(A Development Stage Company)

NOTES TO FINANCIAL STATEMENTS

1.

BASIS OF PRESENTATION

The accompanying unaudited financial statements in the Form 10QSB are presented in accordance with the requirement of the form and do not include all of the disclosures required by accounting principles generally accepted in the United States of America. For additional information, reference is made to the Company's annual report on Form 10KSB for the year ended October 31, 2004. In the opinion of management, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation have been included. The results of operations for the periods presented are not necessarily indicative of the results to be expected for the full year.

2.

EARNINGS PER SHARE

The Company calculates net income (loss) per share as required by Statement of Financial Accounting Standard No. 128, Earnings per Share. Basic earnings (loss) per share is calculated by dividing income (loss) by the weighted average number of common shares outstanding for the period. Diluted earnings (loss) per share is calculated by dividing net income (loss) by the weighted average number of common shares and dilutive common stock equivalents outstanding. During the periods presented common stock equivalents were not considered as their effect would be anti-dilutive.

3.

Mengine were valued at a price of \$0.50 per share, or an aggregate price of \$5,000. We relied upon Section 4(2) of the Act for the sale. We believed that Section 4(2) was available because the sale did not involve a public offering and there was no general solicitation or general advertising involved in the sale. These shares were issued without a restrictive legend.

On December 21, 2004, the Company issued 6,000 shares of our stock to Roy S. Devine exchange for consulting services rendered to us. The shares to Roy S. Devine were valued at a price of \$0.50 per share, or an aggregate price of \$3,000. We relied upon Section 4(2) of the Act for the sale. We believed that Section 4(2) was available because

4.

GOING CONCERN

The Company's financial statements are presented on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business.

The Company has experienced a significant loss from operations as a result of its investment necessary to achieve its operating plan, which is long-range in nature. For the three month period ended January 31, 2005 and 2004, the Company incurred a net loss of (\$165,736) and (\$129,284), respectively. Since the Company's inception, they have incurred a net loss from operations of (\$5,075,596). The Company has a working capital (deficit) of \$1,856 and (\$220,525) and a stockholders' deficit of (\$255,107) and (\$463,004) at January 31, 2005 and 2004, respectively. In addition, the Company has no significant revenue generating operations.

The Company's ability to continue as a going concern is contingent upon its ability to attain profitable operations and secure financing. Further, the Company's ability to continue as a going concern must be considered in light of the problems, expenses and complications frequently encountered by entrance into established markets and the competitive environment in which the Company operates.

The Company is pursuing equity financing for its operations. Failure to secure such financing or to raise additional capital or borrow additional funds may result in the Company depleting its available funds and not being able to pay

its obligations.

The financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the possible inability of the Company to continue as a going concern.

5.
