NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying condensed consolidated financial statements contained in this report are unaudited. In the opinion of management, the condensed consolidated financial statements include all adjustments, which are of a normal recurring nature, necessary for a fair presentation of the results for the interim periods of the fiscal year ending January 28, 2012 and of the fiscal year ended January 29, 2011. Certain items included in these statements are based on management's estimates. Actual results may differ from those estimates. The results of operations for any interim period are not necessarily indicative of the results expected for the year. The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the Notes to Consolidated Financial Statements contained in the Company's Form 10-K for the year ended January 29, 2011, as filed with the Securities and Exchange Commission (the "SEC") on March 28, 2011.

Recent Accounting Pronouncements

Recently issued accounting pronouncements did not, or are not believed by management to, have a material effect on the Company's present or future consolidated financial statements.

2. Goodwill and Other Intangible Assets

Annually during the first quarter, or more frequently if impairment indicators arise, the Company reviews goodwill and intangible assets with indefinite lives for impairment. The annual review of goodwill and assets with indefinite lives during the first quarters of 2011 and 2010 did not result in impairment charges. The fair value of each of the reporting units substantially exceeds its carrying value for both periods. The following table provides a summary of goodwill by reportable segment.

For the thirty-nine week period ended October 29, 2011, activity included amortization of \$13 million and retirements of \$3 million, offset by lease acquisition additions of \$7 million and the effect of the strengthening of the Euro as compared with the U.S. dollar of \$2 million. The lease acquisition additions recorded during the period are being amortized over 10 years.

3. Financial Instruments

The Company operates internationally and utilizes certain derivative financial instruments to mitigate its foreign currency exposures, primarily related to third-party and intercompany forecasted transactions. As a result of the use of derivative instruments, the Company is exposed to the risk that counterparties will fail to meet their contractual obligations. To mitigate this counterparty credit risk, the Company has a policy of entering into contracts only with major financial institutions selected based upon their credit ratings and other financial factors. The Company monitors the creditworthiness of counterparties throughout the duration of the derivative instrument. Additional information is contained within Note 9, Fair Value Measurements.

Derivative Holdings Designated as Hedges

For a derivative to qualify as a hedge at inception and throughout the hedged period, the Company formally documents the nature of the hedged items and the relationships between the hedging instruments and the hedged items, as well as its risk-management objectives, strategies for undertaking the various hedge transactions, and the methods of assessing hedge effectiveness and hedge ineffectiveness. In addition, for hedges of forecasted transactions, the significant characteristics and expected terms of the forecasted transaction must be specifically identified, and it must be probable that each forecasted transaction will occur. If it were deemed probable that the forecasted transaction would not occur, the gain or loss would be recognized in earnings immediately. No such gains or losses were recognized in earnings for any of the periods presented. Derivative financial instruments qualifying for hedge accounting must maintain a specified level of effectiveness between the hedging instrument and the item being hedged, both at inception and throughout the hedged period, which management evaluates periodically.

Cash Flow Hedges

The primary currencies to which the Company is exposed are the euro, British pound, Canadian dollar, and Australian dollar. For option and forward foreign exchange contracts designated as cash flow hedges of the purchase of inventory, the effective portion of gains and losses is deferred as a component of Accumulated Other Comprehensive Loss ("AOCL") and is recognized as a component of cost of sales when the related inventory is sold. The amount

reclassified to cost of sales related to such contracts was not significant for any of the periods presented. The ineffective portion of gains and losses related to cash flow hedges recorded to earnings was also not significant for any of the periods presented. When using a forward contract as a hedging instrument, the Company excludes the time value from the assessment of effectiveness. At each quarter-end, the Company had not hedged forecasted transactions for more than the next twelve months, and the Company expects all derivative-related amounts reported in AOCL to be reclassified to earnings within twelve months. The notional value of the contracts outstanding at October 29, 2011 was \$52 million and these contracts extend through July 2012. The net change in the fair value of foreign exchange derivative financial instruments designated as cash flow hedges of the purchase of inventory was a \$1 million loss and therefore increased AOCL for the thirteen weeks and thirty-nine weeks ended October 29, 2011. The net change in the fair value of derivatives was \$2 million and \$1 million gain and therefore reduced AOCL for the thirteen and thirty-nine weeks ended October 30, 2010, respectively.

Derivative Holdings Designated as Non-Hedges

The Company mitigates the effect of fluctuating foreign exchange rates on the reporting of foreign-currency denominated earnings by entering into currency option contracts. The notional value of the contracts outstanding at October 29, 2011 was \$41 million and these contracts extend through January 2012. Changes in the fair value of these foreign currency option contracts, which are designated as non-hedges, are recorded in earnings immediately within other income. The realized gains, premiums paid and changes in the fair market value recorded in the Condensed Consolidated Statements of Operations were not significant for the thirteen-week and thirty-nine week periods ended October 29, 2011 and October 30, 2010.

The Company also enters into forward foreign exchange contracts to hedge foreign-currency denominated merchandise purchases and intercompany transactions that are not designated as hedges. The notional value of the contracts outstanding at October 29, 2011 was \$33 million and these contracts extend through January 2012. Net changes in the fair value of foreign exchange derivative financial instruments designated as non-hedges were substantially offset by the changes in value of the underlying transactions, which were recorded in selling, general and administrative expenses. The amounts recorded for all the periods presented were not significant.

The Company enters into diesel fuel forward and option contracts to mitigate a portion of the Company's freight expense due to the variability caused by fuel surcharges imposed by our third-party freight carriers. The notional value of the contracts outstanding at October 29, 2011 was \$6 million and these contracts extend through November 2012. Changes in the fair value of these contracts are recorded in earnings immediately. The effect was not significant for any of the periods presented.

Fair Value of Derivative Contracts

The following represents the fair value of the Company's derivative contracts. Many of the Company's agreements allow for a netting arrangement. The following is presented on a gross basis, by type of contract:

(in millions)	Balance Sheet Caption	October 29, 2011	October 30, 2010	January 29, 2011
Hedging Instruments:				
Forward foreign exchange contracts	Current asset	\$ —	\$ 1	\$ 2
Total		\$ —	\$ 1	\$ 2
Non-Hedging Instruments:				
Forward foreign exchange contracts	Current asset	\$ —	\$ 1	\$ —
Total		\$ —	\$ 1	\$ —

Fair Value of Financial Instruments

The carrying value and estimated fair value of long-term debt were as follows:

(in millions)	October 29, 2011	October 30, 2010	January 29, 2011
Carrying value	\$ 136	\$ 137	\$ 137
Fair value	\$ 137	\$ 136	\$ 139

The carrying values of cash and cash equivalents, short-term investments, and other current receivables and payables approximate their fair value.

4. Accumulated Other Comprehensive Loss

Accumulated other comprehensive loss comprised the following:

(in millions)	October 29, 2011	October 30, 2010	January 29, 2011
Foreign currency translation adjustments	\$ 98	\$ 76	\$ 86
Cash flow hedges	—	1	1
Unrecognized pension cost and postretirement benefit	(249)	(262)	(254)
Unrealized loss on available-for-sale security	(3)	(2)	(2)
	\$ (154)	\$ (187)	\$ (169)

5. Earnings Per Share

The Company accounts for and discloses net earnings per share using the treasury stock method. The Company's basic earnings per share is computed by dividing the Company's reported net income for the period by the weighted-average number of common shares outstanding at the end of the period. The Company's restricted stock awards, which contain non-forfeitable rights to dividends, are considered participating securities and are included in the calculation of basic earnings per share. Diluted earnings per share reflects the weighted-average number of common shares outstanding during the period used in the basic earnings per share computation plus dilutive common stock equivalents. The Company's basic and diluted weighted-average number of common shares outstanding as of October 29, 2011 and October 30, 2010, were as follows:

(in millions)	Thirteen weeks ended		Thirty-nine weeks ended	
	October 29, 2011	October 30, 2010	October 29, 2011	October 30, 2010
Weighted-average common shares outstanding	152.3	155.4	153.4	156.0
Effect of Dilution:				
Stock options and awards	1.3	0.8	1.4	0.8
Weighted-average common shares assuming dilution	153.6	156.2	154.8	156.8

Options to purchase 4.1 million and 4.8 million shares of common stock were not included in the computation for the thirteen weeks ended October 29, 2011 and October 30, 2010, respectively. Options to purchase 3.8 million and 4.5 million shares of common stock were not included in the computation for the thirty-nine weeks ended October 29, 2011 and October 30, 2010, respectively. These options were not included primarily because the exercise prices of the options were greater than the average market price of the common shares and, therefore, the effect would be antidilutive. For the thirteen and thirty-nine weeks ended October 29, 2011, contingently issuable shares of 0.9 million have not been included as the vesting conditions have not been satisfied.

6. Segment Information

The Company has determined that its reportable segments are those that are based on its method of internal reporting. As of October 29, 2011, the Company has two reportable segments, Athletic Stores and Direct-to-Customers. Sales and division results for the Company's reportable segments for the thirteen weeks and thirty-nine weeks ended October 29, 2011 and October 30, 2010 are presented below. Division profit reflects income before income taxes, corporate expense, net interest expense, and net non-operating income.

- (1) During the first quarter of 2011, the Company increased its 1993 Repositioning and 1991 Restructuring reserve by \$1 million for repairs necessary to one of the locations comprising this reserve. This amount is included in selling, general and administrative expenses in the Condensed Consolidated Statement of Operations.
- (2) Other income includes non-operating items, such as gains from insurance recoveries, gains on the repurchase and retirement of bonds, royalty income, the changes in fair value, premiums paid and realized gains associated with foreign currency option contracts. Other income for the thirty-nine weeks ended October 29, 2011 primarily represents lease termination gains related to the sale of leasehold interests and royalty income from the Company's franchised operations. Other income for the thirteen weeks ended October 30, 2010 primarily represents lease termination gains related to sales of leasehold interests in Europe and royalty income. Other income for the thirty-nine weeks ended October 30, 2010 primarily represents royalty income, lease termination gains, and realized gains associated with foreign currency option contracts.

7. Pension and Postretirement Plans

The Company has defined benefit pension plans covering certain of its North American employees, which are funded in accordance with the provisions of the laws where the plans are in effect. In addition to providing pension benefits, the Company sponsors postretirement medical and life insurance plans, which are available to most of its retired U.S. employees. These medical and life insurance plans are contributory and are not funded.

The following are the components of net periodic pension benefit cost and net periodic postretirement benefit income:

(in millions)	Pension Benefits				Postretirement Benefits			
	Thirteen weeks ended		Thirty-nine weeks ended		Thirteen weeks ended		Thirty-nine weeks ended	
	October 29, 2011	October 30, 2010	October 29, 2011	October 30, 2010	October 29, 2011	October 30, 2010	October 29, 2011	October 30, 2010

Net benefit expense (income)	\$ 5	\$ 5	\$ 14	\$ 17	\$ (2)	\$ (1)	\$ (4)	\$ (4)

During the thirty-nine weeks ended October 29, 2011 the Company made a \$1 million contribution to its Canadian qualified plan. No further pension contributions to its U.S. or Canadian qualified plans are required in 2011.

8. Share-Based Compensation

Total compensation expense related to the Company's share-based compensation plans was \$5 million and \$3 million for the thirteen weeks ended October 29, 2011 and October 30, 2010, respectively and was \$13 million and \$10 million for the thirty-nine weeks ended October 29, 2011 and October 30, 2010, respectively. The Company uses a Black-Scholes option-pricing model to estimate the fair value of share-based awards. The Black-Scholes option-pricing model incorporates various and highly subjective assumptions, including expected term and expected volatility.

The following table shows the Company's assumptions used to compute the share-based compensation expense:

Edgar Filing: FOOT LOCKER INC - Form 10-Q

	Stock Option Plans				Stock Purchase Plan

Compensation expense related to the Company's stock option and stock purchase plans was \$2 million and \$6 million for the thirteen and thirty-nine weeks ended October 29, 2011, respectively, and was \$1 million and \$4 million for the thirteen and thirty-nine weeks ended October 30, 2010, respectively. As of October 29, 2011, there was \$7 million of total unrecognized compensation cost, related to nonvested stock options, which is expected to be recognized over a weighted-average period of 1.15 years.

Restricted Stock and Units

Restricted shares of the Company's common stock and restricted stock units may be awarded to certain officers and key employees of the Company. For executives outside of the United States, the Company issues restricted stock units. The Company also issues restricted stock units to its non-employee directors. Each restricted stock unit represents the right to receive one share of the Company's common stock, provided that the vesting conditions are satisfied. As of October 29, 2011, 1,098,177 restricted stock units were outstanding. Compensation expense is recognized using the fair market value at the date of grant and is amortized over the vesting period, provided the recipient continues to be employed by the Company. Generally, awards fully vest after the passage of time, typically three years. However, restricted stock unit grants made after May 19, 2010 in connection with the Company's long-term incentive program vest after the attainment of certain performance metrics and the passage of time. Restricted stock is considered outstanding at the time of grant and the holders have voting rights. Dividends are paid to holders of restricted stock that vests with the passage of time; for performance-based restricted stock granted after May 19, 2010, dividends will be accumulated and paid after the performance criteria are met.

Restricted shares and units activity for the thirty-nine weeks ended October 29, 2011 and October 30, 2010 is summarized as follows:

(in thousands)	Number of Shares and Units	
	October 29, 2011	October 30, 2010

Outstanding at end of period	2,068	1,769
Aggregate value (in millions)	\$ 30.0	\$ 20.5
Weighted-average remaining contractual life	1.44 years	1.68 years

The weighted-average grant-date fair value per share was \$20.18 and \$13.75 for the thirty-nine weeks ended October 29, 2011 and October 30, 2010, respectively. The total value of awards for which restrictions lapsed during the thirty-nine weeks ended October 29, 2011 and October 30, 2010 was \$4 million and \$10 million, respectively. As of October 29, 2011, there was \$15 million of total unrecognized compensation cost related to nonvested restricted awards. The Company recorded compensation expense related to restricted stock awards, net of forfeitures, of \$3 million and \$7 million and \$2 million and \$6 million for the thirteen and thirty-nine weeks ended October 29, 2011 and October 30, 2010, respectively.

9. Fair Value Measurements

The following tables provide a summary of the Company's recognized assets that are measured at fair value on a recurring basis:

(in millions)	At October 29, 2011			At October 30, 2010			At January 29, 2011		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3

Total Assets	\$ —	\$ 4	\$ —	\$ —	\$ 7	\$ 7	\$ —	\$ 7	\$ —

The Company's auction rate security is classified as available-for-sale and, accordingly, is reported at fair value. The fair value of the security is determined by review of the underlying security at each reporting period.

The Company's Level 3 asset as of October 30, 2010 represented the Company's investment in the Reserve International Liquidity Fund, Ltd. (the "Fund"), a money market fund, which was reported at fair value based on a review of the underlying securities within the Fund. The following table is a reconciliation of financial assets and liabilities measured at fair value on a recurring basis classified as Level 3:

(in millions)	Level 3
Balance at October 30, 2010	\$ 7
Redemptions received from the Fund	(9)
Redemptions received from the Fund in excess of carrying value	2
Balance at January 29, 2011	\$ —

There were no transfers into or out of Level 1, Level 2, or Level 3 assets and liabilities for any of the periods presented.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

BUSINESS OVERVIEW

Foot Locker, Inc., through its subsidiaries, operates in two reportable segments – Athletic Stores and Direct-to-Customers. The Athletic Stores segment is one of the largest athletic footwear and apparel retailers in the world, whose formats include Foot Locker, Lady Foot Locker, Kids Foot Locker, Champs Sports, Footaction, and CCS. The Direct-to-Customers segment is multi-branded and multi-channeled. This segment sells, through its affiliates, directly to customers through its internet websites, mobile devices, and catalogs. Eastbay, one of the affiliates, is among the largest direct marketers in the United States. The Direct-to-Customers segment operates the website for eastbay.com, final-score.com, and teamsales.eastbay.com. Additionally, this segment operates websites aligned with the brand names of its store banners (footlocker.com, ladyfootlocker.com, kidsfootlocker.com, footaction.com, champssports.com, and ccs.com).

STORE COUNT

At October 29, 2011, the Company operated 3,402 stores as compared with 3,426 and 3,474 stores at January 29, 2011 and October 30, 2010, respectively. During the thirty-nine weeks ended October 29, 2011, the Company opened 52 stores, remodeled or relocated 147 stores and closed 76 stores.

A total of 32 franchised stores were operating at October 29, 2011, as compared with 26 and 24 stores at January 29, 2011 and October 30, 2010, respectively. Revenue from the franchised stores was not significant for any of the periods presented. These stores are not included in the Company's operating store count above.

SALES AND OPERATING RESULTS

All references to comparable-store sales for a given period relate to sales of stores that are open at the period-end, that have been open for more than one year, and exclude the effect of foreign currency fluctuations. Accordingly, stores opened and closed during the period are not included. Sales from the Direct-to-Customers segment are included in the total Company calculation of comparable-store sales for all periods presented. Division profit reflects income before income taxes, corporate expense, net interest expense, and net non-operating income.

The following table summarizes results by segment:

Sales

- (1) During the first quarter of 2011, the Company increased its 1993 Repositioning and 1991 Restructuring reserve by \$1 million for repairs necessary to one of the locations comprising this reserve. This amount is included in selling, general and administrative expenses in the Condensed Consolidated Statement of Operations.
- (2) Other income includes non-operating items, such as gains from insurance recoveries, gains on the repurchase and retirement of bonds, royalty income, the changes in fair value, premiums paid and realized gains associated with foreign currency option contracts. Other income for the thirty-nine weeks ended October 29, 2011 primarily represents lease termination gains related to the sale of leasehold interests and royalty income from the Company's franchised operations. Other income for the thirteen weeks ended October 30, 2010 primarily represents lease termination gains related to sales of leasehold interests in Europe and royalty income. Other income for the thirty-nine weeks ended October 30, 2010 primarily represents royalty income, lease termination gains, and realized gains associated with foreign currency option contracts.

Sales increased by \$114 million, or 8.9 percent, to \$1,394 million for the thirteen weeks ended October 29, 2011, from \$1,280 million for the thirteen weeks ended October 30, 2010. For the thirty-nine weeks ended October 29, 2011, sales of \$4,121 million increased 12.7 percent from sales of \$3,657 million for the thirty-nine week period ended October 30, 2010. Excluding the effect of foreign currency fluctuations, total sales for the thirteen-week and

thirty-nine week periods increased 7.3 percent and 10.3 percent, respectively, as compared with the corresponding prior-year periods. Comparable-store sales increased by 7.4 percent and 10.6 percent, for the thirteen and thirty-nine weeks ended October 29, 2011, respectively.

Gross margin, as a percentage of sales, increased by 220 basis points to 32.5 percent for the thirteen weeks ended October 29, 2011, as compared with the corresponding prior-year period. For the thirty-nine weeks ended October 29, 2011, gross margin, as a percentage of sales, increased by 220 basis points to 31.9 percent, as compared with the corresponding prior-year period.

The cost of merchandise rate for the thirteen and thirty-nine weeks ended October 29, 2011 decreased by 130 and 90 basis points, respectively, as compared with the corresponding prior-year periods, primarily reflecting a lower markdown rate. The Company was less promotional during the current year, reflecting an improved inventory position and better merchandise flow. The thirteen and thirty-nine weeks ended October 29, 2011 also reflected higher apparel sales and improved apparel gross margins, as compared with the corresponding prior-year periods. The effect of vendor allowances was not significant for any of the periods presented.

For the thirteen and thirty-nine weeks ended October 29, 2011, the occupancy and buyers' salary expense rate decreased by 90 and 130 basis points, respectively, as a percentage of sales, as compared with the corresponding prior-year periods, reflecting improved leverage.

Segment Analysis

Athletic Stores

Athletic Stores sales increased by 8.3 percent and 12.1 percent for the thirteen and thirty-nine weeks ended October 29, 2011, respectively, as compared with the corresponding prior-year periods. Excluding the effect of foreign currency fluctuations, sales from athletic stores increased 6.6 percent and 9.4 percent for the thirteen and thirty-nine weeks ended October 29, 2011, respectively, as compared with the corresponding prior-year periods. Comparable-store sales increased by 6.6 percent and 9.8 percent for the thirteen and thirty-nine weeks ended October 29, 2011, respectively. These increases were principally from the U.S. operations, with all formats except Lady Foot Locker reflecting an increase. Lady Foot Locker sales declined principally due to lower store count, coupled with a decline in toning footwear sales, which has negatively affected the results earlier in the year. During the third quarter, the Company commenced a strategic review of the Lady Foot Locker operations to develop initiatives to improve its future performance. Overall, the increased sales reflect the continued favorable athletic footwear trend, an improved in-stock position, and new receipts of more compelling assortments of athletic footwear and apparel, including expanded offerings of technical and light-weight running footwear styles. Internationally, each region increased for both the quarter and year-to-date periods. The increase in international sales was led by our stores in Europe, which continue to benefit from improved apparel offerings that coordinate with key footwear styles.

Athletic Stores division profit for the thirteen weeks ended October 29, 2011 increased to \$119 million, or 9.4 percent, as a percentage of sales, as compared with division profit of \$91 million, or 7.8 percent, as a percentage of sales, for the thirteen weeks ended October 30, 2010. Athletic Stores division profit for the thirty-nine weeks ended October 29, 2011 increased to \$360 million, or 9.5 percent, as a percentage of sales, as compared with division profit of \$225 million, or 6.7 percent, as a percentage of sales, for the thirty-nine weeks ended October 30, 2010. These increases were mainly attributable to improved sales, as well as a higher gross margin rate as the Company was less promotional during the current year, coupled with the continued leverage of the fixed expenses within gross margin.

Direct-to-Customers

Direct-to-Customers sales increased by 15.6 percent to \$126 million for the thirteen weeks ended October 29, 2011, as compared with the corresponding prior-year period sales of \$109 million. For the thirty-nine weeks ended October 29, 2011, sales increased by 20.0 percent to \$348 million, as compared with the corresponding prior-year period of \$290 million. Internet sales increased by 16.8 percent to \$111 million and by 23.1 percent to \$309 million for the thirteen and thirty-nine weeks ended October 29, 2011, respectively, as compared with the corresponding prior-year periods. These increases were primarily a result of the continued strong sales performance of Eastbay's website, as well as enhancements made to the Company's store banner websites, all of which benefited from improved and fresh product offerings.

Direct-to-Customers division profit increased 33.3 percent to \$12 million, and increased 45.5 percent to \$32 million, for the thirteen and thirty-nine weeks ended October 29, 2011, respectively, as compared with the corresponding prior-year periods. Division profit, as a percentage of sales, increased to 9.5 percent and 9.2 percent for the thirteen and thirty-nine weeks ended October 29, 2011, respectively, as compared with 8.3 percent and 7.6 percent, respectively, in the corresponding prior-year periods. These increases primarily reflect the improvement in sales and additional expense leverage. The operating results of the CCS business continue to be disappointing. The Company has developed various merchandising initiatives, such as shifting the apparel assortment to a more lifestyle look, and expanded size offerings, intended to improve results for CCS during the holiday selling season; accordingly, management will monitor the results of this format, which may include an analysis of the recoverability of its intangible assets.

Corporate Expense

Corporate expense consists of unallocated general and administrative expenses, as well as depreciation and amortization related to the Company's corporate headquarters, centrally managed departments, unallocated insurance and benefit programs, certain foreign exchange transaction gains and losses, and other items. Corporate expense for the thirteen weeks ended October 29, 2011 decreased by \$1 million to \$25 million from the corresponding prior-year period. Corporate expense for the thirty-nine weeks ended October 29, 2011 increased by \$1 million to \$76 million from the corresponding prior-year period.

Selling, General and Administrative

Selling, general and administrative expenses ("SG&A") of \$320 million increased by \$33 million, or 11.5 percent, for the thirteen weeks ended October 29, 2011 as compared with the corresponding prior-year period. SG&A, as a percentage of sales, increased to 23.0 percent for the thirteen weeks ended October 29, 2011, as compared with 22.4 percent in the corresponding prior-year period. For the thirty-nine weeks ended October 29, 2011, SG&A increased by \$84 million, or 10.1 percent, as compared with the corresponding prior-year period. SG&A, as a percentage of sales, decreased to 22.3 percent for the thirty-nine weeks ended October 29, 2011, as compared with 22.8 percent in the corresponding prior-year period. Excluding the effect of foreign currency fluctuations, SG&A increased by \$28 million and \$63 million for the thirteen and thirty-nine weeks ended October 29, 2011, respectively, as compared with the corresponding prior-year periods. These increases principally reflect increased variable costs to support sales, such as store wages and banking expenses. The Company also continues to increase its marketing costs to support the strategic plan. Wage expense for the third quarter of 2011 includes a \$7 million adjustment to properly state accruals for compensated absences related to our European operations. The Company determined that this amount was not material to any previously issued financial statements or to the current period; accordingly, it was corrected during the third quarter of 2011.

Depreciation and Amortization

Depreciation and amortization was \$27 million for both the thirteen weeks ended October 29, 2011 and the thirteen weeks ended October 30, 2010. For the thirty-nine weeks ended October 29, 2011, depreciation and amortization increased by \$3 million to \$82 million as compared with \$79 million for the thirty-nine weeks ended October 30, 2010. The effect of foreign currency fluctuations, primarily related to the euro, was not significant for thirteen weeks and represented an increase of \$2 million for the thirty-nine weeks ended October 29, 2011.

Interest Expense

(in millions)	Thirteen weeks ended		Thirty-nine weeks ended	
	October 29, 2011	October 30, 2010	October 29, 2011	October 30, 2010
Interest expense	\$ 2	\$ 3	\$ 9	\$ 10
Interest income	(1)	(1)	(5)	(3)
Interest expense, net	\$ 1	\$ 2	\$ 4	\$ 7

The decrease in net interest expense for the thirty-nine weeks ended October 29, 2011, as compared with the corresponding prior-year period, primarily reflects income earned on higher cash and cash equivalents balances.

Income Taxes

The Company's quarterly provision for income taxes is measured using an annual effective tax rate, adjusted for discrete items that occur within the periods presented. The significant factor that affects the effective tax rate relates to the difference between the U.S. federal statutory rate and the rates in foreign jurisdictions.

For the thirteen weeks and thirty-nine weeks ended October 29, 2011, the Company recorded income tax provisions of \$39 million and \$115 million, which represent effective tax rates of 37.3 percent and 36.9 percent, respectively. For the thirteen weeks and thirty-nine weeks ended October 30, 2010, the Company recorded income tax provisions of \$21 million and \$55 million, which represent effective tax rates of 29.3 percent and 33.1 percent, respectively.

The Company regularly assesses the adequacy of the Company's provisions for income tax contingencies in accordance with the applicable authoritative guidance on accounting for income taxes. As a result, the Company may adjust the reserves for unrecognized tax benefits as a result of new facts and developments, such as changes to interpretations of relevant tax law, assessments from taxing authorities, settlements with taxing authorities, and lapses of statutes of limitation. The effective tax rate for the thirteen weeks ended October 29, 2011 includes a reserve release of \$1 million due to the lapse of a foreign statute of limitations. The effective tax rate for the thirteen weeks ended October 30, 2010 included a tax benefit of \$7 million from settlements of tax examinations. Excluding these items, the effective tax rate for the thirteen weeks and thirty-nine weeks ended October 29, 2011 was essentially unchanged.

The Company currently expects its fourth quarter tax rate to approximate 37 percent, excluding the effect of any nonrecurring items that may occur. The actual rate will primarily depend on the percentage of income earned in the United States as compared with international operations.

Net Income

For the thirteen weeks ended October 29, 2011, net income was \$66 million, or \$0.43 per diluted share, as compared with net income of \$52 million, or \$0.33 per diluted share for the corresponding prior-year period. Net income for the thirty-nine weeks ended October 29, 2011 was \$197 million, or \$1.27 per diluted share. This compares with net income of \$112 million, or \$0.71 per diluted share for the thirty-nine weeks ended October 30, 2010. Strong sales and improved gross margin results contributed to an overall flow-through of sales to income before income taxes of 28.1 percent and 31.3 percent, for the thirteen and thirty-nine week periods ended October 29, 2011, respectively.

LIQUIDITY AND CAPITAL RESOURCES

The Company's primary source of liquidity has been cash flow from operations, while the principal uses of cash have been to: fund inventory and other working capital requirements; finance capital expenditures related to store openings, store remodelings, internet and mobile sites, information systems, and other support facilities; make retirement plan contributions, quarterly dividend payments, and interest payments; and fund other cash requirements to support the development of its short-term and long-term operating strategies. The Company generally finances real estate with operating leases.

Management believes its cash, cash equivalents, future cash flow from operations, and the Company's current revolving credit facility will be adequate to fund these requirements. The Company may also from time to time repurchase its common stock or seek to retire or purchase outstanding debt through open market purchases, privately negotiated transactions, or otherwise. Such repurchases, if any, will depend on prevailing market conditions, liquidity requirements, contractual restrictions, and other factors. The amounts involved may be material.

Any material adverse change in customer demand, fashion trends, competitive market forces, or customer acceptance of the Company's merchandise mix and retail locations, uncertainties related to the effect of competitive products and pricing, the Company's reliance on a few key vendors for a significant portion of its merchandise purchases and risks associated with foreign global sourcing, economic conditions worldwide, the effects of currency fluctuations, as well as other factors listed under the heading "Disclosure Regarding Forward-Looking Statements," could affect the ability of the Company to continue to fund its needs from business operations.

Net cash provided by operating activities was \$265 million and \$121 million for the thirty-nine weeks ended October 29, 2011 and October 30, 2010, respectively. These amounts reflect net income adjusted for non-cash items and seasonal working capital changes. The increase in operating cash flow in 2011 is primarily the result of strong sales during the first three quarters, and improved working capital management. During the first three quarters of

2011, the Company contributed \$1 million to its Canadian qualified pension plan, whereas during the corresponding prior-year period the Company contributed \$32 million to its U.S. and Canadian qualified plans. Additionally during 2010, the Company paid \$24 million to settle the liability associated with the terminated European net investment hedge.

Net cash used in investing activities was \$111 million and \$72 million for the thirty-nine weeks ended October 29, 2011 and October 30, 2010, respectively, primarily reflecting capital expenditures. The Company's full year forecast for capital expenditures is \$153 million, of which \$109 million relates to the modernizations of existing stores and new store openings and \$44 million for the development of information systems and other support facilities. Included in the investing activities for the thirty-nine weeks ended October 30, 2010 is a \$1 million gain related to the sales of lease interests in Europe.

Net cash used in financing activities was \$157 million and \$97 million for the thirty-nine weeks ended October 29, 2011 and October 30, 2010, respectively. During the thirty-nine weeks ended October 29, 2011, the Company repurchased 4,615,000 shares of its common stock for \$97 million, as compared with 2,510,000 shares for \$36 million purchased during the corresponding prior-year period. Additionally, the Company declared and paid dividends during the first three quarters of 2011 and 2010 of \$76 million and \$70 million, respectively. This represents a quarterly rate of \$0.165 and \$0.15 per share for 2011 and 2010, respectively. The Company received proceeds from the issuance of common stock in connection with employee stock programs of \$13 million and \$8 million for the thirty-nine weeks ended October 29, 2011 and October 30, 2010, respectively. In connection with stock option exercises and share-based compensation programs, the Company recorded excess tax benefits of \$3 million and \$1 million as a financing activity during the thirty-nine week periods ended October 29, 2011 and October 30, 2010, respectively.

Recent Accounting Pronouncements

Recently issued accounting pronouncements did not, or are not believed by management to, have a material effect on the Company's present or future consolidated financial statements.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

There have been no significant changes to the Company's critical accounting policies and estimates from the information provided in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations," included in the Annual Report on Form 10-K for the fiscal year ended January 29, 2011.

DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

This report contains forward-looking statements within the meaning of the federal securities laws. Other than statements of historical facts, all statements which address activities, events, or developments that the Company anticipates will or may occur in the future, including, but not limited to, such things as future capital expenditures, expansion, strategic plans, financial objectives, dividend payments, stock repurchases, growth of the Company's business and operations, including future cash flows, revenues, and earnings, and other such matters, are forward-looking statements. These forward-looking statements are based on many assumptions and factors which are detailed in the Company's filings with the Securities and Exchange Commission, including the effects of currency fluctuations, customer demand, fashion trends, competitive market forces, uncertainties related to the effect of competitive products and pricing, customer acceptance of the Company's merchandise mix and retail locations, the Company's reliance on a few key vendors for a majority of its merchandise purchases (including a significant portion from one key vendor), pandemics and similar major health concerns, unseasonable weather, further deterioration of global financial markets, economic conditions worldwide, further deterioration of business and economic conditions, any changes in business, political and economic conditions due to the threat of future terrorist activities in the United States or in other parts of the world and related U.S. military action overseas, the ability of the Company to execute its business and strategic plans effectively with regard to each of its business units, and risks associated with foreign global sourcing, including political instability, changes in import regulations, and disruptions to transportation services and distribution.

For additional discussion on risks and uncertainties that may affect forward-looking statements, see "Risk Factors" in Part I, Item 1A in our Annual Report on Form 10-K for the fiscal year ended January 29, 2011. Any changes in such assumptions or factors could produce significantly different results. The Company undertakes no obligation to update forward-looking statements, whether as a result of new information, future events, or otherwise.

Item 4. Controls and Procedures

The Company's management performed an evaluation under the supervision and with the participation of the Company's Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), and completed an evaluation as of October 29, 2011 of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as that term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")). Based on that evaluation, the Company's CEO and CFO concluded that the Company's disclosure controls and procedures were effective to ensure that information relating to the Company that is required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC rules and forms, and is accumulated and communicated to management, including the CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

During the quarter ended October 29, 2011, there were no changes in the Company's internal control over financial reporting (as defined in Rules 13a-15(f) of the Exchange Act) that materially affected or are reasonably likely to affect the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

Legal proceedings pending against the Company or its consolidated subsidiaries consist of ordinary, routine litigation, including administrative proceedings, incidental to the business of the Company or businesses that have been sold or disposed of by the Company in past years. These legal proceedings include commercial, intellectual property, customer, and labor-and-employment-related claims.

Certain of the Company's subsidiaries are defendants in a number of lawsuits filed in state and federal courts containing various class action allegations under federal or state wage and hour laws, including allegations concerning unpaid overtime, meal and rest breaks, and uniforms.

The Company is a defendant in one such case in which plaintiff alleges that the Company permitted unpaid off-the-clock hours in violation of the Fair Labor Standards Act and state labor laws. The case, *Pereira v. Foot Locker*, was filed in the U.S. District Court for the Eastern District of Pennsylvania in 2007. In his complaint, in addition to unpaid wage and overtime allegations, plaintiff seeks compensatory and punitive damages, injunctive relief, and attorneys' fees and costs. In September 2009, the Court conditionally certified a nationwide collective action. During the course of 2010, notices were sent to approximately 81,888 current and former employees of the Company offering them the opportunity to participate in the class action, and 5,027 have opted in.

The Company was a defendant in an additional seven purported wage and hour class actions that assert claims similar to those asserted in *Pereira* and seek similar remedies. With the exception of *Hill v. Foot Locker* filed in state court in Illinois, all of these actions were either commenced in federal district court or the Company has subsequently removed them to federal district court. On February 25, 2011, the Company filed a motion with the United States Judicial Panel on Multidistrict Litigation (the "Panel") to consolidate those cases pending in federal court and any similar case hereafter filed to a single case under the United States district court and otherwise consolidating these actions for coordinated pretrial proceedings. On May 26, 2011 the Panel granted the Company's motion to consolidate those cases with *Pereira*. During the first quarter, one of these cases was settled for an amount that was not material to the Company and the remaining cases are in discovery stages of proceedings. In *Hill v. Foot Locker*, in May 2011, the court granted plaintiffs' motion for certification of an opt-out class covering certain Illinois employees only. The Company has filed a motion for leave to appeal. The Company is currently engaged in mediation with plaintiff in *Pereira* and his counsel in an attempt to determine whether it will be possible to resolve these cases. Meanwhile, the

Company is vigorously defending them. Due to the inherent uncertainties of such matters, including the early stages of certain matters, the Company is currently unable to make an estimate of the range of loss.

Management does not believe that the outcome of any such legal proceedings pending against the Company or its consolidated subsidiaries, including Pereira and related cases, as described above, would have a material adverse effect on the Company's consolidated financial position, liquidity, or results of operations, taken as a whole.

Item 1A. Risk Factors

There were no material changes to the risk factors disclosed in the 2010 Annual Report on Form 10-K.
