Item 9. Regulation FD Disclosure.

Centra Software, Inc. (the Company) today announced an approximate 10 percent reduction in its worldwide workforce as part of cost-reduction initiatives taken during the second quarter of 2004. The workforce reduction, which was implemented on Wednesday, June 30, 2004, has trimmed the company's headcount by approximately 26 employees to 225 employees worldwide. The company expects to incur a restructuring charge for severance costs in the range of \$400,000 to \$500,000, and anticipates annualized cost savings of approximately \$1.5 million to \$2 million from this initiative.

In addition to the workforce reduction, the company recently consolidated its product development activities, including closing its product development facility located in Morrisville, North Carolina, as reported on June 8, 2004. This facility closing and the ensuing reduction in its workforce, is expected to result in a combined restructuring charge in the range of \$400,000 to \$500,000, which includes severance charges and obligations under the company's lease for the North Carolina facility.

The company expects total annualized cost savings of approximately \$3 million to \$4 million from the cost reduction initiatives implemented in the second quarter of 2004.

Centra plans to issue its financial earnings results on Tuesday, August 3, 2004 after the market closes, and will host a conference call to discuss the results on Wednesday, August 4, 2004 at 10:00 a.m. EST. The call will be simultaneously Webcast over the Internet. To access the Webcast, go to the Company's Web site at [www.centra.com/investorrelations](http://www.centra.com/investorrelations).
