Merge Healthcare Incorporated and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited and in thousands, except for share and per share data)

(1) Basis of Presentation and Significant Accounting Policies

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission (SEC) for reporting on Form 10-Q. Accordingly, certain information and notes required by United States of America generally accepted accounting principles (GAAP) for annual financial statements are not included herein. These interim statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Annual Report on Form 10-K for the year ended December 31, 2010 of Merge Healthcare Incorporated, a Delaware corporation, and its subsidiaries and affiliates (which we sometimes refer to collectively as Merge, we, us or our).

Principles of Consolidation

Our unaudited condensed consolidated financial statements reflect all adjustments, which are, in the opinion of management, necessary for a fair presentation of our financial position and results of operations. Such adjustments are of a normal recurring nature, unless otherwise noted. The results of operations for the three and nine month periods ended September 30, 2011 are not necessarily indicative of the results to be expected for any future period.

Our unaudited condensed consolidated financial statements are prepared in accordance with GAAP. These accounting principles require us to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. We believe that the estimates, judgments and assumptions are reasonable, based on information available at the time they are made. Actual results could differ materially from those estimates.

(2) Other Current Assets and Other Accrued Liabilities

Other current assets consist primarily of revenue recognized that has not yet been billed to a customer, taxes receivable and other non-trade receivables, all of which are due within the next twelve months. The balances are comprised of the following as of September 30, 2011 and December 31, 2010:

	Balance at September 30, 2011	Balance at December 31, 2010
Revenue recognized in excess of billings	\$ 16,805	\$ 8,337
Taxes receivable	16	848
Other non-trade receivables	374	151
	\$ 17,195	\$ 9,336

Other accrued liabilities consist primarily of leases payable, deferred tax liability, accrued taxes, customer deposits and other non-trade payables, all of which are due within the next twelve months. The balances are comprised of the following as of September 30, 2011 and December 31, 2010:

	Balance at September 30, 2011	Balance at December 31, 2010

Edgar Filing: MERGE HEALTHCARE INC - Form 10-Q

Changes due to insignificant acquisitions	30,173
Change due to effect of foreign currency	50
Balance at September 30, 2011	\$ 199,756

Other Intangible Assets

Our intangible assets subject to amortization are summarized as of September 30, 2011 as follows:

	Weighted Average Remaining Amortization Period (Years)	Gross Carrying Amount	Accumulated Amortization
Purchased software	5.5	\$ 32,675	\$ (6,859)
Capitalized software	2.9	1,825	(1,275)

Trade names	7.9	2,033	(337)
Non-competes	5.5	3,230	(676)
Total		\$ 89,368	\$ (20,242)

In the nine months ended September 30, 2011, we increased the gross carrying amount of purchased software, customer relationships, trade names and non-competes by \$3,704, \$3,346, \$660 and \$130, respectively, related to insignificant acquisitions in 2011. In the second quarter of 2011, we wrote off \$5,635 and \$3,476, respectively, of the gross carrying amount and accumulated amortization of certain purchased software assets and customer relationship assets which were fully amortized.

Upon completion of a product rebranding initiative in the second quarter of 2011, we recorded a \$2,805 charge due to the impairment of our trade names associated with certain products. We also wrote off fully amortized gross carrying amounts and accumulated amortization of \$3,157 in trade name assets. In the second quarter of 2010, as a result of decisions related to overlapping products, we recorded \$2,271 of impairment expense to fully write off certain purchased software assets related to products from which we expect no future cash flows.

Estimated aggregate amortization expense for our intangible assets, which become fully amortized in 2022, is as follows:

For the remaining 3 months of the year ended:	2011	\$3,721
For the year ended December 31:	2012	13,513
	2013	12,562

(4) Fair Value Measurement

Our financial instruments include cash and cash equivalents, accounts receivable, marketable and non-marketable securities, accounts payable, notes payable, and certain accrued liabilities. The carrying amounts of our cash and cash equivalents (which are comprised primarily of deposit and overnight sweep accounts), accounts receivable, accounts payable, and certain accrued liabilities approximate fair value due to the short maturity of these instruments. The carrying amount of our marketable equity security is based on the quoted price of the security in an active market. The estimated fair values of the non-marketable equity securities have been determined from information obtained from independent valuations and management estimates. The carrying value of our notes payable approximates fair value due to the interest rates and terms approximating those available to us for similar obligations.

We use a three-tier value hierarchy to prioritize the inputs used in measuring fair value of our financial assets and liabilities. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore, requiring us to develop our own assumptions.

We also consider additional information in estimating fair value when the volume and level of activity for the asset or liability have significantly decreased, or circumstances indicate a transaction is not suitable for fair value measurement.

Non-Current Investments

At September 30, 2011, we held certain securities in a publicly traded entity and a private company which are classified within other assets on our condensed consolidated balance sheet. The investment in the publicly traded equity security, over which we do not exert significant influence, is classified as “available-for-sale” and reported at fair value on a recurring basis. Unrealized gains and losses are reported within the accumulated other comprehensive income component of shareholders’ equity. The investment in equity securities of a private company, over which we do not exert significant influence, is classified as a Level 3 investment and is reported at cost or fair value, if an other-than-temporary loss has been determined. Any loss due to impairment in value is recorded when such loss occurs. We performed the evaluation of our Level 3 investment as of September 30, 2011, and concluded that there was no significant change in its fair value.

In the second quarter of 2011, we received proceeds of \$405 from the sale of an investment in equity securities of a private company, which had a carrying value of zero, and recorded a \$405 gain in other income (expense) in our statement of operations.

Balance at September 30	\$ 271	\$ 79

Unrealized gains or losses on our Level 1 available-for-sale (publicly traded) security, as well as foreign currency translation adjustments, are components of accumulated other comprehensive income as set forth in the following table:

	September 30, 2011	December 31, 2010
Cumulative translation adjustment	\$ 2,126	\$ 1,936
Unrealized loss on available-for-sale security, net of taxes	(209)	(392)
Total accumulated other comprehensive income	\$ 1,917	\$ 1,544

(5) Restructuring

On August 5, 2011, we committed to a restructuring initiative to reduce our workforce by approximately 30 individuals. This action was taken based upon our assessment of ongoing personnel needs.

The following table sets forth the activity in the nine months ended September 30, 2011, related to restructuring activities:

	Employee Termination Costs	Contract Exit Costs	Relocation	Total
	Prior Year Initiatives			
Balance at December 31, 2010	\$ 449	\$ 1,698	\$ 42	\$ 2,189

Balance at September 30, 2011	\$ 1,070	\$ 670	\$ -	\$ 1,740

As of September 30, 2011, \$1,629 of the remaining balance was recorded in the restructuring accrual in current liabilities, with the remainder recorded in other non-current liabilities.

(6) Debt

In April 2010, we issued \$200,000 of Senior Secured Notes (Notes) at 97.266% of the principal amount, which bear interest at 11.75% of principal (payable on May 1st and November 1st of each year) and will mature on May 1, 2015. The Notes were offered in a private placement pursuant to Rule 144A and Regulation S under the Securities Act of 1933, as amended. In connection with the Notes, we incurred issuance costs of \$9,015 (which are recorded in other assets on the condensed consolidated balance sheet). These issuance costs are recorded as a long-term asset and amortized over the life of the Notes using the effective interest method.

In June 2011, we issued an additional \$52,000 in Notes at 103.0% of the principal amount with terms identical to the existing Notes. The proceeds of these additional Notes were used to redeem and retire our Series A Preferred Stock and to pay associated dividends (as further discussed in Note 7). These additional Notes were offered in a private placement pursuant to Rule 144A and Regulation S under the Securities Act of 1933, as amended. Prior to issuance, we received consents from the majority of holders of the existing Notes to amend the Indenture to allow us to incur the additional indebtedness. As consideration for the consents, we paid \$1,528 in consent fees from the proceeds of the Notes. These fees are recorded as an issuance cost in long-term assets and will be amortized over the remaining life of the Notes using the effective interest method. We also incurred \$1,548 in costs related to the issuance of the additional Notes that did not qualify for capitalization. These costs are recorded in "other expense, net" of our statements of operations for the nine months ended September 30, 2011.

In the three and nine months ended September 30, 2011, we recorded \$8,011 and \$21,104, respectively, of interest expense related to the Notes, including \$458 and \$1,187, respectively, in amortization of debt issuance costs and \$151 and \$578, respectively, in amortization of debt discount. In the three and nine months ended September 30, 2010, we recorded \$6,508 and \$10,876, respectively, of interest expense related to the Notes, including \$331 and \$557, respectively, in amortization of debt issuance costs and \$201 and \$332, respectively, in amortization of debt discount. As of September 30, 2011 and December 31, 2010, the notes payable balances on our balance sheet included \$2,785 and \$4,923, respectively, of unamortized net discount.

In the third quarter of 2011, we repaid \$4,591 in debt obligations which we assumed from an insignificant acquisition.

(7) Shareholders' Equity

In the nine months ended September 30, 2011, we recorded dividends of \$3,153 related to our Series A Preferred Stock. These dividends are reflected as an increase to net loss available to common shareholders in our condensed statement of operations.

In June 2011, we redeemed and retired all 41,750 outstanding shares of our Series A Preferred Stock at the face value of \$41,750 and paid cumulative dividends of \$7,328. Prior to the redemption, holders of our Series A Preferred Stock waived the two-year liquidation preference.

In the nine months ended September 30, 2011, we issued 974,701 shares of our common stock, valued at \$3,147, as partial consideration for an insignificant acquisition which was completed in the fourth quarter of 2010. These shares had been recorded as common stock subscribed as of December 31, 2010. We also issued 5,273,086 shares of our common stock, valued at \$29,820, as partial consideration for two insignificant acquisitions completed in 2011, and we will issue up to an additional 120,674 shares of our common stock. The value of the shares issued for acquisitions was based on the closing price of our common stock as of the respective acquisition dates, with certain of the shares discounted based upon holdback provisions.

In the nine months ended September 30, 2011, one of our insignificant acquisitions included a 63% ownership interest in a subsidiary. We recorded a non-controlling interest of \$478 based upon 37% of the fair value of net assets of the less-than-wholly-owned subsidiary as of the acquisition date.

(8) Share-Based Compensation

The following table summarizes share-based compensation expense recognized during the periods indicated:

As of September 30, 2011, there was approximately \$9,081 of unrecognized compensation cost related to stock options that may be recognized in future periods.

On June 2, 2011, our shareholders approved an amendment to our 2005 Equity Incentive Plan to increase the number of shares of common stock authorized for issuance thereunder by 3,000,000 to 16,500,000 shares of our common stock.

(9) Commitments and Contingencies

On June 1, 2009, Merge Healthcare was sued in the Milwaukee County Circuit Court, State of Wisconsin, by William C. Mortimore and David M. Noshay with respect to the separation of Mortimore's and Noshay's employment and our subsequent refusal to indemnify them with respect to litigation related to their services as officers of Merge. The plaintiffs allege that we breached their employment agreements, unreasonably refused their requests for indemnification and breached other covenants of good faith and fair dealing. The plaintiffs seek indemnification and unspecified monetary damages. Discovery in this case is on-going. On April 6, 2011, the Milwaukee County Circuit Court rendered a decision in which it concluded that Merge and Mortimore had entered into an oral employment contract on or about June 15, 2006, but the Court did not make any decision as to damages, which damages would be addressed in a later phase of the litigation. On May 9, 2011, Merge appealed the Circuit Court's decision. The appeal is ongoing and the Circuit Court litigation has been stayed pending appeal. We have retained litigation counsel,

intend to continue to defend this action vigorously and have filed a counterclaim for fraud, among other claims, against both Mortimore and Noshay. We will also continue to pursue the appeal.

In January 2010, a purported stockholder class action complaint was filed in the Superior Court of Suffolk County, Massachusetts in connection with AMICAS Inc.'s (AMICAS) proposed acquisition by Thoma Bravo, LLC (the "Thoma Bravo Merger"). A second similar action was filed in the same Court in February 2010 and consolidated with the first action. In March 2010, because AMICAS had terminated the Thoma Bravo Merger and agreed to be acquired by us, the Court dismissed the plaintiffs' claims as moot. Subsequently, counsel for the plaintiffs filed an application for approximately \$5,000 of attorneys' fees for its work on this case, which fee petition AMICAS opposed. We retained litigation counsel to defend against the fee petition. On December 4, 2010, the Court awarded plaintiffs approximately \$3,200 in attorneys' fees and costs. AMICAS has filed a notice of appeal from this judgment, and the plaintiffs have cross-appealed. We previously tendered the defense in this matter to our appropriate insurers, which have provided coverage against the claims asserted against AMICAS. After receipt of the Court's attorneys' fee award decision, the applicable insurer denied policy coverage for approximately \$2,500 of the fee award. We do not believe that the insurer's denial has merit and have retained counsel to contest it. We will vigorously assert all of our rights under our applicable insurance policies, which we believe cover the claims and expenses incurred by AMICAS or us in connection with the fee award. On June 6, 2011, the insurer filed an action against AMICAS and Merge in U.S. District Court for the Northern District of Illinois seeking a declaration that it is not responsible for the \$2,500 portion of the judgment rendered on December 4, 2010 by the Superior Court of Suffolk County, Massachusetts. Merge filed a counterclaim seeking a declaration that the insurer must pay the full amount of the Superior Court's fee award, plus additional damages. An adverse outcome could negatively impact our operating results and financial condition.

On February 1, 2010, Merge filed a complaint against its former CEO, Richard Linden, and its former CFO, Scott Veech, in the U.S. District for the Eastern District of Wisconsin, seeking a declaration that we do not have to indemnify either Linden or Veech for liabilities they incurred in connection with SEC investigation and enforcement actions and various securities fraud and shareholder derivative litigation. Merge also seeks to recover from both defendants all costs incurred by Merge associated with defending Linden and Veech in those prior actions. On October 15, 2010, the Court concluded that it did not have subject matter jurisdiction over Merge's claims and dismissed the claims in their entirety. The Court rendered no opinion on the merits of Merge's claims. Merge is evaluating its further options with respect to the Scott Veech matter in Wisconsin state court. On February 8, 2011, Merge filed a complaint in the U.S. District Court for the Eastern District of Wisconsin captioned Merge Healthcare Incorporated v. Richard Linden, Case no. 11-CV-001541. On May 4, 2011, Merge and Linden entered into a confidential settlement agreement resolving all claims against Mr. Linden and through which Linden agreed to issue a statement of regret and apology to Merge's Board of Directors and reimburse Merge for a portion of the Company's legal fees to defend Linden in prior legal actions. Merge believes that it has numerous meritorious claims against Mr. Veech and will continue to pursue these claims, which have not been affected by the settlement with Mr. Linden.

In August, 2010, Merge Healthcare was sued in the Northern District of Texas by the Court-appointed receiver for Stanford International Bank, Ltd. The receiver alleges that Merge was a recipient of a fraudulent conveyance as a result of a Ponzi scheme orchestrated by Robert Stanford and Stanford International Bank, Ltd. (SIBL). Merge is not alleged to have participated in the Ponzi scheme. The receiver's claims arise from the failed acquisition of Emageon, Inc. (Emageon) by Health Systems Solutions, Inc. (HSS), an affiliate of SIBL, in February 2009, which resulted in the payment of a \$9,000 break-up fee by HSS, which payment is alleged to have been financed by SIBL. Merge subsequently acquired Emageon as part of our AMICAS acquisition. The complaint seeks to recover the \$9,000 payment to Emageon, plus interest, costs, and attorneys' fees. We have retained litigation counsel and intend to vigorously defend this action. We have filed a motion to dismiss the complaint. That motion has been fully briefed, and we are awaiting a decision from the Court. An adverse outcome could negatively impact our operating results and financial condition.

In addition to the matters discussed above, we are, from time to time, parties to legal proceedings, lawsuits and other claims incident to our business activities. Such matters may include, among other things, assertions of contract breach or intellectual property infringement, claims for indemnity arising in the course of our business and claims by persons whose employment has been terminated. Such matters are subject to many uncertainties and outcomes are not predictable. We are unable to estimate the ultimate aggregate amount of monetary liability, amounts which may be covered by insurance or recoverable from third parties, or the financial impact with respect to these matters as of the date of this report.

Guarantees

As a result of the acquisition of AMICAS, we assumed a guarantee to a lender on behalf of a customer. At September 30, 2011, the balance outstanding on the loan was approximately \$805. As the customer makes loan payments to the lender, the guarantee is reduced.

(10) Transactions with Related Party

Effective January 1, 2009, we entered into a consulting agreement with Merrick RIS, LLC (Merrick), an affiliate of Merrick Ventures, LLC (Merrick Ventures). We amended the agreement effective January 1, 2010 to extend the term

through December 31, 2011, and modify the payment terms from a flat fee arrangement per quarter to a per transaction or success based arrangement. Michael W. Ferro, Jr. and trusts for the benefit of Mr. Ferro's family members beneficially own a majority of the equity interest in Merrick Ventures. Mr. Ferro, who is the Chairman of our Board of Directors, also serves as the Chairman and Chief Executive Officer of Merrick Ventures. Accordingly, Mr. Ferro indirectly owns or controls all of the shares owned by Merrick. As of September 30, 2011, Merrick and its affiliates owned approximately 35.4% of our common stock.

In the three and nine month periods ended September 30, 2011, we incurred \$296 and \$840, respectively, in expenses and paid \$344 and \$898, respectively, to Merrick for such services. In the three and nine month periods ended September 30, 2010, we incurred \$477 and \$1,785, respectively, in expenses and paid \$423 and \$1,675, respectively, to Merrick for such services. As of September 30, 2011 and December 31, 2010, we have \$246 and \$304, respectively, recorded in accounts payable covering all obligations under this agreement.

On April 1, 2010, we entered into a Securities Purchase Agreement with Merrick, under which Merrick subscribed to purchase 10,000 shares of Series A Non-Voting Preferred Stock, par value \$0.01 per share (Series A Preferred Stock) and 1,800,000 shares of common stock for an aggregate purchase price of \$10,000, under the same terms and conditions as other investors. On June 20, 2011, we redeemed all outstanding Series A Preferred Stock and paid Merrick the \$10,000 face value as well as \$1,755 in cumulative dividends, under the same terms and conditions as other investors.

On April 28, 2010, Merrick purchased, at the same purchase price per Note as the other investors in the offering, \$5,000 of the \$200,000 aggregate principal amount of Notes that we issued to complete our acquisition of AMICAS. On June 20, 2011, Merrick purchased, at the same purchase price per Note as the other investors in the offering, \$5,000 of the \$52,000 aggregate principal amount of additional Notes.

(11) Income Taxes

We are subject to tax in multiple jurisdictions and record income tax expense on an interim basis using an estimated annual effective tax rate. The estimated annual effective tax rate is modified to exclude the effect of losses for those jurisdictions where the tax benefit cannot be recognized and a separate estimated annual tax rate is required. Items discrete to a specific quarter are reflected in tax expense for that interim period. A valuation allowance is established when necessary to reduce deferred tax assets to the amount more-likely-than-not to be realized. Further limitations may apply to deferred tax assets if ownership changes occur. In the three and nine month periods ended September 30, 2011, unrecognized tax benefits, included within long-term income taxes payable, and the offsetting long-term deferred tax asset decreased by \$4,830 due to statute of limitations expirations. We do not expect a significant change in unrecognized tax benefits within the next twelve months.

(12) Earnings Per Share Available to Common Shareholders

Basic and diluted net earnings or loss per share are computed by dividing earnings or loss available to common shareholders by the weighted average number of shares of common stock outstanding. Earnings or loss available to common shareholders is computed as net income or loss less the 15% cumulative annual compounding dividend earned by preferred shareholders, during the periods such stock was outstanding, in the respective periods. The computation of earnings or loss available to common shareholders is presented in our condensed consolidated statements of operations. Diluted earnings per share includes the dilution that could occur based on outstanding restricted stock awards and the potential exercise of stock options, except for stock options with an exercise price of more than the average market price of our common stock, as such exercise would be anti-dilutive.

In the three months ended September 30, 2011 and 2010, options to purchase 463,196 and 2,179,704 shares of our common stock, respectively, had exercise prices greater than the average market price of our common stock, and, therefore, are not considered in the calculations of diluted net loss per share. In the nine months ended September 30, 2011 and 2010, options to purchase 528,196 and 2,404,704 shares of our common stock, respectively, had exercise

prices greater than the average market price of our common stock, and, therefore, are not considered in the calculations of diluted net loss per share.

As a result of the losses in the three months ended September 30, 2011 and 2010, incremental shares from the assumed conversion of employee stock options and restricted stock awards totaling 8,579,478 and 4,716,665 shares, respectively, have been excluded from the calculation of diluted loss per share as their inclusion would have been anti-dilutive. As a result of the losses in the nine months ended September 30, 2011 and 2010, incremental shares from the assumed conversion of employee stock options and restricted stock awards totaling 8,514,478 and 4,491,665 shares, respectively, have been excluded from the calculation of diluted loss per share as their inclusion would have been anti-dilutive.

(13) Guarantor Subsidiaries

The obligations under the Notes are fully and unconditionally guaranteed (except for certain release provisions which are considered customary), jointly and severally, by all of our current and future 100% owned domestic restricted subsidiaries (Guarantors). No other subsidiaries guarantee the Notes. The Notes and guarantees are secured by a first-priority lien on certain collateral which comprises substantially all of the Parent and Guarantors' tangible and intangible assets, subject to certain exceptions. The following tables present the balance sheets, statements of operations and statements of cash flows of the Parent, Guarantor and Non-Guarantor entities along with the eliminations necessary to arrive at the information on a consolidated basis.

General corporate expenses, including public company costs, certain amortization, corporate administration costs, acquisition-related expenses and net interest expense are included in the results of the Parent.

(14) Recent Accounting Pronouncements

In June 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income. ASU No. 2011-05 amends the FASB Accounting Standards Codification (Codification) to allow an entity the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. ASU No. 2011-05 eliminates the option to present the components of other comprehensive income as part of the statement of changes in stockholders' equity. The amendments to the Codification in the ASU do not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income. ASU No. 2011-05 will be applied retrospectively and is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Early adoption is permitted. We have not early adopted this ASU. Our adoption of this amendment will only impact the presentation of comprehensive income in our consolidated condensed financial statements.

In May 2011, the FASB issued ASU No. 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements. This ASU represents the converged guidance of the FASB and the International Accounting Standards Board (the Boards) on fair value measurement. The collective efforts of the Boards and their staffs, reflected in ASU 2011-04, have resulted in common requirements for measuring fair value and for disclosing information about fair value measurements, including a consistent meaning of the term "fair value." The Boards have concluded the common requirements will result in greater comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and International Financial Reporting Standards. The amendments to this ASU are to be applied prospectively. ASU No. 2011-04 is effective during interim and annual periods beginning after December 15, 2011. The adoption of this amendment will affect our disclosures only and will not have a material impact on our statement of operations or financial position.

In September 2011, the FASB issued ASU No. 2011-08, Intangibles – Goodwill and Other (Topic 350): Testing Goodwill for Impairment. This ASU permits a qualitative assessment of whether it is more likely than not that a reporting unit’s fair value is less than its carrying value before applying the two-step goodwill impairment test. If an entity can support the conclusion that it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, it would not need to perform the two-step impairment test for that reporting unit. This ASU is effective for annual and interim goodwill impairment tests performed in fiscal years beginning after December 15, 2011. The adoption of this amendment will not have a material impact on our results of operations or financial position.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Cautionary Note Regarding Forward-Looking Statements

The discussion below contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act, and Section 21E of the Exchange Act. We have used words such as "believes," "intends," "anticipates," "expects" and similar expressions to identify forward-looking statements. These statements are based on information currently available to us and are subject to a number of risks and uncertainties that may cause our actual results of operations, financial condition, cash flows, performance, business prospects and opportunities and the timing of certain events to differ materially from those expressed in, or implied by, these statements. These risks, uncertainties and other factors include, without limitation, those matters discussed in Item 1A of Part I of our Annual Report on Form 10-K for the year ended December 31, 2010. Except as expressly required by the federal securities laws, we undertake no obligation to update such factors or to publicly announce the results of any of the forward-looking statements contained herein to reflect future events, developments, or changed circumstances, or for any other reason. The following discussion should be read in conjunction with our consolidated financial statements and notes thereto appearing in our Annual Report on Form 10-K and Item 1A, "Risk Factors" for the year ended December 31, 2010.

Management's Discussion and Analysis is presented in the following order:

- Overview
- Results of Operations
- Liquidity and Capital Resources
- Material Off Balance Sheet Arrangements
- Critical Accounting Policies

Overview

Our solutions are designed to help solve some of the most difficult challenges in health information exchange today, such as the incorporation of medical images and diagnostic information into broader healthcare IT applications and the interoperability of proprietary software solutions. Our ability to innovate has driven consistent expansion of solutions and services and entry into new markets. We also look to expand through strategic acquisitions that will allow us to further expand our addressable market and customer base.

We primarily generate revenue from the sale of perpetual software licenses, upgrading and/or renewing those licenses, hardware, professional services and maintenance. Except for maintenance, these contract elements comprise the majority of non-recurring revenue. Our backlog of non-recurring revenue was \$39.7 million as of September 30, 2011. Maintenance, which we renew annually with our customer base, is the primary component of recurring revenues. Recurring revenue also includes software licenses sold through contracts that are annually renewed and recognized ratably over the annual period and recorded as software revenue, revenues derived from SaaS offerings which are recorded as professional services revenue and Electronic Data Interchange (EDI) revenues which are recognized based on monthly transactional volumes. During the third quarter of 2011, recurring revenue was approximately 57.5% of total net sales.

Our solutions optimize processes for healthcare providers ranging in size from single-doctor practices to health systems, to the sponsors of clinical trials and the medical device industry. These solutions are licensed by more than 1,500 hospitals; 6,000 clinics and labs, 250 medical device manufacturers and have been used by 70% of the top pharmaceutical companies. We believe that we have an opportunity to grow revenues by expanding our solution footprint in existing customers, as only a small percent currently have more than one of our solutions. With the benefit of a broad customer base and several product lines undergoing ongoing innovation, we also believe that we are well-positioned to continue to leverage technologies into new segments where customers see value. For example, as the push for Meaningful Use incentives drives adoption of Electronic Health Records, we envision this will create significant demand for our iConnect platform to image enable those newly deployed systems.

Results of Operations

The following have significantly impacted the results of operations for the periods discussed herein:

- During 2010, we expanded our product offerings through the acquisition of AMICAS, Inc. (AMICAS), an image and information management solutions provider which we acquired on April 28, 2010. As a result of the timing of the completion of the acquisition of AMICAS, the comparability of the results of operations in the nine months ended September 30, 2011 differ significantly from the same period in 2010, which includes only five months of AMICAS' results. Concurrent with the acquisition of AMICAS, we completed a restructuring initiative. This initiative assisted in providing operational rigor to a combined, larger organization and enabled us to decrease costs as a percentage of revenue (most notably general and administrative costs). The impact of cost saving benefits of the initiative was reflected in the operating results for the fourth quarter of 2010.

Index

- We issued \$200.0 million of Senior Secured Notes (Notes) in April 2010 as part of the financing for the acquisition of AMICAS. The Notes were issued at 97.266% of the principal amount, are due in 2015 and bear interest at 11.75% of principal (payable on May 1st and November 1st of each year). In connection with the Notes, we incurred issuance costs of \$9.0 million. The three and nine months ended September 30, 2011 include three months and nine months, respectively, of interest expense and amortization of the original issuance discount and cost of the Notes, whereas the three and nine months ended September 30, 2010 include three months and five months, respectively, of such expenses.
 - We issued additional Notes in June 2011 to redeem and retire our Series A Preferred Stock. We issued these additional \$52.0 million of Notes at 103.0% of the principal amount with terms identical to the Notes issued in April 2010. We used these proceeds to retire all 41,750 outstanding shares of our Series A Preferred Stock at the face value of \$41.8 million and paid cumulative dividends of \$7.3 million (which were accruing at a 15% annual compounded rate). The three and nine months ended September 30, 2011 include three and four months, respectively, of interest expense and amortization of the premium and certain issuance costs, whereas the three and nine months ended September 30, 2010 include no such expenses. Also, we incurred \$3.0 million in costs related to the issuance of the additional Notes, including \$1.5 million which was expensed in “other expense, net” of our statement of operations and \$1.5 million which was capitalized and is being amortized into interest expense over the remaining term of the Notes.
- During 2011, we continued to expand our product offerings, including the acquisition of Ophthalmic Imaging Systems (OIS), one of the top providers of digital imaging and informatics solutions for ophthalmology and other medical specialties, which we completed on August 4, 2011. Concurrent with the acquisition of OIS, we completed a restructuring initiative in August 2011. This initiative assisted in providing additional operational rigor to a combined, larger public organization and enabled us to decrease costs as a percentage of revenue (most notably duplicative public company costs). The costs of this initiative are now estimated to be approximately \$1.6 million and will be reflected in operating results over the next several quarters. The full impact of cost saving benefits of the initiative is expected to be realized by the second quarter of 2012.

Net Sales

Software and Other Sales. Total software and other sales in 2011 were \$20.0 million, an increase of \$7.1 million, or 55.1%, from \$12.9 million in 2010, primarily due to the increased acceptance of our comprehensive solutions offering, including iConnect, as well as the success of our cross-selling initiatives which were implemented shortly after the acquisition of AMICAS. At the time of the acquisition, few of our hospital customers were using more than one of our solutions. We anticipate that the revenue recognized from software and other sales may vary significantly on a quarterly basis.

Professional Services Sales. Total professional services sales in 2011 were \$12.0 million, an increase of \$5.2 million, or 75.8%, from \$6.8 million in 2010, primarily due to the increased acceptance of our comprehensive solutions offering, as well as the success of our cross-selling initiatives.

Maintenance and EDI Sales. Total maintenance and EDI sales in 2011 were \$28.0 million, an increase of \$2.6 million, or 10.2%, from \$25.4 million in 2010, primarily due to the increased acceptance of our comprehensive solutions offering, as well as the success of our cross-selling initiatives.

Gross Margin

Gross Margin – Software and Other Sales. Gross margin on software and other sales was \$11.2 million in 2011, an increase of \$3.2 million, or 39.4%, from \$8.0 million in 2010 primarily due to the increased acceptance of our comprehensive solutions offering, as well as the success of our cross-selling initiatives. Gross margin as a percentage of software and other sales decreased to 55.6% in 2011 from 61.9% in 2010, due to an increase in hardware sales, which are at lower margins than software only sales. Hardware sales were 39.8% of software and other sales in 2011 compared to 25.7% in 2010. We expect gross margin on software and other sales to fluctuate on a quarterly basis depending on the mix of sales among our products.

Gross Margin – Professional Service Sales. Gross margin on professional service sales was \$6.6 million in 2011, an increase of \$4.2 million, or 169.8%, from \$2.4 million in 2010. Gross margin as a percentage of professional service sales increased to 55.0% in 2011 from 35.8% in 2010, primarily due to an increase in the billable utilization of our professional services resources as well as the success of our 2010 restructuring initiative. As the majority of professional services costs are fixed, we expect gross margins going forward to fluctuate depending on billable utilization of these resources.

Gross Margin – Maintenance and EDI Sales. Gross margin on maintenance and EDI sales was \$20.6 million in 2011, an increase of \$3.8 million, or 22.6%, from \$16.8 million in 2010. Gross margin as a percentage of maintenance and EDI sales increased to 73.6% in 2011 from 66.1% in 2010, primarily due to a reduction in third party maintenance costs.

Depreciation and Amortization. Depreciation and amortization expense decreased \$0.6 million, or 20.6%, to \$2.2 million in 2011 from \$2.8 million in 2010, primarily due to the reduced run rate in purchased software amortization as a result of a \$2.3 million impairment charge in the second quarter of 2010 related to our purchased software assets and involving overlapping products.

Sales and Marketing

Sales and marketing expense increased \$4.4 million, or 77.2%, to \$10.2 million in 2011 from \$5.8 million in 2010, primarily due to our investments in these functions in 2011 to allow us to meet our sales goals, as well as the additional costs related to the acquisition of OIS in the third quarter of 2011. We expect that our quarterly sales and marketing expenses will continue to increase in the fourth quarter of 2011 as we invest further in these functions, hold our annual user conference and attend one of the larger tradeshows in our industry.

Product Research and Development

Product research and development expense increased \$1.6 million, or 28.0%, to \$7.2 million in 2011 from \$5.6 million in 2010, primarily due to our investments in these functions in 2011 to allow us to expand our product solutions capabilities. As a percentage of net sales, product research and development decreased by 0.4% to 12.0% as we were able to leverage our innovation efforts.

General and Administrative

General and administrative expense increased \$1.5 million, or 24.1%, to \$7.5 million in 2011 from \$6.0 million in 2010. As a percentage of net sales, general and administrative expenses decreased by 0.9% to 12.5%, primarily due to the cost saving initiatives which were implemented in connection with the acquisition of AMICAS.

Acquisition-Related Expenses

Acquisition-related expenses are costs incurred to effect business combinations, including banking, legal, accounting, valuation and other professional or consulting fees. In 2011, we incurred \$0.7 million of acquisition-related expenses due to our acquisition of OIS. In 2010, we incurred \$0.9 million of acquisition-related expenses due to two insignificant acquisitions completed in the third quarter of 2010.

Restructuring and Other Expenses

Restructuring and other expenses consist primarily of severance to involuntarily terminated employees resulting from our restructuring initiatives, abandonment of non-cancelable building leases and the relocation of employees associated with restructuring activities. In 2011, we incurred \$1.2 million of such expenses related to the restructuring initiative which we announced concurrent with our acquisition of OIS. In 2010, we incurred \$1.2 million of such expenses due to the reorganization of our business concurrent with our acquisition of AMICAS.

Index

Depreciation and Amortization

Depreciation and amortization expense increased \$0.5 million, or 29.5%, to \$2.3 million in 2011 from \$1.8 million in 2010, primarily due to amortization of intangible assets related to two insignificant acquisitions which we completed in the fourth quarter of 2010 and two insignificant acquisitions, including OIS, which we completed in 2011.

Other Expense, Net

Net other expense increased \$1.6 million, or 24.6%, to \$8.2 million in 2011 from \$6.6 million in 2010. In 2011 we incurred \$8.0 million of interest expense and amortization of issuance costs and note discount associated with our Notes, including the additional \$52 million in Notes issued in June of 2011. In 2010, we incurred \$6.5 million of interest expense and amortization of issuance costs and note discount associated with the Notes.

Income Tax Benefit

In 2011, we recorded income tax benefit of \$0.2 million, resulting in an effective tax rate of 19.3%. The effective tax rate for 2011 differs significantly from the statutory rate primarily due to non-cash income tax expense being recorded for profitable foreign operations that cannot be offset by unprofitable U.S. domestic operation losses and deferred tax assets that require a full valuation allowance, non-cash deferred income taxes related to indefinite lived assets and uncertain tax position benefits recognized due to statute of limitation expirations. The effective tax rate for 2010 differed from the statutory rate primarily due to the effect of changes in valuation allowances in both our primary foreign and domestic tax jurisdictions. Our expected effective income tax rate is volatile and may move up or down with changes in, among other items, operating income and the results of changes in tax laws and regulations of the U.S. and the foreign jurisdictions in which we operate.

Net Sales

Software and Other Sales. Total software and other sales in 2011 were \$56.4 million, an increase of \$27.5 million, or 95.1%, from \$28.9 million in 2010, primarily due to sales arising from the acquisition of AMICAS as well as the increased acceptance of our comprehensive solutions offering, including iConnect, and the success of our cross-selling initiatives which were implemented shortly after the acquisition of AMICAS.

Professional Services Sales. Total professional services sales in 2011 were \$30.9 million, an increase of \$14.7 million, or 90.8%, from \$16.2 million in 2010, primarily due to sales arising from the acquisition of AMICAS as well as the increased acceptance of our comprehensive solutions offering and the success of our cross-selling initiatives.

Maintenance and EDI Sales. Total maintenance and EDI sales in 2011 were \$81.1 million, an increase of \$32.0 million, or 65.2%, from \$49.1 million in 2010 primarily due to sales arising from the acquisition of AMICAS as well as the increased acceptance of our comprehensive solutions offering and the success of our cross-selling initiatives.

Gross Margin

Gross Margin – Software and Other Sales. Gross margin on software and other sales was \$36.2 million in 2011, an increase of \$14.6 million, or 67.9%, from \$21.6 million in 2010. Gross margin as a percentage of software and other sales decreased to 64.2% in 2011 compared to 74.6% in 2010, due to an increase in hardware sales, which are at lower margins than software only sales, as a result of the acquisition of AMICAS. Hardware sales were 29.6% of software and other sales in 2011 compared to 17.1% in 2010.

Index

Gross Margin – Professional Service Sales. Gross margin on professional service sales was \$15.4 million in 2011, an increase of \$10.6 million, or 221.7%, from \$4.8 million in 2010. Gross margin as a percentage of professional service sales increased to 49.9% in 2011 from 29.6% in 2010, primarily due to an increase in the billable utilization of our professional services resources as well as the success of our 2010 restructuring initiative.

Gross Margin – Maintenance and EDI Sales. Gross margin on maintenance and EDI sales was \$59.0 million in 2011, an increase of \$25.9 million, or 78.0%, from \$33.1 million in 2010. Gross margin as a percentage of maintenance and EDI sales increased to 72.8% in 2011 from 67.5% in 2010, primarily due to a reduction in third party maintenance costs.

Depreciation, Amortization and Impairment. Depreciation, amortization and impairment expense decreased \$1.4 million, or 16.9%, to \$7.1 million in 2011 from \$8.5 million in 2010, primarily due to a \$2.3 million impairment charge in 2010 related to our purchased software assets and involving overlapping products, offset by an increase due to the acquisition of AMICAS in 2010.

Sales and Marketing

Sales and marketing expense increased \$14.0 million, or 109.5%, to \$26.8 million in 2011 from \$12.8 million in 2010, primarily due to the acquisition of AMICAS. As a percentage of net sales, sales and marketing expense increased by 2.3% to 15.9% as a result of our investments in these functions.

Product Research and Development

Product research and development expense increased \$6.3 million, or 43.3%, to \$20.9 million in 2011 from \$14.6 million in 2010, primarily due to the acquisition of AMICAS. As a percentage of net sales, product research and development decreased by 3.0% to 12.5% as we were able to leverage our innovation efforts.

General and Administrative

General and administrative expense increased \$6.9 million, or 44.4%, to \$22.4 million in 2011 from \$15.5 million in 2010, primarily due to the acquisition of AMICAS. As a percentage of net sales, general and administrative expenses decreased by 3.1% to 13.3% as a result of the cost saving initiatives which were implemented in connection with the acquisition of AMICAS.

Acquisition-Related Expenses

Acquisition-related expenses are costs incurred to effect business combinations, including banking, legal, accounting, valuation and other professional or consulting fees. In 2011, we incurred \$1.2 million of such expenses primarily related to the acquisition of OIS. In 2010, we incurred \$8.4 million of acquisition-related expenses primarily due to our acquisition of AMICAS.

Restructuring and Other Expenses

Restructuring and other expenses consist primarily of severance to involuntarily terminated employees resulting from our restructuring initiatives, abandonment of non-cancelable building leases and the relocation of employees associated with restructuring activities. In 2011, we incurred \$1.1 million of such expenses related to the restructuring initiative announced concurrent with our acquisition of OIS. In 2010, we incurred \$4.7 million of such expenses, primarily related to the reorganization of our business concurrent with our acquisition of AMICAS.

Depreciation, Amortization and Impairment

Depreciation, amortization and impairment expense increased \$5.4 million, to \$10.2 million in 2011 from \$4.8 million in 2010, primarily due to the acquisition of AMICAS as well as a \$2.8 million charge for the impairment of trade names associated with certain products upon completion of a product rebranding initiative in the second quarter of 2011.

Other Expense, Net

Net other expense increased \$11.7 million, to \$22.5 million in 2011 from \$10.8 million in 2010. In 2011 we incurred \$21.1 million of interest expense and amortization of issuance costs and note discount associated with our Notes and \$1.5 million in debt issue costs related to the additional \$52 million in Notes issued in June 2011. In 2010, we incurred \$10.9 million of interest expense and amortization of issuance costs and note discount associated with the Notes.

Index

Income Tax Expense

In 2011, we recorded income tax expense of \$2.6 million. The effective tax rate for 2011 differs significantly from the statutory rate primarily due to non-cash income tax expense being recorded for profitable foreign operations that cannot be offset by unprofitable U.S. domestic operation losses and deferred tax assets which require a full valuation allowance, non-cash deferred income taxes related to indefinite lived assets and uncertain tax position benefits recognized due to statute of limitation expirations. The effective tax rate for 2010 differed from the statutory rate primarily due to the effect of changes in valuation allowances in both our primary foreign and domestic tax jurisdictions. Our expected effective income tax rate is volatile and may move up or down with changes in, among other items, operating income and the results of changes in tax laws and regulations of the U.S. and the foreign jurisdictions in which we operate.

Liquidity and Capital Resources

Our cash and cash equivalents were \$44.7 million at September 30, 2011, an increase of approximately \$3.7 million, or 8.9%, from our balance of \$41.0 million at December 31, 2010. In addition, our working capital was \$45.3 million at September 30, 2011, an increase of \$16.5 million from our working capital of \$28.8 million at December 31, 2010.

The change in cash and cash equivalents, including restricted cash, during the nine month periods ended September 30, 2011 and 2010 is attributed to the following factors:

Operating Cash Flows

As set forth in the consolidated statement of cash flows, cash provided by operating activities was \$5.9 million in 2011, compared to \$6.7 million in 2010. The net loss in 2011 of \$4.3 million includes non-cash expenses of \$29.8 million, which were offset by changes in operating assets and liabilities in 2011 that reduced operating cash flows by \$19.6 million.

In addition to the payments related to restructuring initiatives as noted in the table above, we have remaining payments as of September 30, 2011 of \$1.7 million.

Investing Cash Flows

In the nine months ended September 30, 2011, we paid \$0.5 million for insignificant acquisitions, net of cash received, and purchased \$1.6 million in fixed assets, offset by a \$0.9 million decrease in restricted cash.

Index

Financing Cash Flows

In June 2011, we issued \$52.0 million in additional Notes at 103.0% of the principal amount with terms identical to the existing Notes. Prior to issuance, we received consents from the majority of holders of existing Notes to amend the Indenture to allow us to incur the additional indebtedness. As consideration for the consents, we paid \$1.5 million in consent fees from the proceeds of the Notes. The proceeds of these additional Notes were used to redeem and retire our Series A Preferred Stock at the face value of \$41.8 million and to pay associated dividends of \$7.3 million. In the nine months ended September 30, 2011, we also received \$0.9 million in proceeds from the exercise of stock options and shares purchased under the employee stock purchase plan. In August 2011, we repaid \$4.6 million of outstanding debt obligations assumed from our acquisition of OIS.

Contractual Obligations

Total outstanding commitments as of September 30, 2011 were as follows (in thousands):

Contractual Obligations	Total	Payment due by period			
		Less than 1 Year	1 – 3 Years	3 – 5 Years	More than 5 Years
Operating leases	\$ 21,180	\$ 4,641	\$ 4,846	\$ 3,240	\$ 8,453
Capital leases (including interest)	523	188	311	24	-
Notes payable (including interest)	370,440	29,610	59,220	281,610	-
Total	\$ 392,143	\$ 34,439	\$ 64,377	\$ 284,874	\$ 8,453

The above obligations include lease payments involving facilities that we use and those we have either ceased to use or previously abandoned.

Except for restricted cash of \$0.7 million (primarily letters-of-credit related to our leased facilities) and a \$0.8 million guarantee to a lender on behalf of a customer of ours at September 30, 2011, we do not have any other significant long-term obligations, contractual obligations, lines of credit, standby letters of credit, guarantees, standby repurchase obligations or other commercial commitments.

General

We believe our current cash and cash equivalent balances will be sufficient to meet our operating, financing and capital requirements through at least the next 12 months, including interest payments due under the Notes. However, any projections of future cash inflows and outflows are subject to uncertainty. In the event that it is necessary to raise additional capital to meet our short term or long term liquidity needs, such capital may be raised through additional debt, equity offerings or sale of certain assets. If we raise additional funds through the issuance of equity, equity-related or debt securities, such securities may have rights, preferences or privileges senior to those of our common stock. Furthermore, the number of shares of any new equity or equity-related securities that may be issued may result in significant dilution to existing shareholders. In addition, the issuance of debt securities could increase the liquidity risk or perceived liquidity risk that we face. We cannot, however, be certain that additional financing, or funds from asset sales, will be available on acceptable terms. If adequate funds are not available or are not available on acceptable terms, we will likely not be able to take advantage of opportunities, develop or enhance services or products or respond to competitive pressures. Any projections of future cash inflows and outflows are subject to uncertainty. In particular, our uses of cash in 2011 and beyond will depend on a variety of factors such as the costs to implement our business strategy, the amount of cash that we are required to devote to defend and address any

regulatory proceedings, and potential merger and acquisition activities.

For a more detailed description of risks and uncertainties that may affect our liquidity, see Item 1A., "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2010.

Material Off Balance Sheet Arrangements

We have no material off balance sheet arrangements.

Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations are based upon our unaudited condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these condensed consolidated financial statements requires our management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, our management evaluates these estimates. We base our estimates and judgments on our experience, our current knowledge (including terms of existing contracts), our beliefs of what could occur in the future, our observation of trends in the industry, information provided by our customers and information available from other sources. Actual results may differ materially from these estimates.

Index

We have identified the following accounting policies and estimates as those that we believe are most critical to our financial condition and results of operations and that require management's most subjective and complex judgments in estimating the effect of inherent uncertainties: revenue recognition, allowance for sales returns and doubtful accounts, intangible assets and goodwill, share-based compensation expense, income taxes, guarantees and loss contingencies. There have been no significant changes in the quarterly period ended September 30, 2011 in our method of application of these critical accounting policies. For a complete description of our critical accounting policies, please refer to Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Policies" in our Annual Report on Form 10-K for the year ended December 31, 2010.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

Our cash and cash equivalents are exposed to financial market risk due to fluctuations in interest rates, which may affect our interest income. As of September 30, 2011, our cash and cash equivalents included money market funds and short term deposits totaling \$44.7 million, and earned interest at a weighted average rate of approximately 0.1%. The value of the principal amounts is equal to the fair value for these instruments. Due to the relative short-term nature of our investment portfolio, our interest income is vulnerable to changes in short-term interest rates. At current investment levels, our results of operations would vary by approximately \$0.4 million on an annual basis for every 100 basis point change in our weighted average short-term interest rate. We do not use our portfolio for trading or other speculative purposes.

Foreign Currency Exchange Risk

We have sales and expenses in Canada, China and Europe that are denominated in currencies other than the U.S. dollar and, as a result, have exposure to foreign currency exchange risk. In the event our exposure to foreign currency exchange risk increases to levels that we do not deem acceptable, we may choose to hedge those exposures. We did not enter into any derivative financial instruments to hedge such exposures in 2011 or 2010.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

We evaluated the effectiveness of the design and operation of our disclosure controls and procedures, which were designed to provide reasonable assurance of achieving their objectives, as of September 30, 2011, as required by Rule 13a-15 of the Exchange Act. This evaluation was carried out under the supervision and with the participation of our management, including our principal executive officer and principal financial officer. Based on this evaluation, our principal executive officer and principal financial officer have concluded that, as of September 30, 2011, our disclosure controls and procedures were effective at the reasonable assurance level to ensure (1) that information required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and (2) information required to be disclosed by us in our reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There were no changes with respect to our internal control over financial reporting that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting in the quarterly period ended

September 30, 2011.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

On June 1, 2009, Merge Healthcare was sued in the Milwaukee County Circuit Court, State of Wisconsin, by William C. Mortimore and David M. Noshay with respect to the separation of Mortimore's and Noshay's employment and our subsequent refusal to indemnify them with respect to litigation related to their services as officers of Merge. The plaintiffs allege that we breached their employment agreements, unreasonably refused their requests for indemnification and breached other covenants of good faith and fair dealing. The plaintiffs seek indemnification and unspecified monetary damages. Discovery in this case is on-going. On April 6, 2011, the Milwaukee County Circuit Court rendered a decision in which it concluded that Merge and Mortimore had entered into an oral employment contract on or about June 15, 2006, but the Court did not make any decision as to damages, which damages would be addressed in a later phase of the litigation. On May 9, 2011, Merge appeals the Circuit Court's decision. The appeal is ongoing and the Circuit Court litigation has been stayed pending appeal. We have retained litigation counsel, intend to continue to defend this action vigorously and have filed a counterclaim for fraud, among other claims, against both Mortimore and Noshay. We will also continue to pursue the appeal.

In January 2010, a purported stockholder class action complaint was filed in the Superior Court of Suffolk County, Massachusetts in connection with AMICAS Inc.'s (AMICAS) proposed acquisition by Thoma Bravo, LLC (the "Thoma Bravo Merger"). A second similar action was filed in the same Court in February 2010 and consolidated with the first action. In March 2010, because AMICAS had terminated the Thoma Bravo Merger and agreed to be acquired by us, the Court dismissed the plaintiffs' claims as moot. Subsequently, counsel for the plaintiffs filed an application for approximately \$5 million of attorneys' fees for its work on this case, which fee petition AMICAS opposed. We retained litigation counsel to defend against the fee petition. On December 4, 2010, the Court awarded plaintiffs approximately \$3.2 million in attorneys' fees and costs. AMICAS has filed a notice of appeal from this judgment, and the plaintiffs have cross-appealed. We previously tendered the defense in this matter to our appropriate insurers, which have provided coverage against the claims asserted against AMICAS. After receipt of the Court's attorneys' fee award decision, the applicable insurer denied policy coverage for approximately \$2.5 million of the fee award. We do not believe that the insurer's denial has merit and have retained counsel to contest it. We will vigorously assert all of our rights under our applicable insurance policies, which we believe cover the claims and expenses incurred by AMICAS or us in connection with the fee award. On June 6, 2011, the insurer filed an action against AMICAS and Merge in U.S. District Court for the Northern District of Illinois seeking a declaration that it is not responsible for the \$2.5 million portion of the judgment rendered on December 4, 2010 by the Superior Court of Suffolk County, Massachusetts. Merge filed a counterclaim seeking a declaration that the insurer must pay the full amount of the Superior Court's fee award, plus additional damages. An adverse outcome could negatively impact our operating results and financial condition.

On February 1, 2010, Merge filed a complaint against its former CEO, Richard Linden, and its former CFO, Scott Veech, in the U.S. District for the Eastern District of Wisconsin, seeking a declaration that we do not have to indemnify either Linden or Veech for liabilities they incurred in connection with SEC investigation and enforcement actions and various securities fraud and shareholder derivative litigation. Merge also seeks to recover from both defendants all costs incurred by Merge associated with defending Linden and Veech in those prior actions. On October 15, 2010, the Court concluded that it did not have subject matter jurisdiction over Merge's claims and dismissed the claims in their entirety. The Court rendered no opinion on the merits of Merge's claims. Merge is evaluating its further options with respect to the Scott Veech matter in Wisconsin state court. On February 8, 2011, Merge filed a complaint in the U.S. District Court for the Eastern District of Wisconsin captioned Merge Healthcare Incorporated v. Richard Linden, Case no. 11-CV-001541. On May 4, 2011, Merge and Linden entered into a confidential settlement agreement resolving all claims against Mr. Linden and through which Linden agreed to issue a statement of regret and apology to Merge's Board of Directors and reimburse Merge for a portion of the Company's

legal fees to defend Linden in prior legal actions. Merge believes that it has numerous meritorious claims against Mr. Veech and will continue to pursue these claims, which have not been affected by the settlement with Mr. Linden.

In August, 2010, Merge Healthcare was sued in the Northern District of Texas by the Court-appointed receiver for Stanford International Bank, Ltd. The receiver alleges that Merge was a recipient of a fraudulent conveyance as a result of a Ponzi scheme orchestrated by Robert Stanford and Stanford International Bank, Ltd. (SIBL). Merge is not alleged to have participated in the Ponzi scheme. The receiver's claims arise from the failed acquisition of Emageon, Inc. (Emageon) by Health Systems Solutions, Inc. (HSS), an affiliate of SIBL, in February 2009, which resulted in the payment of a \$9 million break-up fee by HSS, which payment is alleged to have been financed by SIBL. Merge subsequently acquired Emageon as part of our AMICAS acquisition. The complaint seeks to recover the \$9 million payment to Emageon, plus interest, costs, and attorneys' fees. We have retained litigation counsel and intend to vigorously defend this action. We have filed a motion to dismiss the complaint. That motion has been fully briefed, and we are awaiting a decision from the Court. An adverse outcome could negatively impact our operating results and financial condition.

In addition to the matters discussed above, we are, from time to time, parties to legal proceedings, lawsuits and other claims incident to our business activities. Such matters may include, among other things, assertions of contract breach or intellectual property infringement, claims for indemnity arising in the course of our business and claims by persons whose employment has been terminated. Such matters are subject to many uncertainties and outcomes are not predictable. We are unable to estimate the ultimate aggregate amount of monetary liability, amounts which may be covered by insurance or recoverable from third parties, or the financial impact with respect to these matters as of the date of this report.

Item 1A. Risk Factors

Our operations and financial results are subject to various risks and uncertainties that could adversely affect our business, financial condition, results of operations, and the market price for our common stock. Part I, Item 1A, "Risk Factors" of our Annual Report on Form 10-K for the year ended December 31, 2010 and Part II, Item 1A, "Risk Factors" of our Quarterly Report on Form 10-Q for the quarter ended June 30, 2011 include detailed discussions of these factors and these factors have not changed materially from those included in the Form 10-K and Form 10-Q.
