Item 2.06 Material Impairments

On December 6, 2006, Equity Residential (together with its operating partnership, ERP Operating Limited Partnership, the "Company") concluded that a material asset impairment charge of \$30 million related to its corporate housing business was required under generally accepted accounting principles. The conclusion to take this non-cash charge was based on a review by the Company of the existing intangible assets reflected on the consolidated balance sheets of the Company as Goodwill related to its corporate housing business. The Company does not carry any other Goodwill amount on its consolidated balance sheets. The Company does not believe this impairment charge will result in any future cash expenditures.
