BASIS OF ACCOUNTING

The financial statements have been prepared under the historical cost convention and in accordance with applicable accounting standards.

BASIS OF CONSOLIDATION

The consolidated financial statements incorporate those of Global Currencies Limited and all of its subsidiary undertakings for the year. They are consolidated using the acquisition method. Their results are incorporated from the date that control passes. All financial statements are made up to 31 December 2003.

No profit and loss account is presented for Global Currencies Limited as provided by Section 230(3) of the Companies Act 1985.

TANGIBLE FIXED ASSETS

Depreciation is provided on tangible fixed assets at rates calculated to write each asset down to its estimated residual value evenly over its expected useful life, as follows:-

Leasehold improvements	over the life of the lease
Computer equipment	33% straight line
Furniture and fittings	10% straight line
Office equipment	10% straight line

GOODWILL

Goodwill is amortised over 15 years as, in the opinion of the directors, this represents the period over which it is effective.

DEFERRED TAXATION

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the company's taxable profits and its results as stated in the financial statements.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantially enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis.

TURNOVER

Turnover represents gross value of each individual transaction whatever the currency used.

FIXED ASSET INVESTMENTS

Fixed assets investments are stated at cost less any provision for diminution in value.

STOCK

The current year and comparative figures are denominated in United States dollars. The exchange rates used at 31 December 2002 and 31 December 2003 are £1 to US\$1.6091 and £1 to US\$1.7821 respectively. Transactions in foreign currencies are recorded at the rate ruling at the date of transaction. All differences are taken to the profit and loss account.

ACCOUNTING POLICIES

For the years ended 31 December 2003 and 2002

LEASES

Where assets are financed by leasing agreements that give rights approximating to ownership (finance leases), the assets are treated as if they had been purchased outright. The amount capitalised is the present value of the minimum lease payments payable during the lease term. The corresponding leasing commitments are shown as obligations to the lessor.

Lease payments are treated as consisting of capital and interest elements, and the interest is charged to the profit and loss account in proportion to the remaining balance outstanding.

All other leases are operating leases and the annual rentals are charged to profit and loss on a straight line basis over the lease term.

(B) PRO FORMA FINANCIAL INFORMATION

INTERNATIONAL ASSETS HOLDING CORPORATION AND SUBSIDIARIES

UNAUDITED PRO FORMA COMBINED CONDENSED FINANCIAL STATEMENTS

Basis for Pro Forma Financial Statements:

The following unaudited pro forma condensed consolidated financial statements are presented for illustrative purposes only and are not necessarily indicative of the combined financial position or results of operations for future periods or the results of operations or financial position that actually would have been realized had IAHC and the foreign exchange business of Global been a combined company during the specified periods. The unaudited pro forma combined condensed financial statements, including the related notes, are qualified in their entirety by reference to, and should be read in conjunction with, the historical consolidated financial statements and related notes thereto of IAHC, included in IAHC's Annual Report on Form 10-KSB filed December 29, 2003, for the fiscal year ended September 30, 2003, as well as the historical consolidated financial statements and related notes thereto of Global included in Item 9.01(a) of this filing. The following unaudited pro forma combined condensed financial statements give effect to IAHC's acquisition of the foreign exchange business of Global using the purchase method of accounting. The pro forma combined condensed financial statements are based on the respective historical audited and unaudited financial statements and related notes of IAHC and the foreign exchange business of Global.

The pro forma adjustments are preliminary and are based upon available information and certain assumptions that management believes are reasonable. The pro forma financial data do not necessarily reflect the results of operations or the financial position of IAHC that would have resulted had the acquisition been consummated as of the date or for the period indicated, and the pro forma financial data exclude the effects of certain purchase adjustments related to the acquisition that will be reflected in financial statements prepared in accordance with generally accepted accounting principles. The pro forma adjustments are based on management's preliminary assumptions regarding purchase accounting. The actual adjustments may differ materially from those presented in these pro forma financial statements. A change in the pro forma adjustments would result in a reallocation of the purchase price affecting the value assigned to the long-term tangible and intangible assets or, in some circumstances, resulting in a charge to the statement of operations. The effect of these changes on the statement of operations will depend on the nature and amounts of the assets and liabilities adjusted. See notes to the pro forma combined condensed financial statements.

The unaudited pro forma combined condensed balance sheet as of September 30, 2003 (labeled "Fiscal Year End") assumes that the acquisition of the foreign exchange business of Global took place on September 30, 2003. It combines IAHC's consolidated balance sheet as of September 30, 2003 with Global's balance sheet as of December 31, 2003, as adjusted to reflect the elimination of assets and liabilities of Global not acquired by IAHC and the consummation of the acquisition of the foreign exchange business of Global. In order to finance the acquisition of the foreign exchange business of Global, IAHC utilized the proceeds received by IAHC from its

issuance of \$12,000,000 of subordinated convertible notes in March 2004. The pro forma balance sheet as of September 30, 2003 assumes the issuance of these notes as of September 30, 2003.

The unaudited pro forma combined condensed balance sheet as of December 31, 2003 assumes that the acquisition of the foreign exchange business of Global took place on December 31, 2003. It combines IAHC's consolidated balance sheet as of December 31, 2003 with Global's balance sheet as of March 31, 2004, as adjusted to reflect the elimination of the assets and liabilities of Global not acquired by IAHC and the consummation of the acquisition of the foreign exchange business of Global. In order to finance the acquisition of the foreign exchange business of Global, IAHC utilized the proceeds received by IAHC from its issuance of \$12,000,000 of subordinated convertible notes in March 2004. The pro forma balance sheet as of December 31, 2003 assumes the issuance of these notes as of December 31, 2003.

The unaudited pro forma combined condensed statements of operations assumes the acquisition took place on October 1, 2002 (the first day of IAHC's fiscal year), and combines IAHC's condensed consolidated statement of operations for the year ended September 30, 2003 and the three months ended December 31, 2003 with Global's statement of operations for the year ended December 31, 2003 and the three months ended March 31, 2004, respectively, as adjusted to reflect the elimination of the portion of Global's business not acquired by IAHC and the consummation of the acquisition as of October 1, 2003.

Description of Acquisition of the Foreign Exchange Business of Global:

On July 9, 2004, IAHC completed the acquisition of the foreign exchange business (the "FX Business") of Global Currencies Limited ("Global"), pursuant to the terms of the Acquisition Agreement dated as of June 25, 2004 by and among IAHC, Global, and the shareholders of Global Currencies (Holdings) Limited. The acquisition was structured as follows:

On or about June 23, 2004, Global formed two new U.K. companies—Global Currencies (Holdings) Limited ("GCH") and Global Currencies (FX) Limited ("GCFX"). GCH was formed as a wholly-owned, direct subsidiary of Global, and GCFX was formed as a wholly-owned, direct subsidiary of GCH. On or about June 23, 2004, Global contributed certain assets related to the FX Business to GCFX, including all pending contracts related to the FX Business. Global thereafter operated the FX Business through GCFX. On or about June 23, 2004, Global distributed all of the shares of GCH to its existing shareholders (the "Sellers").

On July 9, 2004, IAHC purchased all of the shares of GCH from the Sellers. At the closing, IAHC paid the Sellers \$1.0 million in cash and issued them 150,000 shares of IAHC's common stock. These shares had a value of approximately \$1,472,000 (based on IAHC's closing share price of \$9.81 per share on July 9, 2004). At the closing, IAHC also paid the Sellers approximately \$3.5 million, which amount represented the net amount of cash and liquid assets held by GCH and GCFX as of July 8, 2004.

IAHC is obligated to make certain earn-out payments to the Sellers. In particular, IAHC is obligated to pay the Sellers an amount equal to 20% of the gross foreign exchange trading

Table of Contents

profits generated by IAHC during the 30 months ending on December 31, 2006 (up to a maximum of \$4.0 million). Additionally, IAHC is obligated to pay the Sellers 10% of the gross foreign exchange trading profits in excess of \$10.0 million per year for the 12 months ended June 30, 2005 and June 30, 2006, and 10% of such profits in excess of \$5.0 million for the 6 months ended December 31, 2006.

IAHC funded the acquisition from its existing working capital. The incremental working capital was previously generated from the issuance by IAHC of \$12,000,000 of convertible subordinated notes in March 2004.

On July 13, 2004 Global Currencies (Holdings) Limited (GCH) changed its name to INTL Holdings (U.K.) Limited (IHL) and Global Currencies (FX) Limited (GCFX) changed its name to INTL Global Currencies Limited (IGC).

Additional Information:

The foreign exchange business of Global acquired by IAHC represented substantially all of Global's assets, turnover, cost of sales, gross profits and income before taxes.

The pro forma balance sheets reflect that the assets of Global related to its foreign exchange business represented 87% and 82% of Global's total assets as of December 31, 2003 and March 31, 2004, respectively.

The pro forma statement of operations reflects that turnover, cost of sales and gross profit of the foreign exchange business of Global represented 92%, 92% and 78% of Global's total turnover, cost of sales and gross profit for the year ended December 31, 2003 and 98%, 98% and 81% of such items for the quarter ended March 31, 2004.

The pro forma statement of operations reflects that income before taxes related to the foreign exchange business of Global represented 85% and 91% of Global's total income before taxes for the year ended December 31, 2003 and the quarter ended March 31, 2004, respectively.

Income Statement and Balance Sheet apportionment of Global total to forex business of Global:

Adjustment for elimination of other business activities conducted by Global Currencies Limited not acquired by IAHC.

These other business activities were allocated based on internal management segmental reports and legal entity reports maintained for the various business units of Global.

Certain revenues, costs, overhead and other operating gains and losses were allocated based on factors such as salaries, headcount and other subjective and objective factors. In particular:

Generally employees (and their associated direct costs) could be allocated specifically to the business activities that were acquired and those that remain as most employees had specific duties throughout the period under review.

Accounting and management costs were apportioned according to an estimate of time spent.

Edgar Filing: INTERNATIONAL ASSETS HOLDING CORP - Form 8-K/A

Property costs were apportioned according to space occupied by the respective businesses

The IT and dealing systems were apportioned fully to the acquired business, general IT costs were apportioned according to headcount

Travelling and commissions paid to agents were attributable directly: no apportionment was necessary

Interest charges were allocated according to working capital requirement.

Bank charges were directly apportioned to the respective businesses

It should be noted that most of the acquired business was carried out by two separate legal entities within the Global Currencies Ltd group and those two entities were not very active in areas of business not acquired by IAHC

(2) Pro forma adjustment for the issuance of \$12,000,000 of convertible subordinated notes on March 12, 2004.
