Form 424B3
August 20, 2007

Filed Pursuant to Rule 424(b)(3)
File Number 333-134849

**PROSPECTUS SUPPLEMENT NO. 4
to Prospectus declared
effective on April 10, 2007,
(Registration No. 333-134849)**

Trulite, Inc.

This Prospectus Supplement No. 4 supplements our Prospectus, dated April 10, 2007, as amended by the Prospectus Supplement No. 1, dated April 30, 2007, Prospectus Supplement No. 2, dated May 16, 2007, and Prospectus Supplement 3, dated July 3, 2007. The shares of common stock and the shares of common stock issuable on the exercise of warrants that are covered by the Prospectus have been registered to permit their resale to the public by the selling stockholders named in the Prospectus. We are not selling any shares of common stock in this offering and therefore will not receive any proceeds from this offering. You should read this Prospectus Supplement No. 4 together with the Prospectus Supplement No. 1, the Prospectus Supplement No. 2, and the Prospectus Supplement No. 3.

This Prospectus Supplement No. 4 includes the attached Quarterly Report on Form 10-QSB of Trulite, Inc., for the quarter ended June 30, 2007, as filed by us with the Securities and Exchange Commission on August 10, 2007, as well as the attached Current Reports on Form 8-K of Trulite, Inc., as filed by us with the Securities and Exchange Commission on July 18, 2007, August 3, 2007, and August 13, 2007.

Our common stock is quoted on the OTC Electronic Bulletin Board of the National Association of Securities Dealers, Inc. under the symbol "TRUL.OB."

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the accuracy or adequacy of this prospectus supplement. Any representation to the contrary is a criminal offense.

The date of this Prospectus Supplement is August 20, 2007.

Note Regarding Forward-looking Statements

This Form 10-QSB for the quarter ended June 30, 2007, contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), including statements regarding, among other items, our growth strategies, anticipated trends in our business and our future results of operation, market conditions in the research and development industry and the impact of governmental regulation. These forward-looking statements are based largely on our expectations and are subject to a number of risks and uncertainties, many of which are beyond our control. Actual results could differ materially from these forward-looking statements as a result of, among other things:

· Our ability to raise capital;

· Our ability to estimate future expenditures;

· Our ability to sell our products;

· Our ability to retain and attract experienced and knowledgeable personnel; and

· Our ability to compete in the renewable energy industry

In addition, the words "believe," "may," "will," "estimate," "continue," "anticipate," "intend," "expect," and similar expressions they relate to us, our business or our management, are intended to identify forward-looking statements.

We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise after the date of this Form 10-QSB. In light of these risks and uncertainties, the forward-looking events and circumstances discussed in this Form 10-QSB may not occur and actual results could differ materially from those anticipated or implied in the forward-looking statements.

The accompanying notes are an integral part of these financial statements.

Trulite, Inc. (a Development Stage Company)
Notes to Financial Statements
As of and for the Period from Inception (July 15, 2004) Through June 30, 2007

NOTE 1 - Basis of Presentation

The unaudited financial statements included herein have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”) for interim reporting, and in the opinion of management reflect all adjustments, including those of a normal recurring nature, that are necessary for a fair presentation of financial position and results of operations for the interim periods presented. As permitted under those requirements, certain footnotes or other financial information that are normally required by accounting principles generally accepted in the United States of America have been condensed or omitted. As used herein, the terms “Trulite,” “the Company,” “we,” “our” and “us” refer to Trulite, Inc.

For further information, refer to the financial statements and footnotes included in our Annual Report on Form 10-KSB for the year ended December 31, 2006. Interim results are not necessarily indicative of results to be expected for the full fiscal year ending December 31, 2007.

The Company from inception (July 15, 2004) through June 30, 2007, did not have significant revenues. The Company has no significant operating history as of June 30, 2007. The accompanying financial statements have been prepared assuming the Company will continue as a going concern. From inception (July 15, 2004) through June 30, 2007, management has raised additional equity and debt financing to fund operations and to provide additional working capital. However, there is no assurance that future such financing will be in amounts sufficient to meet the Company’s needs.

Reclassifications

Certain reclassifications have been made to conform prior period amounts to the current period presentation. These reclassifications had no effect on net loss or stockholders deficit.

New Accounting Pronouncements:

In September 2006, the FASB issued SFAS No. 157, “Fair Value Measurements.” SFAS No. 157 defines fair value and applies to other accounting pronouncements that require or permit fair value measurements and expands disclosures about fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. The Company is currently evaluating the impact of adopting SFAS No. 157 on its financial statements.

In February 2007, the FASB issued SFAS 159, "The Fair Value Option for Financial Assets and Financial Liabilities," which permits the choice to measure certain financial assets and liabilities at their fair value at specified election dates. The new standard is effective for the Company on January 1, 2008, unless early adoption is elected. The Company does not expect the new standard to have a material impact on its financial position or results of operation.

NOTE 2 - Stock-Based Compensation

The Company has granted options to purchase common stock to employees, consultants and outside directors under the Trulite, Inc. Stock Option Plan, as amended and restated (the “Plan”). A total of 3,213,002 shares are reserved for issuance and, as of June 30, 2007, 392,226 shares remained available for grant under the Plan.

Edgar Filing: TRULITE INC - Form 424B3

For the three and six month period ended June 30, 2007, total stock-based compensation expense recognized was \$30,828 and \$68,039, respectively. Stock-based compensation expense related to the three and six month period ended June 30, 2006 was \$431,787. The total unrecognized compensation cost at June 30, 2007, relating to non-vested share-based compensation arrangements granted under the Plan, was \$682,377. That cost is expected to be recognized over four years, with a weighted average period of 3.4 years.

8

Trulite, Inc. (a Development Stage Company)
Notes to Financial Statements
As of and for the Period from Inception (July 15, 2004) Through June 30, 2007

NOTE 2 - Stock-Based Compensation (Continued)

During the three and six month period ended June 30, 2007, the Company granted options to purchase 375,916 shares of common stock under the plan. The exercise price of the options was \$1.00 per common share, and the estimated fair value of a share of common stock on the date of grant was \$1.00. The options vest over a weighted average period of 3.5 years and have a contractual life of seven years. The fair value of these options was based upon the weighted average assumptions noted below:

Risk free rate	5.07%
Expected life (in years)	4.7
Expected volatility	64%
Expected dividends	-
Fair value	\$ 0.57

The Company estimates the fair value of stock options under SFAS No. 123R at the date of grant using a Black-Scholes-Merton valuation model. The risk-free rate is based on the U.S. Treasury yield curve in effect at the time of grant. The expected term (estimated period of time outstanding) of option grants is based on the "simplified" method of estimating expected term for "plain vanilla" options allowed by SEC Staff Accounting Bulletin No. 107, and varies based on the vesting period and contractual term of the option. Expected volatility has historically been based on an evaluation of similar companies' trading activity. The Company has not issued any cash dividends on its common stock.

The following summary presents information regarding outstanding options as of June 30, 2007, and the changes during the six months then ended:

	Shares Under Options	Weighted Average Exercise Price Per Share	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding at January 1, 2007	2,447,060	\$ 0.94		
Granted	375,916	1.00		
Exercised	-	-		
Forfeited/Cancelled	(2,300)	0.88		
Outstanding at June 30, 2007	2,820,676	0.94	5.0 years	\$ 152,754
Vested or expected to vest at June 30, 2007	2,684,512	0.94		151,577
Exercisable at June 30, 2007	1,459,032	\$ 0.91	3.8 years	\$ 140,984

NOTE 3 - Property and Equipment

Property and Equipment consists of the following:

Accounts payable	\$ 273,239	\$ 134,905
Accrued expenses	159,838	104,639
	\$ 433,077	\$ 239,544

NOTE 5 - Income taxes

Since inception, the Company has incurred net operating losses and, accordingly, no provision for current income taxes has been recorded in these financial statements. In addition, no benefit for income taxes has been recorded in respect of the net deferred tax assets as management believes it is more likely than not that the deferred tax assets will not be fully realizable. Accordingly, the Company has provided for a full valuation allowance against its net deferred tax assets at June 30, 2007 and December 31, 2006.

In June 2006, the FASB issued FASB Interpretation No.48, "Accounting for Uncertainty in Income Taxes-an interpretation of SFAS No.109". The interpretation addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under FIN 48, the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. FIN 48 also provides guidance on derecognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures.

The Company adopted the provisions of FIN 48 on January 1, 2007. After application of the provisions of FIN 48, it was not necessary for the Company to recognize any liability for unrecognized tax benefits or adjustment to the balance of retained earnings as of January 1, 2007. The Company's policy is to classify interest and penalties related to unrecognized tax benefits in income tax expense. As of January 1, 2007, the Company had no accrued interest and penalties related to unrecognized tax benefits. As of January 1, 2007, after the implementation of FIN 48, the Company's unrecognized tax benefits were \$0. The amount, if recognized, that would affect the effective tax rate is \$0.

The Company files an income tax return in the U.S. federal jurisdiction. For federal tax purposes, the Company's 2004 through 2006 tax years remain open for examination by the tax authorities under the normal three year statute of limitations. The adoption of FIN 48 on January 1, 2007 did not have a material effect on the Company's results of operations or financial condition.

NOTE 6 - Research and Development Costs

Expenditures for research activities relating to product development and improvement are charged to expense as incurred. For the three and six month period ended June 30, 2007, research and development costs were \$536,900 and \$994,516, respectively. For the three and six month period ended June 30, 2006, research and development costs were \$289,632 and \$448,167, respectively.

Trulite, Inc. (a Development Stage Company)
Notes to Financial Statements
As of and for the Period from Inception (July 15, 2004) Through June 30, 2007

NOTE 7 - Notes Payable

On February 6, 2007, the Company incurred indebtedness of \$600,000 pursuant to the terms of two promissory notes. The Company borrowed \$240,000 from Contango Venture Capital Corporation, LLC ("CVCC"), which beneficially owns approximately 17.0% of the Company's common stock, and \$360,000 from Standard Renewable Energy Group, LLC ("SREG"), which owns NewPoint Energy Solutions, LP ("NewPoint"), the owner of approximately 45.2% of the Company's common stock. Both promissory notes bear interest at a rate of 11.25% until August 6, 2007, at which time the rate will become the prime rate plus 3%. Both notes mature on October 31, 2007, and may be prepaid by the Company at any time without penalty.

On May 30 and May 31, 2007, the Company incurred indebtedness of \$240,000 and \$360,000, respectively, pursuant to the terms of two promissory notes. The Company borrowed \$360,000 from SREG. The Company borrowed \$240,000 from CVCC. Both promissory notes bear interest at a rate of 11.25% until October 22, 2007, at which time the rate will become the prime rate plus 3%. Both notes mature on February 19, 2008, and may be prepaid by the Company at any time without penalty.

On June 26, 2007, the Company pursuant to the terms of a Note and Warrant Purchase Agreement dated June 26, 2007 (the "Purchase Agreement"), sold a total of 6.66 units ("Units"), each Unit comprising (i) a convertible promissory note (a "Note"), in the original principal amount of \$75,000, and (ii) a warrant (a "Warrant"), to purchase 100,000 shares of the Company's common stock at a price of \$1.00 per share. The Company sold a total of \$500,000 in principal amount of Notes and Warrants to purchase a total of 666,666 shares of Common Stock for total proceeds of \$500,000.

Each Note bears interest at a rate of 15% per annum. Principal and accrued but unpaid interest on each Note are payable in full on June 26, 2008. Amounts outstanding under each Note may be prepaid without penalty. The unpaid principal balance due under each Note, together with any accrued but unpaid interest, may be converted into unregistered shares of Common Stock at a conversion price of \$0.75 per share. Each Warrant is exercisable until June 26, 2010, at an exercise price of \$1.00 per share and has a cashless exercise feature.

In accordance with the guidelines of APB No. 14, "Accounting for Convertible Debt and Debt Issued with Stock Purchase Warrants," the proceeds were allocated to the Warrants and to the Notes based on the relative fair values of the two instruments at the date of issuance. The fair value of the Warrants was determined using Black-Scholes pricing model, assuming a risk-free interest rate of 4.63%, a volatility factor 63%, dividend yields of 0% and a contractual life of three years. Of the \$500,000 of proceeds received from the issuance, \$135,300 was recorded to additional paid-in capital to recognize the issuance of the Warrants and as a discount to the face amount of the Notes of \$500,000. The discount will be amortized to interest expense through the date of maturity, June 26, 2008. The convertible feature contained in the Notes was not a beneficial conversion feature in accordance with EITF 98-5, "Accounting for Convertible Securities with Beneficial Conversion Features or Contingently Adjustable Conversion Ratios," and thus no portion of the proceeds was allocated to the conversion feature of the Notes.

On July 30, 2007, the Company entered into an Amendment to Promissory Notes (which was effective as of June 29, 2007), by and between the Company and SREG. The amendment extended the maturity of four promissory notes with an aggregate principal balance of \$960,000 until December 31, 2007. In consideration for the extension, the Company agreed to a change in the adjusted interest rate payable under each note from the Prime Rate plus three percent to the Prime Rate plus four percent. As amended, the promissory notes will maintain a fixed interest rate of 11.25% through the date of the interest rate change date that is specific to each note, at which point the rate will increase to the amended rate of the prime rate plus four percent.

Notes to Financial Statements
As of and for the Period from Inception (July 15, 2004) Through June 30, 2007

NOTE 7 - Notes Payable (Continued)

On July 30, 2007, the Company entered into an Amendment to Promissory Notes (which was effective as of June 29, 2007), by and between the Company and CVCC, which extended the maturity of three promissory notes with an aggregate principal balance of \$765,000 until December 31, 2007. In consideration for the extension, the Company agreed to a change in the adjusted interest rate payable under each note from the Prime Rate plus three percent to the Prime Rate plus four percent. As amended, the promissory notes will maintain a fixed interest rate of 11.25% through the date of the interest rate change date that is specific to each note, at which point the rate will increase to the amended rate of the prime rate plus four percent.

On July 30, 2007, the Company entered into an Amendment to Promissory Note (which was effective as of June 29, 2007), by and between the Company and Standard Renewable Energy, LP, which extended the maturity of a promissory note with a principal balance of \$125,000 until December 31, 2007. In consideration for the extension, the Company agreed to a change in the interest rate from the Prime Rate plus three percent to the Prime Rate plus four percent.

On July 30, 2007, the Company entered into a Second Amendment to Subscription Agreement (which was effective as of June 29, 2007), by and between the Company, on the one hand, and SREG, Standard Renewable Energy, LP and CVCC on the other hand (the "Amended Subscription Agreements"). The original agreements dated April 5, 2007 and the first amendment to the original agreements dated April 24, 2007, entered into by and between SREG, Standard Renewable Energy, LP, and CVCC allowed the exchange of the Company's outstanding promissory notes aggregating \$1,850,000 on April 24, 2007, plus accrued and unpaid interest through the date of conversion for shares of the Company's common stock. Under the Amended Subscription Agreements, the Company and the holder of the notes agreed that on the first business day following the date on which the Company first has outstanding 14,485,491 shares of common stock, the Company will issue to the holder of the notes a number of shares of common stock determined by multiplying 2 times the quotient of (x) the aggregate principal balance of and accrued but unpaid interest on the notes as of the close of business on the day before such issuance divided by (y) the lesser of (i) \$1.00 or (ii) the average closing sale price for the Company's common stock as quoted on the Over the Counter Bulletin Board for the ten trading days immediately preceding the date the Company has outstanding 14,485,491 shares of common stock outstanding. The Amended Subscription Agreements expire December 31, 2007.

NOTE 8 - Stockholders' Equity

On February 22, 2007, the Company's Board of Directors agreed to extend the term of warrants, until April 13, 2008, that were issued April 2006 in connection with the issuance of common stock for cash consideration of \$1.00 per share. These warrants entitled the holders to purchase an additional 1,000,000 shares of common stock of the Company at an exercise price of \$1.50 per common share that were originally set to expire on April 13, 2007. A difference of \$104,881 in the fair value of these warrants after modification, when compared to their fair value immediately prior to the modification, was recorded as a deemed dividend in the first quarter of 2007.

On May 4, 2007, the Company amended its certificate of incorporation to increase the authorized capital stock of the Company from 21,500,000 shares to 51,500,000 shares of capital stock, consisting of 50,000,000 shares of common stock and 1,500,000 shares of preferred stock.

A consultant provided services to the Company in connection with the consummation of the transactions contemplated by the Purchase Agreement, including providing advice regarding the terms of the Notes and Warrants and identifying

potential investors. The Company agreed to issue 100,000 shares of common stock, as compensation for such services, and recognized \$75,000 as a component of general and administrative expenses, the estimated fair value of the shares issued.

Trulite, Inc. (a Development Stage Company)
Notes to Financial Statements
As of and for the Period from Inception (July 15, 2004) Through June 30, 2007

NOTE 9 - Commitments and Related Party Transactions

Leases

Rent expense for the three and six month period ended June 30, 2007, was \$8,847 and \$14,634, respectively. Rent expense for the three and six month period ended June 30, 2006 was 9,839 and \$12,754, respectively. Rent expense is included in general and administrative expenses in the accompanying statements of operations.

Interest

For the six month period ended June 30, 2007, the Company incurred interest expense of \$53,738, \$42,970, and \$7,070 related to outstanding promissory notes with SREG, CVCC and Standard Renewable Energy, LP, a wholly owned subsidiary of SREG, respectively. No promissory notes were outstanding during the six month period ended June 30, 2006.

Due to affiliates

As of June 30, 2007, amounts due to affiliates consisted of accrued interest of \$104,705 to SREG, Standard Renewable Energy, LP, and CVCC, \$68,000 of short-term working capital advances from SREG, and \$314,426 due to SREG for management and administrative services. Due to affiliates consisted of \$62,363 due to SREG for general and administrative expenses as of December 31, 2006.

During the three and six month period ended June 30, 2007, SREG billed the Company \$155,115 and \$252,063 for management and administrative services.

Other

The Company had employment agreements with certain employees that expire during 2007, under which the committed obligations totaled \$100,000 at June 30, 2007.

Trulite, Inc. (a Development Stage Company)

Item 2. Management's Discussion and Analysis and Plan of Operation

The following Management's Discussion and Analysis and Plan of Operation highlights the principal factors that have affected the Company's financial condition and results of operations as well as the Company's liquidity and capital resources for the periods described and should be read in conjunction with our unaudited financial statements for the three and six months ended June 30, 2007, with their explanatory notes included as part of this Form 10-QSB, and our Management's Discussion and Analysis and Plan of Operation for the twelve months ended December 31, 2006 included in our Form 10-KSB.

Overview and Plan of Operation

Trulite is engaged in the development, production, sourcing, marketing and selling of portable, semi-portable and stationary products, components and systems that can generate power for use in off-grid applications requiring power up to 1 KW. These products, components and systems include hydrogen fuel cells, photovoltaic solar panels, wind micro-turbines, batteries, charge controllers and inverters. Solar panels and on-site wind micro-turbines provide intermittent power that frequently must be stored to meet requirements when the panels are not producing. The Trulite fuel cells can provide power when the solar panels or wind turbines are not operating for extended and consistent power availability.

The Company recently announced the development of its new KH4 product. This hydrogen fuel cell generator can produce 150 watts of continuous power and up to 200 watts of peak power. The integrated advanced technology lithium ion battery can provide immediate power if the fuel cell is being used as a back-up for grid power. The system can manage the integration of power from solar panels and on-site wind micro-turbines together with power from the fuel cell to optimize the power available to meet the needs of the application. The KH4 uses dry sodium borohydride as the hydrogen source. The two 400 watt-hour fuel cartridges that are standard with the KH4 can provide over seven hours of run time with the unit operating at 60% of capacity. In the proper storage conditions, the fuel cartridges can be stored indefinitely before use. The Company has two patents that have issued and several patents pending for the technology involved in the KH4 and other products.

Trulite has recently expanded its product offering to include smaller photovoltaic solar power systems and small on-site wind micro-turbines power systems. These products will be offered in the marketplace prior to the new KH4 product being available in production quantities but will be able to work in conjunction with the KH4. Trulite believes that its off-grid products have application in several markets where electrical power is needed. The products can be used to recharge batteries such as those used in power tools on construction sites. Power can be provided in emergency situations where grid power is not available in the home or small business to recharge batteries, to power lights and small refrigerators and to power or recharge electronics. Power can also be provided for remote monitoring for security, industrial and other applications. The products can also be used for recreational activities where grid power is not readily available such as camping, boating, fishing and hunting. Off-grid power is also useful for remote displays and for traffic control applications. The Trulite products can also be used to recharge UPS battery back-up systems for computers where extended run times may be needed. Portable back-up power for batteries in cars, trucks, boats and RV's also provides market opportunities.

The Company is a development stage company and, as such, has not had any meaningful revenues and has accumulated a deficit since its inception on July 15, 2004. From July 15, 2004 through December 31, 2004, the Company had \$1,750 in sales. For the years ended December 31, 2005 and 2006, the Company had revenue of \$16,667 and \$8,333, respectively. For the six months ended June 30, 2007, the Company had no sales. We estimate that we will begin to have commercially viable products resulting from the ongoing research and development and product development by the second quarter 2008. Research and development expenditures will be made to further enhance the performance of the hydrogen fuel sources, to develop the electronics that control the process to generate electricity, to improve the performance of the fuel cells and other components, to increase the electrical output of the

products and to test the performance and reliability of the products. Since our inception, we have spent \$3,367,568 in research and development, including \$994,516 in the six month period end June 30, 2007, and anticipate that we will spend at least \$2.0 million for research and development during the next twelve months. We also anticipate spending approximately \$4.0 million for general and administrative costs and capital expenditures through the second quarter of 2008.

15

We will have ongoing research and development expenditures for the foreseeable future as products are developed for new applications and markets. The timing, amount and success of the research and development and manufacturing estimates are dependent on a number of factors that are difficult to project, including but not limited to the availability of qualified people, the success of the technologies under development, the cost to implement technologies, the cost of the product, the requirements of the marketplace, regulatory requirements, the availability of funds, and other factors.

We do not currently have sufficient capital to fully execute our business plan and we anticipate the need to raise additional capital to develop, promote, and distribute our product. Historically, our activities have been funded through a combination of common and preferred stock issuances and loans from existing investors and third parties. Additional funding may be raised through public or private, equity or debt financings. Additional funding may not be available under favorable terms, if at all. If adequate funds are not available, we may be required to curtail operations significantly or to obtain funds on terms not as favorable as we would hope.

Results of Operations

The following table summarizes our results of operations for the three and six month period ended June 30, 2007 and 2006:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Sales	\$ -	\$ -	\$ -	\$ 8,333
Cost of sales	-	-	-	5,912
GROSS PROFIT	-	-	-	2,421
Operating expenses:				
Research and development	536,900	289,632	994,516	448,167
Depreciation	6,388	2,721	12,030	5,441
General and administrative	693,025	1,230,111	1,124,866	1,450,923
TOTAL OPERATING EXPENSES	1,236,313	1,522,464	2,131,412	1,904,531
LOSS FROM OPERATIONS	(1,236,313)	(1,522,464)	(2,131,412)	(1,902,110)
Other income (expense):				
Interest expense	(60,408)	-	(105,877)	(59)
Interest income	162	2,735	1,823	3,206
TOTAL OTHER INCOME (EXPENSE)	(60,246)	2,735	(104,054)	3,147
LOSS BEFORE INCOME TAXES	(1,296,559)	(1,519,729)	(2,235,466)	(1,898,963)
Income taxes	-	-	-	-
NET LOSS	\$ (1,296,559)	\$ (1,519,729)	\$ (2,235,466)	\$ (1,898,963)

Revenues

For the three and six months ended June 30, 2007, revenues totaled zero versus zero and \$8,333 for the same periods ended June 30, 2006, respectively.

Gross profit

For the three and six months ended June 30, 2007, the Company had no gross profit versus zero and \$2,421 for the same periods ended June 30, 2006, respectively.

Operating expenses

For the three month period ended June 30, 2007, as compared to the three month period ended June 30, 2006, operating expenses decreased by \$286,151. Research and development increased during this period by \$247,268, while general and administrative expenses decreased by \$537,086. The increase in research and development during the three month period ended June 30, 2007 was due to a scale up of research and development of the KH-4 150-watt power system. The decrease in general and administrative expense during the three month period ended June 30, 2007 was the result of a decrease in stock compensation expense of \$400,959 and a decrease in consulting fees of \$418,564, both partially offset by an increase of \$84,761 in management and administrative services provided by SREG, and an increase in insurance, marketing, and other professional fees of \$197,676.

The primary decrease in consulting fees were due to 300,000 shares of common stock and 400,000 warrants to purchase the Company's common stock that were issued during the second quarter of 2006 as consideration for consulting services in connection with two agreements for investment banking services.

The increase in insurance, marketing, and other professional fees is primarily related to the increased sales team to market the KH-4 150-watt power system, as well as additional expenses related to legal and other professional fees incurred as a result of the regulatory requirements of the Securities and Exchange Commission.

Operating expenses were \$2,131,412 and \$1,904,531 for the six month period ended June 30, 2007 and 2006, respectively. Research and development expenses increased to \$994,516 for the six month period ended June 30, 2007, as compared to \$448,167 for the corresponding prior year period. The increase in research and development during the six month period ended June 30, 2007 was due to a scale up of research and development of the KH-4 150-watt power system. General and administrative costs decreased \$326,057 to \$1,124,866 for the six month period ended June 30, 2007, as compared to \$1,450,923 for the corresponding prior year period. The decrease was the result of a decrease in stock compensation expense of \$363,748 and a decrease in consulting fees of \$316,560, both partially offset by an increase of \$135,131 in management and administrative services provided by SREG, and an increase in insurance, marketing and other professional fees of \$219,120.

Depreciation expense increased \$3,667 and \$6,589 for the three and six month period ended June 30, 2007, compared to the corresponding prior year period. This increase was due to additions of equipment purchased for research and development.

Loss from Operations

Operating losses were \$1,236,313 and \$2,131,412 for the three and six month period ended June 30, 2007, respectively, as compared to operating losses of \$1,522,464 and \$1,902,110 for the three and six month period ended June 30, 2006, respectively, due to the changes in operating expenses as noted above.

Other Income (Expense)

Other income (expense) for the three and six month period ended June 30, 2007, totaled a loss of \$60,246 and \$104,054, respectively, and a decrease from the \$2,735 and \$3,147 of other income for the three and six month period ended June 30, 2006, respectively, due to interest expense on outstanding borrowings.

Net Loss

Net loss for the three and six month period ended June 30, 2007, was \$1,296,559 and \$2,235,466, respectively, as compared to \$1,519,729 and \$1,898,963, respectively, for the three and six month period ended June 30, 2006. The change in net loss was primarily due to increased operating expenses as noted above.

Cash position and sources and uses of cash

Our cash position at June 30, 2007 was \$493,447 as compared to \$275,957 at December 31, 2006.

Our operating activities for the six month period ended June 30, 2007 used cash in the amount of \$1,454,343, as compared to \$886,942 used in the six month period ended June 30, 2006. Cash used in operating activities for the six month period ended June 30, 2007 and 2006 reflected a net loss of \$2,235,466 and \$1,898,963, respectively. Non-cash charges were greater by \$727,663 for the six month period ended June 30, 2006 primarily due to common stock options and warrants that were issued during this period for compensation and consulting services.

The Company used \$28,255 and \$11,414 in investing activities for the purchase of property and equipment for the six month period ended June 30, 2007 and 2006, respectively.

The Company had cash inflows from financing activities of \$1,700,088 for the six month period ended June 30, 2007, compared with \$1,000,000 during the six month period ended June 30, 2006. For the six month period ended June 30, 2007, the Company's financing was primarily through a combination of convertible debt and warrants, whereas during the same period in 2006, the Company's financing was through issuance of common stock.

On February 6, 2007, the Company incurred indebtedness of \$600,000 pursuant to the terms of two promissory notes. The Company borrowed \$240,000 from CVCC and \$360,000 from SREG. Both promissory notes bear interest at a rate of 11.25% until August 6, 2007, at which time the rate will become the prime rate plus 3%. Both notes mature on October 31, 2007, and may be prepaid by the Company at any time without penalty.

On May 30 and May 31, 2007, the Company incurred indebtedness of \$240,000 and \$360,000, respectively, pursuant to the terms of two promissory notes (the "Promissory Notes"). The Company borrowed \$360,000 from Standard Renewable Energy Group, LLC, ("SREG"), which owns NewPoint Energy Solutions, LP ("NewPoint"), and is the owner of approximately 45.2% of the Company's common stock. The Company borrowed \$240,000 from Contango Venture Capital Corporation, LLC ("CVCC") which beneficially owns approximately 17.0% of the Company's common stock. Both promissory notes bear interest at a rate of 11.25% until October 22, 2007, at which time the rate will become the prime rate plus 3%. Both promissory notes mature on February 19, 2008, and may be prepaid by the Company at any time without penalty.

On June 26, 2007, the Company pursuant to the terms of a Note and Warrant Purchase Agreement dated June 26, 2007 (the "Purchase Agreement"), sold a total of 6.66 units ("Units"), each Unit comprising (i) a convertible promissory note (a "Note"), in the original principal amount of \$75,000, and (ii) a warrant (a "Warrant"), to purchase 100,000 shares of the Company's common stock, \$0.0001 par value ("Common Stock") at a price of \$1.00 per share. The Company sold a total of \$500,000 in principal amount of Notes and Warrants to purchase a total of 666,666 shares of Common Stock for total proceeds of \$500,000.

Each Note bears interest at a rate of 15% per annum. Principal and accrued but unpaid interest on each Note are payable in full on June 26, 2008. Amounts outstanding under each Note may be prepaid without penalty. The unpaid principal balance due under each Note, together with any accrued but unpaid interest, may be converted into unregistered shares of Common Stock at a conversion price of \$0.75 per share. Each Warrant is exercisable until June 26, 2010, at an exercise price of \$1.00 per share and has a cashless exercise feature.

On July 30, 2007, the Company entered into an Amendment to Promissory Notes (which was effective as of June 29, 2007), by and between the Company and SREG. The amendment extended the maturity of four promissory notes with an aggregate principal balance of \$960,000 until December 31, 2007. In consideration for the extension, the Company agreed to a change in the adjusted interest rate payable under each note from the Prime Rate plus three percent to the Prime Rate plus four percent. As amended, the promissory notes will maintain a fixed interest rate of 11.25% through the date of the interest rate change date that is specific to each note, at which point the rate will increase to the amended rate of the prime rate plus four percent.

On July 30, 2007, the Company entered into an Amendment to Promissory Notes (which was effective as of June 29, 2007), by and between the Company and CVCC, which extended the maturity of three promissory notes with an aggregate principal balance of \$765,000 until December 31, 2007. In consideration for the extension, the Company agreed to a change in the adjusted interest rate payable under each note from the Prime Rate plus three percent to the Prime Rate plus four percent. As amended, the promissory notes will maintain a fixed interest rate of 11.25% through the date of the interest rate change date that is specific to each note, at which point the rate will increase to the amended rate of the prime rate plus four percent.

On July 30, 2007, the Company entered into an Amendment to Promissory Note (which was effective as of June 29, 2007), by and between the Company and Standard Renewable Energy, LP, which extended the maturity of a promissory note with a principal balance of \$125,000 until December 31, 2007. In consideration for the extension, the Company agreed to a change in the interest rate from the Prime Rate plus three percent to the Prime Rate plus four percent.

On July 30, 2007, the Company entered into a Second Amendment to Subscription Agreement (which was effective as of June 29, 2007), by and between SREG, Standard Renewable Energy, LP and CVCC (the "Amended Subscription Agreements"). The original agreements dated April 5, 2007 and the first amendment to the original agreements dated April 24, 2007, entered into by and between SREG, Standard Renewable Energy, LP, and CVCC allowed the exchange of all of the Company's outstanding promissory notes aggregating \$1,850,000, plus accrued and unpaid interest through the date of conversion for shares of the Company's common stock. The Amended Subscription Agreements allow for the conversion of \$1,850,000 of outstanding promissory notes plus accrued and unpaid interest through the date of conversion. Under the Amended Subscription Agreements, the Company and the holder of the notes agreed that on the first business day following the date on which the Company first has outstanding 14,485,491 shares of common stock, the Company will issue to the holder of the notes a number of shares of common stock determined by multiplying 2 times the quotient of (x) the aggregate principal balance of and accrued but unpaid interest on the notes as of the close of business on the day before such issuance divided by (y) the lesser of (i) \$1.00 or (ii) the average closing sale price for the Company's common stock as quoted on the Over the Counter Bulletin Board for the ten trading days immediately preceding the date the Company has outstanding 14,485,491 shares of common stock outstanding. The Amended Subscription Agreements expire December 31, 2007.

Capital Resources Going Forward

Our intended plan of operations for the next twelve months, is to manufacture, sell and distribute limited quantities of our KH-3X and KH-4 product, as well smaller photovoltaic solar power systems and small on-site wind micro-turbines power systems. In the past, the Company primarily used funds derived from the private placement of its securities to fund its operations.

Cash on hand as of June 30, 2007, and cash generated by operations in conjunction with our working capital, will not be sufficient to continue our business for the next twelve months. We continually review our overall capital and funding needs, taking into account current business needs, as well as the Company's future goals and requirements. Based on our business strategy, we believe we will need to increase our available capital through the sale of additional securities.

Should our costs and expenses prove to be greater than we currently anticipate, or should we change our current business plan in a manner that will increase or accelerate our anticipated costs and expenses, the depletion of our working capital would be accelerated. To the extent it becomes necessary to raise additional cash in the future as our cash on hand and working capital resources are depleted, we intend to raise additional capital through the sale of additional equity securities, public or private sale of debt or equity securities, debt financing or short term loans, or a combination of these options. We currently do not have a binding commitment for, or readily available sources of, additional financing. We cannot give any assurance that we will be able to secure the additional cash or working capital that we may require to continue our operations under such circumstances or that it will be on terms that would not hinder our ability to execute our business strategy.

Our anticipated costs are estimates based upon our current business plan. Our actual costs could vary materially from these estimates. Further, we could change our current business plans, which may also result in a change in our anticipated costs.

Off Balance Sheet Arrangements

There are no guarantees, commitments, lease and debt agreements or other agreements that would trigger adverse changes in our credit rating, earnings, or cash flows, including requirements to perform under stand by agreements.

Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America.

Impairment of Long Lived Assets

On an ongoing basis, we evaluate our estimates and impairment of long lived assets. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates, including those for the above described items.

The Company reviews the recoverability of its long-lived assets, such as property and equipment, when events or changes in circumstances occur that indicate the carrying value of the asset or asset group may not be recoverable. The assessment of possible impairment is based on the Company's ability to recover the carrying value of the asset or asset group from the expected future pre-tax cash flows (undiscounted) of the related operations. If these cash flows are less than the carrying value of such asset, an impairment loss is recognized for the difference between estimated fair value and carrying value.

Revenue Recognition

Although at this stage in our development we have had no significant revenues we consider revenue recognition a critical accounting policy as it affects the timing of earnings recognition. We recognize revenues on delivery and to date our operations have not involved any uncertainty of accounting treatment, subjective judgment or estimates over revenue recognition.

Item 3. Controls and Procedures

Evaluation of disclosure controls and procedures.

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed pursuant to the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules, regulations and related forms, and that such information is accumulated and communicated to our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Within the 90 days prior to the filing date of this quarterly report, we carried out an evaluation, under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective.

Changes in internal controls.

There have been no significant changes in our internal controls or in other factors that could significantly affect these controls and procedures subsequent to the date we completed our evaluation. Therefore, no corrective actions were taken.

21

PART II — OTHER INFORMATION**Item 1. Legal Proceedings.** None.**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.** None**Item 3. Defaults Upon Senior Securities.** None.**Item 4. Submission of Matters to a Vote of Security Holders.**

The annual meeting of stockholders was held on May 23, 2007, at 1401 McKinney, Suite 1900, Houston Texas. An election of directors was held, with each of the directors below being elected and receiving the number of votes opposite their name, and with such directors subsequently constituting the entire board of directors of the Company.

	Number of Shares Voted For	Number of <u>Shares</u> <u>Withheld</u>
Jonathan H. Godshall	6,541,627	0
William Jackson Berger	6,541,627	0
Richard K. Hoesterey	6,541,627	0
General Randolph W. House	6,541,627	0
John Sifonis	6,541,627	0
John D. White	6,541,627	0
W. Kyle Willis	6,541,627	0

Additionally, the following resolutions were submitted to the Stockholders at the meeting, each being approved and receiving the number of votes opposite their description.

Proposal	Voted For	Number of Shares Voted Against	Abstaining
Amendment of the Company's Certificate of Incorporation	6,541,627	0	0
Approval of the Company's Amended and Restated Stock Option Plan	6,541,627	0	0

Certification of Principal Executive Officer
Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
and Securities and Exchange Commission Release 34-46427

I, Jonathan Godshall, certify that:

1. I have reviewed this quarterly report on Form 10-QSB of Trulite, Inc.
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the small business issuer as of, and for, the periods presented in this quarterly report;
4. The small business issuer's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the small business issuer and have:
 - a) designed such disclosure controls and procedures or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the small business issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the small business issuer's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation;
 - d) disclosed in this report any change in small business issuer's internal control over financial reporting that occurred during the small business issuer's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the small business issuer's internal control over financial reporting; and
5. The small business issuer's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the small business issuer's auditors and the audit committee of small business issuer's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the small business issuer's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the small business issuer's internal control over financial reporting.

Item 1.01. Entry into a Material Definitive Agreement.

On July 10, 2007, Trulite, Inc. (the “Company”) and HPC Capital Management (“HPC”) entered into an engagement letter (the “Engagement Agreement”) pursuant to which HPC agreed to provide to the Company on a non-exclusive basis investment banking, financial advisory and consulting services (collectively, the “Services”). The Engagement Agreement may be terminated by either party by delivery of 30 days’ written notice of termination to the other party.

In consideration of the Services, the Company has agreed to pay to HPC a placement fee equal to 10% of the purchase price of any securities sold by the Company in a private placement that occurs during the term of the Engagement Agreement or during the one year period following its termination to investors introduced by HPC to the Company, and to issue to HPC warrants to purchase the Company’s common stock having a term of five years, an exercise price tied to the price at which common stock or common stock equivalents were sold in the private placement. The number of shares of common stock for which the warrants are to be exercisable is to be determined by dividing the aggregate consideration raised by the Company in the private placement by the warrant exercise price and multiplying the quotient by 10%.

Additionally, the Engagement Agreement provides for payment of a fee to HPC based on a percentage of transaction value (the “Business Combination Fee”) if during the term of the Engagement Agreement or for a period of one year thereafter the Company consummates a merger, acquisition, joint venture or similar transaction with a party that was introduced by HPC to the Company. The Business Combination Fee is to be payable in a combination of stock and cash based upon the mix of consideration related in the transaction to which the Business Combination Fee relates.

Item 1.01. Entry into a Material Definitive Agreement.

On July 30, 2007, Trulite, Inc. (the “Company”) entered into an Amendment to Promissory Notes (which was effective as of June 29, 2007), by and between the Company and Standard Renewable Energy Group, LLC (“SREG”). SREG wholly owns NewPoint Energy Solutions, LP (“NewPoint”), the owner of approximately 45.2% of the Company’s common stock. The amendment extended the maturity of four promissory notes with an aggregate principal balance of \$960,000 until December 31, 2007. In consideration for the extension, the Company agreed to a change in the adjusted interest rate payable under each note from the Prime Rate plus three percent to the Prime Rate plus four percent. As amended, the promissory notes will maintain a fixed interest rate of 11.25% through the date of the interest rate change date that is specific to each note, at which point the rate will increase to the amended rate of the prime rate plus four percent.

On July 30, 2007, Trulite, Inc. (the “Company”) entered into an Amendment to Promissory Notes (which was effective as of June 29, 2007), by and between, Contango Venture Capital Corporation (“CVCC”), the owner of approximately 17% of the Company's outstanding common stock, which extended the maturity of three promissory notes with an aggregate principal balance of \$765,000 until December 31, 2007. In consideration for the extension, the Company agreed to a change in the adjusted interest rate payable under each note from the Prime Rate plus three percent to the Prime Rate plus four percent. As amended, the promissory notes will maintain a fixed interest rate of 11.25% through the date of the interest rate change date that is specific to each note, at which point the rate will increase to the amended rate of the prime rate plus four percent.

On July 30, 2007, Trulite, Inc. (the “Company”) entered into an Amendment to Promissory Note (which was effective as of June 29, 2007), by and between, Standard Renewable Energy, LP, which extended the maturity of a promissory note with a principal balance of \$125,000 until December 31, 2007. In consideration for the extension, the Company agreed to a change in the interest rate from the Prime Rate plus three percent to the Prime Rate plus four percent.

On July 30, 2007, the Company entered into three separate Second Amendment to Subscription Agreement, by and between the Company, on the one hand, and SREG, Standard Renewable Energy, LP and CVCC on the other hand (collectively, the “Amended Subscription Agreements”). The original agreements dated April 5, 2007, as amended, effective April 24, 2007, allowed the exchange of the Company’s outstanding promissory notes aggregating \$1,850,000 on April 24, 2007, plus accrued and unpaid interest through the date of conversion, for shares of the Company’s common stock on terms previously reported. Under the Amended Subscription Agreements, the Company and the holders of the notes agreed that on the first business day following the date on which the Company first has outstanding 14,485,491 shares of common stock, the Company will issue to the holders of the notes a number of shares of common stock determined by multiplying 2 times the quotient of (x) the aggregate principal balance of and accrued but unpaid interest on the notes as of the close of business on the day before such issuance divided by (y) the lesser of (i) \$1.00 or (ii) the average closing sale price for the Company’s common stock as quoted on the Over the Counter Bulletin Board for the ten trading days immediately preceding the date the Company has outstanding 14,485,491 shares of common stock outstanding. The Amended Subscription Agreements expire December 31, 2007.

Item 1.02. Termination of a Material Definitive Agreement

On August 2, 2007, the Company terminated an agreement with HPC Capital Management (“HPC”) (the “Agreement”) which was entered into on July 10, 2007, pursuant to which HPC had agreed to provide to the Company on a non-exclusive basis investment banking, financial advisory and consulting services. The Agreement provided that either party may terminate by delivery of written notice to the other party. The Agreement provides that in the event that prior to the first anniversary of the date of termination the Company engages in certain types of financing or business combination transactions with a party or parties introduced to the Company by HPC during the term of the Agreement, the Company will have certain compensation obligations to HPC under the terms of the Agreement.

Item 5.02. Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

(c) On August 7, 2007, the Board of Directors of Trulite, Inc., or the Board, appointed Ron Seftick as its President. Before joining the company, Mr. Seftick, age 54, served from May 2007 to August 2007 as a private consultant to Trulite. From 2003 through 2006, Mr. Seftick served as the Vice President of the Large Systems Business of American Power Conversion. From 2002 through 2003, Mr. Seftick was the President of Wagner Systems headquartered in Markdorf, Germany, responsible for the Industrial Division for the America's. From 2000 to 2002, Mr. Seftick was the Executive Vice President for GE-Zenith Controls. From 1987 through 1999 Mr. Seftick worked for Zenith Controls, rising to the position of Executive Vice President in 1997. Mr. Seftick had growing executive roles within General Electric at GE Supply Co. and the Apparatus Distribution Sales Division. Mr. Seftick is a graduate of Washington and Jefferson College where he earned a B.A. in Economics. Mr. Seftick is a past president of the Electrical Generating Systems Association where he also served as Chairman of the Board. Additionally, Mr. Seftick has held advisory roles to NEMA, 7X24, and Power Gen International.

Jonathan Godshall, who was previously our President and Chief Executive Officer, will continue to serve as our Chief Executive Officer.

(e) On August 8, 2007, in connection with Mr. Seftick's appointment, we entered into an employment agreement with Mr. Seftick, pursuant to which Mr. Seftick will be employed for an initial term of twelve months effective beginning on July 31, 2007. Under the employment agreement, Mr. Seftick will receive an annual base salary of \$220,000, a retention bonus of \$20,000 payable in four quarterly installments of \$5,000 each (September 30, 2007; December 31, 2007; March 31, 2008 and June 30, 2008) as long as Mr. Seftick is still employed by us at each payment date. Mr. Seftick will be eligible to participate in a cash incentive plan with a target bonus of fifty percent of his actual salary paid during 2007, based on achieving the objectives of the plan, which are currently being developed by the company, with Mr. Seftick's input. In addition, the company intends to provide Mr. Seftick either a compensation package to cover Mr. Seftick's expenses related to relocating should he do so, or to reimburse Mr. Seftick for his expenses related to commuting to appropriate company locations should he not relocate. The employment agreement provides that if Mr. Seftick is terminated without cause or if he terminates for good reason (as such terms are defined in the employment agreement), then he will be entitled to receive his base salary for six months following such termination and his unexercised unvested stock options will continue to vest in accordance with the regular vesting schedule for twelve months following such termination. In addition, if the company elects not to renew Mr. Seftick's employment within twelve months of the effective date, he will receive as a severance package his base salary in effect at that time for a period of one hundred eighty days.

Additionally, on August 8, 2007, we entered into a confidential information, invention assignment and non-competition agreement with Mr. Seftick, whereby he agrees to assign to the company any rights to patents, inventions and other intellectual property developed during his employment or consulting relationship with the company, not disclose confidential information of the company to third parties, not compete with the company or solicit employees or consultants of the company for a period of twelve months following his termination for any reason.

Subject to approval by the compensation committee and a determination of fair market value, on August 7, 2006 the Board approved a future grant to Mr. Seftick of a stock option to acquire 750,000 shares of our common stock that, subject to such approval, will vest in equal installments on each of May 15, 2008, May 15, 2009, May 15, 2010 and May 15, 2011, provided that Mr. Seftick is employed with us on each vesting date and subject to certain other exceptions. As proposed, the stock option would expire on August 7, 2014 and would automatically vest upon a change in control, merger or buyout of the company.
