Code EURONEXT : EXHO.PA / Code NYSE : SDX

This press release contains "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995. These include, but are not limited to, statements regarding anticipated future events and financial performance with respect to our operations. Forward-looking statements can be identified by the fact that they do not relate strictly to historical or current facts. They often include words like "believe," "expect," "anticipate," "estimated" , "project" , "plan" "pro forma," and "intend" or future or conditional verbs such as "will," "would," or "may." Factors that could cause actual results to differ materially from expected results include, but are not limited to, those set forth in our Registration Statement on Form 20-F, as filed with the Securities and Exchange Commission (SEC), the competitive environment in which we operate, changes in general economic conditions and changes in the French, American and/or global financial and/or capital markets. Forward-looking statements represent management's views as of the date they are made, and we assume no obligation to update any forward-looking statements for actual events occurring after that date. You are cautioned not to place undue reliance on our forward-looking statements.

Paris, France - January 8, 2003 - Sodexho Alliance's consolidated revenues for the first quarter of fiscal 2002/2003, which ended November 30, 2002, totaled EUR 3.3 billion. Compared to the same period of the previous fiscal year, changes in revenues are as follows :

Edgar Filing: SODEXHO ALLIANCE SA - Form 6-K

Organic growth : +3.1 %
 Acquisitions : -0.4 %
 Currency effect : -5.5 %

Despite improved organic growth of 3.1 %, the euro's gains over other currencies, principally the US dollar, resulted in a decline in reported revenues of 2.8 % for the first quarter.

In the continuing difficult global economic environment, the organic increase in first-quarter revenues was in line with our objective of 5 to 6% organic growth for the full fiscal year 2002/2003. We should therefore gradually return to the rate of organic revenue growth enjoyed in earlier years.

Business	Revenues (in EUR millions)	Organic growth
Food and Management Services	3,049	2.9%
North America	1,616	4.0%
Continental Europe	919	3.4%
United Kingdom and Ireland	389	- 2.5%
Rest of the World	125	3.3%
Remote Sites	139	- 1.2%
Service Vouchers and Cards	63	16.7%
River and Harbor Cruises	20	18.8%
TOTAL	3,271	3.1%

- Food and Management Services
- In North America, revenues in the Business, Industry and Defense segment gained 3.4%, led by the start-up of contracts with the US Marine Corps on October 1, 2002. Excluding Defense, the signing of a large number of other contracts slowed the previous year's sharp 8% decline and should enable us to meet the objective of revenue growth for the full fiscal year. The Education segment reported 5% growth, reflecting the commitment of our teams to increasing on-site sales by implementing effective merchandising offers and continuing to develop and deliver multi-service solutions.
- Organic sales growth was 3.4% in Continental Europe. Despite slower business in the Netherlands and Italy, the Business, Industry and Defense segment advanced 3.1%. In Sweden, for example, faster organic growth was driven by the development of multi-service contracts in the Defense segment. Healthcare revenues increased 5.8%, with strong gains in

France.

- In the United Kingdom and Ireland, where our priority is to restore profitability, revenues declined 2.5% excluding changes in consolidation scope and exchange rates. Favorable development in the Education segment was not sufficient to offset lower sales in Business & Industry, reflecting a decline in customers on certain sites and our policy of renegotiating insufficiently profitable contracts which has led in some cases to terminations.
- Remote Sites revenues decreased an organic 1.2% during the period, with a pronounced slowdown in drilling in the Gulf of Mexico offset by a strong performance in the North Sea.
- In Service Vouchers and Cards, organic growth continued at a sharp pace of 16.7%, led by the development, notably among existing clients, of new services such as Gift Pass, Training Pass, Grocery Pass and Restaurant Pass. Issue volume rose to EUR 1.2 billion during the quarter.
