PART I

**Item 2. Management's Discussion and Analysis of
Financial Condition and Results of Operations**

The enclosed financial statements are unaudited with the exception of the Balance Sheet for December 31, 2002, which was derived from audited financial statements. The unaudited interim financial statements reflect all adjustments which are, in the opinion of management, necessary to a fair statement of the results for the interim periods presented. All such adjustments are of a normal recurring nature.

Management believes that the Company's revenues will be sufficient to meet its existing needs and the needs for its anticipated future operations. Long-term trends will depend upon the ability of management to continue to find new production to replace the depletion of the Company's present minerals as well as increasing the Company's income from timber and agriculture. Management does not presently anticipate that the Company will incur material additional liabilities in its future operations. The Company participates in no off-balance sheet entities.

The Company earned \$198,683 net income for the second quarter of 2003 compared to \$264,384 for the second quarter of 2002 and \$251,777 for the first quarter of 2003. Net income for the first six months of 2003 was \$450,460 compared to \$354,375 for the first six months of 2002 or an increase of 27.1%. The differences were almost totally due to changes in revenues from oil and gas properties. The decrease in the current quarter from the second quarter of 2002 was due to lower mineral lease income and decrease in receipts from the Company's small working interests in two wells in the Woodlawn field. The decrease in the current quarter from the first quarter of 2003 was due to decrease in receipts from the Woodlawn field and lower prices. The difference in general and administrative expenses for the three months ended June 30, 2003, and June 30, 2002, was due to the timing of the payment of the franchise tax.

Included in oil and gas income for the second quarter was \$36,324, first payment from settlement of the Strohe suit. Total remaining payments are presently unknown.

The Board of Directors has decided to disburse as dividends all income that is determined unnecessary for prudent future operations. This was decided as a consequence of changes in the federal taxation of dividends.
