Notes to Consolidated Financial Statements

NOTE 1. Management Statement

In the opinion of the Company, the accompanying unaudited Consolidated Financial Statements reflect all adjustments necessary for a fair presentation of the financial position of the Company as of September 30, 2006 and December 31, 2005, as well as the results of operations and changes in financial position for the three-month and nine-month, year-to-date periods ended September 30, 2006 and 2005. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed statements be read in conjunction with the Independent Auditor's Report and Financial Statements contained in the Company's most recent Annual Report on Form 10-KSB, as of December 31, 2005.

Certain reclassifications of September 30, 2005 balances have been made to conform to the September 30, 2006 presentation; there was no impact on net income or stockholders' equity. The number of weighted average shares outstanding, the effect of dilutive securities on earnings per share and the calculation of earnings per share have been adjusted for the three-month and nine-month, year-to-date periods ending September 30, 2006 and 2005 to reflect the effect of a five-percent stock dividend effective for shareholders of record as of May 15, 2006 and paid on June 15, 2006.

NOTE 2. Securities

Most of the securities are classified as available-for-sale and are stated at fair value, and unrealized holding gains and losses, net of related deferred taxes, are reported as a separate component of stockholders' equity. Realized gains or losses on available-for-sale securities sales are reported as part of non-interest income based on the net proceeds and the adjusted carrying amount of the securities sold, using the specific identification method. There were no securities sold in the three-month or nine-month, year-to-date periods ending September 30, 2006 and 2005; consequently, there were no gains or losses included in non-interest income. Carrying amounts and fair values at September 30, 2006 and December 31, 2005 were as follows (in thousands):

	September 30, 2006		December 31, 2005

(1) Represents those AFS marketable equity securities that are recorded in Other Assets on the Consolidated Balance Sheet. Securities consist of (\$250 thousand) investment, at fair market value, in the common stock of a bank holding company headquartered in Bellevue, WA. As this company is relatively new, it is anticipated that it will be some time before an active market in its stock develops. To determine fair market value, the Company reviews the financial performance of the bank subsidiary of the Bellevue-based holding company and,

pursuant to the latest review, believes that the current fair market value approximates cost.

- (2) Represents those equity securities with limited marketability that are recorded in Other Assets, on the Consolidated Balance Sheet. These securities are reviewed quarterly to determine whether there has been any impairment in value. Securities consist of (\$155 thousand) equity investment in a Trust created by the Company in connection with issuance of trust preferred securities, (\$190 thousand) investment in the common stock of Pacific Coast Bankers Bank and (\$50 thousand) investment in an economic development company, each of these investments is reported at cost.

NOTE 4. Allowance for Loan Losses

The Company's subsidiary, Inland Northwest Bank (the Bank) maintains an allowance for loan losses at a level considered adequate by management to provide for reasonably anticipated credit losses in the Bank's loan portfolio. Future credit losses are estimated through an analysis of various factors affecting the performance of the loan portfolio, including: individual review of problem loans, including an evaluation of the quality of underlying collateral; current business conditions and the Bank's historical loan loss experience; the term, in years, that the average loan is expected to remain on the Bank's books; and other factors that

management determines to be relevant at the time of the analysis. In accordance with accounting and regulatory requirements, the portion of the allowance relating to unused loan commitments and other off-balance sheet items is reclassified to Accrued interest payable and other liabilities. Changes in the allowance for loan losses during the three-month and nine-month, year-to-date periods ended September 30, 2006 and 2005 were as follows (in thousands):

NOTE 5. Borrowed Funds

The Bank has a line of credit with the Federal Home Loan Bank of Seattle (FHLB) and operating lines of credit with several other financial institutions. The FHLB line provides the Bank access to long-term funding, with repayment terms as long as thirty years, and to short-term funding to meet current liquidity needs. The operating lines with other financial institutions are available for short-term funding, to meet current liquidity needs.

The following table outlines amounts outstanding and the availability of borrowed funds for the periods covered in this report:

	Line amount ⁽¹⁾ (\$ in thousands)	Maturity	Collateral	Purpose	Outstanding as of:	
					9/30/2006	12/31/2005

Zions Bank ⁽⁵⁾	\$ 1,500	No stated maturity	Unsecured	Short-term line of credit		
Total borrowed funds					\$ 8,509	\$ 6,815

⁽¹⁾ The FHLB line amount is computed as 15% of Bank assets as of the reporting date and will change from quarter to quarter as asset totals change.

- (2) Access to the FHLB line is conditioned to stock ownership; additional stock purchase may be required to access the full amount of the line. The FHLB may be used for overnight borrowings (federal funds purchased) or for short-term (between 7 days and 1-year) or intermediate/long-term borrowings (as long as thirty years). All of the balances outstanding for the reporting dates were intermediate or long-term.
- (3) The FHLB reviews its commitment annually and notifies the Bank that the arrangement will continue, but does not state an exact maturity date.
- (4) The FHLB requires a general pledge of all Bank assets. Actual advances are limited by the amount of single family and multi-family real estate loans in the Bank's loan portfolio, as well as certain commercial real estate loans. In practice, these loans provide the FHLB with adequate collateral coverage, exclusive of other Bank assets.
- (5) Federal funds purchased lines of credit to cover short-term liquidity needs. Typically expected to be re-paid within a few days.
- (6) Federal funds purchased line of credit to cover short-term liquidity needs. Typically expected to be re-paid within a few days. May be extended to as much as thirty days.

NOTE 6. Capital Lease Liability

The capital lease liability outstanding on September 30, 2006 and December 31, 2005 is related to a ground lease, with a purchase option, that the Bank entered into in early 2005 (a copy of the ground lease was filed as an Exhibit to the Company's Form 10-KSB filing on March 24, 2005). As a capitalized lease, the value of the property is included as an asset on the consolidated statement of financial condition in Premises and equipment, net and the net present value of future payments is included as a liability in Capital lease liability.

NOTE 7. Material Contract

In the third-quarter 2006, the Bank entered into an agreement with the Spokane Public Facilities District (PFD) for the purchase of naming rights to the Spokane Opera House; that facility will henceforth be known as the INB Performing Arts Center. Under the agreement, the Bank will pay the PFD \$150 thousand per year for a period of ten years. Expense related to the agreement will be recognized as Other operating expense and will affect (reduce) net income by about \$25 thousand per quarter, beginning with the third-quarter 2006.

NOTE 8. Junior Subordinated Debentures

In June 2005, the Company completed the issuance of \$5.155 million (\$5,155,000) of debentures in connection with a private placement of pooled trust preferred securities by Northwest Bancorporation Capital Trust I. The trust preferred securities, in the amount of \$5 million (\$5,000,000), were sold to pooled investment vehicles sponsored and marketed by investment banking firms. This subordinated debt has been recorded as a liability on the statement of financial condition; subject to limitations under current Federal Reserve guidelines, this subordinated debt qualifies as Tier 1 capital for regulatory capital purposes. Under the terms of the transaction, the trust preferred securities and debentures have a maturity of thirty years and are redeemable by the Company after five years, with certain exceptions. The holders of the trust preferred securities are entitled to receive cumulative cash distributions at a fixed annual rate of 5.95% during the first five years; thereafter, the rate is variable. After the first five years, the interest rate is reset quarterly to equal three-month LIBOR plus 1.70%. Northwest Bancorporation Capital Trust I is not consolidated in these financial statements. Pursuant to FIN 46R, the Corporation reports the junior subordinated debentures within the liabilities section of the statement of financial condition.

The following tables are a summary of current trust preferred securities at September 30, 2006 and December 31, 2005 (dollars in thousands):

NOTE 9. Stock-based Compensation

Prior to fiscal 2006, the Company accounted for stock-based compensation under the recognition and measurement provisions of Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, and related Interpretations, as permitted by Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards (SFAS) No. 123, Accounting for Stock-Based Compensation, (SFAS 123). Compensation costs related to stock options granted at fair value under those plans were not recognized in the consolidated statements of income.

In December 2004, FASB issued SFAS 123 (revised 2004), Share-Based Payment, (SFAS 123R). Under the new standard, companies are no longer able to account for share-based compensation transactions using the intrinsic value method in accordance with APB Opinion No. 25. Instead, companies are required to account for such transactions using a fair-value method and recognize the expense in the consolidated statements of income.

Effective January 1, 2006, the Company adopted SFAS 123R using the modified-prospective-transition method. Under this transition method, stock compensation cost recognized beginning January 1, 2006 includes: (a) compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of SFAS 123, and (b) compensation cost for all share-based payments granted on or subsequent to January 1, 2006, based on the grant-date fair value estimated in accordance with the provisions of SFAS 123R. Results for prior periods have not been restated.

On April 18, 2006, the Board of Directors declared a five-percent stock dividend payable on June 15, 2006 to shareholders of record as of May 15, 2006. Shares reported as outstanding, as well as earnings per share, the number of weighted average shares outstanding and the effect of dilutive securities for the three-month and nine-month, year-to-date periods ending September 30, 2006 and 2005, have been adjusted to reflect the stock dividends.
