ChipMOS Issues Positive 2Q04 Guidance

HSINCHU, Taiwan, July 27, 2004 ChipMOS TECHNOLOGIES (Bermuda) LTD. (ChipMOS or the Company) (Nasdaq: IMOS) today announced positive guidance for the quarter ended June 30, 2004, as ChipMOS continues to benefit from increased demand for testing services for memory semiconductors, in particular DRAM and flash memory semiconductors, and testing and assembly services for liquid crystal display (LCD) and other flat-panel display (FPD) driver semiconductors.

ChipMOS currently expects that revenue for the quarter ended June 30, 2004 will be approximately U.S.\$125 million, representing an increase of approximately 33% over the revenue of U.S.\$93.6 million for the quarter ended March 31, 2004.

ChipMOS currently expects that its gross margin for the second quarter of 2004 will be approximately 26%, which reflects the consolidation of the results of CHANTEK ELECTRONIC Co. LTD. (Chantek) ChipMOS began to consolidate the results of Chantek on April 1, 2004.

Shih-Jye Cheng, Chairman and Chief Executive Officer of ChipMOS, commented, "Our business fundamentals and demand in the end markets our customers serve remains strong. We achieved record revenue and profitability in the second quarter. We expect these positive trends will continue into the third quarter of 2004 and lead to sequential growth in revenue and profitability. We are well aware of the current dynamics in the LCD market and have taken them into account in our guidance.

ChipMOS will issue its results for the second quarter 2004 on Wednesday, August 18, 2004. Management will hold a conference call with investors and analysts at 7:00PM Taiwan time (7:00AM EDT). The dial-in number for the live audio call beginning at 7:00PM Taiwan time (7:00AM EDT) is (973) 582-2706.
