of a mortgage receivable in June 2006, which had been acquired at a discount.

Management and other fee income increased approximately \$2.9 million and \$7.5 million, respectively, for the three and nine months ended September 30, 2006, as compared to the corresponding periods in 2005. These increases are primarily due to incremental fees earned from the Kimsouth portfolio and growth in the Company's other co-investment programs.

General and administrative expenses increased approximately \$8.5 million and \$17.1 million, respectively for the three and nine months ended September 30, 2006, as compared to the corresponding periods in 2005. These increases are primarily due to personnel-related costs including the non-cash expensing of stock options granted, attributable to the growth of the Company.

[Back to Contents](#)

Interest, dividends and other investment income increased approximately \$5.0 million and \$20.8 million for the three and nine month periods ended September 30, 2006, respectively, as compared to the corresponding periods in 2005. These increases are primarily due to greater realized gains on the sale of certain marketable securities and increased interest and dividend income as a result of the growth in the marketable securities portfolio during 2005 and the nine months ended September 30, 2006.

Interest expense increased \$11.7 million and \$35.0 million for the three and nine months ended September 30, 2006, as compared to the corresponding periods in 2005. These increases are due to higher interest rates and higher outstanding levels of debt during these periods as compared to the same periods in the preceding year.

Income from other real estate investments increased \$14.1 million to \$27.2 million for the three months ended September 30, 2006, as compared to \$13.1 million for the corresponding period in 2005. Similarly, income from other real estate investments increased \$19.8 million to \$60.9 million for the nine months ended September 30, 2006, as compared to \$41.1 million for the corresponding period in 2005. These increases are primarily due to (i) increased investment in the Company's Preferred Equity program which contributed \$11.7 million and \$29.8 million for the three and nine months ended September 30, 2006, including \$8.7 million of profit participation earned from 12 capital transactions, as compared to \$8.8 million and \$22.5 million for the corresponding periods in 2005, including a \$7.5 million profit participation earned from three capital transactions and (ii) pre-tax profits of \$7.9 million from the transfer of two properties from Kimsouth to a joint venture in which the Company has an 18% non-controlling interest. These profits exclude amounts that have been deferred as a result of the Company's continued ownership interest.

Equity in income of real estate joint ventures, net increased \$11.2 million to \$29.3 million for the three months ended September 30, 2006, as compared to \$18.1 million for the corresponding period in 2005. Similarly, equity in income of real estate joint ventures, net increased \$15.7 million to \$72.8 million for the nine months ended September 30, 2006, as compared with \$57.1 million for the corresponding period in 2005. These increases are primarily attributable to (i) increased equity in income from the Kimco Income REIT joint venture investment (KIR) resulting from the sale of an operating property and one out-parcel during the nine months ended September 30, 2006 which provided a gain of \$1.6 million, of which the pro-rata share to the Company was \$0.7 million, (ii) increase in equity in income from the Kimco Retail Opportunity Portfolio joint venture investment (KROP) primarily resulting from profit participation of approximately \$9.3 million and gains from the sale of six operating properties and two out-parcels during 2006 of which the pro-rata share of gains to the Company were \$1.0 million and \$7.5 million for the three and nine months ended September 30, 2006, and (iii) the Company's growth of its various other real estate joint ventures. These sales resulted in gains of approximately \$14.8 million, net of income taxes of \$9.9 million, which excludes approximately \$1.1 million of gains on one of the projects, which was deferred due to the Company's continued ownership interest.

During the nine months ended September 30, 2005, KDI, sold in separate transactions, 28 out-parcels and five recently completed projects for approximately \$201.9 million. These sales provided gains of approximately \$18.8 million, net of income taxes of approximately \$9.6 million

Net income for the three and nine months ended September 30, 2006 was \$91.4 million and \$296.4 million, respectively. On a diluted per share basis, net income improved \$0.12 to \$1.19 for the nine month period ended September 30, 2006, as compared to \$1.07 for the corresponding period in 2005. These increases are attributable to (i) an increase in revenues from rental properties primarily due to acquisitions in 2005 and the nine months ended September 30, 2006, (ii) increased income from other real estate investments primarily due to increased investments in the Company's Preferred Equity program, (iii) an increase in equity in income of real estate joint ventures achieved from profit participation and gains on sale of joint venture operating properties and additional capital investment in the Company's joint venture programs for the acquisition of additional operating properties throughout 2006 and 2005, (iv) increased gains on sales of operating properties for the nine months ended September 30, 2006, (v) increased income contributed from the marketable securities portfolio as compared to the same period last year, partially offset by, (vi) an increase in interest expense due to higher interest rates and increased borrowings during 2006.

During the nine months ended September 30, 2006, the Company expended approximately \$43.6 million in connection with these major redevelopments and re-tenanting projects. The Company anticipates its capital commitment toward these and other redevelopment projects during 2006 will be approximately \$70.0 million to \$90.0 million. The funding of these capital requirements will be provided by cash flow from operating activities and availability under the Company's revolving lines of credit.

Investments and Advances to Real Estate Joint Ventures -

Ground-up Development -

The Company is engaged in ground-up development projects which consists of (i) merchant building through the Company's wholly-owned taxable REIT subsidiary, KDI, which develops neighborhood and community shopping centers and the subsequent sale thereof upon completion, (ii) ground-up development projects which will be held as long-term investments by the Company and (iii) various ground-up development projects located in Mexico and Canada for long-term investment. All ground-up development projects generally have substantial pre-leasing prior to the commencement of construction. As of September 30, 2006, the Company had in progress a total of 43 ground-up development projects including 27 merchant building projects, five U.S. ground-up development projects and 11 ground-up development projects located throughout Mexico.

During the nine months ended September 30, 2006, the Company expended approximately \$388.8 million in connection with the purchase of land and construction costs related to these projects. These projects are currently proceeding on schedule and substantially in line with the Company's budgeted costs. The Company anticipates its capital commitment during 2006 toward these and other development projects will be approximately \$390 million to \$485 million. The proceeds from the sales of the completed ground-up development projects, proceeds from construction loans and availability under the Company's revolving lines of credit are expected to be sufficient to fund these anticipated capital requirements.

Dispositions and Transfers

During the nine month period ended September 30, 2006, the Company received net proceeds of approximately \$196.9 million relating to the sale of various operating properties and ground-up development projects and approximately \$129.9 million from the transfer of operating properties to various co-investment ventures.

Financing Activities

It is management's intention that the Company continually have access to the capital resources necessary to expand and develop its business. As such, the Company intends to operate with and maintain a conservative capital structure with a level of debt to total market capitalization of 50% or less. As of September 30, 2006, the Company's level of debt to total market capitalization was 24%. In addition, the Company intends to maintain strong debt service coverage and fixed charge coverage ratios as part of its commitment to maintaining its investment-grade debt ratings. The Company may, from time to time, seek to obtain funds through additional equity offerings, unsecured debt financings and/or mortgage/ construction loan financings and other capital alternatives in a manner consistent with its intention to operate with a conservative debt structure.

Since the completion of the Company's initial public offering (IPO) in 1991, the Company has utilized the public debt and equity markets as its principal source of capital for its expansion needs. Since the IPO, the Company has completed additional offerings of its public unsecured debt and equity, raising in the aggregate over \$4.9 billion for the purposes of, among other things, repaying indebtedness, acquiring interests in neighborhood and community shopping centers, funding ground-up development projects, expanding and improving properties in the portfolio and other investments.

The Company has an \$850.0 million unsecured revolving credit facility, which is scheduled to expire in July 2008. This credit facility has made available funds to both finance the purchase of properties and other investments and meet any short-term working capital requirements. As of September 30, 2006, there was \$360.0 million outstanding under this credit facility.

Additionally, the Company has a Canadian denominated (CAD) \$250.0 million unsecured credit facility with a group of banks. This facility originally bore interest at the CDOR Rate, as defined, plus 0.50%, and is scheduled to expire in March 2008. During January 2006, the facility was amended to reduce the borrowing spread to 0.45% and to modify the covenant package to conform to the Company's \$850.0 million U.S. Credit Facility. Proceeds from this facility will be used for general corporate purposes including the funding of Canadian denominated investments. As of September 30, 2006, there was CAD \$15.0 million (approximately USD \$13.4 million) outstanding under this credit facility.

The Company also has a Mexican Peso denominated (MXP) 500.0 million unsecured revolving credit facility. This facility bears interest at the TIIE Rate, as defined, plus 1.00% and is scheduled to expire in May 2008. Proceeds from this facility will be used to fund peso denominated investments. As of September 30, 2006, there was MXP 500.0 million (approximately USD \$45.4 million) outstanding under this facility.

The Company has a medium-term notes (MTN) program pursuant to which it may, from time-to-time, offer for sale its senior unsecured debt for any general corporate purposes, including (i) funding specific liquidity requirements in its business, including property acquisitions, development and redevelopment costs and (ii) managing the Company's debt maturities.

During March 2006, the Company issued \$300.0 million of fixed rate unsecured senior notes under its MTN program. This fixed rate MTN matures March 15, 2016 and bears interest at 5.783% per annum. The proceeds from this MTN issuance were primarily used to repay a portion of the outstanding balance under the Company's U.S. revolving credit facility and for general corporate purposes.

Additionally, during March 2006, the Company completed a primary public stock offering of 10,000,000 shares of the Company's common stock. The net proceeds from this sale of common stock, totaling approximately \$405.5 million (after related transaction costs of \$2.5 million) were primarily used to repay the outstanding balance under the Company's U.S. revolving credit facility, partial repayment of the outstanding balance under the Company's Canadian denominated credit facility and for general corporate purposes.

During May 2006, the Company filed a shelf registration statement on Form S-3ASR for the future offerings, from time to time, of debt securities, preferred stock, depositary shares, common stock and common stock warrants.

During June 2006, the Company entered into a third supplemental indenture, under the indenture governing its medium-term notes and senior notes, which amended the (i) total debt test and secured debt testing by changing the asset value definition from undepreciated real estate assets to total assets, with total assets being defined as undepreciated real estate assets, plus other assets (but excluding goodwill and amortized debt costs) and (ii) maintenance of unencumbered total asset value covenant by increasing the requirement of the ratio of unencumbered total asset value to outstanding unsecured debt from 1 to 1 to 1.5 to 1. Additionally, the same amended covenants were adopted within the Canadian supplemental indenture, which governs the 4.45% Canadian Debentures due in 2010. As a result of the amended covenants, the Company has increased its borrowing capacity by approximately \$2.0 billion.

During the nine months ended September 30, 2006, the Company repaid its \$30.0 million 6.93% fixed rate notes, which matured on July 20, 2006 and \$100.0 million floating rate notes, which matured on August 1, 2006.

During August 2006, Kimco North Trust III, a wholly-owned entity of the Company, completed the issuance of \$200.0 million Canadian denominated senior unsecured notes. The notes bear interest at 5.18% and mature on August 16, 2013. The proceeds were used by Kimco North Trust III, to pay down outstanding indebtedness under existing credit facilities, to fund long-term investments in Canadian real estate and for general corporate purposes. The senior unsecured notes are governed by an indenture by and among Kimco North Trust III, the Company, as guarantor, and BNY Trust Company of Canada, as trustee, dated April 21, 2005, as supplemented.

In addition to the public equity and debt markets as capital sources, the Company may, from time-to-time, obtain mortgage financing on selected properties and construction loans to partially fund the capital needs of its ground-up development projects. As of September 30, 2006, the Company had over 400 unencumbered property interests in its portfolio.

In connection with its intention to continue to qualify as a REIT for federal income tax purposes, the Company expects to continue paying regular dividends to its stockholders. These dividends will be paid from operating cash flows, which are expected to increase due to property acquisitions, growth in operating income in the existing portfolio and from other investments. Since cash used to pay dividends reduces amounts available for capital investment, the Company generally intends to maintain a conservative dividend payout ratio, reserving such amounts as it considers necessary for the expansion and renovation of shopping centers in its portfolio, debt reduction, the acquisition of interests in new properties and other investments as suitable opportunities arise and such other factors as the Board of Directors considers appropriate.

Although the Company receives substantially all of its rental payment on a monthly basis, it generally intends to continue paying dividends quarterly. Amounts accumulated in advance of each quarterly distribution will be invested by the Company in a short-term money market or other suitable instruments. Cash dividends paid for the nine months ended September 30, 2006 and 2005 were \$242.8 million and \$215.4 million, respectively.

[Back to Contents](#)Effects of Inflation

Many of the Company's leases contain provisions designed to mitigate the adverse impact of inflation. Such provisions include clauses enabling the Company to receive payment of additional rent calculated as a percentage of tenants gross sales above pre-determined thresholds, which generally increase as prices rise, and/or escalation clauses, which generally increase rental rates during the terms of the leases. Such escalation clauses often include increases based upon changes in the consumer price index or similar inflation indices. In addition, many of the Company's leases are for terms of less than 10 years, which permits the Company to seek to increase rents to market rates upon renewal. Most of the Company's leases require the tenant to pay an allocable share of operating expenses, including common area maintenance costs, real estate taxes and insurance, thereby reducing the Company's exposure to increases in costs and operating expenses resulting from inflation. The Company periodically evaluates its exposure to short-term interest rates and foreign currency exchange rates and will, from time to time, enter into interest rate protection agreements and/or foreign currency hedge agreements which mitigate, but do not eliminate, the effect of changes in interest rates on its floating-rate debt and fluctuations in foreign currency exchange rates.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The following table presents the Company's aggregate fixed rate and variable rate domestic and foreign debt obligations outstanding as of September 30, 2006, with corresponding weighted-average interest rates sorted by maturity date. The information is presented in U.S. dollar equivalents, which is the Company's reporting currency. The instruments actual cash flows are denominated in U.S. dollars, Canadian dollars and Mexican Pesos, as indicated by geographic description (\$ USD equivalent in thousands):

Based on the Company's variable-rate debt balances, interest expense would have increased by approximately \$2.7 million for the nine months ended September 30, 2006 if short-term interest rates were 1.0% higher.

As of September 30, 2006, the Company had Canadian investments totaling CAD \$840.4 million (approximately USD \$751.9 million) comprised of real estate joint venture investments and marketable securities. In addition, the Company has Mexican real estate and mortgage financing investments of approximately MXN \$3.9 billion (approximately USD \$356.8 million). The foreign currency exchange risk has been partially mitigated through the use of local currency denominated debt, inflation adjusted leases and a cross currency swap (the "CC Swap"). The Company is exposed to credit risk in the event of non-performance by the counter-party to the CC Swap. The Company believes it has mitigated its credit risk by entering into the CC Swap with a major financial institution.

The Company has not, and does not plan to, enter into any derivative financial instruments for trading or speculative purposes. As of September 30, 2006, the Company had no other material exposure to market risks.
