TARO PROVIDES RESULTS FOR SEPTEMBER 30, 2015

Hawthorne, NY, November 3, 2015 - Taro Pharmaceutical Industries Ltd. (NYSE: TARO) ("Taro" or the "Company") today provided unaudited financial results for the three and six months ended September 30, 2015.

Quarter ended September 30, 2015 Highlights - compared to September 30, 2014

Net sales of \$212.1 million, decreased \$38.8 million, or 15.5%. This net sales decline is principally due to the impact of net charges taken to meet contractual obligations associated with price adjustments and the changing U.S. market dynamics on certain products. On a pro-forma basis, adjusted for the price protection provision, net sales would have decreased 7.7%

Gross profit of \$168.8 million decreased \$29.3 million; however, as a percentage of net sales, was 79.6% compared to 79.0%. Excluding the impact of the price adjustment and the impact of the \$2.0 million impairment charge, the gross profit decrease would have been \$8.0 million, or 4.1%

Research and development expenses increased \$4.9 million to \$18.7 million

Selling, marketing, general and administrative expenses increased \$2.4 million to \$24.0 million

Operating income decreased \$35.3 million to \$125.0 million

Net Income was favorably impacted by a \$28.7 million increase in foreign exchange (FX) income to \$34.9 million, principally the result of the strength of the U.S. vs. Canadian dollar

Net income attributable to Taro was \$133.3 million compared to \$143.4 million, resulting in diluted earnings per share of \$3.11 compared to \$3.35

Six Months ended September 30, 2015 Highlights - compared to September 30, 2014

Net sales of \$427.3 million, increased \$46.3 million, or 12.1%, despite an 8% volume decline as a result of changing U.S. market dynamics on certain products. On a pro-forma basis, adjusted for the previously mentioned price protection provision, the net sales increase would have been 18.5%

Gross profit increased \$57.1 million to \$340.6 million and as a percentage of net sales, was 79.7% compared to 74.4%. Excluding the impact of the aforementioned price adjustment, and the impact of the \$2.0 million impairment charge, the gross profit increase would have been \$81.4 million, or 28.7%

Research and development expenses increased 15.4% to \$33.3 million

Selling, marketing, general and administrative expenses increased \$2.9 million to \$46.9 million

Operating income increased \$44.6 million to \$259.4 million

FX income increased \$29.8 million to \$30.7 million

Net income attributable to Taro was \$237.0 million compared to \$189.5 million, a \$47.5 million increase, resulting in diluted earnings per share of \$5.54 compared to \$4.42

Mr. Kal Sundaram, Taro's CEO stated, "We continue to experience pressure on our business from strong competition and the industry and customer consolidations as evidenced by the decrease in our net sales. However, our margins remain strong as the result of the cost efficiencies and benefits realized as we actively manage and remain disciplined with our spending." Mr. Sundaram, continued, "The recent approval and launch of Keveyis, the first medicine approved by the FDA for the treatment of primary hyperkalemic and hypokalemic periodic paralysis, demonstrates our continuing commitment to R&D."

Cash Flow and Balance Sheet Highlights

Cash provided by operations for the period ended September 30, 2015 was \$129.3 million, as compared to \$96.2 million at September 30, 2014

Cash, including marketable securities of \$1.1 billion, increased \$142.1 million from March 31, 2015

FDA Approvals and Filings

The Company currently has a thirty-four ANDAs awaiting FDA approval.

The Company recently received approval from the U.S. Food and Drug Administration (“FDA”) for a New Drug Application (“NDA”) Keveyis™ (dichlorphenamide) 50 mg Tablets, the first medicine approved by the FDA for the treatment of primary hyperkalemic and hypokalemic periodic paralysis and related variants. Periodic paralysis, which is a group of rare hereditary disorders that cause episodes of muscle weakness or paralysis, is estimated to affect approximately 5,000 people in the United States.

Taro Purchases Shares of Zalicus Pharmaceuticals Ltd.

On October 1, 2015, Taro entered into a Share Purchase Agreement with EPIRUS Biopharmaceuticals, Inc. (“EPIRUS”) for all of the shares of Zalicus Pharmaceuticals Ltd., and its product candidate Z944 and certain related assets, a novel, oral, T-type calcium channel modulator in development for the treatment of pain. As a result of the sale, Taro paid CAD \$5.0 million in cash and a non-interest bearing, limited recourse promissory note in the amount of CAD \$5.0 million with a maturity date of July 1, 2017. If Taro elects to repay the Promissory Note in cash and continue development of the Z944 Assets, EPIRUS will also be entitled to additional payments.

SAFE HARBOR STATEMENT

The unaudited consolidated financial statements have been prepared on the same basis as the annual consolidated financial statements and, in the opinion of management, reflect all adjustments necessary to present fairly the financial condition and results of operations of the Company. The unaudited consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements included in the Company's Annual Report on Form 20-F, as filed with the SEC.

Certain statements in this release are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements include, but are not limited to, statements that do not describe historical facts or that refer or relate to events or circumstances the Company "estimates," "believes," or "expects" to happen or similar language, and statements with respect to the Company's financial performance, availability of financial information, and estimates of financial results and information for fiscal year 2016. Although the Company believes the expectations reflected in such forward-looking statements to be based on reasonable assumptions, it can give no assurances that its expectations will be attained. Factors that could cause actual results to differ include risks related to commercializing Keveyis, general domestic and international economic conditions, industry and market conditions, changes in the Company's financial position, litigation brought by any party in any court in Israel, the United States, or any country in which Taro operates, regulatory and legislative actions in the countries in which Taro operates, and other risks detailed from time to time in the Company's SEC reports, including its Annual Reports on Form 20-F. Forward-looking statements are applicable only as of the date on which they are made. The Company undertakes no obligations to update, change or revise any forward-looking statement, whether as a result of new information, additional or subsequent developments or otherwise.
