**Note 1: Organization and Basis of Presentation**

*Background*

On December 14, 2009, America's Suppliers, Inc. ("ASI") was incorporated under the laws of the State of Delaware. ASI is an internet-based provider of general merchandise through its wholly-owned subsidiaries, DollarDays International, Inc. ("DollarDays") and WowMyUniverse Inc. ("Wow"). DollarDays is a wholesaler of general merchandise to small independent resellers through its website, [www.DollarDays.com](http://www.DollarDays.com). Wow is a retailer of general merchandise that focuses its business on sales to retail consumers through its website, [www.WowMyUniverse.com](http://www.WowMyUniverse.com). Orders are placed by customers through the websites of DollarDays and Wow, and upon receiving full payment for those orders, the related merchandise is shipped directly to the customer by third-party suppliers.

*Basis of Presentation*

In the opinion of management, the accompanying unaudited condensed consolidated financial statements include all adjustments, consisting of only normal recurring accruals, necessary for a fair statement of financial position, results of operations and cash flows. The information included in this Quarterly Report on Form 10-Q (this "Quarterly Report") should be read in conjunction with the consolidated financial statements and the accompanying notes included in our Annual Report on Form 10-K for the year ended December 31, 2012 (the "2012 Annual Report"). The accounting policies are described in the "Notes to the Consolidated Financial Statements" in the 2012 Annual Report and have been updated, as necessary, in this Quarterly Report. The year-end consolidated balance sheet data presented for comparative purposes was derived from audited consolidated financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States ("GAAP"). The results of operations for the three and nine months ended September 30, 2013 are not necessarily indicative of the operating results for the full year or for any other subsequent interim period.

**Note 2: Summary of Significant Accounting Policies**

*Revenue Recognition*

Revenue is recognized when the four criteria for revenue recognition are met: (1) persuasive evidence of an arrangement exists; (2) shipment or delivery has occurred; (3) the price is fixed or determinable; and (4) collectability is reasonably assured. Cash payments received in advance of product shipment are deferred as reflected as a deferred revenue liability in the accompanying consolidated balance sheets. Allowances for sales returns and discounts are recorded as a component of revenues in the period the allowances are recognized.

All amounts billed to customers for shipping and handling costs are included in revenues in the consolidated statements of operations. Actual shipping costs incurred are reflected as a component of the cost of goods sold in the accompanying consolidated statements of operations. Total shipping expense included in cost of goods sold for the three and nine months ended September 30, 2013 was \$657,885 and \$1,534,886, respectively, and for the three and nine months ended September 30, 2012 was \$609,099 and \$1,532,292, respectively.

The Company has evaluated the provisions of GAAP Accounting Standards Codification Topic 605-45 regarding reporting revenue gross as a principal or net as an agent, noting that the task force determined that it is a matter of judgment and a preponderance of the evidence as to whether a company satisfies the gross versus net indicators. As a result of its analysis, the Company has determined that it qualifies for gross revenue recognition.

Advertising revenue is recognized as the service is provided on our websites.

### *Accounts Receivable*

Accounts receivable represent amounts earned but not collected in connection with the Company's revenues. Trade receivables are carried at their estimated collectible amounts and generally consist of amounts due from credit card transactions.

The Company follows the allowance method of recognizing uncollectible accounts receivable. The allowance method recognizes bad debt expense as a percentage of accounts receivable based on a review of individual accounts outstanding, and prior history of uncollected accounts receivable. The allowance for doubtful accounts at September 30, 2013 and December 31, 2012 was, in both instances, \$0 as the Company expected to collect substantially all amounts due. Bad debt expense (recovery) was (\$410) and \$7,760 for the three and nine months ended September 30, 2013, respectively, and was \$4,453 and (\$8,339) for the three and nine months ended September 30, 2012, respectively.

The Company follows the allowance method of recognizing sales returns. The allowance method recognizes sales returns as a percentage of sales based on a prior history of sales returns. The allowance for sales returns at September 30, 2013 and December 31, 2012 was, in both instances, \$0. Expenses for sales returns for the three and nine months ended September 30, 2013 was \$89,561 and \$220,271, respectively, and for the three and nine months ended September 30, 2012 was \$127,236 and \$319,401, respectively.

### **Note 3: Fair Value of Financial Instruments**

Fair value measurements are performed in accordance with the guidance provided by GAAP Accounting Standards Codification Topic 820 ("ASC 820"). ASC 820 defines fair value as the price that would be received from selling an asset, or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Where available, fair value is based on observable market prices or parameters or derived from such prices or parameters. Where observable prices or parameters are not available, valuation models are applied.

ASC 820 establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Assets and liabilities recorded at fair value in the financial statements are categorized based upon the hierarchy of levels of judgment associated with the inputs used to measure their fair value. Hierarchical levels directly related to the amount of subjectivity associated with the inputs to fair valuation of these assets and liabilities, are as follows:

Level 1 Quoted prices in active markets for identical assets or liabilities that an entity has the ability to access.

Level 2 Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 Unobservable inputs that are supportable by little or no market activity and that are significant to the fair value of the asset or liability.

The Company's financial instruments include cash and cash equivalents, certificates of deposit and short term receivables and payables. The carrying value of these instruments approximates fair value due to the short-term nature of such instruments.

### **Note 4: Line of Credit**

Edgar Filing: America's Suppliers, Inc. - Form 10-Q

The Company has a line of credit with a major financial institution totaling \$225,000. This line of credit has a stated maturity date of March 26, 2014 and interest payments are due monthly at an annual rate of prime plus 1.5% (with the prime rate never to be below LIBOR plus 2.5%). As of September 30, 2013 and December 31, 2012 the balance outstanding on this line of credit was, in both instances, \$0. No interest expense was recorded during the three and nine months ended September 30, 2013 and 2012.

The Company had an additional line of credit totaling \$150,000 that was terminated in September 2013. This line of credit had no stated maturity date and interest payments were due monthly at an annual rate of 6.5%. There was no balance on the line of credit at the time of termination.

On July 25, 2013, the Company granted 25,000 stock options at a strike price of \$0.12 to its Vice-President of Finance and Operations, who serves as the Principal Financial Officer of the Company. The grant date fair value of the options was \$2,677 (net of estimated forfeitures of 10%), which was determined using a Black Scholes option pricing model and the following assumptions: (i) volatility of 292%, (ii) risk-free rate of return of 0.62%, (iii) stock price of \$0.12 and (iv) an expected term of 3.25 years. The options expire in July 2018. The Company is expensing these options on a straight line basis over the vesting period.

The Company recognized expenses relating to stock option awards of \$2,791 and \$6,855 during the three and nine months ended September 30, 2013, respectively, and \$2,032 and \$30,595 during the three and nine months ended September 30, 2012, respectively. **Note 6: Net Income (Loss) Per Share**

Basic net income (loss) per share is computed based on the weighted average number of common shares outstanding and excludes any potential dilution. Diluted income (loss) per share reflects potential dilution from the exercise or conversion of securities into common stock. The dilutive effect of the Company's share-based awards is computed using the treasury stock method, which assumes that all share-based awards are exercised and the hypothetical proceeds from exercise are used to purchase common stock at the average market price during the period.

The following represents a reconciliation of the numerators and denominators of the basic and diluted income per share computation for the three and nine months ended September 30, 2013 and 2012:

	Three Months Ended September 30,		Nine Months Ended September 30,

### **Overview**

America’s Suppliers, Inc. develops software programs that allow the Company to provide general merchandise to resale businesses and retail consumers through the websites of its wholly-owned subsidiaries, DollarDays International Inc. (“DollarDays”) and WowMyUniverse Inc. (“Wow”). The websites for DollarDays and Wow are [www.DollarDays.com](http://www.DollarDays.com) and [www.WowMyUniverse.com](http://www.WowMyUniverse.com), respectively.

DollarDays’ objective is to provide a one-stop, discount, on-line shopping destination for general merchandise for smaller distributors, retailers and non-profit organizations nationwide that are seeking single and small case-sized lots at bulk prices. We launched the DollarDays website to sell merchandise in October 2001. The site offers customers an opportunity to shop for bargains conveniently, while offering our suppliers an alternative sales channel. We believe the DollarDays website offers a unique benefit to smaller businesses in that they are able to purchase goods from wholesalers and importers in single and small case-sized lots, with no minimum purchase requirements, at discounted prices. We believe the prevailing reason DollarDays has been able to obtain bulk pricing for single

case-sized lots is its ability to reach smaller distributors, retailers and non-profit organizations that most general merchandise suppliers cannot economically reach. We provide all the logistics and customer support to serve this sales channel and grow DollarDays' customer base.

We continually add new products to DollarDays' website in order to create an atmosphere that encourages customers to visit frequently and purchase products before the available inventory sells out. Through its on-line catalog, DollarDays offers approximately 270,000 products, including up to 25,000 closeout items at further discounted prices. Closeout merchandise is typically available in inconsistent quantities and prices.

We accept orders, either online or via telephone, collect payment in the form of credit or debit card, PayPal or similar means, and coordinate with manufacturers, importers and closeout specialists regarding delivery particulars. PayPal refers to the online payment platform located at [www.paypal.com](http://www.paypal.com) and its localized counterparts. Our proprietary software and service procedures allow us to sell merchandise to a single customer, and bill as a single order, items purchased and delivered from multiple suppliers. We do not take possession of inventory, but we are responsible for processing customer claims and returns.

DollarDays' website has a registered base of approximately 230,000 small businesses and receives approximately 3 million monthly page views. We receive an average of approximately 5,000 orders per month. Our target customers are smaller businesses and not-for-profit companies.

In 2010, we established a majority-owned subsidiary, Wow, to develop a retail online business to sell directly to consumers. On October 1, 2010, this subsidiary became wholly-owned as we acquired the non-controlling interest in exchange for our interest in an unconsolidated subsidiary. While we experienced limited sales through test marketing in early 2011, we began full operations in the second half of 2011. **Liquidity and Capital Resources**

Our operating cash outflows were \$123,167 for the nine months ended September 30, 2013, as compared to inflows of \$117,045 for the nine months ended September 30, 2012, constituting an increase in cash used by operations of \$240,212. The change in net operating cash outflows is attributable to an increase in net loss of \$270,810 and a decrease in accounts payable and accrued liabilities of \$204,416, partially offset by an increase in prepaid and other current assets of \$157,313, and other minor changes in non-cash charges and operating assets and liabilities.

We intend to generate operating cash flows through the growth of our existing business, the improvement of operating margins and growth through acquisitions. Although there can be no assurances, management believes such measures will provide enough liquidity to operate our current business and continue as a going concern in the short term.

**Off-balance sheet arrangements**

We did not have any off-balance sheet arrangements at September 30, 2013.
