Arpeggio Acquisition Corporation

(a corporation in the development stage)

Summary of Significant Accounting Policies

Cash and Cash Equivalents	Arpeggio Acquisition Corporation (the Company) considers all highly liquid investments with original maturities of three months or less to be cash equivalents.
Securities Held in Trust Fund	The Company carries its investment in U.S. government securities at cost, which approximates fair value.
Income Taxes	The Company follows Statement of Financial Accounting Standards No. 109 (SFAS No. 109), Accounting for Income Taxes which is an asset and liability approach that requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been recognized in the Company's financial statements or tax returns.
Net Income Per Share	Basic net income per share is calculated by dividing net income after accretion attributable to common stockholders by the weighted average number of common shares outstanding during the period. No effect has been given to potential issuances of common stock from warrants or the underwriter option in the diluted computation, as their effect would not be dilutive.
Use of Estimates	The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting period. Actual results could differ from those estimates.
Reclassification	Certain items have been reclassified from prior periods to conform with current period presentation.

Arpeggio Acquisition Corporation

(a corporation in the development stage)

Notes to Unaudited Financial Statements

1. Basis of Presentation

The accompanying financial statements are unaudited and have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-QSB. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been omitted pursuant to such rules and regulations. These financial statements should be read in conjunction with the Company's audited financial statements and related disclosures for the year ended December 31, 2005 included in the Company's Form 10-KSB.

In the opinion of management, all adjustments (consisting primarily of normal accruals) have been made that are necessary to present fairly the financial position of the Company. Operating results for the interim period presented are not necessarily indicative of the results to be expected for a full year.

2. Organization and Business Operations

The Company was incorporated in Delaware on April 2, 2004 as a blank check company, the objective of which is to acquire an operating business in the United States or Canada. The Company's initial stockholders purchased 1,500,000 common shares, \$.0001 par value, for \$25,000 on April 2, 2004.

On June 30, 2004, the Company consummated an Initial Public Offering (Offering) and raised net proceeds of \$36,772,000 which is discussed in Note 4. The Company's management has broad discretion with respect to the specific application of the net proceeds of this Offering, although substantially all of the net proceeds of this Offering are intended to be generally applied toward consummating a business combination with an operating business in the United States or Canada (Business Combination). Furthermore, there is no assurance that the Company will be able to successfully effect a Business Combination. An amount of \$37,031,127 and \$36,666,242 (which includes accrued interest of \$16,952 and \$5,732) as of March 31, 2006 and December 31, 2005, respectively is being held in an interest bearing trust account (Trust Fund) until the earlier of (i) the consummation of its first Business Combination or (ii) liquidation of the Company. Under the agreement governing the Trust Fund, funds will only be invested in United States government securities (treasury bills) with a maturity of

Table of Contents

Arpeggio Acquisition Corporation

(a corporation in the development stage)

Notes to Unaudited Financial Statements

180 days or less. The remaining net proceeds (not held in trust) may be used to pay for business, legal and accounting due diligence on prospective acquisitions and continuing general and administrative expenses.

The Company has signed a definitive agreement for the acquisition of a target business (see Note 3) and will submit such transaction for stockholder approval. In the event that public stockholders owning 20% or more of the shares sold in the Offering vote against the Business Combination and exercise their redemption rights described below, the Business Combination will not be consummated. All of the Company's stockholders prior to the Offering, including all of the officers and directors of the Company (Initial Stockholders), have agreed to vote their 1,500,000 founding shares of common stock in accordance with the vote of the majority in interest of all other stockholders of the Company (Public Stockholders) with respect to any Business Combination. After consummation of the Company's Business Combination, these voting safeguards will no longer be applicable.

With respect to a Business Combination, which is approved and consummated, any Public Stockholder who voted against the Business Combination may demand that the Company convert his shares. The per share conversion price will equal the amount in the Trust Fund as of the record date for determination of stockholders entitled to vote on the Business Combination divided by the number of shares of common stock held by Public Stockholders at the consummation of the Offering. Accordingly, Public Stockholders holding 19.99% of the aggregate number of shares owned by all Public Stockholders may seek conversion of their shares in the event of a Business Combination. Such Public Stockholders are entitled to receive their per share interest in the Trust Fund computed without regard to the shares held by Initial Stockholders. In this respect, \$7,402,522 and \$7,329,582 has been classified as common stock subject to possible conversion at March 31, 2006 and December 31, 2005, respectively.

The Company's Certificate of Incorporation provides for mandatory liquidation of the Company, without stockholder approval, in the event that the Company does not consummate a Business Combination within 18 months from the date of the consummation of the Offering (such date was December 31, 2005), or 24 months from the consummation (such date would

Table of Contents

Arpeggio Acquisition Corporation

(a corporation in the development stage)

Notes to Unaudited Financial Statements

be June 30, 2006) of the Offering if certain extension criteria have been satisfied. The Company has satisfied the extension criteria by entering into an Agreement and Plan of merger with Hill International, Inc as described in Note 3. In the event of liquidation, it is likely that the per share value of the residual assets remaining available for distribution (including Trust Fund assets) will be less than the initial public Offering price per share in the Offering due to costs related to the Offering (assuming no value is attributed to the warrants contained in the Units in the Offering discussed in Note 4).

3. Proposed Acquisition

As of December 5, 2005, the Company entered into an Agreement and Plan of Merger with Hill International, Inc. and all of its current stockholders providing for the merger of Hill International with and into the company. The Company will be the surviving corporation in the merger and will change its name to Hill International, Inc. Hill International and its subsidiaries (collectively, Hill International) is a privately-owned, independent, project management and construction claims consulting firm headquartered in Marlton, New Jersey.

Pursuant to the merger agreement, Hill International's stockholders and other persons who exercise options to purchase common stock of Hill International prior to the closing of the merger, in exchange for all of the securities of Hill International outstanding immediately prior to the merger, will receive from the Company 14,500,000 shares of its common stock. Immediately following the merger, the stockholders of Hill International will own approximately 63.6% of the Company's total issued and outstanding common stock. 12% of the shares of common stock being issued at the time of the merger will be placed into escrow to secure the Company's indemnity rights under the merger agreement and will be governed by the terms of an escrow agreement. The merger agreement also provides for Hill International's stockholders to receive up to an additional 6,600,000 shares of the Company's common stock, contingent upon the combined companies attaining certain earnings targets.

The financial statements have been prepared assuming the Company will continue as a going concern. In the event the Merger Agreement is not consummated before June 30, 2006, the Company will be forced to liquidate. Under such circumstances, an agreement with the Company's Chairman and Chief Executive Officer would be implemented, whereby, he

Table of Contents

Arpeggio Acquisition Corporation

(a corporation in the development stage)

Notes to Unaudited Financial Statements

would become personally liable for settlement of accrued expenses, income tax payable and acquisition costs incurred to the extent such items are in excess of the net proceeds of the Offering not held in the Trust Fund.

As of March 31, 2006, the Company has incurred \$347,446 (at December 31, 2005, \$215,195) of costs related to this proposed acquisition, which have been deferred as of that date.

- 4. Offering** The Company sold 6,800,000 units (Units) in the Offering, which includes the 800,000 Units subject to the underwriters' over allotment option. Each Unit consists of one share of the Company's common stock, \$.0001 par value, and two Redeemable Common Stock Purchase Warrants (Warrants). Each Warrant will entitle the holder to purchase from the Company one share of common stock at an exercise price of \$5.00 commencing the later of the completion of a Business Combination with a target business or one year from the effective date of the Offering and expiring four years from the effective date of the Offering. The Warrants will be redeemable at a price of \$.01 per Warrant upon 30 days notice after the Warrants become exercisable, only in the event that the last sale price of the common stock is at least \$8.50 per share for any 20 trading days within a 30 trading day period ending on the third day prior to date on which notice of redemption is given. In connection with this Offering, the Company issued an option for \$100 to the representative of the underwriters to purchase 300,000 units at an exercise price of \$9.90 per Unit. In addition, the warrants underlying such Units are exercisable at \$6.25 per share.
- 5. Notes Payable, Stockholder** The Company issued a \$70,000 unsecured non-interest bearing promissory note to a stockholder on April 14, 2004. The stockholder advanced additional amounts aggregating \$7,500 through June 30, 2004. The note and advance were paid in full on July 1, 2004 from the net proceeds of the Offering.
- 6. Commitment** The Company presently occupies office space provided by an affiliate of an Initial Stockholder. Such affiliate has agreed that, until the acquisition of a target business by the Company, it will make such office space, as well as certain office and secretarial services, available to the Company, as may be required by the Company from time to time. The Company pays such affiliate \$7,500 per month for such services commencing on June 24, 2004,

the effective date of the Offering. Amounts of \$22,500 for the three-month period ended March 31, 2006, \$22,500 for the three-month period ended March 31, 2005, \$69,250 for the period from April 2, 2004 (inception) to March 31, 2005 and \$159,250 for the period from April 2, 2004 (inception) to March 31, 2006 is included in general and administrative for such services.

7. Preferred Stock

The Company is authorized to issue 1,000,000 shares of preferred stock with such designations, voting and other rights and preferences as may be determined from time to time by the Board of Directors.

8. Common Stock

The Company's Board of Directors authorized a 1.2 to one forward stock split of its common stock on May 25, 2004. All references in the accompanying financial statements to the numbers of shares have been retroactively restated to reflect the transaction.

At March 31, 2006, there were 14,500,000 shares of common stock reserved for issuance upon exercise of redeemable warrants and underwriters' unit purchase option.

ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

The following discussion should be read in conjunction with the Company's Financial Statements and footnotes thereto contained in this report.

Forward Looking Statements

The statements discussed in this Report include forward looking statements that involve risks and uncertainties detailed from time to time in the Company's reports filed with the Securities and Exchange Commission.

Plan of Operation

We were formed on April 2, 2004 to serve as a vehicle to effect a merger, capital stock exchange, asset acquisition or other similar business combination with an operating business. We intend to utilize cash derived from the proceeds of our recently completed public offering, our capital stock, debt or a combination of cash, capital stock and debt, in effecting a business combination.

Net Income for the three months ended March 31, 2006 of \$167,241 consisted of interest income on the Trust Fund investment of \$364,886, interest on cash and cash equivalents of \$1,910 offset by general and administrative expenses of \$22,500 for a monthly administrative services agreement, \$5,916 for professional fees, \$25,000 for officer liability insurance, \$12,550 for travel, \$105,625 for income taxes and \$27,964 for other expenses (including \$2,199 in Franchise Tax).

Net Income for the three months ended March 31, 2005 of \$96,154 consisted of interest income on the Trust Fund investment of \$194,337, interest on cash and cash equivalents of \$4,358 offset by general and administrative expenses of \$22,500 for a monthly administrative services agreement, \$2,081 for professional fees, \$21,250 for officer liability insurance, \$3,179 for travel, \$47,359 for income taxes and \$6,171 for other expenses.

Net Income for the period from April 2, 2004 (inception) to March 31, 2006 of \$ 521,624 consisted of interest income on the Trust Fund investment was \$1,679,127, interest on cash and cash equivalents of \$27,449 offset by general and administrative expenses of \$159,250 for a monthly administrative services agreement, \$201,079 for professional fees, \$160,000 for officer liability insurance, \$52,517 for travel, \$450,910 for income taxes and \$161,196 for other expenses (including \$ 54,655 in franchise tax).

We consummated our initial public offering on June 30, 2004. Gross proceeds from our initial public offering, including the full exercise of the underwriters' over-allotment option, were \$40,800,000. After deducting offering expenses of \$1,580,000 including \$1,080,000 evidencing the underwriters' non-accountable expense allowance of 3% of the gross proceeds, and underwriting discounts of \$2,448,000, net proceeds were \$36,772,000. Of this amount, \$35,352,000 was placed in trust and the remaining proceeds are available to be used to provide for business, legal and accounting due diligence on prospective acquisitions and continuing general and administrative expenses. We will use substantially all of the net proceeds of this offering to acquire a target business, including identifying and evaluating prospective acquisition candidates, selecting the target business, and structuring, negotiating and consummating the business combination. To the extent that our capital stock is used in whole or in part as consideration to effect a business combination, the proceeds held in the trust fund as well as any other net proceeds not expended will be used to finance the operations of the target business. We believe that we have sufficient available funds outside of the trust fund to operate through June 30, 2006, assuming that a business combination is not consummated during that time. We do not believe we will need to raise additional funds following this offering in order to meet the expenditures required for operating our business. However, we

Table of Contents

may need to raise additional funds through a private offering of debt or equity securities if such funds are required to consummate a business combination that is presented to us. We would only consummate such a fund raising simultaneously with the consummation of a business combination.

On December 5, 2005, we entered into an Agreement and Plan of Merger with Hill International, Inc. and all of its current stockholders providing for the merger of Hill International with and into our company. We will be the surviving corporation in the merger and will change our name to Hill International, Inc. Hill International and its subsidiaries (collectively, Hill International) is a privately-owned, independent, project management and construction claims consulting firm headquartered in Marlton, New Jersey. Founded in 1976, Hill International has grown into one of the world's leading construction management firms, providing both fee-based project management and construction claims consulting services to clients worldwide. An industry publication, Engineering News-Record, recently ranked Hill International as the 18th largest construction management-for-fee firm in the United States, and the largest that is independently owned.

Pursuant to the merger agreement, Hill International's stockholders and other persons who exercise options to purchase common stock of Hill International prior to the closing of the merger, in exchange for all of the securities of Hill International outstanding immediately prior to the merger, will receive from us 14,500,000 shares of our common stock. Immediately following the merger, the stockholders of Hill International will own approximately 63.6% of our total issued and outstanding common stock. 12% of the shares of common stock being issued at the time of the merger will be placed into escrow to secure our indemnity rights under the merger agreement and will be governed by the terms of an escrow agreement. The merger agreement also provides for Hill International's stockholders to receive up to an additional 6,600,000 shares of our common stock, contingent upon the combined companies attaining certain earnings targets.

Upon consummation of the merger, our board of directors will be increased to seven members and will be comprised of five persons designated by the stockholders of Hill International, and two persons designated by certain of our stockholders.

For a more complete discussion of Hill International and our proposed business combination, including the risks that are applicable to us with respect to our acquisition of Hill International, see our Current Report on Form 8-K dated December 5, 2005 and filed with the SEC on the same date, as amended by Form 8-K/A filed with the SEC on January 4, 2006, and our Preliminary Proxy Statement for our Special Meeting of Stockholders filed with the SEC on February 10, 2006, as amended on April 10, 2006.

We expect that the transaction will be consummated in the first half of 2006, after the required approval by our stockholders. However, if we do not complete the business combination by June 30, 2006, we will be forced to dissolve and liquidate.

Commencing June 24, 2004, we pay Crescendo Advisors II LLC, an affiliate of Eric S. Rosenfeld, our chairman of the board, chief executive officer and president, a monthly fee of \$7,500 for general and administrative services. In April and May 2004, Mr. Rosenfeld advanced an aggregate of \$77,500 to us, on a non-interest bearing basis, for payment of offering expenses on our behalf. This amount was repaid in July 2004 out of the proceeds of our initial public offering.

ITEM 3. CONTROLS AND PROCEDURES.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in company reports filed or submitted under the Securities Exchange Act of 1934 (the Exchange Act) is recorded, processed, summarized and reported, within the time periods

Table of Contents

specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in company reports filed or submitted under the Exchange Act is accumulated and communicated to management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

As required by Rules 13a-15 and 15d-15 under the Exchange Act, our chief executive officer and chief financial officer carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of March 31, 2006. Based upon their evaluation, they concluded that our disclosure controls and procedures were effective.

Our internal control over financial reporting is a process designed by, or under the supervision of, our chief executive officer and treasurer and effected by our board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of our financial reporting and the preparation of our financial statements for external purposes in accordance with generally accepted accounting principles. Internal control over financial reporting includes policies and procedures that pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets; provide reasonable assurance that transactions are recorded as necessary to permit preparation of our financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with the authorization of our board of directors and management; and provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on our financial statements.

During the most recently completed fiscal quarter, there has been no change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II.

OTHER INFORMATION

ITEM 2: UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On June 30, 2004, we closed our initial public offering of 6,800,000 Units, including 800,000 Units issued upon exercise of the underwriters over-allotment option, with each Unit consisting of one share of our common stock and two warrants, each to purchase one share of our common stock at an exercise price of \$5.00 per share. The Units were sold at an offering price of \$6.00 per Unit, generating gross proceeds of \$40,800,000. The representative of the underwriters in the offering was EarlyBirdCapital, Inc. The securities sold in the offering were registered under the Securities Act of 1933 on a registration statement on Form S-1 (No. 333-114816). The Securities and Exchange Commission declared the registration statement effective on June 24, 2004.

We paid a total of \$2,448,000 in underwriting discounts and commissions, and approximately \$1,580,000 has been paid for costs and expenses related to the offering, including \$1,080,000 for the underwriters non-accountable expense allowance of 3% of the gross proceeds.

After deducting the underwriting discounts and commissions and the offering expenses, the total net proceeds to us from the offering were \$36,772,000, of which \$35,352,000 was deposited into a trust fund and the remaining proceeds are available to be used to provide for business, legal and accounting due diligence on prospective business combinations and continuing general and administrative expenses. Through March 31, 2006, we have used approximately \$1,290,000 of cash for operating expenses and acquisition costs and \$77,500 to repay advances made to us by one of our initial stockholders.

For a description of the use of the proceeds generated in our initial public offering, see Part I, Item 2 of this Form 10-QSB.

ITEM 6: EXHIBITS

(a) Exhibits:

- 31.1 Section 302 Certification by CEO
- 31.2 Section 302 Certification by CFO
- 32.1 Section 906 Certification by CEO
- 32.2 Section 906 Certification by CFO
