1,736,796 of Ordinary Shares Offered by Selling Shareholders

PROSPECTUS

B.O.S BETTER ONLINE SOLUTIONS LTD.

Through this prospectus, we may periodically offer up to a total dollar amount of \$6,250,000 of:

- (1) our ordinary shares,
- (2) our warrants, and
- (3) our units.

This prospectus provides you with a general description of the securities that we may offer. Each time we sell securities, we will provide a prospectus supplement that will contain specific information about the terms of the offering. The prospectus supplement may also add, update or change information contained in this prospectus. You should read both this prospectus and any prospectus supplement, together with additional information described below under the headings *Where You Can Find More Information*, and *Incorporation of Certain Documents by Reference* before purchasing any of our securities. BOS has not sold any securities pursuant to Instruction I.B.5. of Form F-3 during the period of 12 calendar months immediately prior to the date hereof. On May 8, the aggregate market value of our outstanding ordinary shares (all of which are voting) was \$6,904,582.

To the extent there is a conflict between the information contained in this prospectus and the prospectus supplement, you should rely on the information in the prospectus supplement, provided that if any statement in one of these documents is inconsistent with a statement in another document having a later date, for example, a document incorporated by reference in this prospectus or any prospectus supplement, the statement in the document having the later date modifies or supersedes the earlier statement.

In addition, the selling shareholders identified in this prospectus, may offer to sell up to 1,736,796 ordinary shares purchased in private placement transactions in 2007 and 2008, including up to 541,814 ordinary shares issuable to the selling shareholders upon the exercise of warrants that were issued in private placement transactions.

BOS is filing the registration statement of which this prospectus is a part at this time to fulfill a contractual obligation to do so, which the Company undertook at the time of the private placements.

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form F-3/A

We will not receive any of the proceeds from the sale of the ordinary shares by the selling shareholders other than the exercise price payable to us upon the exercise of the warrants held by the selling shareholders. We have agreed to bear all of the expenses in connection with the registration and sale of these ordinary shares other than underwriting discounts and sales commissions.

Our ordinary shares are traded on the NASDAQ Global Market under the symbol `BOSC` and, until May 10, 2009, on the Tel Aviv Stock Exchange (`TASE`) under the symbol `BOSC` . On May 7, 2009, the last reported sale price of our ordinary shares on the NASDAQ Global Market was \$0.54 per share and on the TASE was NIS2.406 per share. You are urged to obtain current market quotations for the ordinary shares.

In February 2009, we requested the TASE to delist our ordinary shares from trading, and following this request, the last day of trading of our ordinary share on the TASE was May 10, 2009. See `Recent Developments` .

The securities issued under this prospectus may be offered directly or through underwriters, agents or dealers. The names of any underwriters, agents or dealers will be included in a supplement to this prospectus.

You should read both this prospectus and any prospectus supplement, together with the additional information described under the heading `Incorporation of Certain Documents by Reference` before you decide to invest in our ordinary shares.

INVESTING IN OUR ORDINARY SHARES INVOLVES A HIGH DEGREE OF RISK. SEE `RISK FACTORS` BEGINNING ON PAGE 5 OF THIS PROSPECTUS TO READ ABOUT FACTORS YOU SHOULD CONSIDER BEFORE PURCHASING OUR ORDINARY SHARES.

Neither the Securities and Exchange Commission nor any state securities commission or the Israeli Securities Authority has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

PROSPECTUS SUMMARY

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission, or SEC, utilizing a shelf registration process, relating to the ordinary shares, warrants and units described in this prospectus. Certain selling shareholders referred to in this prospectus and identified in supplements to this prospectus may also offer and sell shares of our ordinary shares under this prospectus. Under this shelf process, we may sell the securities described in this prospectus in one or more offerings up to a total initial offering price of \$6,250,000. The selling shareholders may sell up to 1,736,796 ordinary shares in one or more offerings. The offer and sale of securities under this prospectus may be made from time to time, in one or more offerings in any manner described under the section in this prospectus entitled Plan of Distribution.

Each time we sell securities, we will provide a prospectus supplement that will contain specific information about the terms of that offering. The prospectus supplement may also add, update or change information contained in this prospectus. You should read both this prospectus and any prospectus supplement together with additional information described under the heading Where You Can Find More Information and Incorporation of Certain Documents by Reference.

This prospectus does not contain all of the information set forth in the registration statement, certain parts of which are omitted in accordance with the rules and regulations of the SEC. Accordingly, you should refer to the registration statement and its exhibits for further information about us and our ordinary shares. Copies of the registration statement and its exhibits are on file with the SEC. Statements contained in this prospectus concerning the documents we have filed with the SEC are not intended to be comprehensive, and in each instance we refer you to a copy of the actual document filed as an exhibit to the registration statement or otherwise filed with the SEC.

We have not authorized anyone to provide you with information different from that contained or incorporated by reference in this prospectus. The offers to sell and to buy our ordinary shares are made only in jurisdictions where offers and sales are permitted. The information contained in this prospectus is accurate only as of the date of this prospectus, regardless of the time of delivery of this prospectus or of any sale of ordinary shares.

Unless the context otherwise requires, all references in this prospectus to BOS, we, our, our company, us and the Company refer to BOS Better Online Solutions Ltd. and its consolidated subsidiaries.

All references in this prospectus to ordinary shares refer to our ordinary shares, nominal value NIS 4.00 per share.

All references in this prospectus to dollars or \$ are to United States Dollars.

THE COMPANY

We were incorporated in Israel in 1990 and are subject to the Israeli Companies Law 1999 - 5759. Our executive offices and engineering, development, testing, shipping and service operations are located in Israel and the USA.

Our telephone number is 972-3-954-1000 and our website address is www.boscorporate.com. Our subsidiaries' websites are: Odem Electronic Technologies 1992 Ltd. www.odem.co.il; Dimex Solutions Ltd. www.dimex.co.il and BOS Supply Chain Solutions (Summit), Inc. www.summitradio.com. The information contained on, or linked from, our websites is not a part of this prospectus.

3

We operate our business through two segments:

Supply Chain Solutions conducted through two wholly owned subsidiaries: Odem Electronic Technologies 1992 Ltd. (Odem) and BOS Supply Chain Solutions (Summit), Inc. (formally known as Summit Radio Corp.) (Summit) Our Supply Chain Solutions business offers a wide range of electronic components to customers in the aviation and aerospace industry that prefer to work with a limited number of suppliers such as BOS that are able to provide a comprehensive solution to their components-supply needs.

Mobile and RFID Solutions - conducted through our wholly owned subsidiary, Dimex Solutions Ltd. (previously named BOScom Ltd.) (Dimex Solutions). Our Mobile and RFID Solutions offering consist of three products and solutions that together are a comprehensive turn-key solution combining mobile infrastructure of manufacturers that we represent, middleware software and a software application.

In February 2009, in order to strengthen the BOS brand-name and as part of our group integration process, we decided to implement name changes of our wholly owned subsidiaries. Recently, Lynk USA, Inc., has changed its name to BOS Supply Chain Solutions (Lynk) Inc. and Summit Radio Corp. has changed its name to BOS Supply Chain Solutions (Summit), Inc. The following subsidiaries are in the process of the name change as follows:

Previous Name	New Name
Dimex Solutions Ltd.	BOS - RFID Solutions (Dimex) Ltd.
Odem Electronic Technologies 1992 Ltd.	BOS - Supply Chain Solutions (Odem) Ltd.

THE OFFERING

This prospectus relates to the sale by the Company of any combination of securities described in this prospectus in one or more offerings up to a total dollar amount of \$6,250,000. This prospectus provides you with a general description of the securities that we may offer. Each time we sell securities, we will provide a prospectus supplement that will contain specific information about the terms of the offering. The prospectus supplement may also add, update or change information contained in this prospectus. You should read both this prospectus and any prospectus supplement, together with additional information described below under the headings Where You Can Find More Information, and Incorporation of Certain Documents by Reference before purchasing any of our securities.

In addition, this prospectus relates to the offering by selling shareholders of up to 1,736,796 ordinary shares as follows:

up to 1,084,892 ordinary shares that were issued in private placements in June 2007 and December 2007;

up to 541,814 ordinary shares issuable to the selling shareholders upon the exercise of warrants that were issued in the December 2007 private placement; and

up to 110,000 ordinary shares that were issued to a selling shareholder in June 2008 as a finders' fee in connection with the acquisition of the assets of Dimex Systems (1988) Ltd. and Dimex Hagalil Ltd. (together Dimex Systems).

For additional details see Selling Shareholders .

BOS is filing the registration statement of which this prospectus is a part at this time to fulfill its contractual obligation to do so. Registration of the ordinary shares does not necessarily mean that all or any portion of such ordinary shares will be offered for sale by the selling shareholders.

RISK FACTORS

You should carefully consider the risks described below and all the information contained or incorporated by reference into this prospectus before making an investment decision regarding our ordinary shares. The risks described below are not the only risks facing our company. Additional risks and uncertainties that we are not aware of or that we currently believe are immaterial may also adversely affect our business, financial condition, results of operation and liquidity. The trading price of our ordinary shares could decline due to any of these risks, and you may lose all or part of your investment.

Risks relating to our financial results and capital structure:

The global economic slowdown has and may continue to have an adverse impact on our financial results.

We, like other companies, have been and are subject to the effects of market slowdowns. If general economic conditions fail to improve, or if they continue to deteriorate, our revenues, operating results and financial condition would be adversely affected. Revenues for the fourth quarter of 2008, amounted to \$11.5 million compared to \$13.4 million in the third quarter of 2008, a 14% decrease which reflects the impact of the economic slowdown on our business.

Our intangible assets as of December 31, 2008 amounted to \$7.8 million. Following the economic slowdown we recorded a goodwill impairment charge of \$1.9 million in 2008 related to the supply chain segment. If general economic conditions fail to improve, we may be required to record additional impairment charges.

Our customers debt is derived from sales to customers located primarily in Israel, South America, North America and Europe. We do not have any collateral or credit insurance in respect of the customers debt. The balance of allowance for bad debt as of December 31, 2008 amounted to \$65,000. If general economic conditions fail to improve, we may be required to record additional and significant allowances for bad debts.

We have had a history of losses and our future levels of sales and ability to achieve profitability are unpredictable.

As of December 31, 2008, we had an accumulated deficit of \$57 million. In 2008 we had a net loss of \$6.4 million. Our ability to maintain and improve future levels of sales and achieve profitability depends on many factors, which include:

successful integration of Summit which was acquired in November 2007 and of the assets of Dimex Systems, which were purchased in March 2008;

servicing the debt we have incurred for the financing of our acquisitions;

financing working capital needs by debt or equity;

continuing growth in the Aerospace industry and continued demand for our existing products;

developing and selling new products to meet customer needs;

controlling costs and successfully implementing our business strategy; and

manufacture and delivery of products in a timely manner.

There can be no assurance that we will be able to meet our challenges and experience any growth in sales or achieve profitability in the future or that the levels of historic sales or profitability experienced during previous years will continue in the future or that our net losses will not increase in the future.

We may be unable to maintain our gross profit margins.

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form F-3/A

Our sales and profitability may vary in any given year, and from quarter to quarter. In order to increase sales and enter into new markets with new products we may find it necessary to decrease prices in order to be competitive. Additionally, the gross profit margin of our Supply Chain Segment, whose sales accounted for 76% of our total sales in 2008 and 89% in 2007, tends to fluctuate. We may not be able to maintain current gross profit margins in the future, which would have a material adverse effect on our business.

We require a significant amount of cash to satisfy our debt obligations. If we fail to generate sufficient cash flow from operations, we may need to renegotiate or refinance our debt, obtain additional financing, postpone capital expenditures or sell assets. If we are forced to repay our short and long term bank loans in cash, we may not have enough cash to fund our operations.

As of December 31, 2008 we had \$9.6 million of short term bank loans drawn under a revolving credit facility, \$671,000 current maturities of long term loans and long terms loans in the amount of \$2.3 million. We depend mainly on our cash generated by continuing operating activities to make payments on our debts. We cannot assure that we will generate sufficient cash flow from operations to make the scheduled payments on our debt. Our ability to meet our debt obligations will depend on whether we can successfully implement our strategy, as well as on economic, financial, competitive and technical factors.

Some of the factors are beyond our control, such as economic conditions in the markets where we operate or intend to operate, changes in our customers demand for our products, and pressure from existing and new competitors. Also, because part of our loans bear interest at floating rates, we are susceptible to an increase in interest rates.

If we cannot generate sufficient cash flow from operations to make scheduled payments on our debt obligations, we may need to renegotiate the terms of our debt, refinance our debt, obtain additional financing, delay planned capital expenditures or sell assets.

If our lenders decline to renegotiate the terms of our debt in these circumstances, the lenders could declare all amounts borrowed and all amounts due to them under the agreements due and payable.

In addition, our short and long term bank loans contain certain provisions, restrictions and financial covenants, which if violated, could result in the full principal amounts together with interest and other amounts becoming immediately due and payable in cash.

If we do not have the cash resources to repay our indebtedness in such circumstances, our lenders could foreclose on our assets that are subject to liens and sell our assets to satisfy the debt.

Our assets are subject to security interests in favor of our lenders. Our failure to repay the bank loans, if required, could result in legal action against us, which could require the sale of all of our assets.

The repayment of our bank debt is secured by a first priority floating charge on all of our company's assets, present and future as they may be changing from time to time, and by a first priority fixed charge on all of the Company's issued and unpaid-for share capital, its goodwill and its shares of Dimex Solutions, Summit and Odem. In addition, the Company and its subsidiaries entered into a series of inter company guarantees in favor of our lenders.

If we are unable to repay the bank loans when due, our lenders could foreclose on our assets in order to recover the amounts due. Any such action would require us to curtail or cease operations.

Our debt obligations may hinder our growth and put us at a competitive disadvantage.

Our debt obligations require us to use a substantial portion of our operating cash flow to repay the principal and interest on our loans. This reduces funds available to grow and expand our business, limits our ability to pursue business opportunities and makes us more vulnerable to economic and industry downturns. The existence of debt obligations and covenants also limits our ability to obtain additional financing on favorable terms.

Due to restrictions in our loan agreements, we may not be able to operate our business as we desire.

Our loan agreements contain a number of conditions and limitations on the way in which we can operate our business, including limitations on our ability to raise debt, sell or acquire assets and pay dividends. Our loan agreements also contain various covenants which require that we maintain certain financial ratios related to shareholder s equity and operating results. These limitations and covenants may force us to pursue less than optimal business strategies or forgo business arrangements which could have been financially advantageous to our shareholders and us. Our

failure to comply with the covenants and restrictions contained in our loan agreements could lead to a default under the terms of these agreements.

The value of our holdings in affiliated companies may decline and adversely affect our financial results.

As of December 31, 2008 the Company held 6.1% of the outstanding shares of Surf Communication Systems Ltd., 17.87% of Qualmax Inc. (Qualmax) and 2.38% in New World Brands Inc. (New World Brands). Following the consummation of a merger of Qualmax with and into New World Brands in January 2009, our holdings in Qualmax were converted into shares of New World Brands, and consequently, we hold 15.6% of the outstanding shares of New World Brands. During 2008, an impairment in the amount of \$1.5 million was recorded in respect of these shareholdings. The book value of those investments as of December 31, 2008 amounted to \$882,000. We may record additional impairment in case of further deterioration in the business of these entities.

In August 2008, we reached an agreement for the sale to New World Brands of up to thirty-five (35) million shares of New World Brands common stock. During 2008, we sold to New World Brands a total of 6.6 million shares of New World Brands common stock. This agreement has expired.

Risks related to our business:

We depend on key personnel for the success of our business.

Our success depends, to a significant extent, on the continued active participation of our executive officers and other key personnel. In addition, there is significant competition for employees with technical expertise in our industry. In order to succeed we would need to be able to:

retain the executive officers and key technical personnel who have been involved in the development of our two divisions;

attract and retain additional qualified personnel to provide technological depth and support to enhance existing products and develop new products; and

attract and retain highly skilled computer operating, marketing and financial personnel.

We cannot make assurances that we will be successful in attracting, integrating, motivating and retaining key personnel. If we are unable to retain our key personnel and attract additional qualified personnel as and when needed, our business may be adversely affected.

Integration of our acquisitions requires significant financial and management resources and there is no assurance that the acquisitions may prove successful.

Over the past years we have pursued the acquisition of businesses, products and technologies and recently we completed two major acquisitions, of the U.S. based Summit, in November 2007, and of the assets of Dimex Systems, in March 2008.

Our growth increases the complexity of our operations, places significant demands on our management and our operational, financial and marketing resources and involves a number of challenges, including:

7

managing geographically dispersed operations;

retaining and motivating key personnel of the acquired businesses;

assimilating different corporate cultures;

preserving the business relationships with existing key customers and suppliers;

maintaining uniform standards, controls, procedures and policies; and

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form F-3/A

introducing joint products and service offerings.

There can be no assurance that we will be able to successfully integrate and manage our recent acquisitions in order to maintain and grow the combined business and maximize the potential synergies.

Further, once integrated, acquisitions may not achieve comparable levels of revenues, profitability or productivity as our existing business or otherwise perform as expected. The occurrence of any of these events could harm our business, financial condition or results of operations.

We may be unable to effectively manage our growth and expansion, and as a result, our business results may be adversely affected.

Our goal is to grow significantly over the next few years. The management of our growth, if any, will require the continued expansion of our operational and financial control systems, as well as a significant increase in our financial resources and in our delivery and service capabilities. These factors could place a significant strain on our resources.

Our inability to meet our delivery commitments in a timely manner (as a result of unexpected increases in orders, for example) could result in losses of sales, our exposure to contractual penalties, costs or expenses, as well as damage to our reputation in the marketplace.

Our inability to manage growth effectively could have a material adverse effect on our business, financial condition and results of operations.

If our efforts to raise capital do not succeed, our efforts to increase our business may be seriously jeopardized.

A significant part of the revenues of our supply chain business are from two major customers Israel Aircraft Industries (IAI) and a strategic Latin American customer (the Strategic Customer).

Our business relationship with IAI and the Strategic Customer accounted for 11% and 13% of our year 2008 revenues, respectively. An interruption in our business relationship with either of these customers would result in a significant reduction in our revenues, backlog and in a write-off of inventory, and would have a material adverse effect on our business and results of operations.

Our long term sales agreement with IAI will end by December 2010. In July 2008, we signed a contract for the sale of components to the Strategic Customer. The contract, provides for a framework for orders during an initial five-year term (until 2012). The contract may be extended for additional five-year terms. Pursuant to the contracts with IAI and the Strategic Customer, we committed to a fixed components sale price through the respective contract periods. Each of our agreements with IAI and the Strategic Customer subjects us to the following risks:

Significant appreciation in the cost price of electronic components may materially adversely impact our financial results.

Our sales agreements with IAI and the Strategic Customer provide for the supply of electronic components at a fixed sales price. Absent the flexibility to increase our prices as a result of increased costs of the components, significant increased costs may adversely impact our financial results.

The relationship with IAI and the Strategic Customer requires us to hold a large inventory, in order to meet short lead time and delivery requirements. If we are unable to sell this inventory on a timely basis, we could incur charges for excess and obsolete inventory, which would materially adversely affect our results of operations.

8

Under the agreements with IAI and the Strategic Customer, we are obligated to hold inventory of products necessary for three months of production. This requires us to incur the costs of purchasing inventory without having an outstanding purchase order for the products. If we are unable to sell products that are purchased to hold in inventory, we may incur write-offs and write-downs as a result of slow-moving items, technological obsolescence, excess inventories, discontinued products and products with market prices lower than cost. Such write-offs and write-downs could adversely affect our operating results and financial condition.

If we are unable to provide certain requested components, the entire order which includes these components may be cancelled.

Supply Chain solution programs of electronic components accommodate the preference of customers to work with a limited number of suppliers that will be able to provide a wide range of electronic components under one order. In the event we are not able to provide certain of the components ordered, the customer could elect to terminate the entire order before its delivery. This could cause us to remain with excess and obsolete inventory and would adversely affect our results of operations.

The continued growth of our Mobile and RFID Solutions segment depends on our ability to expand sales abroad.

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form F-3/A

In 2008, our Mobile and RFID Solutions revenues that were generated from sales outside of Israel amounted to \$2.4 million or 19.4% of the entire Mobile and RFID Solutions revenues. Continued growth of this segment depends on our ability to further increase our sales abroad. There can be no assurance that we will be able to maintain and increase our revenues from these markets.

Certain customers of our Supply Chain Solutions may cancel purchase orders they placed before the delivery.

Certain purchase orders of our Supply Chain Solutions provide that they may be canceled by the customer before delivery. In the event substantial orders are so cancelled, there is no assurance that we will be able to sell the pre-purchased inventory at a profit, or at all. This could result in excess and obsolete inventory and could have a material adverse effect on our results of operations.

The Company's subsidiary, Summit, engages in a number of business activities governed by Federal Regulations, which if violated, could subject the Company to civil or criminal fines and penalties.

The Company's subsidiary, Summit, engages in a number of business activities governed by the Federal Acquisition Regulations (FAR), the Defense Federal Acquisition Regulations (DFAR) and the export control provisions of the International Traffic In Arms Regulations (ITAR) of the Department of State. The FAR and DFAR regulate business with the U.S. Department of Defense as well as other U.S. Government agencies regardless of whether a company serves in the role of a prime contractor (in direct privity of contract with the governmental agency) or as a subcontractor to a prime contractor, regardless of how many tiers down the contracting chain. Violation of the FAR or DFAR can result in civil and criminal fines and other penalties, including suspension or debarment from the ability to do business with any agency of the Federal Government, whether directly or indirectly. Much of the Summit's business, regardless of whether with the Federal Government, involves compliance with the ITAR, the export control regulations for the export of defense articles, technology or defense services. ITAR violations are, in effect, a violation of the Arms Export Control Act. Fines and penalties can be civil or criminal. Civil fines are \$250,000 per violation or twice the value of the transaction. Criminal violations include fines of \$1,000,000 per violation both for individuals and entities. Violation of the ITAR can also lead to loss of export privileges for up to four years.

We have terminated our business relationship with the US distributor of our BOSâNOVA Suite Solution (one of the products of Mobile and RFID Solutions segment). Consequently, we may experience an interruption or decrease in sales, which may have a material adverse effect on our business.

We have been marketing our BOSâNOVA Suite Solutions in the United States through one key distributor. In 2008 and 2007 our sales through this distributor accounted for 2% and 4% of our total sales, respectively, and for approximately 7% and 18% of our gross profit, respectively. We have recently terminated our business relationship with this distributor and intend to market and support the BOSâNOVA Suite Solutions in the US directly, through our New Jersey operation. We cannot assure that the transition will be successful and we may experience a reduction in our gross profit, which could have a material adverse effect on our business. In addition, the former distributor has recently commenced a lawsuit against Dimex Solutions seeking unspecified damages as a result of Dimex's alleged failure to provide the required level of technical support under the distribution agreement. The Company intends to contest this lawsuit vigorously.

We are required to make additional payments towards the acquisition of the assets of Dimex Systems.

Pursuant to the Dimex Asset Purchase Agreement we are required to pay to the sellers an additional amount of approximately NIS10 million (approximately \$2.6 million, based on a 3.802 NIS to Dollar currency exchange rate), in three installments. The first installment of NIS3.5 million was made in March 2009 and the remaining amount is payable during the year 2010. See: Recent Developments .

If we are unable to make these payments, we will be in breach of contract and our financial position, and results of operation could be adversely affected.

We rely on certain key suppliers.

Most of our sales rely on products of certain key suppliers, which we represent. 49% of our 2008 Supply Chain Solutions segment purchases were sourced from five suppliers.

In the event that any of our key suppliers becomes unable to fulfill our requirements in a timely manner or if we cease our business relationship with these suppliers, we may experience an interruption in delivery until an alternative source of supply can be obtained.

Future changes in industry standards may have an adverse effect on our business.

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form F-3/A

New industry standards in the aviation and defense industry could cause a portion of our Supply Chain Solution segment's inventory to become obsolete and unmarketable which would adversely affect our results of operations.

If revenue levels for any quarter fall below our expectations, our results of operations will be adversely affected.

Our revenues in any quarter are substantially dependent on orders received and delivered in that quarter. We base our decisions regarding our operating expenses on anticipated revenue trends, and our expenses levels are relatively fixed, or require some time for adjustment. As a result, revenue levels below our expectations will adversely affect our results of operations. In the fourth quarter of 2008 we faced a significant reduction in revenues which declined to \$11.5 million from \$13.4 million in the third quarter of 2008.

Foreign currency fluctuations significantly impact on our business results.

The vast majority of our sales are made in U.S. dollars and a significant part of our expenses is in New Israel Shekels (NIS). Our NIS related costs, as expressed in U.S. dollars, are influenced by the exchange rate between the U.S. dollar and the NIS. In 2008, and through April 30, 2009, the U.S. dollar depreciated against the NIS by approximately 7.8%, which resulted in a significant increase in the U.S. dollar cost of our NIS expenses. We cannot predict any future trends in the rate of devaluation or appreciation of the NIS against the U.S. dollar. Further significant depreciation could have an adverse effect on our results of operations and financial condition.

The rate of inflation in Israel may negatively impact our costs if it exceeds the rate of devaluation of the NIS against the U.S. dollar. Similarly, the U.S. dollar cost of our operations in Israel will increase to the extent increases in the rate of inflation in Israel are not offset by a devaluation of the NIS in relation to the U.S. dollar.

A substantial amount of our revenues is denominated in U.S. dollars or is U.S. dollar-linked, but we incur a significant portion of our expenses, principally the rent for our facilities in Israel and salaries and related personnel expenses in Israel, in NIS. As a result, we are exposed to the risk that the rate of inflation in Israel will exceed the rate of devaluation of the NIS in relation to the U.S. dollar or that the timing of this devaluation lags behind inflation in Israel. In that event, the U.S. dollar cost of our operations in Israel will increase and our U.S. dollar-measured results of operations will be adversely affected.

10

Similarly, we are exposed to the risk that the NIS, after adjustment for inflation in Israel, will appreciate in relation to the U.S. dollar. In that event, the dollar cost of our operations in Israel will increase and our dollar-measured results of operations will be adversely affected. During 2006, 2007 and 2008, the inflation adjusted NIS appreciated against the U.S. dollar, which raised the dollar cost of our Israeli operations. We cannot predict whether in the future the NIS will appreciate against the U.S. dollar or vice versa. Any increase in the rate of inflation in Israel, unless the increase is offset on a timely basis by a devaluation of the NIS in relation to the U.S. dollar, will increase labor and other costs, which will increase the dollar cost of our operations in Israel and harm our results of operations.

To date, we have not engaged in hedging transactions. In the future, we may enter into currency hedging transactions to decrease the risk of financial exposure from fluctuations in the exchange rate of the U.S. dollar against the NIS. Even if we perform hedging transactions, they may not adequately protect us from the effects of inflation in Israel.

We may be unable to maintain and continue developing marketing and distribution arrangements and expand our reach into overseas markets.

Sales outside Israel accounted for 42% of our total sales in 2008 and for 33% in 2007. If we are not able to maintain our existing distribution channels and expand to new international markets, our operating results may be materially adversely affected.

If we are unsuccessful in developing and introducing new products, we may be unable to expand our business.

The market for some of our products is characterized by rapidly changing technology and evolving industry standards. The introduction of products embodying new technology and the emergence of new industry standards can render existing products obsolete and unmarketable and can exert price pressures on existing products.

Our ability to anticipate changes in technology and industry standards and successfully develop and introduce new and enhanced products as well as additional applications for existing products, in each case on a timely basis, will be critical in our ability to grow and remain competitive. Although these products are related to, and even incorporate our existing products, there can be no assurance that we will be able to successfully develop and market any such new products. If we are unable to develop products that are competitive in technology and price and

responsive to customer needs, for technological or other reasons, our business will be materially adversely affected.

We have significant sales worldwide and could encounter problems if conditions change in the places where we market our products.

We have sold and intend to continue to sell our products in North and South America and in Europe.

A number of risks are inherent in engaging in international transactions, including:

possible problems in collecting receivables;

imposition of governmental controls, or export license requirements;

political and economic instability in foreign countries;

trade restrictions or changes in tariffs being imposed; and

laws and legal issues concerning foreign countries.

11

If we should encounter such difficulties in conducting our international operations, it may adversely affect our business condition and results of operations.

We may be unable to successfully defend ourselves against claims brought against us.

We are defendants in a number of lawsuits filed against us, and from time to time in the normal course of our business, may receive written demands for payments from prospective plaintiffs. Legal proceedings can be expensive, lengthy and disruptive to normal business operations, and can require extensive management attention and resources regardless of their merit. Moreover, we cannot predict the results of all proceedings and there can be no assurance that we will be successful in defending ourselves against them. An unfavorable resolution of a lawsuit or proceeding could materially adversely affect our business, results of operations and financial condition.

We may be obligated to indemnify our directors and officers.

The Company has agreements with its directors and senior officers which provide, subject to Israeli law, for the Company to indemnify these directors and senior officers for (a) monetary liability imposed upon them in favor of a third party by a judgment, including a settlement or an arbitral award confirmed by the court, as a result of an act or omission of such person in his capacity as a director or officer of the Company, (b) reasonable litigation expenses, including attorney's fees, incurred by them pursuant to an investigation or a proceeding commenced against them by a competent authority and that was terminated without an indictment and without having a monetary charge imposed on them in exchange for a criminal procedure (as such terms are defined in the Israeli Companies Law), or that was terminated without an indictment but with a monetary charge imposed on them in exchange for a criminal procedure in a crime that does not require proof of criminal intent, as a result of an act or omission of such person in his capacity as a director or officer of the Company, and (c) reasonable litigation expenses, including attorney's fees, incurred by such a director or officer or imposed on him by a court, in a proceeding brought against him by or on behalf of the Company or by a third party, or in a criminal action in which he was acquitted, or in a criminal action which does not require criminal intent in which he was convicted, in each case relating to acts or omissions of such person in his capacity as a director or officer of the Company. Such indemnification may materially adversely affect our financial condition.

The measures we take in order to protect our intellectual property may not be effective or sufficient.

Our success is dependent upon our proprietary rights and technology. We currently rely on a combination of trade secret, copyright and trademark law, together with non-disclosure and invention assignment agreements, to establish and protect the proprietary rights and technology used in our products. We generally enter into confidentiality agreements with our employees, consultants, customers and potential customers and limit the access to and the distribution of our proprietary information. Despite these precautions, it may be possible for a third party to copy or otherwise obtain and use our technology without authorization, or to develop similar technology independently. We do not believe that our products and proprietary rights infringe upon the proprietary rights of others. However, there can be no assurance that any other party will not argue otherwise. The cost of responding and adequately protecting ourselves against any such assertion may be material, whether or not the assertion is valid. Further, the laws of certain countries in which we sell our products do not protect our intellectual property rights to the same extent as do the laws of the United States. Substantial unauthorized use of our products could have a material adverse effect on our business. We cannot make assurances that our means of protecting our proprietary rights will be adequate or that our competitors will not

independently develop similar technology. Additionally, there are risks that arise from the use of intranet networks and the Internet. Although we utilize firewalls and protection software, we cannot be sure that our proprietary information is secured against penetration. Such penetration, if occurs, could have an adverse effect on our business.

There can be no assurance that we will not be classified as a passive foreign investment company (a PFIC).

Based upon our current and projected income, assets and activities, we do not believe that at this time BOS is a passive foreign investment company (a PFIC) for U.S. federal income tax purposes, but there can be no assurance that we will not be classified as such in the future. Such classification may have grave tax consequences for U.S. shareholders. One method of avoiding such tax consequences is by making a qualified electing fund election for the first taxable year in which the Company is a PFIC. However, such an election is conditioned upon our furnishing U.S. shareholders annually with certain tax information. We do not presently prepare or provide such information, and such information may not be available to U.S. shareholders if we are subsequently determined to be a PFIC.

12

Risks related to our ordinary shares:

Our share price has been and may continue to be volatile, which could result in substantial losses for individual shareholders.

The market price of our ordinary shares has been and may continue to be highly volatile and subject to wide fluctuations. From January 2008 through April 30, 2009, the daily closing price of our ordinary shares in NASDAQ has ranged from \$0.22 to \$2.05 per share and in the TASE has ranged from NIS1.95 to NIS7.75. We believe that these fluctuations have been in response to a number of factors including the following, some of which are beyond our control:

adverse world economic and capital market conditions;

actual or anticipated variations in our quarterly operating results;

increase in our bank debts;

the acquisition of Summit and of the assets of Dimex Systems;

additions or departures of key personnel;

changes in our target markets, especially in the aviation industry;

sales of securities in private placements during 2009; and

devaluation of the U.S. dollar against the NIS, which caused a corresponding decrease in the NIS-quoted share price on the TASE. From January 2008 through, April 30, 2009 the devaluation of the dollar against the NIS was 7.8%.

In addition, the stock market in general, and stocks of technology companies in particular, have from time to time experienced extreme price and volume fluctuations. This volatility is often unrelated or disproportionate to the operating performance of these companies. These broad market fluctuations may adversely affect the market price of our ordinary shares, regardless of our actual operating performance.

The Company's shares may be delisted from the NASDAQ Global Market if it does not meet NASDAQ's continued listing requirements.

In late 2002 and early 2003 the Company received notice from the NASDAQ Stock Market that its ordinary shares were subject to delisting from the NASDAQ Global Market for failure to meet NASDAQ's minimum bid price and shareholders' equity requirements (\$10 million) for continued listing on the Global Market. Following a hearing, during 2003, we were notified by NASDAQ that we had regained compliance.

On August 30, 2004, we received notice from the NASDAQ Stock Market that our ordinary shares were subject to delisting from the NASDAQ Global Market for failure to meet NASDAQ's minimum market value of publicly held shares requirement (\$5 million) for continued listing on the Global Market. On November 4, 2004, we were notified by NASDAQ that we had regained compliance with this requirement.

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form F-3/A

On January 25, 2005, we received notice from the NASDAQ Stock Market that we were not in compliance with the minimum \$10 million shareholders' equity requirement for continued listing on the Global Market. Following that notice, on January 28, 2005, we received an additional notice indicating that based on further review of our financial statements as they appeared in our filing on Form 6-K dated January 10, 2005, it was determined that the shareholders' equity was \$10,601,000 on a pro forma basis as of September 30, 2004. Therefore we were in compliance with the stockholders' equity requirement for continued listing on the Global Market and the matter had been closed.

13

On June 2, 2005, the Company again received notice from the NASDAQ Stock Market indicating that based on the results for the period ended March 31, 2005, the shareholders' equity was \$9,425,000, and accordingly not in compliance with the minimum \$10,000,000 shareholders' equity requirement for continued listing on the Global Market. In June 2005, the Company regained compliance with NASDAQ's minimum \$10,000,000 shareholders' equity requirement for continued listing on the Global Market.

The Company's share has recently traded at a price below the NASDAQ's minimum bid price of \$1.00 and its market value of publicly held shares is below the minimum required of \$5 million. NASDAQ has suspended these continued listing requirements through July 20, 2009. There can be no assurance that we will be able to meet and continue to meet these or other NASDAQ requirements to maintain our NASDAQ Global Market listing, in which case we will seek to transfer the listing of our ordinary shares to the NASDAQ Capital Market, of which there can be no assurance.

14

Risks related to our location in Israel:

Political, economic, and security conditions in Israel affect our operations and may limit our ability to produce and sell our products or provide our services.

We are incorporated under the laws of the State of Israel, where we also maintain our headquarters and our principal research and development and sales and marketing facilities. Political, economic, security and military conditions in Israel directly influence us. We could be adversely affected by any major hostilities involving Israel, the interruption or curtailment of trade between Israel and its trading partners or a significant downturn in the economic or financial condition of Israel. In January 2006, Hamas, an Islamic movement responsible for many attacks against Israelis, won the majority of the seats in the Parliament of the Palestinian Authority. The election of a majority of Hamas-supported candidates is a major obstacle to relations between Israel and the Palestinian Authority, as well as to the stability in the Middle East as a whole. In addition, the future of the "peace process" with the Palestinians is uncertain and has deteriorated due to Palestinian violence, with the threat of a large-scale attack by Palestinians on Israeli civilians and key infrastructure remaining a constant concern. The past few years of renewed terrorist attacks by the Palestinians has severely affected the Israeli economy in many ways. In June 2007, there was an escalation in violence in the Gaza Strip resulting in Hamas effectively controlling the Gaza Strip and a further escalation in violence has occurred during the first few months of 2008. In July 2006, Israel became involved in a major military conflict with the Hizbullah organization in Lebanon, which subjected the north of Israel to missile attacks. In December 2008, Israel was involved in a military conflict with Hamas, which subjected the South of Israel to missile attacks. Ongoing violence between Israel and the Palestinians as well as tension between Israel and the neighboring Syria and Lebanon may have a material adverse effect on our business, financial condition and results of operations. In addition, several countries still restrict business with Israel and with companies doing business in Israel. We could be adversely affected by adverse developments in the "peace process" or by restrictive laws or policies directed towards Israel or Israeli businesses.

Generally, all nonexempt male adult citizens and permanent residents of Israel, are obligated to perform military reserve duty annually, and are subject to being called to active duty at any time under emergency circumstances. While we have operated effectively under these requirements since our incorporation, we cannot predict the full impact of such conditions on us in the future, particularly if emergency circumstances occur. If many of our employees are called for active duty, our business may be adversely affected.

Additionally, in recent years Israel has been going through periods of recession in economic activity, resulting in low growth rates and growing unemployment. Our operations could be adversely affected if the economic conditions in Israel deteriorate. Also, due to significant economic reforms proposed by the Israeli government, there have been several general strikes and work stoppages in 2003 and 2004, affecting all banks, airports and ports. Such strikes or work stoppages have an adverse effect on the Israeli economy and on our business. Furthermore, Israel is a party to certain trade agreements with other countries, and material changes to these agreements could have an adverse effect on our business.

The anti-takeover effects of Israeli laws may delay or deter a change of control of the Company.

Under the Israeli Companies Law, a merger is generally required to be approved by the shareholders and Board of Directors of each of the merging companies. Shareholder approval is not required if the company that will not survive the merger is controlled by the surviving company. Additionally, the law provides some exceptions to the shareholder approval requirement in the surviving company. Shares held by a party to the merger and certain of its affiliates are not counted towards the required approval. If the share capital of the company that will not be the surviving company is divided into different classes of shares, the approval of each class is also required. A merger may not be approved if the surviving company will not be able to satisfy its obligations. At the request of a creditor, a court may block a merger on this ground. In addition, a merger can be completed only after all approvals have been submitted to the Israeli Registrar of Companies, provided that 30 days have elapsed since shareholder approval was received and 50 days have passed from the time that a proposal for approval of the merger was filed with the Registrar.

The Israeli Companies Law provides that an acquisition of shares in a public company must be made by means of a tender offer, if as a result of the acquisition, the purchaser would become a holder of 25% or more of the voting power at general meetings, and no other shareholder owns a 25% stake in the Company. Similarly, the Israeli Companies Law provides that an acquisition of shares in a public company must be made by means of a tender offer if, as a result of the acquisition, the purchaser would become a holder of 45% or more of the voting power at general meetings, unless someone else already holds 45% of the voting power. An acquisition from a 25% or 45% holder, which results in the purchaser becoming a 25% or 45% holder respectively, does not require a tender offer. An exception to the tender offer requirement may also apply when the additional voting power is obtained by means of a private placement approved by the general meeting of shareholders. These rules also do not apply if the acquisition is made by way of a merger.

The Israeli Companies Law also provides specific rules and procedures for the acquisition of shares held by minority shareholders, if the majority shareholder shall hold more than 90% of the outstanding shares.

These laws may have the effect of delaying or deterring a change in control of the Company, thereby limiting the opportunity for shareholders to receive a premium for their shares and possibly affecting the price that some investors are willing to pay for the Company's securities.

All of our directors and most of our officers are non-U.S. residents and enforceability of civil liabilities against them is uncertain.

All of our directors and most of our officers reside outside of the United States. Service of process upon them may be difficult to effect within the United States. Furthermore, because the majority of our assets are located in Israel, any judgment obtained in the United States against us or any of our directors and non-U.S. officers may not be collectible within the United States.

FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements that are intended to be, and are hereby identified as, forward looking statements for the purposes of the safe harbor provisions of the Private Securities Reform Act of 1995. These statements address, among other things: our strategy; the anticipated development of our products; the results of completed acquisitions and our ability to make future acquisitions; our anticipated use of proceeds; our projected capital expenditures and liquidity; our development of additional revenue sources; our development and expansion of relationships; the market acceptance of our products; and our technological advancement. Actual results could differ materially from those anticipated in these forward-looking statements as a result of various factors, including all the risks discussed above and elsewhere in this prospectus. You should therefore not rely on these forward-looking statements, which are applicable only as of the date hereof.

We urge you to consider that statements which use the terms *believe*, *do not believe*, *expect*, *plan*, *intend*, *estimate*, *anticipate*, *projections*, *forecast* and similar expressions are intended to identify forward-looking statements. These statements reflect our current views with respect to future events and are based on assumptions and are subject to risks and uncertainties. Except as required by applicable law, including the federal securities laws of the United States, we do not intend to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. We disclaim any obligation to publicly revise any such statements to reflect any change in expectations or in events, conditions, or circumstances on which any such statements may be based.

Market data and forecasts used in this prospectus have been obtained from independent industry sources. We have not independently verified the data obtained from these sources and we cannot assure you of the accuracy or completeness of the data. Forecasts and other forward-looking information obtained from these sources are subject to the same qualifications and additional uncertainties accompanying any estimates of future market size.

RECENT DEVELOPMENTS

On November 19, 2008 the Company announced that Shmuel Koren, its President and CEO tendered his resignation from the Company. Mr. Koren was replaced by Mr. Shalom Daskal.

In February 2009, the Company sold its OptimizeIT product and related IP in consideration for US\$70,000 plus contingent consideration based on future revenues of up to US\$1.5 million.

On February 11, 2009 the Company announced that it requested the TASE to delist its shares from trading in Tel Aviv. Under applicable Israeli law, the delisting will become effective in three months from the request, during such time the Company's ordinary shares will continue to trade on the TASE. The delisting of the Company's ordinary shares from trade on the TASE shall be effective on May 12, 2009. The last day for trading of the Company's ordinary shares on the TASE was May 10, 2009. The delisting of the ordinary shares from the TASE will not affect the continued listing of the ordinary shares on the NASDAQ Global Market under the symbol BOSL. After the delisting of the Company's ordinary shares from the TASE, the Company will not be subject to reporting requirements in Israel.

In March 2009, the Company entered into an agreement with Dimex Systems that revises the payment schedule of approximately NIS 10 million still owed by the Company under the Dimex Asset Purchase Agreement dated January 29, 2008. The aforementioned amount was payable in three semi-annual installments through March 2010. The amendment to the agreement provides for a NIS 3 million payment in March 2009, NIS 4 million will be paid in 6 equal monthly installments each, starting on January 15, 2010, and the remaining approximately NIS 2.5 million shall be paid in two equal installments in March and April 2010. The amendment further provides, that if the Company raises funds by way of a debt offering meeting certain conditions, the last payment of approximately NIS 2.5 million shall be converted into the same type of convertible debentures issued in the framework of such offering.

On March 23, 2009, the Company and its Israeli subsidiaries executed revised loan documents governing the Company's and its Israeli subsidiaries' short term revolving credit line from Bank Leumi Le Israel Ltd. (Bank Leumi). In the revised loan documents, the Company and its Israeli subsidiaries undertook updated covenants relating to, among other things, financial ratios of equity and EBIDTA, and continue to provide Bank Leumi with various security interests and cross guarantees. The loan terms continue to restrict substantial asset sales, cash dividends, and certain inter-company and shareholders payments.

USE OF PROCEEDS

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form F-3/A

All of the proceeds from the sale of the ordinary shares offered under this prospectus by selling shareholders are for the account of the selling shareholder. Accordingly, we will not receive any proceeds from the sales of these shares other than the exercise price payable to us upon the exercise of warrants held by the selling shareholder.

Unless we state otherwise in a prospectus supplement, we will use the net proceeds for the sale of securities we offer pursuant to this prospectus for general corporate purposes. From time to time we may evaluate the possibility of acquiring businesses, products and technologies, and we may use a portion of the proceeds as consideration for such acquisitions. Until we use net proceeds for these purposes, we may invest them in interest-bearing deposits.

DILUTION

We will set forth in a prospectus supplement the following information regarding any material dilution of the equity interests of investors purchasing securities in an offering under this prospectus:

the net tangible book value per share of our equity securities before and after the offering;

the amount of the increase in such net tangible book value per share attributable to the cash payments made by purchasers in the offering; and

the amount of the immediate dilution from the public offering price which will be absorbed by such purchasers.

SELLING SHAREHOLDERS

This prospectus relates to the offering by selling shareholders of up to 1,736,796 ordinary shares as follows:

June 2007 Private Placement

226,415 ordinary shares that were issued in a private placement to a non-U.S. investor in June 2007, pursuant to a Share Purchase Agreement entered into on June 19, 2007, which is attached as an exhibit hereto. The ordinary shares were issued at a price per share of \$2.65, reflecting a \$600,000 investment in total.

December 2007 Private Placement

833,560 ordinary shares that were issued in a private placement to four non-U.S. investors in December 2007, pursuant to a Share Purchase Agreement entered into on December 31, 2007, which is attached as an exhibit hereto. The ordinary shares were issued at a price per share of \$2.40, reflecting an aggregate investment of approximately \$2 million.

25,007 ordinary shares that were issued to Catalyst Fund. These ordinary shares were issued as fees for services rendered to the Company by Cukierman & Co. Investment House, an affiliate of Catalyst Fund, in connection with the December 2007 private placement. Additional placement fees, amounting to approximately \$30,000 and expenses reimbursement of \$18,000 were paid in cash to D.S. Apex.

up to 541,814 ordinary shares issuable to the four non-U.S. investors upon the exercise of warrants that were issued to them. The exercise price of the warrants is \$2.76 per ordinary share. The terms of the warrants appear in the Warrant Agreement issued to the investors pursuant to the Share Purchase Agreement, and which is attached as an exhibit hereto.

The Company also entered into a Registration Rights Agreement pursuant to which the Company is filing this registration statement.

(3) Catalyst Fund refers collectively to Catalyst Fund L.P., Catalyst Fund II L.P. and Catalyst Fund III, L.P., all of which are limited partnerships organized and existing under the laws of the State of Israel, and which share the same general partner, Catalyst Investments L.P. Mr. Edouard Cukierman may be deemed to have sole voting and dispositive power with respect to the shares offered for resale by Catalyst Fund. Mr. Cukierman disclaims beneficial ownership in such shares, except to the extent of his proportionate interest in them as an indirect limited partner in the Catalyst Fund.

Catalyst Investments L.P. has entered into an agreement with Catalyst Fund, pursuant to which during 2009, Catalyst Investments L.P. shall purchase from Catalyst Fund ordinary shares in the aggregate amount of approximately \$380,000 (the "GP Shares"). The GP Shares shall be purchased in several installments, and the number of GP Shares to be purchased in each installment shall be calculated on the

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form F-3/A

basis of the weighted average of the closing prices of the shares on the NASDAQ Global Market during the thirty-day period prior to the purchase. In January 2009, a total of 464,160 GP Shares were purchased for a total of \$116,040.

- (4) Number of shares includes the maximum number of shares that may be received by the selling shareholders upon the full exercise of warrants they hold into ordinary shares.
- (5) Yuvalim Provident and Hishtalmut Fund Management Ltd. was merged into Apex Provident Funds Management Ltd. Apex Provident Funds Management Ltd. and Yuvalim Pension Fund Ltd. are affiliated with DS Apex Holdings Ltd. K.G.M. Provident Fund and Hishtalmut Fund is wholly-owned by Yuvalim Provident and Hishtalmut Fund Management Ltd. Each fund is managed by different investment managers that comprise an investment committee, which holds voting and dispositive power over the shares held by such fund as trustee for the fund's members. The investment managers of Apex Provident Funds Management Ltd. are Avikam Beller, Ofer Orlitzky and Galit Harel. The investment managers of Yuvalim Pension Fund are Michael Miller, Eli Eyal Shlesinger and Danny Heller. Each such investment manager disclaims any beneficial ownership except to the extent of his respective pecuniary interest therein. DS Apex Holdings Ltd. is a public company traded on the TASE. The general managers of DS Apex Holdings Ltd. do not have voting or investment power over the shares held by funds affiliated with DS Apex Holdings Ltd. DS Apex Holdings Ltd. holds 100% of the interests of DS Apex Securities & Investment Management Ltd., a member of the TASE and a broker-dealer under Israeli law. Accordingly, DS Apex Holdings Ltd. and its affiliated entities are affiliates of a broker-dealer.

The securities held by the funds and included herein were acquired in the ordinary course of the funds investment business and not for the purpose of resale or distribution nor are there any agreements or understandings, directly or indirectly, with any person to distribute these securities.

D.S. Apex Holdings Ltd., the parent company of the three shareholders (as indicated above), also holds an aggregate of 525,157 of shares for their nostro accounts.

- (6) T.F.E. Holdings Ltd. is controlled by Mr. Erez Kuperberg.

DESCRIPTION OF ORDINARY SHARES

The following is a summary description of our Ordinary Shares under our Articles of Association.

Dividend and Liquidation Rights. All holders of paid-up Ordinary Shares of the Company have an equal right to participate in a distribution of (i) dividends, whether by cash or by bonus shares; (ii) Company assets; and (iii) the Company's surplus assets upon winding up, all pro rata to the nominal value of the shares held by them.

23

The Board of Directors may issue shares and other securities, which are convertible or exercisable into shares, up to the limit of the Company's authorized share capital.

The Company's Board of Directors is the organ authorized to decide upon the distribution of dividends or bonus shares.

Voting, Shareholders Meetings, Notices and Resolutions. Holders of paid-up Ordinary Shares have one vote for each share held on all matters submitted to a vote of shareholders. Such voting rights may be affected in the future by the grant of any special voting rights to the holders of a class of shares with preferential rights.

The quorum required for a general meeting of shareholders (whether annual or special) consists of at least two shareholders present in person or by proxy/voting instrument and holding, or representing, at least 33 1/3% of the voting rights of the issued share capital. A meeting adjourned for lack of quorum shall be postponed by one week, to the same day, time and place, or to a later time if stated in the invitation to the meeting or in the notice of the meeting. The quorum for the commencement of the adjourned meeting shall be any number of participants.

Unless otherwise determined by the Israeli Companies Law 1999 or the Company's Articles of Association, a resolution requires approval by the holders of a majority of the shares represented at the meeting, in person or by proxy, and voting thereon.

The Companies Law 1999 requires that certain transactions, actions and arrangements be approved by shareholders, including (i) arrangements with a director as to the terms of his office and compensation and arrangements for insurance, exemption and indemnity of directors; (ii) certain Extraordinary Transactions (as defined in the Companies Law) of the Company with its controlling shareholders or any Extraordinary Transaction in which a controlling shareholder has a personal interest; (iii) certain private placements; and (iv) any action or Extraordinary Transaction in which the majority of the members of the Board of Directors have a personal interest.

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form F-3/A

Each shareholder of record is entitled to receive at least a 21 day prior notice of shareholders' meetings. The accidental omission to give notice of a meeting to any member, or the non receipt of notice sent to such member, shall not invalidate the proceedings at such meeting. For purposes of determining the shareholders entitled to notice and to vote, the Board of Directors may fix a record date subject to the provisions of the law. Currently, Israeli law provides that the record date not be any earlier than 40 days prior to the meeting.

Transfer of Shares. Subject to applicable securities laws, fully paid Ordinary Shares may be transferred freely. The transfer of Ordinary Shares not fully paid up requires the approval of the Board of Directors.

Modification of Class Rights. Subject to the provisions of any law, the rights attached to any class (unless otherwise provided by the terms of issue of such class), such as voting, rights to dividends and the like, may be altered after a resolution is passed by the Company, with the approval of a resolution passed by a majority of the voting power present by person or proxy and voting hereon at a general meeting of the holders of the shares of such class, or the written agreement of all the class holders. The rights vested in the holders of shares of a particular class that were issued with special rights shall not be deemed to have been altered by the creation or issue of further shares ranking equally with them, unless otherwise provided in such shares' issue terms.

Election of Directors. The Company's directors are elected by the shareholders at a shareholders' meeting. The Ordinary Shares do not have cumulative voting rights in the election of directors. The holders of Ordinary Shares conferring more than 50% of the voting power present by person or by proxy at the shareholders' meeting, have the power to elect the directors. The directors elected shall hold office until the next annual meeting, or sooner if they cease to hold office pursuant to the provisions of the Company's Articles. In addition, the Board of Directors may appoint a director (to fill a vacancy or otherwise) between shareholder meetings, and such appointment shall be valid until the next annual meeting or until such appointee ceases to hold office pursuant to the provisions of the Company's Articles. In compliance with the Companies Law, the Company has two external directors. The external directors are also appointed by the shareholders and their term of office is three years.

24

DESCRIPTION OF UNITS

We may, from time to time, issue units comprised of one or more of the other securities that may be offered under this prospectus, in any combination. Each unit will be issued so that the holder of the unit is also the holder of each security included in the unit. Thus, the holder of a unit will have the rights and obligations of a holder of each included security. The unit agreement under which a unit is issued may provide that the securities included in the unit may not be held or transferred separately at any time, or at any time before a specified date.

Any applicable prospectus supplement will describe:

the material terms of the units and of the securities comprising the units, including whether and under what circumstances those securities may be held or transferred separately;

any material provisions relating to the issuance, payment, settlement, transfer or exchange of the units or of the securities comprising the units; and

any material provisions of the governing unit agreement that differ from those described above.

DESCRIPTION OF WARRANTS

Warrants may be issued independently or together with any other securities and may be attached to, or separate from, such securities. Each series of warrants will be issued under a separate warrant agreement. The terms of any warrants to be issued and a description of the material provisions of the applicable warrant agreement will be set forth in the applicable prospectus supplement.

The applicable prospectus supplement will describe the following terms of any warrants in respect of which the prospectus is being delivered:

the title of such warrants;

the aggregate number of such warrants;

the price or prices at which such warrants will be issued;

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form F-3/A

the currency or currencies, in which the price of such warrants will be payable;

the securities or other rights;

the date on which the right to exercise such warrants shall commence and the date on which such right shall expire;

if applicable, the minimum or maximum amount of such warrants which may be exercised at any one time;

if applicable, the designation and terms of the securities with which such warrants are issued and the number of such warrants issued with each such security;

25

if applicable, the date on and after which such warrants and the related securities will be separately transferable;

information with respect to book-entry procedures, if any;

any material Israeli and U.S. federal income tax consequences;

the anti-dilution provisions of the warrants; and

any other terms of such warrants, including terms, procedures and limitations relating to the exchange and exercise of such warrants.

PLAN OF DISTRIBUTION

We and the selling shareholders, and any of their respective pledgees, donees, assignees, transferees, and successors in interest, may sell any or all of their securities from time to time on any stock exchange or automated interdealer quotation system on which the securities are listed, in the over-the-counter market, in privately negotiated transactions or otherwise, at fixed prices that may be changed, at market prices prevailing at the time of sale, at prices related to prevailing market prices or at prices otherwise negotiated. We and the selling shareholders may sell the securities by one or more of the following methods, without limitation:

block trades in which the broker or dealer so engaged will attempt to sell the securities as agent but may position and resell a portion of the block as principal to facilitate the transaction;

purchases by a broker or dealer as principal and resale by the broker or dealer for its own account pursuant to this prospectus;

an exchange distribution in accordance with the rules of any stock exchange on which the securities are listed;

ordinary brokerage transactions and transactions in which the broker-dealer solicits purchases, which may include long sales or short sales effected after the effective date of the prospectus of which this registration statement is part;

privately negotiated transactions;

at the market or through market makers or into an existing market for the shares;

through the writing or settlement of options or other hedging transactions on the securities, whether through an options exchange or otherwise;

through the distribution of the securities by the selling shareholder to its partners, members or shareholders;

one or more underwritten offerings on a firm commitment or best efforts basis;

any combination of any of these methods of sale; and

any other method permitted pursuant to applicable law.

The selling shareholders may also transfer the securities by gift. We do not know of any arrangements by the selling shareholders for the sale of any of the securities.

26

We and any of the selling shareholders may engage brokers and dealers, and any brokers or dealers may arrange for other brokers or dealers to participate in effecting sales of the securities. These brokers, dealers or underwriters may act as principals, or as agents. Broker-dealers may agree to sell a specified number of the securities at a stipulated price per security. If the broker-dealer is unable to sell securities acting as agent, it may purchase as principal any unsold securities at the stipulated price. Broker-dealers who acquire securities as principals may thereafter resell the securities from time to time in transactions in any stock exchange or automated interdealer quotation system on which the securities are then listed, at prices and on terms then prevailing at the time of sale, at prices related to the then-current market price or in negotiated transactions. Broker-dealers may use block transactions and sales to and through broker-dealers, including transactions of the nature described above. The selling shareholders may also sell the securities in accordance with Rule 144 under the Securities Act, rather than pursuant to this prospectus, regardless of whether the securities are covered by this prospectus.

From time to time, a selling shareholder may pledge, hypothecate or grant a security interest in some or all of the securities owned by it. The pledgees, secured parties or persons to whom the securities have been hypothecated will, upon foreclosure in the event of default, be deemed to be selling shareholders. The number of the selling shareholders' securities offered under this prospectus will decrease as and when it takes such actions. The plan of distribution for a selling shareholder's securities will otherwise remain unchanged.

To the extent required under the Securities Act, the aggregate amount of the Company's or the selling shareholders' securities being offered and the terms of the offering, the names of any agents, brokers, dealers or underwriters and any applicable commission with respect to a particular offer will be set forth in an accompanying prospectus supplement. Any underwriters, dealers, brokers or agents participating in the distribution of the securities may receive compensation in the form of underwriting discounts, concessions, commissions or fees from the selling shareholders and/or purchasers of selling shareholders' securities, for whom they may act (which compensation as to a particular broker-dealer might be in excess of customary commissions).

The selling shareholders and any underwriters, brokers, dealers or agents that participate in the distribution of the securities may be deemed to be underwriters within the meaning of the Securities Act, and any discounts, concessions, commissions or fees received by them and any profit on the resale of the securities sold by them may be deemed to be underwriting discounts and commissions.

The selling shareholders may enter into hedging transactions with broker-dealers and the broker-dealers may engage in short sales of the securities in the course of hedging the positions they assume with the selling shareholders, including, without limitation, in connection with distributions of the securities by those broker-dealers.

The anti-manipulation provisions of Regulation M under the Exchange Act will apply to purchases and sales of ordinary shares by the selling shareholders. Under Regulation M, the selling shareholders or their agents may not bid for, purchase, or attempt to induce any person to bid for or purchase our ordinary shares while the selling shareholders are distributing ordinary shares covered by this prospectus. The selling shareholders are not permitted to cover short sales by purchasing ordinary shares while the distribution is taking place. Furthermore, Regulation M provides for restrictions on market-making activities by persons engaged in the distribution of the ordinary shares.

The selling shareholders may enter into option or other transactions with broker-dealers that involve the delivery of the securities offered hereby to the broker-dealers, who may then resell or otherwise transfer those securities. The selling shareholders may also loan or pledge the securities offered hereby to a broker-dealer and the broker-dealer may sell the securities offered hereby so loaned or upon a default may sell or otherwise transfer the pledged securities offered hereby.

If underwriters are used in an offering of offered securities, such offered securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The securities may be either offered to the public through underwriting syndicates represented by one or more managing underwriters or by one or more underwriters without a syndicate. Unless otherwise set forth in the prospectus supplement, the underwriters will not be obligated to purchase offered securities unless specified conditions are satisfied, and if the underwriters do purchase any offered securities, they will purchase all offered securities.

27

In connection with underwritten offerings of the offered securities and in accordance with applicable law and industry practice, underwriters may over-allot or effect transactions that stabilize, maintain or otherwise affect the market price of the offered securities at levels above those that might otherwise prevail in the open market, including by entering stabilizing bids, effecting syndicate covering transactions or imposing penalty bids, each of which is described below.

A stabilizing bid means the placing of any bid, or the effecting of any purchase, for the purpose of pegging, fixing or maintaining the price of a security.

A syndicate covering transaction means the placing of any bid on behalf of the underwriting syndicate or the effecting of any purchase to reduce a short position created in connection with the offering.

A penalty bid means an arrangement that permits the managing underwriter to reclaim a selling concession from a syndicate member in connection with the offering when offered securities originally sold by the syndicate members are purchased in syndicate covering transactions.

We have agreed to indemnify in certain circumstances the selling shareholders of the securities covered by the registration statement, against certain liabilities, including liabilities under the Securities Act. Certain selling shareholders have agreed to indemnify us in certain circumstances against certain liabilities, including liabilities under the Securities Act.

The securities offered hereby on behalf of the Selling Shareholders were originally issued to the selling shareholders pursuant to an exemption from the registration requirements of the Securities Act.

We have agreed to pay certain fees and expenses in connection with this offering, not including any selling commissions. We will not receive any proceeds from sales of any securities by the selling shareholders, other than the exercise price payable to us upon exercise of warrants held by selling shareholders.

We cannot assure you that the selling shareholders will sell all or any of the securities offered for sale under this prospectus.

DIVIDEND POLICY

The Company does not currently have a dividend policy. The declaration and payment of any cash dividends in the future will be determined by the Board of Directors in light of the conditions existing at that time. This will include our earnings and financial condition.

The credit agreements that we entered into with our banks prohibit the payment of dividends. Also, we may only pay cash dividends in any fiscal year, out of profits, as defined under Israeli law.

OFFERING EXPENSES

The following is a statement of expenses in connection with the distribution of the securities registered. All amounts shown are estimates except for the SEC registration fee. The estimates do not include expenses related to offerings of particular securities. Each prospectus supplement describing an offering of securities will reflect the estimated expenses related to the offering of securities under that prospectus supplement.

ENFORCEABILITY OF CIVIL LIABILITIES

All of our directors and most of our officers reside outside of the United States. It may be difficult to enforce civil liabilities under the Securities Act and the Exchange Act in original actions instituted in Israel. However, subject to specified time limitations, Israeli courts may enforce a United States final executory judgment in a civil matter, including a monetary or compensatory judgment in a non-civil matter, obtained after due process before a court of competent jurisdiction according to the laws of the state in which the judgment is given and the rules of private international law currently prevailing in Israel. The rules of private international law currently prevailing in Israel do not prohibit the enforcement of a judgment by Israeli courts provided that:

the judgment is enforceable in the state in which it was given;

adequate service of process has been effected and the defendant has had a reasonable opportunity to present his arguments and evidence;

the judgment and the enforcement of the judgment are not contrary to the law, public policy, security or sovereignty of the State of Israel;

the judgment was not obtained by fraud and does not conflict with any other valid judgment in the same matter between the same parties; and

an action between the same parties in the same matter is not pending in any Israeli court at the time the lawsuit is instituted in the foreign court.

Our subsidiary, Summit is our agent to receive service of process in any action against us in any competent court of the United States arising out of this offering or any purchase or sale of securities in connection with this offering.

If a foreign judgment is enforced by an Israeli court, it generally will be payable in Israeli currency, which can then be converted into non-Israeli currency and transferred out of Israel. The usual practice in an action before an Israeli court to recover an amount in a non-Israeli currency is for the Israeli court to issue a judgment for the equivalent amount in Israeli currency at the rate of exchange in force on the date of the judgment, but the judgment debtor may make payment in foreign currency. Pending collection, the amount of the judgment of an Israeli court stated in Israeli currency ordinarily will be linked to the Israeli consumer price index plus interest at an annual statutory rate set by Israeli regulations prevailing at the time. Judgment creditors must bear the risk of unfavorable exchange rates.

PROSPECTUS

PART II

INFORMATION NOT REQUIRED IN PROSPECTUS

ITEM 8. INDEMNIFICATION OF DIRECTORS AND OFFICERS

Consistent with the provisions of the Israeli Companies Law, 1999 (the Companies Law), the amended Articles of the Registrant include provisions permitting the Registrant to procure insurance coverage for its office holders , exempt them from certain liabilities and indemnify them, to the maximum extent permitted by law. An office holder is defined in the Companies Law and the Articles as a director, managing director, chief business manager, executive vice president, vice president, other manager reporting directly to the managing director and any other person assuming the responsibilities of any of the foregoing positions without regard to such person s title.

INSURANCE

Under the Companies Law, a company may obtain insurance for any of its office holders for: (i) a breach of his duty of care to the company or to another person; (ii) a breach of his duty of loyalty to the company provided that the office holder acted in good faith and had reasonable cause to assume that his act would not prejudice the company s interests; or (iii) a financial liability imposed upon him in favor of another person concerning an act preformed by him in his capacity as an office holder.

The Registrant has obtained directors and officers liability insurance covering its officers and directors and those of its subsidiaries.

INDEMNIFICATION

The Companies Law provides that a company may indemnify an officer holder against: (i) a financial liability imposed on him in favor of another person by any judgment concerning an act preformed in his capacity as an office holder; (ii) reasonable litigation expenses, including attorneys' fees, expended by the office holder or charged to him by a court relating to an act preformed in his capacity as an office holder in connection with: (a) proceedings the company institutes against him or instituted on its behalf or by another person; (b) a criminal charge from which he was acquitted; (c) a criminal charge in which he was convicted for a criminal offence that does not require proof of criminal intent; and (d) an investigation or a proceeding instituted against him by an authority competent to administrate such an investigation or proceeding that ended without the filing of an indictment against the office holder and, either without any financial obligation imposed on the office holder in lieu of criminal proceedings; or with financial obligation imposed on him in lieu of criminal proceedings, in a crime which does not require proof of criminal intent. The Articles of the Registrant authorize the Registrant to indemnify its office holders to the fullest extent permitted under the law. The Companies Law also authorizes a company to undertake in advance to indemnify an office holder with respect to events specified above, provided that, with respect to indemnification under sub-section (i) above, the undertaking: (a) is limited to events which the board of directors determines can be anticipated, based on the activity of the company at the time the undertaking is given; (b) is limited in amount or criteria determined by the board of directors to be reasonable for the circumstances; and (c) specifies the abovementioned events, amounts or criteria.

We have entered into indemnification agreements with directors and some officers providing for indemnification under certain circumstances for acts and omissions which may not be covered (or not be covered in full) by any directors and officers liability insurance. Such indemnification agreement appears in exhibit 4.1 of our Annual Report on Form 20-F filed with the Securities and Exchange Commission on

June 28, 2006.

EXEMPTION

Under the Companies Law, an Israeli company may not exempt an office holder from liability for a breach of his duty of loyalty, but may exempt in advance an office holder from his liability to the company, in whole or in part, for a breach of his duty of care, provided that in no event shall the office holder be exempt from any liability for damages caused as a result of a breach of his duty of care to the company in the event of a distribution (as defined in the Companies Law). The Articles authorize Registrant to exempt any office holder from liability to the Registrant to the extent permitted by law.

Both the Companies Law and the Articles provide that the Registrant may not exempt or indemnify an office holder nor enter into an insurance contract which would provide coverage for liability incurred as a result of any of the following: (a) a breach by the office holder of his duty of loyalty (however, the Registrant may insure and indemnify against such breach if the office holder acted in good faith and had a reasonable basis to assume that the act would not harm the Registrant); (b) a breach by the office holder of his duty of care if the breach was done intentionally or recklessly, unless made in negligence only; (c) any act done with the intent to derive an illegal personal benefit; or (d) any fine or monetary penalty levied against the office holder.

ITEM 10. UNDERTAKINGS

(a) The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement; and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that Paragraphs (a)(1)(i), (a)(1)(ii) and (a)(1)(iii) of this section do not apply if the registration statement is on Form S-3 or Form F-3 and the information required to be included in a post-effective amendment by those paragraphs is contained in reports

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form F-3/A

filed with or furnished to the Commission by the registrant pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement.

- (2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
- (3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.
- (4) To file a post-effective amendment to the registration statement to include any financial statements required by Item 8.A of Form 20-F at the start of any delayed offering or throughout a continuous offering. Financial statements and information otherwise required by Section 10(a)(3) of the Act need not be furnished, provided that the registrant includes in the prospectus, by means of a post-effective amendment, financial statements required pursuant to this paragraph (a)(4) and other information necessary to ensure that all other information in the prospectus is at least as current as the date of those financial statements. Notwithstanding the foregoing, with respect to registration statements on Form F-3, a post-effective amendment need not be filed to include financial statements and information required by Section 10(a)(3) of the Act or Item 8.A of Form 20-F if such financial statements and information are contained in periodic reports filed with or furnished to the Commission by the registrant pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the Form F-3.
- (5) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:
 - (i) If the registrant is relying on Rule 430B:
 - A. Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and
 - B. Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x) for the purpose of providing the information required by section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date; or
 - (ii) If the registrant is subject to Rule 430C, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.
- (6) That, for the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities: The undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form F-3/A

securities to such purchaser:

- (i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;
- (ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;
- (iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and

37

-
- (iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.
- (b) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
- (c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to the directors, officers and controlling persons of the registrant pursuant to the provisions described under Item 8. Indemnification of Directors and Officers above, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of our counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
