Item 5.02. Departure of Directors or Certain Officers; Election of Partners; Appointment of Certain Officers; Compensating Arrangement of Certain Officers

In connection with the cost reduction measures described below, on July 5, 2011, the Company's Board reduced the annual base salaries of each of the executive officers of the Company, Joseph Hayden, its President, Eric Lau, its Chief Operating Officer, and Humberto Astorga, its Chief Financial Officer, by approximately 15% to \$195,500, \$150,000 and \$150,000, respectively. In addition, the Board of Directors of the Company reduced its compensation by 15%.

Item 8.01. Other Events

The Company previously announced that it had completed field work on the original contract with the US Marine Corps for its counter-IED technology and that testing of a new version of this technology was completed in May 2011. The Company has not yet been informed of the official results of this testing. In addition, the uncertainty caused by current government fiscal policy could further delay and otherwise adversely affect funding for other company research and development projects and technologies. As a result, the Company is pursuing cost reduction measures, including reductions in its non-critical work force to enable it to preserve resources and better weather the current government fiscal policy and uncertainty in defense spending.

The Company also reiterated that it is continuing to explore strategic options in an effort to expand its product offerings to commercial and government customers and diversify its existing product lines in light of the current federal budget environment.
