OUTSTANDING STOCK; VOTING RIGHTS;

VOTE REQUIRED FOR APPROVAL

The stock transfer books of the Company will not be closed, but only stockholders of record at the close of business on March 30, 2007, will be entitled to notice of, and to vote at, the meeting. At that date, there were 76,214,696 shares of Class A Common Stock outstanding and 4,010,929 shares of Class B Common Stock outstanding. The presence, in person or by proxy, of the holders of a majority of the shares of Common Stock issued and outstanding as of the record date is required to establish a quorum at the annual meeting.

Each holder of Class A Common Stock and each holder of Class B Common Stock shall be entitled to one vote on the matters presented at the meeting for each share standing in his name except that the holders of Class A Common Stock are empowered as a class to elect one-third of the Directors and the holders of Class B Common Stock are empowered as a class to elect two-thirds of the Directors. Stockholders will not be allowed to vote for a greater number of nominees than those named in this proxy statement. Nominees for director of each class, to be elected, must receive the affirmative vote of a majority of the shares of that respective class outstanding and eligible to vote in the election. Cumulative voting for Directors is not permitted.

If a quorum is present, the vote of the holders of a majority of the shares of Common Stock present in person or represented by proxy and having voting power is required for ratification of the appointment of Deloitte & Touche LLP as Dillard s independent auditors and for approval of the stockholder proposal.

Under Delaware General Corporate Law, if shares are held by a broker that has indicated that it does not have discretionary authority to vote on a particular matter without instructions from you under the New York Stock Exchange listing standards (broker non-votes), those shares will not be considered as present and entitled to vote with respect to that matter, but such shares will be counted with respect to determining whether a quorum is present. Abstentions will not be counted as votes cast for election of directors and with respect to the ratification of the appointment of the independent public accountants. Abstentions will have the effect of a vote against such proposals.

The last date for the acceptance of Proxies by management is the close of business on May 18, 2007, and no Proxy received after that date will be voted by management at the meeting.

Dillard's, Inc. qualifies as a controlled company under the corporate governance rules of the New York Stock Exchange due to the ownership by W.D. Company of shares of Class B Common Stock allowing it to cast more than 50% of votes eligible to be cast for the election of two-thirds of the Directors of the Company that are elected by Class B Stockholders. In accordance with a provision in NYSE rules for controlled companies, the Company has elected not to comply with NYSE corporate governance rules that provide for (i) a majority of independent directors or (ii) a nominating/corporate governance committee comprised solely of independent directors. However, the Stock Option and Executive Compensation Committee has adopted a written charter and otherwise complies with the requirements of NYSE Rule 303A.05, Corporate Governance Standards for Compensation Committees.

Based on the foregoing exemption for controlled companies, the Company is not required to and does not have a nominating/corporate governance committee. The Board of Directors of the Company formally nominated all of the nominees for Director.

All of the nominees for director attended at least 75% of the aggregate of (1) the total number of meetings of the Board of Directors and (2) the total number of meetings held by all committees of the board on which they served. Dillard's, Inc. has a policy which encourages each board member to attend the annual stockholders' meeting. Each member of the board of directors was in attendance at the annual meeting of stockholders on May 20, 2006, except for Warren A. Stephens.

The Board has determined that each of the Class A Directors, as well as J.C. Watts, Jr. and Warren Stephens who serve as Class B Directors, qualify as independent directors in accordance with the NYSE corporate governance rules. In making its independence determinations, the Board considered the following relationship with the Company and determined such relationship was not material and would not affect the director's independence: Payments made by the Company for advertising to newspapers owned by Stephens Media Group. These payments were less than 5% of Stephens Media Group's annual revenue.

The Board has designated Will D. Davis to act as the presiding director of executive sessions to be held on a regular basis by non-management members of the Board. You may contact any Board member, or the entire Board, at any time. Your communication should be sent to the Presiding Member of Non Management Members of the Board of Directors or Non Management Members of the Board of Directors at 1600 Cantrell Road, Little Rock, AR 72201.

The Board has adopted Corporate Governance Guidelines, and each of the Audit Committee and Compensation Committee has adopted a written charter. The Board has also adopted a Code of Conduct that applies to all Company employees including the Company's Directors, CEO and senior financial officers. The current version of these corporate governance documents is available free of charge on the Company's website at www.dillards.com and are available in print to any shareholder who requests copies by contacting Julie J. Bull, Director of Investor Relations, at 1600 Cantrell Road, Little Rock, AR 72201.

COMPENSATION DISCUSSION AND ANALYSIS

Overview of Compensation Philosophy

The Stock Option and Executive Compensation Committee (the "Compensation Committee" or the "Committee") of our Board of Directors, which is composed of directors who are independent as defined under the listing standards of the New York Stock Exchange, has responsibility for establishing, implementing and monitoring adherence to our compensation philosophy. The Committee strives to ensure that the total compensation paid to executive officers is fair, reasonable and competitive.

The Committee evaluates both performance and compensation to ensure that we maintain the ability to attract and retain qualified management personnel and that compensation provided to those employees remains competitive relative to the compensation paid by our competitors. The Compensation Committee strives to achieve this objective by providing compensation packages that include a base salary, performance-based incentive bonuses and equity-based compensation.

The Committee annually reviews compensation packages and amounts paid by our primary competitors and other family-founded and family-managed companies in structuring elements to be included in our compensation packages and determining compensation amounts. This review, along with the independent judgment exercised by members of the Committee, guides the Committee's decisions regarding the allocation of compensation amounts between long-term and currently paid compensation, and the allocation between cash and non-cash amounts. The Compensation Committee attempts to devise these allocations along percentages generally comparable to our competitors while adhering to the underlying principles and objectives of our compensation policies.

In administering our compensation package, the Compensation Committee attempts to foster a pay-for-performance culture providing executives with the opportunity to increase their level of overall compensation based on the company's achievement of profitability. The specific aspects of corporate performance that are generally considered when determining our compensation policies include stock

performance during the fiscal year, sales growth (both overall sales and same store sales), and growth in margins and pre-tax income. Specifically, the award of annual cash performance bonuses is based on a formula tied to the company's realization of pre-tax income and increases in pre-tax income over the past fiscal year. Performance bonuses were paid under this formula during each of our prior five fiscal years excluding only the 2003 fiscal year.

We believe that our compensation packages, and each individual element included, are competitive in our industry. Our programs are designed to allow our executives the opportunity to both increase their annual cash compensation through performance based bonuses and to capitalize on any increases in our stock price resulting from the company's success.

Our Compensation Committee's Charter is available on our website at www.dillards.com.

Role of Executive Officers in Compensation Decisions

Our chief executive officer, president and chief financial officer provide input to the Compensation Committee regarding Company performance. However, the Committee exercises complete discretion in making all compensation decisions regarding cash compensation and equity awards for all of our executive officers.

Objectives, Purposes and Rewards of Our Compensation Program

Our compensation program is designed to maintain our competitive position in our industry by providing benefits equivalent to those offered by our leading competitors. The program's objectives are to:

Provide compensation opportunities that are equivalent to those offered by comparable companies, thereby allowing the company to compete for and retain talented executives who are critical to our long-term success;

Motivate executive officers by rewarding them for attainment of profitability of the company; and

Align the interests of executives with the long-term interests of stockholders by awarding equity-based compensation in the form of stock option grants and participation in retirement, stock option and stock bonus plans encouraging stock ownership by our executives. We have designed our compensation programs to attract, retain and motivate talented individuals and encourage these individuals to engage in behaviors necessary to enable us to succeed in creating shareholder value in a highly competitive marketplace. We choose to pay each separate element of our compensation package with the intent of rewarding certain behaviors believed to be beneficial to the company and to accomplishing specific purposes, as described below.

Base Salary is designed to:

Reward competencies of our executives relative to skills, position and contributions to the success of our company; and

Provide a level of annual cash compensation competitive with the marketplace that recognizes contributions to the overall success of the company and provides the potential to enjoy annual increases reflecting those contributions.

Annual Cash Performance Bonuses are designed to:

Motivate employees to assist in the attainment of profitability; and

Edgar Filing: DILLARDS INC - Form DEF 14A

Foster a pay-for-performance culture that aligns our overall compensation programs with our business strategy and rewards employees for their contributions toward our goal of increasing probability.

Equity-based compensation awards are designed to:

Link compensation rewards to the creation of shareholder wealth; and

Encourage our management to work together for the common good by associating a material portion of compensation to the value of our common stock.

Pension Plan benefits are designed to:

Provide competitive incentives to our executive officers to focus on long-term success of the company; and

Provide a secure retirement after a long and productive career with the company.

The use of these programs enables us to reinforce our pay-for-performance philosophy, as well as strengthen our ability to attract and retain highly qualified executives. We believe that this combination of programs provides an appropriate mix of fixed and variable pay, balances short-term operational performance with long-term shareholder value, and encourages executive recruitment and retention.

The Compensation Committee believes that the companies in the comparison group are comparable to the company in operations, management style and culture. Not all of the companies in our comparison group are included in the Standard & Poors Supercomposite Department Stores Index. Although the Compensation Committee has made these comparisons, it also has considered that as the company has grown in size, the number of senior executives has not grown proportionately, so that the number of senior executives retained by the company is generally lower than the number of senior executives at other companies of similar size.

Specific Elements of Our Compensation Program

Base Salary

Our executive officers receive a base salary established by the Compensation Committee on an annual basis. Base salaries are set at the discretion of the Compensation Committee and are not specifically related to any company performance criteria, as are both the annual cash performance bonus and equity-based portions of the compensation program (excluding any stock option grants), which are discussed below. In establishing base salary levels, the Compensation Committee considers the aggregate compensation and benefits of the executive

officers and bases any increase in salary on targets established by a regression analysis of salaries paid versus total revenues for our comparison group. The regression analysis relates each component of compensation expense to total revenue for each company in the comparison group and provides an expected level of aggregate compensation expense based on Dillard's, Inc. total revenue. For fiscal 2006, the salaries set by the Compensation Committee were below the expected level of salaries produced by this analysis.

Adjustments to the base salary level may be made based on various factors, including comparisons to the comparative data and evaluation of the executive's level of responsibility and experience as well as company-wide performance. The Committee also considers the executive's success in achieving business results, promoting our core values and demonstrating leadership. Previous compensation levels and awards are not taken into account in setting base salary; rather the Committee considers appropriate ranges of compensation given the level of position and performance of the individual and the company for the period under consideration. Finally, the Compensation Committee insures that the recommended level of base salary is less than the expected level of base salary produced by the regression analysis described above.

Annual Cash Performance Bonus

Our compensation program includes performance bonuses payable under our Senior Management Cash Bonus Plan to reward executive officers based on our performance and the individual executive's contribution to that performance. Annual performance bonuses reflect a policy of requiring a certain level of financial and operational performance before any cash bonuses are earned by the named executive officers. Specifically, performance bonuses may be paid only if the company realizes positive net income before federal and state income taxes for the fiscal year, which we refer to as pre-tax income. The Compensation Committee, within ninety (90) days after the start of a fiscal year and in its sole discretion, designates those individuals in senior management eligible to receive a cash performance bonus. Bonuses are paid at the conclusion of the fiscal year from a bonus pool, which is equal to the sum of (a) one and one-half percent (1 1/2 %) of the company's pre-tax income, plus (b) three and one-half percent (3 1/2%) of the increase in pre-tax income over the prior fiscal year. When the Compensation Committee designates the individuals eligible to participate in the cash performance bonus program, it also designates the percent of the bonus pool each individual will be entitled to receive. The Compensation Committee retains the discretion to reduce or eliminate any bonuses that might otherwise be due under the terms of the plan. The Compensation Committee cannot, however, increase the amounts payable under this plan. For fiscal 2005, for example, the company experienced a pre-tax income of \$135,785,000, and no increase in pre-tax income. This resulted in a total available bonus pool and bonuses paid of \$2,037,000. In fiscal 2006, we realized pre-tax income of \$266,226,000, and a bonus pool of \$8,558,000, all of which was paid out.

Equity-Based Compensation

We believe that equity ownership in our company is important to tie the ultimate level of an executive officer's compensation to the performance of our stock and stockholder gains while creating an incentive for sustained growth. To meet these objectives, each member of our senior management team receives equity-based compensation in the forms described below. In determining the appropriate amounts of equity-based compensation to be granted during any fiscal year, the Compensation Committee considers (i) the compensation practices of our comparison group, and (ii) its own judgment as to the appropriate level of equity-based compensation for a company of our size and financial performance.

Stock Option Grants. Stock options may be awarded to our executive officers under our 2000 Incentive and Non-Qualified Stock Option Plan. These grants are used to provide long-term incentive compensation to our executive officers and tie the amount of compensation directly to the market performance of our stock. The exercise price for the options granted is one hundred percent (100%) of the fair market value of the shares underlying such options on the date of grant and have value to the executive officers only if our stock price subsequently increases. No options were granted during our 2006 fiscal year.

Retirement Plan. We offer a qualified defined contribution retirement plan that permits executives to make elective contributions to the plan of up to five percent (5%) of their total annual cash

compensation. These contributions are matched 100% by the company, with all contributions being used to purchase company stock at market prices.

Stock Purchase Plan. The Dillard's, Inc. Stock Purchase Plan allows executives to make contributions only to the extent that they were prevented from contributing to the Retirement Plan because of the nondiscrimination rules and dollar limitations of the Internal Revenue Code. All contributions to the stock purchase plan are applied to the purchase of company stock at market prices.

Stock Bonus Plan. The Dillard's, Inc. Stock Bonus Plan provides a stock grant award equal to six percent (6%) of each executive's annual total cash compensation in excess of \$15,000 (less applicable withholding) divided by the current fair market value per share on the date that the stock bonus is granted.

Although we encourage our executives to own stock in the company, as demonstrated by the equity-based incentives described above, we do not impose stock ownership guidelines on our executive officers.

Pension Plan

We also maintain a non-qualified defined benefit pension plan for our executive officers. The plan provides an annual award at retirement based upon the level of each officer's salary and bonus during the officer's tenure as well as the total years of service provided to the company. Specifically, the award is calculated by multiplying each officer's years of service by 1.5% and multiplying the result by the average of the highest three years of each officer's pension earnings. Pension earnings are defined as total salary plus total bonus minus the maximum wage base for FICA withholding in that year.

Other Benefits

Health Insurance We provide an enhanced health insurance plan to our executive officers. This plan provides for their physical well being and insures that they are able to devote their energies to the management of the Company.

Company Aircraft Executive officers are allowed access to company owned aircraft for both business flights as well as personal use. This benefit increases the level of safety and security for the executive officers as well as allowing them to make better use of their time by being able to travel more efficiently. The company reports imputed income for income tax purposes for the value of any personal use based upon the Standard Industry Fare Level (SIFL) in accordance with the Internal Revenue Code and Treasury Regulations. For financial reporting purposes, the company reports imputed income based on the incremental cost for flights constituting personal use.

Relationship Among the Various Elements of Our Compensation Program

We have designed our compensation package in attempting to achieve our primary objectives of (a) attracting and retaining qualified personnel by providing compensation levels equivalent to those offered by comparable companies, (b) motivating our senior officers by rewarding them for attainment of profitability of the company, and (c) aligning the interests of executives with the long-term interests of stockholders by awarding equity-based compensation to executives as part of the compensation provided to them. Our Compensation Committee has determined that the various elements provided in our compensation program compliment one another in achieving these objectives. Specifically, the amount of compensation provided through our retirement, stock bonus and stock purchase plans is tied directly to the aggregate amount of cash compensation paid in the forms of salary and cash bonuses.

Because one of our primary objectives is to provide competitive total compensation packages on a current basis, the Compensation Committee, in establishing current year compensation amounts, does not consider amounts realized or realizable from prior equity-based compensation grants.

Compensation Benchmarking

An important component of setting and structuring compensation for our executive officers is determining the compensation packages offered by our leading competitors. While we do not specifically benchmark our compensation to these or other companies, our Compensation Committee annually performs a compensation regression analysis to companies in our comparable group, as described above, and periodically does surveys the compensation practices of those companies to assess our competitiveness. In doing so, we take into account factors such as the relative financial performance of those companies and various factors that differentiate us from those companies.

Tax Deductibility of Executive Compensation

Within our performance-based compensation program, we aim to compensate our executive officers in a manner that is tax effective, but we do not let tax considerations drive compensation decisions. Section 162(m) of the Internal Revenue Code generally disallows an income tax deduction to publicly-held corporations for compensation in excess of \$1,000,000 paid for any fiscal year to the corporation's chief executive officer or to any of its four most highly compensated officers. However, the statute exempts qualifying performance-based compensation from the deduction limit if certain requirements are met. The policy of the Compensation Committee in the past has been to attempt to structure the compensation of our executive officers to avoid the loss of the deductibility of any compensation, even though Section 162(m) does not preclude the payment of compensation in excess of \$1,000,000. In 2006, no executive officer was paid amounts for which Section 162(m) of the Internal Revenue Code would disallow an income tax deduction for the company.

In certain situations, the Compensation Committee may approve compensation that will not meet these requirements in order to assure competitive total compensation for our executive officers. Compensation deemed paid with respect to stock option awards under the 2000 Incentive and Nonqualified Stock Option Plan may be subject to the \$1,000,000 limitation, unless considered performance-based compensation. In this regard, the stock option awards granted in January, 2006 to our executive officers qualify as performance-based compensation.

Other Compensation Considerations

Employment Agreements. We do not have written employment agreements with any of our executive officers, and each executive serves as an at-will employee of the company.

Severance and Change in Control Arrangements. We have not entered into agreements or arrangements to provide severance or change-in-control payments to any of our executives. Our past practice has not included the payment of severance or change-in-control payments to any executives.

Compensation Recovery Policy. The Compensation Committee does not have a specific policy on seeking reimbursement of compensation awards; however, it will evaluate on a case by case basis whether to seek the reimbursement of certain compensation awards paid to an executive officer if such executive engages in material misconduct that caused, or partially caused, a restatement of financial results.

Stock Option Practices

Stock options provide for financial gain derived from the potential appreciation in stock price from the date that the option is granted until the date that the option is exercised. As described above, stock options may be awarded to our executive officers under our 2000 Incentive and Non-Qualified Stock Option Plan. The exercise price for the options granted is one hundred percent (100%) of the fair market value of the shares underlying such options on the date of grant and have value to the executive officers only if our stock price increases. The determination of whether to grant these awards to specific individuals, and the amount and timing of any such grants, is made in the sole discretion of the Compensation Committee. We do not backdate options or grant

options retroactively. In addition, we do not plan to coordinate grants of options so that they are made before announcement of favorable information or after announcement of unfavorable information. Compensation Committee meetings are held at least once annually. The timing of the grants is determined by the Compensation Committee. There are times when the Compensation Committee may grant stock options after quarter end and after quarterly reports are filed with the SEC.

Our executive officers, and primarily our chief executive officer, participate to a limited extent in the granting of stock options by recommending the granting of options to non-executive employees. The decision of whether to grant options, however, is left solely to the Compensation Committee.

AUDIT COMMITTEE REPORT

The Audit Committee operates under a written charter adopted by the Board of Directors. Each of the members of the Audit Committee qualifies as an independent director under the applicable rules of the Securities and Exchange Commission and the New York Stock Exchange listing standards relating to audit committees. The Board of Directors has determined that Peter R. Johnson is an audit committee financial expert and is independent of management as defined by rules of the Securities and Exchange Commission. The designation as an audit committee financial expert does not impose any duties, obligations or liabilities that are greater than the duties, obligations and liabilities imposed by being a member of the audit committee or board of directors. The Audit Committee held eleven meetings during the year.

The Audit Committee has reviewed and discussed the audited financial statements for the year ended February 3, 2007 with management and the independent auditors, Deloitte & Touche LLP. Management represented to the Audit Committee that the Company's consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States of America.

The discussions with Deloitte & Touche LLP included the matters required by Statement on Auditing Standards No. 61 (Communications with Audit Committees), the standards of the Public Company Accounting Oversight Board and Rule 2-07 of regulation S-X of the Securities Act of 1933, as amended. Also Deloitte & Touche LLP provided to the Audit Committee the written disclosures and the letter regarding its independence as required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees). The Audit Committee also considered whether the provision of non-audit services by Deloitte & Touche LLP is compatible with maintaining the auditor's independence.

Based upon the reviews and discussions noted above, the Audit Committee recommended to the Board of Directors that the audited consolidated financial statements be included in the Company's Annual Report on Form 10-K to be filed with the Securities and Exchange Commission for the year ended February 3, 2007 and that Deloitte & Touche LLP be appointed independent auditors for the Company for 2007.

PROPOSAL 3. STOCKHOLDER PROPOSAL CONCERNING SUSTAINABILITY REPORT

The Connecticut Retirement Plans, 55 Elm Street, Hartford, CT 06106, owner of 111,662 shares of Class A Common Stock; The New York City Pension Funds, 1 Centre Street, New York, NY 10007, owner of 78,564 shares of Class A Common Stock; Amalgamated Bank LongView Collective Investment Fund, 15 Union Square, New York, NY 10003, owner of 22,546 shares of Class A Common Stock and Christian Brothers Investment Services, Inc., 90 Park Avenue, 29th Floor, New York, NY 10016, owner of 3,800 shares of Class A Common Stock have indicated that they intend to propose the following resolution for action at the meeting:

WHEREAS: Investors increasingly seek disclosure of companies' environmental and social practices in the belief that they impact shareholder value. Many investors believe that companies that are good employers, environmental stewards, and corporate citizens may be more likely to generate incrementally better financial returns, be more stable during turbulent economic and political conditions, and enjoy long-term business success.

Sustainability refers to endeavors that meet present needs without impairing the ability of future generations to meet their own needs. According to Dow Jones, Corporate Sustainability is a business approach that creates long-term shareholder value by embracing opportunities and managing risks deriving from economic, environmental, and social developments. Corporate sustainability leaders achieve long-term shareholder value by gearing their strategies and management to harness the market's potential for sustainability products and services while at the same time successfully reducing and avoiding sustainability costs and risks.

<http://www.sustainability-indexes.com/html/sustainability/corpsustainability.html>

We believe that improved reporting on and governance issues can strengthen our company and the people it serves. Furthermore, we believe this information is necessary for making well-informed investment decisions as it speaks to the vision and stewardship of management and can have significant impacts on our company's reputation and on shareholder value.

Responding to interest from stakeholders about company policies and programs to address environmental and social issues, many companies are describing their initiatives in corporate social responsibility (CSR) reports. Globally, almost 1,900 companies produce reports on sustainability issues (www.corporateregister.com). Apparel manufacturers and retailers such as The Gap, Nike, and Adidas/Reebok have also issued publicly available reports that detail their policies, practices and programs.

The Gap 2004 Social Responsibility Report provides a compelling rationale for sustainability reporting: We believe that greater standardization of reporting is critical to promoting transparency and accountability within our industry. It is also an important step towards ensuring that human rights are broadly respected throughout supply chains.

RESOLVED: Shareholders request that the Board of Directors issue a sustainability report to shareholders, at reasonable cost, and omitting proprietary information, by March 31, 2008.

Supporting Statement

The report should include Dillard's definition of sustainability, as well as a company-wide review of environmental and social policies, practices, and indicators related to measuring long-term sustainability.

We recommend that Dillard's use the Global Reporting Initiative's Sustainability Reporting Guidelines (The Guidelines) to prepare the report. The Global Reporting Initiative (www.globalreporting.org) is an international organization with representatives from the business, environmental, human rights, and labor communities. Almost 1,000 companies use or consult the Guidelines for sustainability reporting.

THE BOARD OF DIRECTORS FAVORS A VOTE AGAINST THE ADOPTION OF THIS PROPOSAL FOR THE FOLLOWING REASONS:

The Company recognizes the importance, as both an ethical and a business responsibility, of reflecting environmental and social considerations in how it conducts its business.

The Company has always been committed to the highest ethical conduct and strict compliance with the law in all its business dealings, including its relationships with its many suppliers. The Company is deeply concerned about the issues raised in the Proposal and believes it has already adequately addressed such issues as described below.

As an important part of environmental and social considerations, the Company's policy has been to obtain assurances that the products it sells are manufactured in accordance with all applicable laws, rules and regulations, including those relating to the environment, labor, worker health and safety. The majority of the products sold at the Company's stores are supplied by independent suppliers who also supply other retail stores

and chains. To a lesser degree, the Company is also supplied by sources contracted by the Company or by buying agents for the Company. The Company does not engage directly in manufacturing.

The Company has previously addressed the concerns raised in the Proposal by implementation of the following policies and procedures:

The Company focuses on the legal compliance by, and workplace conditions of, vendors. The Company's internal guidelines for its own sourcing personnel reflect its longstanding philosophy that no merchandise purchased by the Company will be manufactured other than in full compliance with all applicable laws, rules and regulations, including those relating to labor, worker health and safety, and the environment. In addition, the Company reserves the right not to contract with and to break contracts with vendors who violate basic human rights.

Moreover, the Company's agreements with buying agents include prohibitions against illegal child labor and other forms of illegal employment, and illegal manufacturing, shipping, customs and environmental practices. Under the contract, a buying agent must use its best efforts to ensure that each vendor is in full compliance with any applicable current, or later adopted, law of either the country of manufacture or the United States governing the use of child labor, prison labor, and/or governing the importation into the United States of merchandise produced with child labor as well as any other similar human rights statute, regulation or law. Buying agents must also follow policies and procedures which the Company implements to ensure that all such statutes, laws or regulations are followed. If a buying agent discovers a violation of such prohibitions, the buying agent must immediately notify the Company of such violation(s) or evidence of violation(s), so that appropriate action can be taken to rectify such violation(s). Under these agreements, among other measures, buying agents are required to periodically inspect factories to ensure compliance with these standards. Additionally, Company employees personally inspect selected factories to verify compliance.

The Company's philosophy also appears in the Company's Purchase Order Terms, Conditions & Instructions, which is the Company's standard form of purchase order and which is applicable to all transactions between the Company and all of its suppliers. The document explicitly requires each supplier to warrant and represent that its merchandise is manufactured in compliance with any applicable current, or later adopted, law of either the country of manufacture or the United States governing the use of child labor, prison labor, and/or governing the importation into the United States of merchandise produced with child labor as well as any other similar human rights statute, regulation or law.

The Company has previously issued a press release announcing its business policy, which policy contains prohibitions against workplace abuse and also contains the steps taken by the Company to implement the policy. Furthermore, the Company has furnished copies of that policy, as it has evolved, to interested shareholders, and will continue to so provide copies of that policy.

The Company continues to monitor and review its policies to ensure that the principles set forth above are appropriately implemented and to address new concerns or issues that arise by our participation in a global marketplace whose standards continue to evolve.

The Company believes that it has already addressed the concerns raised in the Proposal without further expenditure of valuable time and funds. As the above reflects, the Company is committed to assuring that its suppliers are in full compliance with all applicable labor, worker health and environmental laws, rules and regulations, and in full compliance with the Company's policies and procedures.

FOR THE ABOVE REASONS, THE BOARD UNANIMOUSLY RECOMMENDS VOTING AGAINST PROPOSAL NO. 3.

Management of the Company knows of no other matters that may come before the annual meeting. However, if any matters other than those referred to herein should properly come before the annual meeting, it is the intention of the persons named in the enclosed Proxy to vote the Proxy in accordance with their judgment.
