Synthetic Biologics, Inc. and Subsidiaries**Notes to Consolidated Financial Statements****(Unaudited)****1. Organization and Nature of Operations and Basis of Presentation*****Description of Business***

Synthetic Biologics, Inc. (the “Company” or “Synthetic Biologics”) is a biotechnology company focused on the development of biologics for the prevention and treatment of serious infectious diseases. The Company is developing an oral enzyme for the prevention of *C. difficile* infections, and a series of monoclonal antibody therapies for the treatment of Pertussis and *Acinetobacter* infections. In addition, the Company is developing a drug candidate for the treatment of relapsing-remitting multiple sclerosis and cognitive dysfunction in multiple sclerosis, and has partnered the development of a treatment for fibromyalgia.

Therapeutic Area	Product Candidate	Status
Relapsing-remitting MS	Trimesta (oral estriol)	Patients fully enrolled in Phase II clinical trial; dosing and monitoring underway
Cognitive dysfunction in MS	Trimesta (oral estriol)	Patient enrollment underway in Phase II clinical trial
<i>C. difficile</i> infection prevention	SYN-004 (monoclonal antibody)	Series of oral enzyme candidates; first generation candidate (formerly known as P1A) is in Phase II; next generation candidate, SYN-004, (formerly known as P3A) is in preclinical
Pertussis	SYN-005 (monoclonal antibody)	Preclinical; Collaborations with Intrexon and The University of Texas at Austin
<i>Acinetobacter</i> infection	SYN-001 (monoclonal antibody)	Discovery; Collaboration with Intrexon

Fibromyalgia

Effirma
(oral flupirtine)

Partnered with Meda AB

In order to further prioritize the Company's focus, it has elected to discontinue further development of AEN-100 for the treatment of amyotrophic lateral sclerosis. However, the Company is currently seeking development partners for its zinc-based intellectual property and assets including, AEN-100.

2. Basis of Presentation

The accompanying consolidated financial statements have been prepared pursuant to the rules and regulations of Securities and Exchange Commission ("SEC") for interim financial information. Accordingly they do not include all of the information and notes required by U.S. GAAP for complete financial statements. The accompanying consolidated financial statements include all adjustments, composed of normal recurring adjustments, considered necessary by management to fairly state our results of operations, financial position and cash flows. The operating results for the interim periods are not necessarily indicative of results that may be expected for any other interim period or for the full year. These consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2012 ("2012 Form 10-K") as filed with the SEC. The interim results for the three months ended March 31, 2013, are not necessarily indicative of results for the full year.

The consolidated financial statements are prepared in conformity with U.S. GAAP, which requires the use of estimates, judgments and assumptions that affect the amounts of assets and liabilities at the reporting date and the amounts of revenue and expenses in the periods presented. We believe that the accounting estimates employed are appropriate and the resulting balances are reasonable; however, due to the inherent uncertainties in making estimates actual results could differ from the original estimates, requiring adjustments to these balances in future periods.

3. Discontinued Operations of Adeona Clinical Laboratory and Note Receivable

On March 8, 2012, the Company sold all of its interest in Adeona Clinical Laboratory, LLC (the “Lab”) to Hartlab, LLC, an entity controlled by the Lab’s former owner. In connection with the sale of the Lab, the consideration received was (i) the immediate assignment of the Lab’s outstanding accounts receivable up through the date of closing, plus (ii) \$700,000 payable pursuant to the terms of a two-year promissory note bearing interest at 5.7% per annum secured by all of the assets of the Lab. The note and all unpaid interest are due on March 1, 2014.

In accordance with ASC Topic 205-20 “*Presentation of Financial Statements-Discontinued Operations*” (ASC 205-20), the Company determined that all the criteria for reporting a discontinued operation had been met. Accordingly, the Lab has been classified as a discontinued operation and its results of operations, financial position and cash flows are separately reported for all periods presented.

The summarized statement of operations data for Adeona Clinical Laboratory for the three months ended March 31, 2013 and 2012 are as follows (*in thousands*):

	March 31,	
	2013	2012
Laboratory fees, net	\$-	\$ 115
Operating Costs and Expenses:		
General and administrative	-	27
Cost of laboratory services	-	116
Total operating costs and expenses	-	143
Loss from discontinued operations	-	(28)
Other Income:		
Gain on sale of Adeona Clinical Laboratory	-	677
Income (loss) from discontinued operations	\$-	\$ 649

4. Fair Value of Financial Instruments

The fair value accounting standards define fair value as the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is determined based upon assumptions that market participants would use in pricing an asset or liability. Fair value measurements are rated on a three-tier hierarchy as follows:

·Level 1 inputs: Quoted prices (unadjusted) for identical assets or liabilities in active markets;

·Level 2 inputs: Inputs, other than quoted prices included in Level 1 that are observable either directly or indirectly; and

·Level 3 inputs: Unobservable inputs for which there is little or no market data, which require the reporting entity to develop its own assumptions.

If the inputs used to measure fair value fall in different levels of the fair value hierarchy, the hierarchy level is based upon the lowest level of input that is significant to the fair value measurement.

Cash and cash equivalents include money market accounts and mutual funds of \$7.6 million and \$9.6 million as of March 31, 2013 and December 31, 2012, respectively, that are measured using Level 1 inputs.

5. Selected Balance Sheet Information

Prepaid expenses and other current assets (in thousands)

	March 31, 2013	December 31, 2012
Intrexon prepaid research and development expenses	\$ 2,033	\$ 2,412
Other receivables	44	17
Prepaid expenses	157	80
Total	\$ 2,234	\$ 2,509

The Intrexon prepaid research and development expenses are classified as a current asset. The Company may terminate the arrangement at any time and receive a cash refund of the remaining balance minus any amounts owed to Intrexon. The Company anticipates that the majority of the prepaid will be applied to research and development goods and services during 2013.

Property and equipment (in thousands)

	March 31, 2013	December 31, 2012
Manufacturing equipment	\$ 297	\$ 297
Computer and office equipment	38	35
Laboratory equipment	133	133
	468	465

Less accumulated depreciation	(253)	(242)
Total	\$ 215		\$ 223	

6. Stock-Based Compensation

Stock Incentive Plan

During 2001, the Company's Board of Directors and stockholders adopted the 2001 Stock Incentive Plan (the "2001 Stock Plan"). The total number of shares of stock with respect to which stock options and stock appreciation rights may be granted to any one employee of the Company or a subsidiary during any one-year period under the 2001 Stock Plan shall not exceed 250,000. All awards pursuant to the 2001 Stock Plan shall terminate upon the termination of the grantee's employment for any reason. Awards include options, restricted shares, stock appreciation rights, performance shares and cash-based awards (the "Awards"). The 2001 Stock Plan contains certain anti-dilution provisions in the event of a stock split, stock dividend or other capital adjustment, as defined in the plan. The 2001 Stock Plan provides for a Committee of the Board to grant awards and to determine the exercise price, vesting term, expiration date and all other terms and conditions of the awards, including acceleration of the vesting of an award at any time. As of March 31, 2013, there were 953,507 options issued and outstanding under the 2001 Stock Plan.

On March 20, 2007, the Company's Board of Directors approved the 2007 Stock Incentive Plan (the "2007 Stock Plan") for the issuance of up to 2,500,000 shares of common stock to be granted through incentive stock options, nonqualified stock options, stock appreciation rights, dividend equivalent rights, restricted stock, restricted stock units and other stock-based awards to officers, other employees, directors and consultants of the Company and its subsidiaries. This plan was approved by stockholders on November 2, 2007. The exercise price of stock options under the 2007 Stock Plan is determined by the compensation committee of the Board of Directors, and may be equal to or greater than the fair market value of the Company's common stock on the date the option is granted. The total number of shares of stock with respect to which stock options and stock appreciation rights may be granted to any one employee of the Company or a subsidiary during any one-year period under the 2007 plan shall not exceed 250,000. Options become exercisable over various periods from the date of grant, and generally expire ten years after the grant date. As of March 31, 2013, there are 660,240 options issued and outstanding under the 2007 Stock Plan.

On November 2, 2010, the Board of Directors and stockholders adopted the 2010 Stock Incentive Plan ("2010 Stock Plan") for the issuance of up to 3,000,000 shares of common stock to be granted through incentive stock options, nonqualified stock options, stock appreciation rights, dividend equivalent rights, restricted stock, restricted stock units and other stock-based awards to officers, other employees, directors and consultants of the Company and its subsidiaries. The exercise price of stock options under the 2010 Stock Plan is determined by the compensation committee of the Board of Directors, and may be equal to or greater than the fair market value of the Company's common stock on the date the option is granted. Options become exercisable over various periods from the date of grant, and generally expire ten years after the grant date. As of March 31, 2013, there are 2,607,500 options issued and outstanding under the 2010 Stock Plan.

In the event of an employee's termination, the Company will cease to recognize compensation expense for that employee. There is no deferred compensation recorded upon initial grant date, instead, the fair value of the stock-based payment is recognized ratably over the stated vesting period.

The Company has applied fair value accounting for all share based payment awards since inception. The fair value of each option or warrant granted is estimated on the date of grant using the Black-Scholes option pricing model. The Black-Scholes assumptions used in the three months ended March 31, 2013 and 2012 are as follows:

	Three Months Ended March 31,	
	2013	2012
Exercise price	\$1.74	\$1.14 - \$2.47
Expected dividends	0%	0%
Expected volatility	148%	108% - 174%
Risk free interest rate	0.77%	0.37% - 1.98%
Expected life of option	5 years	10 years
Expected forfeitures	0%	0%

The Company records stock-based compensation based upon the stated vested provisions in the related agreements. The vesting provisions for these agreements have various terms as follows:

- immediate vesting,
- half vesting immediately and the remainder over three years,
- quarterly over three years,
- annually over three years,
- one-third immediate vesting and remaining annually over two years,
- one half immediate vesting with remaining vesting over nine months,
- one quarter immediate vesting with the remaining over three years
- one quarter immediate vesting with the remaining over 33 months; and
- monthly over three years.

During the three months ended March 31, 2013, the Company granted 117,500 options to employees and directors having an approximate fair value of \$185,000 based upon the Black-Scholes option pricing model. During the same period in 2012, the Company granted 1,300,000 options to employees and consultants having an approximate fair value of \$3 million based upon the Black-Scholes option pricing model.

A summary of stock option activities as of March 31, 2013, and for the year ended December 31, 2012, is as follows:

Weighted
Average
Weighted
