Edgar Filing: Patient Safety Technologies, Inc - Form NT 10-Q

Patient Safety Technologies, Inc. (the "Company") anticipates that its revenue for the three and six months ended June 30, 2006 is significantly less than its revenue for the three and six months ended June 30, 2005. The decrease in revenue is primarily the result of the transfer to the Company of 500,000 shares of common stock of IPEX, Inc. ("IPEX") in exchange for consulting services rendered by the Company to IPEX during the quarter ended June 30, 2005. The Company anticipates that its operating expenses and net loss for the three and six months ended June 30, 2006 are significantly greater than the expenses and net loss for the three and six months ended June 30, 2005. The increase in operating expenses for the three and six months ended June 30, 2006 when compared to June 30, 2005, was primarily the result of stock based compensation expenses, and to a lesser extent salaries and employee benefits, and interest expense. Net loss increased for the three and six months ended June 30, 2006 compared to the three and six months ended June 30, 2005 primarily as a result of a significant increase in operating expenses.

A reasonable estimate of the results cannot be made at this time due to the fact that the compilation, dissemination and review of the information required to be presented in the Form 10-Q has not been completed.
