NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Organization and Operations of Company

Next, Inc., (**NEXT** or the **Company**) is the parent company of (i) Next Marketing Inc., (**Next Marketing**), (ii) Blue Sky Graphics, Inc., (**Blue Sky**), and (iii) CMJ Ventures, Inc. (**CMJ**). The Company is a creative and innovative sales and marketing organization that designs, develops, markets and distributes licensed and branded promotional products and imprinted sportswear primarily through key licensing agreements and the Company's own proprietary designs.

2. Basis of Presentation and Summary of Significant Accounting Policies

Basis of Presentation

The condensed consolidated financial statements contained herein have been prepared in accordance with generally accepted accounting principles for interim financial statements, the instructions to Form 10-QSB and Item 310 of Regulation S-B. Accordingly, these financial statements do not include all the information and footnotes required by generally accepted accounting principles for annual financial statements. In addition, certain comparative figures presented have been reclassified to conform the prior year's data to the Company's current financial statements. In the opinion of management, the accompanying condensed consolidated financial statements contain all the adjustments necessary (consisting only of normal recurring accruals) to fairly present the financial position of the Company at May 31, 2003, and its results of operations and cash flows for the six months ended May 31, 2002 and 2003. Operating results for the six months ended May 31, 2003 are not necessarily indicative of the results that may be expected for the fiscal year ending November 30, 2003.

Principles of Consolidation

The accompanying unaudited condensed consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant intercompany balances and transactions have been eliminated.

Customer Base

NEXT has, over the last two years, developed a large, diverse, and distinguished customer base of traditional retailers, ranging from national as well as large regional chains, specialty retailers, corporate accounts, college bookstores, motor sports, souvenir and gift shops, and golf shops. This expansion has been achieved through the acquisition of CMJ, which sells to over one thousand five hundred specialty retailers, and the introduction of additional major product lines and distribution channels, such as its Motor Sports Division, which sells to a national auto dealer network, as well as expansion of its traditional national retail merchant customer base. As a result of the expansion, the Company has lessened its dependence on any one large customer or distribution channel. During the six months ended May 31, 2003, the Company's sales to one of its

Edgar Filing: NEXT INC/TN - Form 10QSB

largest customers, which emerged from chapter 11 bankruptcy protection on May 6, 2003, were \$2,721,546 (30.80% of sales) compared to \$1,680,972 (40.46% of sales) for same period last year. While the Company expects that the dependency on this customer will decrease in future periods, there can be no assurance that the Company's efforts will be successful. The Company's management believes that its credit risk exposure, based on current information available on the financial strength of its customers and previously recorded reserves, is limited. Such estimate could change in the future.

New Pronouncements

SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets ; SFAS No. 145, Rescission of FASB Statements No. 4, 44 and 64, Amendment of FASB Statement No. 13, and Technical Corrections ; SFAS No. 141, Business Combinations, SFAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities and SFAS No. 148, Accounting for Stock Based Compensation, FASB Interpretation No. 45, Guarantor's Accounting and Disclosure requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others , FASB Interpretation No. 46, Consolidation for Variable Interest Entities all became effective for the Company during 2002. The provisions and interpretations of these pronouncements, that are applicable to the Company, had no material effect on the Company's financial statements.

Table of Contents

SFAS No. 142, *Goodwill and Other Intangible Assets* became effective for the Company during 2002. SFAS 142 requires, among other things, the discontinuance of goodwill amortization. In addition, the standard includes provisions for the reclassification of certain existing recognized intangibles as goodwill, reassessment of the useful lives of existing recognized intangibles, reclassification of certain intangibles out of previously reported goodwill and the identification of reporting units for purposes of assessing potential future impairment of goodwill. SFAS 142 also requires the Company to complete a transitional goodwill impairment test six months from the date of adoption. The provisions of these interpretations that are applicable to the Company were implemented on a prospective basis as of January 1, 2002, which had no material effect on the Company's financial statements.

3. Inventories

Inventory is valued at the lower of cost or market. Cost is determined by the first-in, first-out method, and market represents the lower of replacement cost or net realizable value. Inventories as of May 31, 2003 consisted of the following:

Raw materials	\$ 3,958,120
Work in process	231,878
Finished goods	566,875
	<hr/>
	\$ 4,756,873
	<hr/>

4. Deferred and Income Taxes

Income taxes have been computed in accordance with Statement of Financial Accounting Standards No. 109, *Accounting for Income Taxes* (SFAS 109). This standard requires, among other things, recognition of future tax expenses or benefits, measured using enacted tax rates, attributable to taxable or deductible temporary differences between financial statements and income tax reporting bases of assets and liabilities.

The ultimate realization of deferred tax assets is dependent upon the attainment of forecasted results of operations. Management has taken these and other factors into consideration in recording the deferred tax estimate. The tax effects of temporary differences that give rise to significant portions of the deferred tax asset and liabilities at May 31, 2003 are as follows:

The Company has a \$5,000,000 revolving credit facility agreement with AmSouth Bank (Credit Facility), which expires on March 31, 2004. The agreement calls for monthly payments of interest at a nationally published prime rate plus .5% (4.75% at May 31, 2003) collateralized by accounts receivable and inventory. The Credit Facility is further collateralized by certain assets of and by personal guarantees of the Company's major stockholders.

These loans, aggregating \$2,534,663, were refinanced at an aggregate principal of \$3,000,000 with First Federal Savings Bank (New Note). The net proceeds of the refinancing of approximately \$425,745 were reinvested in the Company. The New Note bears interest at 6.5% and has a monthly payment of principal and interest of \$26,000 with a balloon payment of \$2,647,805 due on January 15, 2006. The refinancing provided positive cash flow compared to the cash outlay required by the notes prior to refinancing.

On February 12, 2003 the Company entered into an agreement with First Federal Savings for a capital expenditure note of \$225,000 bearing interest at 7% (Cap Ex). The Cap Ex note is payable in monthly installments of \$3,417 consisting of principal and interest through February 15, 2010.

Pursuant to the terms of the 2001 Next Stock Option Plan (the "Next Plan"), any options to acquire shares of Next's common stock previously granted under the plan shall be replaced with options to acquire shares of the Company's common stock. 503,000 employee options have been granted under the Next Plan, with each option vesting on the two-year anniversary of the grant date. These options are subject to forfeiture should the grantee fail to be employed by the Company on the vesting date and are being amortized over a two year period. The Company issued an additional 60,000 options under the Next Plan in March of 2003 to its independent Directors in lieu of fees, which are being amortized over a nine-month period.

The significant shareholders of the Company, representing approximately 70.1% of total shares outstanding, have voluntarily entered into lock-up agreements whereby the shares owned by them are subject to a lockup through May 1, 2006, that may be terminated on

Table of Contents

7. Earnings Per Share

The Company accounts for earnings per share (EPS) in accordance with Statement of Financial Accounting Standards (SFAS) No. 128, Earnings Per Share . SFAS 128 requires the presentation of basic and fully diluted EPS. Basic and diluted EPS for the three and six months ended May 31, 2002 and 2003 were calculated on the basis of the weighted average number of common shares outstanding during the three-month period, divided by the income available to common stockholders. Outstanding stock options have not been considered in the computation of diluted earnings per share amounts since the effect of their inclusion would not be material.

8. Acquisition of CMJ Ventures, Inc.

Effective June 1, 2002, the Company acquired all the issued and outstanding equity capital of CMJ Ventures, Inc. The results of operations of CMJ are included in the condensed consolidated financial statements of the Company commencing June 1, 2002. The following pro-forma condensed combined statement of operations has been prepared as if the acquisition of CMJ was consummated as of the beginning of each of the periods presented herein. The pro-forma results of operations are not necessarily indicative of the combined results that would have been achieved had the acquisition occurred at the beginning of the period, nor are they necessarily indicative of the results of operations that may occur in the future:

Pursuant to the terms of an Agreement and Plan of Merger dated as of March 1, 2002 and as amended on May 16, 2002 (the Merger Agreement), CMJ Ventures, Inc. (CMJ) became a wholly owned subsidiary of the Company effective June 1, 2002 (the Effective Date). Prior to the Merger, CMJ, a customer of Next, was a privately held company that designed and distributed licensed promotional products.

Edgar Filing: NEXT INC/TN - Form 10QSB

At the Effective Date, each outstanding share of CMJ common stock, \$1.00 par value, converted into 2,545.4545 shares of Company common stock, \$.001 par value, resulting in 1,400,000 shares of the Company's stock issued to the former stockholders of CMJ. The amount of the consideration paid in the Merger was determined through an arms-length negotiation between representatives of the Company and CMJ.

On May 15, 2003 (Effective Amendment Date), the Company, Sean Garber and Lisa Garber (former stockholders of CMJ), with the consent of CMJ, entered into an amendment to the Merger Agreement. At the Effective Amendment Date, Mr. Garber resigned his position with the Company. These transactions, taken together with the Company's plan to consolidate the operational functions; will result in a net cash savings of approximately \$700,000 over the next four years, inclusive of additional merger consideration of \$475,000 (payable monthly over four years) to the former stockholders of CMJ.

The Company has also undertaken, on a best efforts basis, to arrange for the purchase by a third party of Sean Garber and Lisa Garber's 1,260,000 shares issued at the Effective Date, subject to the same lock-up agreement and other terms, currently in effect, for

Table of Contents

an aggregate purchase price of \$1,260,000 (Private Distribution). If the Company is unable to arrange for the Private Distribution on or before May 15, 2004, the Company agrees to issue to Sean Garber and Lisa Garber 300,000 shares of its common stock as additional merger consideration.

9. Subsequent Event

On July 9, 2003, the Company issued 750,000 shares of common stock and warrants to purchase 375,000 shares of common stock to substantial institutional investors. The shares of common stock were purchased at a price of \$0.80 per share and the warrants will entitle the holders thereof to purchase shares of common stock at a price of \$1.125 per share for a period of five years. The above transaction has infused \$600,000 of new equity to the Company. The Company has agreed to file a registration statement with the Securities and Exchange Commission to register the shares of common stock issued in this financing and the shares of common stock issuable on exercise of warrants within thirty days of the closing.

Overview

NEXT is a creative and innovative sales and marketing organization that designs, develops, markets, and distributes licensed and branded promotional products and imprinted sportswear primarily through key licensing agreements and the Company's own proprietary designs. Management believes that there are substantial growth opportunities in the promotional products and imprinted sportswear industries.

Edgar Filing: NEXT INC/TN - Form 10QSB

Management believes that NEXT is well positioned to take advantage of such growth opportunities. Management believes that the Company has an excellent reputation in the marketplace as a result of its ability to provide quality products and services, on-time delivery, at competitive prices. In recent years, licensed imprinted sportswear has become very popular. Licensing agreements are available for branded products and services, professional sports teams, and many other promotional areas. According to the 26th annual licensing industry survey published in The Licensing Letter, a publication of EPM

Table of Contents

Communications in New York, sales of the sports licensing sector increased by 8% during the year ended December 31, 2002 to \$11.3 billion. To maximize its potential, the Company has, over the last two years, significantly expanded its license program to include the following:

NEXT has accumulated approximately 200 licenses and agreements to distribute its **College Wear USA** line for every major college and university;

NEXT has entered into licensing agreements with **Chevy®**, **Pontiac®**, **Dodge®**, **GMC®**, and **Ford®** to utilize their respective branded logos for the **RPM Sports USA** Motor Sports line, targeting the automotive dealership network consisting of approximately 6,000 auto dealers, and the NASCAR market, the largest spectator sport in the nation;

NEXT's proprietary designs include: **American Biker**, **American Wildlife**, **Ragtops Sportswear** and **Cadre Athletic** among others;

NEXT has acquired the exclusive license for distribution of the **Kentucky Derby products**;

NEXT has major licenses through a teaming agreement with **Corona®**, **Miller®**, **Mike's Hard Lemonade®** to utilize their branded logos for the **Beer Wear USA** product line.

Operations and Expansion

NEXT is one of the significant companies in the highly fragmented licensed promotional products and imprinted sportswear industries. The Company has implemented its strategy of "The Total Solution Company" to meet its customers' key requirements including: art design and development, manufacturing (for imprinted sportswear), sourcing (for distributed products), warehousing and fulfillment. NEXT has, over the last two years, developed a large, diverse, and distinguished customer base of traditional retailers, ranging from national as well as large regional chains, specialty retailers, corporate accounts, college bookstores, motor sports, souvenir and gift shops, and golf shops.

NEXT is actively engaged in discussions with various potential acquisition targets and expects to grow through strategic acquisitions of complimentary businesses. On June 25, the Company announced that it had signed a letter of intent to acquire Lil Fan and Affiliates, a privately held sales and marketing company located in Noblesville, Indiana. The Company has embarked on an aggressive acquisition program that targets companies servicing other segments of the promotional products and imprinted sportswear industry not currently serviced by the Company, especially the souvenir, gift shop and corporate segment. It is anticipated that such strategic acquisition targets will enable the Company to more effectively utilize its marketing and sales expertise, acquire the ability to cross distribute its branded products and licenses throughout a wider distribution base, lessen its dependency on the seasonality of retail customers and reduce overall operating costs by consolidating its services and distribution facilities, to the extent feasible.

Acquisition of CMJ Ventures Inc.

As discussed above, effective June 1, 2002, the Company acquired all of the issued and outstanding equity capital of CMJ. CMJ, a sales and marketing company, distributes products primarily under its proprietary license programs, the American Biker® line, which specializes in motorcycle merchandising, and the Rag Tops Sportswear® line, a premier line in the gift and souvenir markets. Additionally, CMJ operates a promotional products division that services major corporate clients and national retailers. CMJ's customers, distribution network and licenses diversify, complement, and bolster the Company's existing customer and distribution base. The Company expects that future sales and earnings will continue to show strong growth. The Company has fully integrated the operations, accounting and administrative functions of CMJ, thereby resulting in cost savings to the ongoing operations.

As described in Note 8 to the financial statements, on May 15, 2003 the Company amended the terms of the Agreement and Plan of Merger pursuant to which the Company acquired CMJ.

Net sales also increased 112.4% to \$8,837,254 for the six months ended May 31, 2003 from \$4,160,427 for the six months ended May 31, 2002. This growth in sales is primarily attributable to (a) the inclusion of CMJ sales (b) expansion of the Next Marketing customer base of new national retail merchants (c) the successful introduction of E-Commerce sales and (d) expansion of Motor Sports sales. Management believes that future sales growth will continue primarily through the diversification and expansion of the Company's customer base and its expanded product offerings.

Cost of Sales

Edgar Filing: NEXT INC/TN - Form 10QSB

Cost of sales was 72.2% of the Company's sales for the three months ended May 31, 2003 compared to 74.9% for the three months ended May 31, 2002. This reduction in cost as a percentage of sales resulted primarily from lower unit cost incurred by the Company for raw materials, combined with the favorable product mix of sales, and production efficiencies due to higher unit output results in lower unit overhead cost.

Expenses included in cost of sales were primarily raw materials, labor, shipping supplies, and the depreciation of both the Company's principal manufacturing facility in Indiana and its equipment.

The increase in royalty expense was directly related to sales increase and sales mix with higher royalty expense percentages which is one of the Company's primary sales and marketing expansion strategy. Commissions increased as a greater percentage of sales due to an increase in sales generated by outside sales representatives.

To effectively implement its growth and acquisition plan, along with enabling the Company to meet its expanded public reporting requirements, the Company finalized the initial implementation of its information system and expanded its corporate capabilities. Total expenses incurred by the Company for such internal and outside professional services for the three months ended May 31, 2003 and 2002 were \$235,058 and \$106,068, respectively. The Company is presently in discussions with several lending institutions that have indicated a desire to replace and increase the Company's current revolving credit facility. In addition, the Company believes that its relationship with its existing banks is such that they would be willing to extend their facilities beyond the due date if necessary. Should the Company fail to secure a new credit facility following maturity or default on any of its promissory notes, it would have a materially adverse effect on the Company's liquidity and ability to finance operations.

The Company's principal use of cash is for operating expenses, interest and principal payments on its long-term debt, working capital and capital expenditures. Cash used in operations for the six months ended May 31, 2003 was \$702,560 as compared to \$1,134,871 of cash provided by operations for the six months ended May 31, 2002. The decrease in cash used stemmed primarily from increased profitability.

This net decrease of \$131,277 related to reduction in proceeds from the revolving credit facility that was partially offset by repayment of debt.
