Intelli-Check, Inc.

Notes to Financial Statements

(Unaudited)

Note 1. Basis of Presentation and Significant Accounting Policies

Basis of Presentation

The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by generally accepted accounting principles for complete financial statements. In the opinion of management, the unaudited interim financial statements furnished herein include all adjustments necessary for a fair presentation of the Company's financial position at September 30, 2006 and the results of its operations for the nine and three months ended September 30, 2006 and 2005, stockholders' equity for the nine months ended September 30, 2006 and cash flows for the nine months ended September 30, 2006 and 2005. All such adjustments are of a normal and recurring nature. Interim financial statements are prepared on a basis consistent with the Company's annual financial statements. Results of operations for the nine month period ended September 30, 2006 are not

Edgar Filing: INTELLI CHECK INC - Form 10-Q

necessarily indicative of the operating results that may be expected for the year ending December 31, 2006.

The balance sheet as of December 31, 2005 has been derived from the audited financial statements at that date but does not include all of the information and notes required by accounting principles generally accepted in the United States of America for complete financial statements.

For further information, refer to the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2005.

Liquidity

The Company anticipates that its cash on hand, marketable securities and cash resources from expected revenues from the sale of the units in inventory and the licensing of its technology will be sufficient to meet its anticipated working capital and capital expenditure requirements for at least the next twelve months. These requirements are expected to include the purchase of inventory, product development, sales and marketing expenses, working capital requirements and other general corporate purposes. The Company may need to raise additional funds to respond to business contingencies which may include the need to fund more rapid expansion, fund additional marketing expenditures, develop new markets for its ID-Check technology, enhance its operating infrastructure, respond to competitive pressures, or acquire complementary businesses or necessary technologies.

Recently Issued Accounting Pronouncements

In June 2006, the FASB issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes--an interpretation of FASB Statement No. 109 ("FIN 48"), which clarifies the accounting for uncertainty in income tax positions. This Interpretation requires that the Company recognize in the financial statements the impact of a tax position that is more likely than not to be sustained upon examination based on the technical merits of the position. The provisions of FIN 48 will be effective as of the beginning of the Company's 2007 fiscal year, with the cumulative effect of the change in accounting principle recorded as an adjustment to opening retained earnings. The Company is currently evaluating the impact of adopting FIN 48 on the financial statements.

In September 2006, the SEC issued SAB No. 108, Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements ("SAB 108"). SAB 108 requires that registrants quantify errors using both a balance sheet and income statement approach and evaluate whether either approach results in a misstated amount that, when all relevant quantitative and qualitative factors are considered, is material. SAB 108 will be effective for the Company in the fourth quarter of 2006 and is not expected to have a material impact on the Company's financial statements.

In September 2006, the FASB issued FASB Statement No. 157, Fair Value Measurements ("FAS 157"). FAS 157 establishes a single authoritative definition of fair value, sets out a framework for measuring fair value, and expands on required disclosures about fair value measurement. FAS 157 will be effective for the Company on January 1, 2008 and will be applied prospectively. The provisions of FAS 157 are not expected to have a material impact on the Company's financial statements.

Edgar Filing: INTELLI CHECK INC - Form 10-Q

Use of Estimates

The preparation of the Company's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the Company's financial statements and accompanying notes. Significant estimates and assumptions that affect amounts reported in the financial statements include inventory reserves, deferred tax valuation allowances and doubtful accounts and allowances. Due to the inherent uncertainties involved in making estimates, actual results reported in future periods may be different from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include cash and highly liquid investments with original maturities of three months or less when purchased. As of September 30, 2006 and December 31, 2005, cash equivalents included money market funds and other liquid short-term debt instruments (with maturities at date of purchase of three months or less) of \$361,374 and \$467,991, respectively.

Marketable Securities and Short Term Investments

The Company has classified its marketable securities as held-to-maturity because the Company has the intent and ability to hold these securities to maturity. The securities are carried at amortized cost using the specific identification method. Interest income is recorded using an effective interest rate, with the associated premium or discount amortized to interest income. All of the Company's marketable securities have maturities of less than one year with a weighted average interest rate of 4.91%. The carrying value of the marketable securities as of September 30, 2006 approximated their fair market value. Marketable Securities and Short Term Investments include corporate and government bonds and certificates of deposits.

Doubtful Accounts and Allowances

The Company records its doubtful accounts and allowances based upon its assessment of various factors. The Company considers historical experience, the age of the accounts receivable balances, credit quality of the Company's customers, current economic conditions and other factors that may affect customers' ability to pay.

Revenue Recognition and Deferred Revenue

The Company sells its products directly through its sales force and through distributors. Revenue from direct sales of our products is recognized when shipped to the customer and title has passed. The Company's products require continuing service or post contract customer support and performance by it; accordingly, a portion of the revenue pertaining to the service and support is deferred based on its fair value and recognized ratably over the period in which the future service, support and performance are provided, which is generally one year. Currently, with respect to sales of certain of our products, the Company does not have enough experience to identify the fair value of each element, the full amount of the revenue and related gross margin is deferred and recognized ratably over the one-year period in which the future service, support and performance are provided.

In addition, the Company recognizes sales from licensing of its patented software to customers. The Company's licensed software requires continuing service or post contract customer support and performance by it; accordingly, a portion of the revenue is deferred based on its fair value and recognized ratably over the period in which the future service, support and performance are provided, which is generally one year.

Royalties from the licensing of the Company's technology are recognized as revenues in the period they are earned.

Inventory

Inventory is stated at the lower of cost or market and cost is determined using the first-in, first-out method. Inventory is primarily comprised of finished goods.

Inventory Valuation

Our current inventory consists primarily of our ID-Check terminals that we purchased in 1999 and that run our patented software, and input devices purchased in 2006. We periodically evaluate the current market value of our inventory, taking into account any technological obsolescence that may occur due to changes in hardware technology and the acceptance of the product in the marketplace. We have written off the total value of the ID-Check terminals and as of June 30, 2006, we ceased marketing and offering them for sale. A portion of the remaining units in inventory will be held to support existing customers.

Business Concentrations and Credit Risk

The Company recorded revenues for two of its customers which accounted for approximately 43% of total revenues for the nine months ended September 30, 2006. As a result, the balance due from these customers was 53% of accounts receivable as of September 30, 2006, of which the total amount due was collected as of November 6, 2006.

Stock-Based Compensation

On January 1, 2006, the Company adopted SFAS No. 123(R). SFAS No. 123(R) eliminates the option to use the intrinsic value method of accounting that was provided in APB No. 25, which generally resulted in no compensation expense recorded in the financial statements related to the issuance of equity awards to employees. SFAS No. 123(R) requires that the cost resulting from all share based payment transactions be recognized in the financial statements. SFAS No. 123(R) establishes fair value as the measurement objective in accounting for share based payment arrangements and requires all companies to apply a fair value based measurement method in accounting for all share based payment transactions with employees. We adopted SFAS No. 123(R) using a modified prospective application, as permitted under SFAS No. 123(R). Accordingly, prior period amounts have not been restated. Under this application, we are required to record compensation expense for all awards granted after the date of adoption and for the unvested portion of previously granted awards that remain outstanding at the date of adoption.

Prior to the Company's adoption of SFAS No. 123(R), SFAS No. 123 required that the Company provide pro forma information regarding net loss attributable to common stockholders and net loss per common share as if compensation cost for the Company's stock based awards had been determined in accordance with the fair value method prescribed therein. The Company had previously adopted the disclosure portion of SFAS No. 148, "Accounting for Stock Based Compensation - Transition and Disclosure," requiring quarterly SFAS No. 123 pro forma disclosure. The pro forma charge for compensation cost related to stock based awards granted was recognized over the service period. For stock options, the service period represents the period of time between the date of grant and the

Edgar Filing: INTELLI CHECK INC - Form 10-Q

date each option becomes exercisable without consideration of acceleration provisions (e.g., retirement, change of control, etc.).

The following table illustrates the effect on net loss per common share as if the fair value method had been applied to all outstanding awards for the three and nine months ended September 30, 2005.

7

	Three months ended September 30, 2005	Nine months ended September 30, 2005
Net loss attributable to common stockholders, as reported	(\$765,312)	(\$2,714,302)
Add:		
Total stock based employee compensation expense determined under fair value based method for all awards	1,011,171	2,097,915
Net loss, pro forma	(\$1,776,483)	(\$4,812,217)
Basic and diluted loss per share, as reported	(\$0.07)	(\$0.25)
Basic and diluted loss per share, pro forma	(\$0.15)	(\$0.44)

The fair value of the Company's stock-based awards issued to employees prior to 2006 was estimated at the date of grant using the Black-Scholes method, assuming no dividends and using an expected life of 5 to 10 years, volatility of 60% to 90%, and a risk free rate of 2.0% to 5.0%.

The fair value of the Company's stock-based awards issued to employees in the first, second and third quarters of 2006 was estimated at the date of grant using the Black-Scholes method, assuming no dividends and using an expected life of 5 to 10 years, volatility of 50% to 74% and a risk free rate of return of 4.2% to 5.3%.

Beginning with our 2006 fiscal year, with the adoption of SFAS No. 123(R), we included stock based compensation in operating expenses for the cost of stock options. Stock based compensation expense for the three and nine months ended September 30, 2006 was \$156,000 and \$517,000, respectfully.

Under SFAS No. 123(R) the fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model.

In order to retain and attract qualified personnel necessary for the success of the Company, the Company adopted several Stock Option Plans from 1998 through 2004 (and an amendment to the 2004 plan in 2006 pursuant to which the plan was renamed the "2006 Equity Incentive Plan" and amended to provide for the issuance of other types of equity incentives such as restricted stock grants) (collectively, the "Plans") covering up to 3,250,000 of the Company's common shares, pursuant to which officers, directors, key employees and consultants to the Company are eligible to receive incentive stock options and nonqualified stock options. The Compensation Committee of the Board of Directors administers these Plans and determines the terms and conditions of options granted, including the exercise price. These Plans generally provide that all stock options will expire within ten years of the date of grant. Incentive stock

Edgar Filing: INTELLI CHECK INC - Form 10-Q

options granted under these Plans must be granted at an exercise price that is not less than the fair market value per share at the date of the grant and the exercise price must not be less than 110% of the fair market value per share at the date of the grant for grants to persons owning more than 15% of the voting stock of the Company. These Plans also entitle non-employee directors to receive grants of non-qualified stock options as approved by the Board of Directors.

Stock option activity under the Plans during the periods indicated below is as follows:

	Number Of Options(1)	Weighted Average Exercise Price	Aggregate Intrinsic Value
	-----	-----	-----
Outstanding at January 1, 2006	2,764,955	\$6.77	
Granted	115,550	5.94	
Forfeited and expired	(249,000)	8.56	
Exercised	(131,750)	3.50	
	-----	-----	
Outstanding at September 30, 2006	2,499,775	\$6.68	\$1,659,000
	=====	=====	=====

(1) Included in the table are 789,425 non-plan options, of which all options are fully vested.

8

The weighted-average remaining life of the options outstanding at September 30, 2006 is 3.48 years. The per share weighted-average grant-date fair value of the options granted during the nine month period ended September 30, 2006 was \$3.16. As of September 30, 2006, unrecognized compensation expense related to granted and non vested stock options amounted to approximately \$306,000.

As of September 30, 2006, the Company had 2,331,255 options exercisable with a weighted average exercise price of \$6.80. As of September 30, 2006, the Company had 831,811 options available for future grant under the Plans.

The above listing is not intended to be a comprehensive list of all of our accounting policies. In many cases, the accounting treatment of a particular transaction is specifically dictated by generally accepted accounting principles, with no need for management's judgment in their application. There are also areas in which management's judgment in selecting any available alternative would not produce a materially different result.

Note 2. Net Loss Per Common Share

The Company computes net loss per common share in accordance with SFAS No. 128, "Earnings Per Share." Under the provisions of SFAS No. 128, basic net loss per common share is computed by dividing net loss by the weighted average number of common shares outstanding. Diluted net loss per common share is computed by dividing net loss by the weighted average number of common shares then outstanding, but does not include the impact of stock options and warrants then outstanding, as the effect of their inclusion would be antidilutive.

The following table summarizes the additional number of common shares that

Edgar Filing: INTELLI CHECK INC - Form 10-Q

would be outstanding assuming that all the options and warrants that were outstanding as of September 30, 2006 and 2005 had been converted:

	2006	2005
Stock options	2,499,755	2,788,149
Warrants	938,636	1,053,061
Total	3,438,391	3,842,210

Note 3. Investment Firm Relationships

On April 6, 2006, the Company entered into a non-exclusive agreement with an investment banking firm to act as a consultant in advising the Company in various financial and investment related matters. The Company agreed to pay an upfront fee of \$25,000, with all future fees based upon the successful consummation of a transaction.

Effective September 21, 2006, the Company agreed to continue its two (2) year agreement with its public and investor relations firm and modified its payment terms to provide monthly payments of \$6,000 through September 21, 2007. All other terms and conditions remained unchanged.

Note 4. Employment Agreement

Effective January 1, 2006, the Company entered into a letter of understanding with its Chairman and Chief Executive Officer, Mr. Mandelbaum, which provides for an annual base salary of \$256,804. In addition, on November 8, 2005, the Company granted to Mr. Mandelbaum an option to purchase 25,000 shares of common stock at an exercise price of \$3.22 per share. The Company also agreed that if it were to terminate Mr. Mandelbaum for any reason other than cause, it would pay Mr. Mandelbaum two (2) years of base salary in twelve (12) equal monthly installments. Effective January 1, 2007, the Board of Directors increased Mr. Mandelbaum's annual base salary to \$264,000. In addition, the Company will grant Mr. Mandelbaum, on November 16, 2006, an option to purchase 25,000 shares of common stock at an exercise price equal to the closing price on the date of grant.

9

On November 10, 2006, the Company entered into a letter of understanding with its Chief Financial Officer, Mr. Winiarz, which provides for an annual base salary of \$175,000. This agreement will become effective on January 1, 2007. His current employment contract terminates on December 31, 2006. In addition, the Company will grant Mr. Winiarz, on November 16, 2006, an option to purchase 25,000 shares of common stock at an exercise price equal to the closing price on the date of grant. The Company also agreed in the letter of understanding that if it were to terminate Mr. Winiarz for any reason other than cause, it would pay Mr. Winiarz two (2) years of base salary in twelve (12) equal monthly installments.

Note 5. Legal Proceedings

On August 1, 2003, the Company filed a summons and complaint against Tricom Card Technologies, Inc. alleging infringement on its patent and seeking injunctive and monetary relief. On October 23, 2003, the Company amended its complaint to include infringement on an additional patent. On May 18, 2004, the Company filed a Second Amended Complaint alleging infringement and inducement to

Edgar Filing: INTELLI CHECK INC - Form 10-Q

infringe against certain principals of Tricom in their personal capacities, as well as alleging in the alternative false advertising claims under the Lanham Act against all the defendants. The principals moved to dismiss the claims against them, and Tricom moved to dismiss the false advertising claims, which motions have been administratively terminated by the Court. On August 1, 2005, the defendants filed an Answer and Affirmative Defenses to the Second Amended Complaint and Tricom filed a declaratory counterclaim. On November 2, 2005, the Court allowed Tricom to plead two additional defenses and declaratory counterclaims in the case, and on January 3, 2006, the parties filed a Stipulation of Dismissal of the Estoppel and Unenforceability Counterclaims and Affirmative Defenses. On February 28, 2006, the parties filed a Supplemental Proposed Joint Pretrial Order, and on March 1, 2006, the Court certified that fact-discovery in this action was complete. On June 29, 2006, the Court held a pre-motion conference at the request of the Company to discuss the Company's proposed motion to disqualify defendants' counsel for a conflict of interest. Pursuant to the Court's order, the Company served moving papers upon defendants on July 14, 2006 and defendants served opposition to the motion on around July 28, 2006. The Company served a reply to the opposition on August 11, 2006 and filed the motion with the Court. Also, on or about July 21, 2006, defendants filed with the Court a motion for claim construction together with the Company's opposition to defendants' motion and defendants' reply to the opposition. The Court has not scheduled a hearing date for either motion and there is no trial date pending.

We are not aware of any infringement by our products or technology on the proprietary rights of others.

Other than as set forth above, we are not currently involved in any legal or regulatory proceeding, or arbitration, the outcome of which would have a material adverse effect on our business.

Note 6. Stock Options

During January 2006, the Company's Board of Directors approved the cashless exercise of 25,000 options which were converted into 6,204 shares of its common stock for the Company's Chairman and CEO. As a result, the Company recorded the transaction as an adjustment to paid-in capital in accordance with SFAS 123(R).

On March 24, 2006, the board of directors extended the expiration date of 56,500 stock options for one of our directors until February 13, 2007. Such options were originally due to expire May 14, 2006. As a result, we recorded the incremental value of the extension of \$34,350 as a non cash expense during the first quarter ended March 31, 2006, which was calculated in accordance with SFAS 123(R).

In March 2006, one of our consultants returned and cancelled a stock option agreement which the Company issued in February 2002 that granted options to purchase 50,000 shares of common stock at an exercise price of \$12.10. The remaining unamortized balance in deferred compensation of \$82,812 was reversed and offset against additional paid in capital and amortization expense of \$53,317 recorded through December 31, 2005 was recognized as income in the first quarter of 2006.

Note 7. Extension of Rights

In March 2001, the Company declared a dividend distribution of one non-transferable right to purchase one share of its common stock for every 10 outstanding shares of common stock continuously held from the record date to the date of exercise, as well as common stock underlying vested stock options and warrants, held of record on March 30, 2001, at an exercise price of \$8.50. On May 10, 2006, the Board of Directors authorized extending these rights, which

Edgar Filing: INTELLI CHECK INC - Form 10-Q

were due to expire on June 30, 2006 to June 30, 2007.

10

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

(a) Overview

Intelli-Check was formed in 1994 to address a growing need for a reliable document and age verification system that could be used to detect fraudulent driver licenses and other widely accepted forms of government-issued identification documents. Since then, our technology has been further developed for application in the commercial fraud protection, access control and governmental security markets. Additionally, it is currently being used to increase productivity by addressing inefficiencies and inaccuracies associated with manual data entry. The core of Intelli-Check's product offerings is our proprietary software technology that verifies the authenticity of driver licenses, state issued non-driver and military identification cards used as proof of identity. Our patented ID-Check(R) software technology instantly reads, analyzes, and verifies the encoded data in magnetic stripes and barcodes on government-issue IDs from approximately 60 jurisdictions in the U.S. and Canada to determine if the content and format is valid. We have served as the national testing laboratory for the American Association of Motor Vehicle Administrators (AAMVA) since 1999 and have access to all the currently available encoded driver license formats. After the tragic events that occurred on September 11, 2001, we believe there has been a significant increase in awareness of our software technology to help improve security across many industries, including airlines, rail transportation and high profile buildings and infrastructure, which we believe should enhance future demand for our technology. The adaptation of Homeland Security Presidential Directive 12 (HSPD 12) and the promulgation of Federal Identity Processing Standards 201 (FIPS 201) have raised the awareness of our technology in the government sector. Therefore, we have begun to market to various government and state agencies, which have long sales cycles, including extended test periods. Since inception, we have incurred significant losses and negative cash flow from operating activities and, as of September 30, 2006, we had an accumulated deficit of approximately \$41.6 million. We will continue to fund operating and capital expenditures from proceeds that we received from sales of our equity securities. In view of the rapidly evolving nature of our business and our limited operating history, we believe that period-to-period comparisons of revenues and operating results are not necessarily meaningful and should not be relied upon as indications of future performance.

Our ID-Check's patented technology provides the ability to verify the validity of military ID's, driver licenses and state issued non-driver ID cards that contain magnetic stripes, bar codes and SMART chips that in most instances conform to AAMVA/ANSI/ISO standards, which enables us to target three distinct markets. Our original target market was focused on resellers of age-restricted products, such as alcohol and tobacco, where the proliferation of high-tech fake IDs exposes merchants to fines and penalties for the inadvertent sale of these products to underage purchasers. We now also target commercial fraud, which includes identity theft, and our technology is designed to help prevent losses from these frauds. We are also marketing our products for security applications involving access control. As a result of its applicability in these markets, we have sold our products to some of the largest companies in the gaming industry, a significant retailer, several large financial service companies, Certegy, now part of Fidelity National, one of the largest providers of check authorization services in the United States, a state port authority, military establishments,

Edgar Filing: INTELLI CHECK INC - Form 10-Q

airports, nuclear power plants and high profile buildings. Our technology is currently being tested by several Fortune 50 Companies. We have entered into strategic alliances with Verifone, the largest provider of credit card terminals in the U.S., the two largest providers of driver licenses in North America to assist with their compliance with the provisions of the Real ID Act (which is intended to set standards for the issuance of driver licenses and identification cards), several biometric companies, Northrop Grumman and General Dynamics (formally Anteon), integrators in the defense industry, and Intermec Technologies and Metrologic, hardware manufacturers, to utilize our systems and software as the proposed or potential verification application for their proposed solutions for credentialing in the government sector and to jointly market these security applications. The passage of the Real ID ACT together with the regulations arising from HSPD-12, which sets the policy for a common identification standard for federal employees and contractors, have additionally created opportunities for our verification technology in the governmental market at the federal, state and local levels. In addition, we have executed agreements with some high profile organizations to promote the use of our technology and our products. We believe these relationships have broadened our marketing reach through their sales efforts and we intend to develop additional strategic alliances with additional high profile organizations and providers of security solutions.

11

We have developed additional software products that utilize our patented software technology. Our latest products include ID-Check(R) Portal, ID-Check(R) POS, ID-Check(R) BHO, ID-Traveler and ID-Prove. ID-Check(R) Portal utilizes our ID-Check technology together with an additional layer of security to prove an individual's claimed identity. ID-Check(R) POS is the technology that has been integrated into the Verifone 37XX to enable the user to do verification of a driver license as an additional function of the terminal. ID-Check(R) BHO is a browser helper object that enables a customer to add the ID-Check(R) technology as a "plug-in," to Internet Explorer pages without requiring software programming expertise. ID Traveler electronically verifies and matches two forms of government issued ID's instantaneously while the ID Prove product offering provides "out of wallet" questions to assist in proving a user's claimed identity. Additional software solutions include ID-Check(R) PC and ID-Check(R) PDA, which replicate the features of ID-Check. These products are designed to be platform-independent and compatible with both stationary and mobile hardware applications. Another application is an enhanced version of C-Link(R), the company's networkable data management software. Additionally, ID-Check(R) PC and the most recent release of C-Link are designed to read the smart chip contained on the military Common Access Card (CAC). These products are all designed for use with Intelli-Check's new data capture devices, which are compact, and contain either both or one of two-dimensional bar code and magnetic stripe readers. The devices enable the new software applications to be used on a variety of commercially available data processing devices, including PDAs, Tablets, Laptops, Desktops and Point-of-Sale Computers, therefore negating the need to replace the ID-Check terminal. Our C-Link(R) software product, which runs on a personal computer and was created to work in conjunction with the ID-Check technology allows a user to instantly first analyze the data, then view the encoded data for further verification and to generate various reports where permitted by law. We introduced a new product, ID-Mobile, which gives the user the additional flexibility of utilizing our software in a hand-held product. To date, we have entered into multiple licensing agreements and are in discussions with additional companies to license our software to be utilized within other existing systems.

Critical Accounting Policies and the Use of Estimates

Edgar Filing: INTELLI CHECK INC - Form 10-Q

The preparation of the Company's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the Company's financial statements and accompanying notes. Significant estimates and assumptions that affect amounts reported in the financial statements include inventory reserves, deferred tax valuation allowances and doubtful accounts and allowances. Due to the inherent uncertainties involved in making estimates, actual results reported in future periods may be different from those estimates.

We believe that there are several accounting policies that are critical to understanding our historical and future performance, as these policies affect the reported amounts of revenue and the more significant areas involving management's judgments and estimates. These significant accounting policies relate to revenue recognition, valuation of inventory, stock based compensation, deferred taxes and commitments and contingencies. These policies and our procedures related to these policies are described in detail below.

A. Revenue Recognition and Deferred Revenue

We sell our products directly through our sales force and through distributors. Revenue from direct sales of our product is recognized when shipped to the customer and title has passed. Our products require continuing service or post contract customer support and performance by us; accordingly, a portion of the revenue pertaining to the service and support is deferred based on its fair value and recognized ratably over the period in which the future service, support and performance are provided, which is generally one year. Currently, with respect to sales of certain of our products, we do not have enough experience to identify the fair value of each element and the full amount of the revenue and related gross margin is deferred and recognized ratably over the one-year period in which the future service, support and performance are provided.

In addition, we recognize sales from licensing of our patented software to customers. Our licensed software requires continuing service or post contract customer support and performance by us; accordingly, a portion of the revenue is deferred based on its fair value and recognized ratably over the period in which the future service, support and performance are provided, which is generally one year.

12

Royalties from licensing our technology are recognized as revenues in the period they are earned.

B. Inventory Valuation

Our current inventory consists primarily of our ID-Check terminals purchased in 1999 that run our patented software and input devices purchased in 2006. We periodically evaluate the current market value of our inventory, taking into account any technological obsolescence that may occur due to changes in hardware technology and the acceptance of the product in the marketplace. We have written off the total value of the ID-Check terminals and as of June 30, 2006, we ceased marketing and offering them for sale. A portion of the remaining units in inventory will be held to support existing customers.

C. Stock-Based Compensation

Edgar Filing: INTELLI CHECK INC - Form 10-Q

On January 1, 2006, we adopted SFAS No. 123(R). We adopted SFAS No. 123(R) using a modified prospective application, as permitted under SFAS No. 123(R). Accordingly, prior period amounts have not been restated. Under this application, we are required to record compensation expense for all awards granted after the date of adoption and for the unvested portion of previously granted awards that remain outstanding at the date of adoption. SFAS No. 123(R) requires that the cost resulting from all share based payment transactions be recognized in the financial statements. SFAS No. 123(R) establishes fair value as the measurement objective in accounting for share based payment arrangements and requires us to apply a fair value based measurement method in accounting for generally all share based payment transactions with employees.

D. Deferred Income Taxes

Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and net operating loss carry forwards. Deferred tax assets and liabilities are measured using expected tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. We have recorded a full valuation allowance for our net deferred tax assets as of September 30, 2006, due to the uncertainty of the realizability of those assets.

E. Commitments and Contingencies

We are currently involved in certain legal proceedings as discussed in footnote 5, above. Other than as described in footnote 5 above, we do not believe these legal proceedings will have a material adverse effect on our financial position, results of operations or cash flows.

The above listing is not intended to be a comprehensive list of all of our accounting policies. In many cases, the accounting treatment of a particular transaction is specifically dictated by generally accepted accounting principles, with no need for management's judgment in their application. There are also areas in which management's judgment in selecting any available alternative would not produce a materially different result.

(b) Results of Operations

Comparison of the nine months ended September 30, 2006 to the nine months ended September 30, 2005.

Revenues increased by 17.5%, or \$301,560, from \$1,723,882 for the nine months ended September 30, 2005 to \$2,025,442 for the nine months ended September 30, 2006. Revenues for the period ended September 30, 2006 consisted of revenues from distributors of \$789,650, revenues from direct sales to customers of \$1,213,543 and royalty payments of \$22,249. Sales bookings, which represent shipments of products and contracted services, increased by 6.5% from \$2,003,719 for the nine months ended September 30, 2005 to \$2,133,557 for the nine months ended September 30, 2006. Sales increased and we continue to be optimistic that sales opportunities should continue to increase as a result of our recent successes in the retail market, continued sales to new customers, the positive results of certain of our recent marketing tests and our introduction of additional products in 2005 and 2006, as well as legislative efforts to improve identity management and security and to control sales of age-restricted products. However, period to period comparisons may not be indicative of future operating results, since we still face long sales cycles, particularly in the government sector, and, therefore, we cannot predict with certainty at this time in which period the opportunities currently in the pipeline will develop into sales. As of September 30, 2006 we have a backlog, which represents non-cancelable sales orders for products and services not yet shipped or performed, as the case may be, of approximately \$1,169,000.

Gross profit remained stable at \$1,328,584 for the nine months ended September 30, 2005 as compared to \$1,314,245 reported for the nine months ended September 30, 2006. Our gross profit as a percentage of revenues amounted to 64.9% for the nine months ended September 30, 2006 compared to 77.1% for the nine months ended September 30, 2005. In 2005, the gross profit percentage was favorably impacted as a result of a large "software only" sale to a significant retailer, which typically has higher margins than equipment or bundled sales. Even though we did not have a large "software only" sale in 2006, our gross profit percentage was still generally favorable relative to other prior periods, resulting from a higher revenue mix of our licensing products over our bundled sales of hardware and software products which have a lower gross profit percentage.

Operating expenses, which consist of selling, general and administrative and research and development expenses, increased 2.3% from \$3,928,264 for the nine months ended September 30, 2005 to \$4,018,183 for the nine months ended September 30, 2006. Selling expenses, which consist primarily of salaries and related costs for marketing, increased 22.2% from \$935,381 for the nine months ended September 30, 2005 to \$1,142,793 for the nine months ended September 30, 2006 primarily due to an increase in salaries, commissions, travel expense and employee costs of approximately \$30,000 and an increase in non cash expenses from the granting of stock options totaling approximately \$171,000. General and administrative expenses, which consist primarily of salaries and related costs for general corporate functions, including executive, accounting, facilities and fees for legal and professional services, decreased 6.5% from \$2,280,630 for the nine months ended September 30, 2005 to \$2,133,244 for the nine months ended September 30, 2006, primarily as a result of a decrease in expenses relating to investor relations fees of approximately \$55,000, a decrease in legal fees of approximately \$110,000 relating to decreased activity on our patent infringement litigation, a decrease of certain non-recurring costs relating to equity raising activities totaling approximately \$186,000, a decrease in rent expense of approximately \$37,000 due to the reduction in rented space and a recovery of bad debts of approximately \$26,000, which were partially offset by increases in employee costs and related expenses and travel of approximately \$70,000, an increase in non-cash expenses from the granting of stock options totaling approximately \$172,000 and an increase in board of directors fees and expenses of approximately \$16,000. Research and development expenses, which consist primarily of salaries and related costs for the development of our products, increased 4.2% from \$712,253 for the nine months ended September 30, 2005 to \$742,146 for the nine months ended September 30, 2006, primarily as a result of increases in employee salaries and related expenses of approximately \$48,000, which were partially offset by an decrease in consulting expenses for product development of approximately \$26,000. As the Company experiences sales growth, we expect that we will incur additional operating expenses to support this growth. Research and development expenses may also increase as we integrate additional products and technologies with our patented ID-Check technology.

Interest income increased from \$82,922 for the nine months ended September 30, 2005 to \$169,777 for the nine months ended September 30, 2006, which is a result of an increase in our cash and cash equivalents, marketable securities and short term investments available for investment from the completion of our private placement in August 2005, as well as higher interest rates received on investments during 2006.

We have incurred net losses to date; therefore, we have paid nominal income taxes.

Edgar Filing: INTELLI CHECK INC - Form 10-Q

As a result of the factors noted above, our net loss for the nine months ended September 30, 2006 of \$2,534,161, which included \$670,653 of non-cash expenses, did not materially change as compared to the \$2,516,758, which included \$339,930 of non-cash expenses reported for the nine months ended September 30, 2005.

14

Comparison of the three months ended September 30, 2006 to the three months ended September 30, 2005.

Revenues increased by 79.4%, or \$341,691, from \$430,083 for the three months ended September 30, 2005 to \$771,774 for the three months ended September 30, 2006. Revenues for the period ended September 30, 2006 consisted of revenues from distributors of \$122,815, revenues from direct sales to customers of \$640,799 and royalty payments of \$8,160. Sales bookings, which represent shipments of products and contracted services, increased by 12.4% from \$486,330 for the three months ended September 30, 2005 to \$546,427 for the three months ended September 30, 2006. We are optimistic that sales opportunities should continue to increase as a result of our recent successes in the retail market, the positive results of certain of our recent marketing tests and new opportunities that have developed as a result of new agreements, as well as our introduction of additional products in 2005 and 2006, together with legislative efforts to improve identity management and security and control sales of age restricted products to under-age purchasers. However, period to period comparisons may not be indicative of future operating results, since we still face long sales cycles, particularly in the government sector, and therefore, we cannot predict with certainty at this time, in which period the opportunities currently in the pipeline will develop into sales.

Gross profit increased by 82.8%, or \$209,805, from \$253,449 for the three months ended September 30, 2005 to \$463,254 for the three months ended September 30, 2006. Our gross profit as a percentage of revenues remained stable at 60.2% for the three months ended September 30, 2006 compared to 58.9% for the three months ended September 30, 2005.

Operating expenses, which consist of selling, general and administrative and research and development expenses, increased 10.0% from \$1,065,646 for the three months ended September 30, 2005 to \$1,171,948 for the three months ended September 30, 2006. Selling expenses, which consist primarily of salaries and related costs for marketing, increased 12.9% from \$307,976 for the three months ended September 30, 2005 to \$347,725 for the three months ended September 30, 2006 primarily due to an increase in salaries, commissions and employee costs of approximately \$32,000 and an increase in non cash expenses from the granting and vesting of stock options totaling approximately \$46,000, which were partially offset by a decrease in marketing expenses of approximately \$15,000 and a decrease in convention expenses of approximately \$20,000. General and administrative expenses, which consist primarily of salaries and related costs for general corporate functions, including executive, accounting, facilities and fees for legal and professional services increased 14.6% from \$519,139 for the three months ended September 30, 2005 to \$594,802 for the three months ended September 30, 2006, primarily as a result of an increase in non-cash expenses from the granting of stock options totaling approximately \$103,000, an increase in legal fees of approximately \$187,000 relating to our patent infringement litigation, which were partially offset by a decrease of certain non-recurring costs relating to equity raising activities totaling approximately \$186,000 and a reduction in rent expense of approximately \$13,000. Research and development expenses, which consist primarily of salaries and related costs for the

Edgar Filing: INTELLI CHECK INC - Form 10-Q

development and testing of our products, decreased 3.8% from \$238,531 for the three months ended September 30, 2005 to \$229,421 for the three months ended September 30, 2006, primarily as a result of decreases in salaries and related expenses of approximately \$14,000. As the Company experiences sales growth, we expect that we will incur additional operating expenses to support this growth. Research and development expenses may increase as we integrate additional products and technologies with our patented ID-Check technology.

Interest income increased from \$46,885 for the three months ended September 30, 2005 to \$57,304 for the three months ended September 30, 2006, which is a result of higher interest rates received on investments during 2006.

We have incurred net losses to date; therefore, we have paid nominal taxes.

As a result of the factors noted above, our net loss for the three months ended September 30, 2006 of \$651,390, which included \$167,048 of non-cash expenses, decreased from \$765,312 for the three months ended September 30, 2005, which included \$20,387 of non-cash expenses.

15

(c) Liquidity and Capital Resources

Cash used in operating activities for the nine months ended September 30, 2006 of \$1,767,483 resulted primarily from the net loss of \$2,534,161, which was offset by an increase of deferred revenue of \$103,799, recognition of noncash stock based compensation expense resulting primarily from the granting and vesting of stock options of \$567,356, and amortization of deferred compensation of \$129,756. Cash used in operating activities for the nine months ended September 30, 2005 of \$2,012,204 resulted primarily from the net loss of \$2,516,758 and a decrease in accounts payable and accrued expenses of \$266,868 resulting from payment and reduction of our legal fees, which were primarily offset by recognition of noncash stock based compensation expense resulting from the extension and exercise of stock options of \$223,450, an increase in deferred revenue of \$254,868 due to increased sales of our products, a decrease in accounts receivable of \$132,544, a decrease in inventory of \$143,538. Cash provided by investing activities for the nine months ended September 30, 2006 of \$1,245,427 resulted primarily from net sales exceeding purchases of marketable securities and short term investments of \$1,265,929. Cash used in investing activities for the nine months ended September 30, 2005 of \$1,882,817 resulted primarily from the net result of the sales of and investment of marketable securities and short term investments of \$1,870,722. Cash provided by financing activities was \$386,124 for the nine months ended September 30, 2006 and resulted from the proceeds received from the issuance of common stock from the exercise of stock options. Cash provided by financing activities was \$4,455,727 for the nine months ended September 30, 2005 and was primarily related to net proceeds from the issuance of common stock from the exercise of stock options of \$129,700 and from proceeds of our secondary offering of \$4,423,342, which was partially offset by the payment of dividends to preferred stock holders of \$97,315.

In March 2001, we declared a dividend distribution of one non-transferable right to purchase one share of our common stock for every 10 outstanding shares of common stock continuously held from the record date to the date of exercise, as well as common stock underlying vested stock options and warrants, held of record on March 30, 2001, at an exercise price of \$8.50. The expiration date of the rights, which originally was October 2, 2002, has been extended until June 30, 2007. We have the right to redeem the outstanding rights for \$.01 per right

Edgar Filing: INTELLI CHECK INC - Form 10-Q

under certain conditions, which were not met as of November 10, 2006. We reserved 970,076 shares of common stock for future issuance under this rights offering. To date, we have received \$2,482,009 before expenses from the exercise of 292,001 of these rights, which has reduced the amount of shares available for future issuance. None of these rights were exercised in the nine months ended September 30, 2006.

In March 2001, our Board of Directors authorized, subject to certain business and market conditions, the purchase of up to \$1,000,000 of our common stock. As of September 30, 2006, we cumulatively purchased 40,200 shares for a total of approximately \$222,000 and subsequently retired these shares. None of these shares were purchased during 2006. We may purchase additional shares when warranted by certain conditions.

We currently anticipate that our available cash on hand and marketable securities, and cash resources from expected revenues from the sale of the units in inventory and the licensing of our technology will be sufficient to meet our anticipated working capital and capital expenditure requirements for at least the next twelve months. These requirements are expected to include the purchase of inventory, product development, sales and marketing, working capital requirements and other general corporate purposes. We may need to raise additional funds, however, to respond to business contingencies which may include the need to fund more rapid expansion, fund additional marketing expenditures, develop new markets for our ID-Check technology, enhance our operating infrastructure, respond to competitive pressures, or acquire complementary businesses or necessary technologies.

(d) Net Operating Loss Carry forwards

As of September 30, 2006 the Company had net operating loss carry forwards (NOL's) for federal income tax purposes of approximately \$33 million. There can be no assurance that the Company will realize the benefit of the NOL's. The federal NOL's are available to offset future taxable income which expires beginning in the year 2013 if not utilized. Under Section 382 of the Internal Revenue Code, these NOL's may be limited in the event of an ownership change.

16

Contractual Obligations

Below is a table, which presents our contractual obligations and commitments at September 30, 2006:

Payments Due by Period

	Total	Less than One Year	1-3 years	4-5 years	After 5 years
	-----	-----	-----	-----	-----
Operating Leases	\$ 932,190	\$208,559	\$438,022	\$285,609	--
Consulting Contracts	36,000	36,000	--	--	--
Purchase Commitment	354,500	354,500	--	--	--
Employment contracts	40,521	40,521	--	--	--
	-----	-----	-----	-----	-----
Total Contractual Cash Obligation	\$1,363,211	\$639,580	\$438,022	\$285,609	\$--
	-----	-----	-----	-----	-----

Edgar Filing: INTELLI CHECK INC - Form 10-Q

Off-Balance Sheet Arrangements

We have never entered into any off-balance sheet financing arrangements and have never established any special purpose entities. We have not guaranteed any debt or commitments of other entities or entered into any options on non-financial assets.

Forward Looking Statements

This document contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, particularly statements anticipating future growth in revenues, loss from operations and cash flow. Words such as "anticipates," "estimates," "expects," "projects," "intends," "plans," "believes" and words and terms of similar substance used in connection with any discussion of future operating or financial performance identify forward-looking statements. These forward-looking statements are based on management's current expectations and beliefs about future events. As with any projection or forecast, they are inherently susceptible to uncertainty and changes in circumstances, and the Company is under no obligation to, and expressly disclaims any obligation to, update or alter its forward-looking statements whether as a result of such changes, new information, subsequent events or otherwise.

Non-GAAP Financial Measures

This 10-Q contains disclosure of our "sales bookings" and "back log" for certain periods, which may be deemed to be a non-GAAP financial measure within the meaning of Regulation G promulgated by the Securities and Exchange Commission. We believe that discussion of our sales bookings provides investors with additional information regarding revenues it has received in respect of products and services that have been shipped to a customer, but which are required to be deferred for a period of less than one year under applicable principles of GAAP. The disclosure of "sales bookings" and "back log" may not be comparable to similarly titled measures reported by other companies. "Sales bookings" and "back log," while providing useful information, should not be considered in isolation or as an alternative to other financial measures determined in accordance with GAAP.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Financial instruments, which subject the Company to concentrations of credit risk, consist primarily of cash, cash equivalents and marketable securities. The Company maintains cash between two financial institutions. The marketable securities consist primarily of short term investment grade corporate and government bonds and Certificate of Deposits. The Company performs periodic evaluations of the relative credit standing of these institutions.

17

Item 4. Controls and Procedures

Internal Controls

We maintain disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) that are designed (i) to collect the information we are required to disclose in the reports we file with the SEC, and (ii) to process, summarize and disclose this information within the time periods specified in the rules of the SEC. Under the supervision and with the

Edgar Filing: INTELLI CHECK INC - Form 10-Q

participation of our management, including our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures. Such evaluation was conducted as of the end of the period covered by this report. Based on such evaluation, our Chief Executive and Chief Financial Officer have concluded that these procedures are effective.

Additionally, there were no changes in our internal controls over financial reporting that materially affected or are reasonably likely to materially affect these controls subsequent to the end of the period covered by this report. We have not identified any significant deficiencies or material weaknesses in our internal controls, and therefore there were no corrective actions taken.

Compliance with Section 404 of the Sarbanes-Oxley Act of 2002

Pursuant to Section 404 of the Sarbanes-Oxley Act of 2002 (the Act), beginning with our Annual Report on Form 10-K for the fiscal year ending December 31, 2007, we will be required to furnish a report by our management on our internal control over financial reporting. This report will contain, among other matters, an assessment of the effectiveness of our internal control over financial reporting as of the end of our fiscal year, including a statement as to whether or not our internal control over financial reporting is effective. This assessment must include disclosure of any material weaknesses in our internal control over financial reporting identified by management. If we identify one or more material weaknesses in our internal control over financial reporting, we will be unable to assert that our internal control over financial reporting is effective. This report will also contain a statement that our independent registered public accountants have issued an attestation report on management's assessment of such internal controls and conclusion on the operating effectiveness of those controls.

Management acknowledges its responsibility for internal controls over financial reporting and seeks to continually improve those controls. In order to achieve compliance with Section 404 of the Act within the prescribed period, we are currently performing the system and process documentation and evaluation needed to comply with Section 404, which is both costly and challenging. We believe our process, which began in 2005 and continues in 2006 for documenting, evaluating and monitoring our internal control over financial reporting is consistent with the objectives of Section 404 of the Act.

Part II Other Information

Item 1. Legal Proceedings

On August 1, 2003, we filed a summons and complaint against Tricom Card Technologies, Inc. alleging infringement on our patent and seeking injunctive and monetary relief. On October 23, 2003, we amended our complaint to include infringement on an additional patent. On May 18, 2004, we filed a Second Amended Complaint alleging infringement and inducement to infringe against certain principals of Tricom in their personal capacities, as well as alleging in the alternative false advertising claims under the Lanham Act against all the defendants. The principals moved to dismiss the claims against them, and Tricom moved to dismiss the false advertising claims, which motions have been administratively terminated by the Court. On August 1, 2005, defendants filed an Answer and Affirmative Defenses to the Second Amended Complaint and Tricom filed a declaratory counterclaim. On November 2, 2005, the Court allowed Tricom to plead two additional defenses and declaratory counterclaims in the case, and on January 3, 2006, the parties filed a Stipulation of Dismissal of the Estoppel and Unenforceability Counterclaims and Affirmative Defenses. On February 28, 2006, the parties filed a Supplemental Proposed Joint Pretrial Order, and on March 1, 2006, the Court certified that fact discovery in this action was

Edgar Filing: INTELLI CHECK INC - Form 10-Q

complete. On June 29, 2006, the Court held a pre-motion conference at our request to discuss our proposed motion to disqualify defendants' counsel for a conflict of interest. Pursuant to the Court's order, we served moving papers upon defendants on July 14, 2006 and defendants served opposition to the motion on around July 28, 2006. We served a reply to the opposition on August 11, 2006 and filed the motion with the Court. Also, on or about July 21, 2006, defendants filed with the Court a motion for claim construction together with our opposition to defendants' motion and defendants' reply to the opposition. The Court has not scheduled a hearing date for either motion and there is no trial date pending.

18

We are not aware of any infringement by our products or technology on the proprietary rights of others.

Other than as set forth above, we are not currently involved in any legal or regulatory proceeding, or arbitration, the outcome of which is expected to have a material adverse effect on our business.

Item 5. Other Information

On November 10, 2006, the Board of Directors increased Mr. Mandelbaum's annual base salary to \$264,000 effective January 1, 2007. In addition, the Company will grant Mr. Mandelbaum, on November 16, 2006, an option to purchase 25,000 shares of common stock at an exercise price equal to the closing price on the date of grant.

On November 10, 2006, the Company entered into a letter of understanding with its Chief Financial Officer, Mr. Winiarz, which provides for an annual base salary of \$175,000. This agreement will become effective on January 1, 2007. His current employment contract terminates on December 31, 2006. In addition, the Company will grant Mr. Winiarz, on November 16, 2006, an option to purchase 25,000 shares of common stock equal to the closing price on the date of grant and Mr. Winiarz could be eligible to receive a bonus upon Intelli-Check achieving certain financial targets. The Company agreed in the letter of understanding, that if it were to terminate Mr. Winiarz for any reason other than cause, it would pay Mr. Winiarz two (2) years of base salary in twelve (12) equal monthly installments should briefly disclose change of control provisions.

Item 6. Exhibits

- (a) The following exhibits are filed as part of the Quarterly Report on Form 10-Q:

Exhibit No.	Description
