PART I

ITEM 1. DESCRIPTION OF BUSINESS

Background

Edgar Filing: ATLANTIC WINE AGENCIES INC - Form 10KSB

We are a Florida corporation formed on April 8, 2001. We were organized to be a blank check company.

On December 16, 2003, Rosehill Investments Limited, a Seychelles corporation ("Rosehill"), acquired 11,937,200 shares of New England Acquisitions, Inc.'s ("Company") Common Stock ("Shares") pursuant to a Stock Purchase Agreement among Rosehill, the Company, Mr. Jonathan B. Reisman and Mr. Gary Cella (the "Agreement"). The Agreement provided for the Shares to be sold as follows: 9,234,520 shares from the Company; 1,379,600 shares from Mr. Reisman; and 1,323,100 shares from Mr. Cella. As a result of the stock sale, the Directors of the Company resigned and ultimately Mr. Harry Chauhan was appointed as the sole officer and director.

At that time there were 12,552,395 shares of common stock issued and outstanding.

On January 13, 2004, the Company amended its Articles of Incorporation to change its name from New England Acquisitions, Inc. to Atlantic Wine Agencies Inc.

On February 9, 2004, the Company's directors resigned and Mr. Harry Chauhan was appointed as the Company's sole Director and its President.

On March 1, 2004 the Company completed a 1-for-200 reverse capitalization without affecting the par value or authorized number of shares.

On May 4, 2004 the Company acquired all of the issued and outstanding shares of New Heights 560 Holdings LLC, a Cayman Islands limited liability corporation ("New Heights"), in exchange for One Hundred Million shares of its restricted common stock which is equal to 99.9% of the total outstanding shares of the Company's common stock (this transaction shall be referred to as the "Share Exchange"). New Heights owned the property in South Africa on which our vineyard operations are located.

Prior to the Share Exchange, the Company was engaged in the business of manufacturing and distributing various skin creams and generated minimal revenues as a result.

Present

As a result of the Share Exchange, the Company now has two wholly owned subsidiaries, Mount Rozier Estates (Pty) Limited and Mount Rozier Properties (Pty) Limited. Such companies own a world class vineyard in the Stellenbosch region of Western Cape, South Africa. The vineyard and surrounding properties consist of 105 hectares of arable land for viticultural as well as residential and commercial purposes. In the opinion of the management the site is a world class site in terms of location, soil composition and future development potential.

Mount Rozier Estates (Pty) Limited and Mount Rozier Properties (Pty) Limited produces top end quality wines on a boutique vineyard basis. We intend to become a notable producer of quality wines from South Africa by further: (i) developing and expanding our wine cellars through better crop management; (ii) enhancing our strategic distribution channels with Atlantic Wine Agencies Limited; and (iii) brand development efforts.

The launch of the wines under new patent branded labeling and marketing occurred in the fourth fiscal quarter of 2004 in South Africa and the United Kingdom. However, we anticipate a steady growth of sales to occur during the remaining quarters of the calendar year 2005.

Edgar Filing: ATLANTIC WINE AGENCIES INC - Form 10KSB

Our wines were initially issued in three tiers: Mount Rozier a top quality premium brand; Rozier Bay a mid price range wine; Rozier Reef and a mass market product. Such wines have received several significant awards recently and we are building a regional route to market for sales which is on target with our early internal projections.

In September 2004, Mr. Adam Mauerberger became President of the Company and Chairman of the Board. Also in September the Company hired Mr. Andy Bayley to be the Senior Vice President of Sales and Marketing.

Atlantic Wine Agencies Ltd. has also contracted the services of Mr. Christopher Burr a wine master internationally respected for his opinion and knowledge of wines and a former managing director of Christies Auction House in London, as well as hired a specialist wine maker, a professional viticulturalist and an experienced estate manager.

Dominion Exchange Transaction

On September 16, 2004, in exchange for 20,000,000 shares of our common stock and payments of AUD\$3,360,000 ("Shareholder Loan") among other consideration, we entered into an agreement to acquire all of the shares of two Australian companies, Dominion Estates Pty Ltd and Dominion Wines Ltd (collectively, "Dominion Entities") which we believed would enhance our presence in Australia and our ability to further deliver a high quality product locally in Australia ("Dominion Exchange Transaction"). In order to make the AUD\$3,360,000 payment to the Dominion Entities, the Company had to borrow such funds from a shareholder of the Company. As a result of the anticipated success of the Dominion Exchange Transaction, on October 26, 2004, the Company added Messrs. Andy Bayley and Carl Voss to its Board of Directors.

Over the course of the 6 months following September 2004, our independent auditor along with the Dominion Estates local auditor were unable to complete audits on the Dominion Entities as required by the United States Federal Securities Laws due to a lack of accurate record keeping and supporting valuations by local management. In addition to the aforementioned issues, the Company's management concluded that the value of the assets of the Dominion Entities were unclear and that a substantial charge over the assets of one of those enterprises, by a local law firm, had not been discharged post-settlement in contravention to the Company's understanding. The Company's management believed a material breach of the Share Exchange Agreement governing the Dominion Share Exchange had occurred, but the prudent course of action was to attempt to facilitate a settlement if at all possible with the seller of the Dominion Entities rather than litigate.

As a stop gap measure, the Company placed one of the Dominion Entities, Dominion Estates Pty Ltd ("Dominion Estates") into voluntary administration in Australia with the hope that a local administrator would be successful in clarifying the true financial status of Dominion Estates and effecting the desired settlement. As a result of the failed Dominion Exchange Transaction, the Company's shareholders determined that a change of management was required and Messrs. Harry Chauhan and Carl Voss tendered their resignations in March of 2005.

The 20,000,000 shares of the Company issued in the Dominion Exchange Transaction are now held in Escrow by United States counsel to the Dominion Entities and we anticipate effecting the settlement shortly whereby: (i) the 20,000,000 shares will be returned to the Company and subsequently cancelled, (ii) the Shareholder Loan will be forgiven; and (iii) The Company will be released from any and all liabilities related to the Dominion Entities. In the event the settlement transaction is not effected we will take all necessary steps to cancel the 20,000,000 shares of the Company issued pursuant to the Dominion Exchange

Edgar Filing: ATLANTIC WINE AGENCIES INC - Form 10KSB

Transaction and recover all sums loaned to the Dominion Entities including legal and accounting expenses incurred in the United States and abroad.

ITEM 2. DESCRIPTION OF PROPERTY

Around 20 hectares of land are under wine currently which will increase to around 60 hectares. The property is located next to a site owned by a wine farm, known as Vergelegen Estate.

Access to the farm is by way of a servitude road which is a common road, which is served and serviced by all the farms in the vicinity, therefore can be classed as a common access road.

ITEM 3. LEGAL PROCEEDINGS

Other than as disclosed below, the Company is not a party to any material pending legal proceedings or government actions, including any bankruptcy, receivership, or similar proceedings. Management of the Company does not believe that there are any proceedings to which any director, officer, or affiliate of the Company, any owner of record of the beneficially or more than five percent of the common stock of the Company, or any associate of any such director, officer, affiliate of the Company, or security holder is a party adverse to the Company or has a material interest adverse to the Company.

The Company's estate manager, Mr. Dave Lyddell, who resigned during the reporting period under claimed duress has threatened to take action against the Company's South African subsidiaries for lost salary and other damages in the event that a settlement cannot be reached. However, although we believe that a settlement with Mr. Lyddell is likely, we are prepared to vigorously defend ourselves if necessary.

As referenced above in connection to the Dominion Exchange Transaction, the Company has retained counsel in Australia as well as the United States to prepare a litigation strategy against all related Dominion Entities' parties in the event that the anticipated settlement transaction does not occur in a timely manner.

It should be noted that this Management's Discussion and Analysis of Financial Condition and Results of Operations may contain "forward-looking statements." The terms "believe," "anticipate," "intend," "goal," "expect," and similar expressions may identify forward-looking statements. These forward-looking statements represent the Company's current expectations or beliefs concerning future events. The matters covered by these statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those set forth in the forward-looking statements, including the Company's dependence on weather-related factors, introduction and customer acceptance of new products, the impact of competition and price erosion, as well as supply and manufacturing restraints and other risks and uncertainties. The foregoing list should not be construed as exhaustive, and the Company disclaims any obligation subsequently to revise any forward-looking statements to reflect events or circumstances after the date of such statements, or to reflect the occurrence of anticipated or unanticipated events. In light of the significant uncertainties inherent in the forward-looking information included herein, the inclusion of such information should not be regarded as a representation that the strategy, objectives or other plans of the Company will be achieved. The Company wishes to caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made.

RESULTS OF OPERATIONS

We are currently in the early stages of our first sales cycle and have generated \$120,913 to date. Our activities from inception through the second quarter of fiscal 2004 were related to our formation, preparation of our business model, arranging and planning financing, developing our business model and acquiring the rights to various properties as well as growing and harvesting our grapes. During the third and fourth quarters of fiscal 2004 we began the production and consequent bottling of our wines.

We have financed our operations to date through loans made to us by our shareholders and their affiliates.

Operating costs for the year ended March 31, 2005 aggregated \$1,384,657 or (0.01) per share as compared to \$1,189,165 or (0.01) per share for the year ended March 31, 2004.

Our wine distribution began in earnest after the end of the reporting period and we anticipate significant sales during the following quarters as a result of our increased presence in the marketplace.

LIQUIDITY AND CAPITAL RESOURCES

For the year ended March 31, 2005 net cash used to fund operating activities totaled \$(2,377,695), net cash utilized by investing activities totaled \$(330,850) and net cash provided by financing activities totaled \$2,910,668.

From inception through March 31, 2004, net cash used to fund operating activities totaled approximately \$(247,070), net cash utilized by investing activities totaled \$(2,519,672) and net cash provided by financing activities totaled \$2,878,861.

The primary reason for the difference in net cash utilized by investing activities was the acquisition of property and equipment occurring in the year ended March 31, 2004 to which we did not have a corresponding activity for the year ended March 31, 2005.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The Company's discussion and analysis of its financial condition and results of operations are based upon the its financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to bad debts, income taxes and contingencies and litigation. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In May 2003, the FASB issued SFAS No. 150, "Accounting for Certain Instruments with Characteristics of Both Liabilities and Equity." This standard requires that certain financial instruments embodying an obligation to transfer assets or to issue equity securities be classified as liabilities. It is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is generally effective July 1, 2003. This standard had no impact on the Company's financial statements.

In December 2002, the FASB issued SFAS No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure - an Amendment to FASB Statement No. 123." SFAS No. 148 amends SFAS No. 123, "Accounting for Stock-Based Compensation," to provide alternative methods for transition to SFAS No. 123's fair value method of accounting for stock-based compensation. As amended by SFAS No. 148, SFAS No. 123 also requires additional disclosure regarding stock-based compensation in annual and condensed interim financial statements. The new disclosure requirements became effective immediately.

Report of Independent Registered Public Accounting Firm

Board of Directors
Atlantic Wine Agencies, Inc. and Subsidiaries
London, United Kingdom

We have audited the accompanying consolidated balance sheets of Atlantic Wine Agencies, Inc. and Subsidiaries as of March 31, 2005 and 2004 and the related consolidated statements of operations, stockholders' equity and cash flows for the year and the month then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of March 31, 2005 and 2004 and the results of its operations and its cash flows for the year ended March 31, 2005 and for the period March 1, 2004 (inception) to March 31, 2005, in conformity with U.S. generally accepted accounting principles.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note A to the consolidated financial statements, the Company has incurred cumulative losses of \$2,812,566 since inception, and there are existing uncertain conditions the Company faces relative to its ability to obtain capital and operate successfully. These conditions raise substantial doubt about its ability to continue as a going concern. Management's plans regarding those matters are also described in Note A. The financial statements do not include any adjustments that might result from the outcome of these uncertainties.

Notes to Consolidated Financial Statements
March 31, 2005

NOTE A SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Business

Atlantic Wine Agencies, Inc., formerly New England Acquisitions, Inc., (the Company), was organized under the laws of the State of Florida. On May 4, 2005, the Company acquired New Heights 560 Holdings, LLC, (New Heights) a Cayman Island Limited Liability Company which owns two subsidiaries in South Africa and has a world class vineyard producing high quality wines to be marketed principally in Europe. New Heights had no operations prior to March 1, 2005.

Reverse Merger

On May 4, 2004, the stockholders of New Heights acquired 100,000,000 shares of Atlantic Wine Agencies, Inc. common stock in an exchange of shares, thereby obtaining control of the Company. Subsequent to the acquisition, New Heights controlled 99% of the outstanding common stock of the Company. In this connection, New Heights became a wholly owned subsidiary of Atlantic Wine Agencies, Inc. and its officers and directors replaced New Heights' officers and directors. Prior to the acquisition, Atlantic Wine Agencies, Inc. was a non-operating public shell corporation. Pursuant to Securities and Exchange Commission rules, the merger or acquisition of a private operating Company into a non-operating public shell corporation with nominal net assets is considered a capital transaction. Accordingly, for accounting purposes, the acquisition has been treated as an acquisition of New Heights by the Company and a recapitalization of Atlantic Wine Agencies, Inc. Since the merger is a recapitalization of Atlantic Wine Agencies, Inc. and not a business combination, pro-forma information is not presented.

Going Concern

As indicated in the accompanying financial statements, the Company has incurred cumulative net operating losses of \$2,812,566 since inception. Management's plans include the raising of capital through the equity markets to fund future operations and the generating of revenue through its business. Failure to raise adequate capital and generate adequate sales revenues could result in the Company having to curtail or cease operations. Additionally, even if the Company does raise sufficient capital to support its operating expenses and generate adequate revenues, there can be no assurances that the revenue will be sufficient to enable it to develop business to a level where it will generate profits and cash flows from operations. These matters raise substantial doubt about the Company's ability to continue as a going concern. However, the accompanying financial

Edgar Filing: ATLANTIC WINE AGENCIES INC - Form 10KSB

statements have been prepared on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. These financial statements do not include any adjustments relating to the recovery of the recorded assets or the classification of the liabilities that might be necessary should the Company be unable to continue as a going concern.

Foreign Currency Translation

Assets and liabilities were translated into US dollars at the period-end exchange rates. Statement of operations amounts were translated using the average rate during the period. Gains and losses resulting from translating foreign

currency financial statements were accumulated in other comprehensive income, a separate component of stockholders' equity.

Cash Equivalents

For purposes of reporting cash flows, cash equivalents include investment instruments purchased with a maturity of three months or less.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Property and Equipment and Depreciation

Property and equipment is stated at cost and is depreciated using the straight line method over the estimated useful lives of the respective assets. Routine maintenance, repairs and replacement costs are expensed as incurred and improvements that extend the useful life of the assets are capitalized. Costs incurred in developing vineyards, including related interest costs, are capitalized until the vineyards become commercially productive. When property and equipment is sold or otherwise disposed of, the cost and related accumulated depreciation are eliminated from the accounts and any resulting gain or loss is recognized in operations. The Company computes depreciation using the straight line method. Leasehold improvements are analyzed over the estimated useful lives

of the improvements.

Inventory

Inventory is valued at the lower of cost or market based on the average cost method.

Revenue Recognition

Revenue from the sale of goods is recognized when the product is shipped.

Consolidated Financial Statements

The consolidated financial statements include the Company and its wholly owned subsidiaries. All significant intercompany transactions and balances have been eliminated in consolidation.

Comprehensive Income (Loss)

SFAS No. 130 establishes standards for the reporting and disclosure of comprehensive income and its components which will be presented in association with a company's financial statements. Comprehensive income is defined as the change in a business enterprise's equity during a period arising from transactions, events or circumstances relating to non-owner sources, such as foreign currency translation adjustments and unrealized gains or losses on available-for-sale securities. It includes all changes in equity during a period except those resulting from investments by or distributions to owners. Comprehensive income is accumulated in accumulated other comprehensive income (loss), a separate component of stockholders' equity.

Business Combinations and Goodwill

In July 2001, the Financial Accounting Standards Board ("FASB") issued SFAS No. 141, "Business Combinations". SFAS No. 141 requires the purchase method of accounting for business combinations initiated after June 30, 2001 and eliminates the pooling-of-interests method.

In July 2001, the FASB issued SFAS NO. 142, "Goodwill and Other Intangible Assets", which the Company adopted during 2003. SFAS No. 142 requires, among other things, the discontinuance of goodwill amortization. In addition, the standard includes provisions for the reclassification of certain existing recognized intangibles as goodwill, reassessment of the useful lives of existing recognized intangibles, reclassification of certain intangibles out of previously reported goodwill and the identification of reporting

Edgar Filing: ATLANTIC WINE AGENCIES INC - Form 10KSB

units for purposes of assessing potential future impairment of goodwill.

In August 2001, the FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets". SFAS No. 144 changes the accounting for long-lived assets to be held and used by eliminating the requirement to allocate goodwill to long-lived assets to be tested for impairment, by providing a probability weighted cash flow estimation approach to deal with situations in which alternative courses of action to recover the carrying amount of possible future cash flows and by establishing a primary-asset approach to determine the cash flow estimation period for a group of assets and liabilities that represents the unit of accounting for long-lived assets to be held and used. SFAS No. 144 changes the accounting for long-lived assets to be disposed of other than by sale by requiring that the depreciable life of a long-lived asset to be abandoned be revised to reflect a shortened useful life and by requiring the impairment loss to be recognized at the date a long-lived asset is exchanged for a similar productive asset or distributed to owners in a spin-off if the carrying amount of the asset exceeds its fair value. SFAS No 144 changes the accounting for long-lived assets to be disposed of by sale by requiring that discontinued operations no longer be recognized at a net realizable value basis (but at the lower of carrying amount or fair value less costs to sell), by eliminating the recognition of future operating losses of discontinued components before they occur, and by broadening the presentation of discontinued operations in the income statement to include a component of an entity rather than a segment of a business. A component of an entity comprises operations and cash flows that can be clearly distinguished operationally, and for financial reporting purposes, from the rest of the entity.

Net Loss Per Common Share

The Company computes per share amounts in accordance with Statement of Financial Accounting Standards ("SFAS") No. 128, "Earnings per Share". SFAS No. 128 requires presentation of basic and diluted EPS. Basic EPS is computed by dividing the income (loss) available to Common Stockholders by the weighted-average number of common shares outstanding for the period. Diluted EPS is based on the weighted-average number of shares of Common Stock and Common Stock equivalents outstanding during the periods.

Stock-Based Compensation

SFAS No. 123, "Accounting for Stock-Based Compensation" prescribes accounting and reporting standards for all stock-based compensation plans, including employee stock options, restricted stock, employee stock purchase plans and stock appreciation rights. SFAS No. 123

Edgar Filing: ATLANTIC WINE AGENCIES INC - Form 10KSB

requires employee compensation expense to be recorded (1) using the fair value method or (2) using the intrinsic value method as prescribed by accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB25") and related interpretations with pro forma disclosure of what net income and earnings per share would have been had the Company adopted the fair value method. The Company accounts for employee stock based compensation in accordance with the provisions of APB 25.

Income Taxes

The Company has adopted Financial Accounting Statement SFAS No. 109, Accounting for Income Taxes. Under this method, the Company recognizes a deferred tax liability or asset for temporary differences between the tax basis of an asset or liability and the related amount reported on the financial statements. The principal types of differences, which are measured at the current tax rates, are net operating loss carry forwards. At March 31, 2005, these differences resulted in a deferred tax asset of approximately \$660,000. SFAS No. 109 requires the establishment of a valuation allowance to reflect the likelihood of realization of deferred tax assets. Since realization is not assured, the Company has recorded a valuation allowance for the entire deferred tax asset, and the accompanying financial statements do not reflect any net asset for deferred taxes at March 31, 2005.

The Company's net operating loss carry forwards amounted to \$2,206,000 which are principally international losses which have no expiration date.

NOTE B RECEIVABLE FROM OFFICER

NOTE F STOCKHOLDERS' EQUITY

On February 14, 2005, the Company entered into a consulting agreement with Benjamin Mauerberger, whose brother Adam Mauerberger, the President of the Company, is deemed to be a related party, to locate a merger partner and consult on all aspects of the merger, to advise the Company on hiring of senior management personnel and to develop growth initiatives for the Company. Compensation for this agreement was the issuance of 4,000,000 shares of the company's common stock valued at \$0.035 per share. On May 27, 2005, the Company filed a registration statement with the Securities and Exchange Commission to register these shares on Form S-8. In connection with the acquisition of Dominion Wines Pty, Ltd See Note H to the financial statements, 500,000 shares of the Company's common stock were issued and will not be returned. Accordingly, stock based compensation has been recorded in the amount of \$250,000.

NOTE H TRANSACTIONS WITH DOMINION WINES PTY, LTD AND DOMINION ESTATES PTY, LTD

On September 14, 2004, the Company entered into an agreement to acquire two Australian companies - Dominion Wines, Pty Ltd and Dominion Estates, Pty Ltd (hereafter referred to as "Dominion"). The terms of the agreement were as follows: (1) the issuance of 20,000,000 shares of the Company's common stock, (2) retire the National Australian Bank loan in the amount of \$2,508,962 (Aus \$3,136,202) (3) arrange for an additional investment of \$179,037 (Aus \$223,797) and (4) assume the Commonwealth Bank of Australia loan in the amount of \$3,265,109 (Aus \$4,081,387).

Subsequent to December 31, 2004, the Company determined that such acquisition was not in its best interest and agreed with Dominion to unwind the transaction. During this period, Dominion borrowed approximately \$3,000,000 from General Electric Credit Australia to replace the Commonwealth Bank of Australia loan and lent \$344,381 to a subsidiary of the Company.

The agreement to unwind the acquisition requires (1) the return of the 20,000,000 shares of Company common stock which is currently held in escrow, (2) the signing of a novation agreement to forgive the \$344,381 note payable by the company's Subsidiary to Dominion, and (3) the issuance of a note to the Company's principal shareholder in the amount of \$2,560,000 (Aus \$3,200,000) for the retirement of the National Australian Bank loan.

At the date of this report, the transaction has been agreed to by the shareholders and management of each company, and is awaiting the securitization of property as collateral for the note agreement to the Company's principal shareholder. Management believes that the transaction will be successfully unwound and accordingly, the assets, liabilities and results of operations for the year ended March 31, 2005 of Dominion have not been included in these consolidated financial statements.
