CERTIFICATIONS

Certain matters discussed in this report, excluding historical information, include forward-looking statements - statements that discuss the Company's expected future results based on current and pending business operations. The Company is making these forward-looking statements in reliance on the safe harbor protections provided under the PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995.

Forward-looking statements can be identified by words such as "anticipates," "believes," "expects," "planned," "scheduled" or similar expressions. Although the Company believes these forward-looking statements are based on reasonable assumptions, statements made regarding future results are subject to numerous assumptions, uncertainties and risks that may cause future results to be materially different from the results stated or implied in this document. Important risk factors (but not necessarily all important factors) that could cause actual results to differ materially from those expressed in any forward-looking statement made by, or on behalf of, the Company would include, but in no way be limited by, the Company's ability to obtain agreements with co-venturers, partners and governments; its ability to engage drilling, construction and other contractors; its ability to obtain economical and timely financing; geological, land, sea or weather conditions; world prices for oil, natural gas and natural gas liquids; adequate and reliable transportation systems; and foreign and United States laws, including tax laws. Additional

PETROCORP INCORPORATED
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (Unaudited)

NOTE 1 - BASIS OF PRESENTATION:

The unaudited consolidated financial statements of PetroCorp Incorporated (the "Company" or "PetroCorp") have been prepared in accordance with generally accepted accounting principles for interim financial information and with instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments, consisting of normal and recurring adjustments necessary for a fair presentation, have been included. For further information, refer to the consolidated financial statements and footnotes thereto for the year ended December 31, 2002, included in the Company's 2002 Annual Report on Form 10-K pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934. Interim period results are not necessarily indicative of results of operations or cash flows for a full-year period.

Accounting for Stock-Based Compensation

Edgar Filing: PETROCORP INC - Form 10-Q

At March 31, 2003, the Company has a stock-based compensation plan, which is more fully described in Notes 1 and 9 of the Company's Annual Report on Form 10-K. The Company accounts for this plan under the recognition and measurement principles of APB Opinion No. 25, Accounting for Stock Issued to Employees, and related Interpretations. The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value recognition provisions of FASB Statement No. 123, Accounting for Stock-Based Compensation, (in thousands, except per share amounts):

	Quarter Ended
	----- 2003 -----
Net income, as reported	\$ 35,825
Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects	80

Pro forma net income	\$ 35,745 =====
Earnings per share:	
Basic - as reported	\$ 2.83
Basic - pro forma	\$ 2.83
Diluted - as reported	\$ 2.81
Diluted - pro forma	\$ 2.80

No options were granted during the quarter ended March 31, 2003. Eighty-nine thousand options, at an exercise price of \$9.25 were granted in the corresponding quarter of 2002. These options, when priced under a Black-Scholes option pricing model calculate a "fair value" of \$479,000 as of the grant date. The Black-Scholes model was developed to price options with terms and conditions significantly different from the terms and conditions of the Company's options; accordingly, any use for this "fair value" resultant is problematic.

NOTE 2 - COMPREHENSIVE INCOME:

The Company follows SFAS No. 130, Reporting Comprehensive Income. This Statement establishes requirements for reporting comprehensive income and its components which includes the Company's foreign currency translation adjustments. The Company's comprehensive income for the three months ended March 31, 2003 and 2002 is as follows (in thousands):

For the three

months ended

March 31,

Edgar Filing: PETROCORP INC - Form 10-Q

	2003 ----	2002 ----
Net income	\$ 35,825	\$ 1,046
	-----	-----
Derivative hedging loss (net of tax benefit of \$373)	-	(598)
Reclassification of hedging loss to income (net of taxes of \$112).....	-	168
Reclassification of translation loss to income	4,939	-
Foreign currency translation gain (loss) (2003 gain covers period from January 1 through March 5)	2,807	(83)
	-----	-----
	\$ 7,746	\$ (513)
	-----	-----
Comprehensive income	\$ 43,571	\$ 533
	=====	=====

As of March 31, 2002, accumulated other comprehensive loss consisted of \$462 of derivative gain, net of taxes, and \$8,286 of foreign currency translation losses.

NOTE 3 - SALE OF CANADIAN SUBSIDIARIES

On December 24, 2002, PetroCorp signed an agreement to sell its two Canadian subsidiaries, PCC Energy Inc. and PCC Energy Corp. for C\$167.6 million (approximately US\$112 million), with an economically effective date of October 1, 2002. This is subject to post closing adjustments for certain working capital items. On March 5, 2003, PetroCorp received approximately 75% of the sale proceeds. The remaining \$28.8 million will be received upon completion of certain tax documentation with the government of Canada. The financial statements reflect the results of the Canadian operations and the sale of Canadian subsidiaries as discontinued operations. Prior year statements of operations have been restated to conform to the current year presentation. The sale was recorded as follows (amounts in thousands):

Cash proceeds received, net of \$4,350 Canadian taxes withheld
Receivable recorded

Net proceeds received

Net assets sold
Translation loss reclassified from comprehensive income
Deferred income taxes

Gain on sale of Canadian subsidiaries

Net sales and income of the discontinued operations are as follows (amounts in thousands):

Quarter ended March 31,

Edgar Filing: PETROCORP INC - Form 10-Q

	2003	2002
Net sales	\$ 5,937	\$ 5,29
Pre-tax income from discontinued operations	\$ 3,643	\$ 1,14
Income tax expense	1,530	42
Income from discontinued operations, net of tax	\$ 2,113	\$ 72

5

Assets and liabilities of the discontinued operations were as follows (amounts in thousands):

	March 5, 2003
Cash	\$ 5,961
Accounts receivable	11,332
Property, plant and equipment	66,205
Other Assets	64
Accounts Payable	(9,388)
Accrued liabilities	(1,759)
Deferred tax liability	(17,247)
	\$ 55,168

NOTE 4 - EARNINGS PER SHARE:

The following is a reconciliation of the numerators and denominators of the basic and diluted per share computations for the periods presented (in thousands, except per share amounts).

	Income	Shares	Income (Loss) from Continuing Operations	Income from Discontinued Operations
Quarter ended March 31, 2003				
Basic EPS:				
Net income	\$ 35,825	12,649	\$ 0.25	\$ 2
Effect of dilutive securities:				
Options	-	100	(0.01)	(0)

Edgar Filing: PETROCORP INC - Form 10-Q

Diluted EPS:					
Net income	\$	35,825	12,749	\$	0.24
		=====	=====		=====
Quarter ended March 31, 2002					
Basic EPS:					
Net income	\$	1,046	12,556	\$	0.02
Effect of dilutive securities:					
Options		-	119		-
		-----	-----		-----
Diluted EPS:					
Net income	\$	1,046	12,675	\$	0.02
		=====	=====		=====

The net income per share amounts do not include the effect of potentially dilutive securities of nil and 470,000 for the three months ended March 31, 2003 and 2002, respectively, as the impact of these outstanding options was antidilutive.

NOTE 5 - HEDGING ACTIVITIES:

To reduce the impact of fluctuations in the market prices of oil and natural gas, the Company periodically utilizes hedging strategies such as collars or swaps to hedge the price of a portion of its future oil and natural gas production. Results of these hedging transactions are reflected in oil and natural gas sales in the month of hedged production.

No oil or natural gas hedges were outstanding during 2003. Hedging transactions for the three months ended March 31, 2002 increased oil and gas revenues by \$102,000 (reclassified from comprehensive income). All oil and gas hedging transactions expired in the fourth quarter of 2002.

6

The Company offsets any gain or loss on the swaps and collars contracts with the realized prices for its production. While the swaps and collars reduce the Company's exposure to declines in the market price of natural gas and oil, this also limits the Company's gains from increases in the market price.

NOTE 6 - PROPERTY, PLANT AND EQUIPMENT:

Investments in property, plant and equipment were as follows at March 31, 2003 and December 31, 2002 (amounts in thousands):

	2003	2002
	-----	-----
Oil and gas properties:		
Proved	\$ 230,300	\$ 225,414
Unproved	353	233
	-----	-----
	230,653	225,647
Gas gathering facilities	1,698	1,698
	-----	-----
	232,351	227,345
Less - accumulated depreciation, depletion, amortization and impairment	(183,310)	(178,584)

Edgar Filing: PETROCORP INC - Form 10-Q

\$ 49,041 \$ 48,761
=====

As more fully described in the Company's Form 10-K, PetroCorp utilizes the full cost method of accounting for costs related to its oil and natural gas properties. Under this method, capitalized costs are subject to a ceiling test, evaluated each quarter, which limits such pooled costs to the aggregate of the present value of future net revenues attributable to proved oil and gas reserves discounted at 10 percent plus the lower of cost or market value of unproved properties. A decline in oil and gas prices from current levels, or other factors, without other mitigating circumstances, could cause a future write-down of capitalized costs and a non-cash charge against future earnings.

NOTE 7 - LONG-TERM DEBT:

In July 2000, the Company entered into a \$75 million revolving credit agreement with the Toronto-Dominion Bank (TD Bank), the agent, and the Bank of Nova Scotia. The agreement was amended in August 2002 to extend its term, increase the borrowing base, and partially change the lenders. The amended term of the facility is through May 1, 2004 and the amended borrowing base was set at \$70 million. In March 2003, and in conjunction with the sale of Canadian subsidiaries described in Note 3, the Company amended its revolving credit agreement to adjust the borrowing base to \$25 million, allocated entirely to United States borrowing. The Canadian lenders were released from the agreement. All outstanding debt was paid off with proceeds from the sale. The current lenders are TD Bank, as agent, and Fortis Capital Corp. and Bank of Oklahoma, N.A. (Bank of Oklahoma, N.A.'s largest beneficial owner is also the primary beneficial owner of Kaiser-Francis Oil Company. Approximately 38% of the Company is owned by Kaiser-Francis Oil Company.) Effective April 28, 2003 the other lenders to revolving credit agreement assigned their interests to the Bank of Oklahoma, N.A.

Borrowings can be funded by either Eurodollar loans or Base Rate loans. The interest rate on the borrowings is equal to an interest rate spread plus either the Eurodollar rate or the Base Rate. The interest rate spread is determined from a sliding scale based on the Company's borrowing base percentage utilization in effect from time to time. The spread ranges from 1.25 to 2.25 on Eurodollar loans and .25 to 1.25 on Base Rate loans. At March 31, 2003, there were no loans outstanding under this facility.

The revolving credit agreement prohibits the declaration and payment of dividends on the common stock of the Company. Also, the debt agreement requires the Company to maintain a minimum current ratio, a minimum tangible net worth, and a minimum interest coverage ratio. The Company obtained waivers of certain covenants relating to the sale of some of its Alabama properties and the sale of Canadian operations.

7

NOTE 8 - RECENT ACCOUNTING PRONOUNCEMENTS

In June 2001, the FASB issued FAS No. 143, Accounting for Asset Retirement Obligations. FAS 143 is effective for fiscal years beginning after June 15, 2002 (January 1, 2003 for the Company) and establishes an accounting standard requiring the recording of the fair value of liabilities associated with the retirement of long-lived assets (mainly plugging and abandonment costs for depleted wells) in the period in which the liability is incurred (at the time

Edgar Filing: PETROCORP INC - Form 10-Q

the wells are drilled). The effect of the adoption of this standard on the Company's results of operations and financial condition was an unaudited increase in liabilities of approximately \$5 million; an unaudited net increase in property, plant and equipment of approximately \$259 thousand; and an unaudited after tax charge to income for the cumulative effect of adopting the new standard of approximately \$3 million and a deferred tax asset of approximately \$1.7 million. The new standard had no material impact on income before the cumulative effect of adoption in the first quarter of 2003, nor would it have had a material impact in the first quarter of 2002 assuming an adoption of this accounting standard on a proforma basis.

In July 2002, the FASB issued FAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities, which is effective for exit or disposal activities initiated after December 31, 2002. The adoption of FAS No. 146 did not materially affect the Company's current financial position or results of operations.

In November 2002, the FASB issued FASB Interpretation ("FIN") 45, Guarantor's Accounting and Disclosure Requirements for Guarantees, including Indirect Guarantee of Indebtedness of Others. FIN 45 requires that upon issuance of a guarantee, the guarantor must recognize a liability for the fair value of the obligation it assumes under that guarantee. FIN 45's provisions for initial recognition and measurement should be applied on a prospective basis to guarantees issued or modified after December 31, 2002. The guarantor's previous application may not be revised or restated to reflect the effect of the recognition and measurement provisions of the interpretation. The disclosure requirements are effective for financial statements of both interim and annual periods that end after December 15, 2002. The Company is not a guarantor under any significant guarantees and thus the adoption of this interpretation did not have a significant effect on the Company's financial position or results of operations.

On December 31, 2002, the FASB issued FAS No. 148, Accounting for Stock-Based Compensation -- Transition and Disclosure -- an amendment of FAS 123, Accounting For Stock-Based Compensation. FAS 148 does not change the provisions of FAS 123 that permit entities to continue to apply the intrinsic value method of APB 25, Accounting for Stock Issued to Employees. FAS 148 does require certain new disclosures in both annual and interim financial statements. The required disclosures have been included in Note 1 of the Company's financial statements.

On January 17, 2003, the FASB issued FIN 46, Consolidation of Variable Interest Entities, An Interpretation of Accounting Research Bulletin No. 51. The primary objectives of FIN 46 are to provide guidance on how to identify entities for which control is achieved through means other than through voting rights (variable interest entities "VIE" and how to determine when and which business enterprise should consolidate the VIE. This new model for consolidation applies to an entity in which either (1) the equity investors do not have a controlling financial interest on (2) the equity investment at risk is insufficient to finance that entity's activities without receiving additional subordinated financial support from other parties. The adoption of this standard had no impact on the financial position or results of operations of the Company.

In April 2003, the FASB issued FAS No. 149, Amendment of Statement 133 on Derivative Instruments and Hedging Activities. This Statement amends and clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts (collectively referred to as derivatives) and for hedging activities under FASB Statement No. 133, Accounting for Derivative Instruments and Hedging Activities. The Company is currently evaluating the impact of FAS No. 149 on financial position and results of operations.

Edgar Filing: PETROCORP INC - Form 10-Q

NOTE 9 - COMMON STOCK REPURCHASES

On September 14, 2001, the Board of Directors authorized the purchase of up to 1,000,000 shares of the Company's common stock. On March 5, 2003, the Board of Directors increased the number of shares authorized for purchase up to 25% of the outstanding shares of the Company. Through March 31, 2003, 309,947 shares have been purchased at a cost of \$2,757,000.

8

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Critical Accounting Policies

There have been no changes from the Critical Accounting Policies described in the Company's 2002 Annual Report on form 10-K.

General

The Company's principal line of business is the production and sale of its oil and natural gas reserves located in North America. Results of operations are dependent upon the quantity of production and the price obtained for such production. Prices received by the Company for the sale of its oil and natural gas have fluctuated significantly from period to period. Such fluctuations affect the Company's ability to maintain or increase its production from existing oil and gas properties and to explore, develop or acquire new properties.

The following table reflects certain operating data for the periods presented:

	For the three months ended March 31,	
	2003	2002
Production:		
Oil (MBbls)	114	125
Gas (MMcf)	938	1,467
Total gas equivalents (MMcfe)	1,622	2,217
Average sales prices:		
Oil (per Bbl)	\$32.88	\$19.84
Gas (per Mcf)	6.46	2.49
Selected data per Mcfe:		
Average sales price	\$ 6.04	\$ 2.76
Production costs	1.56	1.17
General and administrative expenses	0.44	0.16
Oil and gas depreciation, depletion and amortization	0.92	1.04

9

Edgar Filing: PETROCORP INC - Form 10-Q

Results of Operations

Three Months Ended March 31, 2003 Compared to Three Months Ended March 31, 2002

Revenues. Total revenues increased 59% to \$9.8 million in the first quarter of 2003 compared to \$6.2 million in the first quarter of 2002, primarily due to commodity price increases. The Company's natural gas production decreased 36% to 938 MMcf from 1,467 MMcf and oil production decreased 9% to 114 MBbls from 125 MBbls, resulting in the Company's overall equivalent production decreasing 27% to 1,622 MMcfe from 2,217 MMcfe. The decrease in oil and gas production reflects the impact of the October 2002 sale of Alabama properties and plant, along with normal production declines.

The Company's average natural gas price increased 159% to \$6.46 per Mcf in the first quarter of 2003 from \$2.49 per Mcf in the corresponding quarter in 2002. The Company's average oil price increased 66% to \$32.88 per barrel in the first quarter of 2003 from \$19.84 per barrel in 2002. Of the \$3,675,000 increase in oil and gas sales in the first quarter of 2003, approximately \$3.7 million and \$1.5 million, respectively, were attributable to increased average gas pricing and oil pricing, and these were partially offset by a \$1.5 million of decreased oil and gas production.

Production Costs. Production costs decreased overall 2% to \$2.5 million in the first quarter of 2003, with production costs per Mcfe increased to \$1.56 per Mcfe in the first quarter of 2003, compared to \$1.17 in the corresponding prior year period. This resulted from production volume decreases, both from normal production declines and the October 2002 sale of Alabama properties and plant, being almost fully offset by higher production taxes due to higher commodity prices.

Depreciation, Depletion & Amortization (DD&A). Total DD&A decreased 34% to \$1.5 million in the first quarter of 2003. The composite oil and gas DD&A rate decreased 12% to \$0.92 per Mcfe from \$1.04 per Mcfe. The decrease in the composite rate results from the impact of adopting FASB Statement 143 (see Note 8 to the financial statements).

General and Administrative Expenses. General and administrative expenses increased 98% to \$719,000 in the first quarter of 2003 from \$363,000 in the first quarter of 2002 due to increased costs related to an increased company stock price and its effect on certain stock options, higher legal costs associated with ongoing litigation and the full cost of certain expenses which previously had been partially absorbed of the Canadian operation now shown as discontinued operations (see Note 3).

Interest Expense. Interest expense decreased 21% to \$335,000 in the first quarter of 2003 from \$424,000 in the prior year quarter, reflecting pay down of outstanding debt. All debt was paid off March 6, 2003.

Other Income. Other income increased to \$216,000 in the first quarter of 2003 from \$33,000 in the corresponding period of 2002 primarily as a result of the increased exchange rate of the Canadian dollar against the United States dollar.

Income Taxes. The Company recorded a \$1,780,000 income tax expense with an effective tax rate of 36% on a pre-tax income of \$4,935,000 in the first quarter of 2003. This compares to an income tax expense of \$174,000 with an effective tax rate of 35% on pre-tax income of \$497 thousand in the first quarter of 2002. Effective tax rates differ from statutory rates primarily due to statutory depletion in the United States.

Liquidity and Capital Resources

As of March 31, 2003, the Company had working capital of \$88.6 million as compared to \$55.8 million at December 31, 2002. Net cash provided by operating activities was \$7.3 million for the three months ended March 31, 2003 compared to \$2.5 million for the corresponding three months of 2002 primarily due to the sale of the Canadian subsidiaries and increased oil and gas prices.

The Company's total capital expenditures were \$2.9 million and \$0.7 million for the three months ended March 31, 2003 and 2002, respectively, primarily related to exploration and development.

No sales of oil and gas properties occurred in the first three months of either 2003 or 2002. However, as described in Note 3 to the financial statements, the Company sold its Canadian subsidiaries, and the oil and gas properties contained therein, for approximately \$112 million, with a closing date of March 5, 2003.

In July 2000, the Company entered into a \$75 million revolving credit agreement with the Toronto-Dominion Bank (TD Bank), the agent, and the Bank of Nova Scotia. The amended term of the facility is through May 1, 2004 and the current borrowing base is set at \$25 million. Borrowings can be funded by either Eurodollar loans or Base Rate loans. The interest rate on the borrowings is equal to an interest rate spread plus either the Eurodollar rate or the Base Rate. The interest spread is determined from a sliding scale based on the Company's borrowing base percentage utilization in effect from time to time. The spread ranges from 1.25 to 2.25 on Eurodollar loans and .25 to 1.25 on Base Rate loans. At March 31, 2003, the Company had no debt outstanding under the revolver and \$25 million available based on the current borrowing base, as defined, subject to certain limitations. During the first quarter of 2003, the average interest rate under this facility was approximately 4.1%. Effective April 28, 2003 the other lenders to the revolving credit agreement assigned their interests to the Bank of Oklahoma, N.A.

The Company has historically funded its capital expenditures, which are discretionary, and working capital requirements with cash flow from operations, debt and equity capital and participation by institutional investors. If the Company increases its capital expenditure level in the future or operating cash flow is not as expected, capital expenditures may require additional funding, obtained through borrowings from commercial banks and other institutional sources or by public or private offerings of equity or debt securities.

Other

In June 2001, the FASB issued FAS No. 143, Accounting for Asset Retirement Obligations. FAS 143 is effective for fiscal years beginning after June 15, 2002 (January 1, 2003 for the Company) and establishes an accounting standard requiring the recording of the fair value of liabilities associated with the retirement of long-lived assets (mainly plugging and abandonment costs for depleted wells) in the period in which the liability is incurred (at the time the wells are drilled). The effect of the adoption of this standard on the Company's results of operations and financial condition was an unaudited increase in liabilities of approximately \$5 million; an unaudited net increase in property, plant and equipment of approximately \$259 thousand; and an unaudited after tax charge to income for the cumulative effect of adopting the new standard of approximately \$3 million and a deferred tax asset of approximately \$1.7 million. The new standard had no material impact on income

Edgar Filing: PETROCORP INC - Form 10-Q

before the cumulative effect of adoption in the first quarter of 2003, nor would it have had a material impact in the first quarter of 2002 assuming an adoption of this accounting standard on a proforma basis.

In July 2002, the FASB issued FAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities, which is effective for exit or disposal activities initiated after December 31, 2002. The adoption of FAS No. 146 did not materially affect the Company's current financial position or results of operations.

In November 2002, the FASB issued FASB Interpretation ("FIN") 45, Guarantor's Accounting and Disclosure Requirements for Guarantees, including Indirect Guarantee of Indebtedness of Others." FIN 45 requires that upon issuance of a guarantee, the guarantor must recognize a liability for the fair value of the obligation it assumes under that guarantee. FIN 45's provisions for initial recognition and measurement should be applied on a prospective basis to guarantees issued or modified after December 31, 2002. The guarantor's previous application may not be revised or restated to reflect the effect of the recognition and measurement provisions of the interpretation. The disclosure requirements are effective for financial statements of both interim and annual periods that end after December 15, 2002. The Company is not a guarantor under any significant guarantees and thus the adoption of this interpretation did not have a significant effect on the Company's financial position or results of operations.

11

On December 31, 2002, the FASB issued FAS No. 148, Accounting for Stock-Based Compensation -- Transition and Disclosure -- an amendment of FAS 123, Accounting For Stock-Based Compensation. FAS 148 does not change the provisions of FAS 123 that permit entities to continue to apply the intrinsic value method of APB 25, Accounting for Stock Issued to Employees. FAS 148 does require certain new disclosures in both annual and interim financial statements. The required disclosures have been included in Note 1 of the Company's financial statements.

On January 17, 2003, the FASB issued FIN 46, Consolidation of Variable Interest Entities, An Interpretation of Accounting Research Bulletin No. 51. The primary objectives of FIN 46 are to provide guidance on how to identify entities for which control is achieved through means other than through voting rights (variable interest entities "VIE" and how to determine when and which business enterprise should consolidate the VIE. This new model for consolidation applies to an entity in which either (1) the equity investors do not have a controlling financial interest on (2) the equity investment at risk is insufficient to finance that entity's activities without receiving additional subordinated financial support from other parties. The adoption of this standard had no impact on the financial position or results of operations of the Company.

In April 2003, the FASB issued FAS No. 149, Amendment of Statement 133 on Derivative Instruments and Hedging Activities. This Statement amends and clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts (collectively referred to as derivatives) and for hedging activities under FASB Statement No. 133, Accounting for Derivative Instruments and Hedging Activities. The Company is currently evaluating the impact of FAS No. 149 on financial position and results of operations.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Company's primary sources of market risk are from fluctuations in commodity prices, interest rates and exchange rates.

Commodity Price Risk

The Company produces and sells natural gas, crude oil, condensate and natural gas liquids. As a result, the Company's financial results can be significantly affected as these commodity prices fluctuate widely in response to changing market forces. The Company has previously utilized hedging transactions to manage its exposure to price fluctuations on its sales of oil and natural gas.

No oil or natural gas hedges were outstanding during 2003. Hedging transactions for the three months ended March 31, 2002 increased oil and gas revenues by \$102,000 (reclassified from comprehensive income). All oil and gas hedging transactions expired in the fourth quarter of 2002.

In April 2002, the Company entered into a swap transaction covering 8,000 MMBTU of natural gas per day at a price of \$3.755 per MMBTU and covering the period from May 2002 through December 2002. The swap index is NYMEX Henry Hub.

Common Stock Repurchases

On September 14, 2001, the Board of Directors authorized the purchase of up to 1,000,000 shares of the Company's common stock. On March 5, 2003, the Board of Directors increased the number of shares authorized for purchase up to 25% of the outstanding shares of the Company. Through March 31, 2003, 309,947 shares have been purchased at a cost of \$2,757,000.

Item 4. Controls and Procedures

PetroCorp management, including the Chief Executive Officer and Chief Financial Officer, have conducted an evaluation of the effectiveness of disclosure controls and procedures pursuant to Exchange Act Rule 13a-14. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures are effective in ensuring that all material information required to be filed in this quarterly report has been made known to them in a timely fashion. There have been no significant changes in internal controls, or in factors that could significantly affect internal controls, subsequent to the date the Chief Executive Officer and Chief Financial Officer completed their evaluation.

CERTIFICATION PURSUANT TO

SECTION 302 OF

THE SARBANES-OXLEY ACT OF 2002

Edgar Filing: PETROCORP INC - Form 10-Q

CERTIFICATION

I, Steven R. Berlin, certify that:

1. I have reviewed this quarterly report on Form 10-Q of PetroCorp Incorporated.
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make statements made, in light of circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and we have:
 - a) designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - b) evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the "Evaluation Date"); and
 - c) presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):
 - a) all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and
6. The registrant's other certifying officers and I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
