Notes to the Consolidated Financial Statements

(Unaudited)

(Dollars in thousands, except per share amounts)

Note 1 Summary of Significant Accounting Policies:

Basis of Presentation:

The consolidated financial statements for interim periods are unaudited and reflect all adjustments (consisting of only normal recurring adjustments), which, in the opinion of management, are necessary to present fairly the financial position and results of operations and cash flows for the periods presented. The unaudited financial statements are presented in accordance with the requirements of Form 10-Q and do not include all disclosures normally required by accounting principles generally accepted in the United States of America. The financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in Consumers Bancorp, Inc.'s Form 10-K for the year ended June 30, 2005. The results of operations for the interim periods disclosed herein are not necessarily indicative of the results that may be expected for a full year.

The consolidated financial statements include the accounts of Consumers Bancorp, Inc. (the Corporation) and its wholly owned subsidiary, Consumers National Bank (the Bank). All significant inter-company transactions and accounts have been eliminated in consolidation.

Segment Information: Consumers Bancorp, Inc. is a bank holding company engaged in the business of commercial and retail banking, which accounts for substantially all of the revenues, operating income, and assets.

Earnings per Share: Earnings per common share are computed based on the weighted average common shares outstanding. The weighted average number of outstanding shares was 2,142,574 and 2,145,708 for the quarters ended March 31, 2006 and 2005, respectively. The weighted average number of outstanding shares was 2,143,158 and 2,146,093 for the nine months ended March 31, 2006 and 2005, respectively. The Corporation's capital structure contains no dilutive securities.

Operating Lease: During the second fiscal quarter of 2005, the Bank entered into an operating lease agreement for its Malvern, Ohio branch location. The lessor of the property is a member of the Corporation's Board of Directors. The initial term of the lease is a period of ten years. The base rent through the end of the fifth year is one percent of the total project cost, as defined in the lease agreement. At the beginning of year six, the rent to be paid shall be increased in accordance with the change in the Consumers Price Index. For years one through five, the estimated annual lease expense is \$32 per year.

Note 2 – Securities

	Fair Value	Gross Unrealized Gains	Gross Unrealized Losses
March 31, 2006			
Securities available for sale:			
U.S. Treasury	\$ 994	\$	\$ (6)
Obligations of government sponsored entities	9,921		(198)
Obligations of states and political subdivisions	13,614	98	(16)
Mortgage backed securities	12,217	9	(447)
Equity securities	154		
Total Securities	\$ 36,900	\$ 107	\$ (667)
June 30, 2005			
Securities available for sale:			
U.S. Treasury	\$ 994	\$	\$ (5)
Obligations of government sponsored entities	5,167		(71)
Obligations of states and political subdivisions	3,697	60	(1)
Mortgage backed securities	14,875	20	(241)
Equity securities	154		
Total Securities	\$ 24,887	\$ 80	\$ (318)

The estimated fair values of securities at March 31, 2006, by contractual maturity, are shown below. Actual maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

	Estimated Fair Value
Due in one year or less	\$ 1,379
Due after one year through five years	5,341
Due after five years through ten years	4,094
Due after ten years	13,715
Total	24,529

Edgar Filing: CONSUMERS BANCORP INC /OH/ - Form 10-Q

Mortgage-backed securities	12,217
Equity securities	154
Total	\$ 36,900

Table of Contents**CONSUMERS BANCORP, INC.****Notes to the Consolidated Financial Statements****(Unaudited)**

(Dollars in thousands, except per share amounts)

At March 31, 2006, available for sale securities included \$2,184 of municipal securities with an aggregate book value of \$2,175, or 11.2%, of shareholders' equity that were issued by one issuer. Other than this issue, there were no other holdings of securities of any one issuer, other than the U.S. government and its agencies and corporations, with an aggregate book value which exceeds 10% of shareholders' equity. As of March 31, 2006, any unrealized losses on securities that have been in a continuous loss position for 12 months or more have not been recognized into income because the issuer(s) securities are of high credit quality and the decline in fair value is largely due to changes in interest rates. The fair value is expected to recover as the securities approach their maturity dates.

Note 3 Loans

Major classifications of loans were as follows:

	March 31, 2006	June 30, 2005
Real estate - residential mortgage	\$ 56,797	\$ 61,936
Real estate - construction	1,746	4,648
Commercial, financial and agriculture	84,611	75,815
Consumer	6,895	7,263
Total Loans	\$ 150,049	\$ 149,662

	March 31, 2006	June 30, 2005	March 31, 2005
Loans past due over 90 days and still accruing	\$ 348	\$ 190	\$ 342
Loans on non-accrual	1,446	1,807	1,643
Impaired loans	1,156	1,096	1,099
Amount of allowance allocated to impaired loans	259	232	233

Impaired loans of \$1,117, \$986 and \$892 as of March 31, 2006, June 30, 2005 and March 31, 2005, respectively, were included in non-accrual loans.

Table of Contents**CONSUMERS BANCORP, INC.****Notes to the Consolidated Financial Statements****(Unaudited)**

(Dollars in thousands, except per share amounts)

Note 4 - Allowance for Loan Losses

A summary of activity in the allowance for loan losses for the nine months ended March 31, 2006, and 2005, are as follows:

	2006	2005
Beginning of period	\$ 1,523	\$ 1,753
Provision	314	77
Charge-offs	(426)	(467)
Recoveries	98	110
Balance at March 31,	\$ 1,509	\$ 1,473

Note 5 Federal Home Loan Bank Advances

A summary of Federal Home Loan Bank (FHLB) advances are as follows:

Maturity	Term	Interest Rate	Balance March 31, 2006	Balance June 30, 2005
09/25/2005	Floating	3.48%	\$	\$ 200
06/20/2006	Floating	5.00	3,760	
11/03/2006	Floating	5.10	3,590	
02/01/2008	Floating	4.73	4,000	
07/01/2010	Fixed	6.90	86	99
10/01/2010	Fixed	7.00	85	128
12/01/2010	Fixed	6.10	237	269
04/01/2014	Fixed	2.54	861	932
04/01/2019	Fixed	4.30	679	707
			\$ 13,298	\$ 2,335

Each fixed rate advance has a prepayment penalty equal to the present value of 100% of the lost cash flow based upon the difference between the contract rate on the advance and the current rate on the new advance. Each floating rate advance can be prepaid, without penalty, at each interest rate reset date.

CONSUMERS BANCORP, INC.

Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations

(Dollars in thousands, except per share data)

General

The following is management's analysis of the Corporation's results of operations for the three and nine month periods ended March 31, 2006, compared to the same periods in 2005, and the consolidated balance sheets at March 31, 2006 compared to June 30, 2005. This discussion is designed to provide a more comprehensive review of the operating results and financial condition than could be obtained from an examination of the financial statements alone. This analysis should be read in conjunction with the consolidated financial statements and related footnotes and the selected financial data included elsewhere in this report.

Overview

Consumers Bancorp, Inc., a bank holding company incorporated under the laws of the State of Ohio, owns all of the issued and outstanding common shares of Consumers National Bank, a bank chartered under the laws of the United States of America. The Corporation's activities have been limited primarily to holding the common shares of the Bank. The Bank's business involves attracting deposits from businesses and individual customers and using such deposits to originate commercial, mortgage and consumer loans in its market area, consisting primarily of Stark, Columbiana, Carroll and contiguous counties in Ohio. The Bank also invests in securities consisting primarily of U.S. government and government agency obligations, municipal obligations, mortgage-backed securities and other securities.

Forward-Looking Statements

When used in this report (including information incorporated by reference in this report), the words or phrases "will likely result," "are expected to," "will continue," "is anticipated," "estimate," "project," "believe" or similar expressions are intended to identify forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements may involve risks and uncertainties that are difficult to predict, may be beyond the Corporation's control, and could cause actual results to differ materially from those described in such statements. Any such forward-looking statements are made only as of the date of this report or the respective dates of the relevant incorporated documents, as the case may be, and, except as required by law, the Corporation undertakes no obligation to update these forward-looking statements to reflect subsequent events or circumstances. Factors that could cause actual results or experience to differ from results discussed in the forward-looking statements include, but are not limited to: regional and national economic conditions; changes in levels of market interest rates; credit risks, competitive and regulatory factors effecting lending activities; government regulation, and material unforeseen changes in the financial condition or results of Consumers National Bank's customers could affect the Corporation's financial performance and could cause the Corporation's actual results for future periods to differ materially from those anticipated or projected.

Table of Contents

CONSUMERS BANCORP, INC.

Management's Discussion and Analysis of Financial Condition

and Results of Operations (continued)

(Dollars in thousands, except per share data)

The risks and uncertainties identified above are not the only risks the Corporation faces. Additional risks and uncertainties not presently known to the Corporation or that the Corporation currently believes to be immaterial also may adversely affect the Corporation. Should any known or unknown risks and uncertainties develop into actual events, those developments could have material adverse effects on the Corporation's business, financial condition and results of operations.

Results of Operations

Three and Nine Months Ended March 31, 2006 and 2005

Net Income

Net income was \$297 for the three months ended March 31, 2006, a decrease of \$147 compared to the same period last year when net income was \$444. Earnings per common share for the third fiscal quarter of 2006 were \$0.14 as compared to \$0.21 for the third fiscal quarter of 2005.

Net income was \$991 for the nine months ended March 31, 2006, a decrease of \$688 compared to the same period last year when net income was \$1,679. Earnings per common share for the nine month period ended March 31, 2006 were \$0.46 as compared to \$0.78 for the same period last year. These decreases were mainly the result of an increase in provision expense and an increase in non-interest expenses, as further discussed below.

Return on average equity (ROE) and return on average assets (ROA) were 6.19% and 0.59%, respectively, for the third fiscal quarter of 2006 compared to 9.32% and 0.94%, respectively, for the third fiscal quarter of 2005.

ROE and ROA were 6.82% and 0.66%, respectively, for the nine month period ended March 31, 2006 compared to 11.77% and 1.18%, respectively, for the same period ended in 2005.

Net Interest Income

Net interest income, the difference between interest income earned on interest-earning assets and interest expense incurred on interest-bearing liabilities, is the largest component of the Corporation's earnings. Net interest income is affected by changes in the volumes, rates and composition of interest-earning assets and interest-bearing liabilities. Net interest margin is calculated by dividing net interest income on a fully tax equivalent basis (FTE) by total interest-earning assets. FTE income includes tax-exempt income, restated to a pre-tax equivalent, based on the statutory federal income tax rate. All average balances are daily average balances. Non-accruing loans are included in average loan balances.

Table of Contents

CONSUMERS BANCORP, INC.

Management's Discussion and Analysis of Financial Condition

and Results of Operations (continued)

(Dollars in thousands, except per share data)

The Corporation's net interest margin for the three months ended March 31, 2006 was 4.60%, compared to 4.95% for the same period last year. Net interest income for the three months ended March 31, 2006 decreased by \$65, or 3.1%, to \$2,057 from \$2,122 for the same period last year. The decline in the net interest margin and net interest income was primarily due to an increase in cost of funds from 1.32% for the three months ended March 31, 2005 to 2.34% for the same period in 2006. The increase in the cost of funds was mainly caused by higher market rates affecting the rates paid on borrowings and rates paid on time deposits. The decline in net interest income for the three months ended March 31, 2006 was partially offset by a higher level of interest-earning assets as compared to the same period in 2005 combined with the Corporation's yield on average interest-earning assets increasing to 6.40% for the three months ended March 31, 2006 from 5.93% for the comparable year ago period.

The Corporation's net interest margin for the nine months ended March 31, 2006 was 4.65%, compared to 5.10% for the same period last year. Net interest income for the nine months ended March 31, 2006 was \$6,275, a decrease of \$342, or 5.2%, from \$6,617 for the same period in 2005. The decrease in the net interest margin and net interest income was primarily attributable to an 88 basis point increase in the cost of interest-bearing liabilities.

Management's Discussion and Analysis of Financial Condition

and Results of Operations (continued)

(Dollars in thousands, except per share data)

Provision for Loan Losses

The provision for loan losses represents the charge to income necessary to adjust the allowance for loan losses to an amount that represents management's assessment of the estimated probable credit losses inherent in the Bank's loan portfolio that have been incurred at each balance sheet date. The provision for loan losses increased to \$314 for the nine month period ended March 31, 2006 compared to \$77 for the same period last year. Net charge-offs were \$328 for the nine month period ended March 31, 2006 compared to \$357 for the same period in 2005.

The higher provision for loan losses in 2006 resulted mainly from the \$328 in net charge-offs. A majority of the net charge-offs were within the residential real estate and consumer loan portfolios. Net charge-offs for the nine months ended March 31, 2005 included a \$320 charge-off related to a single borrower that was specifically allocated for within the allowance for loan loss in a prior period when the loss had been identified. The provision for loan losses was considered sufficient by management for maintaining an appropriate allowance for loan losses.

Non-Interest Income

Non-interest income decreased to \$475 during the third fiscal quarter of 2006, compared to \$544 for the same quarter last year. Within non-interest income, the third fiscal quarter of 2005 included a \$31 gain from the sale of available for sale securities as well as a \$44 gain from the sale of other real estate owned compared to a \$6 loss from the sale of other real estate owned in 2006.

Non-interest income was \$1,591 for the nine months ended March 31, 2006, compared to \$1,735 during the same period last year. Non-interest income for 2005 included a \$66 gain from the sale of available for sale securities as well as a \$44 gain from the sale of other real estate owned compared to a \$6 loss from the sale of other real estate owned in 2006. Within other income, there was an increase in visa debit interchange fees of \$28 for the nine months ended March 31, 2006 compared to the same period last year due to increased usage.

Non-Interest Expenses

Non-interest expenses increased 5.4%, to \$2,078 during the third fiscal quarter of 2006, compared to \$1,971 during the same quarter last year. Non-interest expenses increased \$440, to \$6,306 for the nine months ended March 31, 2006, compared to \$5,866 during the same period last year. Within non-interest expenses, salaries and employee benefits increased \$340 mainly due to vacant senior management positions being filled. Also, contributing to the increase in non-interest expenses were fees associated with moving to an imaged environment in the Proof department. As a result of the imaged environment, Consumers is now able to electronically capture images at its branch locations eliminating the need to courier work from each branch to a central location. Long term objectives of moving to an imaged environment include: improving the ability to identify

and Results of Operations (continued)

(Dollars in thousands, except per share data)

potential fraud by isolating checks that are inconsistent with historical account activity, intraday clearing allowing for quicker access to funds, and recognizing operational savings related to equipment maintenance and repair, and reduced courier and employee costs. These increases were partially offset by a \$194 decrease in consulting and professional fees for the nine months ended March 31, 2006 as compared to the same period last year since the senior management team is now performing services that were previously performed by outside consultants.

Income Taxes

Income tax expense for the three months ended March 31, 2006 decreased \$128, to \$67 from \$195, compared to the same period in 2005. The effective tax rate was 18.4% for the current quarter as compared to 30.5% for the same quarter last year. The provision for income taxes for the nine months ended March 31, 2006 decreased \$475 to \$255 from \$730 for the same period in 2005. The effective tax rate for the nine months ended March 31, 2006 was 20.5% as compared to 30.3% for the same period in 2005. The effective tax rate differed from the federal statutory rate principally as a result of tax-exempt income from obligations of states and political subdivisions, loans and earnings on bank owned life insurance. The decline in the effective tax rate in 2006 as compared to 2005 was mainly due to tax-free income being a larger portion of pre-tax income.

Financial Condition

Total assets at March 31, 2006 were \$204,247 compared to \$191,180 at June 30, 2005, an increase of \$13,067 or 6.8%. Available for sale securities have increased by \$12,013 from \$24,887 at June 30, 2005 to \$36,900 at March 31, 2006 mainly due to the purchase of \$10.0 million of municipal securities.

Loan receivables remained relatively flat at \$150,049 at March 31, 2006 compared with June 30, 2005. The Corporation has identified loans to small businesses mainly secured by real estate as an area of the market that provides growth opportunities.

Total shareholders' equity increased by \$195 from June 30, 2005, to \$19,492 as of March 31, 2006. This increase was caused by net income for the nine month period which was partially offset by cash dividends paid and a decline in the fair market value of available for sale securities as a result of changes in interest rates.

(Dollars in thousands, except per share data)

Non-Performing Assets

The following table presents the aggregate amounts of non-performing assets and respective ratios as of the dates indicated.

	March 31, 2006	June 30, 2005	March 31, 2005
Non-accrual loans	\$ 1,446	\$ 1,807	\$ 1,643
Loans past due over 90 days and still accruing	348	190	342
Total non-performing loans	1,794	1,997	1,985
Other real estate owned	558	524	603
Total non-performing assets	\$ 2,352	\$ 2,521	\$ 2,588
Non-performing loans to total loans	1.20%	1.33%	1.34%
Allowance for loan losses to total non-performing loans	84.11	76.26	74.20
Loans 90 days or more past due and still accruing to total loans	0.23	0.13	0.23

Following is a breakdown of non-accrual loans as of March 31, 2006 by collateral:

	March 31, 2006
Commercial non-mortgage collateral	\$ 319
Multifamily residential properties	283
1-4 family residential properties	828
Equipment	16
Total	\$ 1,446

As of March 31, 2006, impaired loans totaled \$1,156 and \$1,117 of the impaired loans were included in non-accrual loans. Commercial and commercial real estate loans are classified as impaired if full collection of principal and interest, in accordance with the terms of the loan documents, is not probable. Impaired loans and non-performing loans have been considered in management's analysis of the appropriateness of the allowance for loan losses. Management and the Board of Directors are closely monitoring these loans and believe that the prospects for recovery of principal and interest, less identified specific reserves, are good.

Liquidity

The objective of liquidity management is to ensure adequate cash flows to accommodate the demands of our customers and provide adequate flexibility for the Corporation to take advantage of market opportunities under both normal operating conditions and under unpredictable circumstances of industry or market stress. Cash is used to fund loans, purchase investments, fund the maturity of liabilities, and at times to fund deposit outflows and operating activities. The Corporation's principal sources of funds are deposits; amortization and prepayments of loans; maturities, sales and principal receipts from securities; borrowings; and operations. Management considers the asset position of

Table of Contents

CONSUMERS BANCORP, INC.

**Management's Discussion and Analysis of Financial Condition
and Results of Operations (continued)**

(Dollars in thousands, except per share data)

the Corporation to be sufficiently liquid to meet normal operating needs and conditions. The Corporation's earning assets are mainly comprised of loans and investment securities. Management continually strives to obtain the best mix of loans and investments to both maximize yield and insure the soundness of the portfolio, as well as to provide funding for loan demand as needed.

The Corporation offers several deposit products to its customers. The rates offered by the Corporation and the fees charged for these products are competitive with others available currently in the market area. Interest rates on savings deposits have remained at historical low levels, while rates on demand deposits and time deposits have increased in recent months due to current market conditions.

To provide an additional source of liquidity, the Corporation has entered into an agreement with the Federal Home Loan Bank (FHLB) of Cincinnati. At March 31, 2006, FHLB advances totaled \$13,298 as compared with \$2,335 at June 30, 2005. The increase in the FHLB advances from June 30, 2005 to March 31, 2006 was mainly due to a \$12,013 increase in available for sale securities as a result of the \$10.0 million in municipal securities that were purchased. The Corporation considers the FHLB to be a reliable source of liquidity funding, secondary to its deposit base.

Jumbo time deposits (those with balances of \$100 thousand and over) increased from \$18,555 at June 30, 2005 to \$20,913 at March 31, 2006. These deposits are monitored closely by the Corporation and priced on an individual basis. When these deposits are from a municipality, certain bank-owned securities are pledged to guarantee the safety of these public fund deposits as required by Ohio law. The Corporation has on occasion used a fee paid broker to obtain deposits from outside its normal service area as an additional source of funding. The Corporation however, does not rely upon these deposits as a primary source of funding. Although management monitors interest rates on an ongoing basis, a quarterly rate sensitivity report is used to determine the effect of interest rate changes on the financial statements. In the opinion of management, enough assets or liabilities could be repriced over the near term (up to three years) to compensate for such changes. The spread on interest rates, or the difference between the average earning assets and the average interest-bearing liabilities, is monitored quarterly. It is the Corporation's goal to maintain this spread at better than 4.0%. The spread, on a taxable equivalent basis, was 4.17% and 4.80% for the nine month periods ended March 31, 2006 and 2005, respectively.

Capital Resources

The Corporation and subsidiary Bank are subject to various regulatory capital requirements administered by federal regulatory agencies. Capital adequacy guidelines and prompt corrective-action regulations involve quantitative measures of assets, liabilities, and certain off-balance-sheet items calculated under regulatory accounting practices. Failure to meet various capital requirements can initiate regulatory action that could have a direct material effect on the Corporation's financial statements. The Bank is considered well capitalized under the Federal Deposit Insurance Act at March 31, 2006. Management is not aware of any matters occurring subsequent to March 31, 2006 that would cause the Bank's capital category to change.

Critical Accounting Policies

The financial condition and results of operations for the Corporation presented in the Consolidated Financial Statements, accompanying notes to the Consolidated Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations are, to a large degree, dependent upon the Corporation's accounting policies. The selection and application of these accounting policies involve judgments, estimates and uncertainties that are susceptible to change.

The Company has identified the appropriateness of the allowance for loan losses is a critical accounting policy and an understanding of this policy is necessary to understand the financial statements. Critical accounting policies are those policies that require management's most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. Footnote one (Allowance for Loan Losses), footnote three (Loans) and Management Discussion and Analysis of Financial Condition and Results from Operation (Critical Accounting Policies and Allowance for Loan Losses) of the 2005 Form 10-K provide detail with regard to the Corporation's accounting for the allowance for loan losses. There have been no significant changes in the application of accounting policies since June 30, 2005.

Table of Contents**CONSUMERS BANCORP, INC.****Item 3 - Quantitative and Qualitative Disclosures about Market Risk**

Market risk is the risk that a financial institution's earnings and capital, or its ability to meet its business objectives, will be adversely affected by movements in market rates or prices such as interest rates, foreign exchange rates, equity prices, credit spreads and/or commodity prices. Within the Bank, the dominant market risk exposure is changes in interest rates. The negative effect of this exposure is felt through the net interest margin and the market value of various assets and liabilities.

The Bank measures interest-rate risk from the perspectives of earnings at risk and value at risk. The primary purpose of both the loan and investment portfolios is the generation of income, but credit risk is the principal focus of risk analysis in the loan portfolio and interest-rate risk is the principal focus in the investment portfolio. Because of the greater liquidity of the investment portfolio, it is the vehicle for managing interest-rate risk in the entire balance sheet. The Bank manages its interest rate risk position using simulation analysis of net interest income and net income over a two-year period. The Bank also calculates the effect of an instantaneous change in market interest rates on the economic value of equity or net portfolio value. Once these analyses are complete, management reviews the results, with an emphasis on the income-simulation results for purposes of managing interest-rate risk. The rate sensitivity position is managed to avoid wide swings in net interest margins. Measurement and identification of current and potential interest rate risk exposures are conducted quarterly, with reporting and monitoring also occurring quarterly. The Bank applies interest rate shocks to its financial instruments up and down 100 and 200 basis points.

The following table presents an analysis of the potential sensitivity of the Bank's annual net interest income and present value of the Bank's financial instruments to a sudden and sustained increase and decrease change in market interest rates of 200 and 100 basis points:

One Year Net Interest Income Change	Maximum Change	Guidelines
	2006	
+200 Basis Points	(2.2)%	16%
+100 Basis Points	(1.1)%	8%
-100 Basis Points	1.5%	8%
-200 Basis Points	2.9%	16%
Net Present Value of Equity Change		
+200 Basis Points	(13.3)%	30%
+100 Basis Points	(5.4)%	20%
-100 Basis Points	1.4%	20%
-200 Basis Points	(0.8)%	30%

The projected volatility of net interest income and net present value of equity shown in the table falls within Board of Directors guidelines in right hand column.

The preceding analysis is based on numerous assumptions, including relative levels of market interest rates, loan prepayments and reactions of depositors to changes in interest rates, and should not be relied upon as being indicative of actual results. Further, the analysis does not necessarily contemplate all actions the Bank may undertake in response to changes in interest rates.

Item 4 Controls and Procedures

As of March 31, 2006, an evaluation was carried out under the supervision and with the participation of the Corporation's management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Corporation's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended). Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2006, the Corporation's disclosure controls and procedures were effective to ensure that information required to be disclosed by the Corporation, in reports that it files or submits under the Exchange Act was recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms.

There were no changes in the Corporation's internal control over financial reporting that occurred during the fiscal quarter ended March 31, 2006, that have materially affected, or are reasonably likely to materially affect its internal control over financial reporting.
