Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of the

ADTRAN, Inc. 401(k) Retirement Plan

In our opinion, the accompanying statements of net assets available for plan benefits and the related statement of changes in net assets available for plan benefits present fairly, in all material respects, the net assets available for plan benefits of the ADTRAN, Inc. 401(k) Retirement Plan (the Plan) at December 31, 2003 and 2002, and the changes in net assets available for plan benefits for the year ended December 31, 2003 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

ADTRAN, Inc. 401(k) Retirement Plan

Notes to Financial Statements

For the Years Ended December 31, 2003 and 2002

1. Description of the Plan

The following description of the ADTRAN, Inc. 401(k) Retirement Plan (the **Plan**) provides only general information. Participants should refer to the Plan Document and related Adoption Agreement for a more complete description of the Plan's provisions.

General

ADTRAN, Inc. (the **Company** and the **Employer**) formed the Plan effective January 1, 1990 to provide certain retirement benefits for its employees. ADTRAN, Inc. designs, develops, manufactures, markets, and services a broad range of high-speed network access products utilized by providers of telecommunications services and corporate end-users to implement advanced digital services over public and private networks. The Plan is a defined contribution plan subject to the provisions set forth in the Employee Retirement Income Security Act of 1974 (**ERISA**) and the provisions of Internal Revenue Service (**IRS**) Code Sections 401(a) and 401(k). The Plan is funded by discretionary employee contributions as well as nondiscretionary employer contributions. The plan assets are held by Fidelity Management Trust Company (**Fidelity**) which executes investment transactions, receives the plan contributions, credits participants' individual accounts and pays benefits to participants and their beneficiaries in accordance with the provisions of the Plan. The Plan was amended, effective July 1, 1997, to allow the Company's common stock to be purchased by the Plan.

Effective January 1, 2001, the Company's Board of Directors adopted various revisions to the Plan. The revisions included changing the name of the Plan to the ADTRAN, Inc. 401(k) Retirement Plan and adopting various amendments to bring the Plan into compliance with the provisions of IRS Code Section 401(k)(12)(c) as a design-based safe harbor plan for nondiscrimination purposes. As amended, the Plan provides that the Company will make nonelective contributions of 3% of each eligible participant's annual compensation. In addition, the Plan no longer requires (or permits) the Company to make matching contributions for employee elective deferrals. Under the Plan as amended, there is no minimum age requirement for employees to be eligible to participate, and there is no minimum service requirement for employees to be eligible to make elective deferrals under the Plan. However, employees must complete one year of service to be eligible for the safe harbor contribution of 3% of their eligible compensation. As amended, the Plan permits participants to change their contribution rate as of the first payroll period of each quarter.

Effective March 1, 2001, the Plan was further amended in connection with the appointment of Fidelity as Trustee and recordkeeper of the Plan. This amendment permitted participants to elect to receive a distribution from the Plan in the form of company stock. Also, the Plan's loan provisions were modified to limit outstanding loans to two at a time.

The Plan was amended a third time during 2001. This amendment, effective December 1, 2001, excluded co-op employees hired on or after December 1, 2001 from participation in the Plan.

Edgar Filing: ADTRAN INC - Form 11-K

Effective for the plan year beginning January 1, 2002, the Plan elected to implement the catch-up provision provided for in Section 414(v) of the Internal Revenue Code. This provision enables applicable employer plans to allow eligible participants who are age 50 or over to make additional deferrals, beginning in 2002. Effective January 3, 2003, the Plan Document was restated in order to comply with the IRS deadline for GUST adoption by prototype plans.

Notes to Financial Statements

For the Years Ended December 31, 2003 and 2002

Eligibility

All regular employees are eligible to participate in the elective deferral portion of the Plan immediately upon hire, and in the safe harbor nonelective portion of the Plan following the completion of one year of service (except seasonal and co-op employees, leased employees, and nonresident aliens with no U.S.-source income).

Contributions

Effective January 1, 2003, the restated Plan allows for contributions up to 60% of a participant's eligible compensation (as defined in the Plan Document and subject to the IRS limit of \$12,000 per participant in 2003). During the year ended December 31, 2002, eligible employees that participated in the Plan may have elected to have the Company contribute any whole percentage up to 16% of their eligible compensation to the Plan on their behalf, subject to the maximum allowed by the IRS (\$11,000 per participant in 2002).

Under the terms of the Plan, the Company is required to make nonelective contributions of 3% of each eligible participant's compensation.

Participant Accounts

Each participant's account is credited with the employee's contribution and the Company's nonelective contribution, plus plan earnings. Allocations of earnings are based on account balances, as defined more fully in the Plan Document. Each participant directs how contributions made to the Plan on his/her behalf are to be invested among the investment options available under the Plan. The Plan currently offers twenty-one investment options including a Company stock fund. Contributions to the Company stock fund are limited to 20% of a participant's total contributions to the Plan. Allocations of Company contributions each year are based on each participant's compensation, as defined in the Plan Document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Employees are always 100% vested under the Plan.

Retirement Date

The normal retirement date is the first day of the calendar month following the date a participant reaches age 62. Early retirement is permitted after a participant reaches age 59 ¹/₂.

Distribution of Benefits

Benefits commence upon one of several dates: normal retirement, early retirement, date of disability, pre-retirement death and upon termination other than described above. Benefits are distributed by means of either a lump sum payment or partial distribution. Corrective distributions are for excess deferrals and contributions.

Other

The Plan allows for participant hardship withdrawals at any time from the pre-tax, rollover and matching portions of a participant's account if certain conditions are met. The Plan also allows for in-service withdrawals at age 59 ¹/₂ from the pre-tax, rollover and matching portions of a participant's account.

Participant Loans

Participants may borrow a minimum of \$1,000 from their fund accounts up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Loan transactions are treated as transfers between the investment fund and the participant loan fund. Loan terms range from one to five years unless such loan is used to acquire a principal residence, in which case the loan term can be up to ten years. The Plan's outstanding loans at December 31, 2003 are collateralized by the balances in the participants' accounts and bear interest at rates commensurate with local prevailing rates as determined quarterly by the plan administrator. Interest rates range from 5% to 10.5% for loans that were outstanding as of December 31, 2003.

Administrative Expenses

All expenses incident to the functioning of the Plan may be paid out of plan assets unless paid by the Company. On behalf of the Plan, the Company paid the Trustee \$71,492 for administrative fees incurred during the plan year ended December 31, 2003. This amount is not included in the financial statements of the Plan.

Plan Termination

While it is the intention of the Company to permanently continue the Plan, the Company has the right to amend or terminate the Plan at any time upon written notice to the plan administrator and Trustee. No amendment may permit any plan assets to revert to the Employer or be used for any purpose other than to provide benefits to participants and their beneficiaries. Upon termination of the Plan, the plan assets will be distributed to participants and their beneficiaries in accordance with the Plan and subject to IRS and ERISA guidelines.

2. Summary of Significant Accounting Policies

The following is a summary of accounting policies utilized in the financial statements which were prepared in accordance with accounting principles generally accepted in the United States of America.

Basis of Accounting

The accompanying financial statements of the Plan are maintained on the accrual basis of accounting.

Valuation of Investments

The investments are valued at fair value based on quoted market prices. Quoted market prices are based on the last reported sales price on the last business day of the plan year as reported by the principal securities exchange on which the security is traded. Participant loans are valued at their outstanding balances, which approximate market value.

Purchases and sales of investments are reflected as of the trade date. Dividend and interest income is recorded when earned.

The Plan presents, in the statement of changes in net assets available for plan benefits, the net appreciation (depreciation) in the market value of its investments which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Table of Contents

ADTRAN, Inc. 401(k) Retirement Plan

Notes to Financial Statements

For the Years Ended December 31, 2003 and 2002

Contributions

Contributions from the Employer are accrued based on amounts declared by the Company. Contributions from employees are recorded in the period in which the Company makes the deductions from the participants' payroll.

Risks and Uncertainties

The Plan provides for various investment options which in turn invest in any combination of stocks, bonds and other investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting periods. Actual results could differ from those estimates.

Notes to Financial Statements

For the Years Ended December 31, 2003 and 2002

The Plan's investments (including investments bought and sold, as well as held, during the year) appreciated in value by \$9,091,827 during the year ended December 31, 2003, as follows:

Mutual funds	\$ 7,601,761
ADTRAN stock fund	1,490,066
	<u> </u>
	<u>\$ 9,091,827</u>

4. Income Tax Status

The Plan obtained its latest determination letter on June 8, 1995 from the Internal Revenue Service stating that the Plan, as then designed, was in compliance with the applicable requirements of the IRS. Although the Plan has since been amended, the Plan administrator believes that the Plan is operating in such a manner so as not to jeopardize its favorable tax status. The IRS has ruled that the prototype standardized 401(k) plan, after which the Plan is now modeled, qualifies under Section 401(a) of the Internal Revenue Code. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

5. Reconciliation to Form 5500
