NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

GENERAL

Advance Technologies, Inc. and Subsidiary (the Company) has elected to omit substantially all footnotes to the financial statements for the three months ended December 31, 2005 since there have been no material changes (other than indicated in other footnotes) to the information previously reported by the Company in their Annual Report filed on Form 10-KSB for the fiscal year ended September 30, 2005.

UNAUDITED INFORMATION

The information furnished herein was taken from the books and records of the Company without audit. However, such information reflects all adjustments which are, in the opinion of management, necessary to properly reflect the results of the interim period presented. The information presented is not necessarily indicative of the results from operations expected for the full fiscal year.

RESTATEMENT

Subsequent to filing its Form 10-KSB for the year ended September 30, 2005, the Company discovered that (1) its revenues had been recorded on a cash basis rather than accrual, (2) its revenues had not been recorded net of discounts, and (3) officer and director compensation had not been accrued. Shortly, the Company intends to file an amended Form 10-KSB for the year ended September 30, 2005. The restatement had the following effects on the amounts presented herein:

	September 30, 2005 Balance Sheet		
	Before Restatement	After Restatement	Difference
Accounts receivable	\$ -	\$ 6,600	\$ 6,600
Current assets	2,934	9,534	6,600

Edgar Filing: ADVANCE TECHNOLOGIES INC - Form 10QSB

ITEM 2. MANAGEMENT & DISCUSSIONS

MAJOR ACTIVITY

Highlights of First Quarter

The NBAA annual show in October allowed Kollsman to put on display their new initiatives in Enhanced Vision and related markets. Advance Technologies Inc. directs the interested reader to Kollsman.com PR's releases. At the same time Gulfstream unveiled their plans for a smaller light weight Corporate Business Jet aimed for a smaller passenger market. We refer the reader to the Press Releases at Gulfstream.com.

The Niteagle program took an important step forward with the signing

Edgar Filing: ADVANCE TECHNOLOGIES INC - Form 10QSB

of a license agreement with a new Nevada corporation (RVS). AVTX will be providing RVS support under the terms of the agreement. The ATI-RVS License agreement is incorporated in this quarterly report as Exhibit 33.

ATI has secured a provisional patent application for our new Infrared Security System (ISS) project. With the protection of our intellectual property ATI has been contacting parties which may have an interest in active participation. All contacts to date are preliminary and confidential.

Enhanced Vision System (EVS)

Enhance Vision System, our first project; has entered production. Advance Technologies benefits through a license agreement with Kollsman Inc.

Kollsman has issued a detailed report of all sales and deliveries through December 31, 2005. The EVS market continues to develop on schedule. Sales are increasing but at a modest rate.

The agreement between Kollsman and FedEx is proceeding with the EVS being slated for operation on all of FedEx's wide-body aircraft. See Kollsman.com for additional details.

NITEAGLE

The NITEAGLE Project will be transferred to RVS in early 2006 under the terms of the ATI-RVS License Agreement.

OTHER DEVELOPMENT ACTIVITIES

Advance Technologies Inc. continues development activities on new Infrared systems for commercial markets. These projects cannot be forecast with any degree of certainty and all strategic partnerships or business arrangements remain confidential until such time as a formal announcement is appropriate without compromising the development plan and/or the application market.

Page 6

Recreational Vehicles Systems (RVS)

Advanced Technologies signed a licensing agreement with Recreational Vehicle Systems (RVS), a Nevada Corporation. Under terms of the agreement Adv-Tech will provide technical know-how and development support to RVS to develop an Infrared Imaging System for the license field of Recreational Vehicles. In consideration for our technical support and certain licensed technical property rights ATI will receive a royalty on each unit sold. No sales are projected before late 2006 or early 2007. The terms of the agreement specify \$300.00 per system sold for a period of ten years initiated by the first sale.

Medical Systems

The sale of 50 NVS cameras to United Integrated Services (UIS, a Taiwan Corporation) under an export license granted by the United States Commerce Department is still pending. UIS as indicated their desire to complete this sale before the export license expires in June 2006. We believe there is less than a 50% chance that UIS will be able to comply with the license requirements prior to the expiration date. Revenue impact is negligible.

Edgar Filing: ADVANCE TECHNOLOGIES INC - Form 10QSB

Infrared Security System (ISS)

A provisional patent pending has been obtained for our Infrared Security System. This protection for our intellectual property rights will allow us to aggressively engage in discussion with potential partners and customers. Preliminary discussions have been initiated.

OPERATIONS

In 2006 Advance Technologies will be establishing our headquarters in Woodland Texas. The Board of Directors has instructed the CEO to initiate a review of our operations to ascertain our future needs. Our primary source of future income will be through our licensing agreements. Our development activities are being conducted in concert with strategic partners, relying upon their capital resources. Recommendations on how to best optimize shareholder value will be formulated and presented to the Board in the near future.

The development activity at Adv-Tech has shifted from internal hardware based R&D activity to external technical marketing with potential partners. This shift has been created by Infrared Imaging Cameras and Systems moving from high technology to more of a commodity or production component. The system application and embedded application software represents most of the future opportunities for Advance Technologies.

DIRECTORS, EXECUTIVE OFFICERS AND SIGNIFICANT EMPLOYEES.

(a) Directors and Executive Officers

Name	Age	Position
Gary E. Ball	68	CEO, President, and Director
Gary L. Bane	67	Director (1)
James Watson	57	Director (2)

- (1) Became a director on October 1, 2004.
- (2) Became a director on January 1, 2005.

(b) Qualifications

Mr. James Watson has joined Advance Technologies Board of Directors. Mr. Watson's extensive experience as Director of Marketing for Western Airlines will provide valuable sight into marketing issues affecting the entry of EVS into the passenger segment of commercial aviation. Mr. Watson's term with the Board will begin January 1, 2005.

Mr. JAMES R. WATSON

Sales, Marketing and General Management Executive with over twenty-

Edgar Filing: ADVANCE TECHNOLOGIES INC - Form 10QSB

five years experience in managing a wide range of marketing, sales and operations functions designed to create or expand domestic and international sales opportunities.

CALIFORNIA MANUFACTURING TECHNOLOGY CONSULTING, Gardena, California, 1999-Present, Vice President Operations 2001-Present

He was responsible for marketing, sales, consulting services and the development of delivery tools and services. Re-directed the organization from a service to industry "Go to Market" strategy by establishing teams for the Aerospace & Defense and Distribution industry.
