ZONE4PLAY INC. AND ITS SUBSIDIARIES (A development stage company)

NOTE 1:- GENERAL

a. Zone4Play Inc. ("the Company") was incorporated under the laws of the State of Nevada on April 23, 2002 as Old Goat Enterprises, Inc. On February 1, 2004, the company acquired Zone4Play, Inc. ("Zone4Play (Delaware)"), which was incorporated under the laws of the State of Delaware on April 2, 2001, and subsequently changed the Company name to Zone4Play, Inc., a Nevada corporation. The Company develops and markets interactive games applications for Internet, portable devices and interactive TV platforms.

The Company conducts its operations and business with and through its wholly-owned subsidiaries, Zone4Play Limited, an Israeli corporation incorporated in July 2001, which is engaged in research and development and marketing of the applications, Zone4Play (UK) Limited, a United Kingdom corporation, incorporated in November 2002, which is engaged in marketing of the applications.

The Company's shares are currently traded on the OTC Bulletin Board under the trading symbol "ZFPI.OB."

b. Acquisition of Zone4Play (Delaware):

According to the agreement between the Company and Zone4Play (Delaware), the Company issued 10,426,190 Common stock to the former holders of equity interest in Zone4Play (Delaware).

The acquisition has been accounted for as a reverse acquisition, whereby the Company was treated as the acquiree and Zone4Play (Delaware) as the acquirer, primarily because Zone4Play (Delaware) shareholders owned a majority, approximately 58% of the Company's Common stock, upon completion of the acquisition. Immediately prior the consumption of the transaction Zone4play Inc. had no material assets and liabilities, hence the reverse acquisition is treated as a capital stock transaction in which Zone4Play (Delaware) is deemed to have issued the Common stock held by the Company shareholders for the net assets of the Company. The historical financial statements of the Company became the historical financial statements of Zone4Play (Delaware).

Company History

Zone4Play, Inc. (hereinafter referred to as "Zone4Play", "the Company", "us" or "we") is a corporation duly organized under the laws of the State of Nevada on April 23, 2002, as Old Goat Enterprises, Inc. ("Old Goat"). On February 1, 2004, we acquired Zone4Play, Inc., a Delaware corporation ("Zone4Play Delaware"), through a reverse purchase acquisition. The acquisition has been accounted for as a reverse acquisition, whereby Old Goat was treated as the acquiree and Zone4play Delaware as the acquiror. The historical financial statements of Zone4play Delaware became our historical financial statements, and the assets and liabilities of Old Goat are accounted for as required under the purchase method of accounting. The results of operations of Old Goat are included in the financial statements from February 1, 2004, the effective date of the acquisition. We conduct our operations and business with and through Zone4Play Delaware's wholly owned subsidiaries, Zone4Play Limited, an Israeli Corporation incorporated in July 2001, and Zone4Play (UK) Limited, a United Kingdom corporation incorporated in November 2002. Our shares of common stock are currently traded on the OTC Bulletin Board under the trading symbol "ZFPI."

Our Business

We develop interactive games technology that provides an end-to-end solution for multiple platforms that allows service providers to deliver games to their subscribers. Our customers include cable and satellite television service providers, wireless operators, Internet services providers and hospitality service providers. Among our customers are AVAGO TV (Sky UK), NTL (UK), Telewest (UK), Cablevision (US), Lodgenet (US), and RCN (US).

Our technology allows service providers to generate additional revenue from their existing infrastructure and subscriber base by launching additional services quickly. Our technology allows a subscriber to switch from one platform to another using a single account with the same virtual account balance and user information. To our knowledge, our technology is unique in its ability to utilize a single account to play a game on different platforms, such as interactive TV, wireless or Internet. With this capability, our technology increases the variety of services that our customers can offer, which can help reduce subscriber turnover.

10

Our customers typically enter into revenue-share agreements with us under which they use our technology to offer games to their subscribers and pay us a percentage of the revenues or income generated from those games.

We devote substantially all of our efforts toward conducting research, development and marketing of our software. In the course of these activities, we

have sustained operating losses and expect such losses to continue in the foreseeable future. To date, we have not generated sufficient revenues to achieve profitable operations or positive cash flow from operations. On September 30, 2004, we had an accumulated deficit of \$1,840,556. There is no assurance that profitable operations, if ever achieved, will be sustained on a continuing basis. During the nine months ended September 30, 2004, we derived 78% of our revenues from three major customers.

Results of Operations - Three and Nine Months Ended September 30, 2004 Compared to Three and Nine Months Ended September 30, 2004

Revenues and Cost of Revenues

Total revenues for the nine months ended September 30, 2004 increased by 30% to \$628,883 from \$482,940 for the nine months ended September 30, 2003. Total revenues for the three months ended September 30, 2004 increased by 145% to \$140,364 from \$57,277 for the three months ended September 30, 2003. Revenues from sales of software applications for the nine months ended September 30, 2004 increased by 321% to \$432,883 from \$102,940 for the nine months ended September 30, 2003. Revenues from sales of software applications for the three months ended September 30, 2004 increased by 145% to \$140,364 from \$57,277 for the three months ended September 30, 2003. Revenues from one-time sales of software applications to related parties decreased by 48% to \$196,000 in the nine months ended September 30, 2004 compared to \$380,000 in the same period in 2003. For the three months ended September 30, 2004 and 2003, revenues from one-time sales of software applications to related parties were \$0. The increase in revenues from software applications was due to new contracts, mainly in the United Kingdom. Also, in 2004, we had revenues from United States customers, such as Cablevision, Lodgenet, and RCN, which we did not have in 2003. The revenues from one time sale of software applications to related parties in 2004 are from the delivery of software to related parties from order that were placed during 2002. Going forward, we expect that revenues from sale of software applications to related parties will be nominal.

Cost of revenues for the nine months ended September 30, 2004 decreased by 37% to \$113,296 from \$180,637 for the nine months ended September 30, 2003. Cost of revenues for the three months ended September 30, 2004 increased by 64% to \$13,372 from \$8,154 for the three months ended September 30, 2003. Gross profit increased by 71% for the nine months ended September 30, 2004 to \$515,587 from \$302,303 for the same period in 2003. For the three months ended September 30, 2004, gross profit increased by 159% to \$126,992 when compared to gross profit of \$49,123 for the three months ended September 30, 2003. The decrease in cost of revenues for the nine months ended September 30, 2004 is mostly attributable to a one-time software application agreement, which included customization of the software, which required allocation of employees of our R&D department. As a result, some R&D expenses were allocated to cost of sales. The increased cost of revenues for the three months ended September 30, 2004 is a result of hosting expenses allocation.

Research and Development

Research and development expenses for the nine months ended September 30, 2004 increased by 137% to \$812,436 from \$342,154 for the nine months ended September 30, 2003. Research and development expenses for the three months ended September 30, 2004 increased 120% to \$358,915 from \$162,821 for the three months ended September 30, 2003. The increase in research and development expenses is primarily attributable to an increase in employee recruiting during 2003 and 2004, an increase in salary expenses and expenses allocated to sale of software due to the fact that in the 2nd quarter of 2004, there were no sales of software applications, no expenses allocated to the cost of sales, and the research and

development costs increased.

Sales and Marketing

Sales and marketing expenses for the nine months ended September 30, 2004 increased by 261% to \$293,563 from \$81,221 for the nine months ended September 30, 2003. Sales and marketing expenses for the three

11

months ended September 30, 2004 increased by 221% to \$142,012 from \$44,263 for the three months ended September 30, 2003. The increase in sales and marketing expenses during 2004 are a result of increased marketing efforts, mainly in the United Kingdom and the United States, using our Israeli marketing team. Sales and marketing expenses consist mainly of labor costs, trade shows and travel expenses to the United Kingdom and to the United States.

General and Administrative

General and administrative expenses for the nine months ended September 30, 2004 increased by 238% to \$277,726 from \$82,074 for the nine months ended September 30, 2003. General and administrative expenses for the three months ended September 30, 2004 increased by 727% to \$139,441 from \$16,867 for the three months ended September 30, 2003. The increase in general and administrative expenses is primarily attributable to the recruitment of employees, additional legal and audit expenses associated with being a reporting company with the U.S. Securities and Exchange Commission and investor relations expenses.

Net Loss and Net Loss Per Share

For the three and nine months ended September 30, 2004, we incurred a net loss of \$525,213 (\$0.026 per share) and \$890,204 (\$0.049 per share), respectively. This compares with a net loss for the three and nine months ended September 30, 2003 of \$202,183 (\$0.019 per share) and \$240,936 (\$0.023 per share), respectively. The increased net loss is primarily attributable to increased operating expenses and due to the fact that the weighted average number of shares of common stock outstanding at September 30, 2003 were only 10,426,190 shares, versus 18,262,350 at September 30, 2004.

Our management believes that we have sufficient funds to operate for the next 12 months, with additional funds anticipated from the performance of agreements that we have entered with our current customers, and from future contracts that we expect to execute in the near future. Nonetheless, we intend to raise additional funds in order to broaden our financial strength and liquidity.

Outlook

We believe that our future success will depend upon our ability to enhance our existing products and solutions and introduce new commercially viable products and solutions addressing the demands of the evolving markets. As part of the product development process, we work closely with current and potential customers, distribution channels and leaders in our industry segments to identify market needs and define appropriate product specifications. Our current anticipated levels of revenue and cash flow are subject to many uncertainties and cannot be assured. In order to have sufficient cash to meet our anticipated requirements for the next twelve months, we may be dependent upon our ability to obtain additional financing. The inability to generate sufficient cash from operations or to obtain the required additional funds could require us to curtail operations.
