*Income (loss) allocated to noncontrolling interest in Hersha Hospitality Limited Partnership has been excluded from the numerator and units of limited partnership interest in Hersha Hospitality Limited Partnership have been omitted from the denominator for the purpose of computing diluted earnings per share since the effect of including these amounts in the numerator and denominator would have no impact. Weighted average units of limited partnership interest in Hersha Hospitality Limited Partnership outstanding for the three months ended March 31, 2011 and 2010 were 7,395,023 and 9,515,228, respectively.

Unvested stock awards, contingently issuable share awards and options to acquire our common shares have been omitted from the denominator for the purpose of computing diluted earnings per share for the three months ended March 31, 2011 and 2010, since the effect of including these awards in the denominator would be anti-dilutive to loss from continuing operations applicable to common shareholders. For the three months ended March 31, 2011, there were 310,728 anti-dilutive unvested stock awards outstanding, 1,690,980 anti-dilutive contingently issuable share awards outstanding, and 3,040,591 anti-dilutive options to acquire our common shares outstanding. For the three months ended March 31, 2010, there were 122,492 anti-dilutive unvested stock awards outstanding and 1,539,416 anti-dilutive options to acquire our common shares outstanding.

HERSHA HOSPITALITY TRUST AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED MARCH 31, 2011 AND 2010 [UNAUDITED]
[IN THOUSANDS, EXCEPT SHARE/UNIT AND PER SHARE AMOUNTS]

NOTE 1 – BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements of Hersha Hospitality Trust (“we,” “us,” “our” or the “Company”) have been prepared in accordance with U.S. generally accepted accounting principles (“US GAAP”) for interim financial information and with the general instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and notes required by US GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals), considered necessary for fair presentation, have been included. Operating results for the three months ended March 31, 2011 are not necessarily indicative of the results that may be expected for the year ending December 31, 2011 or any future period. Accordingly, readers of these consolidated interim financial statements should refer to the Company’s audited financial statements prepared in accordance with US GAAP, and the related notes thereto, for the year ended December 31, 2010, which are included in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2010, as certain footnote disclosures normally included in financial statements prepared in accordance with US GAAP have been condensed or omitted from this report pursuant to the rules of the SEC.

We are a self-advised Maryland real estate investment trust that was organized in May 1998 and completed our initial public offering in January 1999. Our common shares are traded on the New York Stock Exchange under the symbol “HT.” We own our hotels and our investments in joint ventures through our operating partnership, Hersha Hospitality Limited Partnership (“HHLP”), for which we serve as general partner. As of March 31, 2011, we owned an approximate 95.8% partnership interest in our operating partnership, including a 1.0% general partnership interest.

Noncontrolling Interest

We define noncontrolling interest as the portion of equity in a subsidiary not attributable, directly or indirectly, to a parent. Such noncontrolling interests are reported on the consolidated balance sheets within equity, but separately from the Company’s equity. Revenues, expenses and net income or loss attributable to both the Company and noncontrolling interests are reported on the consolidated statements of operations. In addition, we classify securities that are redeemable for cash or other assets at the option of the holder, or not solely within the control of the issuer, outside of permanent equity in the consolidated balance sheet. The Company makes this determination based on terms in applicable agreements, specifically in relation to redemption provisions. Additionally, with respect to noncontrolling interests for which the Company has a choice to settle the contract by delivery of its own shares, the Company considers the guidance in US GAAP to evaluate whether the Company controls the actions or events necessary to issue the maximum number of common shares that could be required to be delivered at the time of settlement of the contract.

We classify the noncontrolling interests of our consolidated joint ventures and certain common units of limited partnership interests in HHLP (“Nonredeemable Common Units”) as equity. The noncontrolling interests of Nonredeemable Common Units totaled \$18,692 as of March 31, 2011 and \$19,410 as of December 31, 2010. As of March 31, 2011, there were 4,354,660 Nonredeemable Common Units outstanding with a fair market value of \$25,867, based on the price per share of our common shares on the New York Stock Exchange on such date. These units are only redeemable by the unit holders for cash or, at our option, common shares on a one-for-one basis.

Certain common units of limited partnership interests in HHLP (“Redeemable Common Units”) have been pledged as collateral in connection with a pledge and security agreement entered into by the Company and the holders of the

Redeemable Common Units. The redemption feature contained in the pledge and security agreement where the Redeemable Common Units serve as collateral contains a provision that could result in a net cash settlement outside the control of the Company. As a result, the Redeemable Common Units are classified in the mezzanine section of the consolidated balance sheets as they do not meet the requirements for equity classification under US GAAP. The carrying value of the Redeemable Common Units equals the greater of carrying value based on the accumulation of historical cost or the redemption value.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED MARCH 31, 2011 AND 2010 [UNAUDITED]
[IN THOUSANDS, EXCEPT SHARE/UNIT AND PER SHARE AMOUNTS]

NOTE 1 – BASIS OF PRESENTATION (continued)

As of March 31, 2011, there were 3,014,252 Redeemable Common Units outstanding with a redemption value equal to the fair value of the Redeemable Common Units, or \$17,905. The redemption value of the Redeemable Common Units is based on the price per share of our common shares on the NYSE on such date. As of March 31, 2011, the Redeemable Common Units were valued on the consolidated balance sheets at redemption value since the Redeemable Common Units redemption value was greater than historical cost of \$13,127. As of December 31, 2010, the Redeemable Common Units were valued on the consolidated balance sheets at redemption value since the Redeemable Common Units redemption value of \$19,894 was greater than historical cost of \$13,521.

Net income or loss related to Nonredeemable Common Units and Redeemable Common Units (collectively, “Common Units”), as well as the net income or loss related to the noncontrolling interests of our consolidated joint ventures, is included in net income or loss in the consolidated statements of operations and is excluded from net income or loss applicable to common shareholders in the consolidated statements of operations.

Reclassification

Certain amounts in the prior year financial statements have been reclassified to conform to the current year presentation.

Included in the consolidated statements of operations for the three months ended March 31, 2011 are total revenues and total net loss for the 2011 acquisition of \$107 and \$684, respectively, which represents the results of operations of the Holiday Inn Express, Water Street since the date of acquisition of our 100% interest in the hotel, described above.

Pro Forma Results (Unaudited)

The following condensed pro forma financial data is presented as if all acquisitions completed since January 1, 2010 had been completed on January 1, 2010. Properties acquired without any operating history are excluded from the condensed pro forma operating results. The condensed pro forma information is not necessarily indicative of what actual results of operations of the Company would have been assuming the acquisitions had been consummated on January 1, 2010 at the beginning of the year presented, nor does it purport to represent the results of operations for future periods.

Renovation

On December 28, 2010, we closed on the acquisition of a parcel of land, which includes a multi-story vacant building, from an unrelated third party in New Castle, DE. The total purchase price for the parcel of land and the improvements was \$15,301, which was paid in cash. We have begun the process of converting this hotel building into a Sheraton branded hotel. As of March 31, 2011 we have spent \$124 in conversion cost.

Hotel Closing

Effective March 31, 2011, we ceased operations at the Comfort Inn, located in North Dartmouth, MA and are in the process of conveying the asset to the lender. The closure of the property coincided with the expiration of its franchise agreement. The property has a carrying value of \$2,005 as of March 31, 2011, which approximates its fair value. See “Note 6 – Debt” for additional discussion regarding the closure of this property.

NOTE 3 – INVESTMENT IN UNCONSOLIDATED JOINT VENTURES

We account for our investment in the following unconsolidated joint ventures using the equity method of accounting. As of March 31, 2011 and December 31, 2010, our investment in unconsolidated joint ventures consists of the following:

Joint Venture	Hotel Properties	Percent Owned	Preferred Return	March 31, 2011	December 31, 2010
Inn American Hospitality at Ewing, LLC	Courtyard by Marriott, Ewing, NJ	50.0	11.0% cumulative	\$ -	\$ 28

NOTE 3 – INVESTMENT IN UNCONSOLIDATED JOINT VENTURES (continued)

The following table is a reconciliation of the Company's share in the unconsolidated joint ventures' equity to the Company's investment in the unconsolidated joint ventures as presented on the Company's balance sheets as of March 31, 2011 and December 31, 2010.

	March 31, 2011	December 31, 2010
Company's share of equity recorded on the joint ventures' financial statements	\$37,778	\$38,394
Adjustment to reconcile the Company's share of equity recorded on the joint ventures' financial statements to our investment in unconsolidated joint ventures(1)	(3,198)	(2,833)
Investment in Unconsolidated Joint Ventures	\$34,580	\$35,561

(1) Adjustment to reconcile the Company's share of equity recorded on the joint ventures' financial statements to our investment in unconsolidated joint ventures consists of the following:

- cumulative impairment of our investment in joint ventures not reflected on the joint ventures' financial statements;
 - our basis in the investment in joint ventures not recorded on the joint ventures' financial statements; and
- accumulated amortization of our equity in joint ventures that reflect our portion of the excess of the fair value of joint ventures' assets on the date of our investment over the carrying value of the assets recorded on the joint ventures' financial statements. This excess investment is amortized over the life of the properties, and the amortization is included in Income (Loss) from Unconsolidated Joint Venture Investments on our consolidated statement of operations.

NOTE 4 - DEVELOPMENT LOANS RECEIVABLE

Historically, we provided first mortgage and mezzanine loans to hotel developers, including entities in which our executive officers and affiliated trustees own an interest that enabled such entities to construct hotels and conduct related improvements on specific hotel projects at interest rates ranging from 10% to 11%. These loans were initially originated as part of our acquisition strategy. During the three months ended March 31, 2011, no such loans were originated by us. Interest income from development loans was \$1,091 and \$1,374 for the three months ended March 31, 2011 and 2010, respectively. Accrued interest on our development loans receivable was \$3,367 and \$3,013 as of March 31, 2011 and December 31, 2010, respectively. Accrued interest on our development loans receivable as of March 31, 2011 does not include cumulative interest income of \$6,327 which has been accrued and paid-in kind by adding it to the principal balance of certain loans as indicated in the table below.

Hotel Property	Borrower	Principal Outstanding March 31, 2011	Principal Outstanding December 31, 2010	Interest Rate	Maturity Date (1)
Operational Hotels					
Renaissance by Marriott - Woodbridge, NJ	Hersha Woodbridge Associates, LLC	5,000	5,000	11 %	April 1, 2012 *
Element Hotel - Ewing, NJ	American Properties @ Scotch Road, LLC	2,000	2,000	11 %	August 6, 2011 *

Hyatt 48Lex - New York, NY	44 Lexington Holding, LLC	13,295 (2)	12,939	11 %	December 31, 2011 *
Hyatt Union Square - New York, NY	Risingsam Union Square, LLC	13,032 (2)	12,714	10 %	December 31, 2011
Hampton Inn - New York, NY (3)	SC Waterview, LLC	8,000	8,000	10 %	December 31, 2011
Total Development Loans Receivable		\$ 42,327	\$ 41,653		

*Indicates borrower is a related party.

- (1) Represents current maturity date in effect. Agreements for our development loans receivable typically allow for two one-year extensions which can be exercised by the borrower if the loan is not in default. As these loans typically finance hotel development projects, it is common for the borrower to exercise their options to extend the loans, in whole or in part, until the project has been completed and the project provides cash flow to the developer or is refinanced by the developer.
- (2) We have amended the following development loans to allow the borrower to elect, quarterly, to pay accrued interest in-kind by adding the accrued interest to the principal balance of the loan:

Borrower	Interest Income Three Months Ended March 31,		Cumulative Interest Income Paid In Kind
	2011	2010	
Risingsam Union Square, LLC	\$ 318	\$ 287	\$ 3,032
44 Lexington Holding, LLC	356	319	3,295
Total	\$ 674	\$ 606	\$ 6,327

(3) Subsequent to March 31, 2011, we entered into a purchase and sale agreement to acquire a vacant property located in New York, NY from SC Waterview, LLC. Consideration to be given in exchange for the property will include conversion of the \$8,000 principal balance and \$300 of the accrued interest receivable on the development loan receivable with the seller into equity. See Note 13 – Subsequent Events for additional discussion of this purchase and sale agreement.

NOTE 5 – OTHER ASSETS

Other Assets consisted of the following at March 31, 2011 and December 31, 2010:

	March 31, 2011	December 31, 2010
Transaction Costs	\$737	\$340
Investment in Statutory Trusts	1,548	1,548
Deposits on Hotel Acquisitions	9,000	5,500
Prepaid Expenses	6,097	6,986
Interest Receivable from Development Loans to Non-Related Parties	1,922	1,767
Hotel Purchase Option	933	933
Other	1,336	1,340
	\$21,573	\$18,414

Transaction Costs - Transaction costs include legal fees and other third party transaction costs incurred relative to entering into debt facilities and issuances of equity securities which are recorded in other assets prior to the closing of the respective transactions.

Investment in Statutory Trusts - We have an investment in the common stock of Hersha Statutory Trust I and Hersha Statutory Trust II. Our investment is accounted for under the equity method.

Deposits on Hotel Acquisitions - Deposits paid in connection with the acquisition of hotels, including accrued interest, are recorded in other assets. As of March 31, 2011 we had \$9,000, in non-interest bearing deposits related to the acquisition of hotel properties.

Prepaid Expenses - Prepaid expenses include amounts paid for property tax, insurance and other expenditures that will be expensed in the next twelve months.

Interest Receivable from Development Loans to Non-Related Parties– Interest receivable from development loans to non-related parties represents interest income receivable from loans extended to non-related parties that are used to enable such entities to construct hotels and conduct related improvements on specific hotel projects. This excludes interest receivable from development loans extended to related parties in the amounts of \$1,444 as of March 31, 2011, which is included in due from related parties on the consolidated balance sheets.

Hotel Purchase Option – We have an option to acquire a 50% interest in the entity that owns the Holiday Inn Express – Manhattan. This option is exercisable after February 1, 2012 or upon termination of Metro 29th Street’s lease of the hotel and expires at the end of the lease term.

NOTE 6 - DEBT

Mortgages and Notes Payable

We had total mortgages payable at March 31, 2011, and December 31, 2010 of \$595,111 and \$596,949, respectively. These balances consisted of mortgages with fixed and variable interest rates, which ranged from 2.22% to 8.25% as of March 31, 2011. Aggregate interest expense incurred under the mortgage loans payable totaled \$9,060 and \$9,461 for the three months ended March 31, 2011 and 2010, respectively.

Our mortgage indebtedness contains various financial and non-financial covenants customarily found in secured, non-recourse financing arrangements. Our mortgage loans payable typically require that specified debt service coverage ratios be maintained with respect to the financed properties before we can exercise certain rights under the loan agreements relating to such properties. If the specified criteria are not satisfied, the lender may be able to escrow cash flow generated by the property securing the applicable mortgage loan. We have determined that certain debt service coverage ratio covenants contained in the loan agreements securing fourteen of our hotel properties were not met as of March 31, 2011 due to recent economic conditions. These covenants do not constitute an event of default for these loans. As of March 31, 2011 we were in compliance with all events of default covenants under the applicable loan agreements, with the exception of our non-recourse mortgage loan payable on the Comfort Inn, North Dartmouth, MA. As noted in "Note 2 – Investment in Hotel Properties," the Comfort Inn, North Dartmouth, MA, ceased operations on March 31, 2011. We are currently in discussions to transfer title to the property to the lender. As of March 31, 2011, the remaining principal and accrued interest due on the mortgage loan payable related to this asset were \$2,968 and \$65, respectively.

As of March 31, 2011, the maturities for the outstanding mortgage loans ranged from July 2011 to September 2023, including \$17,861 due in 2011.

Subordinated Notes Payable

We have two junior subordinated notes payable in the aggregate amount of \$51,548 to the Hersha Statutory Trusts pursuant to indenture agreements which will mature on July 30, 2035, but may be redeemed at our option, in whole or in part, prior to maturity in accordance with the provisions of the indenture agreement. Effective July 30, 2010, the \$25,774 notes issued to Hersha Statutory Trust I and Hersha Statutory Trust II, bear interest at a variable rate of LIBOR plus 3% per annum. This rate resets two business days prior to each quarterly payment. For the period from January 30, 2011, to April 29, 2011, we incurred interest expense at a variable rate of 3.304%. Prior to this, the \$25,774 note issued to Hersha Statutory Trust I incurred interest at a fixed rate of 7.34% per annum through July 30, 2010, and the \$25,774 note issued to Hersha Statutory Trust II incurred interest at a fixed rate of 7.173% per annum through July 30, 2010. Interest expense in the amount of \$425 and \$935 was recorded for the three months ended March 31, 2011 and 2010.

Other Notes Payable

HHL P has entered into a management agreement with an unaffiliated hotel manager that has extended a \$349 interest-free loan to HHL P for working capital contributions that are due at either the termination or expiration of the management agreement. A discount was recorded on the note payable which reduced the principal balances recorded

in the mortgages and notes payable. The discount is being amortized over the remaining life of the loan and is recorded as interest expense. The balance of the note payable, net of unamortized discount, was \$227 as of March 31, 2011 and \$223 as of December 31, 2010.

Revolving Line of Credit

We maintain a Revolving Credit Loan and Security Agreement with T.D. Bank, NA and various other lenders. The credit agreement provides for a revolving line of credit in the principal amount of up to \$250,000, including a sub-limit of \$25,000 for irrevocable stand-by letters of credit and a \$10,000 sub-limit for the swing line loans. Borrowings under the line of credit provided by T.D. Bank, NA may be used for working capital and general corporate purposes and for the future purchase of additional hotels. The line of credit expires on November 5, 2013, and, provided no event of default has occurred and remains uncured, we may request that T.D. Bank, NA and the other lenders renew the line of credit for an additional one-year period.

The line of credit is collateralized by a first lien-security interest in all existing and future unencumbered assets of HHLP, a collateral assignment of all hotel management contracts of the management companies in the event of default, and title-insured, first-lien mortgages on the following hotel properties:

- Hampton Inn, Danville, PA	- Residence Inn, Langhorne, PA
- Hampton Inn, Philadelphia, PA	- Residence Inn, Norwood, MA
- Hampton Inn, Carlisle, PA	- Sheraton Hotel, JFK Airport, New York, NY
- Hampton Inn, Selinsgrove, PA	- Holiday Inn Express, Times Square, NY
- Holiday Inn, Norwich, CT	- Hampton Inn, Washington, DC
- Towneplace Suites, Harrisburg, PA	- Hyatt Place, King of Prussia, PA
- Comfort Inn, Harrisburg, PA	

At our option, the interest rate on loans provided under the line of credit will be either (i) the variable prime rate, as defined in the credit agreement, plus an applicable margin ranging between 150 and 175 basis points per annum or (ii) LIBOR plus an applicable margin ranging between 350 and 375 basis points per year, subject to a floor of 4.25%.

The credit agreement providing for the line of credit includes certain financial covenants and requires that we maintain: (1) a minimum tangible net worth of \$500,000, which is subject to increases under certain circumstances; (2) maximum accounts and other receivables from affiliates of \$125,000; (3) annual distributions not to exceed 95% of adjusted funds from operations; (4) maximum variable rate indebtedness to total debt of 30%; and (5) certain financial ratios, including the following:

- a fixed charge coverage ratio of not less than 1.25 to 1.00 which will increase to 1.35 to 1.00 as of September 30, 2011, and 1.45 to 1.00 as of September 30, 2012; and
- a total funded liabilities to gross asset value ratio of not more than 0.65 to 1.00

The Company is in compliance with each of the covenants listed above as of March 31, 2011.

The outstanding principal balance under the line of credit was \$63,000 at March 31, 2011. The Company recorded interest expense of \$504 and \$742 related to the line of credit borrowings for the three months ended March 31, 2011 and 2010. The weighted average interest rate on our line of credit during the three months ended March 31, 2011 and 2010 was 4.25% and 4.32%.

As of March 31, 2011 we had \$7,397 in irrevocable letters of credit issued and our remaining borrowing capacity under the facility was \$179,603.

NOTE 6 - DEBT(continued)

Fair Value of Debt

The Company estimates the fair value of its fixed rate debt and the credit spreads over variable market rates on its variable rate debt by discounting the future cash flows of each instrument at estimated market rates or credit spreads consistent with the maturity of the debt obligation with similar credit policies. Credit spreads take into consideration general market conditions and maturity. As of March 31, 2011, the carrying value and estimated fair value of the Company's debt was \$709,886 and \$675,290, respectively.

Capitalized Interest

We utilize mortgage debt and our revolving line of credit to finance on-going capital improvement projects at our properties. Interest incurred on mortgages and the revolving line of credit that relates to our capital improvement projects is capitalized through the date when the assets are placed in service. For the three months ended March 31, 2011 and 2010, we capitalized \$170 and \$0, respectively, of interest expense related to these projects.

Deferred Financing Costs

Costs associated with entering into mortgages and notes payable and our revolving line of credit are deferred and amortized over the life of the debt instruments. Amortization of deferred financing costs is recorded in interest expense. As of March 31, 2011, deferred financing costs were \$9,599 net of accumulated amortization of \$6,629. Amortization of deferred costs for the three months ended March 31, 2011 and 2010 was \$777 and \$538, respectively.

NOTE 7 – COMMITMENTS AND CONTINGENCIES AND RELATED PARTY TRANSACTIONS

Management Agreements

Our wholly-owned TRS, 44 New England Management Company (“44 New England”) engages eligible independent contractors in accordance with the requirements for qualification as a REIT under the Federal income tax laws, including HHMLP, as the property managers for hotels it leases from us pursuant to management agreements. HHMLP is owned, in part, by certain executives and trustees of the Company. Our management agreements with HHMLP provide for five-year terms and are subject to early termination upon the occurrence of defaults and certain other events described therein. As required under the REIT qualification rules, HHMLP must qualify as an “eligible independent contractor” during the term of the management agreements. Under the management agreements, HHMLP generally pays the operating expenses of our hotels. All operating expenses or other expenses incurred by HHMLP in performing its authorized duties are reimbursed or borne by our TRS to the extent the operating expenses or other expenses are incurred within the limits of the applicable approved hotel operating budget. HHMLP is not obligated to advance any of its own funds for operating expenses of a hotel or to incur any liability in connection with operating a hotel. Management agreements with other unaffiliated hotel management companies have similar terms.

For its services, HHMLP receives a base management fee and, if a hotel exceeds certain thresholds, an incentive management fee. The base management fee for a hotel is due monthly and is equal to 3% of gross revenues associated with each hotel managed for the related month. The incentive management fee, if any, for a hotel is due annually in arrears on the ninetieth day following the end of each fiscal year and is based upon the financial performance of the hotels. For the three months ended March 31, 2011 and 2010, base management fees incurred totaled \$1,538 and \$1,216, respectively and are recorded as hotel operating expenses.

Franchise Agreements

Our branded hotel properties are operated under franchise agreements assumed by the hotel property lessee. The franchise agreements have 10 to 20 year terms but may be terminated by either the franchisee or franchisor on certain anniversary dates specified in the agreements. The franchise agreements require annual payments for franchise royalties, reservation, and advertising services, and such payments are based upon percentages of gross room revenue. These payments are paid by the hotels and charged to expense as incurred. Franchise fee expense for the three months ended March 31, 2011 and 2010 was \$3,935 and \$3,197. The initial fees incurred to enter into the franchise agreements are amortized over the life of the franchise agreements.

Accounting and Information Technology Fees

Each of the wholly owned hotels and consolidated joint venture hotel properties managed by HHMLP incurs a monthly accounting and information technology fee. Monthly fees for accounting services are between \$2 and \$3 per property and monthly information technology fees are approximately \$1 per property. For the three months ended March 31, 2011 and 2010, the Company incurred accounting fees of \$452 and \$375, respectively. For the three months ended March 31, 2011 and 2010, the Company incurred information technology fees of \$111 and \$84, respectively. Accounting fees and information technology fees are included in general and administrative expenses.

Capital Expenditure Fees

HHMLP charges a 5% fee on all capital expenditures and pending renovation projects at the properties as compensation for procurement services related to capital expenditures and for project management of renovation projects. For the three months ended March 31, 2011 and 2010, we incurred fees of \$279 and \$40, respectively, which were capitalized with the cost of fixed asset additions.

Acquisitions from Affiliates

We have entered into an option agreement with each of our officers and affiliated trustees such that we obtain a right of first refusal to purchase any hotel owned or developed in the future by these individuals or entities controlled by them at fair market value. This right of first refusal would apply to each party until one year after such party ceases to be an officer or trustee of our Company. Our Acquisition Committee of the Board of Trustees is comprised solely of independent trustees, and the purchase prices and all material terms of the purchase of hotels from related parties are approved by the Acquisition Committee.

Hotel Supplies

For the three months ended March 31, 2011 and 2010, we incurred charges for hotel supplies of \$24 and \$27. For the three months ended March 31, 2011 and 2010, we incurred charges for capital expenditure purchases of \$3,475 and \$379, respectively. These purchases were made from Hersha Purchasing and Design, a hotel supply company owned, in part, by certain executives and trustees of the Company. Hotel supplies are expenses included in hotel operating expenses on our consolidated statements of operations, and capital expenditure purchases are included in investment in hotel properties on our consolidated balance sheets. Approximately \$2 and \$22 is included in accounts payable at March 31, 2011 and December 31, 2010, respectively.

Due from Related Parties

The due from related party balance as of March 31, 2011 and December 31, 2010 was approximately \$6,740 and \$5,069, respectively. The balances primarily consisted of accrued interest due on our development loans, a notes receivable to one of our unconsolidated joint ventures, and the remaining due from related party balances are receivables owed from our unconsolidated joint ventures.

Due to Related Parties

The due to related parties balance as of March 31, 2011 and December 31, 2010 was approximately \$1,359 and \$939, respectively. The balances consisted of amounts payable to HHMLP for administrative, management, and benefit related fees.

Hotel Ground Rent

For the three months ended March 31, 2011 and 2010, we incurred \$364 and \$292, respectively, of rent expense payable pursuant to ground leases related to certain hotel properties.

NOTE 8 – FAIR VALUE MEASUREMENTS AND DERIVATIVE INSTRUMENTS

Fair Value Measurements

Our determination of fair value measurements are based on the assumptions that market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, we utilize a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access. Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs that are observable for the asset or liability (other than quoted prices), such as interest rates, foreign exchange rates and yield curves that are observable at commonly quoted intervals. Level 3 inputs are unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market activity. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

As of March 31, 2011, the Company's derivative instruments represented the only financial instruments measured at fair value. Currently, the Company uses derivative instruments, such as interest rate swaps and caps, to manage its interest rate risk. The valuation of these instruments is determined using widely accepted valuation techniques, including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs.

We incorporate credit valuation adjustments to appropriately reflect both our own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. In adjusting the fair value of its derivative contracts for the effect of nonperformance risk, we have considered the impact of netting and any applicable credit enhancements, such as collateral postings, thresholds, mutual puts and guarantees.

Although we have determined that the majority of the inputs used to value our derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with our derivatives utilize Level 3 inputs, such as estimates of current credit spreads, to evaluate the likelihood of default by us and the counterparties. However, as of March 31, 2011 we have assessed the significance of the effect of the credit valuation adjustments on the overall valuation of our derivative positions and have determined that the credit valuation adjustments are not significant to the overall valuation of our derivatives. As a result, we have determined that our derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy.

We maintain an interest rate cap that effectively fixes interest payments when LIBOR exceeds 5.75% on our debt financing Hotel 373, New York, NY. The notional amount of the interest rate cap is \$22,000 and equals the principal of the variable interest rate debt being hedged. This interest rate cap matures on May 9, 2011.

NOTE 8 – FAIR VALUE MEASUREMENTS AND DERIVATIVE INSTRUMENTS (continued)

We maintain an interest rate cap that effectively limits variable rate interest payments on the subordinated notes payable to Hersha Statutory Trust I and Hersha Statutory Trust II when LIBOR exceeds 2.00%. The notional amount of the interest rate cap is \$51,548 and equals the principal of the variable interest rate debt being hedged. The effective date of the interest rate cap is July 30, 2010, which correlates with the end of the fixed interest rate period on the notes payable. This cap matures on July 30, 2012.

We maintained an interest rate swap agreement that effectively fixes the interest rate on a variable rate mortgage on the nu Hotel, Brooklyn, NY. The debt secured by this property bears interest at one month U.S. dollar LIBOR plus 2.0%. Under the terms of the interest rate swap, we paid fixed rate interest of 1.1925% on the \$18,000 notional amount and we received floating rate interest equal to the one month U.S. dollar LIBOR, which effectively fixed our interest on the mortgage debt at a rate of 3.1925%. This swap matured on January 10, 2011 and was not replaced.

The following table shows the estimated fair value of our derivatives at March 31, 2011 and December 31, 2010:

Date of Transaction	Hedged Debt	Type	Maturity Date	Estimated Fair Value	
				March 31, 2011	December 31, 2010
May 9, 2010	Variable Rate Mortgage - Hotel 373, New York, NY	Cap	May 9, 2011	\$ -	\$ -
January 9, 2009	Variable Rate Mortgage - Nu Hotel, Brooklyn, NY	Swap	January 10, 2011	-	(4)
April 19, 2010	Subordinated Notes Payable	Cap	July 30, 2012	21	50
				\$ 21	\$ 46

The fair value of our interest rate caps is included in other assets at March 31, 2011 and December 31, 2010 and the fair value of our interest rate swap was included in accounts payable, accrued expenses and other liabilities at December 31, 2010.

The change in fair value of derivative instruments designated as cash flow hedges was a loss of \$25 and a loss of \$9 for the three months ended March 31, 2011 and 2010, respectively. These unrealized gains and losses were reflected on our consolidated balance sheet in accumulated other comprehensive Income.

NOTE 9 – SHARE-BASED PAYMENTS

In May 2008, the Company established the Hersha Hospitality Trust 2008 Equity Incentive Plan (the “2008 Plan”) for the purpose of attracting and retaining executive officers, employees, trustees and other persons and entities that provide services to the Company. Prior to the 2008 Plan, the Company made awards pursuant to the 2004 Equity Incentive Plan (the “2004 Plan”). Upon approval of the 2008 Plan by the Company’s shareholders on May 22, 2008, the Company terminated the 2004 Plan. Termination of the 2004 Plan did not have any effect on equity awards and grants previously made under that plan.

Executives & Employees

Annual Long Term Equity Incentive Programs

To further align the interests of the Company’s executives with those of shareholders, the Compensation Committee grants annual long term equity incentive awards that are both “performance based” and “time based.”

- 2011 Annual Long-Term Incentive Program (“2011 Annual LTIP”)- On March 16, 2011, the Compensation Committee adopted the 2011 Annual LTIP for the executive officers, pursuant to which the executive officers are eligible to earn equity awards in the form of common shares. Shares are earned under the 2011 Annual LTIP based on achieving a threshold, target or maximum level of performance in certain defined areas of performance. The Company accounts for these grants as performance awards for which the Company assesses the probable achievement of the performance conditions at the end of each period. No stock based compensation expense was recorded for the three months ended March 31, 2011 under the 2011 Annual LTIP. Any common shares issued in settlement of equity awards under the 2011 Annual LTIP will be made pursuant to the 2008 Plan or any other equity incentive plan approved by the Company’s shareholders.
- 2010 Annual Long-Term Incentive Program (“2010 Annual LTIP”) - On March 30, 2011, 440,669 shares were issued pursuant to the 2010 Annual LTIP of which 25% vested immediately and the remaining will vest 25% on December 31, 2011, 25% on December 31, 2012, and 25% on December 31, 2013. The grant date fair value of the shares awarded was \$5.98 per share. Stock based compensation expense related to the 2010 Annual LTIP program of \$99 was recorded for the three months ended March 31, 2011. As of December 31, 2010, the Company determined that it was probable the performance conditions for the 2010 Annual LTIP would be satisfied and a liability of \$1,321 was included in accounts payable, accrued expenses and other liabilities on the Company’s consolidated balance sheet for unissued shares under this program.

Multi-Year Long-Term Equity Incentive Program (“Multi-Year LTIP”)

On May 7, 2010, the Compensation Committee also adopted the Multi-Year LTIP. This program has a three-year performance period, which commenced on January 1, 2010 and will end on December 31, 2012. The common shares to be issued in settlement of equity awards granted under this program are based upon the Company’s achievement of a certain level of (1) absolute total shareholder return (75% of the award), and (2) relative total shareholder return as compared to the Company’s peer group (25% of the award). The Company accounts for these grants as market based awards where the Company estimated unearned compensation at the grant date fair value which is then amortized into compensation cost over the vesting period, which ends on December 31, 2013. Stock based compensation expense of

\$798 was recorded for the three months ended March 31, 2011 for the Multi-Year LTIP. Unearned compensation related to the multi-year program as of March 31, 2011 was \$8,777.

Performance Share Awards

Performance shares granted in the third quarter of 2010 were earned in their entirety based on the Company's common shares maintaining a closing price in excess of defined thresholds over a defined period of time and then settled in an equivalent number of common shares. The Company accounted for these grants as market based awards where the Company estimated the unearned compensation at grant date fair value which was amortized into compensation cost over the performance period, which ended on August 4, 2010. Stock based compensation expense of \$140 was incurred during the three months ended March 31, 2010 related to these performance share awards.

Restricted Share Awards

Stock based compensation expense related to the restricted share awards, consisting of restricted common shares issued to executives and employees of the Company, of \$509 and \$472 was incurred during the three months ended March 31, 2011 and 2010, respectively. Unearned compensation related to the restricted share awards as of March 31, 2011 and December 31, 2010 was \$2,431 and \$2,940, respectively. The following table is a summary of all unvested share awards issued to executives under the 2004 and 2008 Plans:

Trustees

Annual Retainer

On March 16, 2011, the Compensation Committee approved a program that allows the Company's trustees to make a voluntary election to receive any portion of the annual cash retainer in the form of common equity valued at a 25%

Edgar Filing: HERSHA HOSPITALITY TRUST - Form 10-Q

premium to the cash that would have been received. The number of shares to be issued was determined by dividing the dollar value of the award by the 20-day volume weighted average closing price of the Company's common shares on the New York Stock Exchange as of December 31, 2010. Shares issued under this program become fully vested on December 31, 2011. Compensation expense incurred for the three months ended March 31, 2011 was \$36. The following table is a summary of all unvested share awards issued to trustees in lieu of annual cash retainer:

Multi-Year Long-Term Equity Incentive

On March 30, 2011, the Company issued 12,600 restricted common shares, 1,800 to each non-management trustee, which will vest 33% on December 31, 2011, 33% on December 31, 2012, and 33% on December 31, 2013.

Compensation expense for the Multi-year LTI incurred for the three months ended March 31, 2011 was \$6. Unearned compensation related to the multi-year LTI was \$69 for three months ended March 31, 2011.

Non-employees

The Company issues share based awards as compensation to non-employees for services provided to the Company and consists primarily of restricted common shares. The Company recorded stock based compensation expense of \$37 and \$45 for the three months ended March 31, 2011 and March 31, 2010, respectively. Unearned compensation related to the restricted share awards as of March 31, 2011 and December 31, 2010 was \$96 and \$20. NOTE 13 – SUBSEQUENT EVENTS

On March 18, 2011, the Company entered into a purchase and sale agreement to acquire the Courtyard Los Angeles Westside from an unaffiliated seller for a total purchase price of \$47,000, excluding closing costs. The purchase price will be funded with cash and borrowings from the line of credit. The acquisition is subject to customary closing conditions.

On April 11, 2011, the Company entered into an agreement with an unaffiliated seller to acquire the real property and improvements located at 32 Pearl Street, New York, NY for a total purchase price of \$28,300. The property is a re-development project which was initiated in 2008. The Company is acquiring the real property and the improvements for cash and converting its \$8,000 development loan on the re-development project made to an affiliate of the seller to equity. The acquisition is subject to customary closing conditions and is expected to be completed in the second quarter of 2011.

On April 15, 2011, the Company closed on the acquisition of the Capitol Hill Suites in Washington, D.C. for a total purchase price of \$47,500. The purchase price was funded with cash and through the assumption of a mortgage loan having an outstanding principal balance of \$32,500 as of April 15, 2011. The assumed mortgage loan bears interest at a fixed rate of 5.81% per annum, requires monthly interest only payments, and matures on February 8, 2012.

General

As of March 31, 2011, we owned interests in 78 hotels, located primarily in the eastern United States, including interests in 15 hotels owned through joint ventures. For purposes of the REIT qualification rules, we cannot directly operate any of our hotels. Instead, we must lease our hotels to a third party lessee or to a taxable REIT subsidiary ("TRS"), provided that the TRS engages an eligible independent contractor to manage the hotels. As of March 31, 2011, we have leased all of our hotels to a wholly-owned TRS, a joint venture-owned TRS, or an entity owned in part by our wholly-owned TRS. Each of these TRS entities will pay qualifying rent, and the TRS entities have entered into management contracts with eligible independent contractors, including HHMLP, with respect to our hotels. We intend to lease all newly acquired hotels to a TRS.

The TRS structure enables us to participate more directly in the operating performance of our hotels. The TRS directly receives all revenue from, and funds all expenses relating to hotel operations. The TRS is also subject to income tax on its earnings.

Outlook

We believe the improvements we made in our equity and debt capitalization and repositioning of our portfolio in 2010 better enables us to capitalize on further improvements in lodging fundamentals. During the first quarter of 2011, we have seen continued improvements in ADR, RevPAR and operating margins, led by hotels in our core urban markets of New York, Boston and Washington. We will continue to seek acquisition opportunities in urban centers, central business districts, primary suburban markets and stable secondary markets. In addition, we are looking, and will continue to look, for attractive opportunities to dispose of properties in tertiary markets at favorable prices, potentially redeploying that capital in our focus markets. Presently, we do not expect to actively pursue acquisitions made through joint ventures; however, we may seek to buyout, or sell our joint venture interest to, select existing joint venture partners. We do not expect to actively pursue additional development loans or land leases. While property joint ventures, development loans and land leases played an important role in our growth over the last five years, we do not expect them to play the same role in our near-term future.

Table of Contents

Although we are planning for continued stabilization and improvement in consumer and commercial spending and lodging demand during 2011, the manner in which the economy will recover is not predictable, and certain core economic metrics, including unemployment, are not rebounding as quickly as many had hoped. In addition, the market for hotel level financing for new hotels is not recovering as quickly as the economy or broader financial markets. As a result, there can be no assurances that we will be able to grow hotel revenues, occupancy, ADR or RevPAR at our properties as we hope. Further, we cannot assure that we will not experience defaults under our development loans. The lack of financing for our borrowers and potential buyers may result in borrower defaults or prevent borrowers or us from disposing of properties held for sale. Factors that might contribute to less than anticipated performance include those described under the heading "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2010 and other documents that we may file with the SEC in the future. We will continue to cautiously monitor recovery in lodging demand and rates, our third party hotel managers, our remaining portfolio of hotel development loans and our performance generally.

The turmoil in the financial markets, which began in the fourth quarter of 2008, caused credit to significantly tighten, making it more difficult for hotel developers to obtain financing for development projects or for hotels with limited operating history. This turmoil in the financial markets may continue to have a negative impact on the collectability of our portfolio of development loans receivable. We monitor this portfolio to determine the collectability of the loan principal and interest accrued and will continue to monitor this portfolio on an on-going basis.

In addition, the tightening credit markets have made it more difficult to finance the acquisition of new hotel properties or refinance existing hotel properties that do not have a history of profitable operations. We monitor the maturity dates of our debt obligations and take steps in advance of these maturity dates to extend or refinance the obligations. Please refer to "Item 3. Quantitative and Qualitative Disclosures About Market Risk" for a discussion of our debt maturities. We cannot assure you that we will be able to extend or refinance these obligations with favorable terms or at all.

The following table outlines operating results for the Company's portfolio of wholly owned hotels and those owned through joint venture interests that are consolidated in our financial statements for the three months ended March 31, 2011 and 2010:

CONSOLIDATED HOTELS:

	Three Months Ended,			% Variance
	March 31, 2011	March 31, 2010		
Rooms Available	707,571	641,772	10.3	%
Rooms Occupied	430,017	392,870	9.5	%
Occupancy	60.77	61.22	-0.4	%
Average Daily Rate (ADR)	\$ 126.93	\$ 118.92	6.7	%
Revenue Per Available Room (RevPAR)	\$ 77.14	\$ 72.80	6.0	%
Room Revenues	\$ 54,579,944	\$ 46,718,890	16.8	%
Total Revenues	\$ 57,810,592	\$ 49,353,531	17.1	%

The following table outlines operating results for the three months ended March 31, 2011 and 2010, for hotels we own through an unconsolidated joint venture interest. These operating results reflect 100% of the operating results of the property including our interest and the interests of our joint venture partners and other noncontrolling interest holders. This table excludes the operations of the Courtyard South Boston, MA. On April 13, 2010, this hotel became one of our consolidated joint venture properties due to our acquisition of the mortgage note secured by Courtyard South Boston, MA. The acquisition of this mortgage note caused us to be the primary beneficiary of the joint venture

that owns the Courtyard South Boston, MA.

Total Revenues	\$ 20,641,853	\$ 19,192,694	7.6	%

RevPAR for the three months ended March 31, 2011 increased 6.0% for our consolidated hotels and increased 9.8% for the three months ended March 31, 2011, for our unconsolidated hotels when compared to the same period in 2010. This increase in RevPAR was primarily due to continued stabilization in demand as a result of improving economic conditions. This stabilization in demand resulted in an increase in RevPAR driven by increases in ADR for the portfolio for the three months ended March 31, 2011.

COMPARISON OF THE THREE MONTHS ENDED MARCH 31, 2011 TO March 31, 2010
(dollars in thousands, except per room and per share data)

Revenue

Our total revenues for the three months ended March 31, 2011 consisted of hotel operating revenues, interest income from our development loan program and other revenue. Hotel operating revenues are recorded for wholly-owned hotels that are leased to our wholly-owned TRS and hotels owned through joint venture interests that are consolidated in our financial statements. Hotel operating revenues increased \$8,457, or 17.1%, from \$49,354 for the three months ended March 31, 2010 to \$57,811 for the same period in 2011.

The increase in hotel operating revenues was primarily attributed to the acquisitions consummated subsequent to the first quarter of 2010. We acquired interests in the following three consolidated hotels which contributed the following operating revenues for the three months ended March 31, 2011:

Brand	Location	Acquisition Date	Rooms	Hotel Operating Revenues
Holiday Inn	Wall Street, NY	May 7, 2010	113	1,003
Hampton Inn	Washington, DC	September 1, 2010	228	3,025
Holiday Inn Express	Water Street, NY	March 25, 2011	112	82
			453	\$ 4,110

Table of Contents

Revenue from these hotels acquired since first quarter 2010 is included in hotel operating revenue for the three months ended March 31, 2011 but did not contribute to revenue during the same period in 2010. We also acquired interests in the following three consolidated hotels during the first quarter of 2010 which contributed the following operating revenues for the three months ended March 31, 2011 and March 31, 2010:

Brand	Location	Acquisition Date	Rooms	Hotel Operating Revenues Three Months Ended	
				March 31, 2011	March 31, 2010
Hampton Inn	Times Square, NY	February 9, 2010	184	2,073	1,136
Candlewood Suites	Times Square, NY	February 9, 2010	188	1,656	852
Holiday Inn Express	Times Square, NY	February 9, 2010	210	2,064	1,115
			582	\$ 5,793	\$ 3,143

These hotels were owned, and contributed revenue, for the entire three months ended March 31, 2011 but were owned, and contributed revenue, for only a portion of the three months ended March 31, 2010.

In addition, there has been improvement in the ADR within our total consolidated portfolio. ADR at our consolidated hotels increased 6.7% from \$118.92 per room for the three months ended March 31, 2010 to \$126.93 per room during the same period in 2011. Our occupancy rate decreased 45 basis points from 61.22% during the three months ended March 31, 2010 to 60.77% for the same period in 2011.

Interest income from development loans decreased \$283 or 20.6% to approximately \$1,091 for the three months ended March 31, 2011 from \$1,374 for the three months ended March 31, 2010, due to the decrease in the average balances outstanding. The average balance outstanding during the three months ended March 31, 2011 was lower than the average balance outstanding during the same period in 2010 due primarily to the settlement of certain development loans in connection with hotel acquisitions.

Of the \$42,327 in development loans receivable outstanding as of March 31, 2011, \$8,000, or 18.9%, is invested in hotels that are operating and generating revenue, and \$34,327, or 81.1%, is invested in hotel construction projects with significant progress made toward completion. As a result of impairment charges prior to 2010, we currently do not reflect on our balance sheet any value for the development loans to hotel development projects that are in the early phase of development that includes land acquisition and site preparation.

As hotel developers are engaged in constructing new hotels or renovating existing hotels, the hotel properties are typically not generating revenue. It is common for the developers to require construction type loans to finance the projects whereby interest incurred on the loan is not paid currently; rather it is added to the principal borrowed and repaid at maturity. Two of our development loans, including one such loan to an entity affiliated with certain of our trustees and executive officers, allow the borrower to elect, quarterly, to pay accrued interest in-kind by adding the accrued interest to the principal balance of the loan. As a result, a total of \$674 in accrued interest on these loans was added to principal for the three months ended March 31, 2011.

Other revenue consists primarily of fees earned for asset management services provided to properties owned by certain of our unconsolidated joint ventures. These fees are earned as a percentage of the revenues of the unconsolidated joint ventures' hotels. Other revenues decreased \$10, from \$88 for the three months ended March 31, 2010 to \$78 during the three months ended March 31, 2011.

Expenses

Total hotel operating expenses increased \$5,708, or 17.8%, to approximately \$37,837 for the three months ended March 31, 2011 from \$32,129 for the three months ended March 31, 2010. Consistent with the increase in hotel operating revenues, hotel operating expenses increased primarily due to the acquisitions consummated since March 31, 2010, as mentioned above. The acquisitions also resulted in a \$2,006, or 16.7%, increase in depreciation and amortization expense from \$12,010 for the three months ended March 31, 2010 to \$14,016 for the three months ended March 31, 2011. Real estate and personal property tax and property insurance increased \$1,040, or 25.4%, in the three months ended March 31, 2011 when compared to the same period in 2010 primarily due to the acquisitions and from increases in assessments and insurance premiums at certain of the hotel properties. Additionally, one of our hotel properties was negatively impacted by higher non-recurring expenses related to a sales tax audit during the three months ended March 31, 2011 and the three months ended March 31, 2010 benefitted from a property tax credit.

Table of Contents

General and administrative expense decreased \$875, or 30.9%, from \$2,836, for the three months ended March 31, 2010 to \$1,961 for the three months ended March 31, 2011. During the fourth quarter of 2010, we accrued a liability in the amount of \$1,720, representing the 2010 cash bonuses payable to our executive officers, while the 2009 year-end bonuses were not determined and recorded until the first quarter of 2010. As a result, incentive compensation of \$1,256 earned for the year ended December 31, 2009 was recorded in the first quarter of 2010. Offsetting this decrease were increases to compensation expense due to increases in employee headcount and increases in base compensation.

Non-cash stock based compensation expense increased \$828 when comparing the three months ended March 31, 2011 to the same period in 2010. Included in stock based compensation for the three months ended March 31, 2011, but not for the comparable period in 2010, is \$798 of stock based compensation expense for the multi-year long term equity incentive awards approved by the Compensation Committee in May 2010. The remaining increase in stock based compensation is a result of an increase in the number of restricted shares outstanding during the three months ended March 31, 2011. Please refer to “Note 9 – Share Based Payments” of the notes to the consolidated financial statements for the three months March 31, 2011 and 2010 (unaudited) for more information about our stock based compensation.

Beginning January 1, 2010, US GAAP requires that costs related to business combinations, which includes the acquisition of hotel properties, be expensed currently rather than included in the value of the business acquired. As a result, amounts recorded on our consolidated statement of operations for acquisition and terminated transaction costs will fluctuate from period to period based on our acquisition activities. Acquisition and terminated transaction costs decreased \$2,521 from \$3,336 for the three months ended March 31, 2010 to \$815 for the three months ended March 31, 2011 due to the number of acquisitions consummated during the three months ended March 31, 2010, as compared to the three months ended March 31, 2011. For the three months ended March 31, 2011, we incurred \$715 in acquisition costs related to our acquisition of the Holiday Inn Express, Water Street. For the three months ended March 31, 2010, acquisition costs were incurred related to our acquisitions of three hotels in the vicinity of Times Square in New York, NY and the Hilton Garden Inn, Glastonbury. Acquisition costs typically consist of transfer taxes, legal fees and other costs associated with acquiring a hotel property.

Unconsolidated Joint Venture Investments

Our interest in the loss from unconsolidated joint ventures was \$981 for the three months ended March 31, 2011 compared to \$1,040 for the same period in 2010. Offsetting the loss from unconsolidated joint ventures for the three months ended March 31, 2010 was a \$1,818 gain on the remeasurement of our interest in an unconsolidated joint venture that owned the Hilton Garden Inn in Glastonbury, CT. On January 1, 2010 we acquired our joint venture partners remaining interest in the venture and the property became a wholly owned property.

Net Loss

Net loss applicable to common shareholders for the three months ended March 31, 2011 was \$14,591 compared to a net loss applicable to common shareholders of \$15,822 for the same period in 2010.

Table of Contents

Operating loss for the three months ended March 31, 2011 was \$2,632 compared to an operating loss of \$4,551 during the same period in 2010. The decrease in operating loss resulted primarily from improved performance of our portfolio and acquisitions that have occurred since March 31, 2010.

Interest expense decreased \$1,118 from \$11,741 for the three months ended March 31, 2010 to \$10,623 for the three months ended March 31, 2011. The decrease in interest expense is due primarily to a lower average balance outstanding on our line of credit during the three months ended March 31, 2011 as compared to the same period in 2010. In 2010 we completed three equity offerings and used a portion of the proceeds to reduce borrowings on our line of credit and certain other mortgage debt obligations.

LIQUIDITY, CAPITAL RESOURCES, AND EQUITY OFFERINGS

(dollars in thousands, except per share data)

Debt and Equity Offerings

The ability to originate or refinance existing loans has become and continues to be very restrictive for all borrowers, even for those borrowers that have strong balance sheets. While we maintain a portfolio of what we believe to be high quality assets and we believe our leverage to be at acceptable levels, the market for new debt origination and refinancing of existing debt remains challenging and visibility on the length of debt terms, the loan to value parameters and loan pricing on new debt originations is limited.

Our organizational documents do not limit the amount of indebtedness that we may incur. In the current economic environment, the fair market value of certain of our hotel properties may have declined causing some of our indebtedness to exceed the percentage of an individual hotel property's fair market value our Board of Trustees intended at the time we acquired the property.

Our ability to incur additional debt is dependent upon a number of factors, including the current state of the overall credit markets, our degree of leverage and borrowing restrictions imposed by existing lenders. Our ability to raise funds through the issuance of debt and equity securities is dependent upon, among other things, capital market volatility, risk tolerance of investors, general market conditions for REITs and market perceptions related to the Company's ability to generate cash flow and positive returns on its investments.

We maintain a revolving credit facility with a syndicate of lenders that have committed up to \$250,000. The line of credit expires November 5, 2013 and includes an option to extend the maturity until November 5, 2014. This option may be exercised at the sole discretion of the lenders. As of March 31, 2011 we had \$63,000 in borrowings under the line of credit and \$7,397 in letters of credit outstanding under this facility resulting in a remaining borrowing capacity under the Line of Credit of \$179,603. We intend to repay indebtedness incurred under the line of credit from time to time, for acquisitions or otherwise, out of cash flow and from the proceeds of issuances of additional common shares and other securities.

We will continue to monitor our debt maturities to manage our liquidity needs. However, no assurances can be given that we will be successful in refinancing all or a portion of our future debt obligations due to factors beyond our control or that, if refinanced, the terms of such debt will not vary from the existing terms. As of March 31, 2011, we have \$17,861 coming due on or before December 31, 2011. We currently expect that cash requirements for all debt that is not refinanced by our existing lenders will be met through a combination of cash on hand, refinancing the existing debt with new lenders, draws on our credit facility and issuing public debt or equity.

Table of Contents

Development Loans Receivable

The current borrowing environment has made it difficult for our development loan borrowers to obtain or renew construction financing to complete certain hotel development projects for which we have provided development loan financing. As of March 31, 2011, we have \$42,327 in development loan principal receivable and \$3,367 in accrued interest receivable on these loans.

Each of these loans matures at some time within the next twelve to eighteen months. Most of our development loans have options to extend the maturity of the loan for periods up to three years from the original maturity date of the loan. Each of these development loans also provides us with a right of first offer on hotels constructed through the development loan program. We expect most development loan borrowers to take advantage of these extension options. In addition, we may convert the principal and interest due to us on those development loans that are not extended into equity interests in the hotels developed allowing us to reduce the amount of cash required to fund the acquisition.

In addition, the contractual terms of two development loans allow borrowers the option to add accrued interest to the loan principal in lieu of making current interest payments. As a result of these amendments, \$674 of accrued interest was added to loan principal for the three months ended March 31, 2011. We do not expect the payments of principal or accrued interest on the development loans to be a significant source of liquidity over the next twelve to eighteen months.

Operating Liquidity and Capital Expenditures

We expect to meet our short-term liquidity requirements generally through net cash provided by operations, existing cash balances and, if necessary, short-term borrowings under our line of credit. We believe that the net cash provided by operations in the coming year will be adequate to fund the Company's operating requirements, monthly recurring debt service and the payment of dividends in accordance with REIT requirements of the federal income tax laws.

We issued common shares in public offerings and issued Common Units in connection with our acquisition of hotel properties. Assuming we continue to make distributions to our common shareholders and common unitholders at our current rate and assuming no additional common shares or common units are issued, these distributions would approximate \$35,424 over the next twelve months. We cannot guarantee that we will continue to make distributions to our shareholders at the current rate or at all. While, due to the seasonality of our business, cash provided by operating activities fluctuates significantly from quarter to quarter, we believe, based on our current estimates, which include the addition of cash provided by hotels acquired during the first three quarters of 2010, that our cash provided by operating activities will be sufficient over the next twelve months to fund the payment of our dividend at its current level. However, our Board of Trustees continues to evaluate the dividend policy in the context of our overall liquidity and market conditions and may elect to further reduce or suspend these distributions. Cash provided by operating activities for the three months ended March 31, 2011 was \$4,202 and cash used for the payment of distributions and dividends for the three months ended March 31, 2011 was \$10,030. Dividend payments in the first quarter are primarily funded by cash provided from operations during the second, third, and fourth quarter of the prior year.

Owning hotels is a capital intensive enterprise. Hotels are expensive to acquire or build and require regular significant capital expenditures to satisfy guest expectations. However, even with current depressed cash flows, we project that our operating cash flow and credit facility will be sufficient to satisfy almost all of our liquidity and other capital needs over the next twelve to eighteen months.

We make available to the TRS of our hotels 4% (6% for full service properties) of gross revenues per quarter, on a cumulative basis, for periodic replacement or refurbishment of furniture, fixtures and equipment at each of our hotels.

We believe that a 4% (6% for full service hotels) reserve is a prudent estimate for future capital expenditure requirements. During 2010, our hotel managers had implemented a policy of limiting capital expenditures to only those projects that impact safety to our guests or preserve the value of our hotel assets. As economic conditions have improved, we have significantly increased the funding of additional capital expenditures, including the lobby renovation of several of our hotels and the completion of one hotel that was acquired prior to completion.

Table of Contents

We have increased our spending on capital improvements during the three months ended March 31, 2011 when compared to the same period in 2010. We may spend amounts in excess of the obligated amounts if necessary to comply with the reasonable requirements of any franchise license under which any of our hotels operate and otherwise to the extent we deem such expenditures to be in our best interests. We are also obligated to fund the cost of certain capital improvements to our hotels. We will use undistributed cash or borrowings under credit facilities to pay for the cost of capital improvements and any furniture, fixture and equipment requirements in excess of the set aside referenced above.

Cash Flow Analysis

Net cash provided by operating activities increased \$7,651, from cash used in operating activities of \$3,449 for the three months ended March 31, 2010 to \$4,202 provided by operating activities for the same period in 2011. Net income, adjusted for non-cash items such as depreciation and amortization, non-cash debt extinguishment, development loan interest income added to principal, interest in income from unconsolidated joint ventures, loss recognized on change in fair value of derivative instruments and stock based compensation increased \$6,082 during the three months ended March 31, 2011 when compared to the same period in 2010. This was due, in part, to a \$2,521 decrease in acquisition and terminated transaction costs incurred during the three months ended March 31, 2011 when compared to the same period in 2010. Also, contributing to the increase in operating cash flow was an increase in net cash provided by changes in working capital assets and liabilities.

Net cash used in investing activities for the three months ended March 31, 2011 decreased \$107,993, from \$163,662 in the three months ended March 31, 2010 compared to \$55,669 for the three months ended March 31, 2011. During the three months ended March 31, 2011, we used \$38,516 to acquire one property. This compares to \$160,768 to acquire three properties during the same period in 2010. Offsetting these decreases in cash used in investing activities was an increase of \$9,134 in capital expenditures for the three months ended March 31, 2011 when compared to the same period in 2010. We have also funded \$3,500 in deposits for the acquisition of additional hotel properties and invested \$1,000 in a note receivable from an unconsolidated joint venture which will be used by the venture to fund a renovation.

Net cash provided by financing activities for the three months ended March 31, 2011 was \$5,207 compared to \$177,711 during the same period in 2010. During the three months ended March 31, 2010, we completed two equity offerings with net proceeds of \$261,027. These offerings and a subsequent offering in 2010 increased our share count causing a net increase in total dividends and distributions paid of \$5,514 when comparing the three months ended March 31, 2011 to the same period in 2010. Offsetting the proceeds from these offerings in 2010 were net repayments of \$79,200 on our credit facility during the three months ended March 31, 2010 compared to net borrowings of \$17,000 during the same period in 2011. Net repayments of our mortgages and notes payable were \$1,590 during the three months ended March 31, 2011 compared to net proceeds of \$408 during the same period in 2010.

Off Balance Sheet Arrangements

The Company does not have off balance sheet arrangements that have or are reasonably likely to have a current or future material effect on our financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Funds From Operations

The National Association of Real Estate Investment Trusts (“NAREIT”) developed Funds from Operations (“FFO”) as a non-GAAP financial measure of performance of an equity REIT in order to recognize that income-producing real estate historically has not depreciated on the basis determined under GAAP. We calculate FFO applicable to common shares and Common Units in accordance with the April 2002 National Policy Bulletin of NAREIT, which we refer to as the White Paper. The White Paper defines FFO as net income (loss) (computed in accordance with GAAP) excluding extraordinary items as defined under GAAP and gains or losses from sales of previously depreciated assets, plus certain non-cash items, such as depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Our interpretation of the NAREIT definition is that noncontrolling interest in net income (loss) should be added back to (deducted from) net income (loss) as part of reconciling net income (loss) to FFO. Our FFO computation may not be comparable to FFO reported by other REITs that do not compute FFO in accordance with the NAREIT definition, or that interpret the NAREIT definition differently than we do.

The GAAP measure that we believe to be most directly comparable to FFO, net income (loss) applicable to common shareholders, includes depreciation and amortization expenses, gains or losses on property sales, noncontrolling interest and preferred dividends. In computing FFO, we eliminate these items because, in our view, they are not indicative of the results from our property operations.

FFO does not represent cash flows from operating activities in accordance with GAAP and should not be considered an alternative to net income as an indication of Hersha’s performance or to cash flow as a measure of liquidity or ability to make distributions. We consider FFO to be a meaningful, additional measure of operating performance because it excludes the effects of the assumption that the value of real estate assets diminishes predictably over time, and because it is widely used by industry analysts as a performance measure. We show both FFO from consolidated hotel operations and FFO from unconsolidated joint ventures because we believe it is meaningful for the investor to understand the relative contributions from our consolidated and unconsolidated hotels. The display of both FFO from consolidated hotels and FFO from unconsolidated joint ventures allows for a detailed analysis of the operating performance of our hotel portfolio by management and investors. We present FFO applicable to common shares and Common Units because our Common Units are redeemable for common shares. We believe it is meaningful for the investor to understand FFO applicable to all common shares and Common Units.

Table of Contents

The following table reconciles FFO for the periods presented to the most directly comparable GAAP measure, net income, for the same periods (dollars in thousands):

	Three Months Ended

(1) Adjustment made to deduct FFO related to the noncontrolling interest in our consolidated joint ventures.

Represents the portion of net income and depreciation allocated to our joint venture partners.

(2) Adjustment made to add depreciation of purchase price in excess of historical cost of the assets in the unconsolidated joint venture at the time of our investment.

(3) Adjustment made to add our interest in real estate related depreciation and amortization of our unconsolidated joint ventures. Allocation of depreciation and amortization is consistent with allocation of income and loss.

FFO for the three months ended March 31, 2011 increased \$5,904 when compared to the three months ended March 31, 2010. FFO for the three months ended March 31, 2010 was negatively impacted by acquisition and terminated transaction costs of \$3,336, compared to only \$815 during the same period in 2011. These costs were primarily the result of the acquisition of three hotel properties consummated during the three months ended March 31, 2010 compared to one acquisition during the same period in 2011. The increase in FFO was also due to the accretive acquisition of hotel properties and improving economic conditions that have caused increases in the RevPAR of certain hotel properties. FFO for the three months ended March 31, 2011 was negatively impacted by an increase in real estate and personal property taxes and property insurance expense of \$1,040, or 25.4%, from \$4,094 for the three months ended March 31, 2010 to \$5,134 for the same period in 2010 due to the acquisition of hotel properties and increased assessments on our hotel properties.

Critical Accounting Policies

The estimates and assumptions made by management in applying critical accounting policies have not changed materially during 2011 and 2010 and none of the estimates or assumptions have proven to be materially incorrect or resulted in our recording any significant adjustments relating to prior periods. See Item 6 of our Annual Report on Form 10-K for the year ended December 31, 2010 for a summary of the accounting policies that management believes are critical to the preparation of the consolidated financial statements.

Investment in Hotel Properties

We follow an accounting model for the impairment or disposal of long-lived assets including discontinued operations in accordance with US GAAP.

Based on the occurrence of certain events or changes in circumstances, we review the recoverability of the property's carrying value. Such events or changes in circumstances include the following:

- a significant decrease in the market price of a long-lived asset;
- a significant adverse change in the extent or manner in which a long-lived asset is being used or in its physical condition;
- a significant adverse change in legal factors or in the business climate that could affect the value of a long-lived asset, including an adverse action or assessment by a regulator;
- an accumulation of costs significantly in excess of the amount originally expected for the acquisition or construction of a long-lived asset;
- a current-period operating or cash flow loss combined with a history of operating or cash flow losses or a projection or forecast that demonstrates continuing losses associated with the use of a long-lived asset; and
- a current expectation that, it is more likely than not that, a long-lived asset will be sold or otherwise disposed of significantly before the end of its previously estimated useful life.

We review our portfolio on an on-going basis to evaluate the existence of any of the aforementioned events or changes in circumstances that would require us to test for recoverability. In general, our review of recoverability is based on an estimate of the future undiscounted cash flows, excluding interest charges, expected to result from the property's use and eventual disposition. These estimates consider factors such as expected future operating income, market and other applicable trends and residual value expected, as well as the effects of hotel demand, competition and other factors. If impairment exists due to the inability to recover the carrying value of a property, an impairment loss is recorded to the extent that the carrying value exceeds the estimated fair value of the property. We are required to make subjective assessments as to whether there are impairments in the values of our investments in hotel properties.

As of March 31, 2011, based on our analysis, we have determined that the future cash flow of each of the properties in our portfolio is sufficient to recover its carrying value.

Investment in Unconsolidated Joint Ventures

In addition, we periodically review the carrying value of our investments in unconsolidated joint ventures to determine if circumstances exist indicating impairment to the carrying value of the investment. When an impairment indicator is present, we will review the recoverability of our investment. If the investment's carrying value is not considered recoverable, we will estimate the fair value of the investment. Our estimate of fair value takes into consideration factors such as expected future operating income, trends and prospects, as well as the effects of demand, competition and other factors. This determination requires significant estimates by management, including the expected cash flows to be generated by the assets owned and operated by the joint venture. As of March 31, 2011, based on our

analysis, we have determined that the fair value of each of our investments in unconsolidated joint ventures exceeds the carrying value of our investment in each joint venture.

Investment in Development Loans

The Company accounts for the credit risk associated with its development loans receivable by monitoring the portfolio for indications of impairment. Our methodology consists of the following:

- Identifying loans for individual review. In general, these consist of development loans that are not performing in accordance with the contractual terms of the loan.
- Assessing whether the loans identified for review are impaired. That is, whether it is probable that all amounts will not be collected according to the contractual terms of the loan agreement. We determine the amount of impairment by calculating the estimated fair value, discounted cash flows or the value of the underlying collateral.

Based on our reviews, we determined that it is probable that all amounts will be collected according to the contractual terms of each of our development loan agreements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

(dollars in thousands, except per share data)

Our primary market risk exposure is to changes in interest rates on our variable rate debt. As of March 31, 2011, we are exposed to interest rate risk with respect to variable rate borrowings under our revolving line of credit and certain variable rate mortgages and notes payable. As of March 31, 2011, we had total variable rate debt outstanding of \$172,409. At March 31, 2011, our variable rate debt outstanding had a weighted average interest rate of 3.76%. The effect of a 100 basis point increase or decrease in the interest rate on our variable rate debt outstanding as of March 31, 2011 would be an increase or decrease in our interest expense for the three months ended March 31, 2011 of \$348.

Our interest rate risk objectives are to limit the impact of interest rate fluctuations on earnings and cash flows and to lower our overall borrowing costs. To achieve these objectives, we manage our exposure to fluctuations in market interest rates for a portion of our borrowings through the use of fixed rate debt instruments to the extent that reasonably favorable rates are obtainable with such arrangements. We have also entered into derivative financial instruments such as interest rate swaps or caps, and in the future may enter into treasury options or locks, to mitigate our interest rate risk on a related financial instrument or to effectively lock the interest rate on a portion of our variable rate debt. Currently, we have two interest rate caps related to debt on the Hotel 373, New York, NY and our two subordinated notes payable, we have no interest rate swaps related to debt. The swap on the nu Hotel, Brooklyn, NY matured in January 2011. We do not intend to enter into derivative or interest rate transactions for speculative purposes.

As of March 31, 2011 approximately 75.7% of our outstanding mortgages and notes payable and borrowings under our revolving line of credit are subject to fixed rates, while approximately 24.3% of our outstanding mortgages payable are subject to floating rates.

Changes in market interest rates on our fixed-rate debt impact the fair value of the debt, but such changes have no impact on interest expense incurred. If interest rates rise 100 basis points and our fixed rate debt balance remains constant, we expect the fair value of our debt to decrease. The sensitivity analysis related to our fixed-rate debt assumes an immediate 100 basis point move in interest rates from their March 31, 2011 levels, with all other variables held constant. A 100 basis point increase in market interest rates would cause the fair value of our fixed-rate debt outstanding at March 31, 2011 to be approximately \$477,983 and a 100 basis point decrease in market interest rates would cause the fair value of our fixed-rate debt outstanding at March 31, 2011 to be approximately \$529,231.

We regularly review interest rate exposure on our outstanding borrowings in an effort to minimize the risk of interest rate fluctuations. For debt obligations outstanding as of March 31, 2011, including liabilities related to assets held for sale, the following table presents expected principal repayments and related weighted average interest rates by expected maturity dates (in thousands):

The table incorporates only those exposures that existed as of March 31, 2011, and does not consider exposure or positions that could arise after that date. As a result, our ultimate realized gain or loss with respect to interest rate fluctuations will depend on the exposures that arise during the future period, prevailing interest rates, and our hedging strategies at that time.
