DORMAN PRODUCTS, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THIRTEEN WEEKS ENDED MARCH 27, 2010 AND MARCH 28, 2009 (UNAUDITED)

1. Basis of Presentation

As used herein, unless the context otherwise requires, “Dorman”, the “Company”, “we”, “us”, or “our” refers to Dorman Products, Inc. and its subsidiaries.

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and in accordance with the rules and regulations of the U.S. Securities and Exchange Commission (“SEC”). However, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the thirteen week period ended March 27, 2010 are not necessarily indicative of the results that may be expected for the fiscal year ending December 25, 2010. We may experience significant fluctuations from quarter to quarter in our results of operations due to the timing of orders placed by our customers. Generally, the second and third quarters have the highest level of customer orders, but the introduction of new products and product lines to customers may cause significant fluctuations from quarter to quarter. These financial statements should be read in conjunction with –the consolidated financial statements and footnotes thereto included in our Annual Report on Form 10-K for the year ended December 26, 2009.

2. Sales of Accounts Receivable

We have entered into several customer sponsored programs administered by unrelated financial institutions that permit us to sell, without recourse, certain accounts receivable at discounted rates to the financial institutions. We do not retain any servicing requirements for these accounts receivable. Transactions under these agreements are accounted for as sales of accounts receivable. At March 27, 2010 and December 26, 2009, \$54.1 million and \$55.9 million, respectively, of accounts receivable were sold and removed from the consolidated balance sheets based upon standard payment terms. Selling, general and administrative expenses for the thirteen weeks ended March 27, 2010 and March 28, 2009 include \$0.3 million and \$0.4 million, respectively, in financing costs associated with these accounts receivable sales programs. During the thirteen weeks ended March 27, 2010 and March 28, 2009, we sold \$15.7 million and \$15.8 million, respectively, under these programs.

3. Inventories

Inventories include the cost of material, freight, direct labor and overhead utilized in the processing of our products, and are stated at the lower of average cost or market. Inventories were as follows:

(in thousands)	March 27, 2010	December 26, 2009
Bulk product	\$ 28,961	\$ 29,158
Finished product	58,119	58,742
Packaging materials	2,143	2,027
Total	\$ 89,223	\$ 89,927

4. Stock-Based Compensation

Our 2008 Stock Option and Stock Incentive Plan was approved by our shareholders on May 20, 2009 (the “Plan”). Under the Plan, our Board of Directors may grant incentive stock options, non-qualified stock options and shares of restricted stock to purchase up to 1,000,000 shares of common stock to officers, directors, and employees. Grants under the Plan must be made within 10 years of the date the plan was approved and are exercisable at the discretion of the Board of Directors, but in no event more than 10 years from the date of grant. At March 27, 2010, options to acquire 952,500 shares were available for grant under the Plan.

We expense the grant-date fair value of employee stock options. Compensation cost is recognized on a straight-line basis over the vesting period during which employees perform related services. The compensation cost charged against income for our stock-based compensation program for the thirteen weeks ended March 27, 2010 and March 28, 2009 was \$54,000 and \$79,000 before taxes. The compensation cost recognized is classified as selling, general and administrative expense in the consolidated statement of operations. No compensation cost was capitalized during 2010 and 2009. We included a forfeiture assumption of 5.2% in 2010 and 2009 in the calculation of expense. Cash flows resulting from tax deductions in excess of compensation cost recognized in the financial statements is classified as financing cash flows.

We use the Black-Scholes option valuation model to estimate the fair value of options granted. Expected volatility and expected dividend yield are based on the actual historical experience of our stock. The expected life represents the period of time that options granted are expected to be outstanding and was calculated using historical option exercise data. The risk-free rate is based on the U.S. Treasury security with terms equal to the expected time of exercise as of the grant date. There were no stock options granted in the thirteen weeks ended March 27, 2010 or March 28, 2009.

The following table summarizes information about stock option activity for the thirteen weeks ended March 27, 2010:

	Shares	Weighted Average Price	Weighted Average Remaining Term (In years)	Aggregate Intrinsic Value
Balance at December 26, 2009	731,400	\$ 6.72		
Exercised	(80,830)	2.08		
Cancelled	-	-		
Balance at March 27, 2010	650,570	\$ 7.29	4.1	\$ 7,897,000
Options exercisable at March 27, 2010	544,570	\$ 6.15	3.2	\$ 7,231,000

The total intrinsic value of stock options exercised during 2010 was \$1.4 million. Cash received from option exercises under the Plan during 2010 was \$54,000. The excess tax benefit generated from options which were exercised during 2010 was \$521,000 and was credited to additional paid in capital.

As of March 27, 2010, there was approximately \$0.5 million of unrecognized compensation cost related to non-vested stock options, which is expected to be recognized over a weighted-average period of approximately 3.5 years.

In the first quarter of 2010, 22,500 shares of non-vested stock were issued to the certain members of the board of directors. These shares vest ratably over the next five years. Compensation expense recorded on these shares is based on the fair value of the shares at the date of grant of \$15.68, which is expensed on a straight-line basis over the vesting

period. Compensation expense was \$6,000 for the thirteen weeks ended March 27, 2010.

5. Earnings Per Share

The following table sets forth the computation of basic earnings per share and diluted earnings per share:

(in thousands, except per share data)	Thirteen Weeks Ended	
	March 27, 2010	March 28, 2009
Numerator:		
Net income	\$ 9,615	\$ 4,556
Denominator:		
Weighted average shares outstanding used in basic earnings per share calculation	17,689	17,643
Effect of dilutive stock options	371	322
Adjusted weighted average shares outstanding used in diluted earnings per share calculation	18,061	17,965
Basic earnings per share	\$ 0.54	\$ 0.26
Diluted earnings per share	\$ 0.53	\$ 0.25

Options to purchase 80,000 and 203,500 shares were outstanding at March 27, 2010 and March 28, 2009, respectively, but were not included in the computation of diluted earnings per common share, as their effect would have been antidilutive.

6. Common Stock Repurchases

On February 22, 2008, we announced that our Board of Directors authorized the repurchase of up to 500,000 shares of our outstanding common stock. Under this program, share repurchases may be made from time to time depending upon market conditions, share price and availability, and other factors at our discretion. Repurchases will take place in open market transactions or in privately negotiated transactions in accordance with applicable laws. During 2009, we repurchased and cancelled 3,600 shares of common stock under the plan at an average price of \$6.41 per share. No shares have been repurchased in 2010.

We periodically repurchase at the then current market price and cancel common stock issued to our defined contribution profit sharing and 401(k) plan. For the thirteen weeks ended March 27, 2010, we repurchased and cancelled 19,309 shares of common stock at an average price of \$17.74 per share. During 2009, we repurchased and cancelled 67,416 shares of common stock at an average price of \$12.60 per share.

7. Related-Party Transactions

We have entered into a noncancelable operating lease for our primary operating facility from a partnership in which Richard N. Berman, our Chief Executive Officer, and Steven L. Berman, our Executive Vice President, are partners. Based upon the terms of the lease, payments in 2010 will be \$1.4 million. Total rental payments to the partnership under the lease arrangement were \$1.4 million in 2009.

8. Income Taxes

At March 27, 2010, we have \$2.2 million of net unrecognized tax benefits, \$1.4 million of which would affect our effective tax rate if recognized. We recognize interest and penalties related to uncertain tax positions in income tax expense. As of March 27, 2010, we have approximately \$0.5 million of accrued interest related to uncertain tax positions.

The last United States federal return examined by the Internal Revenue Service was 2005, and all years up through and including that year are closed by examination. We are currently under examination for tax years 2003-2007 by one state tax authority to which we are subject to tax. The tax years 2005-2009 remain open to examination by the remaining major taxing jurisdictions in the United States to which we are subject. The tax years 2005-2009 remain open to examination in Sweden for our Swedish subsidiary.

9. Comprehensive Income

Comprehensive income includes all changes to shareholders' equity during a period, except those resulting from investment by and distributions to shareholders. Components of comprehensive income include net income and changes in foreign currency translation adjustments. Total comprehensive income was \$9.7 million and \$4.4 million for the thirteen weeks ended March 27, 2010 and March 28, 2009, respectively.

10. Fair Value Disclosures

The carrying value of financial instruments such as cash, accounts receivable, accounts payable, and other current assets and liabilities approximate their fair value based on the short-term nature of these instruments. Based on borrowing rates currently available to us for loans with similar terms and average maturities, the fair value of total long-term debt, including the current portion, was \$0.3 million at March 27, 2010 and \$0.4 million at December 26, 2009.

11. New Accounting Pronouncements

In June 2009, the FASB issued new guidance concerning the transfer of financial assets. This guidance amends the criteria for a transfer of a financial asset to be accounted for as a sale, creates more stringent conditions for reporting a transfer of a portion of a financial asset as a sale, changes the initial measurement of a transferor's interest in transferred financial assets, eliminates the qualifying special-purpose entity concept and provides for new disclosures. We adopted the new guidance on December 27, 2009, and there was no impact on our consolidated results of operations and financial position.

In June 2009, the FASB issued new guidance concerning the determination of the primary beneficiary of a variable interest entity ("VIE"). This new guidance amends current U.S. GAAP by: requiring ongoing reassessments of whether an enterprise is the primary beneficiary of a VIE; amending the quantitative approach previously required for determining the primary beneficiary of the VIE; modifying the guidance used to determine whether an entity is a VIE; adding an additional reconsideration event (e.g. troubled debt restructurings) for determining whether an entity is a VIE; and requiring enhanced disclosures regarding an entity's involvement with a VIE. We adopted the new guidance on December 27, 2009, and there was no impact on our consolidated results of operations and financial position.

12. Subsequent Events

April 2010, we amended our existing revolving credit facility. The amendment extended the expiration date from June 2010 to June 2013. Borrowings under the facility are on an unsecured basis with interest at rates ranging from LIBOR plus 100 basis points to LIBOR plus 250 basis points beginning July 1, 2010.
