Item 8.01 Other Events

The recently enacted American Taxpayer Relief Act of 2012 included a provision that reduces Medicare's reimbursement for Gamma Knife services by approximately \$4,000 per treatment, effective April 1, 2013. If upheld, these cuts would directly reduce revenue at AMS' five U.S. "retail" Gamma Knife sites, where we receive a percentage of the hospital's Medicare reimbursement. At this time, we do not know what, if any, impact this proposed change in reimbursement might have on our remaining 11 U.S. centers, where AMS' revenue per procedure is contractually fixed with the hospital.

The Company is unable to predict with any degree of certainty the effect that this proposal, if implemented, will have on its financial results. If the Company's business mix in the last 9 months of 2013 is identical to that in 2012, revenues would be reduced by approximately \$500,000 to \$650,000 and pre-tax income by approximately \$300,000 to \$400,000 during the period. Actual results could vary materially, however, based on many factors, including payer mix volumes, the impact, if any, from our other contracts, and mitigation efforts.

The Company intends to vigorously research and pursue possible actions to have this provision rescinded or modified prior to the provision's April 1, 2013 implementation date.

By furnishing this Current Report on Form 8-K, the Company makes no admission about the materiality of the information contained herein. This is summary information that is intended to be considered in the context of our SEC filings and other public announcements that we may make, by press release or otherwise, from time to time.
