HIGHWAY HOLDINGS REPORTS FISCAL 2010 FOURTH QUARTER/ YEAR-END RESULTS

HONG KONG —June 28, 2010 — Highway Holdings Limited (Nasdaq:HIHO) today reported results for its fiscal fourth quarter and year ended March 31, 2010, maintaining profitability despite challenging worldwide economic conditions.

Net income for the fiscal fourth quarter was \$161,000, or \$0.04 per diluted share, compared with net income of \$271,000, or \$0.07 per diluted share, a year earlier. Net sales for the same period were \$6.0 million compared with \$6.9 million a year earlier.

Net income for fiscal year 2010 was \$420,000, or \$0.11 per diluted share, compared with net income of \$768,000, or \$0.20 per diluted share, in fiscal 2009. Net sales for fiscal 2010 were \$21.7 million compared with \$33.7 million a year ago.

“Despite the steep decline in worldwide economic activity during the past year and the impact on net sales, the company was still able to achieve a net profit in both the fiscal 2010 fourth quarter and year,” said Roland Kohl, president and chief executive officer of Highway Holdings.

Kohl noted that order flow and net sales appear to be improving in the new fiscal year compared with last year. He added that future financial performance, however, will remain uncertain due to the recent steep increases in labor costs in China, the fluctuations in raw materials prices, and the changes in the value of the euro and yuan compared with the U.S. dollar.

He noted the company initiated substantial internal changes to address global factors, including the closure of two of its four factories. “These closures resulted in one-time charges that impacted profitability for fiscal 2010, but will reduce our future operating costs,” Kohl said.

Nonetheless, “the company was able to further improve its balance sheet, increase its cash position, reduce inventory and accounts receivables, and improve its current ratio. As a result, we ended the fiscal year with cash and restricted cash at 1.5 times current and long-term liabilities combined,” Kohl added.

(more)

Gross profit as a percentage of sales increased to 21.6 percent compared with 19.9 percent a year earlier. The increase in gross profit reflects a focus on streamlining the company's workforce and the implementation of programs and systems to enhance operations.

Selling, general and administrative expenses for fiscal 2010 decreased by \$1.5 million, or 25.0 percent, compared with the same period a year earlier as a result of both the decrease in net sales and the elimination of certain expenses related to the recently closed facilities -- as well as a reduction in auditing fees.

Fiscal 2010 fourth quarter results reflect an approximate 13.6 percent reduction in net sales, with a \$90,000 higher gross profit -- resulting in strong operational income of \$366,000 compared with an operational loss of \$18,000 a year earlier.

The weakening of the euro compared with the U.S. dollar in the fiscal fourth quarter resulted in a currency exchange loss of \$167,000 in fiscal 2010 compared with a currency exchange loss of \$51,000 the year earlier. The company does not undertake any currency hedging transactions. The company does, however, have agreements with certain of its European customers that limit the risk of currency fluctuations.

Kohl noted that the company's balance sheet remains strong with total current assets at March 31, 2010 of \$14.3 million; working capital of \$9.8 million; and long-term debt, net of the current portion, of only \$44,000. The company's current ratio was 3.18:1 at March 31, 2010 compared with 2.53 at March 31, 2009. Kohl highlighted the company's cash position of \$1.88 per diluted share and an increase in total shareholders' equity to \$11.7 million at March 31, 2010 from \$11.4 million a year earlier -- representing approximately \$3.12 per diluted share.

About Highway Holdings

Highway Holdings produces a wide variety of high-quality products for blue chip original equipment manufacturers -- from simple parts and components to sub-assemblies. It also manufactures finished products, such as light fixtures, LED lights, radio chimes and other electronic products. Highway Holdings is headquartered in Hong Kong, and currently operates with its principal manufacturing facility in Shenzhen, and a factory in Wuxi, in the People's Republic of China.

Except for the historical information contained herein, the matters discussed in this press release are forward-looking statements which involve risks and uncertainties, including but not limited to economic, competitive, governmental, political and technological factors affecting the company's revenues, operations, markets, products and prices, and other factors discussed in the company's various filings with the Securities and Exchange Commission, including without limitation, the company's annual reports on Form 20-F.
