Strategic Developments

Edgar Filing: BRITISH AIRWAYS PLC - Form 6-K

British Airways announced a pre-tax profit of GBP620 million for the year to March 31, 2006 (2005: GBP513 million profit). The pre-tax profit for the fourth quarter was GBP91 million (2005: GBP6 million loss). Operating profit for the year was GBP705 million (2005: GBP556 million profit) and GBP93 million for the quarter (2005: GBP46 million profit).

The company's accounting valuation of its main pension scheme, the New Airways Pension Scheme (NAPS), showed a deficit of GBP2,070 million at March 31, 2006, up GBP101 million on the previous year. The accounting deficit reflects low long-term interest rates and has gone up despite the company's increased contributions and strong equity markets.

British Airways welcomed the statement from the Civil Aviation Authority (CAA) that it will protect customers at BAA airports from being overcharged to fund payments to the airport operator's shareholders during its current bid battle. The CAA is currently consulting on the level of user charges at Heathrow, Gatwick and Stansted airports for a five year period from April 2008 in its role as economic regulator.

The airline launched a promotion offering savings of up to GBP1,250 on Club World return fares to 58 long haul destinations this summer including New York, Singapore and all Caribbean destinations.
