BROOKMOUNT EXPLORATIONS INC.
(A Pre-exploration Stage Company)
NOTES TO THE INTERIM FINANCIAL STATEMENTS
August 31, 2004
(Stated in US Dollars)
(Unaudited)

Note 1 Interim Reporting

The accompanying unaudited interim financial statements have been prepared by Brookmount Explorations Inc. (the "Company") pursuant to the rules and regulations of the United States Securities and Exchange Commission. Certain information and disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. In the opinion of management, all adjustments and disclosures necessary for a fair presentation of these financial statements have been included. Such adjustments consist of normal recurring adjustments. These interim financial statements should be read in conjunction with the audited financial statements of the Company for the fiscal period ended November 30, 2003, as filed with the United States Securities and Exchange Commission.

The results of operations for the nine months ended August 31, 2004 are not indicative of the results that may be expected for the full year.

Note 2 Continuance of Operations

The financial statements have been prepared using generally accepted accounting principles in the United States of America applicable for a going concern which assumes that the Company will realize its assets and discharge its liabilities in the ordinary course of business. At August 31, 2004, the Company had a working capital deficiency of \$28,444, which is not sufficient to meet its planned business objectives or to fund mineral property expenditures and ongoing operations for the next twelve months. The Company has accumulated losses of \$461,443 since its commencement. Its ability to continue as a going concern is dependent upon the ability of the Company to obtain the necessary financing to meet its obligations and pay its liabilities arising from normal business operations when they come due.

Item 2. Management's Discussion and Analysis or Plan of Operation

FORWARD LOOKING STATEMENTS

This quarterly report contains forward-looking statements that involve risks and uncertainties. We use words such as anticipate, believe, plan, expect, future, intend and similar expressions to identify such forward-looking statements. You should not place too much reliance on these forward-looking statements. Our actual results are likely to differ materially from those anticipated in these forward-looking statements for many reasons, including the risks faced by us described in this Risk Factors section and elsewhere in this annual report.

Item 3. Controls and Procedures

As required by Rule 13a-15 under the Exchange Act, within the 90 days prior to the filing date of this report, the Company carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures. This evaluation was conducted by the sole director of the Company, who also acts as the Company's President, the Chief Executive Officer,

Edgar Filing: BROOKMOUNT EXPLORATIONS INC - Form 10QSB

and the Chief Financial Officer.

Based upon that evaluation, the Company concluded that the disclosure controls and procedures are effective. There have been no significant changes in the Company's internal controls or in other factors, which could significantly

affect internal controls subsequent to the date the Company carried out its evaluation.

Plan of Operation

Our plan of operations for the twelve months following the date of this annual report is to complete initial exploration programs on the Brookmount and Mercedes properties. We anticipate that these programs will cost \$10,000 and \$220,000 respectively.

In addition, we anticipate spending \$18,000 on professional fees, \$144,000 on salaries and wages, \$20,000 on travel costs, \$20,000 on promotional expenses and \$60,000 on other administrative expenses.

Total expenditures over the next 12 months are therefore expected to be \$472,000. We will not be able to proceed with either exploration program, or meet our administrative expense requirements, without additional financing.

We will not be able to complete the initial exploration programs on our mineral properties without additional financing. We currently do not have a specific plan of how we will obtain such funding; however, we anticipate that additional funding will be in the form of equity financing from the sale of our common stock. We may also seek to obtain short-term loans from our directors, although no such arrangement has been made. At this time, we cannot provide investors with any assurance that we will be able to raise sufficient funding from the sale of our common stock or through a loan from our directors to meet our obligations over the next twelve months. We do not have any arrangements in place for any future equity financing.

Results Of Operations for Nine-Month Period Ended August 31, 2004

We incurred operating expenses in the amount of \$230,683 for the nine-month period ended August 31, 2004, as compared to \$43,490 for the comparative period in 2003. At quarter end, we had cash on hand of \$30,286. Our liabilities at the same date totalled \$59,683 and consisted of accounts payable of \$9,145 and \$50,538 due to related parties.
