**BLADEX'S FIRST QUARTER 2014 NET INCOME TOTALED \$23.5 MILLION, OR \$0.61 PER SHARE,  
ON HIGHER NET INTEREST INCOME & MARGINS**

**PANAMA CITY, April 22, 2014** – Banco Latinoamericano de Comercio Exterior, S.A. (NYSE: BLX, “Bladex”, or “the Bank”) announced today its results for the First Quarter ended March 31, 2014.

**First Quarter 2014 Business Highlights**

First quarter 2014 Net Income <sup>(1)</sup> totaled \$23.5 million, or \$0.61 per share, compared to \$23.9 million, or \$0.62 per share, in the fourth quarter 2013, and \$16.3 million, or \$0.43 per share, in the first quarter 2013. The \$7.2 million, or 44%, year-on-year increase was mainly driven by higher net interest income and fee income.

The Commercial Division's average portfolio balances totaled \$6.6 billion, up \$0.1 billion, or 1%, compared to the previous quarter, and up \$0.7 billion, or 12%, year-on-year, as demand in the Bank's client base of Corporations and Financial Institutions remained robust (+15% YoY). Quarterly end of period Commercial Portfolio balances reached \$6.6 billion in the first quarter 2014 (nearly unchanged QoQ; +6% YoY). Credit quality remained solid with a ratio of 0.05% of non-performing loans to total loan portfolio as of March 31, 2014.

First quarter 2014 net interest income reached \$32.1 million, a \$6.1 million, or 23%, year-on-year increase, mainly driven by higher average interest-earning asset balances (+11%). The \$1.0 million, or 3%, quarter-on-quarter increase resulted primarily from higher average lending yields (+6 bps), along with lower rates paid on short-term liabilities leading to a 5 bps decrease in average rates on interest-bearing liabilities. Net interest margin reached 1.79% in the first quarter 2014 (+10 bps QoQ; +17 bps YoY).

Fees and commissions totaled \$4.3 million in the first quarter 2014, a \$1.9 million, or 78%, year-on-year increase mostly from higher fees from loan intermediation generated from mandated structured transactions, and greater activity in the letters of credit business. The 10% quarter-on-quarter increase from loan intermediation fee activities was offset by seasonally lower commissions from the letters of credit business, resulting in an overall \$0.4 million or 9% decrease in fees and commissions compared to the fourth quarter 2013.

Operating expenses totaled \$13.5 million in the first quarter 2014 (-1% QoQ; nearly unchanged YoY), as the Bank continued to focus on operating efficiency. The Bank's first quarter 2014 efficiency ratio improved to 37%, compared to 43% in the previous quarter 2013, and 45% in the first quarter 2013, as operating revenues grew and operating expenses decreased and remained steady, respectively. Excluding non-core revenues and expenses from investment funds, the Business Efficiency Ratio was 35% for both the first quarter 2014 and the fourth quarter 2013, compared to 44% in the first quarter 2013.

## **CEO's Comments**

Mr. Rubens V. Amaral, Jr., Bladex's Chief Executive Officer, stated the following regarding the Bank's First Quarter 2014 results: "We are pleased to present solid business results this quarter. In a traditional slower quarter, Bladex was able to keep the momentum and traction gained at the closing of last year. We continued with our focus to strengthen the margins, thus working selectively in terms of growth in our Commercial Portfolio. While credit demand from corporations and banks continued to be healthy, liquidity in the Region's markets returned to previous highs, as some of the market volatility seen in recent quarters receded. With that, the quarterly results validate the Bank's cautious approach as average net margins improved and overall asset quality remained strong. At the same time, fee income diversification continued as our syndication platform achieved a significant increase in scope and scale of transactions. Costs remained well under control, helping improve efficiency.

The business environment in the Region is certainly not without its challenges. However, we remain confident about credit demand across the universe of countries and clients served by Bladex. We have a diversified and strong pipeline of new deals, which should fuel origination and asset growth over the coming quarters within our target of continuing to improve margins gradually," Mr. Amaral concluded.
