See accompanying notes to consolidated financial statements.

## UNITED COMMUNITY BANCORP AND SUBSIDIARIES

### NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. **BASIS OF PRESENTATION** - United Community Bancorp, a federal corporation (“old United Community Bancorp”) completed its previously announced conversion from the mutual holding company form of organization to the stock holding company form on January 9, 2013. As a result of the conversion, United Community Bancorp, an Indiana corporation (“United Community Bancorp” or “Company”), became the holding company for United Community Bank (“Bank”), and United Community MHC and old United Community Bancorp, ceased to exist. As part of the conversion, all outstanding shares of old United Community Bancorp common stock (other than those owned by United Community MHC) were converted into the right to receive 0.6573 of a share of United Community Bancorp common stock.

The Company, through the Bank, operates in a single business segment providing traditional banking services through its office and branches in southeastern Indiana. UCB Real Estate Management Holding, LLC is a wholly-owned subsidiary of the Bank. The entity was formed for the purpose of holding assets that are acquired by the Bank through, or in lieu of, foreclosure. UCB Financial Services, Inc., a wholly-owned subsidiary of the Bank, was formed for the purpose of collecting commissions on investments referred to Lincoln Financial Group.

The accompanying unaudited consolidated financial statements were prepared in accordance with the rules and regulations of the Securities and Exchange Commission, and therefore do not include all information or footnotes necessary for complete financial statements in conformity with accounting principles generally accepted in the United States of America. However, all normal recurring adjustments that, in the opinion of management, are necessary for a fair presentation of the financial statements have been included. No other adjustments have been included. The results for the three and nine months ended March 31, 2015 are not necessarily indicative of the results that may be expected for the fiscal year ending June 30, 2015. These financial statements should be read in conjunction the Company’s audited consolidated financial statements and the accompanying notes thereto for the year ended June 30, 2014, which are included in the Company’s Annual Report on Form 10-K as filed with the Securities and Exchange Commission on September 26, 2014.

The Company evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements.

2. **EMPLOYEE STOCK OWNERSHIP PLAN (“ESOP”)** – As of March 31, 2015 and June 30, 2014, the ESOP owned 205,747 and 237,893 shares of the Company’s common stock, respectively. The shares owned by the ESOP are held in a suspense account until released for allocation to participants.

3. EARNINGS PER SHARE (“EPS”) – Non-vested shares with non-forfeitable dividend rights are considered participating securities and, thus, subject to the two-class method pursuant to ASC 260, *Earnings per Share*, when computing basic and diluted earnings per share. The Company’s restricted share awards contain non-forfeitable dividend rights but do not contractually obligate the holders to share in the losses of the Company. Accordingly, during periods of net income, unvested restricted shares are included in the determination of both basic and diluted EPS. During periods of net loss, these shares are excluded from both basic and diluted EPS.

Basic EPS is based on the weighted average number of common shares and unvested restricted shares outstanding, adjusted for ESOP shares not yet committed to be released. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock, such as outstanding stock options, were exercised or converted into common stock or resulted in the issuance of common stock. Diluted EPS is calculated by adjusting the weighted average number of shares of common stock outstanding to include the effects of contracts or securities exercisable or which could be converted into common stock, if dilutive, using the treasury stock method. For each of the three and nine months ended March 31, 2015 and 2014 outstanding options to purchase 227,626 shares were excluded from the computations of diluted earnings per share as their effect would have been anti-dilutive. The following is a reconciliation of the basic and diluted weighted average number of common shares outstanding:

|   | Three Months Ended |           | Nine Months Ended |           |
|---|--------------------|-----------|-------------------|-----------|
|   | March 31,<br>2015  | 2014      | March 31,<br>2015 | 2014      |
| Basic weighted average outstanding shares   | 4,428,861          | 4,814,774 | 4,478,328         | 4,855,390 |
| Effect of dilutive stock options            | —                  | —         | —                 | —         |
| Diluted weighted average outstanding shares | 4,428,861          | 4,814,774 | 4,478,328         | 4,855,390 |

4. **STOCK-BASED COMPENSATION** – The Company applies the provisions of ASC 718, *Compensation – Stock Compensation*, which requires the Company to measure the cost of employee services received in exchange for awards of equity instruments and to recognize this cost in the financial statements over the period during which the employee is required to provide such services. The Company has elected to recognize compensation cost associated with its outstanding stock-based compensation awards with graded vesting on a straight-line basis pursuant to ASC 718. The expense is calculated for stock options at the date of grant using the Black-Scholes option pricing model. The expense associated with restricted stock awards is calculated based upon the value of the common stock on the date of grant. Stock-based compensation expense was \$65,000 and \$-0- for the three months ended March 31, 2015 and 2014, respectively and \$201,000 and \$-0- for the nine months ended March 31, 2015 and 2014, respectively. No stock-based compensation awards were granted during the three and nine months ended March 31, 2014.

5. **DIVIDENDS** – On July 24, 2014, November 14, 2014 and February 12, 2015 the Board of Directors of the Company declared cash dividends on the Company’s outstanding shares of stock of \$0.06 per share for each period. The dividends, totaling \$859,000, were paid during the nine months ended March 31, 2015.

6. **STOCK REPURCHASE PLAN** – On February 3, 2014 the Company’s board of directors approved the repurchase of up to 514,956 shares of the Company’s outstanding common stock, which represented approximately 10% of the Company’s outstanding shares at that date. Purchases were conducted solely through and based upon the parameters of a Rule 10b5-1 repurchase plan. As of December 31, 2014, all 514,956 shares were repurchased at a total cost of \$6.0 million.

7. **SUPPLEMENTAL CASH FLOW INFORMATION**

|   | Nine Months Ended<br>March 31,<br>2015      2014<br>(Dollars in<br>thousands) |        |
|---|---|--------|
| Supplemental disclosure of cash flow information is as follows: |   |        |
| Cash paid during the period for:                                |   |        |
| Income taxes  | \$ 32   | \$ 522 |

Edgar Filing: United Community Bancorp - Form 10-Q

|          |          |          |
|----------|----------|----------|
| Interest | \$ 1,264 | \$ 2,010 |
|----------|----------|----------|

Supplemental disclosure of non-cash investing and financing activities is as follows:

|   |          |         |
|---|----------|---------|
| Unrealized gain (loss) on securities designated as available for sale, net of tax   | \$ 1,216 | \$ (9 ) |
| Transfers of loans to other real estate owned   | \$ 202   | \$ 277  |
| Beginning of period adjustment from transfer of mortgage servicing rights from amortized cost method to fair value method, net of tax | \$ -     | \$ 45   |

8. DISCLOSURES ABOUT FAIR VALUE OF ASSETS AND LIABILITIES - ASC 820, *Fair Value Measurements and Disclosures*, requires disclosure of the fair value of financial instruments, both assets and liabilities, whether or not recognized in the consolidated balance sheet, for which it is practicable to estimate the value. For financial instruments where quoted market prices are not available, fair values are estimated using present value or other valuation methods.

The following methods and assumptions are used in estimating the fair values of financial instruments:

Cash and cash equivalents

The carrying values presented in the consolidated statements of position approximate fair value.

Investments and mortgage-backed securities

For investment securities (debt instruments) and mortgage-backed securities, fair values are based on quoted market prices, where available. If a quoted market price is not available, fair value is estimated using quoted market prices of comparable instruments.

Loans receivable

The fair value of the loan portfolio is estimated by evaluating homogeneous categories of loans with similar financial characteristics. Loans are segregated by types, such as residential mortgage, commercial real estate, and consumer. Each loan category is further segmented into fixed and adjustable rate interest, terms, and by performing and non-performing categories. The fair value of performing loans, except residential mortgage loans, is calculated by discounting contractual cash flows using estimated market discount rates which reflect the credit and interest rate risk inherent in the loan. For performing residential mortgage loans, fair value is estimated by discounting contractual cash flows adjusted for prepayment estimates using discount rates based on secondary market sources. The fair value for significant non-performing loans is based on recent internal or external appraisals. Assumptions regarding credit risk, cash flow, and discount rates are judgmentally determined by using available market information.

Federal Home Loan Bank stock

The Bank is a member of the Federal Home Loan Bank system and is required to maintain an investment based upon a pre-determined formula. The carrying values presented in the consolidated statements of position approximate fair value.

Deposits

The fair values of passbook accounts, NOW accounts, and money market savings and demand deposits approximate their carrying values. The fair values of fixed maturity certificates of deposit are estimated using a discounted cash flow calculation that applies interest rates currently offered for deposits of similar maturities.

Advances from Federal Home Loan Bank

The fair value is calculated using rates available to the Company on advances with similar terms and remaining maturities.

Off-balance sheet items

Carrying value is a reasonable estimate of fair value. These instruments are generally variable rate or short-term in nature, with minimal fees charged.

The estimated fair values of the Company's financial instruments at March 31, 2015 and June 30, 2014 are as follows:

|   | March 31, 2015        |               | June 30, 2014       |               |
|---|-----------------------|---------------|---------------------|---------------|
|   | Carrying<br>Amounts   | Fair<br>Value | Carrying<br>Amounts | Fair<br>Value |

| Investment in FHLB stock                            | 5,339                 | 5,339         | 6,588               | 6,588         |
| Financial liabilities:                              |                       |               |                     |               |
| Deposits  | 431,682               | 432,644       | 439,636             | 440,849       |
| Accrued interest payable                            | 22                    | 22            | 25                  | 25            |
| FHLB advances                                       | 13,000                | 13,071        | 15,000              | 15,041        |
| Off-balance sheet items                             | \$—                   | \$—           | \$—                 | \$—           |

ASC 820-10-50-2 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Fair value methods and assumptions are set forth below for each type of financial instrument. Where quoted prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 2 securities include U.S. Government and agency mortgage-backed securities, U.S. Government agency bonds, municipal securities, and other real estate owned. If quoted market prices are not available, the Bank utilizes a third party vendor to calculate the fair value of its available for sale securities. The third party vendor uses quoted prices of securities with similar characteristics when available. If such quotes are not available, the third party vendor uses pricing models or discounted cash flow models with observable inputs to determine the fair value of these securities.

Fair value measurements for certain assets and liabilities measured at fair value on a recurring basis:

|                              | Total      | Quoted prices in active markets for identical assets (Level 1) | Significant other observable inputs (Level 2) | Significant other unobservable inputs (Level 3) |

Fair value measurements for certain assets and liabilities measured at fair value on a nonrecurring basis:

|                         | Total          | Quoted prices in active markets for identical assets (Level 1) | Significant other observable inputs (Level 2) | Significant other unobservable inputs (Level 3) |
|-------------------------|----------------|--|---|---|
|                         | (In thousands) |  |   |   |
| March 31, 2015:         |                |  |   |   |
| Other real estate owned | \$ 328         | \$ —   | \$ 328  | \$ —  |
| Impaired loans          | 12,533         | —  | 12,533  | —   |
| June 30, 2014:          |                |  |   |   |
| Other real estate owned | \$ 598         | \$ —   | \$ 598  | \$ —  |
| Loans held for sale     | 138            | —  | 138   | —   |
| Impaired loans          | 15,445         | —  | 15,445  | —   |

The adjustments to other real estate owned and impaired loans are based primarily on appraisals of the real estate, cash flow analysis or other observable market prices. The Bank's policy is that fair values for these assets are based on current appraisals or cash flow analysis.

The following table presents fair value measurements for the Company's financial instruments which are not recognized at fair value in the accompanying statements of financial position on a recurring or nonrecurring basis.

|  | Total    | Quoted prices in active markets for identical assets (Level 1) | Significant other observable inputs (Level 2) | Significant other unobservable inputs (Level 3) |

|                              | \$48,343            | \$ 228            | \$ 55,866           | \$ 770            | \$104,209  | \$ 998            |
| Number of investments        | 47                  |                   | 25                  |                   | 72         |                   |

Securities available for sale are reviewed for possible other-than-temporary impairment on a quarterly basis. During this review, management considers the severity and duration of the unrealized losses as well as its intent and ability to hold the securities until recovery, taking into account balance sheet management strategies and its market view and outlook. Management also assesses the nature of the unrealized losses taking into consideration factors such as changes in risk-free interest rates, general credit spread widening, market supply and demand, creditworthiness of the issuer or any credit enhancement providers, and the quality of the underlying collateral. Management does not intend to sell these securities in the foreseeable future, and does not believe that it is more likely than not that the Bank will be required to sell a security in an unrealized loss position prior to a recovery in its value. The decline in market value is due to changes in market interest rates. The fair values are expected to recover as the securities approach maturity dates.

## 10. GOODWILL AND INTANGIBLE ASSET

In June 2010, old United Community Bancorp acquired three branches from Integra Bank National Association (“Integra”), which was accounted for under the purchase method of accounting. Under the purchase method, the Company is required to allocate the cost of an acquired company to the assets acquired, including identified intangible assets, and liabilities assumed based on their estimated fair values at the date of acquisition. The excess cost over the value of net assets acquired represents goodwill, which is not subject to amortization.

Goodwill arising from business combinations represents the value attributable to unidentifiable intangible elements in the business acquired. Goodwill recorded by the Company in connection with its acquisition relates to the inherent value in the business acquired and this value is dependent upon the Company's ability to provide quality, cost-effective services in a competitive market place. As such, goodwill value is supported ultimately by revenue that is driven by the volume of business transacted. A decline in earnings as a result of a lack of growth or the inability to deliver cost-effective services over sustained periods can lead to impairment of goodwill that could adversely impact earnings in future periods.

As permitted by current accounting rules, the Company completed its qualitative assessment to determine whether current events or changes in circumstances lead to a determination that it is more likely than not, as defined, that the fair value of the reporting unit is less than its carrying amount. Based upon the Company's assessment, there was no such determination that the fair value of the reporting unit is less than its carrying amount. Accordingly, the Company did not apply the traditional two-step goodwill impairment test.

The following table indicates changes to the core deposit intangible asset and goodwill balances for the nine months ended March 31, 2015:

|                           | Core<br>Deposit<br>Intangible<br>(In thousands) | Goodwill |
|---------------------------|---|----------|
| Balance at June 30, 2014  | \$547   | \$ 2,522 |
| Amortization              | (90 )   | -        |
| Balance at March 31, 2015 | \$457   | \$ 2,522 |

The core deposit intangible is being amortized using the double declining balance method over its estimated useful life of 8.75 years. Remaining amortization of the core deposit intangible is as follows (dollars in thousands) as of March 31, 2015:

|                                     |       |
|-------------------------------------|-------|
| April 1, 2015 through June 30, 2015 | \$28  |
| 2016                                | 117   |
| 2017                                | 117   |
| 2018                                | 117   |
| 2019                                | 78    |
|                                     | \$457 |

11. DISCLOSURES ABOUT THE CREDIT QUALITY OF LOANS RECEIVABLE AND THE ALLOWANCE FOR  
 LOAN LOSSES (IN THOUSANDS)

The following tables illustrate certain disclosures required by ASC 310-10-50-11B(c), (g) and (h), the changes to the allowance for loan losses, for the three and nine months ended March 31, 2015 (in thousands):

Allowance for Credit Losses and Recorded Investment in Loans Receivable

Federal regulations require us to review and classify our assets on a regular basis. In addition, the OCC has the authority to identify problem assets and, if appropriate, require them to be classified. There are three classifications for problem assets: substandard, doubtful and loss. "Substandard assets" must have one or more defined weaknesses and are characterized by the distinct possibility that we will sustain some loss if the deficiencies are not corrected. "Doubtful assets" have the weaknesses of substandard assets with the additional characteristic that the weaknesses make collection or liquidation in full on the basis of currently existing facts, conditions and values questionable, and there is a high possibility of loss. An asset classified "loss" is considered uncollectible and of such little value that continuance as an asset of the institution is not warranted. The regulations also provide for a "special mention" category, described as assets which do not currently expose us to a sufficient degree of risk to warrant classification but do possess credit deficiencies or potential weaknesses deserving our close attention. If we classify an asset as substandard, doubtful or loss, we analyze that asset and may establish a specific allocation for the asset at that time.

The following tables illustrate certain disclosures required by ASC 310-10-50-29(b).

The Bank did not have any investments in subprime loans at March 31, 2015. Impaired loans at March 31, 2015 included troubled debt restructurings (“TDR”) with an aggregate principal balance of \$7.5 million and a recorded investment of \$7.4 million. See Note 12 for a discussion on TDRs.

12. TROUBLED DEBT RESTRUCTURINGS - From time to time, as part of our loss mitigation process, loans may be renegotiated in a TDR when we determine that greater economic value will ultimately be recovered under the new restructured terms than through foreclosure, liquidation, or bankruptcy. We may consider the borrower's payment status and history, the borrower's ability to pay upon a rate reset on an adjustable rate mortgage, size of the payment increase upon a rate reset, period of time remaining prior to the rate reset, and other relevant factors in determining whether a borrower is experiencing financial difficulty. TDRs are accounted for as set forth in ASC 310-40 *Troubled Debt Restructurings by Creditors* ("ASC 310-40"). A TDR may be on nonaccrual or it may accrue interest. A TDR is typically on nonaccrual until the borrower successfully performs under the new terms for at least six consecutive months. However, a TDR may be placed on accrual immediately following the restructuring in those instances where a borrower's payments are current prior to the modification, the loan is restructured at a market rate and management determines that principal and interest under the new terms are fully collectible. All TDRs are considered to be impaired loans. A TDR will be removed from TDR classification if it is restructured at a market rate, is not impaired under those restructured terms and has been performing under those terms for at least twelve consecutive months.

Existing performing loan customers who request a loan (non-TDR) modification and who meet the Bank's underwriting standards may, usually for a fee, modify their original loan terms to terms currently offered. The modified terms of these loans are similar to the terms offered to new customers with similar credit risk. The fee assessed for modifying the loan is deferred and amortized over the life of the modified loan using the level-yield method and is reflected as an adjustment to interest income. Each modification is examined on a loan-by-loan basis and if the modification of terms represents more than a minor change to the loan, then the unamortized balance of the pre-modification deferred fees or costs associated with the mortgage loan are recognized in interest income at the time of the modification. If the modification of terms does not represent more than a minor change to the loan, then the unamortized balance of the pre-modification deferred fees or costs continue to be deferred.

The following tables summarize TDRs by loan type and accrual status.

| At March 31, 2015                           |             |            |                        |                   |                     |                 |                             |

| Total                                       | \$5,618 | \$ 4,391   | \$ 10,009 | \$ 120    | \$ 9,889   | 39    | \$ 14,393  |

Interest income recognized on TDRs is as follows:

|  | For the three months ended |       | For the nine months ended |        |
|--|----------------------------|-------|---------------------------|--------|
|  | March 31,<br>2015          | 2014  | March 31,<br>2015         | 2014   |
| One-to-Four Family residential real estate | \$ 8                       | \$ 14 | \$ 20                     | \$ 48  |
| Multi-family residential real estate       | 10                         | 59    | 61                        | 233    |
| Nonresidential real estate                 | 22                         | 20    | 78                        | 87     |
| Construction                               | -                          | -     | -                         | -      |
| Commercial                                 | -                          | -     | -                         | -      |
| Consumer                                   | -                          | -     | -                         | -      |
| Total                                      | \$ 40                      | \$ 93 | \$ 159                    | \$ 368 |

At March 31, 2015, the Bank had 33 loans totaling \$7.4 million that were reported as TDRs, and had established an allowance for losses on these loans of \$120,000. With respect to the \$7.4 million in TDRs, the Bank charged-off \$4.6 million with respect to those loans at the time the loans were restructured into the Note A/B split note format. At June 30, 2014, the Bank had 39 loans totaling \$10.0 million that were reported as TDRs, and had an allowance for losses on these loans of \$120,000. With respect to the \$10.0 million in TDRs, the Bank charged-off \$4.9 million with respect to those loans at the time the loans were restructured into the Note A/B split note format. At March 31, 2015, the Bank had no other commitments to lend on its TDRs. Management continues to monitor the performance of loans reported as TDRs on a monthly basis.

Loans that were included in TDRs at March 31, 2015 and June 30, 2014 were generally given concessions of interest rate reductions of between 25 and 300 basis points. Six of these loans, having an aggregate carrying value of \$5.1 million at March 31, 2015, also have balloon payments due at the end of their lowered interest rate period. At March 31, 2015, there were 23 loans with an aggregate carrying value of \$5.3 million with required principal and interest payments and three loans with an aggregate carrying value of \$2.3 million with required interest only payments. At June 30, 2014, there were 27 loans with an aggregate carrying value of \$7.7 million with required principal and interest payments and three loans with an aggregate carrying value of \$2.3 million with required interest only payments.

The following table is a roll forward of activity in our TDRs:

| (Dollar amounts in thousands)  | Three Months Ended<br>March 31, 2015 |                 | Nine Months Ended<br>March 31, 2015 |                 |
|--------------------------------|--------------------------------------|-----------------|-------------------------------------|-----------------|
|                                | Recorded                             | Number          | Recorded                            | Number          |
|                                | <u>Investment</u>                    | <u>of Loans</u> | <u>Investment</u>                   | <u>of Loans</u> |
| Beginning balance              | \$ 7,471                             | 34              | \$ 9,889                            | 39              |
| Additions to TDR               | -                                    | -               | 8                                   | 1               |
| Charge-offs                    | -                                    | -               | (8                                  | ) -             |
| Removal of TDRs <sup>(1)</sup> | -                                    | (1              | ) (1,844                            | ) (7            |
| Payments                       | (65                                  | ) -             | (639                                | ) -             |
| Ending balance                 | \$ 7,406                             | 33              | \$ 7,406                            | 33              |

<sup>(1)</sup> The removal of these loans from TDR was due to payoffs of loans and loans eligible for TDR removal during the nine months ended March 31, 2015.

### 13. EFFECT OF RECENT ACCOUNTING PRONOUNCEMENTS

In January 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2015-01, *Income Statement – Extraordinary and Unusual Items (Subtopic 225-20): Simplifying Income Statement*

*Presentation by Eliminating the Concept of Extraordinary Items.* This ASU simplifies the income statement presentation requirements by eliminating the concept of extraordinary items. This ASU is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015 with early adoption permitted. We do not expect the adoption of this guidance to have any impact on the Company's consolidated financial statements.

In August 2014, the FASB issued ASU No. 2014-14, *Receivables – Troubled Debt Restructurings by Creditors (Subtopic 310-40): Classification of Certain Government-Guaranteed Mortgage Loans Upon Foreclosure – a consensus of the FASB Emerging Issues Task Force.* This ASU reduces diversity in practice with regards to the classification of foreclosed mortgage loans that are fully or partially guaranteed under government programs. For public companies, this ASU is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2014 with earlier adoption permitted for companies which have already adopted ASU 2014-04. We do not expect the adoption of this guidance to have a significant impact on the Company's consolidated financial statements.

In June 2014, the FASB issued ASU No. 2014-12, *Compensation – Stock Compensation (Topic 718): Accounting for Share-Based Payments When the Terms of an Award Provide that a Performance Target Could be Achieved After the Requisite Service Period – a consensus of the FASB Emerging Issues Task Force*. This ASU requires that a performance target that could be achieved after the requisite service period be treated as a performance condition. This ASU is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2015 with earlier adoption permitted. We do not expect the adoption of this guidance to have a significant impact on the Company's consolidated financial statements.

In June 2014, the FASB issued ASU No. 2014-11, *Transfers and Servicing (Topic 860): Repurchase-to-Maturity Transactions, Repurchase Financings, and Disclosures*, which modifies the accounting for and disclosures related to such transactions. For public companies, the accounting changes in the ASU are effective for the first interim or annual period beginning after December 15, 2014. Early application is prohibited. We do not expect the adoption of this guidance to have a significant impact on the Company's consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers: Topic 606*. This ASU affects companies that enter into contracts with customers to transfer goods or services or enter into contracts for the transfer of nonfinancial assets, unless those contracts are within the scope of other standards. For public companies, this ASU is effective for annual reporting periods, including interim periods, beginning after December 15, 2016. Early application is not permitted. We do not expect the adoption of this guidance to have a significant impact on the Company's consolidated financial statements.

In January 2014, the FASB issued ASU No. 2014-04, *Receivables – Troubled Debt Restructurings by Creditors (Subtopic 310-40)*, which clarifies when an in substance repossession or foreclosure has occurred and the creditor should be considered to have received physical possession of residential real estate property collateralizing a consumer mortgage loan such that the loan receivable should be derecognized and the real estate property recognized. A creditor is considered to have received physical possession of residential real estate property collateralizing a consumer mortgage loan either when legal title to the residential real estate property is obtained upon completion of a foreclosure or when the borrower has conveyed all interest in the residential real property to the creditor to satisfy the loan through completion of a deed in lieu of foreclosure or similar arrangement. The ASU also require disclosure of both the amount of foreclosed residential real estate property held by the creditor and the recorded investment in consumer mortgage loans collateralized by residential real estate property that are in the process of foreclosure. The guidance is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2014. We do not expect the adoption of these provisions to have a significant impact on the Company's consolidated financial statements.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

### Forward-Looking Statements

This report contains forward-looking statements that are based on assumptions and may describe future plans, strategies and expectations of the Company. These forward-looking statements are generally identified by use of the words "believe," "expect," "intend," "anticipate," "estimate," "project" or similar expressions. The Company's ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Factors which could have a material adverse effect on the operations of the Company and its subsidiaries include, but are not limited to, general economic conditions, changes in the interest rate environment, legislative or regulatory changes that may adversely affect our business, changes in accounting policies and practices, changes in competition and demand for financial services, adverse changes in the securities markets, changes in deposit flows, and changes in the quality or composition of the Company's loan or investment portfolios. Additionally, other risks and uncertainties may be described in the Company's Annual Report on Form 10-K as filed with the Securities and Exchange Commission on September 26, 2014, which is available through the SEC's website at [www.sec.gov](http://www.sec.gov) and in other reports filed by the Company. These risks and uncertainties should be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements. Except as required by applicable law or regulation, the Company does not undertake the responsibility, and specifically disclaims any obligation, to release publicly the result of any revisions that may be made to any forward-looking statements to reflect events or circumstances after the date of the statements or to reflect the occurrence of anticipated or unanticipated events.

### Critical Accounting Policies

We consider accounting policies involving significant judgments and assumptions by management that have, or could have, a material impact on the carrying value of certain assets or on income to be critical accounting policies. We consider the following to be our critical accounting policies: the allowance for loan losses and the valuation of deferred income taxes.

**ALLOWANCE FOR LOAN LOSSES** - The allowance for loan losses is the amount estimated by management as necessary to cover probable credit losses in the loan portfolio at the statement of financial condition date. The allowance is established through the provision for loan losses, which is charged to income. Determining the amount of the allowance for loan losses necessarily involves a high degree of judgment. Among the material estimates required to establish the allowance are: loss exposure at default; the amount and timing of future cash flows on affected loans; and the value of collateral. Inherent loss factors based upon environmental and other economic factors are then applied to the remaining loan portfolio. All of these estimates are susceptible to significant change. Management reviews the level of the allowance at least quarterly and establishes the provision for loan losses based upon an evaluation of the portfolio, past loss experience, current economic conditions and other factors related to the collectibility of the loan portfolio. Although we believe that we use the best information available to establish the allowance for loan losses,

future adjustments to the allowance may be necessary if economic conditions differ substantially from the assumptions used in making the evaluation. In addition, the OCC, as an integral part of its examination process, periodically reviews our allowance for loan losses. Such agency may require us to recognize adjustments to the allowance based on its judgments about information available to it at the time of its examination. A large loss could deplete the allowance and require increased provisions to replenish the allowance, which would negatively affect earnings. For additional discussion, see Notes 1 and 3 of the Notes to the Consolidated Financial Statements included in Item 8 of the Annual Report on Form 10-K filed with the Securities and Exchange Commission on September 26, 2014.

**DEFERRED INCOME TAXES** - We use the asset and liability method of accounting for income taxes as prescribed in Accounting Standards Codification (“ASC”) 740-10-50. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. If current available information raises doubt as to the realization of the deferred tax assets, a valuation allowance is established. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. We exercise significant judgment in evaluating the amount and timing of recognition of the resulting tax liabilities and assets. These judgments require us to make projections of future taxable income. The judgments and estimates we make in determining our deferred tax assets, which are inherently subjective, are reviewed on a continual basis as regulatory and business factors change. Any reduction in estimated future taxable income may require us to record a valuation allowance against our deferred tax assets. A valuation allowance would result in additional income tax expense in the period, which would negatively affect earnings. United Community Bancorp referred to as the Company, accounts for income taxes under the provisions of ASC 275-10-50-8 to account for uncertainty in income taxes. The Company had no unrecognized tax benefits as of March 31, 2015 and June 30, 2014. The Company recognized no interest and penalties on the underpayment of income taxes during the three and nine month periods ended March 31, 2015 and 2014, and had no accrued interest and penalties on the balance sheet as of March 31, 2015 and June 30, 2014. The Company has no tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly increase within the next fiscal year. The Company is no longer subject to U.S. federal, state and local income tax examinations by tax authorities for tax years ended on or before June 30, 2011.

## Comparison of Financial Condition at March 31, 2015 and June 30, 2014

### Balance Sheet Analysis

Total assets were \$522.5 million at March 31, 2015, compared to \$530.5 million at June 30, 2014. The decrease is primarily due to a \$13.3 million decrease in investment securities resulting from sales of mortgage-backed securities with proceeds partially redeployed for the purchase of held to maturity investment securities and funding loan activity.

Total liabilities decreased \$6.9 million from \$457.5 million at June 30, 2014 to \$450.6 million at March 31, 2015 due to an \$8.0 million decrease in deposits during the current year period, primarily as a result of a decrease in municipal deposits.

Total stockholders' equity decreased \$1.1 million from \$72.9 million at June 30, 2014 to \$71.8 million at March 31, 2015. The decrease is primarily due to stock repurchases totaling \$3.9 million and dividends paid totaling \$859,500 during the nine months ended March 31, 2015, partially offset by net income of \$1.8 million, amortization of ESOP shares totaling \$300,000 and an increase in unrealized gains on available for sale securities totaling \$1.2 million during the current year period.

**Loans.** At March 31, 2015, one- to four- family residential loans totaled \$139.3 million, or 53.7% of total gross loans, compared to \$129.5 million, or 51.6% of total gross loans, at June 30, 2014.

Multi-family and nonresidential real estate loans totaled \$70.7 million and represented 27.3% of total loans at March 31, 2015, compared to \$72.4 million, or 28.9% of total loans, at June 30, 2014.

Consumer loans totaled \$34.6 million and represented 13.4% of total loans at March 31, 2015, compared to \$34.7 million or 13.8% of total loans at June 30, 2014.

The following table sets forth the composition of our loan portfolio at the dates indicated.

|   | <b>At March 31,<br/>2015</b> |                | <b>At June 30,<br/>2014</b> |                |   |
|---|------------------------------|----------------|-----------------------------|----------------|---|
|   | <b>Amount</b>                | <b>Percent</b> | <b>Amount</b>               | <b>Percent</b> |   |
| (Dollars in thousands)                  |                              |                |                             |                |   |
| Residential real estate:                |                              |                |                             |                |   |
| One- to four-family                     | \$139,341                    | 53.7           | % \$129,484                 | 51.6           | % |

### Loan Maturity

The following table sets forth certain information at March 31, 2015 regarding the dollar amount of loan principal repayments becoming due during the periods indicated. The table does not include any estimate of prepayments, which significantly shorten the average life of all loans and may cause our actual repayment experience to differ from the contractual requirements shown below. Demand loans having no stated schedule of repayments and no stated maturity are reported as due in one year or less.

|   | <b>Less Than<br/>One<br/>Year</b> | <b>More Than<br/>One Year to<br/>Five Years</b> | <b>More Than<br/>Five Years</b> | <b>Total<br/>Loans</b> |
|---|-----------------------------------|---|---------------------------------|------------------------|

| Total interest expense                    | 557                    | 622            | (10.5 )  | 1,817             | 2,008          | (9.5 )   |
| Net interest income                       | \$3,225                | \$3,130        | 3.0      | \$9,533           | \$9,271        | 2.8      |

Net interest income increased to \$3.2 million for the quarter ended March 31, 2015 compared to \$3.1 million for the quarter ended March 31, 2014. Interest income increased \$30,000 and interest expense decreased \$65,000 from the prior year period. The increase in interest income was a result of a \$3.6 million increase in the average balance of loans, partially offset by a decrease in the average rate earned on loans from 4.59% for the quarter ended March 31, 2014 to 4.43% for the quarter ended March 31, 2015, and an increase in the average rate earned on investments from 1.73% for the quarter ended March 31, 2014 to 2.05% for the current year period. The increase in interest income was also partially offset by a \$15.4 million decrease in the average balance of investments. Net interest income increased \$262,000, or 2.8%, to \$9.5 million for the nine months ended March 31, 2015 as compared to \$9.3 million for the nine months ended March 31, 2014. The increase was attributable to an increase in interest income of \$71,000 and a decrease of \$191,000 in interest expense. The increase in interest income was primarily the result of an increase in the average rate earned on investments from 1.51% for the nine months ended March 31, 2014 to 1.91% for the nine months ended March 31, 2015, partially offset by an \$8.6 million decrease in the average balance of investments. The

decrease in interest expense was primarily the result of a decrease in the average interest rate paid on deposits from 0.58% for the nine months ended March 31, 2014 to 0.51%, for the nine months ended March 31, 2015. Net interest margin increased from 2.60%, for the nine months ended March 31, 2014 to 2.73% for the nine months ended March 31, 2015.

The following table summarizes average balances and average yields and costs of interest-earning assets and interest-bearing liabilities for the three and nine months ended March 31, 2015 and 2014. For the purposes of this table, average balances have been calculated using month-end balances, and nonaccrual loans are included in average balances only. Yields are not presented on a tax equivalent basis.
