FEMSA Delivers Moderate Revenue Growth in 1Q13

Monterrey, Mexico, April 24, 2013 — Fomento Económico Mexicano, S.A.B. de C.V. (“FEMSA”) announced today its operational and financial results for the first quarter of 2013.

First Quarter 2013 Highlights:

FEMSA consolidated total revenues increased 4.6% compared to the first quarter of 2012, driven by strong results at FEMSA Comercio that offset mixed results at Coca-Cola FEMSA. On an organic basis total revenues increased 3.2%.

Coca-Cola FEMSA total revenues remained stable and organically decreased 2.2% as compared to the first quarter of 2012, mainly as a result of high single-digit revenue growth in our Mexico & Central America Division which compensated for a mid-single-digit contraction in our South America Division. This contraction was largely driven by the negative translation effect from the devaluation of several local currencies as well as a volume decline in Brazil, coupled with increased marketing spending and labor cost pressures in certain markets. On a currency-neutral basis and excluding the non-comparable effect of Grupo Fomento Queratano in Mexico, total revenues increased 10.8%.

FEMSA Comercio achieved total revenues growth of 14.0% and income from operations growth of 21.5% compared to the first quarter of 2012, driven by new store openings and 4.8% growth in same-store sales.

José Antonio Fernández Carbajal, Chairman and CEO of FEMSA, commented: “We operate across many different markets, and sometimes the diverse economic environments we face manifest themselves with particular clarity in our results. This was the case during the first quarter, with our operations in Mexico performing solidly –both Coca-Cola FEMSA and especially FEMSA Comercio- but some of our operations in South America reflecting not only challenging operating conditions, but also the impact of currencies that weakened significantly against the US dollar and, importantly, against a strong Mexican peso.

We cannot influence the way currencies move or economies grow, but our objectives for the year remain in place and we will strive to achieve them. And so, we continue to push forward with great expectations. We share the optimism that surrounds Mexico, our most important market, and we fully expect the business trends in the rest of our territories to continue to support long-term value creation.”

FEMSA Consolidated

Total revenues increased 4.6% compared to 1Q12, to Ps. 56.203 billion in 1Q13. FEMSA Comercio drove the growth in consolidated revenues. On an organic basis total revenues increased 3.2% compared to 1Q12.

Gross profit increased 6.0% compared to 1Q12, to Ps. 23.255 billion in 1Q13. Gross margin in 1Q13 increased 60 basis points compared to the same period in 2012 to 41.4% of total revenues, driven by margin expansion at Coca-Cola FEMSA and FEMSA Comercio.

Income from operations decreased 1.8% as compared to 1Q12, to Ps. 5.119 billion in 1Q13 as growth at FEMSA Comercio was offset by higher expenses at Coca-Cola FEMSA. On an organic basis, income from operations decreased 3.4% in 1Q13 compared to the same period in 2012. Consolidated operating margin decreased 60 basis points compared to 1Q12, to 9.1% of total revenues, driven by margin contraction at Coca-Cola FEMSA.

Net consolidated income increased 5.1% compared to 1Q12 to Ps. 3.939 billion in 1Q13, driven by an increase in FEMSA's 20% participation in Heineken's 1Q13 net income combined with lower financing expenses which more than compensated lower income from operations. The effective income tax rate was 32.7% in 1Q13 compared to 31.7% in 1Q12.

Net majority income for 1Q13 resulted in Ps. 0.73 per FEMSA Unit¹. Net majority income per FEMSA ADS was US\$ 0.59 for the quarter.

Capital expenditures amounted to Ps. 3.213 billion in 1Q13, driven by incremental capacity-driven investments in Colombia by Coca-Cola FEMSA.

Our consolidated balance sheet as of March 31, 2013, recorded a cash balance of Ps. 28.855 billion (US\$ 2.343 billion), a decrease of Ps. 9.261 billion (US\$ 752.0 million) compared to December 31, 2012. Short-term debt was Ps. 8.365 billion (US\$ 679.2 million), while long-term debt was Ps. 26.610 billion (US\$ 2.161 billion). Our consolidated net debt balance was Ps. 6.120 billion (US\$ 496.9 million).

FEMSA Comercio

Total revenues increased 14.0% compared to 1Q12, to Ps. 21.703 billion in 1Q13 mainly driven by the opening of 135 net new stores in the quarter, reaching 1,037 total net new store openings for the last twelve months. As of March 31, 2013, FEMSA Comercio had a total of 10,736 convenience stores. Same-store sales increased an average of 4.8% for the first quarter of 2013 over 1Q12, reflecting a 6.1% increase in average customer ticket that offset a 1.2% decrease in store traffic.

Gross profit increased by 17.3% in 1Q13 compared to 1Q12, resulting in a 100 basis point gross margin expansion to 33.3% of total revenues. This increase reflects (i) a positive mix shift due to the growth of higher margin categories, including services, (ii) a more efficient use of promotion-related marketing resources, and (iii) a better execution of segmented pricing strategies across markets.

Income from operations increased 21.5% over 1Q12 to Ps. 971 million in 1Q13. Operating expenses increased 16.7% to Ps. 6.253 billion, reflecting the growing number of stores and distribution centers as well as incremental expenses relating to, among other things, the continued strengthening of FEMSA Comercio's organizational and IT structure, and the development of specialized distribution routes aimed at enabling our prepared food initiatives. Operating margin expanded 30 basis points compared to 1Q12, to 4.5% of total revenues in 1Q13.

FEMSA Units consist of FEMSA BD Units and FEMSA B Units. Each FEMSA BD Unit is comprised of one Series B Share, two Series D-B Shares and two Series D-L Shares. Each FEMSA B Unit is comprised of five Series B¹ Shares. The number of FEMSA Units outstanding as of March 31, 2013 was 3,578,226,270, equivalent to the total number of FEMSA Shares outstanding as of the same date, divided by 5.

Recent Developments

Given the prevailing low-rate environment in global capital markets, FEMSA will explore market conditions for potential issuance of long-term debt securities.

Reported total revenues reached Ps. 33,561 million in the first quarter of 2013, remaining flat as compared to the first quarter of 2012, mainly as a result of high single-digit revenue growth in our Mexico & Central America Division which compensated for a negative translation effect resulting from the devaluation of the Venezuelan bolivar, the Argentine peso and the Brazilian real. On a currency neutral basis and excluding the non-comparable effect of Grupo Fomento Queretano in Mexico, total revenues grew 10.8%.

Reported consolidated operating income reached Ps. 4,074 million for the first quarter of 2013, representing a decrease of 5.6%. Our reported operating margin reached 12.1% in the first quarter of 2013.

Reported consolidated net income attributable to equity holders of the Company was Ps. 2,434 million in the first quarter of 2013.

Mexico City (April 24, 2013), Coca-Cola FEMSA, S.A.B. de C.V. (BMV: KOFL, NYSE: KOF) (“Coca-Cola FEMSA” or the “Company”), the largest franchise bottler in the world, announces results for the first quarter of 2013.

"Despite tough weather conditions and a volatile currency environment during the quarter, our operators delivered solid, profitable results thanks to local revenue management initiatives, solid market execution, and the geographic diversification of our franchise territories. Looking forward, we are confident that our operators' skills, coupled with a benign commodity cost environment, will enable us to achieve our targets for the full year. During the quarter, our shareholders approved a dividend of Ps. 2.90 per share, demonstrating our company's financial flexibility and ability to return cash to shareholders, while continuing to capitalize on opportunities arising from the consolidation of the Coca-Cola bottling system. As always, we continue to invest in our company's most important asset—our talented team of professionals—to ensure the sustainable development of our operations," said Carlos Salazar Lomelin, Chief Executive Officer of the Company.

Coca-Cola FEMSA is including the results of Grupo Fomento Queretano as of May 2012 in the Company's Mexico & Central America divisions' operating results.

All the financial information presented in this report was prepared under International Financial Reporting Standards (IFRS).

Our reported total revenues reached Ps. 33,561 million in the first quarter of 2013, remaining flat as compared to the first quarter of 2012. High single-digit revenue growth in our Mexico & Central America Division, including the integration of Grupo Fomento Queretano ("FOQUE") in our Mexican operations⁽¹⁾, compensated for a negative translation effect resulting from the devaluation of the Venezuelan bolivar⁽²⁾, the Argentine peso⁽²⁾ and the Brazilian real⁽²⁾. On a currency neutral basis and excluding the non-comparable effect of FOQUE, total revenues grew 10.8%, driven by average price per unit case growth in almost every territory and volume growth mainly in Venezuela, Colombia and Central America.

Reported total sales volume increased 3.9% to reach 730.6 million unit cases in the first quarter of 2013 as compared to the same period in 2012. Excluding the non-comparable effect of FOQUE in Mexico⁽¹⁾, volumes grew reaching 705.9 million unit cases. On the same basis, the still beverage category grew 7.4%, mainly driven by the performance of the Jugos del Valle line of business in Venezuela, Colombia and Mexico, and the continued growth of *Powerade* and *FUZE Tea*. In addition, our bottled water category grew 6.0% and our sparkling beverage remained flat. These increases compensated for a 3.4% decline in our bulk water business.

Our reported gross profit increased 2.3% to Ps. 15,548 million in the first quarter of 2013, as compared to the first quarter of 2012. Lower sweetener and PET prices in most of our territories compensated for the depreciation of the average exchange rate of the Venezuelan bolivar⁽²⁾, the Argentine peso⁽²⁾ and the Brazilian real⁽²⁾ as applied to our U.S. dollar-denominated raw material costs. Reported cost of goods sold decreased 1.8%. Reported gross margin reached 46.3%, an expansion of 100 basis points as compared to the first quarter of 2012.

Our reported operating income decreased 5.6% to Ps. 4,074 million in the first quarter of 2013. In local currency and excluding the non-comparable effect of FOQUE in Mexico⁽¹⁾, operating expenses increased mainly as a result of (i) higher labor costs in Venezuela, (ii) higher freight costs in Argentina, (iii) higher labor and freight costs in Brazil and (iv) increased marketing investments in the South America division. In addition, during the first quarter of 2013, the other operative expenses, net line registered (i) the effect of the devaluation of the Venezuelan bolivar⁽²⁾ on our U.S. dollar-denominated accounts payable in that operation, (ii) restructuring expenses related to the integration of Grupo Tampico and Grupo CIMSA in Mexico, which results are now fully comparable and (iii) certain other restructuring charges across our South America division. Our reported operating margin reached 12.1% in the first quarter of 2013.

Our comprehensive financing result in the first quarter of 2013 recorded an expense of Ps. 248 million as compared to an expense of Ps. 136 million in the same period of 2012. This difference was mainly driven by a market value loss on the ineffective portion of derivative instruments, resulting from the volatility of the exchange rate of the Mexican peso versus the U.S. dollar.

During the first quarter of 2013, income tax, as a percentage of income before taxes, remained flat at 33.7% as compared with the same period of 2012.

Our reported net income attributable to equity holders of the Company reached Ps. 2,434 million in the first quarter of 2013. Earnings per share (EPS) in the first quarter of 2013 were Ps. 1.20 (Ps. 11.99 per ADS) computed on the basis of 2,030.5 million shares (each ADS represents 10 local shares).

Coca-Cola FEMSA is including the results Grupo Fomento Queretano as of May 2012 in the Company's Mexico & Central America division's operating results.

Reported total revenues from our Mexico and Central America division increased 8.5% to Ps. 15,700 million in the first quarter of 2013, as compared to the same period in 2012, including the integration of Grupo Fomento Queretano ("FOQUE") in our Mexican operations. Excluding the non-comparable effect of FOQUE in Mexico⁽¹⁾, total revenues increased 3.3%. On a currency neutral basis and excluding FOQUE in Mexico, total revenues increased 3.8%.

Reported total sales volume increased 5.8% to 436.2 million unit cases in the first quarter of 2013, as compared to the first quarter of 2012. Excluding the non-comparable effect of FOQUE in Mexico⁽¹⁾, volumes remained flat as compared with the first quarter of 2012. On the same basis, still beverages grew 5.3% mainly driven by the Jugos del Valle line of products in Mexico, the performance of *Powerade* and *FUZE Tea* in the division and *del Prado* in Central America. Our bottled water portfolio grew 5.3%, while our sparkling beverage category remained flat. These increases compensated for a 5.1% decline in the bulk water business.

Reported gross margin reached 48.7% in the first quarter of 2013, an expansion of 180 basis points as compared with the same period of the previous year, as a result of lower sweetener and PET prices in combination with the average appreciation of the Mexican peso⁽²⁾ as applied to our U.S. dollar-denominated raw material costs.

Reported operating income increased 19.9% to Ps. 2,255 million in the first quarter of 2013, compared to Ps. 1,881 million in the same period of 2012. Volume and average price per unit case exclude beer results.

Reported total revenues were Ps. 17,861 million in the first quarter of 2013, a decrease of 6.3% as compared to the same period of 2012, as a result of the negative translation effect of the devaluation of the Venezuelan bolivar⁽¹⁾, the Argentine peso⁽¹⁾ and the Brazilian real⁽¹⁾. Excluding beer, which accounted for Ps. 850 million during the quarter, revenues decreased 6.0% to Ps. 17,011 million. On a currency neutral basis, total revenues increased 16.1%, mainly as a result of average price per unit case growth in Venezuela, Brazil and Argentina; and volume growth in Venezuela and Colombia.

Reported total sales volume in our South America division increased 1.3% to 294.4 million unit cases in the first quarter of 2013 as compared to the same period of 2012, driven by volume growth in Venezuela and Colombia that compensated for a decline in volume in Brazil and Argentina. The still beverage category grew 10.5%, mainly driven by the performance of the *Jugos del Valle* line of business in Venezuela. Our water portfolio, including bulk water, grew 8.1% and our sparkling beverage category remained flat.

Reported gross profit reached Ps. 7,895 million, a 6.1% decline in the first quarter of 2013, as compared to the same period of 2012. Reported cost of goods sold decreased 6.5%. In addition, during the first quarter of 2013, the other operative expenses, net line registered the effect of the devaluation of the Venezuelan bolivar⁽¹⁾ on our U.S. dollar-denominated accounts payable in that operation and certain restructuring charges across the division.
