I. Information About Voting

Solicitation of Proxies. The Board of Directors of FMC Corporation (FMC) is soliciting proxies for use at the 2004 Annual Meeting of FMC and any adjournments of that meeting. FMC first mailed this proxy statement, the accompanying form of proxy and the FMC Annual Report for 2003 on or about March 18, 2004.

Agenda Items. The agenda for the Annual Meeting is to:

1. Re-elect three directors;
2. Ratify the appointment of KPMG LLP as our independent public accountants for 2004; and
3. Conduct other business properly brought before the meeting.

Who Can Vote. You can vote at the Annual Meeting if you are a holder of FMC s common stock, par value of \$0.10 per share (Common Stock), on the record date. The record date is the close of business on March 1, 2004. You will have one vote for each share of Common Stock. As of March 1, 2004, there were 35,545,991 shares of Common Stock outstanding and entitled to vote.

How to Vote. You may vote in one of four ways:

- You can come to the Annual Meeting and cast your vote there;
- You can vote by signing and returning the enclosed proxy card. If you do, the individuals named on the card will vote your shares in the way you indicate;
- You can vote by Internet; or
- You can vote by telephone.

If you hold your shares through a broker or bank and you wish to vote at the Annual Meeting, you must obtain a legal proxy from them authorizing you to vote at the Annual Meeting. We will be unable to accept a vote from you at the Annual Meeting without that authorization. If you are a registered stockholder and wish to vote at the Annual Meeting, no additional authorization will be required.

Use of Proxies. Unless you tell us on the proxy card to vote differently, we plan to vote signed and returned proxies **FOR** the Board nominees for director and **FOR** agenda item 2. We do not now know of any other matters to come before the Annual Meeting. If they do, proxy holders will vote the proxies according to their best judgment.

Abstentions or Lack of Instructions to Banks, Brokers, or Employee Benefit Plan Trustees.

Broker non-votes are counted as part of the quorum. A broker non-vote occurs when banks, brokers or other nominees holding shares on behalf of a stockholder do not receive

Table of Contents

voting instructions from the stockholder by a specified date before the Annual Meeting. In this event, banks, brokers and other nominees may vote those shares on matters deemed routine by the New York Stock Exchange. The election of directors and ratification of the appointment of independent public accountants are considered routine matters.

If you are entitled to vote shares held under an employee benefit plan and you either do not direct the trustee by April 22, 2004 how to vote your shares, or if you vote on some but not all matters that come before the Annual Meeting, the trustee will, in the case of shares held in the FMC Corporation Savings and Investment Plan, vote your undirected shares in proportion to the votes received from other participants, and in the case of other employee plans, vote your shares in the trustee's discretion, except to the extent that the plan or applicable law provides otherwise.

Revoking a Proxy. You may revoke your proxy at any time before it is exercised. You can revoke a proxy by:

- Sending a written notice to the Corporate Secretary of FMC;
- Delivering a properly executed, later-dated proxy;
- Attending the Annual Meeting and voting in person, provided that you hold your shares directly or through a bank or broker; or
- If your shares are held through an employee benefit plan, your revocation must be received by the trustee by April 22, 2004.

Quorum Requirement. We need a quorum of stockholders to hold a valid Annual Meeting. A quorum will be present if the holders of at least a majority of the outstanding Common Stock entitled to vote at the meeting either attend the Annual Meeting in person or are represented by proxy. Abstentions, broker non-votes and votes withheld are counted as present for the purpose of establishing a quorum.

Vote Required for Action. Directors are elected by a plurality vote of shares present in person or represented by proxy at the meeting. Other actions require the affirmative vote of the majority of shares present in person or represented by proxy at the meeting. Abstentions have the effect of a no vote on matters other than director elections, and broker non-votes have no effect on the vote for or against such matters.

II. The Proposals To Be Voted On

Election of Directors

Edgar Filing: FMC CORP - Form DEF 14A

FMC has three classes of directors, which are intended to be as nearly equal in size as possible. The term for each class is three years. Class terms expire on a rolling basis, so that one class of directors is elected each year. The term for Class III directors will expire at the 2007 Annual Meeting.

Table of Contents

Nominees for Director

The nominees for director this year are William F. Reilly, James R. Thompson and William G. Walter. Information about the nominees and the continuing directors is contained in the next section of this proxy statement entitled Board of Directors.

B. A. Bridgewater, Jr., a Director since 1979 and a member of the Class III directors, will retire from the Board on April 27, 2004. The Board extends its thanks to him for his counsel and service.

The Board of Directors elected Mark P. Frissora a director effective January 1, 2004. Mr. Frissora was placed in the Class I Director group in order to keep each class as nearly equal in size as possible.

The Board of Directors expects that all of the nominees will be able and willing to serve as directors. If any nominee is not available, the proxies may be voted for another person nominated by the Board of Directors to fill the vacancy, or the size of the Board of Directors may be reduced.

The Board of Directors recommends a vote FOR the election of William F. Reilly, James R. Thompson and William G. Walter.

Ratification of Appointment of Independent Public Accountants

The Audit Committee of the Board of Directors has approved KPMG LLP continuing to serve as FMC's independent public accountants for 2004. For the years 2002 and 2003, KPMG's fees were as follows:

	(\$000)	
	2003	2002
• Audit Services (1)	1,140	1,264
• Audit Related Services (2)	117	93
• Tax Services (3)	250	200
• All Other Services (4)	180	157
	<hr/>	<hr/>
• TOTAL	1,687	1,714

Edgar Filing: FMC CORP - Form DEF 14A

- (1) Fees for professional services performed by KPMG for the audit of the Company's annual financial statements and review of financial statements included in the Company's 10-Q filings, and services that are normally provided in connection with statutory and regulatory filings or engagements.

- (2) Fees for assurance and related services performed by KPMG that are reasonably related to the performance of the audit or review of the Company's financial statements. This includes employee benefit and compensation plan audits; due diligence related to mergers and acquisitions; attestations by KPMG that are required by statute or regulation; and consulting on financial accounting/reporting standards.

Table of Contents

- (3) Fees for professional services performed by KPMG with respect to tax compliance, tax advice and tax planning. This includes preparation of original and amended tax returns for the Company and its consolidated subsidiaries; refund claims; payment planning; tax audit assistance; and tax work stemming from Audit-Related items.
- (4) Fees for other permissible work performed by KPMG that does not fall within the categories set forth above. This work consists solely of tax filing and planning for individual employees involved in the Company's expatriate program.

Pre-Approval of Independent Auditor Services During 2003, the Committee adopted a Pre-Approval Policy with respect to audit and non-audit services performed by its outside auditors. The following is a summary of the Policy.

At its December meeting, the Audit Committee will grant pre-approvals of the subsequent year's expected services and estimated fees, as presented by the independent auditor. The Committee will be routinely updated during the year by the independent auditor as to the actual services provided and related fees pursuant to the Pre-Approval Policy.

Unexpected services not captured under the Pre-Approval Policy, or where actual fees exceed pre-approved amounts, will require specific approval before the services may be rendered. Requests or applications to provide such services that require specific approval by the Audit Committee will be submitted to the Chairman of the Audit Committee by both the independent auditor and the Company's Chief Financial Officer, and must include a joint statement as to whether, in their view, the request or application is consistent with the SEC's rules regarding auditor independence. Authority to grant approval for such services has been delegated to the Chairman of the Audit Committee, subject to a \$100,000 limit for each request, and provided that any such approval would then be reviewed by the full Committee at the next regularly scheduled meeting. Any such request exceeding that amount would require the approval of the full Audit Committee.

The Audit Committee has determined that the independence of KPMG LLP has not been adversely impacted as a result of the non-audit services performed by such accountants.

We expect a representative of KPMG LLP to attend the Annual Meeting. The representative will have an opportunity to make a statement if he or she desires and also will be available to respond to appropriate questions.

The Board of Directors recommends a vote FOR ratification of the appointment of KPMG LLP as FMC's independent public accountants for 2004.

IV. Information About the Board of Directors and Corporate Governance

Meetings

During 2003, the Board of Directors held six regular meetings. All incumbent directors attended at least 75% of the total number of meetings of the Board and all committees on which they served.

Committees and Independence of Directors

The Board of Directors has five standing committees: an Audit Committee, a Compensation and Organization Committee, a Nominating and Corporate Governance Committee, an Executive Committee, and a Public Policy Committee.

The Audit Committee, Compensation and Organization Committee, and Nominating and Corporate Governance Committee are all composed of non-employee directors each of whom has been determined by the Board to be independent, on the basis set forth below. There are no interlocking directorships, and none of the non-employee directors receives any consulting, legal or any other non-director fees from FMC, its subsidiaries or affiliates. With the exception of the Chief Executive Officer, no director is a current or former employee of FMC, its subsidiaries or affiliates.

The Board has affirmatively determined that none of the non-employee directors has any material relationship with FMC, its subsidiaries or affiliates other than as a director, and that they all qualify as independent. In order to be considered independent by the Board, a director must meet the requirements set forth in the Securities and Exchange Commission (SEC) and New York Stock Exchange (NYSE) rules regarding independence, and further have no present or former employment by FMC, its subsidiaries or affiliates. The Board found that no non-employee director, other than Mr. Greer, has any business, family or other relationship with FMC, its subsidiaries or affiliates other than as a director. Mr. Greer is an executive officer of a company that does business with FMC. However, the amount involved in the transactions between the two companies falls well below the monetary limitations for independence included in the foregoing standard and is not material to either FMC or the other company. On that basis, the Board has concluded that Mr. Greer also meets the independence standards applied by the Board.

Audit Committee

The Board of Directors has adopted a written charter that outlines the duties of the Audit Committee, including conducting an annual self-assessment. A copy of the Charter is

Members: Mr. D. Aloia (Chair), Dr. Buffler, Mr. Frissora, Mr. Mooney and Mr. Sosa. The Board of Directors has determined that Mr. D. The Board has also determined that no committee member sits on the audit committee of more than three public companies.

See the section below entitled Communicating with the Board for procedures for communicating with Mr. Mooney.

Board of Directors Compensation

Compensation Plan The Company maintains the FMC Corporation Compensation Plan for Non-Employee Directors to provide for the compensation described below.

Edgar Filing: FMC CORP - Form DEF 14A

Retainer and Fees Each director who is not also an employee is paid an annual retainer of \$40,000 or a prorata amount for any portion of a year served. At least \$25,000 of the annual retainer is paid in deferred stock units, which are payable in Common Stock upon death or retirement from the Board of Directors. The remainder is paid in quarterly installments in cash, or, at the election of a non-employee director, may be paid in deferred stock units (elective units). Each non-employee director also receives \$1,500 for each Board of Directors meeting and Board of Directors committee meeting attended, and each director is reimbursed for reasonable incidental expenses. Each non-employee director who chairs a Committee is paid an additional \$7,000 per year except the Chairman of the Audit Committee, who is paid \$9,000 per year. Audit Committee members also receive an additional \$3,000 annual retainer.

Table of Contents

Restricted Stock Units Each non-employee director of FMC was entitled to receive 2,133.982 units of restricted stock units in 2003 except for Mr. Frissora, who became a director on January 1, 2004, and received a prorata grant of 410.196 restricted stock units on that date . These restricted stock units are payable in Common Stock upon retirement from the Board of Directors or death.

Other Compensation Directors who are also employees of FMC do not receive any additional compensation for their service as directors. No other remuneration is paid to directors for services as a director of FMC. Directors who are not FMC employees do not participate in FMC s employee benefit plans. FMC supports the charitable donations of directors under its matching gifts plan that provides a dollar-for-dollar match of gifts up to \$10,000 per year, to certain educational institutions and arts and cultural organizations.

Corporate Governance

Communicating with the Board Stockholders may communicate with the Board of Directors, the Chair of the Compensation and Organization Committee (who presides over executive sessions of the Board) or any individual member of the Board as follows: Communications must be in writing, sent care of the Corporate Secretary, FMC Corporation, 1735 Market Street, Philadelphia, Pennsylvania 19103. All communications with the Board, the Chair of the Compensation and Organization Committee or any individual director will be delivered as addressed.

Director Nomination Process The Nominating and Corporate Governance Committee and other members of the Board identify candidates for consideration by the Nominating and Corporate Governance Committee. An executive search firm may also be utilized to identify qualified candidates for consideration. The Nominating and Corporate Governance Committee evaluates candidates based on the qualifications for director described in its Charter. These qualifications include, among other things, integrity, business experience, stature in their field of endeavor, diversity of perspective, ability to reach thoughtful, independent and logical judgments on difficult and complex issues, and whether the candidate meets the independence standard described in the section above entitled Director Independence . The Nominating and Corporate Governance Committee then presents qualified candidates to the full Board of Directors for consideration and selection. - (1) These unvested stock options expired in accordance with the terms of the FMC Corporation Incentive Compensation and Stock Plan upon Mr. Harries' retirement on October 1, 2003.

The Black-Scholes option-pricing model was used to value these options as of the date granted, March 3, 2003. The model assumed: an exercise price of \$15.83 per share, equal to the fair market value of FMC Common Stock on the date of grant; an average option life of 5 years; an interest rate of 2.41% that represents the interest rate on a U.S. Treasury security on the date of grant with a maturity date corresponding to that of the option term;

Table of Contents

an assumed annual volatility of underlying stock of 31.52%; and no dividends being paid. FMC made no assumptions regarding restrictions on vesting or the likelihood of vesting.

The ultimate values of the options will depend on the future market price of FMC's Common Stock (as applicable), which cannot be forecast with reasonable accuracy. The actual value, if any, an option holder will realize when exercising an option will depend on the excess of the market value of FMC's Common Stock over the exercise price on the date the option is exercised.

- Final Average Earnings in the table means the average of covered compensation for the highest 60 consecutive calendar months out of the 120 calendar months immediately before retirement. Covered compensation includes amounts appearing in Columns (C) and (D) of the Summary Compensation Table on page 18.
- At December 31, 2003, Messrs. Walter, Harries, Foster, Steele, Butz and Wilson had, respectively, 29, 26, 25, 26, 12 and 6 years of credited service under the pension plan (and its supplements).
- Applicable benefits for employees whose years of service and earnings differ from those shown in the table are equal to (A + B) times C where: (A) equals 1% of allowable Social Security covered compensation (\$43,968 for a participant retiring at age 65 in 2003) times years of credited service (up to a maximum of 35 years) plus 1.5% of the difference between Final Average Earnings and allowable Social Security compensation times years of credited service (up to a maximum of 35 years); (B) equals 1.5% of Final Average Earnings times years of credited service in excess of 35 years; and (C) equals the ratio of credited service at termination to credited service projected to age 65.
- The amounts shown will not be reduced by Social Security benefits or other offsets. As the Code limits the annual benefits that may be paid from a tax-qualified retirement plan, FMC has adopted permitted supplemental arrangements to maintain total benefits during retirement at the levels shown in the table.

Termination and Change of Control Arrangements

Plan and Participants. FMC maintains an Executive Severance Plan that includes approximately 20 officers and managers, including the individuals listed in the Summary Compensation Table.

Table of Contents

Benefits. If a change in control (as described below) of FMC occurs and if, within two years of that change of control, a participant's employment is terminated without cause or a participant voluntarily terminates his or her employment because his or her duties, location, salary, compensation or benefits are changed or are reduced, then the participant is entitled to benefits from FMC. In general, those benefits include: (i) a lump sum payment of three, two or one (depending on position) times salary and highest target management incentive award; (ii) immediate vesting of long-term incentive awards, restricted stock and stock options; (iii) continuation of medical and other benefits for up to three years; and (iv) distribution of accrued retirement and 401(k) plan benefits. FMC will compensate the participant for any excise tax liability as a result of payments under the plan. The Chief Executive Officer and President can also receive these benefits if he voluntarily terminates his employment with FMC within the thirteenth month after a change in control of FMC. Under the specific provisions of Messrs. Walter, Foster, Steele, Butz and Wilson's executive severance agreements, each will receive a lump sum payment of three times his salary and highest target management incentive award.

Change in Control. In general, the following transactions are considered as changes in control under the plan: (a) a third party's acquisition of 20 percent or more of FMC's Common Stock; (b) a change in the majority of the Board of Directors; (c) completing certain reorganization, merger or consolidation transactions or a sale of all or substantially all of FMC's assets; or (d) the complete liquidation or dissolution of FMC.

Report of the Compensation and Organization Committee on Executive Compensation

The Report of the Compensation and Organization Committee on Executive Compensation that follows shall not be deemed to be incorporated by reference into any filing made by FMC under the Securities Act of 1933 or the Securities Exchange Act of 1934, notwithstanding any general statement contained in any such filing incorporating this proxy statement by reference, except to the extent FMC incorporates such Report by specific reference.

Goals. FMC's executive compensation program is designed to align total compensation with stockholder interests. The program is intended to:

- Incent and reward executives for sound business management and achieve improvements in stockholder value
- Balance variable pay components so that both short and longer-term operating and strategic objectives are recognized
- Require the achievement of objectives within a high-performance environment to be rewarded financially

Table of Contents

- Attract, motivate and retain executive talent necessary for the long-term success of FMC

The program consists of three different compensation components: base salary; variable cash incentive awards (annual bonuses); and long-term incentive awards (stock options and restricted stock). Effective in 2004, the long-term incentive awards may also include a performance-based cash component.

Base salary. FMC uses external surveys to set competitive compensation levels (salary ranges) for its executives. In order to obtain the most comprehensive survey data for review, the group of companies in the surveys is broader than the S&P Midcap 400 Index and includes companies comparable to those in the SP400 Diversified Chemicals Index. However, companies in both these Indices, which are included in the stock performance graph on page 26, are well represented in the surveys.

Salary ranges for FMC executives are established based on similar positions in other companies of comparable size and complexity. Generally, FMC sets its competitive salary midpoint for an executive officer at the median level compared with the companies surveyed. Performance levels within the ranges are delineated to recognize different levels of performance ranging from needs improvement to exceptional. As a result, although nominally targeted to fall at or near the 50th percentile of such comparable organizations, compensation may fall anywhere within the salary range based on performance.

Starting placement in a salary range is a function of an employee's skills, experience, expertise and anticipated job performance. Each year performance is evaluated against mutually agreed upon objectives and performance standards that may, in part, be subjective; a performance rating is established; and a salary increase may be granted. Performance factors used may include timely responses to downturns in major markets, setting strategic direction, making key management changes, divesting businesses and acquiring new businesses, continuing to improve operating efficiency, and developing people and management capabilities. The relative importance of each of these factors varies based on the strategic thrust and operating requirements of each of the businesses.

Mr. Walter received a base salary increase of 7.9% effective March 1, 2003.

Management Incentive Awards. The FMC Corporation Incentive Compensation and Stock Plan (Plan) provides for annual cash incentives for achievement of both individual performance targets and business performance targets based on performance goals, which for 2003 included net income from continuing operations and net debt. The Committee oversees Plan objectives and design as well as the setting of performance targets and approval of Plan results. Participation in the Plan is based on opportunity to influence performance and growth at FMC, position level, competitive practice for similar positions, performance and potential. Achieving high standards of business and individual

Table of Contents

performance are rewarded financially, and significant compensation is at risk if these high standards are not met. Participants in the Plan have annual targets that range from 24 percent to 75 percent of base pay. Business performance incentives range from 30 percent to 70 percent of the total target incentive, while actual payments for business performance can range from zero to three times target. Effective in 2004, the range will be zero to two times target.

The annual performance incentive (the API) is the individual performance target, and generally comprises 30 to 70 percent of the total target incentive. It is awarded based on achieving annual objectives set for the individual's most important business responsibilities. The API is less quantitative than the business performance incentive. It varies by individual performance and can be rewarded in a range from zero to two times the target percentage.

Mr. Walter's 2003 broad objectives focused on improving operating and financial performance, expanding key external relationships with institutional investors and investment analysts, organizational and people development issues, corporate and business unit strategy development, occupational and process safety performance, and security. Mr. Walter's bonus for 2003, shown in Column D of the Summary Compensation Table, was \$927,150.

Equity Awards. The Plan is designed to closely link the long-term reward of executives with increases in stockholder value, and gives the Committee broad discretion to select the appropriate types of rewards. Equity awards under the Plan in 2003 consisted of nonqualified stock options and restricted stock. The stock options have a vesting period as determined by the Committee, normally about three years. Stock options have a term of 10 years and unvested options generally expire upon termination of employment, unless such termination is a result of death, disability or retirement on or after age 62, or not for cause, in which case the option may be exercised for periods beyond termination of employment, but not beyond the term of the option. The exercise price of options is the fair market value of Common Stock on the date of the grant. The restricted stock has a vesting period as determined by the Committee, normally three or four years. To determine the number of options and/or shares of restricted stock to be granted to an executive, we establish an award level based on a prevalence of market data as provided by an independent consultant. In approving grants under the Plan, the number of options and shares of restricted stock previously awarded to and held by executive officers is considered, but is not regarded as a significant factor in determining the size of the current awards. Mr. Walter's 2003 option grant is as indicated on page 19 in this proxy statement in the section headed Option Grants in 2003. Restricted stock grants appear in Column F of the Summary Compensation Table.

Section 162(m) Deductibility. The Committee is advised that the Plan meets the requirements for deductibility under Section 162(m) of the Code. However, not all grants

Table of Contents

that may be made under the Plan or that have been made under the Plan meet all requirements for deductibility under Section 162(m) of the Code. However, unless the amounts involved become material, the Committee believes that it is more important to preserve its flexibility under the Plan to craft appropriate incentive awards than to meet every requirement for deductibility with respect to every grant. The Committee continues to believe that this is not a currently significant issue and will continue to monitor the issue prospectively.

Stock Ownership Policy. FMC has established guidelines setting expectations for the ownership of FMC stock by executive officers. The guidelines for stock retention are based on a multiple of one to four times the employee's base pay midpoint. All current FMC executive officers named in this proxy statement are in compliance with the stock ownership guidelines.

Stockholder Return Performance Presentation

The graph that follows shall not be deemed to be incorporated by reference into any filing made by FMC under the Securities Act of 1933 or the Securities Exchange Act of 1934, notwithstanding any general statement contained in any such filing incorporating this proxy statement by reference, except to the extent FMC incorporates such graph by specific reference. The following Stockholder Return Performance Graph compares the five-year cumulative return on FMC's Common Stock for the period from January 1, 1999 to December 31, 2003, with the S&P Midcap 400 Index and the S&P 400 Diversified Chemicals Index. The comparison assumes \$100 was invested on January 1, 1999 in the Company's Common Stock and in each of the Indices and assumes reinvestment of the dollar value of FMC's distribution of FMC Technologies stock on December 31, 2001. For the purposes of this graph, the FMC Technologies dividend is treated as a non-taxable cash dividend that would have been reinvested in additional FMC shares on January 2, 2002.

VII. Other Matters

Section 16(a) Beneficial Ownership Reporting Compliance

Based on a review of forms filed and information provided by officers and directors to FMC, FMC believes that all Securities Exchange Act of 1934 Section 16(a) requirements were fully met with the following exceptions: one late report for each of Messrs. Deas, Foster,

Harries, Steele, Walter, Wood and Ms. Utecht with regard to a stock option grant; one late report for each of Messrs. Foster, Harries, Walter and Wood with regard to the withholding of stock to satisfy withholding tax obligations due on the vesting of restricted stock where the grant of such stock had been previously reported. In all cases the delays were the result of administrative error and were not caused by the executives.

If you choose to enroll, you will receive notice next year when proxy materials or other documents distributed to shareholders are available, with instructions on how to view them and, if applicable, how to submit voting instructions. Your enrollment in FMC's electronic delivery program will remain in effect until you revoke it. Management encourages you to participate in this opportunity and the householding program described below.

Householding Election

Securities and Exchange Commission rules allow multiple stockholders residing at the same address, the convenience of receiving a single copy of proxy statements, annual reports and other stockholder information at such address if they consent to do so. This is known as Householding. It will provide greater convenience for stockholders and reduce costs for the Company, as well as reduce the number of duplicate documents that you receive.

By checking the Yes or For box in the Householding Election section of your proxy card or voting instruction form, you are consenting to the mailing of a single copy of proxy statements, annual reports and other stockholder information to the account address. The same result will apply if you abstain from voting on the Householding Election. If you are enrolled in our Householding program, a separate proxy card for each registered stockholder account will continue to be mailed. Your consent will be perpetual unless you revoke it, which you may do at any time. To change or revoke your consent, contact FMC's agent, ADP Investor Communications Services, by calling (toll free) (800) 542-1061, or by writing to ADP, Householding Department, 51 Mercedes Way, Edgewood, New York, 11717. If you revoke your consent, you will begin receiving individual copies of future mailings within 30 days after receipt of your revocation notice. Even if you are enrolled in the Householding program, you may always obtain a separate copy of proxy materials, annual reports and other stockholder information for any additional stockholder residing at an address to which only one copy was mailed, by contacting the Investor Relations Department, FMC Corporation, 1735 Market Street, Philadelphia, Pennsylvania 19103.

Please note that if you do not indicate your objection to Householding by checking No in the appropriate box on your proxy card or Against on the voting instruction form, you will be considered to have consented to Householding and it will start 60 days after the date of this proxy statement.

Expenses Relating to this Proxy Solicitation

FMC will pay all expenses relating to this proxy solicitation. In addition to this solicitation by mail, FMC officers, directors, and employees may solicit proxies by telephone or personal call without extra compensation for that activity. FMC also expects to reimburse banks, brokers and other persons for reasonable out-of-pocket expenses in forwarding proxy material to beneficial owners of FMC stock and obtaining the proxies of those owners. FMC has retained Georgeson Shareholder Communications Inc. to assist in the solicitation of proxies. FMC will pay the cost of such assistance, which is estimated to be \$6,000 plus reimbursement for out-of-pocket fees and expenses.
