NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

June 30, 2006

1. BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements of Zions Bancorporation (the Parent) and its majority-owned subsidiaries (collectively the Company, we, our, us) have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Certain prior period amounts have been reclassified to conform to the current period presentation.

Operating results for the three- and six-month periods ended June 30, 2006 are not necessarily indicative of the results that may be expected in future periods. The balance sheet at December 31, 2005 is from the audited financial statements at that date, but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. For further information, refer to the consolidated financial statements and footnotes thereto included in Zions Bancorporation s Annual Report on Form 10-K for the year ended December 31, 2005.

The Company provides a full range of banking and related services through banking subsidiaries in ten states as follows: Zions First National Bank (Zions Bank), in Utah and Idaho; California Bank & Trust (CB&T); Amegy Corporation (Amegy), in Texas; National Bank of Arizona (NBA); Nevada State Bank (NSB); Vectra Bank Colorado (Vectra), in Colorado and New Mexico; The Commerce Bank of Washington (TCBW); and The Commerce Bank of Oregon (TCBO). Amegy was acquired effective December 3, 2005 as discussed in Note 3. TCBO was opened in October 2005 and is not expected to have a material effect on consolidated operations for several years.

2. OTHER RECENT ACCOUNTING PRONOUNCEMENTS

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48 (FIN 48), *Accounting for Uncertainty in Income Taxes*, an interpretation of FASB Statement No. 109, Accounting for Income Taxes. FIN 48 prescribes that a tax position must meet a minimum more-likely-than-not threshold before it can be recognized in the financial statements. FIN 48 also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure, and transition. In addition, FIN 48 removes income taxes from the scope of Statement of Financial Accounting Standards (SFAS) No. 5, Accounting for Contingencies. FIN 48 is effective for fiscal years beginning after December 15, 2006, or January 1, 2007 for calendar year-end companies. Management is currently evaluating the impact this Interpretation may have on the Company s financial statements.

ZIONS BANCORPORATION AND SUBSIDIARIES

In February 2006, the FASB issued SFAS No. 155, Accounting for Certain Hybrid Financial Instruments, an amendment of FASB Statements No. 133 and 140. This Statement amends SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, to require evaluation of all interests in securitized financial assets under SFAS 133, eliminating a previous exemption under SFAS 133 for such financial instruments. Entities must now distinguish interests that are freestanding derivatives, hybrid financial instruments containing embedded derivatives requiring bifurcation, or hybrid financial instruments containing embedded derivatives that do not require bifurcation. In addition, the Statement permits fair value remeasurement for any hybrid instrument (on an instrument-by-instrument basis) that contains an embedded derivative that would otherwise require bifurcation. The Statement also amends SFAS No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities, by eliminating the prohibition on a qualifying special-purpose entity (QSPE) from holding a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument.

In March 2006, the FASB issued SFAS No. 156, Accounting for Servicing of Financial Assets, an amendment of FASB Statement No. 140. This Statement permits entities to choose to either subsequently measure recorded servicing rights at fair value and report changes in fair value in earnings, or amortize servicing rights in proportion to the estimated net servicing income or loss and assess the rights for impairment or the need for an increased obligation. In addition, the Statement, among other things, clarifies when a servicer should separately recognize servicing assets and liabilities, and requires initial fair value measurement, if practicable, of such recognized assets and liabilities.

In general, both Statements are effective as of the beginning of an entity s fiscal year after September 15, 2006, or January 1, 2007 for calendar year-end companies. Management is evaluating the impact these Statements may have on the Company s financial statements.

The Company s adoption of SFAS No. 123R, Share-Based Payment, is discussed in Note 6.

3. MERGER AND ACQUISITION ACTIVITY

Effective December 3, 2005, we acquired 100% of the outstanding stock of Amegy Bancorporation, Inc. headquartered in Houston, Texas. The tax-free merger included the formation of a new holding company, Amegy Corporation (Amegy), which became a wholly-owned subsidiary of the Company. The merger expands the Company s banking presence into Texas. Amegy s results of operations for the month of December 2005 and for the six months ended June 30, 2006 were included with the Company s results of operations.

Details of the merger, including the allocation of the purchase price, are included in the Company s Annual Report on Form 10-K for the year ended December 31, 2005. The allocation of the purchase price is subject to change when the determination of Amegy s asset and liability values is finalized within one year from the merger date. As of June 30, 2006, the allocation had not changed from December 31, 2005.

The following unaudited pro forma condensed combined financial information presents the Company s results of operations assuming the merger had taken place as of January 1, 2005. Also shown for comparative purposes are the historical results of operations for the Company without Amegy (in thousands, except per share amounts):

Merger related expenses for this merger of \$8.9 million and \$15.7 million for the three- and six-month periods ended June 30, 2006 consisted of systems integration and related charges of \$5.9 million and \$10.1 million, and severance and other employee-related costs of \$3.0 million and \$5.6 million, respectively.

As disclosed in the Company s Annual Report on Form 10-K for the year ended December 31, 2005, Amegy accrued as of the date of merger approximately \$15.2 million of liabilities from purchase accounting adjustments for certain exit and termination costs. These costs consisted of employee-related costs of \$12.2 million and other exit costs of \$3.0 million. As of June 30, 2006, Amegy had paid approximately \$10.5 million of these costs.

4. LONG-TERM DEBT

On March 31, 2006, we filed an automatic shelf registration statement with the Securities and Exchange Commission (SEC) as a well-known seasoned issuer under their revised rules effective December 1, 2005 with respect to the registration, communications and offering processes under the Securities Act of 1933. The shelf registration replaced a previous shelf registration and covers securities of the Company, Zions Capital Trust C and Zions Capital Trust D.

On April 27, 2006, under the new shelf registration, we issued \$250 million of floating rate senior notes due April 15, 2008. The notes require quarterly interest payments at three-month LIBOR plus 0.12%. They are not redeemable prior to maturity and are not listed on any national securities exchange. Proceeds from the notes were used to retire all of the \$150 million of 2.70% senior notes due May 1, 2006 and all of the remaining \$104.2 million of 6.95% subordinated notes due May 15, 2011 and redeemable May 15, 2006.

6. SHARE-BASED COMPENSATION

We have a stock option and incentive plan which allows us to grant stock options and restricted stock to employees and nonemployee directors. The total shares authorized under the plan are 8,900,000 of which 6,604,869 shares are available for future grant as of June 30, 2006.

Prior to January 1, 2006, we accounted for share-based compensation under the recognition and measurement provisions of Accounting Principles Board Opinion No. 25 (APB 25), Accounting for Stock Issued to Employees, and related Interpretations, as permitted by SFAS No. 123, Accounting for Stock-Based Compensation. Accordingly, we did not record any compensation expense for stock options, as the exercise price of the option was equal to the quoted market price of the stock on the date of grant.

11

ZIONS BANCORPORATION AND SUBSIDIARIES

Effective January 1, 2006, we adopted SFAS No. 123R, *Share-Based Payment*, which requires all share-based payments to employees, including grants of employee stock options, to be recognized in the statement of income based on their fair values. This accounting utilizes a modified grant-date approach in which the fair value of an equity award is estimated on the grant date without regard to service or performance vesting conditions. We adopted SFAS 123R using the modified prospective transition method. Under this transition method, compensation expense is recognized beginning January 1, 2006 based on the requirements of SFAS 123R for all share-based payments granted after January 1, 2006, and based on the requirements of SFAS 123 for all awards granted to employees prior to January 1, 2006 that remain unvested as of that date. Results of operations for prior periods have not been restated.

The adoption of SFAS 123R, compared to the previous accounting for share-based compensation under APB 25, reduced the Company s income before income taxes and minority interest and net income along with the related basic and diluted per common share amounts as follows (in thousands, except per share amounts):

| | | 006 | | | | | | | |

| Basic | \$ | 0.03 | \$ | 0.05 | | | | | |
| Diluted | | 0.03 | | 0.05 | | | | | |

As required by SFAS 123R, upon adoption, we reversed \$11.1 million of unearned compensation related to restricted stock from deferred compensation and common stock.

The impact on net income and net income per common share if we had applied the provisions of SFAS 123 to stock options for the three- and six-month periods ended June 30, 2005 was as follows (in thousands, except per share amounts):

ZIONS BANCORPORATION AND SUBSIDIARIES

We classify all share-based awards as equity instruments and recognize the vesting of the awards ratably over their respective terms. As of June 30, 2006, compensation expense not yet recognized for nonvested share-based awards was approximately \$55.2 million, which is expected to be recognized over a weighted average period of 1.4 years.

SFAS 123R also requires the benefits of tax deductions in excess of recognized compensation expense resulting from the exercise of share-based awards to be reported as a financing cash flow. For the three- and six month periods ended June 30, 2006, this requirement reduced net operating cash flows and increased net financing cash flows by approximately \$7.9 million and \$13.0 million, respectively.

Stock Options

Options granted to employees vest at the rate of one third each year and expire seven years after the date of grant. Options granted to non employee directors are exercisable in increments from six months to three and a half years and expire ten years after the date of grant.

In 2005, we discontinued our broad-based employee stock option plan under which options were made available to substantially all employees; however, existing options continue to vest at the rate of one third each year and expire four years after the date of grant.

For the three- and six-month periods ended June 30, 2006, the additional compensation expense of \$4.1 million and \$8.1 million, respectively, for stock options under SFAS 123R is included in salaries and employee benefits in the statements of income with the corresponding increase to shareholders—equity included in common stock. The related tax benefit recognized as a reduction of income tax expense was \$1.4 million and \$2.5 million, respectively, for the same periods.

During the three- and six-month periods ended June 30, 2006, the amount of cash received from the exercise of stock options was \$14.4 million and \$55.4 million, respectively, and the tax benefit realized as a reduction of income taxes payable was \$5.2 million and \$14.4 million, respectively. Of these amounts, \$3.0 million and \$6.4 million reduced goodwill for the tax benefit of vested share-based awards converted in the Amegy acquisition that were exercised during the three- and six-month periods, and \$2.2 million and \$8.0 million, respectively, were included in common stock as part of net stock options exercised.

Compensation expense was determined from the estimates of fair values of stock options granted using the Black-Scholes option-pricing model. The following significant assumptions were used for options granted during the three months ended June 30, 2006:

| Weighted average of fair value for options granted | \$ 15.02 |
|--|----------|
| Weighted average assumptions used: | |
| Expected dividend yield | 2.0% |
| Expected volatility | 18.0% |
| Risk-free interest rate | 4.96% |

Expected life (in years)

4.1

No stock options were granted during the three months ended March 31, 2006. The methodology used to estimate the fair values of stock options is consistent with the estimates used for the pro forma presentation in periods prior to the adoption of SFAS 123R. The preceding assumptions reflect management s judgment and include consideration of historical experience. The risk-free interest rate is based on the U. S. Treasury yield curve in effect at the time of grant for periods corresponding with the expected life of the option.

(1) The weighted average remaining contractual life excludes 35,023 stock options which expire between the date of termination and one year from the date of termination, depending upon certain circumstances.

For outstanding options at June 30, 2006, the aggregate intrinsic value was \$154.7 million. For exercisable options at June 30, 2006, the aggregate intrinsic value was \$133.1 million and the weighted average remaining contractual life was 3.9 years.

Restricted Stock

Restricted stock granted vests over four years. During the vesting period, the holder has full voting rights and receives dividend equivalents. For the three- and six-month periods ended June 30, 2006, compensation expense recognized for issuances of restricted stock and included in salaries and employee benefits in the

14

ZIONS BANCORPORATION AND SUBSIDIARIES

statement of income was \$1.9 million and \$2.9 million, respectively. Amounts for the corresponding periods in 2005 were \$0.4 million and \$0.5 million, respectively. The corresponding increase to shareholders—equity was included in common stock. Compensation expense was determined based on the number of restricted shares granted and the market price of our common stock at the grant date.

The following summarizes our restricted stock activity for the six months ended June 30, 2006:

| | Number of shares | Weighted average grant price |
|--|------------------|---------------------------------------|
| Nonvested restricted shares at December 31, 2005 | 203,983 | \$ 68.99 |
| Granted | 279,625 | 80.16 |
| Vested | (46,865) | 70.98 |
| Forfeited | (9,113) | 72.44 |
| Nonvested restricted shares at June 30, 2006 | 427,630 | 77.11 |

The total fair value of restricted stock vesting during the three- and six-month periods ended June 30, 2006 was \$3.3 million and \$3.4 million, respectively. Amounts for the corresponding periods in 2005 were not significant.

7. GUARANTEES

The following are guarantees issued by the Company (in thousands):

| | June 30, | December 31, |
|----------------------------|--------------|--------------|
| | 2006 | 2005 |
| Standby letters of credit: | | |
| Financial | \$ 1,072,389 | \$ 1,015,019 |
| Performance | 301,295 | 240,763 |
| | | |
| | \$ 1,373,684 | \$ 1,255,782 |
| | | |

The Company s Annual Report on Form 10-K for the year ended December 31, 2005 contains further information on the nature of these letters of credit along with their terms and collateral requirements. At June 30, 2006, the carrying value recorded by the Company as a liability for these guarantees was \$4.8 million.

Certain mortgage loans sold have limited recourse provisions for periods ranging from three months to one year. The amount of losses resulting from the exercise of these provisions has not been significant.

As of June 30, 2006, the Parent has guaranteed approximately \$476.1 million of debt issued by affiliated trusts issuing trust preferred securities. The trusts and related trust preferred securities are described in the Company s Annual Report on Form 10-K for the year ended December 31, 2005.

Zions Bank provides a liquidity facility (Liquidity Facility) for a fee to Lockhart Funding, LLC (Lockhart), a QSPE securities conduit. Lockhart purchases floating rate U.S. Government and AAA-rated securities with funds from the issuance of commercial paper. Zions Bank also provides interest rate hedging support and administrative and investment advisory services for a fee. Pursuant to the Liquidity Facility contract, Zions Bank is required to purchase securities from Lockhart to provide funds for Lockhart to repay maturing commercial paper upon Lockhart s inability to access the commercial paper market, or upon a commercial paper market disruption as specified in governing documents for Lockhart. Pursuant to the

15

ZIONS BANCORPORATION AND SUBSIDIARIES

governing documents, including the liquidity agreement, if any security in Lockhart is downgraded below AA-, Zions Bank must either 1) place its letter of credit on the security, 2) obtain credit enhancement from a third party, or 3) purchase the security from Lockhart at book value. At any given time, the maximum commitment of Zions Bank is the book value of Lockhart s securities portfolio, which is not allowed to exceed the size of the Liquidity Facility commitment. At June 30, 2006, the book value of Lockhart s securities portfolio was \$5.0 billion, which approximated market value, and the size of the Liquidity Facility commitment was \$6.12 billion. No amounts were outstanding under the Liquidity Facility at June 30, 2006.

The FASB continues to deliberate other projects that propose to amend SFAS 140 in addition to those discussed in Note 2. These include isolation of transferred assets and permitted activities of QSPEs. The proposed amendments, among other things, may require changes to the operating activities of QSPEs and other aspects relating to the transfer of financial assets. Subject to the requirements of any final standards when they are issued, Lockhart s operations may need to be modified to preserve its off-balance sheet status.

As disclosed in the Company s Annual Report on Form 10-K for the year ended December 31, 2005, we expect to contribute \$634 thousand in 2006 to meet estimated benefit payments to participants in our postretirement health and welfare plan. As of June 30, 2006, we have contributed \$317 thousand of this amount and expect to contribute the remaining portion during the rest of 2006. We do not expect to make any contributions to the pension plan in 2006 and have not done so as of June 30, 2006. As disclosed in the Company s Annual Report on Form 10-K for the year ended December 31, 2005, participation and benefit accruals for the pension plan were frozen effective January 1, 2003.

9. OPERATING SEGMENT INFORMATION

We manage our operations and prepare management reports and other information with a primary focus on geographical area. As of June 30, 2006, we operate eight community/regional banks in distinct geographical areas. Performance assessment and resource allocation are based upon this geographical structure. Zions Bank operates 112 branches in Utah and 24 in Idaho. CB&T operates 91 branches in California. Amegy operates 77 branches in Texas. NBA operates 53 branches in Arizona. NSB operates 72 branches in Nevada. Vectra operates 38 branches in Colorado and one branch in New Mexico. TCBW operates one branch in the state of Washington. TCBO operates one branch in Oregon. The operating segment identified as Other includes the Parent, certain nonbank financial service and financial technology subsidiaries, other smaller nonbank operating units, TCBO, and eliminations of transactions between segments. Results for Amegy only include the three- and six month periods ended June 30, 2006.

16

ZIONS BANCORPORATION AND SUBSIDIARIES

The accounting policies of the individual operating segments are the same as those of the Company. Transactions between operating segments are primarily conducted at fair value, resulting in profits that are eliminated for reporting consolidated results of operations. Operating segments pay for centrally provided services based upon estimated or actual usage of those services.

The following table presents selected operating segment information for the three months ended June 30, 2006 and 2005:

FORWARD-LOOKING INFORMATION

Statements in Management s Discussion and Analysis that are based on other than historical data are forward-looking, within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements provide current expectations or forecasts of future events and include, among others:

statements with respect to the Company s beliefs, plans, objectives, goals, guidelines, expectations, anticipations, and future financial condition, results of operations and performance;

statements preceded by, followed by or that include the words may, could, should, would, believe, anticipate, estimate, plan, projects, or similar expressions.

These forward-looking statements are not guarantees of future performance, nor should they be relied upon as representing management s views as of any subsequent date. Forward-looking statements involve significant risks and uncertainties and actual results may differ materially from those presented, either expressed or implied, in Management s Discussion and Analysis. Factors that might cause such differences include, but are not limited to:

the Company s ability to successfully execute its business plans, manage its risks, and achieve its objectives;

changes in political and economic conditions, including the economic effects of terrorist attacks against the United States and related events;

changes in financial market conditions, either nationally or locally in areas in which the Company conducts its operations, including without limitation, reduced rates of business formation and growth, commercial real estate development and real estate prices;

fluctuations in the equity and fixed-income markets;

changes in interest rates, the quality and composition of the loan and securities portfolios, demand for loan products, deposit flows and competition;

acquisitions and integration of acquired businesses, including Amegy;

increases in the levels of losses, customer bankruptcies, claims and assessments;

changes in fiscal, monetary, regulatory, trade and tax policies and laws, including policies of the U.S. Treasury and the Federal Reserve Board;

CRITICAL ACCOUNTING POLICIES AND SIGNIFICANT ESTIMATES

The Company has made no significant changes in its critical accounting policies and significant estimates from those disclosed in its Annual Report on Form 10-K for the year ended December 31, 2005, except as noted below.

Note 6 of the Notes to Consolidated Financial Statements discusses the Company s adoption on January 1, 2006 of SFAS No. 123R, *Share-Based Payment* (SFAS 123R), which requires all share-based payments to employees, including grants of employee stock options, to be recognized in the statement of income based on their fair values. The Company adopted SFAS 123R using the modified prospective transition method and did not restate results of operations for prior periods. Rather, the Company presented the pro forma effect on operations as if it had adopted the provisions of SFAS 123.

The Company uses the Black-Scholes option-pricing model to estimate the fair value of stock options granted under SFAS 123R and for the pro forma presentations in prior periods. Use of the assumptions described in Note 6 is subjective and requires judgment. The adoption of SFAS 123R decreased income before income taxes and minority interest and net income by approximately \$4.1 million and \$2.8 million, respectively, for the three months ended June 30, 2006, or \$0.03 per diluted share, and \$8.1 million and \$5.6 million, respectively for the six months ended June 30, 2006, or \$0.05 per diluted share. The Company currently estimates that the adoption of SFAS 123R will reduce 2006 pretax income by approximately \$17 million. In 2005, the Company began granting shares of restricted stock in connection with the adoption of a new stock option and incentive plan. During the second quarter of 2006, the Company granted 977,024 stock options and 219,000 shares of restricted stock.

RESULTS OF OPERATIONS

As previously disclosed, the Company completed its acquisition of Amegy Bancorporation, Inc. in December 2005. All comparisons to 2005 periods reflect the effects of the Amegy acquisition.

Zions Bancorporation (the Parent) and subsidiaries (collectively Zions, the Company, we, our) reported net income of \$145.3 million, or \$1. per diluted share for the second quarter of 2006 compared with \$118.8 million, or \$1.30 per diluted share for the second quarter of 2005. The annualized return on average assets was 1.33% in the second quarter of 2006 compared to 1.47% in the second quarter of 2005. For the same comparative periods, the annualized return on average common equity was 13.20% compared to 16.56%. In addition, the efficiency ratio, which is defined as the percentage of noninterest expenses to taxable-equivalent revenue, was 57.5% compared to 54.8% for the second quarter of 2005.

Net income for the first six months of 2006 was \$282.9 million or \$2.62 per diluted share, compared to \$229.0 million or \$2.50 per diluted share for the first six months of 2005. For the first six months of 2006, the annualized return on average assets was 1.32% compared to 1.44% for the same period of 2005. For the same comparative periods, the annualized return on average common equity was 13.06% compared to 16.20%. The efficiency ratio for the first six months was 57.8% compared to 55.6% for 2005.

ZIONS BANCORPORATION AND SUBSIDIARIES

Net Interest Income, Margin and Interest Rate Spreads

Taxable-equivalent net interest income for the second quarter of 2006 increased 31.6% to \$442.3 million compared with \$336.1 million for the comparable period of 2005. The increase reflects the acquisition of Amegy, growth in both loans and deposits coupled with the effect of an increase in the net interest margin. For the first six months of 2006, net interest income on a fully taxable-equivalent basis was \$871.1 million, an increase of 32.7% compared to \$656.2 million in 2005. The incremental tax rate used for calculating all taxable-equivalent adjustments is 35% for all periods presented.

Although taxable-equivalent net interest income increased sequentially in the second quarter of 2006, the Company s net interest margin was 4.64% for the second quarter of 2006, compared to 4.69% for the first quarter of 2006 and 4.60% for the second quarter of 2005. The decreased net interest margin for the second quarter of 2006 resulted mainly from robust loan growth being funded primarily by time deposits and Federal Home Loan Bank advances and other short-term borrowings.

One of the challenges we continue to face in 2006 is an increase in pricing pressures on both loans and deposits as the economy expands and competition for good business increases. Reflecting this pricing pressure, the spread on average interest-bearing funds for the second quarter for 2006 was 3.81%, down from 3.95% and 4.03% from the first quarter of 2006 and second quarter of 2005, respectively. The yield on average earning assets increased 21 basis points during the second quarter as compared to the first quarter of 2006 and 95 basis points during the second quarter of 2006 compared to the same period in 2005. The average rate paid this quarter on interest-bearing funds increased 35 basis points from the first quarter and 117 basis points from the second quarter of 2005.

The Federal Reserve raised its target for the federal funds rate twice during the quarter by a combined 50 basis points. These increases were followed by corresponding increases in the prime rate charged by most major banks, including Zions—subsidiary banks. The Federal Reserve has indicated that it may implement additional rate changes, as appropriate. The Company expects to continue its efforts to maintain a slightly—asset sensitive—position with regard to interest rate risk. However, our estimates of the Company—s actual position are highly dependent upon changes in both short-term and long-term interest rates, modeling assumptions, and the actions of competitors and customers in response to those changes.

ZIONS BANCORPORATION AND SUBSIDIARIES

Provisions for Credit Losses

The provision for loan losses is the amount of expense that, based on our judgment, is required to maintain the allowance for loan losses at an adequate level based upon the inherent risks in the portfolio. The provision for unfunded lending commitments is used to maintain the allowance for unfunded lending commitments at an adequate level. See Credit Risk Management for more information on how we determine the appropriate level for the allowances for loan and lease losses and unfunded lending commitments.

The provision for loan losses for the second quarter was \$17.0 million compared to \$11.4 million for the same period in 2005. On an annualized basis, the provision was 0.21% and 0.20% of average loans for the second quarters of 2006 and 2005, respectively. The provision for unfunded lending commitments was \$(0.2) million for the second quarter of 2006 compared to \$1.0 million for the second quarter of 2005. When combined, the provisions for credit losses for the second quarter of 2006 were \$16.8 million compared to \$12.5 million for the second quarter of 2005.

The provision for loan losses for the first six months of 2006 was \$31.5 million, 51.6% greater than the \$20.8 million provision for the first six months of 2005. The increased loan loss provision for the second quarter and the first six months is primarily impacted by strong net loan growth of \$2.6 billion during the first six months of 2006 as compared to \$1.2 billion net loan growth during the first six months of 2005. The provision for unfunded lending commitments was \$(0.5) million for the first half of 2006 compared to \$2.7 million for the same period in 2005. From period to period, the amounts of unfunded lending commitments may be subject to sizeable fluctuation due to changes in the timing and volume of loan originations and fundings. The related provision will generally reflect these fluctuations.

Noninterest Income

Compared with the second quarter of 2005, noninterest income for the second quarter of 2006 increased 30.0%, or \$31.8 million. The increases in total and individual categories of noninterest income for the second quarter of 2006 compared to the second quarter of 2005 were mainly due to the Amegy acquisition. Significant changes and trends in noninterest income categories not resulting from the Amegy acquisition are discussed as follows.

Excluding Amegy, loan sales and servicing income decreased \$1.6 million for the second quarter of 2006 compared to the second quarter of 2005. The decrease includes a \$1.1 million impairment loss recognized on capitalized residual cash flows for certain small business securitizations.

Market making, trading and nonhedge derivative income for the second quarter of 2006, excluding Amegy, decreased \$3.4 million or 52.0% compared with the same period in 2005. Excluding Amegy, trading income declined \$1.9 million compared to the second quarter of 2005. The decrease mainly results from a decision made by the Company in the fourth quarter of 2005 to close the London trading office and reduce the amount of trading assets in response to contracted margin pressures. Nonhedge derivative income was \$0.3 million for the second quarter of 2006 compared to \$1.8 million for the second quarter of 2005.

Net equity securities losses were \$1.8 million for the second quarter of 2006 compared with net losses of \$2.8 million for the same period in 2005. Net losses for the second quarter of 2006 include a \$3.4 million loss on the sale of a mortgage mutual fund investment, a \$0.7 million gain on venture capital equity investments, and a \$0.9 million gain from the sale of other equity securities. The losses for the second quarter of 2005 were all from venture capital equity inv
