Form 6-K December 11, 2015
UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549
Form 6-K
REPORT OF FOREIGN PRIVATE ISSUER PURSUANT TO RULE 13a-16 OR 15d-16 UNDER THE
SECURITIES EXCHANGE ACT OF 1934
For the month of December 2015.
Commission File Number 33-65728
CHEMICAL AND MINING COMPANY OF CHILE INC.
(Translation of registrant's name into English)
El Trovador 4285, Santiago, Chile (562) 2425-2000
(Address of principal executive office)
Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F.
Form 20-F: x Form 40-F "
Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1):
Note: Regulation S-T Rule 101(b)(1) only permits the submission in paper of a Form 6-K if submitted solely to provide an attached annual report to security holders.

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7): _____

Note: Regulation S-T Rule 101(b)(7) only permits the submission in paper of a Form 6-K if submitted to furnish a report or other document that the registrant foreign private issuer must furnish and make public under the laws of the jurisdiction in which the registrant is incorporated, domiciled or legally organized (the registrant's "home country"), or under the rules of the home country exchange on which the registrant's securities are traded, as long as the report or other document is not a press release, is not required to be and has not been distributed to the registrant's security holders, and, if discussing a material event, has already been the subject of a Form 6-K submission or other Commission filing on EDGAR.

Notes to the Interim Consolidated Financial Statements As of September 30, 2015

Note 1 Identification and activities of the Company and Subsidiaries

1.1 Historical background

Sociedad Química y Minera de Chile S.A. "SQM" is an open stock corporation organized under the laws of the Republic of Chile, Tax Identification No.93.007.000-9.

The Company was incorporated through a public deed dated June 17, 1968 by the notary public of Santiago MR. Sergio Rodríguez Garcés. Its existence was approved by Decree No. 1,164 of June 22, 1968 of the Ministry of Finance, and it was registered on June 29, 1968 in the Registry of Commerce of Santiago, on page 4,537 No. 1,992. SQM's headquarters are located at El Trovador 4285, Fl. 6, Las Condes, Santiago, Chile. The Company's telephone number is +56 2 2425-2000.

The Company is registered with the Securities Registry of the Chilean Superintendence of Securities and Insurance (SVS) under No. 0184 dated March 18. 1983 and is subject to the inspection of the SVS.

1.2 Main domicile where the Company performs its production activities

The Company's main domiciles are: Calle Dos Sur plot No. 5 - Antofagasta; Arturo Prat 1060 - Tocopilla; Administración Building w/n - Maria Elena; Administración Building w/n Pedro de Valdivia - María Elena, Anibal Pinto 3228 - Antofagasta, Kilometer 1378 Ruta 5 Norte Highway - Antofagasta, Coya Sur Plant w/n - Maria Elena, kilometer 1760 Ruta 5 Norte Highway - Pozo Almonte, Salar de Atacama (Atacama Saltpeter deposit) potassium chloride plant s/n - San Pedro de Atacama, potassium sulfate plant at Salar de Atacama s/n - San Pedro de Atacama, Minsal Mining Camp s/n CL Plant CL, Potassium - San Pedro de Atacama, formerly the Iris Saltpeter office S/N, Commune of Pozo Almonte, Iquique.

1.3 Codes of main activities

The codes of the main activities as established by the Chilean Superintendence of Securities and Insurance are as follows:

- -1700 (Mining)
- -2200 (Chemical products)
- -1300 (Investment)
- 1.4 Description of the nature of operations and main activities

Our products are mainly derived from mineral deposits found in northern Chile. We mine and process caliche ore and brine deposits. The ore deposit in northern Chile contains nitrate and iodine deposits. The brine deposits of the Salar de Atacama, in northern Chile, contain high concentrations of lithium and potassium as well as significant concentrations of sulfate.

Notes to the Interim Consolidated Financial Statements As of September 30, 2015

Note 1 Identification and Activities of the Company and Subsidiaries (continued)

1.4 Description of the nature of operations and main activities, continued

From our caliche ore deposits located in the north of Chile, we produce a wide range of nitrate-based products used for specialty plant nutrients and industrial applications, as well as iodine and iodine derivatives. At the Salar de Atacama, we extract brines rich in potassium, lithium and sulfate in order to produce potassium chloride, potassium sulfate, lithium solutions, and bischofite (magnesium chloride). We produce lithium carbonate and lithium hydroxide at our plant near the city of Antofagasta, Chile, from the solutions brought from the Salar de Atacama. We market all of these products through an established worldwide distribution network.

We sell our products in over 100 countries worldwide through our global distribution network and generate our revenue mainly from abroad.

Our products are divided into six categories: specialty plant nutrition, iodine and its derivatives, lithium and its derivatives, industrial chemicals, potassium and other products and services, described as follows:

Specialty plant nutrition: SQM produces and sells four types of specialty plant nutrition in this line of business: potassium nitrate, sodium potassium nitrate, and specialty mixes. This business is characterized by being closely related to its customers for which it has specialized staff who provide expert advisory in best practices for fertilization according to each type of crop, soil and climate. Within this type of business, potassium derivative products and specially potassium nitrate have had a leading role given the contribution they make to develop crops insuring an improvement in post-crop life in addition to improving quality, flavor and fruit color. The potassium nitrate, which is sold in multiple formats and as a part of other specialty mixtures, is complemented by sodium nitrate, potassium sodium nitrate, and more than 200 fertilizing mixtures.

Iodine: The Company is a major producer of iodine at worldwide level. Iodine is widely used in the pharmaceutical industry, technology and nutrition. Additionally, iodine is used as X ray contrast media and polarizing film for LCD displays.

Lithium: the Company's lithium is mainly used for manufacturing rechargeable batteries for cell phones, cameras and notebooks. Through the manufacturing of lithium-based products, SQM provides significant materials to face great

challenges such as the efficient use of energy and raw materials. Lithium is mainly not used for rechargeable batteries for small electrical appliances such as mobile phones, tablets and laptops. It is also used in industrial applications such as the manufacturing of glass, ceramics and lubricating greases. Other uses include the pharmaceutical and chemical industries.

--	---	----------	-----	---------	--------------	------------------	--------------	------	-----------	-----	------

Note 1 Identification and Activities of the Company and Subsidiaries (continued)

1.4 Description of the nature of operations and main activities, continued

Industrial Chemicals: Industrial chemicals are products used as supplies for a number of production processes. SQM participates in this line of business during more than 30 years producing sodium nitrate, potassium nitrate and potassium chloride. Industrial nitrates have increased their importance over the last few years due to their use as storage means for thermal energy at solar energy plants, which are widely used in countries as Spain and the United States in their search for decreasing CO₂ emissions.

Potassium: The potassium is a primary essential macro-nutrient, and even though does not form part of the plant's structure, has a significant role for the developing of its basic functions, validating the quality of a crop, increasing post-crop life, improving the crop flavor, its amount in vitamins and its physical appearance. Within this business line, SQM has also potassium chlorate and potassium sulfate, both extracted from the salt layer located under the Salar de Atacama (the Atacama Saltpeter Deposit).

Other products and services: This business line includes revenue from commodities, services, interests, royalties and dividends.

Tel: (56 2) 2425 2000

Notes to the Interim Consolidated Financial Statements As of September 30, 2015

Note 2 Basis of presentation for the consolidated financial statements

2.1 Accounting period

These consolidated financial statements cover the following periods:

- -Consolidated Statements of Financial Position for the periods ended September 30, 2015 and December 31, 2014.
 - Consolidated Statements of Changes in Equity for the periods ended September 30, 2015 and 2014.

Consolidated Statements of Comprehensive Income for the periods between January and September 30, 2015 and 2014.

- Statements of Direct-Method Cash Flows for the periods ended September 30, 2015 and 2014.

2.2 Financial statements

The consolidated financial statements of Sociedad Química y Minera de Chile S.A. and Subsidiaries, have been prepared in accordance with International Financial Reporting Standards (hereinafter "IFRS") and represent the full, explicit and unreserved application of the aforementioned international standards issued by the International Accounting Oversight Board (IASB). As of September the only instruction issued by the Chilean Superintendence of Securities and Insurance that contravenes IFRS refers to the particular recognition of the effect of deferred taxes.

On September 26, 2014, Law No.20,780 was enacted and published on September 29, 2014, which introduces amendments to the tax system in Chile referred to income taxes, among other matters. On October 17, 2014, the Chilean Superintendence of Securities and Insurance issued Circular No. 856 which required that the adjustment of deferred tax assets and liabilities generated as a direct effect of an increase in the corporate income tax rate provided by Law 20,780 (the Tax Reform) will be made against equity and not as required by IAS 12. Notes 3.38 and 28.4 provide a detail of criteria used and impacts related to the recording of the effects resulting from such tax reform and the application of the aforementioned Circular.

These consolidated financial statements reflect fairly the Company's equity and financial position and the results of its operations, changes in the statement of recognized revenue and expenses and cash flows, which have occurred during the periods then ended.

IFRS establish certain alternatives for their application. Those applied by the Company and its subsidiaries are included in detail in this Note.

The accounting policies used in the preparation of these consolidated annual and interim accounts comply with each IFRS in force at their date of presentation. Certain reclassifications have been made for comparative purposes.

Notes to the Interim Consolidated Financial Statements As of September 30, 2015

Note 2 Basis of presentation for the consolidated financial statements (continued)

2.3 Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis except for the following material items:

- Inventories are recorded at the lower of cost and net realizable value.
- Other current and non-current asset and financial liabilities at amortized cost.
 - Financial derivatives at fair value; and
 - Staff severance indemnities and pension commitments at actuarial value.

2.4 Accounting pronouncements

New accounting pronouncements

a) The following standards, interpretations and amendments are mandatory for the first time for annual periods beginning on January 1, 2015:

Amendments and improvements

Mandatory for periods beginning on

Amendment of IAS 19 "Employee Benefits" on defined benefit plans. – Issued in November 2013. This amendment applies to employee or third party contributions in defined benefit plans. Amendments are intended to simplify the accounting for contributions that are independent of the number of years of service of employees; e.g., contributions by employees that are calculated in accordance with a fixed percentage of the employee's salary.

01/01/2015

Improvements to International Financial Reporting Standards (2012) issued in December 2013

Mandatory for periods

beginning on

IFRS 2 "Share-based Payment" – It clarifies the definition of "vesting conditions and "market conditions" and defines separately "performance conditions" and "service conditions." Such an amendment should be applied prospectively on share-based payment transactions whose grant date is July 1, 2014 or after. Early adoption is permitted.

IFRS 8 "Operating Segments" – The standard is amended to include the requirement to disclose the judgments made by management in the aggregation of operating segments. The standard was additionally modified to require a reconciliation of assets of the segments to assets of an entity, when assets are reported by segment. Early adoption is permitted.

Notes to the Interim Consolidated Financial Statements As of September 30, 2015

Note 2 Basis of presentation for the consolidated financial statements (continued)

2.4 Accounting Pronouncements, continued

Improvements to International Financial Reporting Standards (2012) issued in December 2013

Mandatory for periods beginning on

IFRS 13 "Fair Value Measurement" – IASB has modified the basis for conclusions of IFRS 13 to clarify that it did not intend to eliminate the ability to measure short-term receivables and payables at nominal 01/01/2015 amounts if the effect of not adjusting is not significant.

IAS 16, "Property, Plant and Equipment" and IAS 38, "Intangible Assets" – Both standards are amended to clarify the treatment of the gross carrying amount and accumulated depreciation when an 01/01/2015 entity uses the revaluation model. Early adoption is permitted.

IAS 24, "Related party Disclosures" – The standard is modified to include, as related party, an entity that provides key management personnel services to the reporting entity of the Parent of the reporting 01/01/2015 entity ("the managing entity"). Early adoption is permitted.

Improvements to International Financial Reporting Standards (2013) issued in December 2013

Mandatory for periods beginning on

IFRS 13 "Fair Value Measurement" – It clarifies that the portfolio exception in IFRS 13, that allows an entity to measure the fair value of a group of financial assets and financial liabilities as at their net amount, applies to all contracts (including non-financial contracts) within the scope of IAS 39 or IFRS 01/01/2015 9. An entity must apply the amendments prospectively from the start of the first annual period in which IFRS 13 is applied.

The adoption of the standards, amendments and interpretations indicated above has no significant impact on the Company's consolidated financial statements.

b) Standards, interpretations and amendments issued, not effective for the financial statements beginning on January 1, 2015, which the Company has not adopted early are as follows:

Amendments and interpretations

Mandatory for periods beginning on

IFRS 9 "Financial Instruments"- Issued in July 2014. The IASB has issued the full version of IFRS 9, which supersedes the application guidance in IAS 39. This final version includes requirements on the classification and measurement of financial assets and financial liabilities and an expected credit losses model that replaces the incurred loss impairment model used today. The final hedging accounting part of IFRS 9 was issued in November 2013. Early adoption is permitted.

01/01/2018

IFRS 15 "Revenue from Contracts with Customers"-Published in May 2014. This standard establishes the principles that an entity shall apply to report useful information to users of financial statements about the nature, amount, timing, and uncertainty of revenue and cash flows arising from a contract with a customer. For such purposes, the basic principle is that an entity will recognize revenue representing the transfer of goods or services to customers in an amount that reflects the consideration that the entity expects to receive in exchange for such goods or services. The application of this standard will replace IAS 11 Construction Contracts and IAS 18 Revenue, as well as IFRIC 13 Customer Loyalty Programmes, IFRIC 15 Agreements for the Construction of Real Estate, IFRIC 18 Transfers of Assets from Customers and SIC 31 Revenue-Barter Transactions Involving Advertising Services. Early application is permitted.

Tel: (56 2) 2425 2000

Notes to the Interim Consolidated Financial Statements As of September 30, 2015

Note 2 Basis of presentation for the consolidated financial statements (continued)

2.4 Accounting Pronouncements, continued

Amendments and improvements

Mandatory for periods beginning on

Amendment to *IFRS 11 "Joint Arrangements"* – on the acquisition of interest in a joint operation – Issued in May 2014. This amendment includes guidance relates to the method for accounting for an acquisition of an interest in a joint operation in which the activity constitutes a business, specifying the proper treatment for such acquisitions

01/01/2016

IAS 16 "Property, Plant and Equipment" and IAS 38 "Intangible Assets" on depreciation and amortization – Issued in May 2014. The amendments clarify that a depreciation method that is based on revenue that is generated by an activity that includes the use of an asset is not appropriate because revenue generated by such an activity in general reflects other factors other than the use of the economic benefits embedded in the asset. Likewise, the amendments clarify that a revenue-based amortization method is inappropriate to measure the use of the economic benefits embedded in the intangible asset.

01/01/2016

Amendments and improvements

Mandatory for periods beginning on

IAS 16 "Property, Plant and Equipment" and IAS 41 "Agriculture" on bearer plants. – Issued in June 2014. These amendments modify the financial information for "bearer plants", such as vineyards, rubber wood tree and oil palm. The amendments define the concept of "bearer plant" and establish that they should be accounted for in the same way as property, plant and equipment because their operation is similar to that of manufacturing. Consequently, the amendments include them within the scope of IAS 16, instead of IAS 41. The produce growing on bearer plants will remain within the scope of IAS 41. Early adoption is permitted.

01/01/2016

Amendment of *IAS 27 "Separate Financial Statements"* on the equity method- Issued in August 2014. This amendment allows entities to use the equity method of accounting for the recognition of investments in subsidiaries, joint ventures and associates in their separate financial statements. Early adoption is permitted.

01/01/2016

Amendment of *IFRS 10 "Consolidated Financial Statements" and IAS 28 "Investments in Associates 01/01/2016 and Joint Ventures"*. Issued in September 2014. This amendment addresses an inconsistency between the requirements of IFRS 10 and IAS 28 for the treatment of a sale or contribution of assets between an investor and its associate or joint venture. The main consequence of this amendment is the recognition of

a full gain or loss when the transaction involves a business (whether or not in a subsidiary) and a partial gain or loss when the transaction involves assets that are not a business, even if such assets are in a subsidiary

Notes to the Interim Consolidated Financial Statements As of September 30, 2015

Note 2 **Basis of presentation for the consolidated financial statements (continued)**

2.4 **Accounting Pronouncements, continued**

Amendments and improvements

Mandatory for periods beginning

Amendment to IFRS 10 "Consolidated Financial Statements" and IAS 28 "Investments in Associates and Joint Ventures." Issued in December 2014. The amendment clarifies the application of the exception from consolidation for investment entities and their subsidiaries. The amendment to IFRS 10 clarifies on the exception on consolidation available for entities in group structures that include investment entities. The amendment to IAS 28 allows an entity that is not an investment entity, but has an interest in an 01/01/2016 associated or joint venture that is an investment entity, an option of accounting policy in the application of the equity method. The entity may opt for maintaining measurement at fair value applied by the associate or joint venture that is an investment entity or, consolidating at investment entity level (associate or joint venture). Early adoption is permitted.

Amendment to IAS 1 "Presentation of Financial Statements." Issued in December 2014. This amendment clarifies the application guidance of IAS 1 on materiality and aggregation, presentation of subtotals, structure of the financial statements and disclosure of accounting policies. The amendments are 01/01/2016 part of the IASB's Initiative on Disclosures. Early adoption is permitted.

Improvements to International Financial Reporting Standards (2014) issued in September 2014.

Mandatory for periods beginning on

IFRS 7 "Financial Instruments: Disclosures." This includes two amendments of IFRS 7. (1) Service contracts: If an entity transfers a financial asset to a third party in conditions that allow the transferor to derecognize the asset, IFRS 7 requires the disclosure of any type of continuing involvement that the entity may still have in the transferred assets. IFRS 7 provides guidance on what is understood as continuing involvement within this context. The amendment is prospective and can be applied 01/01/2016 retrospectively. This also affects IFRS 1 to provide the same option to the first-time adopters of IFRS. (2) Interim financial statements: The amendment clarifies that the additional disclosure required by amendments of IFRS 7 "Offsetting of financial assets and financial liabilities" is not specifically required for all interim periods unless required by IAS 34. Such amendment is retrospective.

IAS 19, "Employee Benefits" – This amendment clarifies that in order to determine the discount rate for 01/01/2016 post-employment benefit obligations, the important aspect is the currency in which liabilities are

denominated, not the country where they generate. The evaluation of whether a deep market exists for high-quality corporate bonds is based on corporate bonds in such currency, not in corporate bonds of a particular country. Likewise, where there is no deep market for high-quality corporate bonuses in such currency, government bonds in the related currency have to be used. Such amendment is retrospective but limited at the beginning of the first period presented.

IAS 34, "Interim Financial Reporting" – This amendment clarifies the meaning of disclosure of information 'elsewhere in the interim financial report' and to require the inclusion of a cross-reference 01/01/2016 from the interim financial statements to the location of the information. This amendment is retrospective

The Company's management believes that the adoption of standards, amendments and interpretations described above are under evaluation and it is expected that they will not have a significant impact on the Consolidated Financial Statements of the Company.

SQM S.A.

El Trovador 4285,

Las Condes, Santiago, Chile 26

Tel: (56 2) 2425 2000

Notes to the Consolidated Financial Statements as of September 30, 2015.

Note 2 Basis of presentation for the consolidated financial statements (continued)

2.5 Basis of consolidation

(a) Subsidiaries

Relate to all the entities on which Sociedad Química y Minera de Chile S.A. has control when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those variable returns through its power over the entity. Subsidiaries apply the same accounting policies of their Parent.

To account for the acquisition, the Company uses the acquisition method. Under this method the acquisition cost is the fair value of assets delivered, equity securities issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition. Identifiable assets acquired and liabilities and contingencies assumed in a business combination are measured initially at fair value at the acquisition date. For each business combination, the Company will measure non-controlling interest of the acquiree either at fair value or as proportional share of net identifiable assets of the acquiree.

Notes to the Consolidated Financial Statements as of September 30, 2	015.
--	------

Note 2 Basis of presentation for the consolidated financial statements (continued)

2.5 Basis of consolidation, continued

Profit or loss of depending companies acquired or disposed of during the year are included in profit or loss accounts consolidated from the effective date of acquisition or up to the effective date of disposal, as applicable.

Non-controlling interest represents the equity of a subsidiary not directly or indirectly attributable to the Parent.

2.6 Significant accounting judgments, estimates and assumptions

Management of Sociedad Química y Minera de Chile S.A. and its subsidiaries is responsible for the information contained in these consolidated financial statements, which expressly indicate that all the principles and criteria included in IFRSs (except for the Circular 856 of the Chilean Superintendence of Securities and Insurance), as issued by the International Accounting Standards Board (IASB), have been applied in full.

In preparing the consolidated financial statements of Sociedad Química y Minera de Chile S.A. and its subsidiaries, Management has made judgments and estimates to quantify certain assets, liabilities, revenues, expenses and commitments included therein. Basically, these estimates refer to:

- The useful lives of property, plant and equipment, and intangible assets and their residual value;
 - Impairment losses of certain assets, including trade receivables;

Assumptions used in calculating the actuarial amount of pension-related and severance indemnity payment benefit commitments:

- Provisions for commitments assumed with third parties and contingent liabilities;

Provisions on the basis of technical studies that cover the different variables affecting products in stock (density and moist, among others), and allowance for slow-moving spare-parts in stock;

Future cost for closure of mining sites;

- The determination of the fair value of certain financial assets and derivative instruments;
 - The determination and assignment of fair values in business combinations.

Despite the fact that these estimates have been made on the basis of the best information available on the date of preparation of these consolidated financial statements, certain events may occur in the future and oblige their amendment (upwards or downwards) over the next few years, which would be made prospectively, recognizing the effects of the change in estimates in the related future consolidated financial statements.

SQM S.A.

El Trovador 4285,

Las Condes, Santiago, Chile 29

Tel: (56 2) 2425 2000

Notes to the Consolidated Financial Statements as of September 30, 2015.
Note 3 Significant accounting policies
3.1 Classification of balances as current and non-current
In the attached consolidated statement of financial position, balances are classified in consideration of their remaining recovery (maturity) dates; i.e., those maturing on a date equal to or lower than twelve months are classified as current and those with maturity dates exceeding the aforementioned period are classified as non-current.
The exception to the foregoing relates to deferred taxes, which are classified as non-current, regardless of the maturity they have.
3.2 Functional and presentation currency
The Company's consolidated financial statements are presented in United States dollars ("U.S. dollars" or "US\$"), which is the Company's functional and presentation currency and is the currency of the main economic environment in which it operates.
Consequently, the term foreign currency is defined as any currency other than the U.S. dollar.
The consolidated financial statements are presented in thousands of United States dollars without decimals.
3.3 Foreign currency translation
(a) Group entities:

The revenue, expenses, assets and liabilities of all entities that have a functional currency other than the presentation currency are converted to the presentation currency as follows:

- Assets and liabilities are converted at the closing exchange rate prevailing on the reporting date.
- Revenues and expenses of each profit or loss account are converted at monthly average exchange rates.

All resulting foreign currency translation gains and losses are recognized as a separate component in translation reserves.

In consolidation, foreign currency differences arising from the translation of a net investment in foreign entities are recorded in equity (other reserves). At the date of disposal, such foreign currency translation differences are recognized in the statement of income as part of the gain or loss from the sale.

SQM S.A.

El Trovador 4285,

Las Condes, Santiago, Chile 30

Tel: (56 2) 2425 2000

Notes to the Consolidated Financial Statements as of September 30, 2015.

Note 3 Significant accounting policies (continued)

3.3 Foreign currency translation, continued

The exchange rates used to translate the monetary assets and liabilities expressed in foreign currency at the closing date of each period in respect to the U.S. dollar are detailed as follows:

	09/30/2015 US\$	12/31/2014 US\$
	OS\$	033
Brazilian real	3.97	2.65
New Peruvian sol	3.22	2.97
Argentine peso	9.40	8.45
Japanese yen	119.96	120.55
Euro	0.90	0.82
Mexican peso	17.07	14.74
Australian dollar	0.70	0.82
Pound Sterling	0.65	0.64
South African rand	12.07	11.55
Ecuadorian dollar	1.00	1.00
Chilean peso	698.72	606.75
UF	36.28	40.59

(b) Transactions and balances

Non-monetary transactions in currencies other than the functional currency (U.S. dollar) foreign currencies are translated to the respective functional currencies of Group entities at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. All differences are recorded in the statement of income except for all monetary items that provide effective hedge for a net investment in a foreign operation. These items are recognized in other comprehensive income on the disposal of the investment; at the time they are recognized in the statement of income. Charges and credits attributable to foreign currency translation differences on those hedge monetary items are also recognize in other comprehensive income.

Non-monetary assets and liabilities that are measured at historical cost in a foreign currency are retranslated to the functional currency at the historical exchange rate of the transaction. Non-monetary items that are measured based on fair value in a foreign currency are translated using the exchange rate at the date on which the fair value is determined.

SQM S.A.

El Trovador 4285,

Las Condes, Santiago, Chile 31

Tel: (56 2) 2425 2000

Notes to the Consolidated Financial Statements as of September	r 30	, 2015.
--	------	---------

Note 3 Significant accounting policies (continued)

3.3 Subsidiaries

SQM S.A. establishes, as basis, the control exercised in subsidiaries, to determine their share in the consolidated financial statements. Control consists of the Company's ability to exercise power in the subsidiary, exposure, or right, to variable performance from its share in the investee and the ability to use its power on the investee to have an influence on the amount of the investor's performance.

The Company prepares the consolidated financial statements using consistent accounting policies for the entire Group, the consolidation of a subsidiary commences when the Company has control over the subsidiary and stops when control ceases.

3.4 Consolidated statement of cash flows

Cash equivalents correspond to highly-liquid short-term investments that are easily convertible in known amounts of cash. They are subject to insignificant risk of changes in their value and mature in less than three months from the date of acquisition of the instrument.

For purposes of the statement of cash flows, cash and cash equivalents comprise cash and cash equivalents as defined above.

The statement of cash flows includes movements in cash performed during the year, determined using the direct method.

3.5 Financial assets

Management determines the classification of its financial assets at the time of initial recognition, on the basis of the business model for the management of financial assets and the characteristics of contractual cash flows from the financial assets. In accordance with IAS 39, financial assets are measured initially at fair value plus transaction costs that may have been incurred and are directly attributable to the acquisition of the financial asset. Subsequently, financial assets are measured at amortized cost or fair value.

The Company assesses, at each reporting date, whether there is objective evidence that an asset or group of assets is impaired. An asset or group of financial assets is impaired if and only if there is evidence of impairment as a result of one or more events occurring after the initial recognition of the asset or group of assets. For the recognition of impairment, the loss event has to have an impact on the estimate of future cash flows from the asset or groups of financial assets.

Note 3 Significant accounting policies (continued)

3.6 Financial liabilities

Management determines the classification of its financial liabilities at the time of initial recognition. As established in IAS 39, financial liabilities at the time of initial recognition are measured at fair value, less transaction costs that may have been incurred and are directly attributable to the issue of the financial liability. Subsequently, these are measured at amortized cost using the effective interest method. For financial liabilities that have been initially recognized at fair value through profit or loss, these will be measured subsequently at fair value.

SQM S.A.

El Trovador 4285,

Las Condes, Santiago, Chile 32

Tel: (56 2) 2425 2000

Notes to the Consolidated Financial Statements as of September 30, 2015.

3.7 Financial instruments at fair value through profit or loss

Management will irrevocably determine, at the time of initial recognition, the designation of a financial instrument at fair value through profit or loss. By doing so, this eliminates and/or significantly reduces measurement or recognition inconsistency that would otherwise have arisen from the measurement of assets or liabilities or from the recognition of gains and losses from them on different bases.

3.8 Financial instrument offsetting

The Company offsets an asset and liability if and only if it presently has a legally enforceable right of setting off the amounts recognized and has the intent of settling for the net amount of realizing the asset and settling the liability simultaneously.

3.9 Reclassification of financial instruments

At the time when the Company changes its business model for managing financial assets, it will reclassify the financial assets affected by the new business model.

For financial liabilities these could not be reclassified.

3.11 Derivative and hedging financial instruments

Derivatives are recognized initially at fair value as of the date on which the derivatives contract is signed and, subsequently, are assessed at fair value. The method for recognizing the resulting gain or loss depends on whether the derivative has been designated as an accounting hedge instrument and, if so, it depends on the type of hedging, which may be as follows:

- (a) Fair value hedge of assets and liabilities recognized (fair value hedges);
- (b) Hedging of a single risk associated with an asset or liability recognized or a highly possible foreseen transaction (cash flow hedge).

At the beginning of the transaction, the Company documents the relationship existing between hedging instruments and those items hedged, as well as their objectives for risk management purposes and the strategy to conduct different hedging operations.

The Company also documents its evaluation both at the beginning and at the end of each period if derivatives used in hedging transactions are highly effective to offset changes in the fair value or in cash flows of hedged items.

SQM S.A.

El Trovador 4285,

Las Condes, Santiago, Chile 33

Tel: (56 2) 2425 2000

Notes to the Consolidated Financial Statements as of September 30, 2015.

Note 3 Significant accounting policies (continued)

3.11 Derivative and hedging financial instruments, continued

The fair value of derivative instruments used for hedging purposes is shown in Note 10.3 (hedging assets and liabilities). Changes in the cash flow hedge reserve are classified as a non-current asset or liability if the remaining expiration period of the hedged item is higher than 12 months, and as a current asset or liability if the remaining expiration period of the entry is lower than 12 months.

Investing derivatives are classified as a current asset or liability, and the change in their fair value is recognized directly in profit or loss.

(a) Fair value hedge

The change in the fair value of a derivative is recognized with a debit or credit to profit or loss, as applicable. The change in the fair value of the hedged entry attributable to hedged risk is recognized as part of the carrying value of the hedged entry and is also recognized with a debit or credit to profit or loss.

For fair value hedges related to items recorded at amortized cost, the adjustment of the fair value is amortized against profit or loss during the period, through maturity. Any adjustment to the carrying value of a hedged financial instrument, for which the effective rate is used, is amortized with a debit or credit to profit or loss at its fair value, attributable to the risk being covered.

If the hedged entry is derecognized, the fair value not amortized is immediately recognized with a debit or credit to profit or loss.

(b) Cash flow hedges

The effective portion of gains or losses from the hedge instrument is initially recognized with a debit or credit to other comprehensive income, whereas any ineffective portion is immediately recognized with a debit or credit to profit or loss, as applicable.

Amounts taken to equity are transferred to profit or loss when the hedged transaction affects profit or loss, as when the hedged interest income or expense is recognized when a projected sale occurs. When the hedged entry is the cost of a non-financial asset or liability, amounts taken to other reserves are transferred to the initial carrying value of the non-financial asset or liability.

Should the expected firm transaction or commitment no longer be expected to occur, the amounts previously recognized in equity are transferred to profit or loss. If a hedge instrument expires, is sold, finished, or exercised without any replacement, or if a rollover is performed or if its designation as hedging is revoked, the amounts previously recognized in other reserves are maintained in equity until the expected firm transaction or commitment occurs.

SQM S.A.

El Trovador 4285,

Las Condes, Santiago, Chile 34

Tel: (56 2) 2425 2000

Notes to the Consolidated Financial Statements as of September 30, 2015.

Note 3 Significant accounting policies (continued)

3.12 Derecognition of financial instruments

In accordance with IAS 39, the Company derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred; and the control of the financial assets has not been retained.

The Company derecognizes a financial liability when its contractual obligations or a part of these are discharged, paying to the creditor or its legally extinguished entity the primary responsibility for the liability.

3.13 Derivative financial instruments

The Company maintains derivative financial instruments to hedge its exposure to foreign currencies. Derivative financial instruments are recognized initially at fair value; attributable transaction costs are recognized when incurred. Subsequent to initial recognition, changes in fair value of such derivatives are recognized in profit or loss as part of gains and losses.

The Company permanently assesses the existence of embedded derivatives, both in its contracts and financial instruments. As of September 30, 2015 and 2014, there are no embedded derivatives.

3.14 Fair value measurements

From the initial recognition, the Company measures its assets and liabilities at fair value plus or minus transaction costs incurred that are directly attributable to the acquisition of a financial asset or issuance of a financial liability.

3.15 Leases

(a) Lease - Finance lease

Leases are classified as finance leases when the Company holds substantially all the risks and rewards derived from the ownership of the asset. Finance leases are capitalized at the beginning of the lease, at the lower of the fair value of the leased asset or the present value of minimum lease payments.

Each lease payment is distributed between the liability and the interest expenses to obtain ongoing interest on the pending balance of debt. The respective lease obligations, net of interest expense, are included in other non-current liabilities. The interest element of finance cost is debited in the consolidated statement of income during the lease period so that a regular ongoing interest rate is obtained on the remaining balance of the liability for each year.

(b) Lease – Operating lease

Leases in which the lesser maintains a significant part of the risks and rewards derived from the ownership are classified as operating leases. Operating lease payments (net of any incentive received from the lesser) are debited to the statement of income or capitalized (as applicable) on a straight-line basis over the lease period.

SOM S.A.

El Trovador 4285,

Las Condes, Santiago, Chile 35

Tel: (56 2) 2425 2000

Notes to the Consolidated Financial Statements as of September 30, 2015.

Note 3 Significant accounting policies (continued)

3.16 Deferred acquisition costs from insurance contracts

Acquisition costs from insurance contracts are classified as prepayments and correspond to insurance contracts in force, recognized using the straight-line method and on an accrual basis, and are recognized under other non-financial assets.

3.17 Trade and other receivables

Trade and other receivables relate to non-derivative financial assets with fixed and determinable payments and are not quoted in any active market. These arise from sales operations involving the products and/or services, of which the Company commercializes directly to its customers.

These assets are initially recognized at their fair value and subsequently at amortized cost according to the effective interest rate method, less a provision for impairment loss. An allowance for impairment loss is established for trade receivables when there is objective evidence that the Company will not be able to collect all the amounts which are owed to it, according to the original terms of receivables.

Implicit interest in installment sales is recognized as interest income when interest is accrued over the term of the operation.

3.18 Inventory measurement

The Company states inventories for the lower of cost and net realizable value. The cost price of finished products and products in progress includes the direct cost of materials and, when applicable, labor costs, indirect costs incurred to transform raw materials into finished products, and general expenses incurred in carrying inventories to their current location and conditions. The method used to determine the cost of inventories is weighted average cost.

Commercial discounts, rebates obtained, and other similar entries are deducted in the determination of the acquisition price.

The net realizable value represents the estimate of the sales price, less all finishing estimated costs and costs which will be incurred in commercialization, sales, and distribution processes.

The Company conducts an evaluation of the net realizable value of inventories at the end of each year, recording an estimate with a charge to income when these are overstated. When a situation arises whereby the circumstances, which previously caused the rebate to cease to exist, or when there is clear evidence of an increase in the net realizable value due to a change in the economic circumstances or prices of main raw materials, the estimate made previously is modified.

SQM S.A.

El Trovador 4285,

Las Condes, Santiago, Chile 36

Tel: (56 2) 2425 2000

Notes to the Consolidated Financial Statements as of September 30, 2015.

Note 3 Significant accounting policies (continued)

3.18 Inventory measurement, continued

The valuation of obsolete, impaired or slow-moving products relates to their net estimated, net realizable value.

Provisions on the Company's inventories have been made based on a technical study which covers the different variables which affect products in stock (density and humidity, among others).

Raw materials, supplies and materials are recorded at the lower of acquisition cost or market value. Acquisition cost is calculated according to the average price method.

3.19 Investments in associates and joint ventures

Interests in companies on which joint control is exercised (joint venture) or where an entity has significant influence (associates) are recognized using the equity method of accounting. Significant influence is presumed to exist when interest greater than 20% is held in the capital of an investee.

Under this method, the investment is recognized in the statement of financial position at cost plus changes, subsequent to the acquisition, and considering the proportional share in the equity of the associate. For such purposes, the interest percentage in the ownership of the associate is used. The associated goodwill acquired is included in the carrying amount of the investee and is not amortized. The debit or credit to profit or loss reflects the proportional share in the profit or loss of the associate.

Unrealized gains for transactions with affiliates or associates are eliminated considering the interest percentage the Company has on such entities. Unrealized losses are also eliminated, except if the transaction provides evidence of impairment loss of the transferred asset.

Changes in the equity of associates are recognized considering the proportional amounts with a charge or credit to

"Other reserves" and classified considering their origin.

Reporting dates of the associate, the Company and related policies are similar for equivalent transactions and events

under similar circumstances.

In the event that the significant influence is lost or the investment is sold or is held as available for sale, the equity

method is discontinued, suspending the recognition of proportional share of profit or loss.

If the resulting amount according to the equity method is negative, the share of profit or loss is reflected at zero value

in the consolidated financial statements, unless a commitment exists by the Company to reinstate the Company's

equity position, in which case the related provision for risks and expenses is recorded.

Dividends received by these companies are recorded by reducing the equity value, and the proportional share of profit or loss recognized in conformity with the share of equity are included in the consolidated profit or loss accounts in the

caption "Equity share of profit (loss) of associates and joint ventures that are accounted for using the equity method of

accounting".

Notes to the Consolidated Financial Statements as of September	r 30	, 2015.
--	------	---------

Note 3 Significant accounting policies (continued)

3.22 Property, plant and equipment, continued

The replacement of full assets, which increase the asset's useful life or its economic capacity, are recorded as a higher value of property, plant and equipment with the related derecognition of replaced or renewed elements.

Based on the impairment analysis conducted by the Company's management, it has been considered that the carrying value of assets does not exceed the net recoverable value of such assets.

Gains or losses which are generated from the sale or disposal of property, plant and equipment are recognized as income (or loss) in the period, and calculated as the difference between the asset's sales value and its net carrying value.

Costs derived from daily maintenance of property, plant and equipment are recognized when incurred.

3.23 Depreciation of property, plant and equipment

Property, plant and equipment are depreciated through the straight-line distribution of cost over the estimated technical useful life of the asset which is the period in which the Company expects to use the asset. When components of one item of property, plant and equipment have different useful lives, they are recorded as separate assets. Useful lives are reviewed on an annual basis.

The useful lives used for the depreciation and amortization of assets included in property, plant and equipment are presented below.

Edgar Filing: CHEMICAL & MINING CO OF CHILE INC - Form 6-K

Types of property, plant and equipment	Minimum life or rate	maximum life or rate
Buildings	3	60
Plant and equipment	3	35
Information technology equipment	3	10
Fixtures and fittings	3	35
Motor vehicles	5	10
Other property, plant and equipment	2	30

El Trovador 4285,

Las Condes, Santiago, Chile 39

Tel: (56 2) 2425 2000

Notes to the Consolidated Financial Statements as of September 30, 2015.

Note 3 Significant accounting policies (continued)

3.24 Goodwill

Goodwill acquired represents the excess in acquisition cost on the fair value of the Company's ownership of the net identifiable assets of the subsidiary on the acquisition date. Goodwill acquired related to the acquisition of subsidiaries is included in goodwill, which is subject to impairment tests every time consolidated financial statements are issued, and is stated at cost less accumulated impairment losses. Gains and losses related to the sale of an entity include the carrying value of goodwill related to the entity sold.

This intangible asset is assigned to cash-generating units with the purpose of testing impairment losses. It is allocated based on cash-generating units expected to obtain benefits from the business combination from which the aforementioned goodwill acquired arose.

3.25 Intangible assets other than goodwill

Intangible assets mainly relate to water rights, trademarks, and rights of way related to electric lines, development expenses, and computer software licenses.

(a) Water rights

Water rights acquired by the Company relate to water from natural sources and are recorded at acquisition cost. Given that these assets represent legal rights granted in perpetuity to the Company, they are not amortized, but are subject to annual impairment tests.

(b) Right of way for electric lines

As required for the operation of industrial plants, the Company has paid rights of way in order to install wires for the different electric lines in third party land. These rights are presented under intangible assets. Amounts paid are capitalized at the date of the agreement and charged to income, according to the life of the right of way.

(c) Computer software

Licenses for IT programs acquired are capitalized based on costs that have been incurred to acquire them and prepare them to use the specific program. These costs are amortized over their estimated useful lives.

Expenses related to the development or maintenance of IT programs are recognized as an expense as and when incurred. Costs directly related to the production of unique and identifiable IT programs controlled by the Group, and which will probably generate economic benefits that are higher than costs during more than a year, are recognized as intangible assets. Direct costs include expenses incurred for employees who develop IT programs and an adequate percentage of general expenses.

The costs of development for IT programs recognized as assets are amortized over their estimated useful lives.

El Trovador 4285,

Las Condes, Santiago, Chile 40

Tel: (56 2) 2425 2000

Notes to the Consolidated Financial Statements as of September 30, 2015.

Note 3 Significant accounting policies (continued)

3.25 Intangible assets other than goodwill, continued

(d) Mining property and concession rights

The Company holds mining property and concession rights from the Chilean Government. Property rights are usually obtained with no initial cost (other than the payment of mining patents and minor recording expenses) and upon obtaining rights on these concessions, these are retained by the Company while annual patents are paid. Such patents, which are paid annually, are recorded as prepaid assets and amortized over the following twelve months. Amounts attributable to mining concessions acquired from third parties that are not from the Chilean Government are recorded at acquisition cost within intangible assets.

No impairment of intangible assets exists as of September 30, 2015 and December 31, 2014.

3.26 Research and development expenses

Research and development expenses are charged to profit or loss in the period in which the disbursement was made.

3.27 Prospecting expenses

The Company has mining property and concession rights from the Chilean Government and acquired from third parties other than the Chilean Government, destined to the exploitation of caliche ore and saltpeter deposits and also the exploration of this type of deposits.

Upon obtaining these rights, the Company initially records disbursements directly associated with the exploration and evaluation of deposits (associated with small deposits with trading feasibility) as asset at cost. Such disbursements include the following concepts:

- -Disbursements for geological reconnaissance evaluation
- -Disbursements for drilling
- -Disbursements for drilling work and sampling
- -Disbursements for activities related to technical assessment and trading feasibility of drilling work
- And any disbursement directly related to specific projects where its objective is finding mining resources.

Subsequently, the Company distinguishes exploration and evaluation projects according to the economic feasibility of the mineral extracted in the area or exploration, among those that finally will deliver future benefits to the Company (profitable projects) and those projects for which it is not probable that economic benefit will flow to the Company in the future (i.e., when the mine site has low ore grade and its exploitation is not economically profitable).

SQM S.A.

El Trovador 4285,

Las Condes, Santiago, Chile 41

Tel: (56 2) 2425 2000

Notes to the Consolidated Financial Statements as of September 30, 2015.

Note 3 Significant accounting policies (continued)

3.27 Prospecting expenses, continued

If technical studies determine that the ore grade is not economically suitable for exploitation, the asset is directly expensed. Otherwise, it is held in the caption "other non-current assets", reclassifying the portion related to the area to be exploited in the year in the caption inventories and such amount is amortized as production cost on the basis of estimated tons to be extracted.

The technical reasons for this classification correspond to the fact that this is an identifiable non-monetary asset that is owned to be used in the production of our processes as a main raw material.

Paragraph 17 of IFRS 6 establishes that an asset for exploitation and evaluation should be classified as such when it loses the technical feasibility and trading feasibility for extraction and, therefore, must be impaired. For this reason and because our disbursements correspond to proven reserves with a trading feasibility and used as main raw material in our production processes, these are presented as inventories that will be exploited within the commercial year and the remainder as development expenses for small deposits and prospecting expenses in the caption "other non-current assets".

3.28 Impairment of non-financial assets

Assets subject to depreciation and amortization are subject to impairment testing, provided that an event or change in the circumstances indicates that the amounts in the accounting records may not be recoverable. An impairment loss is recognized for the excess of the book value of the asset over its recoverable amount.

The recoverable amount of an asset is the higher between the fair value of an asset or cash generating unit ("CGU") less costs of sales and its value in use, and is determined for an individual asset unless the asset does not generate any cash inflows that are clearly independent from other assets or groups of assets.

When the carrying value of an asset exceeds its recoverable amount, the asset is considered an impaired asset and is reduced to its net recoverable amount.

In evaluating value in use, estimated future cash flows are discounted using a discount rate before taxes which reflects current market evaluation on the time value of money and specific asset risks.

To determine the fair value less costs to sell, an appropriate valuation model is used.

Impairment losses from continuing operations are recognized with a debit to profit or loss in the categories of expenses associated with the impaired asset function, except for properties reevaluated previously where the revaluation was taken to equity.

As of September 30, 2015 and December 31, 2014, the Company was unaware of any indication of impairment with respect to its assets, as explained in Note 14.

SQM S.A.

El Trovador 4285,

Las Condes, Santiago, Chile 42

Tel: (56 2) 2425 2000

Notes to the Consolidated Financial Statements as of September 30, 2015.

Note 3 Significant accounting policies (continued)

3.28 Impairment of non-financial assets, continued

For assets other than acquired goodwill, an annual evaluation is conducted of whether there are impairment loss indicators recognized previously that might have already decreased or ceased to exist. The recoverable amount is estimated if such indicators exist. An impairment loss previously recognized is reversed only if there have been changes in estimates used to determine the asset's recoverable amount from the last time in which an impairment loss was recognized. If this is the case, the carrying value of the asset is increased to its recoverable amount. This increased amount cannot exceed the carrying value that would have been determined net of depreciation if an asset impairment loss would have not been recognized in prior years. This reversal is recognized with a credit to profit or loss unless an asset is recorded at the revalued amount. Should this be the case, the reversal is treated as an increase in revaluation.

3.29 Minimum dividend

As required by the Shareholders' Corporations Act, unless decided otherwise by the unanimous vote by the shareholders of subscribed and paid shares, a public company must distribute dividends as agreed by the shareholders at the General Shareholders' Meeting held each year with a minimum of 30% of its profit, except when the Company records unabsorbed losses from prior years. However, the Company defines as policy the distribution of 50% of its profit for the year.

3.30 Earnings per share

The net basic earnings per share amounts are calculated by dividing profit for the year attributable to ordinary owners of the parent by the weighted average number of ordinary shares outstanding during the year.

The Company has not conducted any type of operation of potential dilutive effect that assumes diluted earnings per share other than the basic earnings per share.

3.31 Trade and other payables

Trade and other payables are measured at fair value plus all costs associated with the transaction. Subsequently, these are carried at amortized cost using the effective interest rate method.

SQM S.A.

El Trovador 4285,

Las Condes, Santiago, Chile 43

Tel: (56 2) 2425 2000

Note 3 Significant accounting policies (continued)

3.32

Interest-bearing borrowings

At initial recognition, interest-bearing borrowings are measured at fair value. Subsequently, they are measured at amortized cost using the effective interest rate method. Amortized cost is calculated considering any premium or discount from the acquisition and includes costs of transactions which are an integral part of the effective interest rate.

These are recorded as non-current when their expiration period exceeds twelve months and as current when the term is lower than such term. Interest expense is calculated in the year in which they are accrued following a financial criterion.

3.33

Other provisions

Provisions are recognized when:

- -The Company has a present obligation as the result of a past event.
- -It is more likely than not that certain resources must be used, including benefits, to settle the obligation.
- A reliable estimate can be made of the amount of the obligation.

In the event that the provision or a portion of it is reimbursed, the reimbursement is recognized as a separate asset solely if there is certainty of income.

In the consolidated statement of income, the expense for any provision is presented net of any reimbursement.

Should the effect of the time value of money be significant, provisions are discounted using a discount rate before tax that reflects the liability's specific risks. When a discount rate is used, the increase in the provision over time is recognized as a finance cost.

The Company's policy is maintaining provisions to cover risks and expenses based on a better estimate to deal with possible or certain and quantifiable responsibilities from current litigation, compensations or obligations, pending expenses for which the amount has not yet been determined, collaterals and other similar guarantees for which the Company is responsible. These are recorded at the time the responsibility or the obligation that determines the compensation or payment is generated.

SQM S.A.

El Trovador 4285,

Las Condes, Santiago, Chile 44

Tel: (56 2) 2425 2000

Notes to the Consolidated Financial Statements as of September 30, 2015.

Note 3 Significant accounting policies (continued)

3.34 Obligations related to employee termination benefits and pension commitments

Obligations with the Company's employees are in accordance with that established in the collective bargaining agreements in force, formalized through collective employment agreements and individual employment contracts, except for the United States that is regulated in accordance with employment plans in force up to 2002.

These obligations are valued using actuarial calculations, according to the projected unit credit method which considers such assumptions as the mortality rate, employee turnover, interest rates, retirement dates, effects related to increases in employees' salaries, as well as the effects on variations in services derived from variations in the inflation rate. This, considering criteria in force contained in the revised IAS 19.

Actuarial gains and losses that may be generated by variations in defined, pre-established obligations are directly recorded in profit or loss for the year and not within "other comprehensive income," considering their insignificant amount.

Actuarial losses and gains have their origin in departures between the estimate and the actual behavior of actuarial assumptions or in the reformulation of established actuarial assumptions.

The discount rate used by the Company for calculating the obligation was 4.81% and 5.5% for the periods ended September 30, 2015 and December 31, 2014, respectively.

The Company's subsidiary SQM North America has established pension plans for its retired employees that are calculated by measuring the projected obligation using a net salary progressive rate net of adjustments for inflation, mortality and turnover assumptions, deducting the resulting amounts at present value using a 5.5% interest rate for 2015 and 2014. The net balance of this obligation is presented under the non-current provisions for employee benefits.

Compensation plans implemented through benefits in share-based payments settled in cash, which have been provided, are recognized in the financial statements at their fair value, in accordance with International Financial Reporting Standards No. 2 "Share-based Payments." Changes in the fair value of options granted are recognized with a charge to payroll on a straight-line basis during the period between the date on which these options are granted and the payment date (see Note 16).

3.36

Revenue recognition

Revenue includes the fair value of considerations received or receivable for the sale of goods and services during performance of the Company's activities. Revenue is presented net of value added tax, estimated returns, rebates and discounts and after the elimination of sales among subsidiaries.

SQM S.A.

El Trovador 4285,

Las Condes, Santiago, Chile 45

Tel: (56 2) 2425 2000

Notes to the Consolidated Financial Statements as of September 30, 2015.

Note 3 Significant accounting policies (continued)

3.36 Revenue recognition, continued

Revenue is recognized when its amount can be stated reliably. It is possible that the future economic rewards will flow to the entity and the specific conditions for each type of activity related revenue are complied with, as follows:

(a) Sale of goods

The sale of goods is recognized when the Company has delivered products to the customer, and there is no obligation pending compliance that could affect the acceptance of products by the customer. The delivery does not occur until products have been shipped to the customer or confirmed as received by customers. When the related risks of obsolescence and loss have been transferred to the customer and the customer has accepted products in accordance with the conditions established in the sale, when the acceptance period has ended, or when there is objective evidence that those criteria required for acceptance have been met.

Sales are recognized in consideration of the price set in the sales agreement, net of volume discounts and estimated returns at the date of the sale. Volume discounts are evaluated in consideration of annual foreseen purchases and in accordance with the criteria defined in agreements.

(b) Sale of services

Revenue associated with the rendering of services is recognized considering the degree of completion of the service as of the date of presentation of the consolidated classified statement of financial position, provided that the result from the transaction can be estimated reliably.

(c)Interest income

Interest income is recognized when interest is accrued in consideration of the principal pending payment using the effective interest rate method.

(d)Income from dividends

Income from dividends is recognized when the right to receive the payment is established.

3.37

Finance income and finance costs

Finance income is mainly composed of interest income in financial instruments such as term deposits and mutual fund deposits. Interest income is recognized in profit or loss at amortized cost, using the effective interest rate method.

Finance costs are mainly composed of interest on bank borrowing expenses, interest on bonds issued and interest capitalized for borrowing costs for the acquisition, construction or production or qualifying assets.

Borrowing costs and bonds issued are recognized in profit or loss using the effective interest rate method.

SOM S.A.

El Trovador 4285,

Las Condes, Santiago, Chile 46

Tel: (56 2) 2425 2000

Notes to the Consolidated Financial Statements as of September 30, 2015.

Note 3 Significant accounting policies (continued)

3.37 Finance income and finance costs, continued

For finance costs accrued during the construction period that are directly attributable to the acquisition, construction or production of qualifying assets, the effective interest rate related to the project's specific financing is used. If none exist, the average financing rate of the subsidiary that makes the investment is utilized. Borrowing and financing costs that are directly attributable to the acquisition, construction or production of an asset are capitalized as part of that asset's cost.

3.38

Income tax and deferred taxes

Corporate income tax for the year is determined as the sum of current taxes from the different consolidated companies.

Current taxes are based on the application of the various types of taxes attributable to taxable income for the year.

Differences between the book value of assets and liabilities and their tax basis generate the balance of deferred tax assets or liabilities, which are calculated using the tax rates expected to be applicable when the assets and liabilities are realized.

In conformity with current Chilean tax regulations, the provision for corporate income tax and taxes on mining activity is recognized on an accrual basis, presenting the net balances of accumulated monthly tax provisional payments for the fiscal period and associated credits. The balances of these accounts are presented in current income taxes recoverable or current taxes payable, as applicable.

Tax on companies and variations in deferred tax assets or liabilities that are not the result of business combinations are recorded in statement of income accounts or equity accounts in the consolidated statement of financial position, considering the origin of the gains or losses which have generated them.

At each reporting period, the carrying amount of deferred tax assets has been reviewed and reduced to the extent there will not be sufficient taxable income to allow the recovery of all or a portion of the deferred tax assets. Likewise, as of the date of the consolidated financial statements, deferred tax assets that are not recognized were evaluated and not recognized as it was more likely than not that future taxable income will allow for recovery of the deferred tax asset.

With respect to deductible temporary differences associated with investments in subsidiaries, associated companies and interest in joint ventures, deferred tax assets are recognized solely provided that it is more likely than not that the temporary differences will be reversed in the near future and that there will be taxable income with which they may be used.

The deferred income tax related to entries directly recognized in equity is recognized with an effect on equity and not with an effect on profit or loss.

SOM S.A.

El Trovador 4285,

Las Condes, Santiago, Chile 47

Tel: (56 2) 2425 2000

Notes to the Consolidated Financial Statements as of September 30, 2015.

Note 3 Significant accounting policies (continued)

3.38 Income tax and deferred taxes, continued

Deferred tax assets and liabilities are offset if there is a legally receivable right of offsetting tax assets against tax liabilities and the deferred tax is related to the same tax entity and authority.

In accordance with the instructions issued by the Chilean Superintendence of Securities and Insurance in its Circular No. 856 of October 17, 2014, the effects generated by the change in the income tax rate approved by Law No. 20,780 (the Tax Reform) on income and deferred taxes, which in accordance with IAS 12 should be charged to profit or loss for the period, have been accounted for as retained earnings. Subsequent amendments will be recognized in profit or loss for the period in accordance with IAS 12.

3.39

Segment reporting

IFRS 8 requires that companies adopt a "management approach" to disclose information on the operations generated by its operating segments. In general, this is the information that management uses internally for the evaluation of segment performance and making the decision on how to allocate resources for this purpose.

An operating segment is a group of assets and operations responsible for providing products or services subject to risks and performance different from those of other business segments. A geographical segment is responsible for providing products or services in a given economic environment subject to risks and performance different from those of other segments that operate in other economic environments.

For assets and liabilities the allocation to each segment is not possible given that these are associated with more than one segment, except for depreciation, amortization and impairment of assets, which are directly allocated to the applicable segments, in accordance with the criteria established in the costing process for product inventories.

The following operating segments have been identified by the Company:

- -Specialty plant nutrients
- -Industrial chemicals
- -Iodine and derivatives
- -Lithium and derivatives
- -Potassium
- -Other products and services

3.40 Environment

In general, the Company follows the criteria of considering amounts used in environmental protection and improvement as environmental expenses. However, the cost of facilities, machinery and equipment used for the same purpose are considered property, plant and equipment, as the case may be.

Note 4 Financial risk management

4.1 Financial risk management policy

The Company's financial risk management policy is focused on safeguarding the stability and sustainability of Sociedad Química y Minera de Chile S.A. and its subsidiaries with regard to all such relevant financial uncertainty components.

The Company's operations are subject to certain financial risk factors that may affect its financial position or results. The most significant risk exposures are market risk, liquidity risk, currency risk, doubtful accounts risk, and interest rate risk, among others.

Potentially, additional known or unknown risks may exist, of which we currently deem not to be significant, which could also affect the Company's business operations, its business, financial position, or profit or loss.

The financial risk management structure includes identifying, determining, analyzing, quantifying, measuring and controlling these events. Management and, in particular, Finance Management, is responsible for constantly assessing the financial risk. The Company uses derivatives to hedge a significant portion of those risks.

Notes to the Consolidated Financial Statements as of September 30, 2015.

Note 4 Financial risk management, continued

4.2 Risk factors

4.2.1 Market risk

Market risk refers to the uncertainty associated with fluctuations in market variables affecting the Company's assets and liabilities, including:

Country risk: The economic situation of the countries where the Company operates may affect its financial position. For example, sales conducted in emerging markets expose SQM to risks related to economic conditions and trends in those countries. In addition, inventories may also be affected by the economic scenario in such countries and/or the global economy, among other probable economic impacts.

<u>Price risk</u>: The Company's product prices are affected by the fluctuations in international prices of fertilizers and b)chemicals, as well as changes in productive capacities or market demand, all of which might affect the Company's business, financial position and results of operations.

c) Commodity price risk: The Company is exposed to changes in commodity prices and energy which may have an impact on its production costs that may cause unstable results.

As of to-date, the SQM Group incurs an annual expenditure of approximately US\$134 million associated with fuel, gas, energy and equivalents and approximately US\$56 million related to direct electrical supply consumption. A change of 10% in the prices of energy required for the Company's operations may involve costs of approximately US\$13 million in short-term movements.

As stated in the Company's annual report, the markets in which the Company operates are unpredictable, exposed to significant fluctuations in supply and demand, and price high volatility. Additionally, the supply of certain fertilizers or chemicals, including certain products which the Company trades, vary mainly depending on the production of top producers and their related business strategies. Accordingly, the Company cannot forecast with certainty changes in demand, responses from competitors or fluctuations in the final price of its products. These factors can lead to significant impacts on the Company's product sales volumes, financial position and share price.

<u>Quality standards</u>: In the markets in which we operate, customers might impose quality standards on our products and/or governments could enact more stringent standards for the distribution and/or use of our products.

Consequently, we might not be able to sell our products if we are not able to meet those new standards. In addition, our production costs might increase to meet such new standards. Not being able to sell our products in one or more markets or to key customers might significantly affect our business, financial position or the results of our operations.

Notes to the Consolidated Financial Statements as of September 30, 2015.

Note 4 Financial risk management, continued

4.2.2

Doubtful accounts risk

A contraction of the global economy and the potentially adverse effects in the financial position of our customers may extend the receivables recovery period for SQM, increasing its exposure to doubtful account risk. While measures have been taken to minimize such risk, the global economic situation may result in losses that might have a material adverse effect on the Company's business, financial position or results of operations.

To mitigate these risks, SQM actively controls debt collection and has established certain safeguards which include loan insurance, letters of credit, and prepayments for a portion of receivables.

4.2.3 Currency risk

As a result of its influence on price level determination as well as its relationship with cost of sales, and since a significant portion of the Company's business transactions are performed in that foreign currency, the functional currency of SQM is the United States dollar. However, the global business activities of the Company expose it to the foreign exchange fluctuations of several currencies with respect to the value of the U.S. dollar. Accordingly, SQM has entered into hedge contracts to mitigate the exposure generated by its main mismatches (assets, net of liabilities) in currencies other than the U.S. dollar against the foreign exchange fluctuation. These contracts are periodically updated depending on the mismatch amount to be hedged in such currencies. Occasionally, and subject to the Board of Directors' approval, in the short-term the Company insures cash flows from certain specific items in currencies other than the U.S. dollar.

A significant portion of the Company's costs, particularly payroll, is denominated in Chilean pesos. Accordingly, an increase or decrease in the exchange rate against the U.S. dollar would affect the Company's profit for the period. Approximately US\$ 338 million of the Company's costs are denominated in Chilean pesos. A significant portion of the effect of such obligations on the statement of financial position is hedged by derivative instrument transactions on the balance mismatch in such currency.

As of September 30, 2015, the Company recorded derivative instruments classified as currency and interest rate hedges associated with all the bonds payable, denominated in UF, with a fair value of US\$72 million against SQM. As of December 31, 2014, this amounts to US\$37 million in favor SQM.

As of September 30, 2015, the Chilean peso to U.S. dollar exchange rate was Ch\$698.72 per US\$1.00 (Ch\$ 606.75 per US\$ 1.00 as of December 31, 2014).

Notes to the Consolidated Financial Statements as of September 30, 2015.

Note 4 Financial risk management, continued

4.2.4 Interest rate risk

Interest rate fluctuations, primarily due to the uncertain future behavior of markets, may have a material impact on the financial results of the Company.

The Company has current and non-current debts valued at LIBOR, plus a spread. The Company is partially exposed to fluctuations in such rate, as SQM currently holds hedging derivative instruments to hedge a portion of its liabilities subject to the LIBOR rate fluctuations.

As of September 30, 2015, approximately 13% of the Company's financial liabilities are measured at LIBOR. Accordingly, any significant increase in this rate may have an impact on the Company's financial position. A 100 basic point variation in this rate may trigger variations in financial expenses of close to US\$ 0.3 million. However, this effect is significantly counterbalanced by the returns of the Company's investments that are also strongly related to LIBOR.

In addition, as of September 30, 2015, the Company's financial liabilities are mainly concentrated in the long-term and approximately 23% have maturities of less than 12 months, decreasing in the process the exposure to changes in interest rates.

4.2.5 Liquidity risk

Liquidity risk relates to the funds needed to comply with payment obligations. The Company's objective is to maintain financial flexibility through a comfortable balance between fund requirements and cash flows from regular business operations, bank borrowings, bonds, short term investments, and marketable securities, among others.

The Company has an important capital expense program which is subject to change over time.

On the other hand, world financial markets go through periods of contraction and expansion that are unforeseeable in the long-term and may affect SQM's access to financial resources. Such factors may have a material adverse impact on the Company's business, financial position and results of operations.

SQM constantly monitors the matching of its obligations with its investments, taking due care of maturities of both, from a conservative perspective, as part of this financial risk management strategy. As of September 30, 2015, the Company had unused, available revolving credit facilities with banks, for a total of approximately US\$440 million.

The position in other cash and cash equivalents generated by the Company are invested in highly liquid mutual funds with an AAA risk rating.

Note 4 Financial risk management, continued

4.3

Risk measurement

The Company has methods to measure the effectiveness and efficiency of financial risk hedging strategies, both prospectively and retrospectively. These methods are consistent with the risk management profile of the Group.

Note 5 Changes in accounting estimates and policies (consistent presentation)

5.1

Changes in accounting estimates

There are no changes in accounting estimates as of the closing date of the consolidated financial statements.

5.2

Changes in accounting policies

As of September 30, 2015, the Company's consolidated financial statements present no changes in accounting policies or estimates compared to the prior period.

The consolidated statements of financial position as of September 30, 2015 and December 31, 2014, and statements of the comprehensive income, changes in equity and cash flows for the periods ended September 30, 2015 and 2014, have been prepared in accordance with International Financial Reporting Standards (IFRS) except for that indicated in Note 2.2. and the principles and criteria have been applied consistently.

Assets 4,180,252 4,305,107 Liabilities (1,861,951) (2,065,271) Equity 2,318,301 2,239,836

6.2 Parent entity

As provided in the Company's by-laws, no shareholder can concentrate more than 32% of the Company's voting right shares and therefore there is no controlling entity.

6.3 Joint arrangements of controlling interest

Sociedad de Inversiones Pampa Calichera S.A., Potasios de Chile S.A., and Inversiones Global Mining (Chile) Limitada, collectively the Pampa Group, are the owners of a number of shares that are equivalent to 29.86% as of September 30, 2015 of the current total amount of shares issued, subscribed and fully-paid of the Company. In addition, Kowa Company Ltd., Inversiones La Esperanza (Chile) Limitada, Kochi S.A. and La Esperanza Delaware Corporation, collectively the Kowa Group, are the owners of a number of shares equivalent to 2.12% of the total amount of issued, subscribed and fully-paid shares of SQM S.A.

The Pampa Group and the Kowa Group have informed SQM S.A., the Chilean SVS and the relevant stock exchanges in Chile and abroad that they are not and have never been related parties between them. In addition, this is regardless of the fact that both Groups on December 21, 2006 have entered into a Joint Action Agreement (JAA) related to those shares. Consequently, the Pampa Group, by itself, does not concentrate more than 32% of the voting right capital of SQM S.A., and the Kowa Group does not concentrate by itself more than 32% of the voting right capital of SQM S.A..

Likewise, the Joint Action Agreement has not transformed the Pampa and Kowa Groups into related parties between them. The Joint Action Agreement has only transformed the current controller of SQM S.A., composed of the Pampa Group, and the Kowa Group into related parties of SQM S.A.

Notes to the Consolidated Financial Statements as of September 30, 2015.

Note 6 Background of companies included in consolidation (continued)

6.7 Detail of transactions between consolidated companies

a) Transactions conducted in 2015

On August 5, 2015, the subsidiary SQM Brasil Ltda. made a capital contribution of ThUS\$572 in its subsidiary Nitratos Naturais do Chile Ltda. As a result of such transaction, SQM Brasil Ltda. increased its interest from 0.001% to 70.82% in such company. SQM Industrial S.A. was not involved in such capital increase, decreasing its interest from 99.99% to 29.18%. This generated no effects on the consolidated profit or loss of SQM S.A.

b) Transactions conducted in 2014

On November 21, 2014, at the Extraordinary Shareholders' Meeting, the shareholders of the subsidiary Orcoma Estudios SPA agreed to increase share capital from US\$1,500, divided into 150,000 same-series fully paid and subscribed shares to US\$4,631,507, divided into 196,229 same-series shares with no par value. SQM was not involved in such capital increase decreasing its interest in such company to 51%.

On December 18, 2014, at the General Shareholders' Meeting of the subsidiary SQM Ecuador S.A., the shareholders agreed to absorb the Company's accumulated deficit totaling US\$ 455.

Note 8 Inventories

The composition of inventory at each period-end is as follows:

True of inventors	09/30/2015	12/31/2014	
Type of inventory	ThUS\$	ThUS\$	
Raw material reserves	10,394	9,540	
Supplies for production reserves	28,347	30,398	
Products-in-progress reserves	487,267	453,816	
Finished product reserves	472,188	425,849	
Total	998,196	919,603	

Inventory reserves recognized as of September 30, 2015 amount to ThUS\$81,657, and ThUS\$82,966 as of December 31, 2014. Inventory reserves have been made based on a technical study that covers the different variables affecting products in stock (density and humidity, among others). Additionally, reserves are recognized if goods are sold cheaper than the related cost, and for differences that arise from inventory counts.

As of September 30, 2015, the sum registered as cost of sale related to inventory in the statement of income amounts to ThUS\$780,082 and to ThUS\$670,971 as of September 30, 2014.

The breakdown of inventory reserves is detailed as follows:

Two of inventors	09/30/2015	12/31/2014	
Type of inventory	ThUS\$	ThUS\$	
Raw material reserves	93	93	
Supplies for production reserves	920	500	
Products-in-progress reserves	54,639	55,994	
Finished product reserves	26,005	26,379	
Total	81,657	82,966	

The Company has not delivered inventory as collateral for the periods indicated above.

Notes to the Consolidated Financial Statements as of September 30, 2015.

Note 9 Related party disclosures

9.1

Related party disclosures

Balances pending at period-end are not guaranteed, accrue no interest and are settled in cash. No guarantees have been delivered or received for trade and other receivables due from related parties or trade and other payables due to related parties. For the period ended September 30, 2015, the Company has not recorded any impairment in accounts receivable related to amounts owed by related parties. This evaluation is conducted every year through an examination of the financial position of the related party in the market in which it operates.

9.2 Relationships between the parent and the entity

According to the Company's by-laws, no shareholder can own more than 32% of the Company's voting right shares.

Sociedad de Inversiones Pampa Calichera S.A., Potasios de Chile S.A., and Inversiones Global Mining (Chile) Ltda., collectively the Pampa Group, are the owners of a number of shares that are equivalent to 29.86% as of September 30, 2015 of the current total amount of shares issued, subscribed and fully-paid of the Company. In addition, Kowa Company Ltd., Inversiones La Esperanza (Chile) Limitada, Kochi S.A. and La Esperanza Delaware Corporation, collectively the Kowa Group, are the owners of a number of shares equivalent to 2.12% of the total amount of shares of SQM S.A. issued, subscribed and fully-paid.

The Pampa Group and the Kowa Group have informed SQM S.A., the Chilean SVS and the relevant stock exchanges in Chile and abroad that they are not and have never been related parties between them. In addition, this is regardless of the fact that both Groups on December 21, 2006 have entered into a Joint Action Agreement (JAA) related to those shares. Consequently, the Pampa Group, by itself, does not concentrate more than 32% of the voting right capital of SQM S.A., and the Kowa Group does not concentrate by itself more than 32% of the voting right capital of SQM S.A.

Likewise, the Joint Action Agreement has not transformed the Pampa and Kowa Groups into related parties between them. The Joint Action Agreement has only transformed the current controller of SQM S.A., composed of the Pampa Group, and the Kowa Group into related parties of SQM S.A.

Detail of effective concentration

9.4 Detail of related parties and related party transactions

Transactions between the Parent and its subsidiaries are part of the Company's common transactions. Their conditions are those customary for this type of transactions in respect of terms and market prices. In addition, these have been eliminated in consolidation and are not detailed in this note.

Maturity terms for each case vary by virtue of the transaction giving rise to them.

As of September 30, 2015 and December 31, 2014, there are no allowances for doubtful accounts related to balances pending of transactions with related parties as there is no impairment in them.

As of September 30, 2015 and December 31, 2014, the detail of transactions with related parties is as follows:

9.7 Board of Directors and Senior Management

1) Board of directors

The Company is managed by a Board of Directors which is composed of eight regular directors y 2 of the Company's independent directors, who are elected for a three-year period. The present Board of Directors was elected by the shareholders at the Ordinary Shareholders' Meeting of April 24, 2015.

1.1 Shearman & Sterling and Ad-Hoc Committee

At its Extraordinary Meeting of February 26, 2015, the Board of Directors formed an Ad-Hoc Committee, which is currently composed of the Directors Robert A. Kirkpatrick, Wolf von Appen B. and the Chairman Edward J. Waitzer. The Board of Directors delegated in the Committee the authority required to perform its duties and empowered it so that at its discretion engages all legal and accounting advisory required and other independent external advisory services as it deems appropriate and that upon performing its duties reports to the Board of Directors on its conclusions and possible recommendations for courses of action. The Committee engaged the legal Advisory of the law firms Shearman & Sterling and Vial / Serrano, and the forensic services provided by FTI.

As of September 30, 2015, the Company has the following Committees:

Directors' Committee: composed of Hernán Büchi B., Hans Dieter Linneberg A. and Edward J. Waitzer. Such Committee performs the duties contained in Article 50 bis of Law No. 18.046, the Chilean "Securities Act".

- Audit Committee: composed of Hernán Büchi B., Hans Dieter Linneberg A. and Edward J. Waitzer.

Health, Safety and Environmental Matters Committee: composed of Mrs. Joanne L. Boyes and Arnfinn F. Prugger and Wolf von Appen B.

- Ad-Hoc Committee: composed of Robert A. Kirkpatrick, Wolf von Appen B. and Edward J. Waitzer.

-Corporate Governance Committee: composed of Robert A. Kirkpatrick, Dieter Linneberg A. and Edward J. Waitzer.

During the periods covered by these financial statements, there are no pending balances receivable and payable between the Company, its directors or members of Senior Management other than those related to remuneration, fee allowances and profit-sharing. In addition, there were no transactions conducted between the Company, its directors or members of Senior Management.

SQM S.A.

Notes to the Consolidated Financial Statements as of September 30, 2015.
Note 9 Related party disclosures (continued)
9.7 Board of Directors and Senior Management, continued
2) Directors' Compensation
Directors' compensation is detailed as follows:
A payment of a monthly fixed gross amount of UF 300 in favor of the Chairman of the Company's Board of a)Directors and UF 200 in favor of the seven remaining board members regardless of their attendance at Board meetings or the number of meetings attended during the respective month.
A payment in domestic currency in favor of the Chairman of the Company's Board of Directors consisting of a b) variable and gross amount equivalent to 0.135% of profit for the period effectively earned by the Company during fiscal year 2015.
A payment in domestic currency in favor of each Company's directors excluding the Chairman of the Board, c)consisting of a variable and gross amount equivalent to 0.06% of profit for the period effectively earned by the Company during fiscal years 2015.
The fixed and variable amounts indicated above will not be subject to any charge between them, and those d)expressed as a percentage will be paid immediately after the shareholders at the respective Annual General Shareholders' Meeting of the Company approve the statement of
financial position (balance sheet), the financial statements, the annual report, the report by the account inspectors and the report of external auditors for the fiscal years ending December 31, 2015.
e) Therefore, the remunerations and profit sharing paid to members of the Board of Directors and Audit Committee during 2015 amount to ThUS\$3,303 (ThUS\$ 3,424 as of December 31, 2014).

3) Audit Committee

The remuneration of Directors Committee is composed of:

a) A payment of a monthly, fixed and gross amount of UF 75 in favor of each of the three Directors who are a part of the Company's Audit Committee, regardless of the number of meetings conducted during the respective month.

A payment in domestic currency and in favor of each of the three Directors of a variable and gross amount b)equivalent to 0.02% of the Company's profit for the period effectively earned by the Company during fiscal year 2015.

4) Health, Safety and Environmental Matters Committee, Ad-Hoc Committee and other Company's Committees

Remuneration of such committees is composed of the payment of a fixed, gross, monthly amount of UF 50 for each director comprising such committees, regardless of the number of meetings held or not held during the related month or year.

5) No guarantees have been constituted in favor of the directors.

10.3 Hedging assets and liabilities, continued

Hedging liabilities	Derivative instruments (IRS)	Effect on profit or loss for the period derivative instruments		Hedging reserve n gross equity	Hedging reserve in equity
	ThUS\$	ThUS\$	Γ	ChUS\$	ThUS\$
September 30, 2015	715	(978)	422	422
December 31, 2014	736	(1,050)	557	557

The balances in the "effect on profit or loss" column consider the interim effects of the contracts in force As of September 30, 2015 and December 31, 2014.

Derivative contract maturities are detailed as follows:

Series	Contract amount ThUS\$	Currency	Maturity date
C	59,013	UF	12/01/2026
Н	191,638	UF	01/05/2018
M	46,463	UF	02/01/2017
O	68,339	UF	02/01/2017

The Company uses cross currency swap derivative instruments to hedge the possible financial risk associated with the volatility of the exchange rate associated with Chilean pesos and UF. The objective is to hedge the exchange rate financial risks associated with bonds payable. Hedges are documented and tested to measure their effectiveness.

Based on a comparison of critical terms, hedging is highly effective, given that the hedged amount is consistent with obligations maintained for bonds denominated in Chilean pesos and UF. Likewise, hedging contracts are denominated in the same currencies and have the same expiration dates of bond principal and interest payments.

Hedge Accounting

The Company classifies derivative instruments as hedging that may include derivative or embedded derivatives either as fair value hedge derivative instruments, cash flow hedge derivative instruments, or hedge derivative instruments for net investment in a business abroad.

a) Fair value hedge

Changes in fair values of derivative instruments classified as fair value hedge derivative instruments are accounted for in gains and losses immediately along with any change in the fair value of the hedged item that is attributable to the risk being hedged.

Tel: (56 2) 2425 2000

Note 10 Financial instruments (continued)

10.3 Hedging assets and liabilities, continued

The Company documents the relationship between hedge instruments and the hedged item along with the objectives of its risk management and strategy to carry out different hedging transactions. In addition, upon commencement of the period hedged and then on a quarterly basis the Company documents whether hedge instruments have been efficient and met the objective of hedging market fluctuations for the purpose of which we use the effectiveness test. A hedge instrument is deemed effective if the effectiveness test result is between 80% and 120%.

The hedge instruments are classified as effective or not effective on the basis of the effectiveness test results. As of to date, hedges are classified as effective on the basis of the effectiveness tests. This note includes the detail of fair values of derivatives classified as hedging instruments.

b) Cash flow hedges

Cash flow hedges cover exposure to the cash flow variations attributable to a risk associated with a specific transaction that is very likely to be executed, that may have material effects on the results of the Company.

10.4 Financial liabilities

Other current and non-current financial liabilities

As of September 30, 2015 and December 31, 2014, the detail is as follows:

	09/30/201	5		12/31/201

Single series bonds, second issue ThUS\$250,000

On April 21, 2010, the Company informed the Chilean Superintendence of Securities and Insurance of its placement in international markets of an unsecured bond of ThUS\$250,000 with a maturity of 10 years beginning on the aforementioned date with an annual interest rate of 5.5% and destined to refinance long-term liabilities.

As of September 30, 2015 and December 31, 2014, the detail of payments charged to the line of single series bonds, second issue is as follows:

09/30/2015 12/31/2014 Payments made ThUS\$ ThUS\$ Interest payment 6,875 13,750

Series "M" and "O" bonds

On April 4, 2012, the Company placed two bond series in the domestic market. Series M for UF 1,000,000 (ThUS\$46,601) was placed at a term of 5 years with a single payment at the maturity of the term and an annual interest rate of 3.3%, and Series O for UF 1,500,000 (ThUS\$69,901) was placed at a term of 21 years with a single payment at the maturity of the term and an annual interest rate of 3.80%

As of September 30, 2015, and December 31, 2014 the Company has made the following payments with a charge to the Series M and O bonds:

09/30/2015 12/31/2014 Payments made ThUS\$ ThUS\$

Payment of interest, Series M bonds 1,248 1,380 Payment of interest, Series O bonds 2,153 2,381

Single series bonds, third issue ThUS\$300,000

On April 3, 2013 in the United States, the Company issued a non-guaranteed bond with a value of US\$ 300 million. The bond is for a 10 year term with an annual coupon rate of 3.625% and an annual yield of 3.716%. This rate equates to a difference of 180 basis points to comparable US Treasury bonds. The funds raised will be used to refinance long term liabilities and finance general corporate objectives.

As of September 30, 2015 and December 31, 2014, the following payments have been made with a debit to the line of single-series bonds, third issue:

10.8

Fair value measurement of assets and liabilities

Financial assets and liabilities measured at fair value consist of Options and Forwards hedging the mismatch in the balance sheet and cash flows, Cross Currency Swaps (CCS) to hedge bonds issued in local currency (\$/UF), and Interest Rate Swaps (IRS) to hedge LIBOR rate debt issued.

The value of the Company's assets and liabilities recognized by CCS contracts is calculated as the difference between the present value of discounted cash flows of the asset (pesos/UF) and liability (US\$) parts of the derivative. In the case of the IRS, the asset value recognized is calculated as the difference between the discounted cash flows of the asset (variable rate) and liability (fixed rate) parts of the derivative. Forwards: Are calculated as the difference between the strike price of the contract and the spot price plus the forwards points at the date of the contract. Options: The value recognized is calculated using the Black-Scholes method.

In the case of CCS, the entry data used for the valuation models are UF, peso, and basis swap rates. In the case of fair value calculations for IRS, the FRA (Forward Rate Agreement) rate and ICVS 23 Curve (Bloomberg: cash/deposits rates, futures, swaps). In the case of forwards, the forwards curve for the currency in question is used. Finally, with options, the spot price, risk-free rate and volatility of exchange rate are used, all in accordance with the currencies used in each valuation. The financial information used as entry data for the Company's valuation models is obtained from Bloomberg, the well-known financial software company. Conversely, the fair value provided by the counterparties of derivatives contracts is used only as a control and not for valuation.

The effects on profit or loss of movements in these amounts may be recognized in the caption Finance costs, foreign currency translation gain (loss) or cash flow hedges in the statement of comprehensive income, depending on each particular case.

The fair value measurement of debt is only performed to determine the actual market value of guaranteed and non-guaranteed long-term obligations; bonds denominated in local currency (\$/UF) and foreign currency (US\$), credits denominated in foreign currency (US\$).

The value of the Company's reported liabilities is calculated as the present value of discounted cash flows at market rates at the time of valuation, taking into account the maturity date and exchange rate. The entry data used for the model includes the UF and peso rates, which are obtained using Bloomberg, the well-known financial software company and the 'Asociación de Bancos e Instituciones Financieras' (ABIF) (Association of Banks and Financial Institutions').

Financial assets pledged as guarantee

On November 4, 2004, Isapre Norte Grande maintains a guarantee equivalent to the total amount owed to its members and healthcare providers, which is managed and maintained by Banco de Chile.

As of September 30, 2015 and December 31, 2014, assets pledged as guarantees are as follows:

Restricted cash	09/30/2015 ThUS\$	12/31/2014 ThUS\$
Isapre Norte Grande Ltda.	702	682
Total	702	682

10.10 Estimated fair value of financial instruments and financial derivatives

As required by IFRS 7, the following information is presented for the disclosure of the estimated fair value of financial assets and liabilities.

Although inputs represent Management's best estimate, they are subjective and involve significant estimates related to the current economic and market conditions, as well as risk features.

Methodologies and assumptions used depend on the risk terms and characteristics of instruments and include the following as a summary:

- Cash equivalent approximates fair value due to the short-term maturities of these instruments.
- Other current financial liabilities are considered at fair value equal to their carrying values.

For interest-bearing liabilities with original maturity of more than a year, fair values are calculated at discounting contractual cash flows at their original current market with similar terms.

For forward and swap contracts, fair value is determined using quoted market prices of financial instruments with similar characteristics.

Other non-current financial liabilities:	1.351.689	1.524.874	1,574,225	1,801,951

Fair value hierarchy

Fair value hierarchies are as follows:

- a) Level 1: When only quoted (unadjusted) prices have been used in active markets.
- b) Level 2: When in a phase in the valuation process variable other than prices quoted in Level 1 have been used which are directly observable in markets.
- c) Level 3: When in a phase in the valuation process variable which are not based in observable market data have been used.

The valuation technique used to determine the fair value of our hedging instruments is that indicated for Level 2.

Nature and scope of risks arising from financing instruments

As indicated in paragraphs 33 to 42 of IFRS 7 the disclosure of information associated with the nature and scope of risks arising from financial instruments is presented in Note 4 - Financial Risk Management.

Notes to the Consolidated Financial Statements as of September 30, 2015.
Note 11 Investment in Associates (continued)
11.3 Other information
The Company has no participation in unrecognized losses in investments in associates.
The Company presents no investments unaccounted for according to the equity method of accounting.
The equity method was applied to the Statement of Financial Position as of September 30, 2015 and December 31, 2014.
The basis of preparation of the financial information of associates corresponds to the amounts included in the financial statements in conformity with the entity's IFRS.
Note 12 Joint Ventures
Policy for the accounting of equity accounted investment in joint ventures
The method for the recognition of joint ventures is that in which participation is initially recorded at cost, and subsequently adjusted, considering changes after the acquisition in the portion of the entity's net assets of the entity which correspond to the investor. Profit or loss for the period of the investor will collect the portion which belongs to it in the results of the controlled entity as a whole.

12.2

Disclosures of interest in joint ventures

a) Operations conducted in 2015

During June 2015, SQM Vitas Fzco. sold its interest in SQM Vitas Southern Africa Pty.

b) Operations conducted in 2014

During the second quarter of 2014, SQM Industrial S.A. received a reimbursement of capital amounting to ThUS\$2,011 from SQM Vitas Fzco, resulting in a decrease capital, and maintaining the interest in this Company.

Goodwill	Indefinite	38,388	-	38,388
Total intangible assets and goodwill		167,879	(14,756	153,123

a) Estimated useful lives or amortization rates used for finite identifiable intangible assets

Finite useful life measures the lifetime or the number of productive units or other similar variables which constitute its useful life.

The estimated useful life for software is 6 years, for other finite useful life assets the period in which they are amortized relates to periods defined by contracts or rights which generate them.

Intellectual property rights, patents and other industrial property rights, service and exploitation rights, mainly relate to water rights and are obtained as indefinite.

b) Method used to express the amortization of identifiable intangible assets (life or rate)

The method used to express the amortization is useful life, and estimated tons to be extracted in the case of mining claims.

SQM S.A.

El Trovador 4285,

Las Condes, Santiago, Chile 108

Tel: (56 2) 2425 2000

Note 13 Intangible assets and goodwill (continued)

13.2 Disclosures on intangible assets and goodwill, continued

c) Minimum and maximum amortization lives or rates of intangible assets:

Estimated useful lives or amortization rate	Minimum life or rate	Maximum life or rate
Intellectual property rights, patents and other industrial property rights, service and exploitation rights	Indefinite	Indefinite
Intangible assets other than goodwill	Indefinite	Indefinite
Intellectual property rights, patents and other industrial property rights, service and exploitation rights	1 year	16 years
Trademarks	1 year	5 years
Software	2 years	6 years

d) Information to be disclosed on assets generated internally

The Company has no intangible assets generated internally.

e) Other information to disclose on intangible assets

SQM has property rights and mining concessions of the Chilean Government, intended for the exploration and exploitation of saltpeter and brine. Such rights, have had no initial cost over registration costs, which are insignificant.

Also, SQM has acquired from third-parties other than the Chilean Government, mining concessions, which have been recognized at acquisition cost, which are amortized as the corresponding area is exploited based on the tons estimated to be extracted.

Expenses prior to obtaining the mining concessions are recognized in profit or loss for the year as incurred.

Notes to the Consolidated Financial Statements as of September 30, 2015.

Note 14 Property, plant and equipment (continued)

14.3 Detail of property, plant and equipment pledged as guarantee

There are no restrictions in title or guarantees for the compliance with obligations which affect property, plant and equipment.

14.4 Additional information

Interest capitalized in construction-in-progress:

The amount capitalized for this concept amounted to ThUS\$3,458 as of September 30, 2015 and ThUS\$ 7,732 as of December 31, 2014.

Financing costs are not capitalized for periods which exceed the normal term of acquisition, construction or installation of the asset, such as the case of delays, interruptions or temporary suspension of the project due to technical, financial or other issues, which prevent that the asset is maintained in good conditions for its use.

14.5 Impairment of assets

As stated in Note 3.28, the recoverable amount of property, plant and equipment is measured whenever there is an indication that the asset may be impaired. As of September 30, 2015 and December 31, 2014, no impairment adjustments were generated.

Note 15 Employee benefits

15.1

Provisions for employee benefits

Tel: (56 2) 2425 2000

Notes to the Consolidated Financial Statements as of September 30, 2015.

Note 15 Employee benefits (continued)

15.2 Policies on defined benefit plan

This policy is applied to all benefits received for services provided by the Company's employees.

Short-term benefits for active employees are represented by salaries, social welfare benefits, paid time-off, sickness leaves and other leaves, profit sharing and incentives and non-monetary benefits; e.g., healthcare service, housing, subsidized or free goods or services. These will be paid in a term which does not exceed twelve months.

The Company only provides compensation and benefits to active employees, with the exemption of SQM North America which applies the definitions under 15.4 below.

SQM maintains incentive programs for its employees based on the personal performance, the Company's performance and other short-term, mid-term and long-term indicators.

For each incentive bonus delivered to the Company's employees, there will be a disbursement in the first quarter of the following year and this will be calculated based on profit for the period at the end of each period applying a factor obtained subsequent to the employee appraisal process.

Employee benefits include retention bonuses for the Company's executives, which are linked to the Company's share price and it is paid in cash. The short-term portion is presented as provision for current employee benefits and the long-term portion as non-current.

The bonus provided to the Company's directors is calculated based on Profit for the period at each year-end and will consider the application of a percentage factor.

The benefit related to vacations (short-term benefits to employees, current), which is provided in the Labor Code which indicates that employees with more than a year of service will be entitled to annual holidays for a period not lower than fifteen paid business days. The Company provides the benefit of two additional vacation days.

Staff severance indemnities are agreed and payable based on the last salary for each year of service for the Company or with certain maximum limits in respect to the number of years to be considered or in respect to monetary terms. In general, this benefit is payable when the employee or worker ceases to provide his/her services to the Company and the right for its collection can be acquired because of different causes, as indicated in the respective agreements; e.g., retirement, dismissal, voluntary retirement, incapacity or disability, death, etc..

Law No. 19,728 published on May 14, 2001 which became effective on October 1, 2002 required "Compulsory Unemployment Insurance" in favor of all depending employees regulated by the Chilean Labor Code. Article 5 of this law provided the financing of this insurance through monthly contribution payments by both the employee and the employer.

Note 15 Employee benefits (continued)

15.3

Other long-term benefits

The other long-term benefits relate to staff severance indemnities and are recorded at their actuarial value.

Staff severance indemnities at actuarial value	09/30/2015	12/31/2014
	ThUS\$	ThUS\$
Staff severance indemnities, Chile	27,257	30,336
Other obligations in companies elsewhere	580	616
Total other non-current liabilities	27,837	30,952

Staff severance indemnities have been calculated under the actuarial assessment method of the Company's obligations with respect to staff severance indemnities, which relate to defined benefit plans which consist of days of remuneration per year served at the time of retirement under conditions agreed in the respective agreements established between the Company and its employees.

Under this benefit plan, the Company retains the obligation for the payment of staff severance indemnities related to retirements, without establishing a separate fund with specific assets, which is referred to as not funded. The discount interest rate of expected flows to be used was 4.81%.

Benefit payment conditions

The staff severance indemnity benefit relates to remuneration days for year worked for the Company with no limit of salary or years of services for the Company, when employees cease to work for the Company due to turnover or death. In this case, the maximum age for men is 65 years and 60 years old for women, which are the usual ages for retirement due to achieving the senior citizen age according to the Chilean pensions system provided in Decree Law 3,500 of 1,980.

Methodology

The determination of the obligation for benefits under IAS 19 Projected Benefit Obligation (PBO) is described as follows:

To determine the Company's total liability, we used a mathematical simulation model which was programmed using a computer and which processed the situation of each employee on an individual basis.

SQM S.A.

El Trovador 4285,

Las Condes, Santiago, Chile 120

Tel: (56 2) 2425 2000

Note 15 Employee benefits (continued)

15.3 Other long-term benefits, continued

This model considered months as discrete time; i.e., the Company determined the age of each person and his/her salary on a monthly basis according to the growth rate. Thus, information on each person was simulated from the beginning of the life of his/her employment contract or when he/she started earning benefits up to the month in which it reaches the normal retirement age, generating in each period the possible retirement according to the Company's turnover rate and the mortality rate according to the age reached. When he/she reaches the retirement age, the employee finishes his/her service for the Company and receives indemnity related to retirement due to old age.

The methodology followed to determine the accrual for all the employees adhered to agreements has considered turnover rates and the mortality rate RV-2009 established by the Chilean Superintendence of Securities and Insurance to calculate pension-related life insurance reserves in Chile according to the Accumulated Benefit Valuation or Accrued Cost of Benefit Method. This methodology is established in IAS 19 on Retirement Benefit Costs.

15.4 Post-employment benefit obligations

Our subsidiary SQM North America, has established with its employees, a pension plan until 2002 called "SQM North America Retirement Income Plan", whereby obligation is calculated measuring the expected future forecasted staff severance indemnity obligation using a net salary gradual rate of restatements for inflation, mortality and turnover assumptions discounting the resulting amounts at present value using the interest rate defined by the authorities.

Since 2003, SQM North America offers to its employee benefits related to pension plans based on the 401-K system, which do not generate obligations for the Company.

15.5

Staff severance indemnities

As of September 30, 2015 and December 31, 2014, severance indemnities calculated at the actuarial value are as follows:

	09/30/2015				
	ThUS\$		ThUS\$		
Opening balance	(30,952)	(32,137)	
Current cost of service	(3,001)	(1,294)	
Interest cost	(1,179)	(2,020)	
Actuarial gain/loss	108		(665)	
Exchange rate difference	3,531		4,450		
Benefits paid during the year	512		714		
Reversal of severance indemnity payments	3,144		-

Note 15 Employee benefits (continued)

15.5 Staff severance indemnities, continued

a)Actuarial assumptions

The liability recorded for staff severance indemnity is valued at the actuarial value method, using the following actuarial assumptions:

	09/30/2015	5	12/31/2014	
Mortality rate Actual annual interest rate	RV - 2009 4.81		RV - 2009 5.5	%
Voluntary retirement rotation rate:	4.01	70	5.5	70
Men	1.43	%	1.71	% annual
Women	1.43	%	1.96	% annual
Salary increase	3.72	%	3.00	% annual
Retirement age:				
Men	65		65	years
Women	60		60	years

b) Sensitivity analysis of assumptions

As of September 30, 2015 and December 31, 2014, on the actuarial calculation, the Company has conducting the sensitivity analysis of the main assumptions, determining the following:

Sensitivity analysis 09/30/2015	Effect + 100 basis points	Effect - 100 basis points
	ThUS\$	ThUS\$
Discount rate	(1,805) 1,854
Employee turnover rate	(315) 187
Sensitivity analysis 12/31/2014	*	*
	ThUS\$	ThUS\$
Discount rate	(1.960)) 2.181

Employee turnover rate (112) 130

Sensitivity relates to an increase/decrease of 100 basis points.

Tel: (56 2) 2425 2000

Notes to the Consolidated Financial Statements as of September 3	30, 2015.

Note 16 Executive compensation plan

The Company has established two compensation plans to motivate the Company's executives and encourage them to stay in the Company, by granting payments based on the change in price of SQM's shares.

1)Shares

Liquidated in cash, executives are able to exercise their rights until 2016.

Characteristics of the plan

This compensation plan is related with the company performance through the price of the Series B SQM share (Santiago Stock Exchange).

Participants in this plan

This compensation plan includes 9 executives of the Company, who are entitled to this benefit, provided they stay with the Company during the dates these options are executed. The dates for exercising the options will be the first 7 calendar days of May following to the fiscal year.

Compensation

The compensation for each executive is the differential between the average prices of the share during April of each year compared to the base price established by Company's management. The base price fixed by the Company for this compensation plan amounts to US\$50 per share. The Company reserves the right to exchange that benefit by shares or share options.

The movement of the options in effect for the period, the average prices for the fiscal year of the options and the average contractual life of the options in effect as of September 30, 2015 and December 31, 2014 are the following:

Movement for the period	2015	2014
In effect as of January 1	1,536,000	1,536,000
Granted during the fiscal year	-	-
Redundant workers	(350,000)	-
Exercised during the fiscal year	-	-
Changes in benefit plan	-	-
In circulation	1,186,000	1,536,000
Average contractual life	7 months	16 months
Executives	9	10

Las Condes, Santiago, Chile 123

Tel: (56 2) 2425 2000

Note 16 Executive compensation plan (continued)

The amounts accrued by the plan, as of September 30, 2015 and December 31, 2014, amount to:

2) Average Share Price Spread

Plan characteristics

This compensation plan is also related to the Company's performance through the SQM Series B share price (Santiago Stock Exchange).

Plan participants

This compensation plan includes 30 of the Company's executives, who obtain this benefit, provided they remain in the Company at the payment dates. The payments dates, if any, will be January 1, 2016, 2017 and 2018.

Compensation

The compensation for each executive is the differential between the average share price during each of the months of December 2015, December 2016 and December 2017, respectively, in its equivalent in US dollars and the reference prices, of US\$23.48 and the average weighted price of the trading of SQM Series B shares in the Santiago Stock Exchange during December 2014. The differential cannot exceed US\$15.00 and will be multiplied by 5,000. If the amount calculated is negative or zero, no bonus will be paid during that period, but in such case, the bond of benefit payable in the following period to the employee will be equal to the product of multiplying the difference by 10,000.

If the value was negative or zero in December 2015 and also in December 2016, for calculating the bond of December 2017, the differential will be multiplied by 15,000.

The movement of the options in effect for the period, the average prices for the fiscal year of the options and the average contractual life of the options in effect as of September 30, 2015 and December 31, 2014 are the following:

Movement for the period	2015	2014
In effect as of January 1	390,000	450,000
Redundant workers	-	(60,000)
Granted during the fiscal year	60,000	-
In circulation	450,000	390,000
Average weighted contractual life	27 months	36 months
Executives	30	26

Notes to the	Consolidated F	Financial Statements as	s of September 30, 2015.

Note 17 Disclosures on equity

The detail and movements in the funds of equity accounts are shown in the consolidated statement of changes in equity.

17.1

Capital management

The main object of capital management relative to the administration of the Company's financial debt and equity is to ensure the regular conduct of operations and business continuity in the long term, with the constant intention of maintaining an adequate level of liquidity and in compliance with the financial safeguards established in the debt contracts in force. Within this framework, decisions are made in order to maximize the value of SQM.

Capital management must comply with, among others, the limits contemplated in the Financing Policy approved Board of Directors, which establish a maximum consolidated indebtedness level of 1.5 times the debt/equity. This limit can be exceeded only if the Company's management has a written and previously granted authorization issued at the Extraordinary Shareholders' Meeting.

In addition, capital management must comply with the external capital requirements imposed (or covenants) in its financial obligations, which regulate the indebtedness level by 1.2 times, in its more strict level.

In conjunction with the level of indebtedness, it is also important for the Company to maintain a comfortable profile of maturities for its financial obligations, in order to oversee the relation between its short-term financial obligations and the long-term maturities, and the relation they have with the Company's asset distribution. Consequently, the Company has maintained a liquidity level of 3 times during the last periods.

The Company's management controls capital management based on the following ratios:

CAPITAL **MANAGEMENT**

17.3

Disclosures on reserves in equity

As of September 30, 2015 and December 31, 2014, this caption comprises the following:

	09/30/2015	5	12/31/201	4
	ThUS\$		ThUS\$	
Reserve for currency exchange conversion	(14,107)	(7,701)
Reserve for cash flow hedges	(1,289)	(1,881)
Reserve for actuarial gains or losses in defined benefit plans	(1,913)	(1,903)
Other reserves	(1,677)	(1,677)
Total other reserves	(18,986)	(13,162)

Reserves for currency exchange conversion

This balance reflects retained earnings for changes in the exchange rate when converting financial statements of subsidiaries whose functional currency is from each company's origin country and the presentation currency is the US dollar.

Reserve for cash flow hedges

The Company maintains, as hedge instruments, financial derivatives related to obligations with the public issued in UF and Chilean pesos. Changes from the fair value of derivatives designated and classified as hedges are recognized under this classification.

Reserve for actuarial gains or losses in defined benefit plans

For the domestic subsidiaries the effects of changes in assumptions are considered, mainly changes in the discount rate.

The subsidiary SQM North America has established pension plans for its retired employees that are calculated by measuring the projected obligation of IAS using a net salary progressive rate net of adjustments to inflation, mortality and turnover assumptions, deducting the resulting amounts at present value using a 5.5% interest rate for 2015 and 2014.

Other reserves

Corresponds to the acquisition of the subsidiary SQM Iberian S.A., which was already under ownership of the Company at the acquisition date (IAS 27 R).

Note 17 Disclosures on equity (continued)

17.4

Dividend policies

As required by Article 79 of the Chilean Companies Act, unless otherwise decided by unanimous vote of the holders of issued and subscribed shares, we must distribute a cash dividend in an amount equal to at least 30% of our consolidated Profit for the period for year ended as of December 31, unless and except to the extent it has a deficit in retained earnings (losses not absorbed in prior years).

The Company's dividend policy for 2015 is as follows:

Distribution and payment in favor of each shareholder of a final dividend which will be equivalent to 50% of Profit for the period obtained in 2015.

Distribution and payment, if possible during 2015, of a provisional dividend which will be recorded against the aforementioned final dividend. This provisional dividend will be paid probably during the last quarter of 2015 and its amount could not exceed 50% of the retained earnings for distribution obtained during 2015, which are reflected in the Company's financial statements as of September 30, 2015.

The distribution and payment by the Company of the remaining balance of the final dividend related to Profit for the -period for the 2015 commercial year in up to two installments, which will have to be effectively paid and distributed prior to June 30, 2016.

An amount equivalent to the remaining 50% of the Company's Profit for the period for 2015 will be retained and -destined to the financing of operations of one or more of the Company's investment projects with no prejudice of the possible future capitalization of the entirety or a portion of this.

-The Board of Directors does not consider the payment of any additional and interim dividends.

The Board of Directors considers as necessary to indicate that the aforementioned dividends policy corresponds to the intention or expectation of the Board regarding this matter. Consequently, the enforcement of such dividends policy is necessarily conditioned to net incomes finally obtained, to the results indicating the Company's regular forecasts or the existence of certain conditions that could affect them. Notwithstanding the above and to the extent that such policy dividend does not suffer a significant change, SQM S.A. will timely communicate its shareholders on this matter.

Note 17 - Disclosures on equity (continued)

17.5

Provisional dividends

At the Thirty-Ninth General Ordinary Shareholders' Meeting of April 25, 2014, the shareholders approved the payment of a final dividend of US\$ 0.56304 per share from profit for the year 2014. Such final dividend amount is to be discounted the provisional dividend of US\$ 0.41493 per share already paid. Accordingly, the remaining balance of US\$ 0.14811 per share shall be paid and distributed in favor of the Company's shareholders who are registered with the related Shareholders' Record on the fifth business day prior to the day in which such dividend will be paid. Such amount, if applicable, will be paid in Chilean pesos in accordance with the "Observed U.S. dollar exchange rate" or "U.S. dollar exchange rate" as published in the Official Gazette on April 24, 2015.

At the ordinary Board of Directors' Meeting of November 18, 2014, the directors unanimously agreed to pay and distribute a provisional dividend as contained in SQM's "Dividend Policy for the Commercial Year 2014."

It was agreed that beginning on December 12, 2014, SQM would pay and distribute a provisional dividend of US\$0.41493 per share, which is equivalent to a total amount of approximately ThUS\$102,208 or 50% of net profit for distribution in the commercial year 2014, accumulated as of September 30, 2014. This dividend is charged to profit for such the commercial year, in favor of the shareholders registered with SQM's Shareholder's Register on the fifth business day prior to December 12, 2014. It is paid in its equivalent amount in Chilean pesos per the "Observed U.S. dollar" exchange rate or "U.S. dollar" exchange rate, as published in the Official Gazette on December 5, 2014.

On July 7, 2014, at the Extraordinary Shareholders' Meeting, the shareholders agreed to partially modify the current "2014 Dividends Policy of Sociedad Química y Minera de Chile S.A.". This was informed at the General Annual Ordinary Shareholders Meeting held on April 25, 2014 with the main purpose of incorporating in such "Policy" the payment of a possible dividend of ThCh\$230,000 equivalent to US\$0.87387 per share. This will be distributed during the course of 2014 with a charge to retained earnings and, if applicable, it will be paid in its equivalent amount in Chilean pesos per "Observed U.S. dollar" exchange rate or "U.S. dollar" exchange rate, as published in the Official Gazette on such date.

At the Extraordinary Meeting held on June 6, 2014, the following was agreed by simple majority:

To partially amend the current "2014 Dividends Policy of Sociedad Química y Minera de Chile S.A.", informed at the General Annual Ordinary Shareholders Meeting held on April 25, 2014, with the main purpose of incorporating in such "Policy" the payment of a possible dividend of ThCh\$230,000 equivalent to US\$0.87387 per share that will be distributed during 2014 and charged to the caption retained earnings.

2. To call for an Extraordinary Shareholders' Meeting on Monday July 7, 2014 at 10:00, to communicate and resolve the payment of the aforementioned dividend.

Tel: (56 2) 2425 2000

Notes to the Consolidated Financial Statements as of September 30, 2015.

Note 18 Provisions and other non-financial liabilities (continued)

18.5 Detail of main types of provisions

Legal expenses: This provision depends on the pending resolution of a legal lawsuit, to pay the expenses associated to and incurred during such lawsuit (incurred mainly in Brazil and the United States).

Tax accrual in tax litigation: This accrual relates to lawsuits pending resolution related to taxes in Brazil for two of our subsidiaries, SQM Brazil and NNC.

CORFO (Economic Development Agency) Royalties agreement: Relates to the commercialization of mining properties that SQM Salar S.A. pays the Economic Development Agency for on a quarterly basis. The amount of the lease payable is calculated based on sales of products extracted from the Atacama Saltpeter deposit.

The settlement of the aforementioned amounts is performed on a quarterly basis.

To date, the Company and its subsidiaries have no significant uncertainties about the timing and amount of one class of provision.

Note 19 Contingencies and restrictions

According to note 18.1 the Company has only registered a provision for the lawsuits in which the probability that judgments are unfavorable for the Company is more likely than not. The Company is party to lawsuits and other relevant legal actions that are detailed as follows:

19.1

Lawsuits and other relevant events

1. Plaintiff : Nancy Erika Urra Muñoz

Defendants: Fresia Flores Zamorano, Duratec-Vinilit S.A. and SQM S.A. and their

insurers

Date : December 2008

Court : 1st Civil Court of Santiago

Reason :Labor Accident

Status : Evidentiary stage – Appeal

Nominal

:ThUS\$550

value

2. Plaintiff : City of Pomona, California USA
Defendant : SOM North America Corporation

Date : December 2010

Court : United States District Court Central District of California

Payment of expenses and other amount related to the treatment of groundwater to allow for

Reason : consumption by removing the existing perchlorate in such groundwater and that supposedly come

from Chilean fertilizer.

Status : the Jury unanimously rejected the complaint. An appeal has been announced.

Nominal

:ThUS\$32,000

value

3. Plaintiff : City of Lindsay, California USA
Defendant : SQM North America Corporation

The lawsuit also was filed against Sociedad Química y

Minera de Chile S.A. this lawsuit has not yet been notified to the Company

Date : December 2010

Court : United States District Court Eastern District of California

Payment of expenses and other amount related to the treatment of groundwater to allow for

Reason : consumption by removing the existing perchlorate in such groundwater and that supposedly come

from Chilean fertilizer.

Status : Claim. Processing suspended

Nominal value

Notes to the Consolidated Financial Statements as of September 30, 2015.

Note 19 Contingencies and restrictions (continued)

19.1 Lawsuits and other relevant events, continued

The Company and its subsidiaries have been involved and will probably continue to be involved either as plaintiffs or defendants in certain judicial proceedings that have been and will be heard by the Arbitral or Ordinary Courts of Justice that will make the final decision. Those proceedings that are regulated by the appropriate legal regulations are intended to exercise or oppose certain actions or exceptions related to certain mining claims either granted or to be granted and that do not or will not affect in an essential manner the development of the Company and its subsidiaries.

Soquimich Comercial S.A. has been involved and will probably continue being involved either as plaintiff or defendant in certain judicial proceedings through which it intends to collect and receive the amounts owed, the total nominal value of which is approximately ThUS\$700.

The Company has made efforts and continues making efforts to obtain payment of certain amounts that are still owed it on occasion of their activities. Such amounts will continue to be required using judicial or non-judicial means by the plaintiffs, and the actions and exercise related to these are currently in full force and effect.

The Company and its subsidiaries have not received legal notice of any claims other than those mentioned in paragraph I above. The claims detailed above seek to annul certain mining claims that were purchased by SQM S.A. and Subsidiaries, the proportional purchase value of which, with respect to the portion affected by the superimposition, exceeds the nominal and approximate amount of ThUS\$150. The claims seek payment of certain amounts allegedly owed by the Company due to its own activities, which exceed the approximate, nominal and individual amount of ThUS\$150.

SQM S.A. 140

El Trovador 4285,

Las Condes, Santiago, Chile

Tel: (56 2) 2425 2000

Note 19 Contingencies and restrictions (continued)

19.2 Restrictions to management or financial limits

Credit contracts subscribed by the SQM Group with domestic and foreign banks and the issuance of bonuses in the local and international market require that the Company comply with the following level of consolidated financial indicators, calculated for a moving period which considers the last twelve months:

To maintain a minimum equity of ThUS\$1,000,000.

To maintain a Net Financial Debt and EBITDA ratio not higher than 3 times.

To maintain a Total Indebtedness Ratio not higher than 1.2 times Total Indebtedness level defined as the Total Liabilities ratio divided by Total Equity.

To maintain a ratio between the operating subsidiaries SQM Industrial S.A. and SQM Salar S.A., or their respective legal successor financial debt and the total Issuer's consolidated current assets not higher than 0.3 times.

As of September 30, 2015, the aforementioned financial indicators are as follows:

Indicator	09/30/2015	12/31/2014
Equity ThUS\$	2,378,599	2,299,703
Net Financial Debt/ EBITDA	0.63	1.03
Indebtedness	1.02	1.03
SQM Industrial and SQM Salar debt / Current assets	0.01	0.02

Issuance contracts for bonuses issued abroad does not require that the Company merge or dispose at any title the asset as a whole or as a substantial part of it, unless the following copulative conditions are met: (i) the legal successor company is an entity subject to Chilean or American laws, and assumes under a complimentary contract the Company's obligations, (ii) the Issuer does not fail to comply immediately after the merge or disposal, and (iii) the Issuer delivers a legal opinion stating the merge or disposal and the complimentary contract meet the requirements described in the original contract.

In addition, SQM S.A. is committed to disclose financial information on quarterly basis.

The Company and its subsidiaries have complied and are fully complying with all aforementioned limitations, restrictions and obligations.

SQM S.A.

El Trovador 4285,

Las Condes, Santiago, Chile 141

Tel: (56 2) 2425 2000

Note 19 Contingencies and restrictions (continued)

19.3 Commitments

The subsidiary SQM Salar S.A. has signed a rental contract with the Economic Development Agency (CORFO), which establishes that the subsidiary will pay rent to CORFO for the concept of commercialization of certain mining properties owned by CORFO and for the products resulting from the commercialization. The annual rent stated in the aforementioned contract is calculated on the basis of sales of each type of product. The contract is in force until 2030, and rent began being paid in 1996 reflecting an expense amount of ThUS\$ 16,754 as of September 30, 2015 (ThUS\$ 21,070 as of December 31, 2014).

On 15 November 2013, Corporación de Fomento de la Producción (CORFO) sent a letter to SQM Salar S.A. (SQMS) stating its intention to a) collect the amount of Ch\$2,530,298,919 (ThUS\$4,823) that in CORFO's opinion, SQMS would owe to it for the calculation and payment of rental payments according to the "Lease Agreement of OMA Mining Claims located in the Atacama Salt Flat" entered into between CORFO and SQMS on November 12, 1993 (the AGREEMENT) and b) require the constitution of an instance of arbitrage stated in the AGREEMENT with the purpose that the arbitrator appointed by the "Arbitration Center of the Santiago Chamber of Commerce" determines if other alleged lease payment obligations may exist that SQMS could owe to CORFO under the AGREEMENT.

During May 2014, CORFO filed a lawsuit against SQMS requesting the early termination of the agreement and other requests explained in Note 19.1. Such lawsuit is currently being processed.

SQMS differs completely form CORFO's claims. In fact, the AGREEMENT has been in force for more than 20 years and during all this time, SQMS has paid to CORFO more than 80 quarterly payments in their entirety and on a timely basis that CORFO has received satisfactorily.

In our legal advisors' opinion, there are no legal grounds to early terminate the lease agreement as —i- noncompliance on which the lawsuit is based do not exist and, if any, —ii- these are not gross or essential or hinder the purpose of the agreement —iii- the company has never had the intention of deceiving and has always been fully transparent in providing the information delivered. On the contrary, the conflict solely corresponds to a discussion on the right formula to calculate the rent amount.

The total amount finally requested by CORFO was at least US\$ 8,940,829 – plus interests and costs – and the arbitrage proceeding is close to the beginning of the evidentiary stage. CORFO and SQMS waived all recourses against the judgment provided by the arbitrator. However, it is not possible to discard the filing of a complaint appeal or an appeal in cassation alleging incompetence or ultra petita and indicating the jurisprudence of the courts of justice, considering that both recourses cannot be waived.

During the period ended September 30, 2015, income related to products from the Atacama saltpeter deposit represented a 37.48% of total comprehensive income of the Company for the same period. This corresponds to income considered in the Potassium and Lithium product business lines.

Additionally, during the same period, SQM Salar S.A. sold potassium salts (sylvinite) and wet potassium chloride for a total of ThUS\$ 76,863 to SQM Industrial S.A., a subsidiary of SQM to be used as supplies in the production of potassium nitrate.

SQM S.A.

El Trovador 4285,

Las Condes, Santiago, Chile 142

Tel: (56 2) 2425 2000

Notes to the Consolidated Financial Statements as of September 30, 2015.

Note 19 Contingencies and restrictions (continued)

19.4

Tax contingency

During 2015, SQM and its subsidiaries SQM Salar and SQM Industrial have submitted to the Chilean IRS four tax amendments (two by SQM, one by SQM Salar and one by SQM Industrial).

The first two (one filed by SQM and another filed by SQM Salar), subsequent to being approved by the Chilean IRS generated payments of taxes, interests and other charges for ThUS\$ 8,100, which was recorded in a provision in the results for the first quarter of 2015.

Additionally, during August 2015, the Company provided to the Chilean IRS for review and approval, the documentation required to amend the annual income tax returns of SQM and SQM Industrial. SQM believes that as a result of these amendments the Company will have to pay approximately US\$1.4 million for the concept of taxes, interests and other charges, Such amount was recorded in a provision in the results for the second quarter of 2015.

Accordingly, SQM and its subsidiaries understand the internal analysis they have been performing has ended, the purpose of which was the identification of the expenses incurred by them during the commercial years 2008 to 2014 and which could be a matter of tax amendment.

Because of the aforementioned amendments, SQM, SQM Salar and SQM Industrial might be affected by additional penalty established in article 97 No. 4, first subparagraph of the Tax Code for an amount between 50% and 300% of taxes paid. The Company has currently not estimated making any provisions related to this possible additional penalty.

On August 28, 2015, the Chilean IRS sent to SQM a request for payment of taxes of US\$8.7 million plus interests and fines related to the tax difference resulting from the application of articles 21, 63 and 64 of the Chilean Income Tax Law. On September 9, 2015, SQM filed a Tax Review with the Chilean IRS.

In the Company's tax lawyers' opinion, grounds exist to believe this case will be resolved in favor of the Company and, as such, no provisions have been made with respect to this case.

19.5

Restricted or pledged cash

The subsidiary Isapre Norte Grande Ltda., in compliance with that established by the Chilean Superintendence of Healthcare which regulates the running of pension-related health institutions, maintains a guarantee in financial instruments delivered in deposits, custody and administration to Banco de Chile.

This guarantee, according to the regulations issued by the Chilean Superintendence of Healthcare is equivalent to the total sum owed to its members and medical providers Banco de Chile reports the present value of the guarantee to the Chilean Superintendence of Healthcare and Isapre Norte Grande Ltda. on a daily basis. As of September 30, 2015, the guarantee amounts to ThUS\$702.

SQM S.A.

El Trovador 4285,

Las Condes, Santiago, Chile 143

Tel: (56 2) 2425 2000

Note 19 Contingencies and restrictions (continued)

19.5 Restricted or pledged cash, continued

SQM S.A. maintains funds with Morgan Stanley for margin call, which provide collateral for the exposure by the bank with respect to the Company.

Such collateral hedges the fair value of the Cross Currency Swap that SQM SA has entered into to hedge a portion of the Series H Bond.

Through the present date, SQM S.A. has delivered ThUS\$ 6,120 to Morgan Stanley, which will be released when one of the following conditions occurs:

- 1. The market value of the Cross Currency Swap is lower than the sum delivered ThUS\$ 6,120 and the collateral threshold ThUS\$ 5,000.
 - 2. The Cross Currency Swap associated with the Series H Bond expires on January 5, 2018.

19.6 Securities obtained from third parties

The main security received (exceeding ThUS\$100) from third parties to guarantee Soquimich Comercial S.A.'s compliance with obligations in contracts of commercial mandates for the distribution and sale of fertilizers amounted to ThUS\$12,213 and ThUS\$9,176 on September 30, 2015 and December 31, 2014 respectively; which is detailed as follows:
