FORWARD-LOOKING STATEMENTS

This report contains information that may constitute “forward-looking statements.” Generally, the words “believe,” “expect,” “intend,” “estimate,” “anticipate,” “project,” “will,” “may” and similar expressions identify forward-looking statements, which generally are not historical in nature. All statements that address operating performance, events or developments that we expect or anticipate will occur in the future, including statements relating to future operating results, are forward-looking statements. Management believes that these forward-looking statements are reasonable as and when made. However, forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from our Company’s historical experience and our present expectations or projections. These risks and uncertainties include, but are not limited to, those described in Part II, “Item 1A. Risk Factors,” and elsewhere in this report and in our Annual Report on Form 10-K for the year ended December 31, 2010, and those described from time to time in our future reports filed with the Securities and Exchange Commission. As a result of such risks and uncertainties, we urge you not to place undue reliance on any such forward-looking statements. Forward-looking statements speak only as of the date when made. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2011

As used herein, the terms Equifax, the Company, we, our and us refer to Equifax Inc., a Georgia corporation, and its consolidated subsidiaries as a combined entity, except where it is clear that the terms mean only Equifax Inc.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations. We collect, organize and manage various types of financial, demographic, employment and marketing information. Our products and services enable businesses to make credit and service decisions, manage their portfolio risk, automate or outsource certain human resources, employment tax and payroll-related business processes, and develop marketing strategies concerning consumers and commercial enterprises. We serve customers across a wide range of industries, including the financial services, mortgage, retail, telecommunications, utilities, automotive, brokerage, healthcare and insurance industries, as well as government agencies. We also enable consumers to manage and protect their financial health through a portfolio of products offered directly to consumers. As of March 31, 2011, we operated in the following countries: Argentina, Brazil, Canada, Chile, Ecuador, El Salvador, Honduras, Paraguay, Peru, Portugal, Spain, the United Kingdom, or U.K., Uruguay, and the United States of America, or U.S. We also maintain support operations in Costa Rica and the Republic of Ireland. We offer credit services in Russia and India through joint ventures.

We develop, maintain and enhance secured proprietary information databases through the compilation of actual consumer data, including credit, employment, asset, liquidity, net worth and spending activity, and business data, including credit and business demographics, that we obtain from a variety of sources, such as credit granting institutions, public record information (including bankruptcies, liens and judgments), income and tax information primarily from large to mid-sized companies in the U.S., and marketing information. We process this information utilizing our proprietary information management systems.

Basis of Presentation. The accompanying unaudited Consolidated Financial Statements have been prepared in accordance with U.S. generally accepted accounting principles, or GAAP, the instructions to Form 10-Q and applicable sections of Regulation S-X. To understand our complete financial position and results, as defined by GAAP, this Form 10-Q should be read in conjunction with the Consolidated Financial Statements and the notes thereto included in our annual report on Form 10-K for the fiscal year ended December 31, 2010, or 2010 Form 10-K.

Our unaudited Consolidated Financial Statements reflect all adjustments which are, in the opinion of management, necessary for a fair presentation of the periods presented. Certain prior year amounts have been reclassified to conform to current year presentation including the results of businesses reclassified as discontinued operations, which are more fully described in Note 2 of the Notes to Consolidated Financial Statements.

Earnings Per Share. Our basic earnings per share, or EPS, is calculated as net income attributable to Equifax divided by the weighted-average number of common shares outstanding during the period. Diluted EPS is calculated to reflect the potential dilution that would occur if stock options or other contracts to issue common stock were exercised and resulted in additional common shares outstanding. The net income amounts used in both our basic and diluted EPS calculations are the same. A reconciliation of the weighted-average outstanding shares used in the two calculations is as follows:

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

	Three Months Ended March 31,	
	2011	2010
	(In millions)	
Weighted-average shares outstanding (basic)	122.8	126.3
Effect of dilutive securities:		
Stock options and restricted stock units	1.9	1.8
Weighted-average shares outstanding (diluted)	124.7	128.1

For the three months ended March 31, 2011 and 2010, 1.2 million and 3.3 million stock options, respectively, were anti-dilutive and therefore excluded from this calculation.

Financial Instruments. Our financial instruments consist primarily of cash and cash equivalents, accounts and notes receivable, accounts payable and short-term and long-term debt. The carrying amounts of these items, other than long-term debt, approximate their fair market values due to the short-term nature of these instruments. The fair value of our fixed-rate debt is determined using quoted market prices for publicly traded instruments, and for non-publicly traded instruments through valuation techniques depending on the specific characteristics of the debt instrument. As of March 31, 2011 and December 31, 2010, the fair value of our debt was \$1.04 billion and \$1.05 billion, respectively, compared to its carrying value of \$0.98 billion for both periods presented.

Derivatives and Hedging Activities. Although derivative financial instruments are not utilized for speculative purposes, derivatives have been used as a risk management tool to hedge the Company's exposure to changes in interest rates. We have used interest rate swaps and interest rate lock agreements to manage interest rate risk associated with our fixed and floating-rate borrowings. We recognize all derivatives on the balance sheet at fair value. Derivative valuations reflect the value of the instrument including material amounts associated with counterparty risk.

Fair Value Hedges. In conjunction with our November 2009 sale of five-year Senior Notes, we entered into five-year interest rate swaps, designated as fair value hedges, which convert the debt's fixed interest rate to a variable rate. These swaps involve the receipt of fixed rate amounts for floating interest rate payments over the life of the swaps without exchange of the underlying principal amount. Changes in the fair value of the interest rate swaps offset changes in the fair value of the fixed-rate Senior Notes they hedge due to changes in the designated benchmark interest rate and are recorded in interest expense. The fair value of these interest rate swaps was an asset of \$7.6 million and \$9.7 million at March 31, 2011 and December 31, 2010, respectively, and was recorded in other long-term assets on our Consolidated Balance Sheet.

Fair Value Measurements. Fair value is determined based on the assumptions marketplace participants use in pricing the asset or liability. We use a three level fair value hierarchy to prioritize the inputs used in valuation techniques between observable inputs that reflect quoted prices in active markets, inputs other than quoted prices with observable market data and unobservable data (e.g., a company's own data).

The following table presents items measured at fair value on a recurring basis:

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Description	Fair Value Measurements at Reporting Date Using:			
	Fair Value of Assets (Liabilities) at March 31, 2011	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
	(In millions)			
Fair Value Interest Rate Swaps(1)	\$ 7.6	\$ -	\$ 7.6	\$ -
Notes, due 2014	(282.6)	-	(282.6)	-
Deferred Compensation Plan(2)	(13.5)	(13.5)	-	-
Total	\$ (288.5)	\$ (13.5)	\$ (275.0)	\$ -

(1) The fair value of our interest rate swaps, which are designated as fair value hedges, and notes are based on the present value of expected future cash flows using zero coupon rates and are classified within Level 2 of the fair value hierarchy.

(2) We maintain a deferred compensation plan that allows for certain management employees to defer the receipt of compensation (such as salary, incentive compensation and commissions) until a later date based on the terms of the plan. The liability representing benefits accrued for plan participants is valued at the quoted market prices of the participants' elections for investments. Identical instruments are traded in active markets as of March 31, 2011. As such, we have classified this liability as Level 1 within the fair value hierarchy.

Variable Interest Entities. We hold interests in certain entities, including credit data and information solutions ventures, that are considered variable interest entities, or VIEs. These variable interests relate to ownership interests that require financial support for these entities. Our investments related to these VIEs totaled \$10.8 million at March 31, 2011, representing our maximum exposure to loss. We are not the primary beneficiary and are not required to consolidate any of these VIEs.

Recent Accounting Pronouncements. Revenue Arrangements with Multiple Deliverables. In October 2009, the FASB issued revenue guidance for multiple-deliverable arrangements which addresses how to separate deliverables and how to measure and allocate arrangement consideration. This guidance requires vendors to develop the best estimate of selling price for each deliverable and to allocate arrangement consideration using this selling price. The guidance is effective prospectively for revenue arrangements entered into or materially modified in annual periods beginning after June 15, 2010. The adoption of this guidance on January 1, 2011 did not have a material impact on our Consolidated Financial Statements.

For additional information about recent accounting pronouncements adopted or pending adoption, see Note 1 of the Notes to Consolidated Financial Statements in our 2010 Form 10-K.

2. DISCONTINUED OPERATIONS

On April 23, 2010, we sold our APPRO loan origination software business (“APPRO”), for \$72 million. On July 1, 2010, we sold substantially all the assets of our Direct Marketing Services division (“DMS”) for \$117 million. Both of these businesses were reported in our U.S. Consumer Information Solutions segment. The historical results of these operations for the three month period ended March 31, 2010 are classified as discontinued operations in the Consolidated Statements of Income. Revenue for these businesses for the three months ended March 31, 2011 and 2010 was \$0 and \$23.6 million, respectively. Pretax income was \$0 and \$4.3 million for the three months ended March 31, 2011 and 2010, respectively.

3. GOODWILL AND INTANGIBLE ASSETS

Goodwill. Goodwill represents the cost in excess of the fair value of the net assets acquired in a business combination. Goodwill is tested for impairment at the reporting unit level on an annual basis and on an interim basis if an event occurs or circumstances change that would reduce the fair value of a reporting unit below its carrying value. We perform our annual goodwill impairment tests as of September 30.

Changes in the amount of goodwill for the three months ended March 31, 2011, are as follows:

	U.S. Consumer Information Solutions	International	TALX	North America Personal Solutions	North America Commercial Solutions	Total
	(In millions)

Balance, March 31, 2011	\$628.6	\$378.1	\$899.9	\$1.8	\$37.7	\$1,946.1

Indefinite-Lived Intangible Assets. Indefinite-lived intangible assets consist of contractual/territorial rights representing the estimated acquisition date fair value of rights to operate in certain territories acquired through the purchase of independent credit reporting agencies in the U.S. and Canada. Our contractual/territorial rights are perpetual in nature and, therefore, the useful lives are considered indefinite. Indefinite-lived intangible assets are not amortized. We are required to test indefinite-lived intangible assets for impairment annually and whenever events or circumstances indicate that there may be an impairment of the asset value. We perform our annual indefinite-lived intangible asset impairment test as of September 30. Our contractual/territorial rights carrying amounts did not change materially during the three months ended March 31, 2011.

3. GOODWILL AND INTANGIBLE ASSETS (Continued)

Purchased Intangible Assets. Purchased intangible assets represent the estimated acquisition date fair value of acquired intangible assets used in our business. Purchased data files represent the estimated acquisition date fair value of consumer credit files acquired primarily through the purchase of independent credit reporting agencies in the U.S. and Canada. We expense the cost of modifying and updating credit files in the period such costs are incurred. We amortize purchased data files, which primarily consist of acquired consumer credit files, on a straight-line basis. Primarily all of our other purchased intangible assets are also amortized on a straight-line basis. For additional information about the useful lives related to our purchased intangible assets, see Note 1 of the Notes to Consolidated Financial Statements in our 2010 Form 10-K.

Purchased intangible assets at March 31, 2011 and December 31, 2010 consisted of the following:

Senior Credit Facility. During the first quarter of 2011, we extended the maturity date and reduced the borrowing limits of our existing unsecured revolving credit facility, which we refer to as the Senior Credit Facility, by entering into a Second Amended and Restated Credit Agreement dated as of February 18, 2011 (the "Amended Agreement"). The Senior Credit Facility had been scheduled to expire on July 24, 2011, and provided \$850.0 million of borrowing capacity. The Amended Agreement provides for a maturity date of February 18, 2015. We elected to reduce the size of the facility to \$500.0 million in line with our liquidity needs and current credit market conditions, including higher upfront fees and fees for unused borrowing availability. The Amended Agreement also provides an accordion feature that allows us to request an increase in the total commitment to \$750.0 million should we so choose. We added certain of our subsidiaries in Canada, the U.K. and Luxembourg as co-borrowers in addition to the Company to provide additional flexibility as to the place of borrowing. Borrowings may be used for general corporate purposes, including working capital, capital expenditures, acquisitions and share repurchase programs. Availability of the Senior Credit Facility for borrowings is reduced by the outstanding face amount of any letters of credit issued under the facility and, pursuant to our existing Board of Directors authorization, by the outstanding principal amount of our commercial paper notes. As of March 31, 2011, there were no outstanding borrowings under this facility and \$475.4 million was available for borrowings.

Commercial Paper Program. During the first quarter of 2011, we reduced the size of our commercial paper program from \$850.0 million to \$500.0 million. Our commercial paper program has been established through the private placement of commercial paper notes from time-to-time. Maturities of commercial paper can range from overnight to 397 days. The commercial paper program is supported by our Senior Credit Facility and, pursuant to our existing Board of Directors authorization, the total amount of commercial paper which may be issued is reduced by the amount of any outstanding borrowings under our Senior Credit Facility. At March 31, 2011, \$23.0 million in commercial paper notes was outstanding, all with maturities of less than 90 days.

Canadian Credit Facility. We were party to a credit agreement with a Canadian financial institution that provided for a C\$10.0 million (denominated in Canadian dollars), 364-day revolving credit agreement. This agreement was scheduled to expire in June 2011. In connection with the Amended Agreement, we cancelled this agreement as of March 31, 2011, and there were no outstanding borrowings under this agreement at the time of cancellation.

For additional information about our debt agreements, see Note 5 of the Notes to Consolidated Financial Statements in our 2010 Form 10-K.

5. COMMITMENTS AND CONTINGENCIES

Data Processing, Outsourcing Services and Other Agreements. We have separate agreements with IBM, Acxiom, Tata Consultancy Services and others to outsource portions of our computer data processing operations, applications development, maintenance and related functions and to provide certain other administrative and operational services. The agreements expire between 2011 and 2016. The estimated aggregate minimum contractual obligation remaining under these agreements was approximately \$100 million at December 31, 2010, with no future year's minimum contractual obligation expected to exceed approximately \$40 million. Annual payment obligations in regard to these agreements vary due to factors such as the volume of data processed; changes in our servicing needs as a result of new product offerings, acquisitions or divestitures; the introduction of significant new technologies; foreign currency; or the general rate of inflation. In certain circumstances (e.g., a change in control or for our convenience), we may terminate these data processing and outsourcing agreements, and, in doing so, certain of these agreements require us to pay a significant penalty.

Agreement with Computer Sciences Corporation. We have an agreement with Computer Sciences Corporation, or CSC, and certain of its affiliates, collectively CSC, under which CSC-owned credit reporting agencies utilize our computerized credit database services. CSC retains ownership of its credit files and the revenues generated by its credit reporting activities. We receive a processing fee for maintaining the database and for each report supplied. The agreement will expire on July 31, 2018, and is renewable at the option of CSC for successive ten-year periods. The agreement provides us with an option to purchase CSC's credit reporting business if it does not elect to renew the agreement or if there is a change in control of CSC while the agreement is in effect. Under the agreement CSC also has an option, exercisable at any time, to sell its credit reporting business to us. The option expires in 2013. The option exercise price will be determined by a third-party appraisal process and would be due in cash within 180 days after the exercise of the option. We estimate that if the option were exercised at December 31, 2010, the price range would be approximately \$625 million to \$700 million. This estimate is based solely on our internal analysis of the value of the business, current market conditions and other factors, all of which are subject to constant change. Therefore, the actual option exercise price could be materially higher or lower than our estimate.

Guarantees and General Indemnifications. We may issue standby letters of credit, performance bonds or other guarantees in the normal course of business. The aggregate notional amount of all performance bonds and standby letters of credit was not material at March 31, 2011, and all have a remaining maturity of one year or less. The maximum potential future payments we could be required to make under the guarantees is not material at March 31, 2011.

We have agreed to standard indemnification clauses in many of our lease agreements for office space, covering such things as tort, environmental and other liabilities that arise out of or relate to our use or occupancy of the leased premises. Certain of our credit agreements include provisions which require us to make payments to preserve an expected economic return to the lenders if that economic return is diminished due to certain changes in law or regulations. In conjunction with certain transactions, such as sales or purchases of operating assets or services in the ordinary course of business, or the disposition of certain assets or businesses, we sometimes provide routine indemnifications, the terms of which range in duration and sometimes are not limited. Additionally, the Company has entered into indemnification agreements with its directors and executive officers to indemnify such individuals to the fullest extent permitted by applicable law against liabilities that arise by reason of their status as directors or officers. The Company maintains directors and officers liability insurance coverage to reduce its exposure to such obligations.

5. COMMITMENTS AND CONTINGENCIES (Continued)

We cannot reasonably estimate our potential future payments under the indemnities and related provisions described above because we cannot predict when and under what circumstances these provisions may be triggered. We had no accruals related to indemnifications on our Consolidated Balance Sheets at March 31, 2011 or December 31, 2010.

Contingencies. We are involved in legal proceedings, claims and litigation arising in the ordinary course of business. We periodically assess our exposure related to these matters based on the information which is available. We have recorded accruals in our Consolidated Financial Statements for those matters in which it is probable that we have incurred a loss and the amount of the loss, or range of loss, can be reasonably estimated.

For other legal proceedings, claims and litigation, we have recorded loss contingencies that are immaterial, or we cannot reasonably estimate the potential loss because of uncertainties about the outcome of the matter and the amount of the loss or range of loss. Although the final outcome of these other matters cannot be predicted with certainty, any possible adverse outcome arising from these matters is not expected to have a material impact on our Consolidated Financial Statements, either individually or in the aggregate. However, our evaluation of the likely impact of these matters may change in the future.

Tax Matters. In 2003, the Canada Revenue Agency, or CRA, issued Notices of Reassessment, asserting that Acrofax, Inc., a wholly-owned Canadian subsidiary of Equifax, is liable for additional tax for the 1995 through 2000 tax years, related to certain intercompany capital contributions and loans. The additional tax sought by the CRA for these periods ranges, based on alternative theories, from \$8.8 million (8.5 million in Canadian dollars) to \$19.5 million (19.0 million in Canadian dollars) plus interest and penalties. Subsequently in 2003, we made a statutorily-required deposit for a portion of the claim. We intend to vigorously contest these reassessments and do not believe we have violated any statutory provision or rule. While we believe our potential exposure is less than the asserted claims and not material to our Consolidated Financial Statements, if the final outcome of this matter was unfavorable to us, an additional claim may be filed by the local province.

For additional information about these and other commitments and contingencies, see Note 6 of the Notes to Consolidated Financial Statements in our 2010 Form 10-K.

6. INCOME TAXES

We are subject to U.S. federal, state and international income taxes. We are generally no longer subject to federal, state, or international income tax examinations by tax authorities for years ending prior to December 31, 2002, with few exceptions. In Canada, we are under audit by the Canada Revenue Agency for the 1995 through 2000 tax years (see Note 5 of the Notes to Consolidated Financial Statements). Due to the potential for resolution of state and foreign examinations, and the expiration of various statutes of limitations, it is reasonably possible that our gross unrecognized tax benefit balance may change within the next twelve months by a range of \$0 to \$7.1 million.

Effective Tax Rate. Our effective tax rate was 37.9% for the three months ended March 31, 2011 up from 37.6% for the same period in 2010. Our foreign and state income tax rates were higher for the three months ended March 31, 2011 versus the prior year, partially offset by a favorable federal tax benefit not recognized during the same period of the prior year.

7. BENEFIT PLANS

We sponsor defined benefit pension plans and defined contribution plans. For additional information about our benefit plans, see Note 10 of the Notes to Consolidated Financial Statements in our 2010 Form 10-K.

The following table provides the components of net periodic benefit cost for the three months ended March 31, 2011 and 2010:

	Pension Benefits		Other Benefits

8. SEGMENT INFORMATION

Reportable Segments. We manage our business and report our financial results through the following five reportable segments, which are the same as our operating segments:

-	U.S. Consumer Information Solutions
-	International
-	TALX
-	North America Personal Solutions
-	North America Commercial Solutions

The accounting policies of the reportable segments are the same as those described in our summary of significant accounting policies in Note 1 of the Notes to Consolidated Financial Statements in our 2010 Form 10-K. We evaluate the performance of these reportable segments based on their operating revenues, operating income and operating margins, excluding unusual or infrequent items, if any. Inter-segment sales and transfers are not material for all periods presented. The measurement criteria for segment profit or loss and segment assets are substantially the same for each reportable segment. All transactions between segments are accounted for at cost, and no timing differences occur between segments.

A summary of segment products and services is as follows:

U.S. Consumer Information Solutions. This segment includes consumer information services (such as credit information and credit scoring, credit modeling services, locate services, fraud detection and prevention services, identity verification services and other consulting services); mortgage loan origination information, appraisal, title and closing services; consumer financial marketing services; and multi-factor authentication solutions.

International. This segment includes information services products, which includes consumer and commercial services (such as credit and financial information, credit scoring and credit modeling services), credit and other marketing products and services, and products and services sold directly to consumers similar to those sold by North America Personal Solutions.

TALX. This segment includes employment, income and social security number verification services (known as The Work Number ®) and employment tax and talent management services.

North America Personal Solutions. This segment includes credit information, credit monitoring and identity theft protection products sold directly to consumers via the internet.

North America Commercial Solutions. This segment includes commercial products and services such as business credit and demographic information, credit scores and portfolio analytics (decisioning tools), which are derived from our databases of business credit and financial information.

8. SEGMENT INFORMATION (Continued)

Operating revenue and operating income by operating segment during the three months ended March 31, 2011 and 2010, are as follows:

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

As used herein, the terms Equifax, the Company, we, our and us refer to Equifax Inc., a Georgia corporation, and its consolidated subsidiaries as a combined entity, except where it is clear that the terms mean only Equifax Inc.

All references to earnings per share data in Management's Discussion and Analysis, or MD&A, are to diluted earnings per share, or EPS, unless otherwise noted. Diluted EPS is calculated to reflect the potential dilution that would occur if stock options or other contracts to issue common stock were exercised and resulted in additional common shares outstanding.

BUSINESS OVERVIEW

We are a leading global provider of information solutions, employment and income verifications and human resources business process outsourcing services. We leverage some of the largest sources of consumer and commercial data, along with advanced analytics and proprietary technology, to create customized insights which enable our business customers to grow faster, more efficiently and more profitably, and to inform and empower consumers.

Businesses rely on us for consumer and business credit intelligence, credit portfolio management, fraud detection, decisioning technology, marketing tools, and human resources and payroll-related services. We also offer a portfolio of products that enable individual consumers to manage their financial affairs and protect their identity. Our revenue stream is diversified among individual consumers and among businesses across a wide range of industries and international geographies.

Segment and Geographic Information

Segments. The U.S. Consumer Information Solutions, or USCIS, segment, the largest of our five segments, consists of three product and service lines: Online Consumer Information Solutions, or OCIS; Mortgage Solutions; and Consumer Financial Marketing Services. OCIS and Mortgage Solutions revenue is principally transaction-based and is derived from our sales of products such as consumer credit reporting and scoring, mortgage settlement services, identity verification, fraud detection and modeling services. USCIS also markets certain of our decisioning products which facilitate and automate a variety of consumer credit-oriented decisions. Consumer Financial Marketing Services revenue is principally project- and subscription-based and is derived from our sales of batch credit and consumer wealth information such as those that assist clients in acquiring new customers, cross-selling to existing customers and managing portfolio risk.

The International segment consists of Canada Consumer, Europe and Latin America. Canada Consumer's products and services are similar to our USCIS offerings, while Europe and Latin America are made up of varying mixes of product lines that are in our USCIS, North America Commercial Solutions and North America Personal Solutions reportable segments.

The TALX segment consists of The Work Number® and Tax and Talent Management business units. The Work Number revenue is transaction-based and is derived primarily from employment, income and social security number verifications. Tax and Talent Management revenues are derived from our provision of certain human resources business process outsourcing services that include both transaction- and subscription-based product offerings. These services assist our customers with the administration of unemployment claims and employer-based tax credits and the assessment of new hires.

North America Personal Solutions revenue is both transaction- and subscription-based and is derived from the sale of credit monitoring, debt management and identity theft protection products, which we deliver to consumers electronically via the internet.

North America Commercial Solutions revenue is principally transaction-based, with the remainder project-based, and is derived from the sale of business information, credit scores and portfolio analytics that enable customers to utilize our reports to make financing, marketing and purchasing decisions related to businesses.

Geographic Information. We currently operate in the following countries: Argentina, Brazil, Canada, Chile, Costa Rica, Ecuador, El Salvador, Honduras, Paraguay, Peru, Portugal, the Republic of Ireland, Spain, the U.K., Uruguay, and the U.S. Our operations in Costa Rica and the Republic of Ireland focus on data handling and customer support activities. We offer consumer credit services in Russia and India through joint ventures.

Key Performance Indicators. Management focuses on a variety of key indicators to monitor operating and financial performance. These performance indicators include operating revenue, change in operating revenue, operating income, operating margin, net income attributable to Equifax, diluted earnings per share, cash provided by operating activities and capital expenditures. The key performance indicators for the three months ended March 31, 2011 and 2010, were as follows:

	Key Performance Indicators Three Months Ended March 31,			
	2011		2010	
	(Dollars in millions, except per share data)			
Operating revenue	\$	472.6	\$	443.0

Business Environment and Company Strategy

Consumer and small business lending activity, which is one of the drivers of demand for our services, has stabilized in most markets around the world, but in most cases is not yet showing strong growth. We expect growth in consumer lending to continue to lag the general economic recovery, particularly in the more mature markets. In addition, new financial regulations are increasing the compliance requirements for many of our customers and introduce new challenges as well as opportunities in the marketing of our product and service offerings to our customers. In an effort to respond to these market conditions, we have focused on the following activities:

- Further diversification of our revenues by pursuing and investing in key strategic initiatives including new product innovation, differentiated decisioning solutions and analytics leveraging our diverse data assets and technology platforms.
 - Reorganizing our sales force with key customer teams dedicated to our largest accounts.
 - Acquiring new data assets and technologies in addition to international expansion.
- Continuing our focus on managing our expenses through the use of LEAN, Work Out and other process improvement initiatives.

For 2011, the operating environment will continue to present challenges for the marketing and growth of our traditional products and services, but will also create new opportunities for our more recently developed products. These newer product offerings leverage our diverse data assets, analytical capabilities and technology platforms to improve customers' decisioning capabilities and risk management activities. In 2011, we expect improvements in the

credit economy to be very modest and, therefore, not contribute measurably to organic growth. However, we do expect to derive organic growth through our new product offerings and from the momentum we achieved as a result of our performance in 2010.

RESULTS OF OPERATIONS—THREE MONTHS ENDED MARCH 31, 2011 AND 2010

Consolidated Financial Results

Operating Revenue

Consolidated Operating Revenue	Three Months Ended March 31,		Change	
	2011	2010	\$	%
			(Dollars in millions)	
U.S. Consumer Information Solutions	\$ 181.0	\$ 173.1	\$ 7.9	5 %
International	127.2	116.2	11.0	9 %
TALX	99.4	95.3	4.1	4 %
North America Personal Solutions	44.4	39.7	4.7	12 %
North America Commercial Solutions	20.6	18.7	1.9	10 %
Consolidated operating revenue	\$ 472.6	\$ 443.0	\$ 29.6	7 %

Revenue from continuing operations increased by 7% in the first quarter of 2011 compared to the same period in 2010. The favorable effect of foreign exchange rates increased revenue by \$4.6 million, or 1%, in the first quarter compared to the year ago period. Revenue grew over the prior year in the first quarter compared to the prior year in each of our operating segments, primarily driven by strong execution of key strategic initiatives.

Operating Expenses

Consolidated Operating Expenses	Three Months Ended March 31,		Change	
	2011	2010	\$	%
			(Dollars in millions)	
Consolidated cost of services	\$ 194.3	\$ 190.1	\$ 4.2	2 %
Consolidated selling, general and administrative expenses	126.5	109.5	17.0	16 %
Consolidated depreciation and amortization expense	42.7	39.1	3.6	9 %
Consolidated operating expenses	\$ 363.5	\$ 338.7	\$ 24.8	7 %

The increase in cost of services from continuing operations, when compared to the first quarter of 2010, was due primarily to the impact of increased salary and benefits expense of \$4.3 million and the impact of changes in foreign currency exchange rates which increased our cost of services by \$2.2 million, offset by decreases in direct production costs.

Selling, general and administrative expense from continuing operations increased \$17.0 million in the first quarter compared to the year ago quarter. Salary and incentive expense increased \$8.6 million due to increased headcount as compared to the first quarter of 2010. The impact of changes in foreign currency exchange rates increased our selling, general and administrative expenses by \$1.3 million. The remaining increase was primarily due to higher advertising expenses and professional fees.

Depreciation and amortization expense from continuing operations increased in 2011 over the same three month period in 2010, primarily due to our fourth quarter 2010 acquisition of Anakam which contributed \$1.2 million of incremental depreciation and amortization expense, as well as the effect of recent investments in new products and technology infrastructure.

Operating Income and Operating Margin

Consolidated Operating Income	Three Months Ended March 31,		Change	
	2011	2010	\$	%
	(Dollars in millions)			
Consolidated operating revenue	\$ 472.6	\$ 443.0	\$ 29.6	7 %
Consolidated operating expenses	(363.5)	(338.7)	(24.8)	7 %
Consolidated operating income	\$ 109.1	\$ 104.3	\$ 4.8	5 %
Consolidated operating margin	23.1 %	23.5 %		-0.4 %pts

The increase in operating income from continuing operations for the first quarter of 2011, when compared to the same period in 2010, was driven by the solid revenue growth achieved across our businesses. Operating margin declined slightly to 23.1% due to increases in expenses related to sales force expansion and amortization related to our recent acquisition.

Other Expense, Net

Consolidated Other Expense, Net	Three Months Ended March 31,		Change	
	2011	2010	\$	%
	(Dollars in millions)			
Consolidated interest expense	\$ 13.8	\$ 14.2	\$ (0.4)	-3 %
Consolidated other income, net	(0.3)	0.5	(0.8)	-169 %
Consolidated other expense, net	\$ 13.5	\$ 14.7	\$ (1.2)	-8 %
Average cost of debt	5.4 %	4.9 %		
Total consolidated debt, net, at quarter end	\$ 1,015.5	\$ 1,147.8	\$ (132.3)	-12 %

Other expense, net, from continuing operations for the first quarter of 2011 decreased \$1.2 million compared to the same period in 2010 primarily due to higher income from our investment in Russia as compared to the prior year period. Interest expense decreased slightly for the first three months of 2011, when compared to the same period in 2010, as a decrease in our average debt balance from \$1.1 billion to \$1.0 billion more than offset an increase in the average cost of our total debt from 4.9% in 2010 to 5.4% in 2011.

Income Taxes

Consolidated Provision for Income Taxes	Three Months Ended March 31,		Change	
	2011	2010	\$	%
			(Dollars in millions)	
Consolidated provision for income taxes	\$ 36.3	\$ 33.7	\$ 2.6	8 %
Effective income tax rate	37.9 %	37.6 %		

Our effective tax rate was 37.9% for the three months ended March 31, 2011 up from 37.6% for the same period in 2010. Our foreign and state income tax rates were higher for the three months ended March 31, 2011 versus the prior year, partially offset by a favorable federal tax benefit not recognized during the same period in the prior year.

Net Income

Consolidated Net Income	Three Months Ended March 31,		Change	
	2011	2010	\$	%
			(In millions, except per share amounts)	
Consolidated operating income	\$ 109.1	\$ 104.3	\$ 4.8	5 %

Discontinued operations, net of tax	-	2.7	(2.7)	-100 %
Consolidated net income	59.3	58.6	0.7	1 %
Net income attributable to noncontrolling interests	(2.0)	(1.9)	(0.1)	8 %
Net income attributable to Equifax	\$ 57.3	\$ 56.7	\$ 0.6	1 %
Diluted earnings per common share attributable to Equifax	\$ 0.46	\$ 0.44	\$ 0.02	4 %
Diluted earnings per common share from continuing operations	\$ 0.46	\$ 0.42	\$ 0.04	9 %
Weighted-average shares used in computing diluted earnings per share	124.7	128.1		

Consolidated income from continuing operations grew \$3.4 million, or 6%, in the first quarter of 2011, compared to the same period in 2010. This growth was generally in line with the growth in revenue. Because prior year net income benefitted by \$2.7 million from discontinued operations, the growth in consolidated net income was only \$0.7 million, or 1%. Due to a reduction in weighted-average shares outstanding, diluted earnings per common share attributable to Equifax increased 4% from the prior year.

Segment Financial Results

USCIS

U.S. Consumer Information Solutions	Three Months Ended March 31,		Change

Total operating income	\$ 61.7	\$ 60.1	\$ 1.6	3 %
Operating margin	34.1 %	34.6 %		-0.5 %pts

U.S. Consumer Information Solutions revenue increased 5% in the first quarter as compared to the prior year period due to growth in Mortgage Solutions and Consumer Financial Marketing Services.

OCIS

Revenue for the first quarter of 2011 remained relatively flat when compared to the prior year period. Revenue from our fourth quarter 2010 acquisition was partially offset by slightly lower online transaction revenue as compared to the first quarter of 2010.

Mortgage Solutions

Mortgage revenue increased for the three months ended March 31, 2011 when compared to the prior year period due primarily to increased sales of settlement services as a result of increased market share from existing customers. Results in Mortgage Solutions over the remainder of 2011 are subject to variability due to potential changes in market demand and other competitive and market conditions.

Consumer Financial Marketing Services

Revenue increased for the first quarter of 2011, as compared to the same period in 2010, primarily due to sales to new customers and higher pre-screen and database management revenue resulting from increased volume and product sales to existing customers.

USCIS Operating Margin

Operating margin decreased 50 basis points in the first quarter of 2011, as compared to the same period in 2010, due to the recent acquisition whose margins were negatively impacted by amortization of acquisition related intangible assets.

International revenue increased in the three month period compared to the same period in 2010 due to growth in all three of our regions and the favorable impact of changes in foreign exchange rates. Local currency fluctuations against the U.S. dollar favorably impacted our International revenue by \$4.3 million, or 3%, in the first quarter. In local currency, International revenue was up 6% from the three month period in 2010.

Latin America

Revenue for the first quarter of 2011 increased 5% from the first quarter of 2010 in local currency. Local currency revenue increased in most of our Latin American geographies, resulting from broad-based growth across all product segments, partially offset by a decline in Brazil. Revenue also increased over the prior year quarter due to favorable foreign currency impact of \$2.0 million, or 4%.

Europe

Revenue increased 9% in local currency for the first quarter of 2011, as compared to the prior year period, due primarily to increased sales in our consumer information solutions products along with growth in our personal solutions and analytical services products. Growth was also partially due to favorable foreign currency impact of \$0.7 million, or 2%.

Canada Consumer

Revenue increased 4% in local currency for the first quarter of 2011, as compared to the prior year period, due to increased volumes for our technology and analytical services products primarily due to growth in the customer base for a new fraud mitigation product. Revenue also increased over the prior year quarter due to favorable foreign currency impact of \$1.6 million, or 6%.

International Operating Margin

Operating margin declined in the first quarter of 2011 as compared to the prior year period primarily due to increased investments in new product development and increased sales force, particularly in Brazil.

The Work Number

Revenue from The Work Number increased \$3.8 million, or 8%, in the first quarter of 2011 compared to the first quarter of 2010 due to double-digit growth from traditional employment based verification and complementary services, with strong demand across the pre-employment screening, social services and collections sectors. This growth was offset by weakness in our government-based tax transcript verifications as a result of a slowdown in mortgage refinancing.

Tax and Talent Management Services

The slight increase in revenue during the first quarter of 2011, as compared to the same period in 2010, resulted primarily from revenue growth in our Tax Management Services business, partially offset by revenue declines in our Talent Management Services business due to decreased government hiring activity at the U.S. Transportation and Security Administration and other large government customers.

TALX Operating Margin

Operating margin decreased 70 basis points for the first quarter of 2011, as compared to the prior year, as a result of higher operating expenses due to increased people costs.

Revenue increased \$4.7 million, or 12%, from the prior year quarter primarily due to increased revenue to wholesalers and increased direct to consumer, Equifax-branded subscription service revenue, which was up 8% from the prior year quarter, driven by higher average revenue per subscriber due to new product offerings and better market segmentation. The operating margin increase in the first quarter, as compared to the prior year period, was primarily due to the increase in revenue discussed above.

Revenue increased for the three months ended March 31, 2011, as compared to the same period in the prior year, by 10%. The favorable impact of changes in the U.S.—Canadian foreign exchange rate impacted revenue by \$0.3 million, or 2%, as compared to the first quarter of 2010. In local currency, revenue increased 8% compared to the prior year. The local currency increase was primarily due to increases in U.S. risk and marketing service revenue and revenue from our data management products. Online transaction volume for U.S. commercial credit information products for the first quarter of 2011 increased when compared to the prior year period. Operating margin also increased for the first quarter of 2011, as compared to the same period in 2010, due to revenue growth.

	2011	2010	\$	%

General corporate expense	\$ 21.9	\$ 20.4	\$ 1.5	8 %

Our general corporate expenses are costs that are incurred at the corporate level and include those expenses impacted by corporate direction, such as shared services, administrative, legal, restructuring and equity compensation costs. General corporate expenses increased by \$1.5 million for the first quarter of 2011 generally in line with revenue growth, compared to the same period in 2010, primarily due to increased salary and incentive costs driven by higher headcount.

LIQUIDITY AND FINANCIAL CONDITION

Management assesses liquidity in terms of our ability to generate cash to fund operating, investing and financing activities. We continue to generate substantial cash from operating activities and remain in a strong financial position, with resources available for reinvestment in existing businesses, strategic acquisitions and managing our capital structure to meet short- and long-term objectives.

Sources and Uses of Cash

Funds generated by operating activities and our credit facilities continue to be our most significant sources of liquidity. We expect that funds generated from results of operations will be sufficient to finance our anticipated working capital and other cash requirements (such as capital expenditures, interest payments, potential pension funding contributions and dividend payments) for the foreseeable future. In the event that credit market conditions were to deteriorate, we would rely more heavily on borrowings from the Senior Credit Facility as described below. During the first quarter, we extended the maturity date of our Senior Credit Facility from July 2011 to February 2015 and reduced the borrowing limits from \$850.0 million to \$500.0 million. At March 31, 2011, \$475.4 million was available to borrow under our Senior Credit Facility. Our Senior Credit Facility does not include a provision under

which lenders could refuse to allow us to borrow under this facility in the event of a material adverse change in our financial condition, as long as we are in compliance with the covenants contained in the lending agreement.

The following table summarizes our cash flows for the three months ended March 31, 2011 and 2010:

Net cash provided by (used in):	Three Months Ended March 31,		Change 2011 vs. 2010

Investing activities	\$ (59.6)	\$ (56.0)	\$ (3.6)	nm
Financing activities	\$ 1.6	\$ (5.5)	\$ 7.1	nm

nm - not meaningful

Operating Activities

The decrease in operating cash flow was primarily driven by higher payments in 2011 of accrued 2010 incentive costs and an increase in accounts receivable driven by higher revenues, partially offset by a \$10.0 million decrease in pension contributions in the first quarter of 2011 as well as other normal changes in net working capital during 2011.

Fund Transfer Limitations. The ability of certain of our subsidiaries and associated companies to transfer funds to us is limited, in some cases, by certain restrictions imposed by foreign governments; these restrictions do not, individually or in the aggregate, materially limit our ability to service our indebtedness, meet our current obligations or pay dividends.

Investing Activities

Capital Expenditures

Net cash used in:	Three Months Ended March 31,		Change 2011 vs. 2010
	2011	2010	
			(In millions)
Capital expenditures	\$ 26.2	\$ 50.0	\$ (23.8)

Our capital expenditures are used for developing, enhancing and deploying new and existing software in support of our expanding product set, replacing or adding facilities and equipment, updating systems for regulatory compliance, the licensing of software applications and investing in system reliability, security and disaster recovery enhancements. Capital expenditures in 2010 were higher than 2011 primarily due to the purchase of our headquarters building in Atlanta, Georgia, during the first quarter of 2010 for cash consideration of \$29.1 million.

During the first three months of 2011, we invested \$30.7 million in acquisitions. We acquired a business in the United Kingdom and one in Latin America. Also during the first quarter of 2011, we contributed an additional \$2.7 million to our investment in India.

Financing Activities

Borrowings and Credit Facility Availability

Payments on long-term debt	\$ (1.7)	\$ (3.1)	\$ 1.4
Proceeds from issuance of long-term debt	\$ -	\$ 1.4	\$ (1.4)

Credit Facility Availability

Our principal unsecured revolving credit facility with a group of banks, which we refer to as the Senior Credit Facility, permits us to borrow up to \$500.0 million through February 2015. The Senior Credit Facility may be used for general corporate purposes. Availability of the Senior Credit Facility for borrowings is reduced by the outstanding face amount of any letters of credit issued under the facility and, pursuant to our existing Board of Directors authorization, by the outstanding principal amount of our commercial paper notes, or CP.

Our \$500.0 million CP program has been established to allow for borrowing through the private placement of CP with maturities ranging from overnight to 397 days. We may use the proceeds of CP for general corporate purposes. The CP program is supported by our Senior Credit Facility and, pursuant to our existing Board of Directors authorization, the total amount of CP which may be issued is reduced by the amount of any outstanding borrowings under our Senior Credit Facility.

We had a 364-day revolving credit agreement with a Canadian bank (our Canadian Credit Facility) which permitted us to borrow up to C\$10.0 million (denominated in Canadian dollars). The Canadian Credit Facility was scheduled to terminate in June 2011. We cancelled this agreement as of March 31, 2011, and there were no outstanding borrowings under this agreement at the time of cancellation.

At March 31, 2011, \$23.0 million was outstanding in CP and no amounts were outstanding under our Senior Credit Facility. At March 31, 2011, a total of \$475.4 million was available under our Senior Credit Facility.

At March 31, 2011, approximately 70% of our debt was fixed-rate debt and 30% was effectively variable-rate debt. Our variable-rate debt, consisting of our five-year senior notes due 2014 (against which we have executed interest rate swaps to convert interest expense from fixed rates to floating rates), generally bears interest based on a specified margin plus a base rate (LIBOR). The interest rates reset periodically, depending on the terms of the respective financing arrangements. At March 31, 2011, interest rates on our variable-rate debt ranged from 0.4% to 2.1%.

Borrowing and Repayment Activity

Net short-term borrowings primarily represent activity under our CP program. Net (repayments) borrowings under long-term revolving credit facilities relates to activity on our Senior Credit Facility. We primarily borrow under our CP program, when available.

The increase in net short-term borrowings primarily reflects the borrowing of \$23.0 million of CP notes since December 31, 2010 offset by the repayment of our 4.25% Note of \$4.7 million that was outstanding at December 31, 2010. The decrease in net repayments under long-term revolving credit facilities represents the 2010 repayment of borrowings outstanding at December 31, 2009, under our Senior Credit Facility.

Debt Covenants. A downgrade in our credit ratings would increase the cost of borrowings under our CP program and credit facilities, and could limit or, in the case of a significant downgrade, preclude our ability to issue CP. Our outstanding indentures and comparable instruments also contain customary covenants including, for example, limits on the incurrence of secured debt and sale/leaseback transactions. In addition, our Senior Credit Facility requires us to maintain a maximum leverage ratio of not more than 3.5. Our leverage ratio was 1.71 at March 31, 2011. None of these covenants are considered restrictive to our operations and, as of March 31, 2011, we were in compliance with all of our debt covenants.

We do not have any credit rating triggers that would accelerate the maturity of a material amount of our outstanding debt; however, our 6.3% Senior Notes due 2017 and 7.0% Senior Notes due 2037 (together, the "Senior Notes") contain

change of control provisions. If we experience a change of control or publicly announce our intention to effect a change of control and the rating on the Senior Notes is lowered by each of Standard & Poor's, or S&P, and Moody's Investors Service, or Moody's, below an investment grade rating within 60 days of such change of control or notice thereof, we will be required to offer to repurchase the Senior Notes at a price equal to 101% of the aggregate principal amount of the Senior Notes plus accrued and unpaid interest.

For additional information about our debt, including the terms of our financing arrangements, basis for variable interest rates and debt covenants, see Note 5 of the Notes to Consolidated Financial Statements in our 2010 Form 10-K.

Equity Transactions

Proceeds from exercise of stock options	\$ 5.1	\$ 11.6	\$ (6.5)
Excess tax benefits from stock-based compensation plans	\$ 0.5	\$ 1.4	\$ (0.9)

Sources and uses of cash related to equity during the three months ended March 31, 2011 and 2010 were as follows:

- Under share repurchase programs authorized by our Board of Directors, we purchased 0.3 million common shares on the open market during the three months ended March 31, 2010, for \$9.4 million at an average price per common share of \$31.43. At March 31, 2011, the Company had approximately \$104.5 million remaining for stock repurchases under the existing Board authorization.
- We increased our quarterly dividend from \$0.04 per share previously to \$0.16 per share in the fourth quarter of 2010. Accordingly, our dividends per share were \$0.16 and \$0.04 per share for the three month periods ended March 31, 2011 and 2010, respectively. We paid cash dividends to Equifax shareholders of \$19.6 million and \$5.0 million during the three months ended March 31, 2011 and 2010, respectively.
- We received cash of \$5.1 million and \$11.6 million during the first three months of 2011 and 2010, respectively, from the exercise of stock options.

Contractual Obligations, Commercial Commitments and Other Contingencies

Our contractual obligations have not changed materially from those reported in our 2010 Form 10-K. For additional information about certain obligations and contingencies, including those related to Computer Sciences Corporation, see Note 5 of the Notes to Consolidated Financial Statements in this Form 10-Q.

Off-Balance Sheet Arrangements

There have been no material changes with respect to our off-balance sheet arrangements from those presented in our 2010 Form 10-K.

Related Party Transactions

We engage in various transactions and arrangements with related parties. We believe the terms of the transactions and arrangements do not differ from those that would have been negotiated with an independent party. For additional information about our related parties and associated transactions, see Note 12 of the Notes to Consolidated Financial Statements in our 2010 Form 10-K.

Benefit Plans

At December 31, 2010, our U.S. Retirement Income Plan, or USRIP, met or exceeded ERISA's minimum funding requirements. In January 2011, we made a contribution of \$10.0 million to the USRIP. In the future, we expect to make minimum funding contributions as required and may make discretionary contributions, depending on certain circumstances, including market conditions and our liquidity needs. We believe additional funding contributions, if any, would not prevent us from continuing to meet our liquidity needs, which are primarily funded from cash flows generated by operating activities, available cash and cash equivalents, and our committed credit facilities.

For our non-U.S., tax-qualified retirement plans, we fund an amount sufficient to meet minimum funding requirements but no more than allowed as a tax deduction pursuant to applicable tax regulations. For our non-qualified supplementary retirement plans, we fund the benefits as they are paid to retired participants, but accrue the associated expense and liabilities in accordance with GAAP.

For additional information about our benefit plans, see Note 10 of the Notes to Consolidated Financial Statements in our 2010 Form 10-K.

Seasonality

We experience seasonality in certain of our revenue streams. Revenue generated from The Work Number business unit within the TALX operating segment is generally higher in the first quarter due primarily to the provision of Form W-2 preparation services which occur in the first quarter each year.

RECENT ACCOUNTING PRONOUNCEMENTS

For information about new accounting pronouncements and the potential impact on our Consolidated Financial Statements, see Note 1 of the Notes to Consolidated Financial Statements in this Form 10-Q and Note 1 of the Notes to Consolidated Financial Statements in our 2010 Form 10-K.

APPLICATION OF CRITICAL ACCOUNTING POLICIES

The preparation of financial statements in conformity with GAAP requires our management to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses and related disclosures of contingent assets and liabilities in our Consolidated Financial Statements and the Notes to Consolidated Financial Statements. We believe the most complex and sensitive judgments, because of their significance to the Consolidated Financial Statements, result primarily from the need to make estimates and assumptions about the effects of matters that are inherently uncertain. The “Application of Critical Accounting Policies and Estimates” section in the MD&A and Note 1 of the Notes to Consolidated Financial Statements in our 2010 Form 10-K describe the significant accounting estimates and policies used in the preparation of our Consolidated Financial Statements. Although we believe that our estimates, assumptions and judgments are reasonable, they are based upon information available at the time. Actual results may differ significantly from these estimates under different assumptions, judgments or conditions.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For information regarding our exposure to certain market risks, see “Quantitative and Qualitative Disclosures about Market Risk,” in Part II, Item 7A of our 2010 Form 10-K. There were no material changes to our market risk exposure during the three months ended March 31, 2011.

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, an evaluation was carried out by the Company’s management, with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that these disclosure controls and procedures were effective as of the end of the period covered by this report. In addition, no change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) occurred during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Equifax, certain of its subsidiaries, and other persons have been named as parties in various legal actions and administrative proceedings arising in connection with the operation of Equifax's businesses. In most cases, plaintiffs seek unspecified damages and other relief. These actions include the following:

California Bankruptcy Litigation. In consolidated actions filed in the U.S. District Court for the Central District of California, captioned Terri N. White, et al. v. Equifax Information Services LLC, Jose Hernandez v. Equifax Information Services LLC, Kathryn L. Pike v. Equifax Information Services LLC, and Jose L. Acosta, Jr., et al. v. Trans Union LLC, et al. , plaintiffs asserted that Equifax violated federal and state law (the FCRA, the California Credit Reporting Act and the California Unfair Competition Law) by failing to follow reasonable procedures to determine whether credit accounts are discharged in bankruptcy, including the method for updating the status of an account following a bankruptcy discharge. On August 20, 2008, the District Court approved a Settlement Agreement and Release providing for certain changes in the procedures used by defendants to record discharges in bankruptcy on consumer credit files. That settlement resolved claims for injunctive relief, but not plaintiffs' claims for damages. On May 7, 2009, the District Court issued an order preliminarily approving an agreement to settle remaining class claims. Certain plaintiffs filed a motion to reconsider the preliminary approval order, which motion was denied by the District Court on June 9, 2009. Following a hearing on May 20, 2010, the District Court deferred final approval of the settlement and issued an order requiring the settling parties to send a supplemental notice to all class members. On December 14, 2010, the District Court granted the settling plaintiffs' motion for reconsideration and ruled the defendants will only have to re-notice those class members who filed a claim and objected to the settlement or opted out, with the cost for the re-notice to be deducted from the plaintiffs' counsel award. Mailing of the supplemental notice was completed on February 15, 2011. The deadline for this group of settling plaintiffs to provide additional documentation to support their damage claims or to opt-out of the settlement was March 31, 2011.

Other. Equifax has been named as a defendant in various other legal actions, including administrative claims, class actions and other litigation arising in connection with our business. Some of the legal actions include claims for substantial compensatory or punitive damages or claims for indeterminate amounts of damages. We believe we have strong defenses to, and where appropriate, will vigorously contest, many of these matters. Given the number of these matters, some are likely to result in adverse judgments, penalties, injunctions, fines or other relief. However, we do not believe that these litigation matters will be individually material to our financial condition or results of operations. We may explore potential settlements before a case is taken through trial because of the uncertainty and risks inherent in the litigation process.

For information regarding contingent tax claims raised by the Canada Revenue Agency, and our accounting for legal contingencies, see Note 6 of the Notes to Consolidated Financial Statements in this Form 10-Q.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table contains information with respect to purchases made by or on behalf of Equifax or any "affiliated purchaser" (as defined in Rule 10b-18(a) (3) under the Securities Exchange Act of 1934), of our common stock during our first quarter ended March 31, 2011:

Period	Total Number of Shares Purchased (1)	Average Price Paid Per Share (2)	Total Number of Shares Purchased as Part of Publicly-Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs (3)

Total	63,637	\$ -	-	\$ 104,456,761

(1) The total number of shares purchased for the quarter includes shares surrendered, or deemed surrendered, in satisfaction of the exercise price and/or to satisfy tax withholding obligations in connection with the exercise of employee stock options, totaling 3,280 shares for the month of January 2011, 58,212 shares for the month of February 2011, and 2,145 shares for the month of March 2011.

(2) Average price paid per share for shares purchased as part of our Program (includes brokerage commissions).

(3) At March 31, 2011, the amount authorized for future share repurchases under the Program was \$104.5 million. The Program does not have a stated expiration date.

Dividend and Share Repurchase Restrictions

Our Senior Credit Facility restricts our ability to pay cash dividends on our capital stock or repurchase capital stock if a default or event of default exists or would result, according to the terms of the credit agreement.
