Item 1

Reporting Issuer:

TransAlta Corporation ("TransAlta")
110 - 12th Avenue S.W.

Calgary, Alberta T2P 2M1

Item 2

Date of Material Change:

November 22, 2002.

Item 3

News Release:

A news release was issued on November 22, 2002.

Item 4

Summary of Material Change:

On November 22, 2002, TransAlta announced that it has decided to implement a phased decommissioning of its 586-megawatt (MW) coal-fired Wabamun facility located west of Edmonton, Alberta; it has decided to advance plant maintenance schedules for its Alberta thermal power plants; and it cancelled an order for four natural-gas turbines.

Item 5

Full Description of Material Change:

On November 22, 2002, TransAlta announced that it has decided to implement a phased decommissioning of its 586-MW coal-fired Wabamun facility located west of Edmonton, Alberta. The power purchase arrangement (PPA) for the Wabamun facility expires at the end of 2003. The 150-MW unit three will be removed from service effective November 29, 2002; units one and two (66-MW each) will be removed from service in 2004; and the 304-MW unit four will be removed from service in 2010 when its license expires. As a result of this decision, TransAlta expects to recognize an accounting charge of approximately \$110 million pre-tax in the fourth quarter of 2002.

TransAlta also announced that it has decided to advance its Alberta thermal power plant maintenance schedule to improve reliability and increase availability of the plants. The short-term result of this decision will be increased costs and reduced availability of the plant in the fourth quarter, which is expected to have a pre-tax impact of \$18 million in 2002.

TransAlta further announced that it has cancelled orders for natural-gas turbines. As a result, TransAlta expects to record a pre-tax charge of approximately \$42 million in the fourth quarter for deposits paid.

<PAGE>

The aggregate impact of these three initiatives on fourth quarter results will be after-tax charges of approximately \$110 million, or \$0.65 per common share. Fourth quarter results are therefore expected to be a loss of \$50 to \$60 million (\$0.30 to \$0.35 per common share), bringing expected 2002 reported earnings, including the gain on sale of the transmission assets, to between \$1.05 and \$1.10 per share.

Item 6
