The Company has been engaged in the integration of the operating assets and related business of a company it acquired on February 18, 2005 and the filing of the required financial statement and pro forma information on Form 8-K/A with the Commission on May 9, 2005 in connection therewith, which has caused delays in the finalization of the Company's financial results. The completion of the Form 10-Q has been delayed by the integration of the operating assets and related business of a company it acquired on February 18, 2005 and the filing of the required financial statement and pro forma information on Form 8-K/A with the Commission on May 9, 2005 in connection therewith. The Company expects to file a press release in conjunction with the filing of the Form 10-Q and to hold a conference call with the Company's shareholders, investors and other interested parties shortly thereafter.

An explanation of the various factors contributing to the change in results of operation for the corresponding periods, will be discussed in the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operation" in the Form 10-Q. This discussion will include an explanation of the costs and expenses related to the acquisition and integration of the transaction completed by the Company on February 18, 2005, and the write-off and accelerated depreciation of accounting and information software in connection with changes in the Company's information technology infrastructure, which items factored materially into the anticipated net loss of \$1.349 million reported in the Form 12b-25.
