The Company and the Corporate Governance Committee have developed a set of formal Corporate Governance Policies that are monitored on an ongoing basis to ensure that the Company is in compliance with its Corporate Governance Policies (See "Corporate Governance Disclosure").

The function of the Corporate Governance Committee, in its capacity as the

## Edgar Filing: SUNOPTA INC - Form DEF 14A

Compensation Committee, is to determine the compensation of the CEO as well as to review and approve the compensation recommended by the CEO for all other Senior Officers and employees of the Company. In addition, this Committee oversees the Option Plan and Employee Stock Purchase Plans of the Company.

The Committee, in its capacity as the Nominating Committee, concerns itself with the composition of the Board with respect to depth of experience, balance of professional interests, required expertise and other factors. The Committee evaluates prospective nominees identified on its own initiative or referred to it by other Board members, management, stockholders or external sources and all self-nominated candidates. The Committee uses the same criteria for evaluating candidates nominated by stockholders and self-nominated candidates as it does for those proposed by other Board members, management and search companies. To be considered for membership on the Board, the Committee will consider certain necessary criteria, that a candidate should meet, which would include the following: (a) be of proven integrity with a record of substantial achievement, (b) have demonstrated ability and sound judgment that usually will be based on broad experience but, particularly, industry experience; (c) be able and willing to devote the required amount of time to the Company's affairs, including attendance at Board meeting, Board Committee meetings and annual stockholder meetings; (d) possess a judicious and critical temperament that will enable objective appraisal of management's plans and programs; and (e) be committed to building sound, long-term Company growth. Evaluation of candidates occurs on the basis of materials submitted by or on behalf of the candidate. If a candidate continues to be of interest, additional information about her/him is obtained through inquiries to various sources and, if warranted, interviews.

A stockholder may recommend a person as a nominee for director by writing to the Secretary of the Company. Recommendations must be received by November 1, 2004 in order for a candidate to be considered for election at the 2005 Annual Meeting. Each notice of nomination should contain the following information: (a) the name and address of the stockholder who intends to make the nomination and of the person or persons to be nominated; (b) a representation that the stockholder is a holder of record of stock of the Company entitled to vote at such meeting and intends to appear in person or by proxy at the meeting to nominate the person or persons specified in the notice; (c) a description of all arrangements or understandings between the stockholder and each nominee and any other person or persons (naming such person or persons) pursuant to which the nomination or nominations are to be made by the stockholder; (d) such other information regarding each nominee proposed by such stockholder as would have been required to be included in a proxy statement filed pursuant to the proxy rules of the Securities and Exchange Commission had each nominee been nominated, or intended to be nominated, by the Board of Directors; and (e) the consent of each nominee to serve as a director of the Company if so elected. All the director nominees named in this proxy statement met the Board's criteria for membership and were recommended by the Corporate Governance Committee for election by the stockholders at this Annual Meeting.

All nominees for election at this Annual Meeting were previously elected by stockholders.

The Governance Committee met formally five times during 2003. In addition, several telephonic meetings were held during the year for administrative matters connected to the responsibilities of this Committee.

The Audit Committee did consider and conclude that the provision of the non-audit services is compatible with maintaining PwC's independence.

### Item 3 - AMENDMENT OF THE COMPANY'S STOCK OPTION PLANS TO ADD A CHANGE OF CONTROL PROVISION

The Company's shareholders previously approved the adoption of the Company's 1996 Employee/Director Stock Option Plan; 1998 Stock Option Plan; 1999 Stock Option Plan; 2001 Stock Option Plan; and 2002 Stock Option Plan (the "Option Plans"). The purpose of all of the Option Plans is to be able to grant stock options to employees, directors and consultants to help ensure the long-term motivation and retention of the Company's employees, directors and consultants and to develop the interest and incentive of these people by providing them with an opportunity to purchase common shares of the Company.

The Company's Board of Directors has determined that it is in the best interests of the Company to amend each of the Options Plans by adding to each of the Plans a new section relating to a Change of Control of the Company. The proposed Change of Control section to be added is attached as Exhibit CD to this Proxy Statement.

The Board of Directors believes that this amendment to each of the Option Plans is another tool in our change of control policies to help keep employees focused on their jobs during the uncertainty that accompanies a change in control, to preserve benefits after a change of control transaction and to help us attract and retain key talent. If approved, stock option awards that we have made or will make under the Option Plans will immediately vest upon a Change of Control as defined in the amendment. At present, options vest 20% on the grant of an option and thereafter 20% on each anniversary of the grant date until fully vested, except the options under the 2002 Plan, granted to all Directors (other than Messrs. Jeremy Kendall, Allan Routh and Dennis Anderson), which vest at 25% on each anniversary of the grant date until fully vested.

### Brief Description of Option Plans

All of the Option Plans are administered by the Compensation Committee of the Board of Directors, which consists exclusively of non-employee directors. The Compensation Committee has been delegated the authority by the Board of Directors to designate those employees, consultants and directors who may be granted options under the Plans, the number of options to be granted to each such person and the vesting schedule therefore, and to otherwise administer and interpret the Option Plans and the option granted thereunder.

## Edgar Filing: SUNOPTA INC - Form DEF 14A

### Awards under the Option Plans

All Options granted under the Plans will be non-qualified stock options, except in the case of the 2002 Plan, under which either non-qualified stock options or incentive stock options may be granted. The purchase price for options granted under all of the Plans is equal to 100% of the fair market value of our common shares, based on the closing price of such shares on the trading day immediately prior to the date of grant of the option. An option may not be exercised more than ten-years from the date of grant unless otherwise provided by the Board of Directors and approved by regulators, if required. All options exercised must be paid for in full, at the time of exercise.

### Certain US Federal Income Tax Consequences

Set forth are certain of the United States tax consequences of options granted to participants set forth in the following summary.

All employees to whom an incentive option which qualifies under Section 422 of the U.S. Internal Revenue Code is granted will not recognize income at the time of grant or exercise of such option. No federal income tax deduction will be allowable to the employee's employer upon the grant or exercise of such option. However, upon the exercise of an

15

incentive option, special alternative minimum tax rules apply for the employee. When the employee sells such shares more than one year after the date of transfer of such shares and more than two years after the date of grant of such option (the Minimum ISO Period), the employee will normally recognize a capital gain or loss equal to the difference, if any between the sales price of such shares and the option price paid. The tax rate applicable to such capital gains will depend in part on the length of time the employee has held such shares in excess of one year before sale. If the employee does not hold such shares for the Minimum ISO Period, when the employee sells such shares, the employee will recognize ordinary compensation income and possibly capital gain or loss as well in such amounts as are prescribed by the Internal Revenue code (the "Code") and regulations thereunder. Subject to applicable provisions of the Code and regulations thereunder, including Section 162(m) of the Code, the employee's employer will generally be entitled to a federal income tax deduction in the amount of such ordinary compensation income.

An individual to whom a non-qualified option is granted will not recognize income at the time of grant of such option. When such optionee exercises such non-qualified option, the optionee will recognize ordinary compensation income equal to the difference, if any, between the Option price paid and the fair market value, as of the date of option exercise, of the shares the optionee receives. The tax basis of such shares to such optionee will be equal to the option price paid plus the amount includable in the optionee's gross income, and the optionee's holding period for such shares will commence on the day on which the optionee recognizes taxable income in respect to such shares. Subject to applicable provisions of the Code and regulations thereunder, including those under Section 162(m) of the Code, the employer of such optionee will generally be entitled to a federal income tax deduction in respect of non-qualified Options in an amount equal to the ordinary compensation income recognized by the optionee. Any compensation includable in the gross income of an employee in respect of a non-qualified Option will be subject to appropriate federal income and employment taxes.

The discussion set forth above does not purport to be a complete analysis of all potential tax consequences relevant to recipients of options or their employers,

## Edgar Filing: SUNOPTA INC - Form DEF 14A

or to describe tax consequences based on particular circumstances. It is based on federal income tax law and interpretational authorities as of the date of this proxy statement, which are subject to change at any time.

### Item 4 - AMENDMENT TO THE 2002 STOCK OPTION PLAN TO AUTHORIZE AN INCREASE IN THE NUMBER OF SHARES AUTHORIZED

In June 2002, the Company's shareholders approved the 2002 Stock Option Plan (the "2002 Plan") and authorized 1,500,000 common shares for issuance under the 2002 Plan. As of March 31, 2004, no shares remained available for issuance in connection with future grants of options under the 2002 Plan.

On March 11, 2004 the Board of Directors amended the 2002 Plan, subject to shareholder approval, to authorize 1,500,000 additional common shares for awards of options under the 2002 Plan. These 1,500,000 additional shares, represent approximately 2.8% of the Company's outstanding common shares as of the date of this Proxy Statement. The Board of Directors believes that this additional share reserve is necessary to continue to provide competitive option awards to key employees in the future which is linked to the creation of shareholder value. The amendment will not become effective until shareholder approval is obtained.

### SHAREHOLDERS' PROPOSALS

All proposals of Shareholders intended to be presented at the Company's Annual Meeting of Shareholders in 2004, must be received at the Company's Executive Office no later than November 1, 2004 for inclusion in the Information Circular and Form of Proxy related to that meeting. The Company's next Annual Meeting of Shareholders is planned for May 2005.

16

### OTHER MATTERS

NASDAQ corporate governance rules state that the required quorum for the Annual Meeting of Shareholders cannot be represented by less than 33 1/3% of the outstanding common shares as at March 31, 2004. Therefore shareholders of at least 17,802,201 common shares must participate directly or be present by proxy to validate the quorum requirements.

The Company encourages all of its shareholders to participate in the Annual and Special Meeting.

The Management of the Company does not know of any matters other than those stated in this Information Circular, which are to be presented for action at the meeting. If any other matters should properly come before the meeting, proxies will be voted on the other matters in accordance with the best judgement of the persons voting the proxies.

The Directors of the Company have approved the contents and the sending of this Information Circular.

Dated this 31st day of March, 2004.
