c) Basis of presentation and use of estimates

The Company has prepared the accompanying unaudited Condensed Consolidated Financial Statements (“Financial Statements”) in accordance with the rules and regulations of the U.S. Securities and Exchange Commission (“SEC”) for interim financial information. Accordingly, they do not include all of the information and footnotes required by United States generally accepted accounting principles (“GAAP”) for complete financial statements. In preparing the financial statements management is required to make estimates and assumptions that could affect the amounts reported in these condensed consolidated financial statements and accompanying notes. Actual results could differ materially from those estimates. The results for interim periods do not necessarily indicate the results that may be expected for any other interim period or for the full year. The significant accounting policies adopted by the Company, in respect of these consolidated financial statements, are set out in the Company’s Annual Report on Form 10-K for the fiscal year ended March 31, 2017. The accompanying financial statements are reported in U.S.

dollars. The INR and the RM are the functional currencies for the Company. The translation of the functional currencies into U.S. dollars is performed for assets and liabilities using the exchange rates in effect at the balance sheet date and for revenues, costs and expenses using average exchange rates prevailing during the reporting periods. Adjustments resulting from the translation of functional currency financial statements to reporting currency are accumulated and reported as other comprehensive income/(loss), a separate component of shareholders' equity.

NOTE 10 – RELATED PARTY TRANSACTIONS

As of December 31, 2017, the Company has (i) a balance of \$98,185 due and payable to our CEO inclusive of certain unpaid salaries from previous years and (ii) a secured loan at zero interest from spouse of our CEO in the amount of \$244,412.

We pay an affiliate of our CEO \$4,500 per month for office space and certain general and administrative services rendered in Maryland. In addition, we pay another affiliate of our CEO \$6,100 per month for office and facilities in Washington State. We believe, based on rents and fees for similar services in the Washington, D.C. metropolitan area, and Washington State that the fee charged by the affiliates are at least as favorable as we could have obtained from an unaffiliated third party and these payments are not considered, or meant to be compensation to our CEO. The rental agreement for the Maryland location is on a month-to-month basis and may be terminated by our Board of Directors of the Company at any time without notice. The rental agreement for Washington State facilities expired on December 31, 2017, and it was renewed in January 2018 by mutual consent for 1 more year. During the quarter ended December 31, 2017, the total rent paid to one of the affiliates for the office space (and services) in Maryland was \$13,500. \$36,600 is payable to one of the affiliates for the rental of the facilities in Washington State. Loans by Related Parties:

We have a secured working capital loan that has a loan balance of \$195,061 as of December 31, 2017 and \$97,500 as of March 31, 2017 from affiliates of our CEO, at an annual interest rate of zero percent, due February 23, 2022. There is no prepayment penalty. The assets of the Company secure the loan.

Loans to Related Parties:

On April 30, 2015, FYE 2016, we loaned Apogee Financial Services, the majority owner of Midtown Partners, \$70,000 as working capital for Midtown partners. The loan is outstanding as of December 31, 2017.

NOTE 11 – NOTES PAYABLE AND LOANS – OTHERS

The Company has an unsecured Note Payable to Bricoleur Partners, L.P. in the amount of \$1,800,000 ("2012 Security"). Up to July 2014, the Company was making monthly payments of 17,100 shares of common stock. Starting on August 2014, the Company started making a monthly payment of 23,489 shares of common stock. Starting August 1, 2016, the Company started making a monthly payment of 30,000 shares. The Company has never made a cash interest payment to Bricoleur on the Note. The parties have agreed that the Company will make a payment (shown on our P&L under interest payment and not tax deductible to the Company) of 30,000 shares of common stock for each month the loan remains unpaid, regardless of the trading price of the stock. The arrangement allows the Company and Bricoleur to pursue permanent conversion of the principal to common stock, or repayment of the principal using common stock. NOTE 17 – INTEREST AND OTHER INCOME

Interest and other income for the three-month periods ended December 31, 2017 and 2016 amounted to \$1,090 and \$359,104, respectively, and included income received from the supply of skilled operators for the heavy equipment rental business and from the rent of the apartment belonging to TBL, which is in Kochi, India.

NOTE 18 – RECONCILIATION OF EPS

In accordance with ASC Topic 280 – "Earnings Per Share", the basic loss per common share is computed by dividing net loss available to common stockholders by the weighted average number of common stock outstanding. Diluted loss per common share is computed similar to basic loss per common share except that the denominator is increased to include the number of additional shares of common stock that would have been outstanding if the potential common stock had been issued and if the additional shares of common stock were dilutive. Potential common stock consists of the incremental common stock issuable upon the exercise of common stock options and warrants (using the if-converted method). The computation of basic loss per share for the period ended December 31, 2017 excludes potentially dilutive securities of 1,815,667 shares underlying share purchase options and warrants, and 29,768 shares from the conversion of outstanding units because their inclusion would be antidilutive.

The historical weighted average per share for our shares through December 31, 2017, was applied using the treasury method of calculating the fully diluted shares. The weighted average number of shares outstanding as of December 31, 2017 and 2016 used for the computation of basic earnings per share ("EPS") is 28,169,292 and 27,446,095, respectively. Due to the loss incurred during the three-month period ended December 31, 2017, all the potential equity shares are anti-dilutive and accordingly, the fully diluted EPS is equal to the basic EPS.

NOTE 19 – INCOME TAXES

The Company adopted ASC 740, Accounting for Uncertainty in Income Taxes. In assessing the recoverability of its deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of the deferred tax assets is dependent on the generation of future taxable income during the periods in which those temporary differences become deductible. The management considers historical and projected future taxable income, and tax planning strategies in making this assessment.

The Company's effective tax rate was 0% for both the quarters ended December 31, 2017 and 2016. The Company has US deferred tax assets, which have been offset by valuation allowance because of historical and expected losses. As the Company reverses its losses and becomes profitable, we will reassess the likelihood of recovering a portion or all of the deferred tax assets.

The Company recorded an income tax gain/expense of \$0 resulting from operational results of its foreign entities for both three-month periods ended December 31, 2017 and 2016. As of December 31, 2017, and 2016, there was no significant liability for income tax associated with unrecognized tax benefits. As of December 31, 2017, IGC could not use its net operating losses.

NOTE 20 – SEGMENT INFORMATION

Accounting pronouncements establish standards for the manner in which public companies report information about operating segments in annual and interim financial statements. Operating segments are components of an enterprise that have distinct financial information available and evaluated regularly by the chief operating decision-maker (“CODM”) to decide how to allocate resources and evaluate performance. The Company’s CODM is considered to be the Company’s chief executive officer (“CEO”). The CEO reviews financial information presented on an entity level basis for purposes of making operating decisions and assessing financial performance. The Company has determined that it operates as two operating and reportable segments: Pharmaceutical, and Legacy. Therefore, the Company has commenced reporting two segments.

Our legacy infrastructure business (“Legacy”, “Legacy Business”) that consists of trading, real-estate management, and heavy equipment leasing is one operating and reportable segment. The other is the pharmaceutical segment that did not have revenue for the quarter ended December 31, 2017.

This report and the documents incorporated in this report by reference contain “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”) and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Additionally, we, or our representatives may, from time to time, make other written or verbal forward-looking statements and discuss plans, expectations and objectives regarding our business, financial condition and results of operations. Without limiting the foregoing, statements that are in the future tense, and all statements accompanied by terms such as “believe,” “project,” “expect,” “trend,” “estimate,” “forecast,” “assume,” “intend,” “plan,” “target,” “anticipate,” “outlook,” “preliminary,” “will likely result,” “will continue” and them and similar terms are intended to be “forward-looking statements” as defined by federal securities laws. We caution you not to place undue reliance on forward-looking statements, which are based upon assumptions, expectations, plans and projections. Forward-looking statements are based upon certain assumptions and subject to risks and uncertainties, including those identified in the “Risk Factors” included in our annual report on Form 10-K for the fiscal year ending March 31, 2017, filed with the SEC on July 14, 2017, and in the documents incorporated by reference that may cause actual results to differ materially from those expressed or implied in the forward-looking statements. Forward-looking statements speak only as of the date when they are made. Except as required by federal securities law, we do not undertake any obligation to update forward-looking statements to reflect events, circumstances, changes in expectations, or the occurrence of unanticipated events after the date of those statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Pursuant to Item 305(e) of Regulation S-K, the Company is not required to provide the information required by this Item as it is a “smaller reporting company.”

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, management conducted an evaluation, under the supervision and with the participation of its Chief Executive Officer (CEO) and its principal financial and accounting officer (PFAO), of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rules 13a-15 and 15d-15 of the Securities Exchange Act of 1934. Based upon that evaluation, our CEO and PFAO concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in reports under the Exchange Act is recorded, processed and reported within the time periods specified in the SEC rules and forms; and accumulated and communicated to the Company’s management, including its principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There were no changes in our internal controls over financial reporting during our fiscal quarter ended December 31, 2017 which were identified in conjunction with Management’s evaluation required by paragraph (d) of Rule 13a-15 and 15d-15 under the Exchange Act that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

Limitations on the Effectiveness of Disclosure Controls and Procedures

Our management, including our CEO and PFAO, do not expect that our internal control over financial reporting will prevent all errors and all fraud. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree or compliance with the policies or procedures may deteriorate.
