Table of Contents

Note 1. Basis of Presentation

The interim unaudited consolidated financial statements of Central Valley Community Bancorp and subsidiary have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC). These interim consolidated financial statements include the accounts of Central Valley Community Bancorp and its wholly owned subsidiary Central Valley Community Bank (the Bank) (collectively, the Company). All significant intercompany accounts and transactions have been eliminated in consolidation. As discussed in Note 12, on July 1, 2013, the Company completed an acquisition under which Visalia Community Bank merged with and into Central Valley Community Bancorp's subsidiary, Central Valley Community Bank. Certain information and footnote disclosures normally included in the annual consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) have been omitted. The Company believes that the disclosures are adequate to make the information presented not misleading. These interim consolidated financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's 2012 Annual Report to Shareholders on Form 10-K. In the opinion of management, all adjustments, consisting only of normal recurring adjustments, necessary to present fairly the Company's financial position at September 30, 2013, and the results of its operations and its cash flows for the three and nine month interim periods ended September 30, 2013 and 2012 have been included. Certain reclassifications have been made to prior year amounts to conform to the 2013 presentation. Reclassifications had no effect on prior period net income or shareholders' equity. The results of operations for interim periods are not necessarily indicative of results for the full year.

The preparation of these consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Management has determined that since all of the banking products and services offered by the Company are available in each branch of the Bank, all branches are located within the same economic environment, and management does not allocate resources based on the performance of different lending or transaction activities, it is appropriate to aggregate the Bank branches and report them as a single operating segment. No customer accounts for more than 10 percent of revenues for the Company or the Bank.

Impact of New Financial Accounting Standards

Presentation of Comprehensive Income

In February 2013, the FASB issued ASU 2013-02, Comprehensive Income ("Topic 220") - Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income ("ASU 2013-02"). This ASU requires an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, an entity is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income but only if the amount reclassified is required under GAAP to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required under GAAP to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures required under GAAP that provide additional detail about those amounts. ASU 2013-02 is effective prospectively for annual and interim periods beginning after December 15, 2012. The Company adopted this standard on January 1, 2013. The adoption of this ASU did not have a material impact on the Company's financial position, results of operations, or cash flows.

Note 2. Share-Based Compensation

For the nine month periods ended September 30, 2013 and 2012, share-based compensation cost recognized was \$73,000 and \$83,000, respectively. For the three month periods ended September 30, 2013 and 2012, share-based compensation cost recognized was \$23,000 and \$19,000, respectively. The recognized tax benefits for stock option compensation expense were \$13,000 and \$14,000, respectively, for the nine month periods ended September 30, 2013 and 2012. For the quarter ended September 30, 2013 and 2012, the recognized tax benefits for stock option compensation expense were \$4,000 and \$3,000, respectively.

The Company bases the fair value of the options granted on the date of grant using a Black-Scholes Merton option pricing model that uses assumptions based on expected option life and the level of estimated forfeitures, expected stock volatility, risk free interest rate, and dividend yield. The expected term and level of estimated forfeitures of the Company's options are based on the Company's own historical experience. Stock volatility is based on the historical volatility of the Company's stock. The risk-free rate is based on the U. S. Treasury yield curve for the periods within the contractual life of the
