Form 10-Q
August 13, 2007

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549**

FORM 10-Q

QUARTERLY REPORT UNDER SECTION 13 OR 15(D)
OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE QUARTER ENDED JUNE 30, 2007

COMMISSION FILE NO. 0-22810

MACE SECURITY INTERNATIONAL, INC.
(Exact name of Registrant as specified in its charter)

DELAWARE
(State or other jurisdiction of
incorporation or organization)

03-0311630
(I.R.S. Employer
Identification No.)

1000 Crawford Place, Suite 400, Mt. Laurel, NJ 08054
(Address of Principal Executive Offices)

Registrant's Telephone No., including area code: (856) 778-2300

Indicate by checkmark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 ("the Exchange Act") during the preceding 12 months (or for such shorter period that the registrant was required to file such report), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act (Check One):
Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by checkmark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of Common Stock:

As of August 7, 2007, there were 16,451,853 Shares of the registrant's Common Stock, par value \$.01 per share, outstanding.

Mace Security International, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(Unaudited)

1. Basis of Presentation and Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Mace Security International, Inc. and its wholly owned subsidiaries (collectively, the “Company” or “Mace”). All significant intercompany transactions have been eliminated in consolidation. The Company currently operates in two business segments: the Car and Truck Wash Segment, supplying complete car care services (including wash, detailing, lube, and minor repairs) and the Security Segment, producing for sale consumer safety and personal defense products, as well as electronic surveillance and monitoring products. The Company’s car and truck wash operations are principally located in Texas and Florida. The Company initiated a plan to sell its Arizona car wash region in February 2006 and in December 2006 entered into an agreement with Twisted Cactus Enterprises, LLC to sell the Arizona car washes. The Company completed the divestiture of the Arizona car wash region in May 2007. The Company sold seven car washes in the Northeast region during the six months ended June 30, 2007. Additionally, the Company entered into agreements as of June 30, 2007 to sell its remaining two exterior only car wash sites in New Jersey. With the completion of the sale of the two exterior only car washes in New Jersey on August 3, 2007, the Company disposed of all of its car washes in the Northeast region. The Company executed a lease-to-sell agreement on December 31, 2005 with Eagle United Truck Wash, LLC (“Eagle”) to lease Mace’s five truck washes beginning January 1, 2006 for up to two years with an expected sale of the truck washes before December 31, 2007. As a result, the Company does not recognize revenue or operating expenses during the term of the lease other than rental income, depreciation expense and interest expense. In the year ended December 31, 2006 and the six months ending June 30, 2007, the results for the Arizona car wash region, Northeast region car washes and the Company’s truck washes have been classified as discontinued operations in the statement of operations and the statement of cash flows. Additionally, the statement of operations and the statement of cash flows for the prior year have been restated to reflect the discontinued operations in accordance with Statement of Financial Accounting Standards (“SFAS”) 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. (See Note 5. Discontinued Operations and Assets Held for Sale).

2. New Accounting Standards

In September 2006, the FASB issued SFAS 157, *Fair Value Measurements* (“SFAS 157”). This standard defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. The adoption of SFAS 157 is not expected to have a material impact on the Company’s consolidated results of operations, cash flows or financial position.

In February 2007, the FASB issued SFAS 159, *The Fair Value Option for Financial Assets and Financial Liabilities-Including an amendment of FASB Statement No. 115* (“SFAS 159”). SFAS 159 expands the use of fair value accounting but does not affect existing standards, which require assets and liabilities to be carried at fair value. Under SFAS 159, a company may elect to use fair value to measure accounts and loans receivable, available-for-sale and held-to-maturity securities, equity method investments, accounts payable, guarantees, issued debt and other eligible financial instruments. SFAS 159 is effective for fiscal years beginning after November 15, 2007. The adopting of SFAS 159 is not expected to have a material impact on the Company’s consolidated results of operations, cash flows or financial position.

3. Other Intangible Assets

The following table reflects the components of intangible assets, excluding goodwill (in thousands):

	June 30, 2007		December 31, 2006	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Amortized intangible assets:				
Non-compete agreement	\$ 98	\$ 59	\$ 98	\$ 46
Customer lists	1,184	450	1,184	356
Product lists	590	177	590	148
Patent Costs	6	-	5	-
Deferred financing costs	387	239	387	229
Total amortized intangible assets	2,265	925	2,264	779
Non-amortized intangible assets:				
Trademarks - Security Segment	1,442	-	1,438	-
Total intangible assets	\$ 3,707	\$ 925	\$ 3,702	\$ 779

The following sets forth the estimated amortization expense on intangible assets for the fiscal years ending December 31 (in thousands):

2007	\$ 262
2008	\$ 232
2009	\$ 197
2010	\$ 188
2011	\$ 188

4. Business Divestitures

On June 19, 2006, the Company, through a wholly owned subsidiary, sold an exterior-only car wash facility in New Jersey. Proceeds from the sale of this facility were approximately \$1.0 million, resulting in a \$202,000 gain on disposal.

On September 28, 2006, the Company, through a wholly owned subsidiary, sold a full service car wash facility in Dallas, Texas. Proceeds from the sale of this facility were approximately \$1.85 million, resulting in a \$461,000 gain on disposal.

In the first quarter ended March 31, 2007, the Company sold seven car washes consisting of: (i) three full service car washes in the Philadelphia area on January 29, 2007 and a full service car wash in Cherry Hill, New Jersey on February 1, 2007 for a total of \$7.8 million in cash at a gain of approximately \$1.0 million; (ii) an exterior cash wash in Morrestown, New Jersey on January 5, 2007 for \$350,000 cash, which approximates book value; (iii) an exterior car wash in Philadelphia, Pennsylvania on March 1, 2007 for \$475,000 in cash at a gain of approximately \$141,000; and (iv) a full service car wash in Fort Worth, Texas on March 7, 2007 for \$285,000 in cash at a gain of approximately \$9,000.

In the second quarter ended June 30, 2007, the Company sold 14 car washes consisting of: (i) an exterior car wash in Yeadon, Pennsylvania on May 14, 2007 for \$100,000 in cash at a gain of approximately \$90,000; (ii) twelve full service car washes in the Phoenix, Arizona area representing our entire Arizona region on May 17, 2007 for

\$19,380,000 in cash at a gain of approximately \$413,000; and (iii) an exterior car wash in Smyrna, Delaware on May 31, 2007 for \$220,000 in cash at a gain of approximately \$202,000.

On May 3, 2007, the Company signed agreements to sell the two remaining exterior car wash sites in New Jersey for total cash consideration of \$1.38 million. The sales were completed on August 3, 2007 at a gain of approximately \$182,000.

5. Discontinued Operations and Assets Held for Sale

On December 7, 2006, the Company signed an agreement with Twisted Cactus Enterprises, LLC to sell its Arizona car washes for \$19,380,000 in cash. This transaction closed on May 17, 2007 at a gain of approximately \$413,000. Additionally, the Company sold seven of its Northeast region car washes in the six months ended June 30, 2007 and entered into agreements on May 3, 2007 to sell its final two car washes in the Northeast region, which represent all of the revenues within the Northeast region. The Company executed a lease-to-sell agreement on December 31, 2005 with Eagle United Truck Wash, LLC (“Eagle”) to lease Mace’s five truck washes beginning January 1, 2006 for up to two years. As a result, the Company does not recognize revenue or operating expenses during the term of the lease other than rental income, depreciation expense and interest expense. Accordingly, for financial statement purposes, the assets, liabilities, results of operations and cash flows of these operations have been segregated from those of continuing operations and are presented in the Company’s consolidated financial statements as discontinued operations and assets and liabilities held for sale.

Revenues from discontinued operations were \$ 4.5 million and \$ 8.1 million for the six months ended June 30, 2007 and 2006, respectively. Operating income from discontinued operations was \$ 233,000 and \$ 385,000 for the six months ended June 30, 2007 and 2006, respectively.

Assets and liabilities held for sale are comprised of the following at June 30, 2007 (in thousands):

Assets held for sale:	Northeast Region	Truck Washes	Total
Inventory	\$ 1	\$ -	\$ 1
Property, plant and equipment, net	1,164	994	2,158
Intangibles	-	1	1
Total assets	\$ 1,165	\$ 995	\$ 2,160
Liabilities related to assets held for sale:			
Current portion of long-term debt	\$ -	\$ 10	\$ 10
Long-term debt, net of current portion	-	259	259
Total liabilities	\$ -	\$ 269	\$ 269

6. Stock-Based Compensation

The Company has two stock-based employee compensation plans. On January 1, 2006, the Company adopted SFAS 123(R), *Share-Based Payment*, which requires that the compensation cost relating to share-based payment transactions be recognized in financial statements. We adopted SFAS 123 (R) using the modified prospective method, which results in recognition of compensation expense for all share-based awards granted or modified after December 31, 2005 as well as all unvested awards outstanding at the date of adoption. The cost is recognized as compensation expense over the life of the instruments, based upon the grant date fair value of the equity or liability instruments issued. The Company expects the application of SFAS 123 (R) to result in stock compensation expense and therefore a reduction of income before income taxes in 2007 of \$1.1 million to \$1.2 million. The Company’s actual stock compensation expense in 2007 could differ materially from this estimate depending on the timing, magnitude and vesting of new awards, the number of new awards and changes in the market price or the volatility of the Company’s common stock.

Beginning in 2007, for the purpose of calculating an expected forfeiture rate, the Company classifies option grants into two categories, Director and Officer grants, for which a forfeiture rate of 0% is assumed, and all other option grants, for which a forfeiture rate of 33% is assumed. These forfeiture rates are based on actual forfeitures experienced by the Company over the past six years. Prior to 2007, a forfeiture rate of 0% was used for all option grants.

The following summarizes the option activity for the three months ended June 30, 2007 and 2006:

	Three Months Ended June 30,	
	2007	2006
Shares Granted	-	30,000
Risk-free rate	N/A	4.88% to 5.14%
Dividend yield	0%	0%
Expected forfeiture rate-Directors and Officers	0%	0%
Expected forfeiture rate-All other	33%	0%
Expected volatility	52%	50%
Weighted average expected life of options	10 years	10 years
Weighted average fair value of option grants	N/A	\$1.56
Non-cash compensation expense (in thousands):		
Continuing operations-Selling, General & Administrative	\$89	\$118
Continuing operation-cost of revenues	3	3
Discontinued operations	13	4
Total	\$105	\$125

During the six months ended June 30, 2007 and 2006, the Company granted 145,000 and 382,000 stock options, respectively, at risk free interest rates ranging from 4.80% to 5.14%, a dividend yield of 0%, and an expected life of ten years. A 0% forfeiture rate was used in 2006 and a 33% forfeiture rate was used for non-directors and officers in 2007. The Company recorded non-cash compensation expense of approximately \$ 332,000 (\$309,000 in continuing operations-SG&A expense, \$6,000 in continuing operations-cost of revenues and \$ 17,000 in discontinued operations) in the six months ended June 30, 2007, and \$ 387,000 (\$373,000 in continuing operations-SG&A expense, \$7,000 in continuing operations-cost of revenues and \$ 7,000 in discontinued operations) in the six month ended June 30, 2006.

As of June 30, 2007, total unrecognized stock-based compensation expense is \$450,000, which has a weighted average period of approximately .7 years to be recognized.

The Black-Scholes option valuation model was developed for use in estimating the fair value of traded options which have no vesting restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions including the expected stock price volatility. Because the Company's employee stock options have characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the existing models do not necessarily provide a reliable single measure of the fair value of its employee stock options.

7. Commitments and Contingencies

The Company is obligated under various operating leases, primarily for certain equipment, vehicles, and real estate. Certain of these leases contain purchase options, renewal provisions, and contingent rentals for the proportionate share of taxes, utilities, insurance, and annual cost of living increases. Future minimum lease payments under operating leases with initial or remaining noncancellable lease terms in excess of one year as of June 30, 2007 for continuing operations are as follows: 2008 - \$521,000; 2009 - \$443,000; 2010 - \$344,000; 2011 - \$291,000; 2012 - \$291,000 and thereafter - \$1.1 million. Rental expense under these leases was \$442,000 and \$427,000 for the six months ended June 30, 2007 and 2006, respectively.

The Company subleases a portion of the building space at several of its car wash facilities either on a month-to-month basis or under cancellable leases. During the six months ending June 30, 2007 and 2006 revenues under these leases were approximately \$49,000, and \$61,000, respectively. These amounts are classified as other income in the accompanying statements of operations.

The Company is subject to federal and state environmental regulations, including rules relating to air and water pollution and the storage and disposal of oil, other chemicals, and waste. The Company believes that it complies, in all material respect, with all applicable laws relating to its business.

Certain of the Company's executive officers have entered into employee stock option agreements whereby options issued to them shall be entitled to immediate vesting upon a change in control of the Company. Additionally, the employment agreement of the Company's Principal Executive Officer, Louis D. Paolino, Jr., dated August 21, 2006, entitles Mr. Paolino to a payment of 2.99 times Mr. Paolino's average total compensation (base salary plus any bonuses plus the value of any option award, valued using the Black-Scholes method) over the past five years, upon termination of employment under certain conditions or upon a change in control. The employment agreement also provides that if Mr. Paolino receives the change of control bonus, his employment agreement can then be terminated without an additional payment.

On March 13, 2006, the Company was served with a search warrant issued by the United States District Court for the District of New Jersey relating to a criminal immigration investigation. A search of the Company's headquarters and four out of the Company's 48 car washes was conducted by representatives of the United States Department of Investigations and Customs Enforcement and certain other agencies. Three of the car washes searched were located in Pennsylvania and the fourth was located in New Jersey. Documents were seized and a number of car wash employees of Car Care, Inc., a wholly-owned subsidiary of the Company, were taken into custody by the United States immigration authorities. The Company was also served with a federal grand jury subpoena seeking similar documents. The Company has responded to the subpoena. The Company has been informed by the government that it is a subject of the government's investigation. The Company's Audit Committee retained independent outside counsel ("Special Counsel") to conduct an independent investigation of the Company's hiring practices at the Company's car washes and other related matters. Special Counsel provided a written summary of findings on April 18, 2006 to the Company's Audit Committee. The investigative finding included, among other things, a finding that the Company's internal controls for financial reporting at the corporate level are adequate and appropriate, and that there is no financial statement impact implicated by the Company's hiring practices, except for a potential contingent liability. Beginning on April 21, 2006, Special Counsel began to receive for review, some additional and previously requested but unavailable documents and information, including the documents the government seized on March 13, 2006. On May 18, 2006, Special Counsel issued its Review of Information Supplemental to Internal Investigation which stated that the review of the additional documents and information had not changed the conclusions contained in the April 18, 2006 summary of findings.

From March 13, 2006 through June 30, 2007, the Company incurred \$1.75 million, including \$248,000 in the first half of fiscal 2007, in legal, consulting and accounting expenses associated with the Audit Committee immigration investigations and \$433,000, including \$0 in the first half of fiscal 2007, associated with the governmental investigation and Company's defense and negotiations with the government. In accordance with the Company's By-Laws, the Company is obligated to indemnify and advance legal costs for its officers and directors.

The Company has incorporated additional internal control procedures at the corporate, regional and site level to further enhance the existing internal controls with respect to the Company's hiring procedures at the car wash locations to prevent the hiring of undocumented workers. There is a possibility that the United States Attorney for the Eastern District of Pennsylvania may prosecute the Company at the conclusion of its investigation. Violations of law may result in civil, administrative or criminal fines or penalties. Due to the ongoing nature of the criminal investigation, it is not possible at this time to predict the outcome of the investigation or the impact of costs of ultimately resolving this matter on our results of operations or financial condition. However, any fees, expenses, fines or penalties which might be incurred by the Company in connection with the hiring of undocumented workers may have a material impact on the Company's results of operations and financial condition. The Company has made no provision for any future costs associated with the investigations or any future costs associated with the Company's defense or negotiations with governmental authorities to resolve these outstanding issues.

The Company is a party to various legal proceedings related to its normal business activities. In the opinion of the Company's management, none of these proceedings are material in relation to the Company's results of operations, liquidity, cash flows, or financial condition.

8. Business Segments Information

The Company currently operates in two segments: the Car and Truck Wash Segment and the Security Segment.

Financial information regarding the Company's segments, excluding discontinued operations, is as follows (in thousands):

	Car and Truck Wash	Security	Corporate Functions *
<i>Three months ended June 30, 2007</i>			
Revenues from external customers	\$ 5,642	\$ 5,625	\$ -
Intersegment revenues	\$ -	\$ -	\$ -
Segment operating loss	\$ 57	\$ (534)	\$ (1,519)
Segment assets	\$ 53,287	\$ 19,316	\$ -
Goodwill	\$ -	\$ 1,623	\$ -
Capital expenditures	\$ 43	\$ 26	\$ 4
<i>Six months ended June 30, 2007</i>			
Revenues from external customers	\$ 11,648	\$ 11,060	\$ -
Intersegment revenues	\$ -	\$ -	\$ -
Segment operating income (loss)	\$ 469	\$ (1,377)	\$ (2,895)
Capital expenditures	\$ 90	\$ 85	\$ 5
<i>Three months ended June 30, 2006</i>			
Revenues from external customers	\$ 6,677	\$ 5,918	\$ -
Intersegment revenues	\$ -	\$ 8	\$ -
Segment operating income (loss)	\$ 498	\$ (466)	\$ (1,934)
Segment assets	\$ 53,608	\$ 21,605	\$ -
Goodwill	\$ 1,092	\$ 1,587	\$ -
Capital expenditures	\$ 119	\$ 39	\$ 1
<i>Six months ended June 30, 2006</i>			
Revenues from external customers	\$ 13,214	\$ 12,445	\$ -
Intersegment revenues	\$ -	\$ 8	\$ -
Segment operating income (loss)	\$ 1,136	\$ (592)	\$ (3,213)
Capital expenditures	\$ 198	\$ 135	\$ 2

*Corporate functions include the corporate treasury, legal, financial reporting, information technology, corporate tax, corporate insurance, human resources, investor relations, and other typical centralized administrative functions.

9. Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, as well as the disclosure of contingent assets and liabilities at the date of its consolidated financial statements. The Company bases its estimates on historical experience, actuarial valuations and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Some of those judgments can be subjective and complex, and consequently, actual results may differ from these estimates under different assumptions or conditions. We must make these estimates and assumptions because certain information that we use is dependent on future events and cannot be calculated with a high degree of precision from the data currently available. Such estimates include the Company's estimates of reserves such as the

allowance for doubtful accounts, inventory valuation allowances, insurance losses and loss reserves, valuation of long-lived assets, estimates of realization of income tax net operating loss carryforwards, computation of stock-based compensation, as well as valuation calculations such as the Company's goodwill impairment calculations under the provisions of SFAS142, *Goodwill and Other Intangible Assets*.

10. Income Taxes

The Company recorded income tax expense of \$50,000 and \$78,000 from continuing operations for the six months ended June 30, 2007 and 2006, respectively. Income tax expense reflects the recording of income taxes on income at an effective rate of approximately (1)% and (3)% in 2007 and 2006, respectively. The effective rate differs from the federal statutory rate for each year primarily due to state and local income taxes, non-deductible costs related to intangibles, fixed asset adjustments and changes to the valuation allowance. It is management's belief that it is unlikely that the net deferred tax asset will be realized and as a result has been fully reserved. Additionally, the Company recorded no income tax expense related to discontinued operations for either the six months ended June 30, 2007 or 2006.

In July 2006, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* ("FIN 48"). FIN 48 clarifies the accounting for income taxes by prescribing a minimum probability threshold that a tax position must meet before a financial statement benefit is recognized. The minimum threshold is defined in FIN 48 as a tax position that, based solely on its technical merits, is more likely than not to be sustained upon examination by the applicable taxing authority. The tax benefit to be recognized is measured as the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. The Company implemented this new standard in the quarter ended March 31, 2007. The adoption of FIN 48 did not have a material impact on the Company's consolidated results of operations, cash flows, and financial position.

11. Related Party Transactions

The Company's Security Segment leases manufacturing and office space under a five-year lease with Vermont Mill, Inc. ("Vermont Mill"). Vermont Mill is controlled by Jon E. Goodrich, a former director and current employee of the Company. In November 2004, the Company exercised an option to continue the lease through November 2009 at a rate of \$10,576 per month. The Company believes that the lease rate is lower than lease rates charged for similar properties in the Bennington, Vermont area. On July 22, 2002, the lease was amended to provide Mace the option and right to cancel the lease with proper notice and a payment equal to six months of the then current rent for the leased space occupied by Mace. Rent expense under this lease was \$63,456 for six months ending June 30, 2007 and 2006.

12 Long-Term Debt, Notes Payable and Capital Lease Obligations

At June 30, 2007, we had borrowings, including capital lease obligations and borrowings related to discontinued operations, of approximately \$14.0 million, substantially all of which is secured by mortgages against certain of our real property. Of such borrowings, approximately \$4.6 million, including \$269,000 of long-term debt included in liabilities related to assets held for sale, is reported as current as it is due or expected to be repaid or up for renewal in less than twelve months from June 30, 2007. Current debt includes the reclassification of approximately \$2.9 million of 15 year amortizing loans from long term to current liabilities as a result of such loans being due in February 2008. The Company intends to renew these loans with the current lender. The Company had notes payable in the amount of \$8.5 million at March 31, 2007 to Capmark Finance Inc. ("Capmark") that were reported as a current liability included in liabilities related to assets held for sale. We repaid this debt on May 17, 2007 with proceeds from the sale of the Arizona car washes to Twisted Cactus Enterprises, LLC.

We have three letters of credit outstanding at June 30, 2007, totaling \$1,149,000 as collateral relating to workers' compensation insurance policies. We maintain a \$500,000 revolving credit facility to provide financing for additional electronic surveillance product inventory purchases. There were no borrowings outstanding under the revolving credit facility at June 30, 2007. The Company also maintains a \$300,000 line of credit for commercial letters of credit for the importation of inventory. There were no outstanding commercial letters of credit under this commitment at June 30, 2007.

Our most significant borrowings, including borrowings related to discontinued operations, are secured notes payable to JPMorgan Chase Bank, N.A. ("Chase") the successor of Bank One, Texas, N.A. in the amount of \$11.3 million, \$6.9 million of which was classified as non-current debt at June 30, 2007. The Chase agreements contain affirmative and negative covenants, including the maintenance of certain levels of tangible net worth, maintenance of certain levels of unencumbered cash and marketable securities, limitations on capital spending and certain financial reporting requirements. The Chase agreement is our only debt agreement that contains an expressed prohibition on incurring additional debt for borrowed money without the approval of the lender. None of our other agreements contain such a prohibition. As of June 30, 2007, our warehouse and office facility in Farmers Branch, Texas, 15 car washes and one truck wash were encumbered by mortgages.

The Company entered into amendments to the Chase term loan agreements effective September 30, 2006. The amended debt coverage ratio with Chase eliminated the Company's requirement to maintain a ratio of consolidated earnings before interest, income taxes, depreciation and amortization to debt service. Additionally, the Chase term loan agreement also limits capital expenditures annually to \$1.0 million, requires the Company to provide Chase with a Form 10-K and audited financial statements within 120 days of the Company's fiscal year end and a Form 10-Q within 60 days after the end of each fiscal quarter, and requires the maintenance of a minimum total unencumbered cash and marketable securities balance of \$5 million. The Company did not timely provide the required financial statements and, accordingly, was not in compliance with the Chase loan agreement covenants. The Company received a waiver of acceleration from Chase at June 30, 2007 and for measurement periods through July 1, 2008 related to its untimely filing of financial statements, accordingly, a portion of the Chase notes payable was reflected as non-current on our financial statements at June 30, 2007. If we are unable to satisfy these covenants and we cannot obtain further waivers, the Chase notes may be reflected as current in future balance sheets and as a result our stock price may decline.

Our ongoing ability to comply with the debt covenants under our credit arrangements and refinance our debt depends largely on our achievement of adequate levels of cash flow. Our cash flow has been and could continue to be adversely affected by weather patterns and economic conditions. In the future, if our cash flows are less than expected or debt service, including interest expense, increases more than expected, we may continue to be out of compliance with the Chase covenants and may need to seek additional waivers or amendments.

If we default on any of the Chase covenants and are not able to obtain further amendments or waivers of acceleration, Chase debt totaling \$11.3 million at June 30, 2007, including debt recorded as long-term debt at June 30, 2007, could become due and payable on demand, and Chase could foreclose on the assets pledged in support of the relevant indebtedness. If our assets (including up to 15 of our car wash facilities and one truck wash as of June 30, 2007) are foreclosed upon, revenues from our Car and Truck Wash Segment, which comprised 52% of our total revenues for fiscal years 2006 and 51% of our total revenues in the six months ended June 30, 2007, would be severely impacted and we may be unable to continue to operate our business. Even if the debt were accelerated without foreclosure, it would be very difficult for us to continue to operate our business and we may go out of business.

13. Earnings Per Share

The following table sets forth the computation of basic and diluted earnings per share (in thousands, except shares and per share data):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Numerator:				
Net loss	\$ (1,264)	\$ (1,879)	\$ (1,922)	\$ (2,845)
Denominator:				
Denominator for basic earnings per share - weighted-average shares	15,275,382	15,274,311	15,275,382	15,373,600
Dilutive effect of options and warrants	-	-	-	-
Denominator for diluted earnings per share - weighted- average shares	15,272,382	15,274,311	15,275,382	15,273,600
Basic and diluted loss per share	\$ (0.08)	\$ (0.12)	\$ (0.13)	\$ (0.19)

The effect of options and warrants for the period in which we incurred a net loss has been excluded as it would be anti-dilutive. The dilutive effect of options and warrants excluded was 442,118 and 221,196 for the three months ended June 30, 2007 and 2006, respectively, and 476,826 and 217,412 for the six months ended June 30, 2007 and 2006, respectively.

14. Subsequent Events

On July 20, 2007, the Company completed the purchase of all of the outstanding common stock of Linkstar Interactive, Inc. ("Linkstar") from Linkstar's shareholders. The Company paid approximately \$10.3 million consisting of \$6.8 million in cash at closing, a \$500,000 promissory note bearing a 5% interest rate due on January 3, 2008 and 1,176,471 shares of the Company's stock. The Company's stock was used based on a closing price of \$2.55 per share or a total value of \$3.0 million. Linkstar is an online internet advertising and online internet direct marketing company. Linkstar's primary assets are inventory, accounts receivable, propriety software, customer contracts, and its business methods. The acquisition of Linkstar enables the Company to expand the marketing of its security products through online channels and provides the Company with a presence in the online and digital media services industry. The

purchase price will be allocated to assets and liabilities received with the remainder of the purchase price allocated to goodwill and other intangible assets. The acquisition will be accounted for as business combination in accordance with SFAS No. 141, *Business Combinations*.

On August 3, 2007, the Company completed the sale of two exterior-only car wash facility in New Jersey. Cash proceeds from the sale of these two facilities were approximately \$1.38 million; resulting in a gain of approximately \$182,000.

On August 13, 2007, the Company's Board of Directors authorized a Stock Buy Back Plan to purchase shares of the Company's common stock up to a maximum value of \$2.0 million. Purchases will be made in the open market, if and when management determines to effect purchases. Management may elect not to make purchases or make purchases less than \$2.0 million in amount. As of August 13, 2007, the Company did not purchase any shares on the open market.

15. Florida Security Division

In April 2007, we determined that the former divisional controller of the Florida Security division embezzled funds from the Company. We initially conducted an internal investigation, and our Audit Committee subsequently engaged a consulting firm to conduct an independent forensic investigation. As a result of the investigation, we identified that the amount embezzled by the employee during fiscal 2006 was approximately \$240,000, with an additional \$99,000 in the first quarter of fiscal 2007. The embezzlement occurred from a local petty cash checking account and from diversion of customer cash payments at the Florida Security division. Additionally, the investigation uncovered an unexplained inventory shortage in 2006 in the Florida Security division of approximately \$350,000, which may be due to theft. We filed a civil complaint against the former employee in June, 2007 and intend to pursue all legal measures to recover our losses. SG&A expenses include \$99,000 in the quarter ended March 31, 2007, representing embezzled funds at our Florida Security division. If we recover any of the embezzled funds, such amounts will be recorded as recoveries in future periods when they are received.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion of the financial condition and results of operations should be read in conjunction with the financial statements and the notes thereto included in this Form 10-Q.

Forward-Looking Statements

This report includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended ("Forward-Looking Statements"). All statements other than statements of historical fact included in this report are Forward-Looking Statements. Although we believe that the expectations reflected in such Forward-Looking Statements are reasonable, we can give no assurance that such expectations will prove to be correct. Generally, these statements relate to business plans or strategies, projected or anticipated benefits or other consequences of such plans or strategies, number of acquisitions, and projected or anticipated benefits from acquisitions made by or to be made by us, or projections involving anticipated revenues, earnings, levels of capital expenditures or other aspects of operating results. All phases of our operations are subject to a number of uncertainties, risks, and other influences, many of which are outside our control and any one of which, or a combination of which, could materially affect the results of our operations and whether Forward-Looking Statements made by us ultimately prove to be accurate. Such important factors that could cause actual results to differ materially from our expectations are disclosed in *Item 1A Risk Factors* of this report. All subsequent written and oral Forward-Looking Statements attributable to the Company or persons acting on its behalf are expressly qualified in their entirety by the important factors described below that could cause actual results to differ from our expectations. The Forward-Looking Statements made herein are only made as of the date of this filing, and we undertake no obligation to publicly update such Forward-Looking Statements to reflect subsequent events or circumstances.

Summary of Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations is based upon the Company's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities at the date of the Company's financial statements. Actual results may differ from these estimates under different assumptions or conditions.

Critical accounting policies are defined as those that are reflective of significant judgments and uncertainties, and potentially result in materially different results under different assumptions and conditions. The Company's critical accounting policies are described below.

Revenue Recognition and Deferred Revenue

Revenues from the Company's Car and Truck Wash Segment are recognized, net of customer coupon discounts, when services are rendered or fuel or merchandise is sold. The Company records a liability for gift certificates, ticket books, and seasonal and annual passes sold at its car care locations but not yet redeemed. The Company estimates these unredeemed amounts based on gift certificate and ticket book sales and redemptions throughout the year, as well as utilizing historical sales and tracking of redemption rates per the car washes' point-of-sale systems. Seasonal and annual passes are amortized on a straight-line basis over the time during which the passes are valid.

Revenues from the Company's Security Segment are recognized when shipments are made or for sales when title has passed. Shipping and handling charges and costs of \$257,000 and \$339,000 in the six months ended June 30, 2007 and 2006, respectively, are included in revenues, the cost of which is included in selling, general and administrative ("SG&A") expenses.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash, highly liquid short-term investments with original maturities of three months or less, and credit card deposits which are converted into cash within two to three business days.

Short-Term Investments

At June 30, 2007, the Company had approximately \$3.9 million of investments classified as available for sale in three funds which are stated at market value. The Company may exit one of the funds at the end of any calendar quarter with 30 days advanced written notice and the other funds may be exited with one business day's notice. In the six months ended June 30, 2007 and 2006, the Company realized a total gain of \$210,000 and \$94,000, respectively on these investments. Additionally, a cumulative unrealized gain, net of tax, of approximately \$495,000 is included as a separate component of equity in Accumulated Other Comprehensive Income at June 30, 2007.

Impairment of Long-Lived Assets

In accordance with SFAS 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, we periodically review the carrying value of our long-lived assets held and used, and assets to be disposed of, when events and circumstances warrant such a review. If significant events or changes in circumstances indicate that the carrying value of an asset or asset group may not be recoverable, we perform a test of recoverability by comparing the carrying value of the asset or asset group to its undiscounted expected future cash flows. Cash flow projections are sometimes based on a group of assets, rather than a single asset. If cash flows cannot be separately and independently identified for a single asset, we determine whether an impairment has occurred for the group of assets for which we can identify the projected cash flows. If the carrying values are in excess of undiscounted expected future cash flows, we measure any impairment by comparing the fair value of the asset group to its carrying value. If the fair value of an asset or asset group is determined to be less than the carrying amount of the asset or asset group, an impairment in the amount of the difference is recorded.

Goodwill

In accordance with SFAS 142, *Goodwill and Other Intangible Assets*, the Company completed annual impairment tests as of November 30, 2006, 2005, and 2004, and will be subject to an impairment test each year thereafter and whenever there is an impairment indicator. The Company's annual impairment testing corresponds with the Company's determination of its annual operating budgets for the upcoming year. The Company's valuation of goodwill is based on a discounted cash flow model applying an appropriate discount rate to future expected cash flows and management's annual review of historical data and future assessment of certain critical operating factors, including security product sales and related costs, car wash volumes, average car wash and detailing revenue rates per car, wash and detailing labor cost percentages, weather trends and recent and expected operating cost levels. Estimating cash flows requires significant judgment including factors beyond our control and our projections may vary from cash flows eventually realized. Adverse business conditions could affect recoverability of goodwill in the future and, accordingly, the Company may record additional impairments in subsequent years.

Other Intangible Assets

Other intangible assets consist primarily of deferred financing costs, customer lists, product lists and trademarks. In accordance with SFAS 142, *Goodwill and Other Intangible Assets*, our trademarks are considered to have indefinite lives, and as such, are not subject to amortization. These assets are tested for impairment using discounted cash flow methodology annually and whenever there is an impairment indicator. Estimating future cash flows requires significant judgment and projections may vary from cash flows eventually realized. Several impairment indicators are beyond our control, and cannot be predicted with any certainty whether or not they will occur. Deferred financing costs are amortized on a straight-line basis over the terms of the respective debt instruments. Customer lists, product lists, and non-compete agreements are amortized on a straight-line or accelerated basis over their respective estimated useful lives.

Income Taxes

Deferred income taxes are determined based on the difference between the financial accounting and tax bases of assets and liabilities. Deferred income tax expense (benefit) represents the change during the period in the deferred income tax assets and deferred income tax liabilities. Deferred income tax assets include tax loss and credit carryforwards and are reduced by a valuation allowance if, based on available evidence, it is more likely than not that some portion or all of the deferred income tax assets will not be realized.

Stock-Based Compensation

The Company has two stock-based employee compensation plans. On January 1, 2006, the Company adopted SFAS123(R), *Share-Based Payment*, which requires that the compensation cost relating to share-based payment transactions be recognized in financial statements. We adopted SFAS 123 (R) using the modified prospective method, which results in recognition of compensation expense for all share-based awards granted or modified after December 31, 2005 as well as all unvested awards outstanding at the date of adoption. The cost is recognized as compensation expense over the vesting period of the instruments, based upon the grant date fair value of the equity or liability instruments issued. The adoption of SFAS 123(R) resulted in stock compensation expense and therefore a reduction of income from continuing operations before income taxes of \$332,000 (\$309,000 in continuing operations-SG&A, \$6,000 in continuing operations-cost of revenues and \$17,000 in discontinued operations) in the six months ended June 30, 2007, and \$ 387,000 (\$373,000 in continuing operations-SG&A expense, \$7,000 in continuing operations-cost of revenues and \$ 7,000 in discontinued operations) in the six month ended June 30, 2006. The Company expects the application of SFAS 123 (R) to result in stock compensation expense and therefore a reduction of income before income taxes in 2007 of \$1.1 million to \$1.2 million. The Company's actual stock compensation expense in 2007 could differ materially from this estimate depending on the timing, magnitude and vesting of new awards, the number of new awards and changes in the market price or the volatility of the Company's common stock.

Supplementary Cash Flow Information

Interest paid on all indebtedness was approximately \$879,000 and \$1.1 million for the six months ended June 30, 2007 and 2006 respectively. Income taxes paid were \$74,000 and \$188,000 in the six months ended June 30, 2007 and 2006, respectively.

Introduction

Revenues

Security

Our Security Segment designs, manufactures, markets and sells a wide range of products. The Company's primary focus in the Security Segment is the design of electronic surveillance products and components that it produces and sells, primarily to installing dealers, system integrators and end users. Other products in our Security Segment include, but are not limited to, less-than-lethal Mace defense sprays, personal alarms, high-end digital and machine vision cameras and imaging components, as well as video conferencing equipment and monitors. The main marketing channels for our products are industry trade shows and publications, outside sales representatives, catalogs, internet and sales through a call center. Revenues generated for the six months ended June 30, 2007 for the Security Segment were comprised of approximately 35% from our professional electronic surveillance operation in Florida, 19% from our consumer direct electronic surveillance operations in Texas, 27% from our machine vision camera and video conferencing equipment operation in Texas, and 19% from our personal defense and law enforcement aerosol operation in Vermont.

Car and Truck Wash Services

At June 30, 2007, we owned 23 and leased two car wash facilities including full service, exterior only and self-service car wash locations in New Jersey, Texas and Florida as well as truck washes in Arizona, Indiana, Ohio and Texas. We earn revenues from washing and detailing automobiles; performing oil and lubrication services, minor auto repairs, and state inspections; selling fuel; and selling merchandise through convenience stores within the car wash facilities. Revenues generated for the six months ended June 30, 2007 for the Car and Truck Wash Segment were comprised of approximately 75% car wash and detailing, 13% lube and other automotive services, and 12% fuel and merchandise.

Additionally, our Arizona car wash region, our Northeast car wash region and our truck washes are being reported as discontinued operations (see Note 5 of the Notes to Consolidated Financial Statements) and, accordingly, has been segregated from the following revenue and expense discussion. Revenues from discontinued operations were \$4.5 million and \$8.1 million for the six months ended June 30, 2007 and 2006, respectively. Operating income from discontinued operations was \$233,000 and \$385,000 for the six months ended June 30, 2007 and 2006, respectively.

The Company executed a lease-to-sell agreement on December 31, 2005 with Eagle United Truck Wash, LLC (“Eagle”) to lease Mace’s five truck washes beginning January 1, 2006 for up to two years. Pursuant to the terms of the agreement, Eagle must pay Mace \$9,000 per month to lease the Company’s truck washes, and is responsible for all underlying property expenses. Within the next two years, Eagle is obligated under the agreement to purchase the truck washes and be delivered title to the assets for \$1.2 million consideration, consisting of \$280,000 cash and a \$920,000 note payable to Mace secured by mortgages on the truck washes. When issued, the \$920,000 note will have a five-year term, with principal and interest paid on a 15-year amortization schedule. If Eagle does not fulfill its obligation to purchase the truck washes, the Company will regain possession of the truck washes and Eagle will be obligated to pay \$200,000 as liquidated damages. As a result, we do not recognize revenue or operating expenses during the term of the lease other than rental income, depreciation expense and interest expense.

The majority of revenues are collected in the form of cash or credit card receipts, thus minimizing customer accounts receivable.

Weather has had a significant impact on volume and revenue at individual locations. We believe that the geographic diversity of our operating locations in different regions of the country helps mitigate the risk of adverse weather-related influence on our volume.

Cost of Revenues

Security

Cost of revenues within the Security Segment consists primarily of costs to purchase or manufacture the security products including direct labor and related taxes and fringe benefits, and raw material costs. Product warranty costs related to the Security Segment are mitigated in that a significant portion of customer product defect claims are reimbursed by the supplier of the products.

Car and Truck Wash Services

Cost of revenues within the Car and Truck Wash Segment consists primarily of direct labor and related taxes and fringe benefits, certain insurance costs, chemicals, wash and detailing supplies, rent, real estate taxes, utilities, car damages, maintenance and repairs of equipment and facilities, as well as the cost of the fuel and merchandise sold.

Selling, General and Administrative Expenses

Selling, general and administrative (“SG&A”) expenses consist primarily of management, clerical and administrative salaries, professional services, insurance premiums, sales commissions, and other costs relating to marketing and sales.

We capitalize direct incremental costs associated with business acquisitions. Indirect acquisition costs, such as executive salaries, corporate overhead, public relations, and other corporate services and overhead are expensed as incurred.

Depreciation and Amortization

Depreciation and amortization consists primarily of depreciation of buildings and equipment, and amortization of leasehold improvements and certain intangible assets. Buildings and equipment are depreciated over the estimated useful lives of the assets using the straight-line method. Leasehold improvements are amortized over the shorter of their useful lives or the lease term with renewal options. Intangible assets, other than goodwill or intangible assets with indefinite useful lives, are amortized over their useful lives ranging from three to fifteen years, using the

straight-line method or an accelerated method.

Other Income

Other income consists primarily of rental income received on renting out excess space at our car wash facilities and includes gains and losses on the sale of property and equipment and gains and losses on short-term investments.

Income Taxes

Income tax expense is derived from tax provisions for interim periods that are based on the Company's estimated annual effective rate. Currently, the effective rate differs from the federal statutory rate primarily due to state and local income taxes, non-deductible costs related to acquired intangibles, fixed asset adjustments and changes to the valuation allowance.

Liquidity and Capital Resources

Liquidity

Cash and cash equivalents and short-term investments were approximately \$ 20.4 million at June 30, 2007. The ratio of our total debt to total capitalization, which consists of total debt plus stockholders' equity, was 20.3% at June 30, 2007, and 29.8% at December 31, 2006.

Our business requires a substantial amount of capital, most notably to pursue our expansion strategies, including our current expansion in the Security Segment, and for equipment purchases and upgrades for our Car and Truck Wash Segment. We plan to meet these capital needs from various financing sources, including borrowings, internally generated funds, and the issuance of common stock if the market price of the Company's stock is at a desirable level.

As of June 30, 2007, we had working capital of approximately \$23.2 million. At December 31, 2006, working capital was approximately \$26.6 million. Our working capital decreased by approximately \$3.4 million from December 31, 2006 to June 30, 2007 principally due to the sale of the Arizona car washes classified as Assets held for sale and liabilities related to assets held for sale at March 31, 2007, and the reclassification of \$2.9 million of mortgage loans related to our Austin, Texas car washes from non-current to current as a result of this debt being up for renewal in February 2008. Although we expect that we will be successful in renewing this debt for an additional five years, there can be no assurances that this will occur.

During the six month periods ending June 30, 2007 and 2006, we made capital expenditures within our Car and Truck Wash Segment of \$192,000 and \$451,000, respectively, including \$102,000 and \$253,000 of capital expenditures related to discontinued operations, respectively. We estimate aggregate capital expenditures for our Car and Truck Wash Segment, exclusive of acquisitions of businesses, of approximately \$200,000 for the remainder of the year ending December 31, 2007. In years subsequent to 2007, we estimate that our Car and Truck Wash Segment will require annual capital expenditures of \$350,000 to \$400,000. This estimate could differ depending on the timing of the sale of the remaining car washes. Capital expenditures within our Car and Truck Wash Segment are necessary to maintain the efficiency and competitiveness of our sites.

Capital expenditures for our Security Segment were \$85,000 and \$135,000 for the six month periods ending June 30, 2007 and 2006, respectively. We estimate capital expenditures for the Security Segment will be approximately \$100,000 for the remainder of 2007.

We intend to continue to expend significant cash for the purchase of inventory as we grow and introduce new video surveillance products in 2007 and in years subsequent to 2007. We anticipate that inventory purchases will be funded from cash collected from sales and working capital. At June 30, 2007, we maintained an unused \$500,000 revolving credit facility with Chase to provide financing for additional video surveillance product inventory purchases. The amount of capital that we will spend for the remainder of 2007 and in years subsequent to 2007 is largely dependent on the marketing success we achieve with our video surveillance systems and components.

On , March 13, 2006, the Company learned that the United States Attorney for the Eastern District of Pennsylvania is conducting a criminal investigation regarding the alleged hiring of undocumented workers at the Company's car washes. From March 13, 2006 through June 30, 2007, the Company incurred approximately \$433,000, including \$0 in the first six months of fiscal 2007 in legal, consulting and accounting expenses associated with the Audit Committee investigations and \$1.75 million, including \$248,000 in the first six months of fiscal 2007, associated with the governmental investigation and the Company's defense and negotiations with the government. Total legal, consulting and accounting expenses associated with these investigations in the three and six months ending June 30, 2007 were approximately \$116,000 and \$248,000, respectively. In accordance with the Company's By-Laws, the Company is obligated to indemnify and advance legal costs for its officers and directors. Due to the ongoing nature of the criminal

investigation, it is not possible at this time to predict the outcome of the investigation or the impact of costs of ultimately resolving this matter. However, we believe that additional legal and other costs and expenses through the remainder of 2007 and in years subsequent to 2007 may be significant as we work to resolve the criminal investigation. In addition, we may be required to make substantial payments for fines, penalties or settlements in connection with the resolution of alleged violations of laws. Any such expenses or payments could have a material adverse effect on our liquidity and capital resources.

Despite our recent operating losses, we believe our cash and short-term investment balance of approximately \$20.4 million at June 30, 2007, cash flow from operating activities, cash provided from the sale of assets, and the revolving credit facility will be sufficient to meet its car wash and security operations capital expenditure and operating funding needs through at least the next twelve months and provide for growth in 2007.

In December 2004, the Company announced that it was exploring the sale of its car and truck washes. In December 2005 through May 31, 2007, we sold 24 car washes with total cash proceeds generated of approximately \$20.8 million, net of pay off of related mortgage debt. In October 2006, the Company announced that management determined that better value for the car washes can be obtained by individual car wash site sales or sale of car washes by operating region. We believe we will be successful in selling additional car washes and generating cash for funding of current operating needs and expansion of our Security Segment. If the cash provided from operating activities does not improve in 2007 and in future years and if current cash balances are depleted, we will need to raise additional capital to meet these ongoing capital requirements.

In the past, we have been successful in raising capital by selling common stock, obtaining mortgage loans and selling car wash properties. Our ability to raise additional capital can be adversely impacted by our stock price. Our failure to maintain the required debt covenants on existing loans also adversely impacts our ability to raise additional capital. We are reluctant to sell common stock at market prices below our per share book value. For the twelve month period ended June 30, 2007, we were in default of our debt covenants related to our untimely filing of financial statements. We obtained a waiver through July 1, 2008 from Chase. Our ability to raise additional capital will be limited if our stock price is not above our per share book value and our cash from operating activities does not improve. Currently, we cannot incur additional long-term debt without the approval of one of our commercial lenders. The Company must demonstrate that the cash flow benefit from the use of new loan proceeds exceeds the resulting future debt service requirements.

Debt Capitalization and Other Financing Arrangements

At June 30, 2007, we had borrowings, including capital lease obligations and discontinued operations, of approximately \$14 million. We had three letters of credit outstanding at June 30, 2007, totaling \$1,149,000 as collateral relating to workers' compensation insurance policies. We maintain a \$500,000 revolving credit facility to provide financing for additional video surveillance product inventory purchases. There were no borrowings outstanding under the revolving credit facility at June 30, 2007. The Company also maintains a \$300,000 line of credit for commercial letters of credit for the importation of inventory. There were no outstanding commercial letters of credit under this commitment at June 30, 2007.

Several of our debt agreements, as amended, contain certain affirmative and negative covenants and require the maintenance of certain levels of tangible require net worth, require the maintenance of certain unencumbered cash and marketable securities balances, contain limitations on capital spending and certain financial reporting requirements.

At March 31, 2007, the Company had notes payable with Capmark in the amount of \$8.5 million which were reported as a current liability included in liabilities related to assets held for sale at March 31, 2007. We repaid this debt on May 17, 2007 with proceeds from the sale of the Arizona car washes to Twisted Cactus Enterprises, LLC.

The Company entered into amendments to the Chase term loan agreements effective September 30, 2006. The amended debt coverage ratio with Chase eliminated the Company's requirement to maintain a ratio of consolidated earnings before interest, income taxes, depreciation and amortization to debt service. Additionally, the Chase term loan agreement also limits capital expenditures annually to \$1.0 million, requires the Company to provide Chase with a Form 10-K and audited financial statements within 120 days of the Company's fiscal year end and a Form 10-Q within 60 days after the end of each fiscal quarter, and requires the maintenance of a minimum total unencumbered cash and marketable securities balance of \$5 million. The Company did not timely provide the required financial statements and, accordingly, was not in compliance with the Chase loan agreement covenants. The Company received a waiver of acceleration from Chase at June 30, 2007 and for measurement periods through July 1, 2008 related to its untimely filing of financial statements. Accordingly, a portion of the Chase notes payable was reflected as non-current on our financial statements at June 30, 2007. If we are unable to satisfy these covenants and we cannot obtain further waivers, the Chase notes may be reflected as current in future balance sheets and as a result our stock price may

decline.

If we default on any of the Chase covenants and are not able to obtain further amendments or waivers of acceleration, Chase debt totaling \$11.3 million at June 30, 2007, including debt recorded as long-term debt at June 30, 2007, could become due and payable on demand, and Chase could foreclose on the assets pledged in support of the relevant indebtedness. If our assets (including up to 15 of our car wash facilities and one truck wash as of June 30, 2007) are foreclosed upon, revenues from our Car and Truck Wash Segment, which comprised 52% of our total revenues for fiscal year 2006 and 51% of our total revenues in the six months ended June 30, 2007, would be severely impacted and we may be unable to continue to operate our business. Even if the debt were accelerated without foreclosure, it would be very difficult for us to continue to operate our business and we may go out of business.

21

The Company's ongoing ability to comply with its debt covenants under its credit arrangements and refinance its debt depends largely on the achievement of adequate levels of cash flow. If our future cash flows are less than expected or our debt service, including interest expense, increases more than expected causing us to further default on any of the Chase covenants in the future, the Company will need to obtain further amendments or waivers from Chase. Our cash flow has been and could continue to be adversely affected by weather patterns, economic conditions, and the requirements to fund the growth of our security business. In the event that non-compliance with the debt covenants should continue to occur, the Company would pursue various alternatives to attempt to successfully resolve the non-compliance, which might include, among other things, seeking additional debt covenant waivers or amendments, or refinancing debt with other financial institutions. If the Company is unable to obtain waivers or amendments in the future, Chase debt currently totaling \$11.3 million, including debt recorded as long-term debt at June 30, 2007, would become payable on demand by Chase upon expiration of current waivers. There can be no assurance that further debt covenant waivers or amendments would be obtained or that the debt would be refinanced with other financial institutions at favorable terms. If we are unable to obtain renewals on maturing loans or refinancing of loans on favorable terms, our ability to operate would be materially and adversely affected.

The Company is obligated under various operating leases, primarily for certain equipment and real estate within the Car and Truck Wash Segment. Certain of these leases contain purchase options, renewal provisions, and contingent rentals for our proportionate share of taxes, utilities, insurance and annual cost of living increases.

The following are summaries of our contractual obligations and other commercial commitments at June 30, 2007, including discontinued operations (in thousands):

Payments Due By Period

<u>Contractual Obligations</u> (1)					
	Total	Less than One Year	One to Three Years	Three to Five Years	More Than Five Years
Long-term debt (2)	\$ 13,966	\$ 4,352	\$ 7,684	\$ 540	\$ 1,390
Capital leases (2)	2	2	-	-	-
Minimum operating lease payments	4,208	670	1,027	813	1,698
	\$ 18,176	\$ 5,024	\$ 8,711	\$ 1,353	\$ 3,088

Amounts Expiring Per Period

<u>Other Commercial Commitments</u>					
	Total	Less Than One Year	One to Three Years	Three to Five Years	More Than Five Years
Line of credit (3)	\$ -	\$ -	\$ -	\$ -	\$ -
Standby letters of credit (4)	1,149	1,149	-	-	-
	\$ 1,149	\$ 1,149	\$ -	\$ -	\$ -

- (1) Potential amounts for inventory ordered under purchase orders are not reflected in the amounts above as they are typically cancelable prior to delivery and, if purchased, would be sold within the normal business cycle.
- (2) Related interest obligations have been excluded from this maturity schedule. Our interest payments for the next twelve month period, based on current market rates, are expected to be approximately \$1 million.
- (3) The Company maintains a \$500,000 line of credit with Chase. There were no borrowings outstanding under this line of credit at June 30, 2007.
- (4) The Company maintains a \$300,000 line of credit for commercial letters of credit with Chase for the importation of inventory. There were no outstanding commercial letters of credit under this commitment at June 30, 2007. Outstanding letters of credit of \$1,149,000 represent collateral for workers' compensation insurance policies.

Mace currently employs Louis D. Paolino, Jr. as its President and Chief Executive Officer under a three-year employment agreement dated August 21, 2006. The principal terms of the employment agreement include: an annual salary of \$450,000; three annual stock option grants fully vested on the date of each grant; certain bonus payments for the sale or purchase of businesses; a car at a lease cost of \$1,500 per month; provision for certain medical and other employee benefits; and prohibition against competing with Mace during employment and for a three-month period following a termination of employment. Mr. Paolino's employment agreement also provides for a payment of 2.99 times Mr. Paolino's average total compensation (base salary plus any bonuses plus the value of any option award, valued using the Black-Scholes method) over the past five years, upon termination of employment under certain conditions or upon a change in control. Additionally, if Mr. Paolino receives the change of control bonus, his employment agreement can then be terminated without an additional payment. Of the three stock options grants provided for in Mr. Paolino's employment agreement, the first grant, exercisable into 450,000 shares of the Company's common stock, was made on August 21, 2006. The second grant will be made on or about August 27, 2007 and the third grant will be made on or about August 21, 2008. Because the grants are fully vested on the date of grant, they do not provide an incentive against Mr. Paolino resigning his employment.

Cash Flows

Operating Activities. Net cash used in operating activities totaled \$3.8 million for the six months ended June 30, 2007. Cash used in operating activities in 2007 was primarily due to a net loss from continuing operations of \$3.8 million, which included \$315,000 in non-cash stock based compensation charges and \$791,000 of depreciation and amortization. Cash was also impacted by a reduction in accounts payable and accrued expenses of \$172,000 and an increase in accounts receivable of \$193,000. Net cash used in operating activities totaled \$2.8 million for the six months ended June 30, 2006. Cash used in operating activities in 2006 was primarily due to a net loss of \$3.0 million, increases in accounts receivable and inventory totaling \$2.1 million, primarily in the security segment, and a reduction in accounts payable and accrued expenses of \$200,000.

Investing Activities. Cash provided by investing activities totaled approximately \$17.4 million for the six months ended June 30, 2007, which includes net proceeds from sale of discontinued operations of \$17.2 million, capital expenditures of \$95,000 related to ongoing car wash operations and corporate, \$85,000 for Security Segment operations, and \$102,000 for discontinued operations. Cash used in investing activities totaled \$402,000 for the six months ended June 30, 2006, which includes capital expenditures of \$200,000 related to ongoing car wash operations and corporate, \$135,000 for the Security Segment, and \$253,000 for discontinued operations.

Financing Activities. Cash used in financing activities was approximately \$1.1 million for the six months ended June 30, 2007, which includes \$623,000 of routine principal payments on debt from continuing operations and \$447,000 of routine principal payments on debt related to discontinued operations. Cash used in financing activities was \$1.1 million for the six months ended June 30, 2006, which includes routine principal payments on debt of \$585,000 from continuing operations and \$494,000 from discontinued operations.

**Results of Operations for the Six Months Ended June 30, 2007
Compared to the Six Months Ended June 30, 2006**

The following table presents the percentage each item in the consolidated statements of operations bears to total revenues:

	Six Months Ended	
	2007	2006
Revenues	100.0%	100.0%
Cost of revenues	76.9	74.7
Selling, general and administrative expenses	36.3	32.6
Depreciation and amortization	3.5	3.1
Operating loss	(16.7)	(10.4)
Interest expense, net	(1.9)	(1.9)
Other income	2.0	0.6
Loss from continuing operations before income taxes	(16.6)	(11.7)
Income tax expense	(0.2)	(0.3)
Loss from continuing operations	(16.8)	(12.0)
Income from discontinued operations	8.3	.9
Net loss	(8.5)%	(11.1)%

Revenues

Security

Revenues within the Security Segment were approximately \$11.1 million and \$12.4 million for the six months ended June 30, 2007 and 2006, respectively. Of the \$11.1 million of revenues for the six months ended June 30, 2007, \$3.8 million, or 35%, was generated from our professional electronic surveillance operation in Florida, \$2.2 million, or 19%, from our consumer direct electronic surveillance equipment operations in Texas, \$3.0 million or 27%, from our machine vision camera and video conferencing equipment operation in Texas, and \$2.1 million, or 19%, from personal defense and law enforcement aerosol operation. Of the \$12.4 million of revenues for the six months ended June 30, 2006, \$5.1 million, or 41%, was generated from our professional electronic surveillance operation in Florida, \$2.5 million, or 20%, from our consumer direct electronic surveillance equipment operation in Texas, \$3.2 million, or 26%, from our machine vision camera and video conference equipment operation in Texas, and \$1.6 million, or 13%, from our personal defense and law enforcement aerosol operation. The decrease in revenues within the Security Segment was due to a decrease in our consumer direct electronic surveillance and machine vision camera and video conferencing equipment in Texas and our professional electronic surveillance operation in Florida. The decrease in sales in our professional electronic surveillance operation was partially a result of sales of discontinued and refurbished products at lower selling prices, the inability of some of Mace's vendors to supply high volume products in a timely manner, and the impact on operations and management of the Florida embezzlement investigation. Additionally, our professional electronic surveillance operation in Florida experienced higher than historic product returns due to increase sales to distributors and technical issues related to certain products. This decrease in revenue was partially offset by a \$571,000 or 37% increase in revenue in our personal defense and law enforcement aerosol operations with a noted increase in sales in our Mace aerosol defense sprays and TG Guard® products.

Car and Truck Wash Services

Revenues for the six months ended June 30, 2007 were \$11.6 million as compared to \$13.2 million for the six months ended June 30, 2006, a decrease of 1.6 million or 12%. This decrease was primarily attributable to a decrease in wash and detail services. Of the \$11.6 million of revenues for the six months ended June 30, 2007, \$8.6 million or 75% was generated from car wash and detailing, \$1.6 million or 13% from lube and other automotive services, and \$1.4 million or 12% from fuel and merchandise sales. Of the \$13.2 million of revenues for the six months ended June 30, 2006, \$9.7 million or 73% was generated from car wash and detailing, \$1.7 million or 13% from lube and other automotive services, and \$1.8 million or 14% from fuel and merchandise sales. The decrease in wash and detail revenues in 2007 was principally due to the sale of car washes and reduced car wash volumes in the Texas and Florida market due to unfavorable weather. Overall car wash volumes declined by 100,000 cars, or 17%, in the first quarter of 2007 as compared to the first six months of 2006, 15% excluding the impact of a car wash volume reduction of 11,000 cars from the closure and divestiture of two car wash locations since December, 2006 included in continuing operations. Partially offsetting this decline in volume, the Company experienced an increase in average wash and detailing revenue per car to \$17.95 in the first six months of 2007 from \$16.64 in the same period in 2006.

Cost of Revenues

Security

During the six months ended June 30, 2007 cost of revenues were \$8.2 million or 74% of revenues as compared to \$8.9 million or 72% of revenues for the six months ended June 30, 2006. The increase in cost of revenues as a percentage of revenues is due to a change in customer and product mix and an increase in sale of discontinued products and refurbished items at lower profit margins.

Car and Truck Wash Services

Cost of revenues for the six months ended June 30, 2007 were \$9.2 million, or 79% of revenues, with car washing and detailing costs at 77% of respective revenues, lube and other automotive services costs at 81% of respective revenues, and fuel and merchandise costs at 88% of respective revenues. Cost of revenues for the six months ended June 30, 2006 were \$10.2 million, or 77% of revenues, with car washing and detailing costs at 76% of respective revenues, lube and other automotive services costs at 76% of respective revenues, and fuel and merchandise costs at 89% of respective revenues. This slight increase in car washing and detailing costs as a percent of revenues in 2007 was the result of an increase in cost of labor as a percent of car wash and detailing revenues from 50.7% in 2006 to 51.7% in 2007 as a result of reduced volumes. These increases were partially offset by a reduction in workers' compensation and car damage claims.

Selling, General and Administrative Expenses

Selling, general and administrative expenses for the six months ended June 30, 2007 were \$8.3 million compared to \$8.4 million for the same period in 2006. SG&A expenses as a percent of revenues were 36% for the six months ended June 30, 2007 as compared to 33% in the first six months of 2006. The increase in SG&A costs is primarily the result of the growth in infrastructure and an increase in marketing and advertising costs within the Security Segment which added an additional \$90,000 of SG&A costs in 2007 and an increase in advertising costs in the car and truck wash services segment. Additionally, SG&A expenses include \$248,000 of legal, consulting and accounting fees in the first six months of 2007 relating to the ongoing immigration investigation as compared to \$1.1 million in the first six months of 2006. In April 2007, we determined that our former Florida security based divisional controller embezzled funds from us. We initially conducted an internal investigation, and our Audit Committee subsequently engaged an independent consulting firm to conduct an independent forensic investigation. As a result of our investigation, we estimated that the amount embezzled by the employee during fiscal 2006 was approximately \$240,000 and \$99,000 in the first quarter of fiscal 2007. SG&A expenses for the six months ending June 30, 2007 also include approximately \$300,000 of legal, consulting and accounting fees related to the Florida embezzlement investigation.

Depreciation and Amortization

Depreciation and amortization totaled \$ 791,000 for the six months ended June 30, 2007 as compared to \$797,000 for the same period in 2006.

Interest Expense, Net

Interest expense, net of interest income, for the six months ended June 30, 2007 was \$396,000 compared to \$497,000 for the six months ended June 30, 2006. The decrease in net interest expense is due to a reduction in interest expense of approximately \$52,000 as a result of a reduction in our outstanding debt and an increase in interest income of approximately \$49,000 with the Company's increase in cash and cash equivalents.

Other Income

Other income for the six months ended June 30, 2007 was \$438,000 compared to \$158,000 for the six months ended June 30, 2006. The 2007 other income includes a \$9,000 gain on the sale of a car wash site, \$210,000 of earnings on short-term investments and the recovery of a previously written off acquisition deposit of \$150,000.

25

Income Taxes

The Company recorded tax expense of \$50,000 for the six months ended June 30, 2007 and \$78,000 for the six months ended June 30, 2006. Tax expense (benefit) reflects the recording of income taxes at an effective rate of approximately (1)% in 2007 and (3)% in 2006.

Results of Operations for the Three Months ended June 30, 2007 Compared the Three Months ended June 30, 2006

Revenues

Security

Revenues within the Security Segment were approximately \$5.6 million and \$5.9 million for the three months ended June 30, 2007 and 2006, respectively. Of the \$5.6 million of revenues for the three months ended June 30, 2007, \$2.2 million, or 40%, was generated from our professional electronic surveillance operation in Florida, \$.8 million, or 14%, from our consumer direct electronic surveillance equipment operation in Texas, \$1.6 million, or 28% from our machine vision camera and video conferencing equipment operation in Texas, and \$1.0 million, or 18%, from personal defense and law enforcement aerosol operation. Of the \$5.9 million of revenues for the three months ended June 30, 2006, \$2.7 million, or 45%, was generated from our professional electronic surveillance operation in Florida, \$1.1 million, or 18%, from our consumer direct electronic surveillance equipment operation in Texas, \$1.4 million, or 25% from our machine vision camera and video conference equipment operation in Texas, and \$.7 million, or 12%, from our personal defense and law enforcement aerosol operation. The decrease in revenues within the Security Segment was due to a decrease in our consumer direct electronic surveillance and machine vision camera and video conferencing equipment in Texas and our professional electronic surveillance operation in Florida. The decrease in sales in our professional electronic surveillance operation was partially a result of sales of discontinued and refurbished products at lower selling prices, the inability of some of Mace's vendors to supply high volume products in a timely manner, and the impact on operations and management of the Florida embezzlement investigation. Additionally, our professional electronic surveillance operation in Florida experienced higher than historic product returns due to increase sales to distributors and technical issues related to certain products. This decrease in revenue was partially offset by a \$298,000 or 42% increase in revenue in our personal defense and law enforcement aerosol operations with a noted increase in sales in our Mace aerosol defense sprays and TG Guard® products.

Car and Truck Wash Services

Revenues for the three months ended June 30, 2007 were \$5.6 million as compared to \$6.7 million for the three months ended June 30, 2006, a decrease of \$1.1 million or 16%. This decrease was primarily attributable to a decrease in wash and detail services. Of the \$5.6 million of revenues for the three months ended June 30, 2007, \$4.1 million or 74% was generated from car wash and detailing, \$750,000 or 13% from lube and other automotive services, and \$753,000 or 13% from fuel and merchandise sales. Of the \$6.7 million of revenues for the three months ended June 30, 2006, \$4.8 million or 72% was generated from car wash and detailing, \$875,000 or 13% from lube and other automotive services, and \$1.0 or 15% from fuel and merchandise sales. The decrease in wash and detail revenues in 2007 was principally due to the sale of car washes and reduced car wash volumes in the Texas and Florida market due to unfavorable weather. Overall car wash volumes declined by 64,000 cars, or 22%, in the second quarter of 2007 as compared to the second quarter of 2006, 21% excluding the impact of a car wash volume reduction of 4,000 cars from the closure and divestiture of a car wash location in March, 2007 included in continuing operations. Partially offsetting this decline in volume, the Company experienced an increase in average wash and detailing revenue per car to \$18.40 in the second quarter of 2007 from \$16.58 in the same period in 2006.

Cost of Revenues

Security

During the three months ended June 30, 2007 cost of revenues were \$4.2 million or 75% of revenues as compared to \$4.3 million or 73% of revenues for the three months ended June 30, 2006. The increase in cost of revenues as a percentage of revenues is due to a change in customer and product mix and an increase in sale of discontinued products and refurbished items at lower profit margins.

26

Car and Truck Wash Services

Cost of revenues for the three months ended June 30, 2007 were \$4.6 million, or 82% of revenues, with car washing and detailing costs at 80% of respective revenues, lube and other automotive services costs at 83% of respective revenues, and fuel and merchandise costs at 89% of respective revenues. Cost of revenues for the three months ended June 30, 2006 were \$5.2 million, or 78% of revenues, with car washing and detailing costs at 77% of respective revenues, lube and other automotive services costs at 75% of respective revenues, and fuel and merchandise costs at 89% of respective revenues. This increase in car washing and detailing costs as a percent of revenues in 2007 is a result of reduced volumes related to certain fixed costs of operating the remaining car wash facilities. These increases were partially offset by a reduction in workers' compensation and car damage claims.

Selling, General and Administrative Expenses

Selling, general and administrative expenses for the three months ended June 30, 2007 were \$4.1 million compared to \$4.5 million for the same period in 2006. SG&A expenses as a percent of revenues were 36.2% for the three months ended June 30, 2007 as compared to 35.7% in the second quarter of 2006. The decrease in SG&A costs is primarily the result of a decline in legal, consulting and accounting fees related to the ongoing immigration investigation. These costs decreased from \$ 895,000 in the second quarter of 2006 to \$117,000 in the second quarter of 2007. Additionally, in April 2007, we determined that our former Florida security based divisional controller embezzled funds from us. We initially conducted an internal investigation, and our Audit Committee subsequently engaged an independent consulting firm to conduct an independent forensic investigation. As a result of our investigation, we estimated that the amount embezzled by the employee during fiscal 2006 was approximately \$240,000 and \$99,000 in the first quarter of fiscal 2007. SG&A expenses for the three months ending June 30, 2007 also includes approximately \$ 300,000 of legal, consulting and accounting fees related to the Florida embezzlement investigation.

Depreciation and Amortization

Depreciation and amortization totaled \$396,000 for the three months ended June 30, 2007 as compared to \$416,000 for the same period in 2006.

Interest Expense, Net

Interest expense, net of interest income, for the three months ended June 30, 2007 was \$146,000 compared to \$240,000 for the three months ended June 30, 2006. The decrease in net interest expense is due to a reduction in interest expense of approximately \$32,000 as a result of a reduction in our outstanding debt and an increase in interest income of approximately \$62,000 with the Company's increase in cash and cash equivalents.

Other Income

Other income for the three months ended June 30, 2007 was \$303,000 compared to \$79,000 the three months ended June 30, 2006. The 2007 other income includes \$111,000 of earnings on short-term investments and the recovery of a previously written off acquisition deposit of \$150,000.

Income Taxes

The Company recorded tax expense of \$25,000 for the three months ended June 30, 2007 and \$39,000 for the three months ended June 30, 2006. Tax expense (benefit) reflects the recording of income taxes at an effective rate of approximately (1)% in 2007 and (2)% in 2006.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There has been no material change in our exposure to market risks arising from fluctuations in foreign currency exchange rates, commodity prices, equity prices or market interest rates since December 31, 2006 as reported on our Form 10-K for the year ended December 31, 2006.

With the recent pay off of the Arizona fixed rate mortgages, near 100% of our debt at June 30, 2007, including debt related to discontinued operations, is at variable rates. Substantially all of our variable rate debt obligations are tied to the prime rate, as is our incremental borrowing rate. A one percent increase in the prime rates would not have a material effect on the fair value of our variable rate debt at June 30, 2007. The impact of increasing interest rates by one percent would have been an increase in interest expense of approximately \$151,000 on an annual basis.

On October 14, 2004, we entered into an interest rate cap that effectively changes our interest rate exposure on approximately \$7 million of variable rate debt. The variable rate debt floats at prime plus .25% (8.5% at June 30, 2007). The interest rate cap contract has a 36-month term and caps the interest rate on the \$7 million of variable rate debt at 6.5%. The derivative is designated as a cash flow hedge and, accordingly, is marked to market with gains and losses on the contract reported as a component of other comprehensive income (loss) and is classified into earnings in the earlier of (i) the period the hedged transaction affects earnings, or (ii) the termination of the hedge contract. At June 30, 2007, the contract which was originally purchased for \$124,000, is included in prepaid expenses and other current assets at its fair market value of approximately \$ 30,000.

Item 4. Controls and Procedures

The Company's disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commissions' rules, and include controls and procedures designed to ensure that such information is accumulated and communicated to the Company's management, including its principal executive and financial officers, to allow timely decisions regarding required disclosure. Based on the evaluation of the effectiveness of the Company's disclosure controls and procedures as of December 31, 2006 required by Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended, and conducted by the Company's chief executive officer and chief financial officer, such officers concluded that the Company's disclosures controls and procedures were effective as of June 30, 2007.

Internal controls over financial reporting includes those policies and procedures that: (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements. A material weakness is a significant deficiency or combination of significant deficiencies that results in more than a remote likelihood that a material misstatement of the annual or interm financial statements will not be prevented or detected.

During the first quarter of 2007, the Company identified a material weakness in its internal control over cash and financial reporting. The material weakness is related to weaknesses in certain financial controls associated with the Company's Florida based Security Division ("Florida Security Division") and corporate level. During management's closing procedures for its fiscal year ended December 31, 2006, unreconciled accounts were discovered in certain balance sheet accounts at the Company's Florida Security division. The accounts were mainly in the areas of cash, accounts receivable, inventory, and the purchase order clearing account. During the process of investigating the unreconciled accounts and determining the correct adjusting entries, management determined that the accounting controller of the Florida Security division ("Florida Controller") wrote unauthorized checks from the Florida Security Division petty cash checking account ("Petty Cash Checking Account") to a personal account of the Florida Controller in the amount of \$211,000. Management also discovered that the Florida Controller received \$54,000 in cash payments from sales to customers and did not deposit the payments in any Company bank account, issued \$46,000 of checks from the Petty Cash Checking Account payable to "petty cash" that were endorsed by the Florida Controller without any invoices or other supporting documentation and authorized \$28,000 of American Express credit card automatic debits from the Petty Cash Checking Account without invoices or other supporting documentation. The total amount embezzled was \$339,000 of which \$240,000 related to the year ended December 31, 2006 and \$99,000 in the first quarter of 2007. Management also determined that there was an unexplained inventory shortage in 2006 in the Florida Security division of approximately \$350,000 and \$100,000 in the first quarter of 2007, which may be due to theft.

The material weakness identified by the Company related to the failure of the accounting personnel within the Company's Florida Security Division to follow controls established to ensure; (i) that cash reconciliations are performed on an accurate and timely basis;(ii) that prepaid inventory amounts and related receipts are timely and accurately recorded within the purchase order clearing account; (iii) that relief of the inventory perpetual records is accurate; and (iv) that journal entries are properly recorded and reviewed. Additionally, established corporate oversight over the local level accounting personnel in this region did not operate effectively and was inadequate in the areas of: (i) effectively limiting and restricting access to cash; (ii) detailed timely review of reconciliations and non-standard journal entries; and (iii) detailed timely review of all inventory adjustments. A material weakness is a control deficiency, or combination of control deficiencies, that results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected.

Changes in Internal Control Over Financial Reporting and Remediation Actions

As we previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2006 and our Quarterly Report on Form 10-Q for the quarter ending March 31, 2007, we began the remediation of the material weakness in our internal controls over financial reporting relating to the above noted weakness within this operating location through: (i) hiring of new divisional accounting personnel for this location (ii) restrictions on access to cash disbursement activity at the Florida Security Division; (iii) reinforcement of control procedures at the regional level for maintenance of the purchase order clearing account, cash accounts, and other significant balance sheet accounts; (iv) reinforcement of controls over timely review of account reconciliations and journal entries; (v) increased corporate supervision of regional accounting personnel; and (vi) initiation of an internal audit function. We will continue to closely monitor the effectiveness of our processes, procedures and controls, and will make further changes as management determines appropriate.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

Information regarding our legal proceedings can be found in Note 7 of the Notes to Consolidated Financial Statements included in this Form 10-Q.

Item 1A. Risks Factors

Risks Related to Our Business

Our business plan involves growing our Security Segment through acquisitions and internal development, and divesting of our car washes through third party sales. The growth of our Security Segment requires significant capital that we hope to partially fund through the sale of our car washes. Our capital requirements also include working capital for daily operations and significant capital for equipment purchases. Although we had positive working capital of \$23.2 million as of June 30, 2007, we have a history of net losses and in some years we have ended our fiscal year with a negative working capital balance. Our positive working capital decreased by \$3.4 million from December 31, 2006 to June 30, 2007 principally due to the reclassification of \$3.0 million of mortgage loans related to our Austin, Texas car washes from non-current to current as a result of this debt being up for renewal in February 2008. Although we expect that we will be successful in renewing this debt for an additional five years, there can be no assurances that this will occur. To the extent that we lack cash to meet our future capital needs, we will need to raise additional funds through bank borrowings and additional equity and/or debt financings, which may result in significant increases in leverage and interest expense and/or substantial dilution of our outstanding equity. If we are unable to raise additional capital, we may need to substantially reduce the scale of our operations and curtail our business plan. Although we believe we can generate cash from the sale of our car washes, there is no guarantee that we will be able to sell our car washes in time to meet our cash needs.

If we are not able to manage growth, our business plan may not be realized.

Our business objectives include developing our Security Segment, both internally and through acquisitions, if we can do so under advantageous terms. As such, our business plan is predicated on growth. If we succeed in growing, it will place significant burdens on our management and on our operational and other resources. For example, it may be difficult to assimilate the operations and personnel of an acquired business into our existing business; we must integrate management information and accounting systems of an acquired business into our current systems; our management must devote its attention to assimilating the acquired business, which diverts attention from other business concerns; we may enter markets in which we have limited prior experience; and we may lose key employees

of an acquired business. We will also need to attract, train, motivate, retain, and supervise senior managers and other employees. If we fail to manage these burdens successfully, one or more of the acquisitions could be unprofitable, the shift of our management's focus could harm our other businesses, and we may be forced to abandon our business plan, which relies on growth.

We have debt secured by mortgages against our property, which can be foreclosed upon if we default on the debt.

Our bank debt borrowings as of June 30, 2007 were \$14.0 million, including capital lease obligations and borrowings related to discontinued operations, substantially all of which is secured by mortgages against certain of our real property. Our most significant borrowings are secured notes payable to JP Morgan Chase Bank, N.A. ("Chase") in the amount of \$11.3 million, \$6.9 million of which was classified as non-current debt at June 30, 2007. Of such borrowings, \$4.6 million, including \$296,000 of long-term debt included in liabilities related to assets held for sale, is classified as current as it is due or expected to be paid in less than twelve months from June 30, 2007.

We have in the past violated loan covenants in our Chase agreements. We have obtained waivers for our violations of the Chase agreements. Our ongoing ability to comply with the debt covenants under our credit arrangements and refinance our debt depends largely on our achievement of adequate levels of cash flow. Our cash flow has been and could continue to be adversely affected by the expenses of the ongoing criminal immigration investigation, weather patterns and economic conditions. In the future, if our cash flows are less than expected or debt service, including interest expense, increases more than expected, we may continue to be out of compliance with the loan covenants and need to seek waivers or amendments.

If we are in default on loan covenants and are not able to obtain amendments or waivers of acceleration, our debt could become due and payable on demand, and Chase could foreclose on the assets pledged in support of the relevant indebtedness. If our assets (including up to 15 of our car wash facilities and one truck wash at June 30, 2007) are foreclosed upon, revenues from our Car and Truck Wash Segment, which comprised 51% of our total revenues for the six months ended June 30, 2007, would be severely impacted and we may go out of business. Even if the debt was accelerated without foreclosure, it would be very difficult for us to continue to operate our business and we may go out of business. If the debt were accelerated it would become more difficult to sell the car washes at an adequate price.

Our loans with Chase have financial covenants that restrict our operations, and which can cause our loans to be accelerated.

Our secured notes payable to Chase total \$11.3 million, \$6.9 million of which was classified as non-current debt at June 30, 2007. The Chase agreements contain affirmative and negative covenants, including the maintenance of certain levels of tangible net worth, maintenance of certain levels of unencumbered cash and marketable securities, limitations on capital spending, and certain financial reporting requirements. Our Chase agreements are the only debt agreements that contain an express prohibition on incurring additional debt without the approval of the lender. None of our other agreements contain such a prohibition.

The Chase term loan agreements also limit capital expenditures annually to \$1.0 million, requires the Company to provide Chase with a Form 10-K and audited financial statements within 120 days of the Company's fiscal year end and a Form 10-Q within 60 days after the end of each fiscal quarter, and requires the maintenance of a minimum total unencumbered cash and marketable securities balance of \$5 million. The Company did not timely provide the required financial statements to Chase. Accordingly, we were not in compliance with the Chase covenant. The Company received a waiver of acceleration from Chase at June 30, 2007 and for measurement periods through July 1, 2008 related to these covenant violations and, accordingly, a portion of the Chase notes payable was reflected as non-current in our financial statements at June 30, 2007. If we are unable to satisfy the Chase covenants and we cannot obtain further waivers or amendments to our loan agreements, the Chase notes may be reflected as current in future balance sheets and as a result our stock price may decline.

We have reported net losses in the past. If we continue to report net losses, the price of our common stock may decline, or we could go out of business.

We reported net losses for the second quarter ended June 30, 2007 and for the years ended December 31, 2006, 2005 and 2004 and we reported negative cash flow from operating activities from continuing operations in 2006 and 2005. Although a portion of the reported losses in past years related to non-cash impairment charges of intangible assets under Statement of Financial Accounting Standards ("SFAS") 142 and non-cash stock-based compensation expense under SFAS 123(R) in the current year, we may continue to report net losses and negative cash flow in the future. Additionally, SFAS 142 requires annual fair value based impairment tests of goodwill and other intangible assets identified with indefinite useful lives. As a result, we may be required to record additional impairments in the future, which could materially reduce our earnings and equity. If we continue to report net losses and negative cash flows, our stock price could be adversely impacted.

If we lose the services of our executive officers, our business may suffer.

If we lose the services of one or more of our executive officers and do not replace them with experienced personnel, that loss of talent and experience will make our business plan, which is dependent on active growth and management, more difficult to implement and could adversely impact our operations.

If our insurance is inadequate, we could face significant losses.

We maintain various insurance coverages for our assets and operations. These coverages include property coverages including business interruption protection for each location. We maintain commercial general liability coverage in the amount of \$1 million per occurrence and \$2 million in the aggregate with an umbrella policy which provides coverage up to \$25 million. We also maintain workers' compensation policies in every state in which we operate. Commencing July 2002, as a result of increasing costs of the Company's insurance program, including auto, general liability, and workers' compensation coverage, we are insured through participation in a captive insurance program with other unrelated businesses. The Company maintains excess coverage through occurrence-based policies. With respect to our auto, general liability, and workers' compensation policies, we are required to set aside an actuarial determined amount of cash in a restricted "loss fund" account for the payment of claims under the policies. We expect to fund these accounts annually as required by the insurance company. Should funds deposited exceed claims incurred and paid, unused deposited funds are returned to us with interest after the third anniversary of the policy year-end. The captive insurance program is further secured by a letter of credit from Mace in the amount of \$1,065,000 at June 30, 2007. The Company records a monthly expense for losses up to the reinsurance limit per claim based on the Company's tracking of claims and the insurance company's reporting of amounts paid on claims plus an estimate of reserves for possible future losses on reported claims and claims incurred but not reported. There can be no assurance that our insurance will provide sufficient coverage in the event a claim is made against us, or that we will be able to maintain in place such insurance at reasonable prices. An uninsured or under insured claim against us of sufficient magnitude could have a material adverse effect on our business and results of operations.

Risks Related to our Security Segment

If we are not able to operate our electronic surveillance products operations effectively, our business will suffer.

In 2002, we expanded our Security Segment by adding electronic surveillance products and components. We are incurring expenses to develop and further expand these products. There are numerous risks associated with expanding our video surveillance systems and components that may prevent us from operating the Security Segment profitably, including, among others: risks associated with products which do not function properly; risks associated with unanticipated liabilities of the acquired companies; risks inherent with our management having limited experience in the electronic surveillance product market; risks relating to the size and number of competitors in the video system and component product market, many of whom may be more experienced or better financed; risks associated with the costs of entering into new markets and expansion of product lines in existing markets; risks associated with rapidly evolving technology and having inventory become obsolete; risks associated with purchasing inventory before having orders for that inventory; risks attendant to locating and maintaining reliable sources of OEM products and component supplies in the electronic surveillance industry; risks related to retaining key employees involved in future technology development and communications with OEM suppliers; and risks associated with developing and introducing new products in order to maintain competitiveness in a rapidly changing marketplace. If we are not able to operate our electronic surveillance products division effectively, our operating and financial results could be adversely impacted.

We could become subject to litigation regarding intellectual property rights, which could seriously harm our business.

Although we have not been the subject of any such actions, third parties may in the future assert against us infringement claims or claims that we have violated a patent or infringed upon a copyright, trademark or other proprietary right belonging to them. We design most of our security products and contract with independent suppliers to manufacture those products and deliver them to us. Certain of these products contain proprietary intellectual property of these independent suppliers. Third parties may in the future assert claims against our suppliers that such suppliers have violated a patent or infringed upon a copyright, trademark or other proprietary right belonging to them. If such infringement by our suppliers or us were found to exist, a party could seek an injunction preventing the use of their intellectual property. In addition, if an infringement by us were found to exist, we may attempt to acquire a license or right to use such technology or intellectual property. Most of our suppliers have agreed to indemnify us against any such infringement claim, but any infringement claim, even if not meritorious and/or covered by an indemnification obligation, could result in the expenditure of a significant amount of our financial and managerial resources, which would adversely effect our operations and financial results.

The Mace registered name and trademark is important to our security business. If we do not defend the Mace name or allow it to fall into common usage, our security segment business could be adversely affected.

If our original equipment manufacturers fail to adequately supply our products, our security products sales may suffer.

Our electronic surveillance products are manufactured on an OEM basis. Most of the OEM suppliers we deal with are located in Asian countries and are paid a significant portion of an order in advance of the shipment of the product. We also have limited information on the financial strength of the OEM suppliers from which we purchase. If any of the OEM suppliers defaulted on their agreement with the Company, it would be difficult for the Company to obtain legal recourse because of the suppliers' assets being located in foreign countries. Reliance upon OEMs, as well as industry supply conditions generally involves several additional risks, including the possibility of defective products (which can adversely affect our reputation for reliability), a shortage of components and reduced control over delivery schedules (which can adversely affect our distribution schedules), and increases in component costs (which can adversely affect our profitability). We have some single-sourced manufacturer relationships, either because alternative

sources are not readily or economically available or because the relationship is advantageous due to performance, quality, support, delivery, capacity, or price considerations. If these sources are unable or unwilling to manufacture our products in a timely and reliable manner, we could experience temporary distribution interruptions, delays, or inefficiencies, adversely affecting our results of operations. Even where alternative OEMs are available, qualification of the alternative manufacturers and establishment of reliable suppliers could result in delays and a possible loss of sales, which could affect operating results adversely.

If people are injured by our consumer safety products, we could be held liable and face damage awards.

We face claims of injury allegedly resulting from our defense sprays, which we market as less-than-lethal. For example, we are aware of allegations that defense sprays used by law enforcement personnel resulted in deaths of prisoners and of suspects in custody. In addition to use or misuse by law enforcement agencies, the general public may pursue legal action against us based on injuries alleged to have been caused by our products. We may also face claims by purchasers of our electronic surveillance systems, if they fail to operate properly during the commission of a crime. As the use of defense sprays and electronic surveillance systems by the public increase, we could be subject to additional product liability claims. We have a \$25,000 deductible on our consumer safety products insurance policy, meaning that all such lawsuits, even unsuccessful ones and ones covered by insurance, cost the Company money. Furthermore, if our insurance coverage is exceeded, we will have to pay the excess liability directly. Our product liability insurance provides coverage of \$1 million per occurrence and \$2 million in the aggregate with an umbrella policy which provides coverage up to \$25 million. However, if we are required to directly pay a claim in excess of our coverage, our income will be significantly reduced, and in the event of a large claim, we could go out of business.

If governmental regulations change or are applied differently, our business could suffer.

The distribution, sale, ownership and use of consumer defense sprays are legal in some form in all 50 states and the District of Columbia. Restrictions on the manufacture or use of consumer defense sprays may be enacted, which would severely restrict the market for our products or increase our costs of doing business.

Our consumer defense spray manufacturing operation currently incorporates hazardous materials, the use and emission of which are regulated by various state and federal environmental protection agencies, including the United States Environmental Protection Agency. We also store a chemical component of tear gas in our Bennington, Vermont facility in such quantities that if all the chemical was released into the air, could cause an evacuation of Bennington, Vermont until the chemical broke down into its components. We believe that we are in compliance with all current state and local statutes governing our handling and disposal of these hazardous materials, but if there are any changes in environmental permit or regulatory requirements, or if we fail to comply with any environmental requirements, these changes or failures may expose us to significant liabilities that would have a material adverse effect on our business and financial condition.

Risks Related to our Car and Truck Wash Segment

We face a criminal investigation regarding the hiring of undocumented workers at our car washes that could result in fines and penalties.

On March 13, 2006, the Company learned that the United States Attorney for the Eastern District of Pennsylvania is investigating the Company for the alleged hiring of undocumented workers at the Company's car washes. The Company's Audit Committee retained independent outside counsel ("Special Counsel") to conduct an independent investigation of the Company's hiring practices at the Company's car washes and other related matters. Special Counsel provided a written summary of findings on April 18, 2006. The investigative findings included, among other things, a finding that the Company's internal controls for financial reporting at the corporate level are adequate and appropriate, and that there is no financial statement impact implicated by the Company's hiring practices, except for a potential contingent liability. Beginning on April 21, 2006, the Special Counsel began to receive for review some additional and previously requested but unavailable documents and information. On May 18, 2006, Special Counsel issued its Review of Information Supplemental to Internal Investigation which stated that the review of the additional documents and information had not changed the conclusions contained in the April 18, 2006 summary of findings.

There is a possibility that the United States Attorney for the Eastern District of Pennsylvania may prosecute the Company at the conclusion of its investigation. Violations of law may result in civil, administrative or criminal fines

or penalties. Due to the ongoing nature of the criminal investigation, it is not possible at this time to predict the outcome of the investigation or the impact of costs of ultimately resolving this matter on our results of operations or financial condition. However, any fees, expenses, fines or penalties which might be incurred by the Company in connection with the hiring of undocumented workers may have a material impact on the Company's results of operations and financial condition. The Company has made no provision for any future costs associated with the investigations or any future costs associated with the Company's defense or negotiations with governmental authorities to resolve these outstanding issues.

Our car wash work force may expose us to claims that might adversely affect our business, financial condition and results of operations; our insurance coverage may not cover all of our potential liability.

We employ a large number of workers who perform manual labor at the car washes we operate. Many of the workers are paid at or slightly above minimum wage. Also, a large percentage of our car wash work force is composed of employees who have been employed by us for relatively short periods of time. This work force is constantly turning over. Our work force may subject us to financial claims in a variety of ways, such as:

- claims by customers that employees damaged automobiles in our custody;
- claims related to theft by employees;
- claims by customers that our employees harassed or physically harmed them;
- claims related to the inadvertent hiring of undocumented workers;
- claims for payment of workers' compensation claims and other similar claims; and
- claims for violations of wage and hour requirements.

We may incur fines and other losses or negative publicity with respect to these claims. In addition, some or all of these claims may rise to litigation, which could be costly and time consuming to our management team, and could have negative impact on our business. We cannot assure you that we will not experience these problems in the future, that our insurance will cover all claims or that our insurance coverage will continue to be available at economically feasible rates.

If consumer demand for our car wash service drops, our business will suffer.

More than fifty percent of our revenues are derived from our Car and Truck Wash Segment. As such, our financial condition and results of operations will depend substantially on continued consumer demand for car wash services. Our car wash business depends on consumers choosing to employ professional services to wash their cars rather than washing their cars themselves or not washing their cars at all. Also, seasonal trends in some areas affect our car wash business. In particular, long periods of rain and cloudy weather can adversely affect our car wash business as people typically do not wash their cars during such periods. Additionally, extended periods of warm, dry weather may encourage customers to wash their cars themselves which also can adversely affect our car wash business. If there is a drop in consumer demand, our financial condition and results of operations will be adversely impacted.

We face significant competition and if we cannot compete effectively we may lose money and the value of our securities could decline.

The car care industry is highly competitive. Competition is based primarily on location, customer service, available services, and price. We face competition from both inside and outside the car care industry, including gas stations, gasoline companies, automotive companies, specialty stores and convenience stores that offer automated car wash services. Because barriers to entry into the car care industry are relatively low, competition may be expected to continually arise from new sources not currently competing with us. In some cases, our competitors may have greater financial and operating resources than we do. If we cannot effectively compete, our operating results are likely to be negatively effected.

Our car wash operations face governmental regulations, including environmental regulations, and if we fail to or are unable to comply with those regulations, our business may suffer.

We are governed by federal, state and local laws and regulations, including environmental regulations, that regulate the operation of our car wash centers and other car care services businesses. Other car care services, such as gasoline and lubrication, use a number of oil derivatives and other regulated hazardous substances. As a result, we are governed by environmental laws and regulations dealing with, among other things:

- i. transportation, storage, presence, use, disposal, and handling of hazardous materials and wastes;
- ii. discharge of storm water; and
- iii. underground storage tanks.

If uncontrolled hazardous substances were found on any of our properties, including leased property, or if we were otherwise found to be in violation of applicable laws and regulations, we could be responsible for clean-up costs, property damage, fines, or other penalties, any one of which could have a material adverse effect on our financial condition and results of operations.

Through our Car and Truck Wash Segment, we face a variety of potential environmental liabilities, including those arising out of improperly disposing waste oil or lubricants at our lube centers, improper maintenance of oil discharge ponds, which exist at two of our truck washes, and leaks from our underground gasoline storage tanks. If we improperly dispose of oil or other hazardous substances, or if our oil discharge ponds or underground gasoline tanks leak, we could be assessed fines by federal or state regulatory authorities and/or be required to remediate the property. Although each case is different, and there can be no assurance as to the cost to remediate an environmental problem, if any, at one of our properties, the costs for remediation and removal of a leaking discharge pond typically range from \$150,000 to \$200,000, and the costs for remediation of a leaking underground storage tank typically range from \$30,000 to \$75,000.

If our car wash equipment is not maintained, our car washes will not be operable.

Many of our car washes have older equipment that requires frequent repair or replacement. Although we undertake to keep our car washing equipment in adequate operating condition, the operating environment in car washes results in frequent mechanical problems. If we fail to properly maintain the equipment in a car wash, that car wash could become inoperable or malfunction resulting in a loss of revenue, damage to vehicles and poorly washed vehicles.

Risk Related to the Sale of our Car and Truck Wash Segment

If we sell our Car and Truck Wash Segment, our revenues will decrease and our business may suffer.

We can offer no assurances that we will be able to locate additional potential buyers for our remaining car washes or that we will be able to consummate any further sales to potential buyers we do locate. In addition if we are able to sell our remaining car washes, our total revenues will decrease and our business will become reliant on the success of our Security Segment. Our Security Segment faces significant risks as set forth herein and may impact our ability to generate positive operating income or cash flows from operations, may cause our financial results to become more volatile, or may otherwise materially adversely affect us.

Risks Related to our Stock

Our stock price has been, and likely will continue to be, volatile and your investment may suffer a decline in value.

The market price of our common stock, has in the past been, and is likely to continue to be volatile in the future. That volatility depends upon many factors, some of which are beyond our control, including:

- announcements regarding the results of expansion or development efforts by us or our competitors;
- announcements regarding the acquisition of businesses or companies by us or our competitors;
- announcements regarding the disposition of all or a significant portion of the assets that comprise our Car and Truck Wash Segment, which may or may not be on favorable terms;
- technological innovations or new commercial products developed by us or our competitors;
- changes in our, or our suppliers' intellectual property portfolio;
- issuance of new or changed securities analysts' reports and/or recommendations applicable to us or our competitors;
- additions or departures of our key personnel;

- operating losses by us;
- actual or anticipated fluctuations in our quarterly financial and operating results and degree of trading liquidity in our common stock; and
- our ability to maintain our common stock listing on the Nasdaq Global Market.

One or more of these factors could cause a decline in our revenues and income or in the price of our common stock, thereby reducing the value of an investment in our Company.

We could lose our listing on the Nasdaq Global Market if our stock price falls below \$1.00 for 30 consecutive days, and the loss of the listing would make our stock significantly less liquid and would affect its value.

Our common stock is listed on Nasdaq Global Market with a closing price of \$2.13 at the close of the market on August 7, 2007. Although the recent closing prices of our stock have been well in excess of \$1.00, in 2004 our stock traded at a price as low as \$1.78. If the price of our common stock falls below \$1.00 and for 30 consecutive days remains below \$1.00, we would be subject to being delisted from the Nasdaq Global Market. Upon delisting from the Nasdaq Global Market, our stock would be traded on the Nasdaq SmallCap Market until we maintain a minimum bid price of \$1.00 for 30 consecutive days at which time we would be able to regain our listing on the Nasdaq Global Market. If our stock fails to maintain a minimum bid price of \$1.00 for 30 consecutive days during a 180-day grace period on the Nasdaq SmallCap Market or a 360-day grace period if compliance with certain core listing standards are demonstrated, we could receive a delisting notice from the Nasdaq SmallCap Market. Upon delisting from the Nasdaq SmallCap Market, our stock would be traded over-the-counter, more commonly known as OTC. OTC transactions involve risks in addition to those associated with transactions in securities traded on the Nasdaq Global Market or the Nasdaq SmallCap Market (together “Nasdaq-Listed Stocks”). Many OTC stocks trade less frequently and in smaller volumes than Nasdaq-Listed Stocks. Accordingly, our stock would be less liquid than it would otherwise be. Also, the values of these stocks may be more volatile than Nasdaq-Listed Stocks. If our stock is traded in the OTC market and a market maker sponsors us, we may have the price of our stock electronically displayed on the OTC Bulletin Board, or OTCBB. However, if we lack sufficient market maker support for display on the OTCBB, we must have our price published by the National Quotations Bureau LLP in a paper publication known as the Pink Sheets. The marketability of our stock would be even more limited if our price must be published on the Pink Sheets.

Because we are a Delaware corporation, it may be difficult for a third party to acquire us, which could affect our stock price.

We are governed by Section 203 of the Delaware General Corporation Law, which prohibits a publicly held Delaware corporation from engaging in a “business combination” with an entity who is an “interested stockholder” (as defined in Section 203 an owner of 15% or more of the outstanding stock of the corporation) for a period of three years following the shareholders becoming an “interested shareholder”, unless approved in a prescribed manner. This provision of Delaware law may affect our ability to merge with, or to engage in other similar activities with, some other companies. This means that we may be a less attractive target to a potential acquirer who otherwise may be willing to pay a premium for our common stock above its market price.

If we issue our authorized preferred stock, the rights of the holders of our common stock may be affected and other entities may be discouraged from seeking to acquire control of our Company.

Our certificate of incorporation authorizes the issuance of up to 10 million shares of “blank check” preferred stock that could be designated and issued by our board of directors to increase the number of outstanding shares and thwart a takeover attempt. No shares of preferred stock are currently outstanding. It is not possible to state the precise effect of preferred stock upon the rights of the holders of our common stock until the board of directors determines the respective preferences, limitations, and relative rights of the holders of one or more series or classes of the preferred stock. However, such effect might include: (i) reduction of the amount otherwise available for payment of dividends on common stock, to the extent dividends are payable on any issued shares of preferred stock, and restrictions on dividends on common stock if dividends on the preferred stock are in arrears, (ii) dilution of the voting power of the common stock to the extent that the preferred stock has voting rights, and (iii) the holders of common stock not being entitled to share in our assets upon liquidation until satisfaction of any liquidation preference granted to the holders of our preferred stock.

The “blank check” preferred stock may be viewed as having the effect of discouraging an unsolicited attempt by another entity to acquire control of us and may therefore have an anti-takeover effect. Issuances of authorized preferred stock

can be implemented, and have been implemented by some companies in recent years, with voting or conversion privileges intended to make an acquisition of a company more difficult or costly. Such an issuance, or the perceived threat of such an issuance, could discourage or limit the stockholders' participation in certain types of transactions that might be proposed (such as a tender offer), whether or not such transactions were favored by the majority of the stockholders, and could enhance the ability of officers and directors to retain their positions.

Our policy of not paying cash dividends on our common stock could negatively affect the price of our common stock.

We have not paid in the past, and do not expect to pay in the foreseeable future, cash dividends on our common stock. We expect to reinvest in our business any cash otherwise available for dividends. Our decision not to pay cash dividends may negatively affect the price of our common stock.

Item 6. Exhibits

(a)

Exhibits:

- *10.185 Retention Agreement between Mace Security International, Inc. and Ronald Pirollo, dated as of June 19, 2007. (Exhibit 10.1 to the June 19, 2007 Form 8K dated June 25, 2007) (1)
 - 31.1 Certification of Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
 - 31.2 Certification of Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
 - 32.1 Certification of Chief Executive Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
 - 32.2 Certification of Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
- (1) Indicates a management contract or compensation plan or arrangement.
* Incorporated by reference.
